Other Costs	** Vary	** Vary	** Vary	** Vary

* **Books:** In general, if the student is following a program with historical orientation (Art History, History of Film & Video, etc.) book costs will be higher - about \$1000.00 per year. If the program is more practical than historical, book costs will be lower - about \$850.00 per year, and supplies costs (see other costs) will be higher.

** **Other Costs** - as listed below:

Music Majors must spend about \$200.00 per year for music for their lessons and about \$100-\$150 per year for maintenance of instruments (except voice and piano). Graduate students in Conducting have to buy scores (\$200.00/year). Music composition majors spend about \$250.00-\$450.00 for music software. When using professional accompanists for 3rd and 4th year recitals & rehearsals, cost range from \$300.00 - \$500.00; juries range from \$60.00 - \$100.00.

Film & Video Majors incur materials fees from \$100.00 to \$175.00 per production course. In addition, 3rd and 4th year students pay a minimum of \$500 or more per film production course for materials used in class. Senior students in the Bachelor of Fine Arts program traditionally register for one course less than a full load (12 credit hours/semester) due to the heavy time commitment to film production courses.

Visual Arts Majors: While some materials are supplied, art-making materials such as paint, canvas, clay, sculpture, other media, etc., must be supplied by the students, and range from \$50.00 to \$250.00 per course. Senior students in the Bachelor of Fine Arts program traditionally register for one course less than a full course load (12 credit hours/semester) due to the heavy time commitment to studio courses.
