For 40 years, Grant MacEwan University has been providing education for a real and changing world. And we're changing right along with it.

MacEwan has grown to become a degree-granting institution – but we haven't forgotten our roots... along with four-year bachelor degrees, you'll find career diplomas in fields as varied as liberal and performing arts, science, communications, business, and health and community studies.

At Grant MacEwan University, the sky's the limit.

Welcome to MacEwan

For 40 years, Grant MacEwan University has been committed to providing a learning environment that places the success of its students at the very centre of its mission.

MacEwan offers a rich and diverse range of post-secondary educational opportunities to a broad range of learners. Small class sizes and accessible faculty promise unique learning opportunities at a university level.

MacEwan's programming includes a combination of degrees, diplomas and certificates, as well as noncredit courses and degree transfer programs, in arts and science, business, health care and community studies, communications, and performing and visual arts.

Students will not only find themselves welcomed to MacEwan but also to Edmonton, the friendly, bustling and culturally diverse capital of Alberta, Canada. MacEwan opens its doors to international students whose interactions with faculty and fellow students bring cultural diversity to ideas and philosophies explored in our classrooms. We anticipate welcoming you to one of Canada's newest and most dynamic undergraduate universities.

David W. Atkinson

President

About Grant MacEwan University

Grant MacEwan University, a government funded and public institution, has a national reputation for providing quality, affordable and student-centred education.

Our strengths lie in our small classes, individualized instruction, student support services, customized options, varied learning formats and excellent modern facilities, all of which translates to a better education for you.

MacEwan is home to nearly 40,000 full-time and part-time students on four campuses, making it one of the largest institutions of its kind in Western Canada. We offer seven baccalaureate degrees plus three university transfer programs, two applied degrees, over 50 diploma and certificate programs, as well as specialized bridging programs for international students.

Approximately 1,000 international students from over 50 countries are now attending MacEwan each year. MacEwan International provides many specialized services for students including pre-departure information, student orientation, financial advice, social and cultural event planning and general advising.

MacEwan's four campuses are equipped with up-to-date educational facilities. The MacEwan Library is home to more than 350,000 books, periodicals, CDs, DVDs, AV and state-of-the-art learning materials. Science, nursing, computing and

engineering labs offer students a high-tech and modern learning environment.

The Christenson Family Centre for Sport and Wellness is one of the finest athletic facilities in Alberta. A weight room, fitness equipment, swimming pool, racquetball/squash courts and a gymnasium are available to all students.

MacEwan students enjoy the option of participating at the competitive level of the Alberta College's Athletic Conference (ACAC) League in a variety of sports: basketball, cross-country running, curling, golf, women's and men's hockey, soccer and volleyball. A recreational intramural league is also well attended.

About Edmonton

Grant MacEwan University is located in Edmonton, Alberta, Canada. Edmonton, the capital city of Alberta, is a vibrant multicultural community of almost one million people living in the geographic centre of Western Canada. Designated as one of Canada's five Smart Cities, Edmonton is a centre for industry and commerce, government and post-secondary education, and is one of the lowest taxed cities in the country. Edmonton is also one of the most well educated urban populations in North America and was recently ranked by *Maclean's* magazine for having the best health services in Canada.

Known as Canada's Festival City, Edmonton's festivals present internationally recognized cultural events all year round. Also known as the City of Champions, Edmontonians enjoy and support professional and amateur teams and play host to a variety of world class sporting events, enjoy the benefits of the surrounding prairie and parklands as well as the short travel distance to the majestic Rocky Mountains.

About Alberta

Chinooks, coulees, ancient dinosaur beds, Rocky Mountains, tumbling glaciers, a booming economy, three million people and no provincial sales tax are some of the characteristics used to describe Alberta.

Alberta is located in Western Canada and is approximately 1,000 kilometres east from the Pacific Ocean. It has the fastest growing and strongest economy in Canada and produces 90 per cent of the country's petroleum resources.

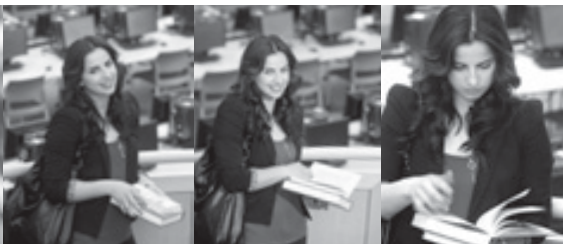

In addition to the province's breathtaking views, abundant natural resources and limitless potential, Albertans rank among the most highly educated, productive and innovative people in North America.

About Canada

Canada welcomes more than 130,000 international students each year who contribute to the growth of Canada as a cultural mosaic. There are many reasons why students consider continuing their

education in Canada. The United Nations has consistently ranked Canada as one of the top 10 countries in which to live, learn and work. Students enjoy Canada's breath-taking natural beauty including the Rocky Mountains, numerous national and provincial parks and our four distinct seasons. Canada is a multicultural society, where customs and traditions are respected and valued.

In addition, Canada's education system is excellent and degrees earned in Canadian colleges and universities are internationally recognized because they are subject to strict governing standards. As a bilingual and multicultural society, Canada is also a world leader in second language training programs.

“ Not only does MacEwan nurture and help you choose the path that's right for you, but the advisors are always there to help you evaluate all of your options. ”

Fabjola Gera • Bachelor of Commerce (International Business), second year

What's next? *After graduation I plan to apply to Faculty of Law at the University of Alberta.*

After going to MacEwan's Open House, I preferred the feel of "the MacEwan community." MacEwan is great for so many reasons, and the first is that everyone is so willing to help. The faculty really make an effort to get to know you and make sure you are aware of the resources available to you. Overall I feel like MacEwan was the best choice I could have made and I'm really being prepared to achieve my goals!

MacEwan is the perfect place for any student coming from another country.

Esosa Igbinosun
Bachelor of Science (Biological Sciences),
fourth year

The student population is not as large as some other universities, and that is an advantage for international students. The smaller class sizes make it easier to establish a student-instructor relationship, which helps you get individual attention and exposure to research opportunities you might not get elsewhere. This has been a key reason for my academic success.

MacEwan Programs

MacEwan offers the most personalized education possible. Learning in smaller classes, with respected faculty members who know you by name, will give you the confidence to take on the challenge of a university program.

MacEwan University Studies International

MacEwan University Studies International (MacEwan USI) is a bridging program designed to provide international students the opportunity to complete the admission requirements needed to enter MacEwan diploma or degree-related programs, whether those requirements relate to English language or academic proficiency. (see page 17)

University transfer

Start your university studies at MacEwan

Many students prefer to make the transition from high school to university at a smaller, teaching-focused undergraduate institution and then move to a larger research-centred university to complete their education. You can take the first one or two years of your baccalaureate degree in one of MacEwan's university transfer programs and then transfer to another institution to earn your degree. Whatever your next steps, you can begin with one of the most successful transfer programs in Canada.

Degrees

Complete your university studies at MacEwan

MacEwan students are now able to earn four-year undergraduate baccalaureate degrees without transferring to another institution. Providing increased access to quality education by offering four-year degrees was a natural progression for MacEwan. We're already established as the number one transfer institution in the province, so the ability to offer baccalaureate degrees simply means more options for you, the student.

After undergoing in-depth and rigorous reviews to ensure that they met both national and international quality

standards, MacEwan now offers full four-year Bachelor of Arts, Bachelor of Commerce, Bachelor of Communication Studies, Bachelor of Child and Youth Care, Bachelor of Music in Jazz and Contemporary Popular Music, Bachelor of Science and Bachelor of Science in Nursing degrees.

Applied degrees

The ultimate in well-rounded education, applied degrees combine three years of academic study with one year of paid on-the-job experience. The work placement is used as a "learning laboratory," with students keeping close contact with MacEwan instructors while contributing to a company's performance. This allows you to hone your skills in the real world and kick start your career.

MacEwan currently offers applied degrees in accounting and human service administration.

Careers – diplomas and certificates

MacEwan offers over 40 programs in health, human services, the performing and visual arts, business, criminal justice, leadership and communications. Complete a career-related program in one to three years with a marketable credential and a solid skill set that employers expect. When you leave, you'll be prepared to enter the work

force with expertise, and you'll have the skills you need to keep your career moving forward.

Many of MacEwan's career programs have transfer agreements with degree programs at MacEwan or other learning institutions in Alberta and beyond. So whether you're ready to jump into a career or want to build up your credentials, a diploma or certificate program might be right for you.

“ MacEwan is accessible, accommodating and inviting. It’s an innovative place and is very student-focused. ”

David Drohan
Bachelor of Arts (Psychology),
second year

What’s next?

Graduate school. I’d like to work in either clinical or organizational/industrial psychology.

Things like alternative intakes, small class sizes, accommodating faculty who know your name—and great reviews from friends—all influenced my decision to seek my education at MacEwan. Combine that with all the opportunities to get involved in the university, and you’ve got something special.

Since being elected into the Students’ Association executive, I’ve really come to realize how big a role services like the housing registry, the library and IT services have played in my education.

**At MacEwan we do more than teach.
We inspire. Ignite passions. Create confidence.**

MacEwan International

www.MacEwan.ca/International

MacEwan International promotes international education and provides leadership, support and services for international students and staff who are involved in international activities. MacEwan International helps international students by providing pre-departure information, orientation, social/cultural event planning and other general advice; provides students and staff with opportunities to work or study abroad; and builds relationships with other institutions around the globe. MacEwan International is located on the City Centre Campus in Room 7-105.

Student Resource Centre

www.MacEwan.ca/SRC

Your success matters

At MacEwan, your success as a student is just as important to us as it is to you. The focus of the Student Resource Centre (SRC) is to help you achieve your goals by providing access to programs, activities and resources aimed at promoting academic and personal success. Let the SRC assist you with your educational, personal and career concerns.

Services include:

- Advising
- Counselling
 - Admissions
 - Financial
- Scholarship, Awards and Bursary Information
- Student Loan Assistance
- Student Success Program
- Writing and Learning Services
- Services to Students with Disabilities
- Career Services
- International Student Advising
- Campus Tours
- New Student Orientation

- Parent Orientation
- MacEwan Ambassador Program
- Student Recruitment Services

MacEwan Library

www.Library.MacEwan.ca

Expand your mind

Each MacEwan campus has a library that offers a wide range of resources, services and staff to support students. www.Library.MacEwan.ca is the access point for finding books and articles, writing style guidelines, reputable websites, hours of operation, technology support and other information. MacEwan students have access to a library collection of over 350,000 items, such as books, videos and DVDs, CDs and a reserve reading collection with many electronic journals and books available 24/7 through remote access.

Other services the Library offers include:

- Reference staff to assist with library research and reference questions
- Technology support staff to assist with technology-related questions
- Student photo identification card production
- PC and Mac computers with Internet access and word processing software
- AV equipment and rental laptops
- Wireless Internet access
- Study and group use space

- Photocopiers and printers
- Borrowing privileges at many other libraries in the Edmonton area such as the University of Alberta, public libraries and a number of hospital and government libraries

Students' Association

www.MacEwan.ca/SA

Success for students

Through advocacy and support, the Students' Association (SA MacEwan) provides opportunities that advance student success. SA MacEwan strives to guarantee the strongest possible voice for the students of MacEwan at the university's Board of Governors and several other committees.

An elected Students' Council, containing four executive members and 12 student representatives, represents MacEwan students. The executive and council are responsible for decisions on the priorities, vision and direction of the association, and are supported by both full- and part-time staff members.

In addition to providing excellent entertainment events for students on all MacEwan campuses, SA MacEwan provides a complete health and dental plan and administers the Universal Transit Pass (U-Pass), a mandatory fee-based service that entitles MacEwan students to unlimited use of Edmonton and area public transit services from September through April. The association also

“ I am so glad I made the decision to come here. I’d encourage anyone who is thinking about MacEwan to come and meet the amazing people that are studying and working here! ”

Shantel Schmidek
Bachelor of Arts (Sociology), second year

What’s next?

I plan to get a master’s degree in criminology.

What makes MacEwan great? Everything! From the faculty’s involvement in the students’ learning and growing, to the students working to make the community—and university—a better place.

My professors have had a huge impact on my experience. It doesn’t matter if it’s early or late in the day, you can always get hold of them and they are always willing to take as much time as needed to help you.

provides key student-focused services – Safe Walk, Peer Support, Global Projects, Student Food Bank, SWAT (Social Wellness Awareness Team), ISPP (International Student Partnership Program) and our charity Adopt-A-Family – that are available to all MacEwan students. SA MacEwan offers a full host of online registries (tutors, housing, used text books, typist, carpool, classified, volunteer and job), produces a weekly newspaper (*The Griff*) and an annual handbook given to students at the start of each term.

For these services and more the Students' Association collects a membership fee.

Christenson Family Centre for Sport and Wellness

www.MacEwanCentre.ca
www.MacEwan.ca/recreation

Exercise your mind...and your body

Take advantage of our top-notch facilities and programs to escape from the everyday humdrum of being a student.

Your Sport and Wellness fee gives you access to on-campus fitness and aquatics facilities, value-added classes, student-only programs and discounted recreation leagues, tournaments and adventure programming.

Intercollegiate Sports

MacEwan Griffins Athletics has a proud tradition of competing in hockey, basketball, volleyball, soccer, curling, cross-country running, golf and dance. We compete against 17 other Alberta and Saskatchewan colleges in the Alberta College Athletic Conference (ACAC).

Team tryouts are held at the end of August / early September. Athletes must meet academic and athletic requirements and must be full-time students to qualify.

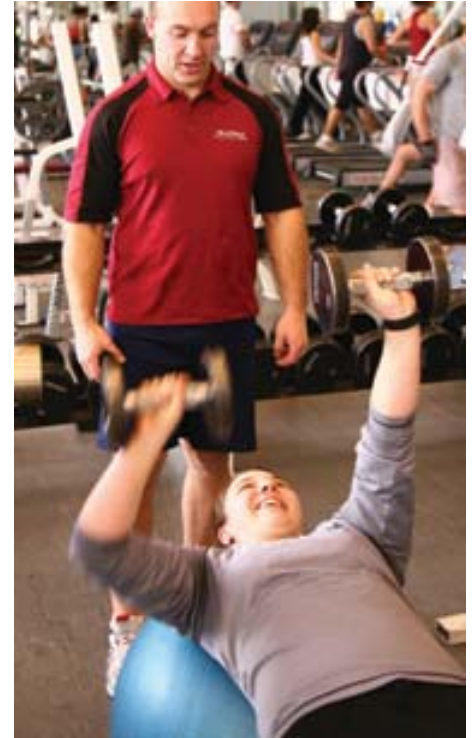

We also offer a number of part-time jobs for students in a number of areas:

- minor officials at home games
- sports writing
- sports photography
- sports marketing and promotions assistants

For more information, visit www.MacEwanAthletics.ca

MacEwan Health Services

Located on the main floor of the Christenson Family Centre for Sport and Wellness, Health Services are

available to students, staff and the public from Monday to Friday from 8:30 a.m. to 4:30 p.m. Services include doctor appointments, physical exams, immunizations, allergy shots, athletic therapy, birth control, pregnancy tests, PAP tests, post-injury rehabilitation, nutrition counselling, exam deferral notes, health promotions and specialist referrals.

Go to www.MacEwanHealth.ca for information. Walk-ins are welcome.

“ I stayed here because I felt like I was getting more from my education than just knowledge from a classroom. ”

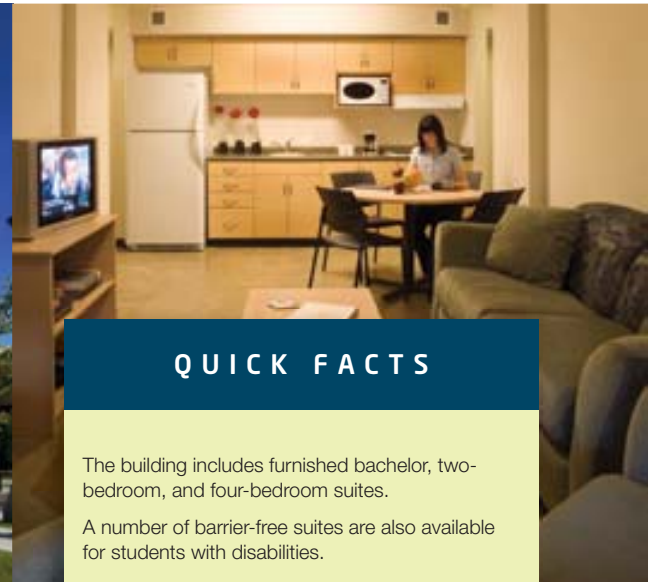

Darren Joneson • Bachelor of Science, fourth year

What's next? *Medical school at the University of Alberta, and if that doesn't work out then I've been accepted to go teach English in Japan for a year.*

I initially chose MacEwan because tuition was lower and I liked the smaller class sizes. I stayed because I felt like I was getting more from my education than just knowledge from a classroom. I've enjoyed volunteering and getting involved in clubs and extracurricular activities. The support has been huge for me! I've worked really hard my entire degree and it's nice when hard work pays off.

MacEwan Residence

www.MacEwan.ca/Residence

QUICK FACTS

The building includes furnished bachelor, two-bedroom, and four-bedroom suites.

A number of barrier-free suites are also available for students with disabilities.

- Workstation and chair
- Two-drawer pedestal
- Phone line for local calls
- Basic satellite television service (13 channels)
- Free Internet access
- Large window
- Closet organizer

Rates (2011/2012)*

From \$5,915 to \$7,385 per person

**All fees include the following: Residence Life fees (fall and winter terms), orientation fees and laundry/residence ID cards.*

Information and Residence Applications

Residence applications are available online at www.MacEwan.ca/residence.

Residence applications for 2012/2013 will be available in October.

For more information, email residence@macewan.ca or call 780-633-8000 or 1-877-497-4017.

More than just a place to live.

Located on City Centre Campus, the MacEwan Residence gives more than 850 students safe, affordable housing and a unique living and learning environment.

It's more than just a place to live. It's a place to meet other students and get involved in campus activities. It's a place to learn and excel in a supportive environment. And a place to call home.

Safe. Central. Complete.

The building is as central as you can get in Edmonton. It's located right on City Centre Campus, close to classes and services like the MacEwan Library and the Christenson Family Centre for Sport and Wellness. And it's within walking distance to everything from groceries and restaurants, to shopping and entertainment. It is also near a major hub for public transit, serving major sites across the city and all other MacEwan campuses.

Why Live in Residence?

The best thing about living in residence is the experience of living in a unique community with other students facing the same experiences and challenges you face everyday. Residents often

say they appreciate how easy it is to meet new people and to develop great friendships that last well beyond their experiences at MacEwan.

The residence environment provides you the opportunity to become an active member of the MacEwan community and to develop a range of personal skills. Our Residence Life program includes everything from social events and fun activities like intramurals and movie nights, to personal growth workshops like study skills and resumé writing workshops, to formal leadership opportunities on the Residence Life Staff Team.

Safety and Security

With 24-hour security, a multi-key access system, and a team of live-in staff, MacEwan's residence is built to give you the security you need.

University Entrance Programming

MacEwan University Studies International

www.MacEwan.ca/usi

Many international students lack some of the admission requirements needed to directly enter a degree or diploma program of study. MacEwan University Studies International (MacEwan USI) provides international students the opportunity to complete the admission requirements needed to enter a MacEwan diploma or degree-related program, whether those requirements relate to English language or academic proficiency. As part of their MacEwan USI program, students may complete some of the course work that forms part of their future goal diploma or degree.

Program of Study

Depending on their language and educational background, students may begin their MacEwan USI program in one of the following three categories:

- 1. Full-time English language preparation (Standard Entry English).** International students who have a low level of English language proficiency as indicated by an iBt TOEFL score below 70 or an IELTS score less than 5.5 will begin their MacEwan USI program by taking full-time ESL course work. Students who have not completed a TOEFL or IELTS test will be placed in an appropriate level of ESL study based on MacEwan's Placement Test.
- 2. Full-time high school course work (Standard Entry Secondary).** International students needing to complete three or more high school courses that are required for admission to their goal program will begin their MacEwan USI program by completing these necessary courses.

- 3. Advanced Entry.** International students who require less than full-time English preparation or full-time secondary studies may undertake some post-secondary course work that forms part of the curriculum of their goal program, while at the same time completing the necessary English language preparation or secondary course work needed to enter that program.

Students are considered to have completed the MacEwan USI program when they have completed the admission requirements to their goal program. Under most circumstances this would be expected to take no more than one to two years. English language proficiency for MacEwan programs can be satisfied by completing a TOEFL, IELTS, or other equivalent test at the specified levels required for admission, or by attaining the required grade in MacEwan's ENGL 086 English language preparation course.

All MacEwan USI students are expected to consult regularly with the MacEwan USI academic advisor to ensure they are undertaking the

appropriate course work. Successful completion of MacEwan USI provides international students the opportunity to enter one of MacEwan's many career and degree programs of study. Some of these programs have quotas and admission may be on a competitive basis.

English Second Language (ESL)

International students who only wish to take ESL course work to improve their English language skills must apply to the MacEwan USI program as the ESL courses are provided to them through this program. Being in the MacEwan USI program also allows them access to the various benefits available to students registered in a MacEwan program (health and dental care, U-Pass, Students' Association, etc.), as well as the opportunity to consult with a MacEwan USI Academic Advisor.

Career potential

A Bachelor of Arts (BA) degree is highly marketable across employment sectors because arts graduates develop superior communication skills, the ability to approach issues from differing perspectives, and a general appreciation of knowledge.

Many BA grads consider graduate studies or admission into professional programs like law, business, education and social work. The possibilities truly are endless; a BA degree prepares you for whatever lies ahead.

Program of study

The MacEwan arts degree is designed to give you breadth of education,

combined with depth of study and flexibility of courses.

MacEwan offers majors and minors in the following disciplines: anthropology, economics, English, history, philosophy, political science, psychology and sociology. Minors are also available in biological sciences, business studies, classics, chemistry, computer science, earth and atmospheric sciences, mathematics, physics and statistics.

In addition to the courses offered within our majors and minors, courses are also available in the following subject areas: art history, astronomy, biochemistry, botany, Chinese, comparative literature, drama, education, French, genetics, German, Japanese, Latin, linguistics, Spanish and zoology.

For a complete program of study and full course details, visit www.MacEwan.ca/BA.

Transferability

Students who attend the Bachelor of Arts program at MacEwan may still choose to complete their degree at the University of Alberta, or another post-secondary institution. If you intend to transfer, please consult a BA advisor.

If you are currently attending another post-secondary institution and are interested in transferring to the Bachelor of Arts program at MacEwan, please contact a BA advisor.

Bachelor of Arts

Email: international@macewan.ca

ADMISSION

Regular Admission

Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. Group C course*
3. Three subjects from Group A, B or C (a maximum of two Group B subjects can be used; they must be from different subject areas)*

Notes:

- Students are strongly encouraged to present a range of courses in order to benefit from the breadth of learning and to increase the flexibility of their options in the Bachelor of Arts degree.
- Certain university-level courses have high school prerequisites and students are responsible to ensure they have fulfilled these prerequisites prior to registration in those courses.

- Mathematics 30-1 is required for courses in the Economics major; Mathematics 30-1 or Mathematics 30-2 is required for courses in the Psychology major.

- Specific university-level courses may be used to substitute for courses deficiencies.

Applicants with nine or more university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term. Applicants must have the following:

- ELA 30-1 with a minimum grade of 65 per cent (or equivalent)

OR

- Six credits of university-level English with no grade less than C-

Applicants with nine or more university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Previous Post-Secondary Work**

Applicants must have successfully completed the following from a recognized institution:

- A minimum of 24 credits of university transferable coursework with a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale and must have completed the required high school courses listed under the Regular Admission category.

ADDITIONAL ADMISSION CRITERIA

Other Admission Criteria

Applicants who have been assigned two unsatisfactory academic records within the past five years will not be considered for admission or re-admission to the program until a minimum three years from the

Bachelor of Child and Youth Care

(with diploma exit option)

www.MacEwan.ca/CYC

Faculty of Health and Community Studies

Not everyone makes it through school years, adolescence, and early adulthood with ease and success. Some young people experience neglect, abuse, failure, emotional distress or family breakdown that can leave them ill-equipped to face the future. Helping young people and their families overcome emotional and behavioural problems is the child and youth care worker's role.

MacEwan's Bachelor of Child and Youth Care program has a proud history of preparing students for a rewarding career helping troubled young people and their families. Now students can choose to complete the four-year degree right here at MacEwan, or exit after two years of study with a diploma.

Career potential

Sensitive, well-educated and knowledgeable graduates are in demand across Canada. You can enjoy a rewarding career as a youth worker, family support worker, out-of-school care worker; child/youth care worker/counsellor, counsellor assistant, family enhancement worker or family-school liaison worker. Work settings include treatment centres, group homes, youth centres, mental health centres, family support programs, community-based programs, foster care and schools.

Degree graduates (after successful completion of year four) are prepared for positions as advanced front-line child and youth care practitioners and/or supervisory positions. Diploma exit students (after successful completion of year two) are prepared for entry level, front-line positions.

Transferability

Bachelor of Child and Youth Care degree graduates eligible for admission to the Master in Child and Youth Care program through the University of Victoria and may be eligible for admission to various other graduate level programs.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

ADMISSION

Competitive

Admission to this program is considered COMPETITIVE either because of higher than minimum academic requirements, other admission criteria or a combination of both. See Competitive Programs p. 77 or contact the program for more information.

Regular Admission

Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. Social Studies 30
3. One Group A, B or C course*
4. One Group A, B, C or D course*
5. One Group C course*

Notes:

- Specific university-level courses, with a minimum grade of C-, may be used to substitute for course deficiencies only under the following circumstances:
 - Six credits of university-level English in lieu of ELA 30-1
 - Six credits of university-level language, other than English, in lieu of a Group A course (all six credits must be the same language)

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term.

Applicants must have the following:

- ELA 30-1 with a minimum grade of 65 per cent (or equivalent)

OR

- Six credits of university-level English with a minimum grade of C-

Previous Post-Secondary Work**

Applicants must have successfully completed one of the following from a recognized institution:

- A Child and Youth Care Diploma or a related Certificate or Diploma.

OR

- A minimum of 24 credits of university transferable coursework with a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale and must have completed the required core courses listed under the Regular or Mature Admission category.

ADDITIONAL ADMISSION CRITERIA

Other Admission Criteria

Applicants are required to submit the following:

- evidence of a minimum 40 hours of relevant volunteer or work experience.

- one reference letter relating to applicant's relevant volunteer or work experience.
- a personal profile demonstrating an understanding of the role of a child care worker.

Note: Applicants from Child and Youth Care diploma programs applying to third year will only be required to submit a resume and one reference letter.

Conditionally accepted applicants are required to submit the following by the beginning of the intake term:

- Current, clear Security Clearance with Vulnerable Sector Search or eligibility to apply for a pardon and no open youth record.
- Current Standard First Aid and Level C CPR certification.

Career potential

Business graduates can start careers in such areas as finance, marketing, accounting, management information systems, entrepreneurship and small business, human resource management or international business fields.

Program of study

Year 1: The core courses:

Introduction to Microeconomics (ECON 101), Introduction to Macroeconomics (ECON 102), Elementary Calculus I* (MATH 113)**, Analysis and Argument (ENGL 102), Introduction of Literature (ENGL 103), Probability and Statistics (MGTS 103).

In addition, you will select three elective courses in humanities, sciences or social sciences.

* Note: Students with credit in Math 31 will be enrolled in Math 114 in lieu of Math 113.

Year 2: The core courses:

Introductory Accounting (ACCT 311), Managerial Information and Control Systems (ACCT 322), Introduction to Canadian Business (BUSN 201), Introductory Finance (FNCE 301), Business Law I (LEGL 210), Fundamentals of Marketing (MARK 301), Probability and Statistics II (MGTS 312), and Introduction to Management (ORGA 201).

In addition, you will select one elective course in humanities, sciences or social sciences.

** Important information about Math 113. The prerequisites for Math 113 are:

1. 80 per cent or greater in Pure Mathematics 30.
2. A minimum final grade of C- in Math 0099. Math 0099 can be taken through the Bachelor of Commerce program
3. Pass in Pure Mathematics 30 and a pass in a diagnostic test to be given at MacEwan.

4. Pass in Pure Mathematics 30 and Math 31.

Years 3 and 4

Courses will vary depending on your choice of major. Visit our website (www.MacEwan.ca/bcom) for detailed information or contact an advisor 780-497-5162.

Transferability

You can transfer after one or two years of study at MacEwan (60 credits maximum). The grade point average (GPA) required for admission varies between institutions.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Bachelor of Commerce

Email: international@macewan.ca

ADMISSION

Regular Admission

Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. Mathematics 30-1 or Mathematics 30-2
3. One Group A course*
4. One Group C course*
5. One Group A, B or C course*

Notes:

- Although it is not an admission requirement, Mathematics 31 is strongly recommended.
- Under Regular Admission, applicants must have completed the appropriate high school courses or present university transferable post-secondary substitutions with a minimum grade of C-.

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term. Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. Mathematics 30-1 or Mathematics 30-2
3. One Group C course

Previous Post-Secondary Work**

Applicants must have successfully completed one of the following from a recognized institution:

- A business or business-related post-secondary Certificate or Diploma with a minimum Admission Grade Point Average (AGPA)** of 3.0 on a 4.0 scale.

OR

- A minimum of 24 credits of university transferable coursework with a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale and must have completed the required core courses listed under the Regular or Mature Admission category.

ADDITIONAL ADMISSION CRITERIA

Other Admission Criteria

Applicants who have been assigned two unsatisfactory academic records within the past five years will not be considered for admission or re-admission to the program until a minimum three years from the date of the assignment of the last unsatisfactory academic record. For the purpose of admission or re-admission, an unsatisfactory record is defined as a transcript with the notation "required to withdraw" or equivalent.

Competitive program

Credential available: Degree

Program location/Campus:

City Centre Campus

Alternative delivery: N/A

Want a career that is creative, dynamic and highly marketable? Do you wish to nurture your creativity and your power with words? The Bachelor of Communication Studies degree will provide you with the essentials of effective communication and prepare you for an exciting career in the field of communication.

Major in professional communication or journalism. Develop your critical-thinking and decision-making skills, hone your technical and interpersonal effectiveness, and build a portfolio as proof of your competence.

Communication professionals are new and in demand. They are a hybrid of researcher, writer, reporter and information worker. The field is forward-looking and interdisciplinary. So is this degree. Prepare for a career that is dynamic and evolving. Prepare for a career in communication.

Career potential

The degree provides preparation for strategic roles in business, traditional and new media, not-for-profit and public sector organizations: wherever clear, correct and effective messages are valued.

Graduates of MacEwan's Bachelor of Communication Studies will have competency in critical problem solving, global awareness and cultural sensitivity, creativity, information and research literacy, and ethical and professional practice. These competencies will bring career success in a variety of positions – writer, editor, researcher, journalist, reporter, marketer, client or community relations practitioner, communications advisor, communications coordinator, public information officer, producer, social media contact, reviewer, analyst, commentator – and in many roles that have yet to be created. In 2008, Statistics Canada projected a rise in employment demand in communication fields, and in 2010, the Government of Alberta reported that hiring is robust for journalists and good for writers and editors.

Program of study

Year one includes common coursework for both professional communication and journalism majors, building a solid foundation in rhetoric, language and composition, visual communication, communication

theory and research methods. Years two and three provide both breadth and depth, allowing students to specialize in editing, strategic or technical communication (professional communication major) or in news gathering and digital media production (journalism major).

Year three's ethical practice and portfolio course culminates in a month-long professional field placement. Students conclude year four with skills, experience and practical proof of their communication competence. With both theory and practice in communication, students graduate with confidence and expertise.

ADMISSION

Competitive

Admission to this program is considered **COMPETITIVE** either because of higher than minimum academic requirements, other admission criteria or a combination of both. See Competitive Programs p. 77 or contact the program for more information.

Regular Admission

Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. One Group A, B or C course*
3. One Group A or B course*
4. One Group C course*
5. One Group A or C course (or Group B course if it was not used in #3 above)*

Applicants with nine or more post-secondary credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term. Applicant must have the following:

- ELA 30-1 with a minimum grade of 65 per cent (or equivalent)

OR

- Six credits of university-level English with a minimum grade of C-

Applicants with nine or more post-secondary credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Previous Post-Secondary Work**

Applicants must have successfully completed the following from a recognized institution:

- A minimum of 24 credits of university transferable coursework with a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale and must have

completed the required core courses listed under the Regular Admission category.

ADDITIONAL ADMISSION CRITERIA

Other Admission Criteria

Applicants must complete a writing assessment.

- Writing Assessment – Applicants must achieve a minimum grade of 65 per cent on this written assessment.

Note:

- Graduates of MacEwan Bachelor of Applied Communications in Professional Writing, Diploma in Professional Writing and Journalism programs will not be required to write the program's writing assessment.

Bachelor of Communication Studies

Email: international@macewan.ca

Imagine that your job is to shape the minds of tomorrow, to instill a passion for learning and problem solving in elementary, junior high or high school students. And imagine the personal satisfaction of making a difference in a student's life. Imagine becoming that favourite teacher who makes a difference. In addition to teaching opportunities, the Bachelor of Education degree is recognized and valued in other professional fields. A B.Ed. prepares you for a career and also serves as an excellent foundation for graduate school.

Bachelor of Education Transfer

www.MacEwan.ca/education
Faculty of Arts and Science

Career potential

Inspired to be teachers, education grads seek careers in elementary, secondary or adult education environments. Graduate studies is always an option.

Education students hone skills that make a B.Ed. highly marketable in careers outside the teaching profession as well. Some of these careers include:

- trainers/facilitators
- advisors
- youth workers
- fund raisers
- administrators
- recreation co-ordinators

Program of study

The B.Ed. transfer program at MacEwan is structured to align primarily with the University of Alberta (U of A) Bachelor of Education degree.

Elementary Route

You may complete up to 60 credits at MacEwan, depending on the minor you choose.

MacEwan offers the following coursework towards an elementary education degree:

- language/literature, mathematics, social sciences, natural sciences, fine arts, computing, physical education, health education

- introduction to the teaching profession and educational psychology
- options
- up to 12 credits in the chosen minor

Note: Students intending to pursue a minor in art or music should consult with a BA advisor prior to application.

Secondary Route

You can complete your first year (24-30 credits) and, in many cases, the second year of your education degree (up to 60 credits) at MacEwan, depending on your choice of major and minor.

ADMISSION

Regular Admission

Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. Group C course*
3. Three subjects from Group A, B or C (a maximum of two Group B subjects can be used; they must be from different subject areas)*

Notes:

- Students are strongly encouraged to present a range of courses in order to benefit from the breadth of learning and to increase the flexibility of their options in the Bachelor of Arts degree.
- Certain university-level courses have high school prerequisites and students are responsible to ensure they have fulfilled these prerequisites prior to registration in those courses.
- Mathematics 30-1 is required for courses in the Economics major;

Mathematics 30-1 or Mathematics 30-2 is required for courses in the Psychology major.

- Specific university-level courses may be used to substitute for courses deficiencies.

Applicants with nine or more university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term. Applicants must have the following:

- ELA 30-1 with a minimum grade of 65 per cent (or equivalent)

OR

- Six credits of university-level English with no grade less than C-

Applicants with nine or more university-level credits must also present a minimum Admission Grade

Point Average (AGPA)** of 2.0 on a 4.0 scale.

Previous Post-Secondary Work**

Applicants must have successfully completed the following from a recognized institution:

- A minimum of 24 credits of university transferable coursework with a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale and must have completed the required high school courses listed under the Regular Admission category.

ADDITIONAL ADMISSION CRITERIA

Other Admission Criteria

Applicants who have been assigned two unsatisfactory academic records within the past five years will not be considered for admission or re-admission to the program until a minimum three years from the date of the assignment of the last unsatisfactory academic record. For the purpose of admission or re-admission, an unsatisfactory

record is defined as a transcript with the notation "required to withdraw" or equivalent.

You can transfer to the University of Alberta's Faculty of Education with 24 to 60 credits in the education degree you are pursuing. If you intend to transfer to a different university, please consult a BA advisor.

Bachelor of Education Transfer Program

Email: international@macewan.ca

Bachelor of Music in Jazz and Contemporary Popular Music

www.MacEwan.ca/MusicDegree
Centre for the Arts and Communications

In the highly competitive world of music, further education is crucial for a successful and lasting career. Combined with programming uniqueness and an overwhelming demand from students, MacEwan is now offering a new four-year music degree.

At MacEwan, students have the chance to study jazz and contemporary popular music including pop and rock, making it one of the few universities in Canada with this unique programming.

With the addition of the B.Mus. degree program, MacEwan will continue to offer its celebrated music diploma program. Students will have the choice to apply to either the diploma program (current intake of 90 students per year) or the degree program (proposed intake of 30 students per year).

Career potential

The MacEwan Bachelor of Music in Jazz and Contemporary Popular Music (B.Mus.) is an academic degree that prepares students for the music profession and further studies at the graduate level.

For more than 30 years, MacEwan Music has been training some of Canada's most talented musicians. MacEwan Music graduates have gone on to pursue careers as songwriters, performers, accompanists, arrangers, composers, record producers, distributors and sound technicians, to name just a few.

Program of study

The B.Mus. program offers three majors: performance (voice, piano/keyboard, bass, drums/percussion,

guitar or winds), composition and general. Students in the General route may pursue one of two unique minors: music technology and production or music career management.

At MacEwan, classroom work, group work, practice, rehearsals and performances all serve to help you develop a level of comfort in your field, so you can pursue your dream with confidence and expertise.

In your first year, you'll cover the basics with individual instrumental or vocal lessons, improvisation, ear training, the history of jazz and popular music theory and an opportunity to participate in one of our many performance ensembles. Then, starting in your second year you'll begin focusing on one of the program's three majors –

performance, composition or general. Private instruction is offered for a number of instruments including guitar, piano, drums/percussion, bass (electric and acoustic), winds and voice.

With many different performance opportunities including major public performances, recitals, coffee houses, jam sessions and your own gigs, you will quickly turn that raw potential into real, practical skills.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Email: international@macewan.ca

ADMISSION

Competitive

Admission to this program is considered COMPETITIVE either because of higher than minimum academic requirements, other admission criteria or a combination of both. See Competitive Programs p. 77 or contact the program for more information.

Regular Admission

Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
 2. Four Group A, B, or C courses*
- OR

Three Group A, B, or C courses; one Group D course*

Notes:

- A maximum of two Group B's can be used but not from the same discipline*
- Specific university-level courses, completed with a minimum grade of C-, may be used to substitute for course deficiencies only under the following circumstances:
 - 6 credits of university-level English in lieu of English 30-1
 - 6 credits of university-level Language other than English in lieu of a group A course (all 6 credits must be the same language).

Applicants with nine or more post-secondary credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term. Applicants must have the following:

- ELA 30-1 with a minimum grade of 65 per cent (or equivalent)

OR

- Six credits of university-level English with a minimum grade of C-

Applicants with nine or more post-secondary credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Previous Post-Secondary Work**

Applicants must have successfully completed one of the following from a recognized institution:

- A minimum of 24 credits of university transferable coursework with a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale and must have completed the required core courses listed under the Regular Admission category.

OR

- A two-year diploma in Music with a program GPA of 3.0 on a 4.0 scale.** Depending on the specific diploma, applicants may be required to complete a bridging program determined by the Music Program.

ADDITIONAL ADMISSION CRITERIA

Other Admission Criteria

Applicants must pass an audition. The specific audition requirements for all applicants may be viewed on the Music program website.

Limited space is available, and not all applicants who are eligible may be admitted. When admission becomes competitive, performance in the audition is the primary criterion for admission. Applicants must also be aware that admission for any category is limited based on the availability of spaces for the principal instrument.

Bachelor of Physical Education Transfer

www.MacEwan.ca/PhysEd
Faculty of Arts and Science

Getting your degree in physical education doesn't just mean you're good at sports. In fact, being an athlete is only a very small component of this program. You will develop the human, technical and conceptual expertise to be successful and take full advantage of various professional opportunities. The Department of Physical Education believes that intellectual, spiritual, emotional, physical and social development are necessary for total personal wellness and success.

Career potential

Interest in health and professional fitness makes this an attractive area for the future. Your physical education experience will provide you with a well-rounded education and the people skills needed to start a career in a field that interests you.

Potential occupations include:

- lifestyle and fitness consultant
- athletic therapist
- coach
- kinesiologist
- community recreation programmer
- director of community sports
- teacher*
- physiotherapist*

*additional education required

Program of study

A four-year Bachelor of Physical Education degree has both a theoretical and practical focus. Concentrations include: active living, health and well-being, physical activity and sport performance, cultural and managerial studies of sport and leisure, adapted physical education, coaching studies and activity and nutrition.

Transferability

MacEwan offers the first and second years of programming in the Bachelor of Physical Education degree.

Students will take classes in a wide variety of areas including anatomy, physiology, health education, recreation and leisure studies, biomechanics and more.

Students who are successful in the program transfer into year two or three with our collaborative partner, the University of Alberta.

For full course details, refer to www.MacEwan.ca/PhysEd.

Applicants must be 20 years of age or older and have been out of full-

time high school at least one year by the beginning of the intake term. Applicants must have a minimum overall average of 65 per cent, in the following high school courses:

1. ELA 30-1 with a minimum grade of 60 per cent
2. Biology 30 with a minimum grade of 60 per cent

Notes:

- *Applicants must have completed the appropriate high school courses or present university transferable post-secondary substitutions.*

Applicants with nine or more university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale (no time limit on calculation of AGPA).

Bachelor of Science

www.MacEwan.ca/science
Faculty of Arts and Science

Sometimes the simple answers just won't do. Your healthy sense of curiosity is too strong to ignore; you've got to get to the heart of the issue. You have the patience to hypothesize and experiment until you have found the answer to your question. For you, the journey truly is half the fun.

Career potential

Wondering what you can do with a science degree? A Bachelor of Science degree will equip you with a well-rounded education and the people skills needed to find employment in a variety of areas. Science career opportunities continue to be in high demand with many science-related occupations experiencing employment growth. Visit www.alis.ca/occinfo for some future career ideas. And remember – the possibilities are truly endless.

Program of study

The Bachelor of Science (B.Sc.) degree program comprises 120 credits of coursework with six majors: biological sciences, computer science, mathematics, mathematical sciences (in which students focus on two of: mathematics, statistics or computer science), physical sciences (in which students focus on two of: physics, chemistry or earth and atmospheric sciences) and psychology. Minors are offered in biological sciences, chemistry, computer science, earth and atmospheric sciences, mathematics, physics, psychology, and statistics. Students in the B.Sc. program are also eligible to take any minor offered in the Bachelor of Arts program, including business studies.

The B.Sc. is a foundational or general degree. It provides graduates with generalist knowledge and skills highly valued in a dynamic world economy. The program also offers high transferability for the first two

years, so students retain the option to transfer to other institutions.

Students may also choose one of the pre-professional program streams leading towards degrees in dental hygiene, dentistry, medical laboratory science, medicine, optometry, pharmacy and veterinary medicine.

For full course details, refer to www.MacEwan.ca/science.

ADMISSION

Regular Admission

Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. Mathematics 30-1 or Pure Mathematics 30
3. Two of the following: Biology 30, Chemistry 30, Mathematics 31, Physics 30, Computing Science (CSE) Advanced Level Career and Technology Studies (CTS) (minimum 5 credits)
4. One Group A, B or C course*

Note:

- Applicants must have completed the appropriate high school courses or present university-level substitutions.

Applicants with nine or more university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year

Transferability

Students who attend the B.Sc. program may choose to complete their degree at the University of Alberta or another post-secondary institution. If you intend to transfer, please consult a B.Sc. advisor.

Bachelor of Science in Engineering Transfer

www.MacEwan.ca/engineering
Faculty of Arts and Science

Some of the most inventive, entrepreneurial minds of the last 500 years have been those of engineers. They have changed our lives by applying science and math to modern life. This is unquestionably one of the most challenging and rewarding career paths you can choose, and MacEwan is the ideal place to start. Engineer your own future by matching your scientific mind with your exceptional creativity, exercising your mechanical aptitude and problem-solving abilities, and nurturing your love of math and science. Become a good communicator who enjoys working in teams and you will be an excellent engineer.

Career potential

With economic growth comes the workforce's dependence on trained engineers in a variety of disciplines. The Government of Alberta has identified engineering as one of the top prospects for growth in this first decade of the 21st century. Careers in engineering include: chemical, civil, civil environmental, computer, electrical, engineering physics, mechanical, materials, mining, and petroleum.

Program of study

Due to the competitive nature of this program, and first year results that determine your choice of discipline when you transfer to the University of Alberta, all program students are expected to take a common set of courses in first year.

Fall term courses

- Introductory University Chemistry I
- Orientation to the Engineering Profession I
- Engineering Mechanics

- Calculus I
- Wave Motion, Optics, and Sound
- Essentials of Writing for Engineering Students or three credit option

Winter term courses

- Computer Programming for Engineers
- Introductory University Chemistry II
- Orientation to the Engineering Profession II
- Mechanics
- Calculus II and Parametrics
- Applied Linear Algebra

Transferability

The Bachelor of Science in Engineering Transfer program offers first-year courses that may be used toward obtaining a B.Sc. (Eng.) at the University of Alberta. Students who have successfully completed their first year* are guaranteed entrance to their second year of studies at the University of Alberta.

Credit for courses taken at MacEwan may be transferred to other post-secondary institutions within, as well as outside, Alberta.

ADMISSION

Competitive

Admission to this program is considered COMPETITIVE either because of higher than minimum academic requirements, other admission criteria or a combination of both. See Competitive Programs p. 77 or contact the program for more information.

Regular Admission

Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. Chemistry 30
3. Mathematics 30-1
4. Mathematics 31
5. Physics 30

Note:

- Up to two relevant post-secondary substitutions may be used in lieu of high school courses.

Applicants who have completed any university transfer credits in a non-engineering program and satisfy the requirements for Regular or Mature Admission will be assessed for Program eligibility.

Applicants with nine or more university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale (no time limit on calculation of AGPA).

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term. Applicants must have a minimum grade of 70 per cent in each of the following high school courses:

1. Mathematics 30-1
2. Chemistry 30
3. Physics 30
4. Mathematics 31

AND

5. ELA 30-1 with a minimum grade of 50 per cent

Note:

- Up to two relevant post-secondary substitutions may be used in lieu of high school courses.

Applicants who have completed any university transfer credits in a non-engineering program and satisfy the requirements for Regular or Mature Admission will be assessed for Program eligibility.

Applicants with nine or more university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale (no time limit on calculation of AGPA).

ADDITIONAL ADMISSION CRITERIA

Skills Appraisal

Applicants must complete the Skills Appraisal only if they **do not** present ELA 30-1 with a minimum grade of 65 per cent.

NOTE: The above contains only partial admission requirement information. For full details, visit www.MacEwan.ca/programs.

Bachelor of Science in Nursing

www.MacEwan.ca/nursing

School of Nursing

Faculty of Health and Community Studies

Thinking about a career as a Registered Nurse? Registered Nurses play a vital role in promoting health and wellness, preventing illness and injury and caring for individuals and families experiencing illness. They practice within complex, unpredictable and dynamic settings to promote health and healing with individuals, families and communities. If you are a dedicated and compassionate individual who wants to work with people to make a difference, who has a spirit of inquiry and love of learning and is prepared to work hard to achieve this goal, becoming a Registered Nurse may be the right career choice for you.

Career Potential

The profession of registered nursing offers a highly challenging and deeply rewarding career for dedicated individuals. Registered nurses have a vital role within a complex and changing health system. MacEwan baccalaureate nursing graduates have the knowledge and skills to practice in diverse settings, including acute care, community care and continuing care.

Program of Study

MacEwan's Bachelor of Science in Nursing program is a rigorous, four-year program, designed to introduce, expand and sequentially integrate knowledge, concepts and theories. Our approach to learning promotes the retention and application of in-depth knowledge and diverse skills. Graduates are prepared to initiate and support actions to promote health, prevent illness/injury, and restore health with individuals, families, groups, communities and populations in a variety of settings. Introductory knowledge and competencies for nursing research, education, and leadership roles are encompassed within the program.

Transferability

MacEwan's Bachelor of Science in Nursing program is recognized by several Canadian universities to prepare graduates with the required knowledge and academic skills for further education and graduate level studies.

Bachelor of Science in Nursing

Email: international@macewan.ca

ADMISSION

Competitive

Admission to this program is considered COMPETITIVE either because of higher than minimum academic requirements, other admission criteria or a combination of both. See Competitive Programs p. 77 or contact the program for more information.

Regular Admission

Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. Biology 30
3. Chemistry 30 or Science 30
4. Mathematics 30-1 or Mathematics 31
5. One Group A, B, or C course*

Note:

- Applicants must have completed the appropriate high school courses or present university transferable post-secondary substitutions.

Applicants with nine to 23 university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term.

Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. Biology 30
3. Chemistry 30 or Science 30
4. Mathematics 30-1 or Mathematics 31

Note:

- For Mature Admission only, another Group C course grade could be used to replace the Mathematics 30-1 or Mathematics 31 grade in the calculation of the competitive average.
- Applicants must have completed the appropriate high school courses or present university transferable post-secondary substitutions.

Applicants with nine to 23 university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Previous Post-Secondary Work**

Applicants must have successfully completed the following from a recognized institution:

- A minimum of 24 credits of university transferable coursework with a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale and must have completed the required core courses listed under the Regular or Mature Admission category.

ADDITIONAL ADMISSION CRITERIA

Other Admission Criteria

Applicants who have had one unsatisfactory academic record must meet the admission requirements under the Previous Post-Secondary Work admission category

Applicants who have two or more unsatisfactory academic records from any post-secondary program or institution will not be considered for admission or re-admission to the program. For the purpose of admission or re-admission, an unsatisfactory record is defined as a transcript with the notation 'required to withdraw' or equivalent.

Conditionally accepted applicants are required to submit: a current, clear Security Clearance for working with vulnerable populations by the academic document deadline. Having a pardon in progress does not meet the admission requirement for a clear security clearance.

Conditionally accepted applicants who have had a break in the continuity of their nursing program or who completed a portion of a nursing program through another institution may have to meet additional course requirements to establish course currency and/or course equivalence.

*See Classification of High School Courses, foldout

**See Admission Information, p. 77

***Provisional Admission – may only be offered to applicants who have a clear Security Clearance. Provisional Admission may be assigned to an applicant who has been offered admission to the program in one of the above admission categories. See Admission Information, p. 77.

NOTE: The above contains only partial admission requirement information. For full details, visit www.MacEwan.ca/programs.

Applied Degree Programs

Bachelor of Applied Business Administration – Accounting

www.MacEwan.ca/accounting
School of Business

The perception of the role of accounting in an organization is changing. No longer is the accountant relegated to the back room. Accountants today take on fundamental leadership roles in business and are required to think strategically — looking at business from more than just a financial perspective. MacEwan's Bachelor of Applied Business Administration – Accounting provides students with the skills to succeed in the new economy. This two-year post-diploma degree combines professional accounting studies with extensive learning and practice cycles in the workplace. The program is technology integrated, requiring students to use a notebook computer in class. This combination of classroom and directed workplace study prepares students for the realities of the marketplace, providing the right blend of skill and experience needed for immediate success.

Career potential

Students have a wide range of options upon graduation. Public practice, private corporations, not-for-profit: all these need qualified accounting graduates. Program graduates have started or advanced their careers as accountants, analysts, or managers. Their experience and motivation take them to job opportunities at different levels in financial accounting, internal auditing, financial analysis, cost accounting, public accounting and government.

Program of study

To be accepted into this program, prospective students must present a recognized Accounting and Strategic Measurement diploma or equivalent. Applicants who do not have an

accounting diploma (for example, recent high school graduates) are encouraged to apply to the diploma program.

Students of the applied degree will complete a total of 12 academic courses and eight directed field studies courses over two years. Coursework includes advanced financial accounting, advanced management accounting, taxation, theory and global accounting practice. Sequencing options are available to both full and part-time candidates.

Transferability

The applied degree gives students multiple avenues to explore. Graduates can pursue a professional designation through the Society of Management Accountants (CMA) or

the Association of Certified General Accountants (CGA). Individual courses are transferable to the Institute of Chartered Accountants (CA).

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

ADMISSION

Regular Admission

Applicants must have a recognized Accounting and Strategic Measurement diploma (or equivalent) with a minimum GGPA of 2.3 on a 4.0 scale.* The diploma includes the following courses:

- Financial Accounting IV
- Management Accounting III
- Marketing
- Accounting Information Systems
- Tax
- Business Communications

*Note: Applicants who present a business diploma that **does not** include the following courses may be considered for admission by approval of the program:*

- Marketing
- Accounting Information Systems
- Tax

*See Admission Information, p. 77

NOTE: The above contains only partial admission requirement information. For full details, visit www.MacEwan.ca/programs.

Technology Integrated Program

This program requires full-time students to carry a notebook computer for most classes. For information on the notebook hardware and software requirements, contact a program advisor.

Certificate and Diploma Programs

Accounting and Strategic Measurement

www.MacEwan.ca/accounting
School of Business

Accounting Technology certificate – one year

Accounting and Strategic Measurement diploma – two years

Accountants are leading businesses worldwide. In addition to focusing on the bottom line, today's successful business leaders take a whole-business approach to leading an organization. Beyond monthly reports and budgetary statistics are people, the real bottom line. As a student in the Accounting and Strategic Measurement program, your training will provide you with the competencies required of today's accountants. Using computer notebook technology on a daily basis, you will come to master the skills and concepts necessary for success in the field of accounting. Multiple entrance or exit points mean you can choose a program of study that meets your career goals.

Career potential

Graduates are employed in private business, public accounting firms, financial institutions, government, hospitals, industry, and consulting firms – to name a few.

After one year, you can exit with a certificate and the fundamental accounting skills that ensure marketability and success in today's business environment. Typically, graduates will find entry-level positions as accounting technicians, accounts receivable or accounts payable clerks, payroll clerks, and bookkeepers.

Diploma studies opens doors to positions of higher responsibility, which require exceptional communication and team-building skills. Most graduates apply their training and skills as accountants (non-designated). Specific positions include analysts, payroll accountants and assistant controllers. With experience, graduates can move into supervisory positions in these or related areas.

Program of study

Areas of study include financial accounting, management accounting, business communications, tax, information technology, and business law. The diploma program adds courses in accounting software, organizational behaviour, and accounting information systems. For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Accounting and Strategic Measurement has established transfer arrangements with MacEwan's own Bachelor of Applied Business Administration – Accounting and Bachelor of Commerce, the University of Lethbridge (Edmonton, Calgary, Lethbridge) and Athabasca University. Individual courses are transferable to the Society of Management Accountants of Alberta (CMA), Certified General Accountants of Alberta (CGA), the Institute of Chartered Accountants of Alberta (CA) and the Canadian Institute of Bookkeeping. Please contact the program for details.

With 5,000 years of history, acupuncture is one of the oldest health disciplines in the world. In Western culture, acupuncture and Traditional Chinese Medicine (TCM) has surged in popularity over the past decade, creating exciting opportunities for graduates of this unique program. Acupuncturists view disease as an imbalance in the body's energy, which flows along well-defined pathways called meridians. By inserting very thin acupuncture needles in specific points along these meridians, a well-trained acupuncturist intends to normalize the flow of energy and prevent or treat illness by initiating the body's own healing mechanisms.

Career potential

- Regulated Health Profession
- Recognized under the Health Disciplines Act
- Respected in the medical community
- Relatively few practicing Acupuncturists in Alberta with comprehensive training
- Graduates experience a high level of employment
- Private practice or multi-disciplinary clinics with chiropractors, massage therapists, physiotherapists, holistic health practitioners, naturopathic doctors, homeopathic practitioners and physicians

Program of study

The major area of study includes diagnosis and therapeutic treatment of a wide variety of illnesses and disorders, according to the TCM system. Students receive a comprehensive education in preparation to become a confident acupuncturist and TCM practitioner. With full approval of the regulating body for acupuncturists in Alberta, MacEwan's acupuncture curriculum is the benchmark to qualify for taking the registration examination for acupuncturists.

MacEwan's Acupuncture program maintains close ties with acupuncture/TCM facilities in China. This allows for great opportunities for students to experience acupuncture and TCM in its country of origin. For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Continuing education

MacEwan offers continuing education for acupuncturists who wish to specialize in Chinese Herbology.

Transferability

Graduates have a wide range of continuing education options, ranging from ongoing study in specialty areas to study at institutes and universities both nationally and internationally.

If you're creative and organized, then a career in arts management or cultural administration might be right for you. You could launch an exciting new career in arts marketing, fundraising, publicity, music management, event planning and much more.

Career potential

MacEwan's Arts and Cultural Management program produces graduates ready for the real world. Whether you find yourself managing a professional theatre, dance or music organization, coordinating arts and cultural festivals, fundraising, or acting as an artist's publicist or agent, you are ready for just about any challenge. Our graduates have played key roles in many organizations in Edmonton and across Canada including the

Edmonton Symphony Orchestra, Winspear Centre, Edmonton Arts Council, Bottom Line Productions, the Arden Theatre and Visual Arts Association of Alberta.

Program of study

Arts and Cultural Management now offers a two-year 60 credit diploma program with the option of a certificate exit after completion of 36 credits.

You'll spend the first year studying the fundamentals of arts and cultural management, audience and resource

development, human resource management in the arts and cultural sector and more. The second year of study expands on these fundamentals and provides exciting opportunities to develop project management skills. Throughout the program, you will also choose from various option courses that will enable you to hone in on specific areas of interest; from publicity and media relations to music management.

Upon completion of your credential, you will practice what you've learned

in a fast-paced, two-month field placement while making valuable contacts with arts and cultural organizations across Canada.

The Arts and Cultural Management program utilizes laptop integrated delivery. All students will be required to have a laptop for daily classroom use. Hardware and software requirements are available from the program office.

Our online courses use an engaging, interactive approach. Each course has been organized into a series of modules that mirror the classroom delivery approach. You will have access to a faculty tutor, excellent texts and other resources and the benefit of lively discussion with other arts and cultural management students. Each online course runs for four months giving you ample time to complete the required reading, assignments and activities.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Some existing transfer credit to other Alberta institutions is in place while others are currently being explored. Please contact the Arts and Cultural Management diploma program for details.

ADMISSION

Competitive

Admission to this program is considered COMPETITIVE either because of higher than minimum academic requirements, other admission criteria or a combination of both. See Competitive Programs p. 77 or contact the program for more information.

Regular Admission

- a) Applicants must have an Alberta high school diploma (or equivalent).
- OR
- b) Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:
 1. ELA 30-1 or ELA 30-2
 2. One Group A course*
 3. One Group B course*
 4. One Group C course or Applied Math 30*
 5. One Group A, B or C course*

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term.

Previous Post-Secondary Admission

Applicants must have successfully completed one of the following from a recognized institution:

- A post-secondary Certificate, Diploma, Applied Degree or Degree OR
- A minimum of 18 credits of post-secondary coursework with a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale and must have completed the required core courses listed under the Regular or Mature category.

ADDITIONAL ADMISSION CRITERIA

Skills Appraisal

Applicants must complete the Skills Appraisal only if they **do not** present ELA 30-1 with a minimum grade of 65 per cent or ELA 30-2 with a minimum grade of 75 per cent.

Writing: Applicants must successfully complete the writing portion AND be eligible to enter ENGL 111 OR complete any developmental course work with a minimum grade of C-.

Reading: Applicants must successfully complete the reading portion OR complete any developmental course work with a minimum grade of C-.

Other Admission Criteria

Applicants are required to submit the following:

- Resume – including work experience, volunteer experience, education, skills and interests
- Cover letter - outlining why the applicant is applying to the program
- Completed Program Questionnaire - detailing knowledge of arts/culture in their community, research completed regarding the work of arts administrators/managers and the applicant's goals related to an arts management career

Asia Pacific Management

www.MacEwan.ca/AsiaPacific
School of Business

As the lines blur between domestic and international economies, the result is a highly competitive, knowledge-based international marketplace. The Asia Pacific Management program prepares you to succeed in this global economy. Study a full range of traditional business courses plus specialized course work in Asian languages, culture and history, intercultural communications, and international business principles.

You'll complete your studies with an overseas practicum, which lasts a minimum of six weeks. Graduates have completed practicums in China, Indonesia, Japan, Malaysia, the Philippines, Singapore and Vietnam.

Career potential

Besides the usual employment opportunities available to business diploma graduates, you may join an increasing number of Canadian companies and agencies active in international exchanges or Canadian companies serving an increasing number of Asian clients. Or join the list of successful entrepreneurs with an Asian customer base. The Asia Pacific Management diploma also makes an excellent post-degree diploma.

Program of study

Focusing on courses related to Asian history, politics and culture, the Asia Pacific Management program also covers the fundamentals of business like economics, statistics, finance, marketing and accounting. You will also study either Chinese or Japanese over the two years of the program. For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Graduates of the Asia Pacific Management diploma program can block transfer to the third year of MacEwan's Bachelor of Commerce degree. Also, this program has established transfer arrangements with the University of Alberta and the University of Lethbridge (Edmonton, Calgary, Lethbridge). Please contact the program for details.

Correctional Services

www.MacEwan.ca/corrections
Faculty of Health and Community Studies

The Correctional Services diploma offers a comprehensive education that provides graduates with the practical skills and theoretical knowledge to prepare them for a career in the criminal justice field. First-year courses focus on acquiring a foundational understanding of the criminal justice system, including a study of the Canadian Criminal Code and other relevant legislation, an overview of correctional policies and procedures, interpersonal communication courses, as well as criminology, sociology and restorative justice. Second-year studies build on that theory base with skill development courses such as counselling, case management and psychology. In addition, students learn how to work effectively with specific offender populations while exploring topics such as substance abuse intervention, diversity and crisis intervention. Reinforcing this academic base, students are provided with an opportunity to put theory into practice through two work-integrated learning placements that provide hands-on education experiences that prepare students for their future career within a correctional institution, government criminal justice agency or other agency dealing with justice-related issues.

Career potential

Graduates of the Correctional Services program work in all areas of the criminal justice system, and career opportunities have never been better! The program has an exceptional employment rate, and with the large number of anticipated retirements in the field, job prospects continue to be great. Our graduates work with adults and youth in both community-based and institutional settings such as group homes, probation and parole offices, provincial and federal prisons, and young offender centres. As well,

graduates have been successful in obtaining employment in related criminal justice and human service careers including youth work, counselling, addiction programming, community mediation and restorative justice.

Program of study

The program provides both practical and theoretical skills and knowledge through field placements and course work. Students will learn about law and the criminal justice system, counselling and security skills, criminology, sociology, and psychology, as well as areas of specialization such as addictions,

mental health, young offenders, and female offenders. Extensive field placement opportunities provide students with the practical skills they need for professional practice. For full course details, refer to the full-time calendar available at any MacEwan Bookstore location, or online at www.MacEwan.ca/calendar.

Transferability

The Correctional Services program has established transfer arrangements with Athabasca University, the University of Alberta, Mount Royal University, Lethbridge College, Royal Roads University, and the University of

Great Falls in Montana. Further details are available from the program.

Design Studies

www.MacEwan.ca/DesignStudies
Centre for the Arts and Communications
School of Communications

Most communication happens visually and the most effective visual communication is the result of a combination of thought, craft, and creativity.

The Design Studies experience at MacEwan is comprised of three years of intense study. The one-year Design Foundations Certificate (DFC) enables students to explore the history, theory, and process of design through a combination of lecture and hands-on studio courses. This solid basis equips students for further studies in one of three diploma majors: Design and Digital Media, Design and Illustration and Design and Photography.

NOTE: The above contains only partial admission requirement information. For full details, visit www.MacEwan.ca/programs.

Career potential

Graduates of the Design Studies program find careers in agencies, studios, museums, graphic and communications departments in both large and small organizations, print shops and sign shops. Graduates have also found success in freelance work and starting up their own small studios or businesses.

Program of study

Many exciting classes are offered including drawing, two- and three-dimensional design, typography, illustration, photography, acquisition and editing, interface and website design, drafting and model building, 3-D visualization and more.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Students entering the Photography major of the Design Studies program will require a Macintosh laptop computer to complete their program of studies. Please refer to our website or contact the program for more details.

Transferability

Formal transfer for the Design Foundations Certificate (DFC) has been negotiated with Alberta College of Art and Design. Students with the DFC qualify for advanced standing in the design major at Alberta College of Art and Design. Students can also transfer up to 60 credits from their diploma studies into a Bachelor of Professional Arts offered through Athabasca University.

Many design education programs offer advanced standing for prior

Disability Studies: Leadership and Community

www.MacEwan.ca/DS

Faculty of Health and Community Studies

No Fall 2012 Intake

MacEwan is a centre for excellence in disability studies. The Disability Studies: Leadership and Community program works closely with community agencies, people with disabilities, their families, and government to prepare exceptional graduates with a broad background and the practical skills to help build inclusive communities. Graduates apply a caring and respectful philosophy of individual growth, empowerment, and self-determination to assist people of all ages with disabilities to reach their goals.

Students will develop a solid theoretical background in disability studies through comprehensive course work and classroom instruction. Opportunities for the practical application of theory through supervised field placements provide a total educational experience.

Career potential

Expanding community options for people with disabilities has created an urgent need for qualified professionals in a variety of settings. Practitioners are respected professionals with a strong sense of ethics and social justice. More than 95 per cent of program graduates have found related employment within six months for the last two academic years. Job satisfaction is high and many graduates soon move on to senior positions, especially after having completed a degree.

Program of study

Course work expands knowledge and skills reflecting current issues and development in person-centred approaches; community building; leadership and advocacy; interpersonal relationships; teaching and facilitating personal growth and goal attainment; causes, effects and interventions related to a variety of disabilities; understanding and supporting families; working effectively in organizations and service systems; and the values, philosophies and

approaches to providing support.

Part-time and distance options exist for students who are unable to study full-time. For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

The Disability Studies: Leadership and Community program has established transfer agreements with the University of Calgary's Bachelor of Community Rehabilitation and Disability Studies degree program, which is offered on-site at MacEwan. Successful program graduates can move directly into year three of this four-year degree. As well, program graduates can transfer into MacEwan's own Bachelor of Applied Human Service Administration degree.

Early Learning and Child Care diploma program

Email: international@macewan.ca

Early learning and child care professionals work with the youngest and most vulnerable members of our society. To play a role in helping develop young minds is an incredible responsibility and a wonderful opportunity. Through natural learning in play the early learning and child care professional guides children in developing their sense of belonging as an active member in their community along with a positive attitude towards learning.

With courses focused on child development, curriculum planning, communications, working with families and specialized programming, the Early Learning and Child Care diploma educates you to become positive, motivated advocates and educators for all children and their families.

The program prepares graduates by building their confidence and knowledge to:

- offer a broad theoretical perspective
- build partnerships with families
- respond to each child as a unique individual with unique interests and developmental needs

Your educational journey will lead you to explore other mediums outside the classroom including field placements in over 100 community based early childhood programs in the Edmonton region. MacEwan's Child Care Centre also provides an onsite experiential learning setting to help you apply theory to practice.

Career potential

Graduates are employed in:

- child care centres
- family day homes
- Head Start and early intervention programs
- kindergartens
- nursery and play schools
- school-age care centres
- family support programs
- women's shelters
- hospital playrooms

Graduates work with infants, toddlers, preschoolers, and school-age children and their families. Working titles may include:

- early childhood professional
- early childhood educator
- child care worker
- playschool teacher
- educational assistant

Early Learning and Child Care professionals are recognized for their education and expertise and are in high demand in the field.

Graduates qualify for a Child Development Supervisor (formerly level 3) certificate from Alberta Children and Youth Services.

Program of study

Courses in child development, curriculum, healthy environments, working with families, and communicating with children give

students valuable insight into professional issues and practices. Classes are complemented by discussions, workshops, group projects, and problem-solving scenarios that keep students active in the learning process. Field placement experiences in early childhood centres, and MacEwan's Demonstration Child Care Centre provide an experiential component to apply theory and develop employment skills.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Diploma graduates are immediately employable in challenging professional positions. Graduates may also choose to further their education at the bachelor's degree level. The Early Learning and Child Care program has established formal transfer agreements with:

- Athabasca University, Bachelor of Professional Arts - Human Services
- MacEwan, Bachelor of Applied Human Service Administration
- MacEwan, Bachelor of Child and Youth Care
- University of Alberta, Bachelor of Education - Elementary

Emergency Communications and Response

www.MacEwan.ca/emergency

Faculty of Health and Community Studies

Serving as the vital link between police, fire, and emergency medical services, emergency communication officers save lives every day. With increasingly sophisticated equipment and procedures, well-trained communication officers are in demand to provide calm, professional assistance in crisis situations. Through the introduction of 9-1-1 to the evolution of multidisciplinary communication centres, the field has changed with the rise of satellite, computer and telecommunications technology. Emergency communication officers must be able to multi-task, use hi-tech equipment, and think quickly and critically in a stressful environment.

Career potential

Graduates find employment across a variety of federal, provincial or municipal fire, police, or emergency medical communication centres. As technology continues to reshape the world of commercial communications, graduates also find career opportunities with highly specialized communication centres. From managing a commercial call centre to co-ordinating emergency services within complex organizations, you will be prepared to work in the dynamic and expanding field of communications.

Graduates must apply and meet agency-set standards.

Program of study

With courses in emergency communications, law, psychology and interpersonal skills, students gain the confidence to meet the challenges of the job. Specific skill development courses such as radio communications, emergency planning and document processing leads into a field placement that provides real-time experience to bridge the gap from the classroom to the workplace. For full course details, refer to the full-time calendar, available from MacEwan Bookstore locations or online at www.MacEwan.ca/calendar.

Transferability

Emergency Communications and Response has established transfer arrangements with MacEwan's own Police and Investigations program (both majors). Please contact the Emergency Communications and Response program for details.

Fine Art

www.MacEwan.ca/FineArt
Centre for the Arts and
Communications

Throughout history, visual art has provided a snapshot of our world at any given point in time. It is through art that our culture is recorded, interpreted and made meaningful. There will always be a need for artists who are able to think critically and creatively, and artwork that is innovative and unique.

You have a remarkable gift to give through your art – your passion for ideas and making things, and your own way of seeing and experiencing the world. At MacEwan it's possible to turn your ideas and dreams into a rewarding and lasting career. Our Fine Art program is designed to ensure that you become fluent in the visual language, and to prepare you to confidently share your talents in what will become a lifelong journey of learning and making art.

Applicants must complete the Skills Appraisal only if they **do not** present ELA 30-1 with a minimum grade of 65 per cent or ELA 30-2 with a minimum grade of 75 per cent.

Writing: Applicants must successfully complete the writing portion AND be eligible to enter ENGL 111 OR complete any developmental course work with a minimum grade of C+.

Reading: Applicants must successfully complete the reading portion OR complete any developmental course work with a minimum grade of C+.

Other Admission Criteria

Applicants must submit a portfolio and a statement of intent to be

Career potential

Career possibilities as an artist can be as diverse as art itself. Regardless of your goals, MacEwan provides you with the foundation you will need to explore your creative potential to the fullest.

Graduates of our program are recognized for their extensive knowledge and skills in traditional and contemporary art practices. Our graduates have chosen various careers, including the following: curators, illustrators, shop technicians, art historians, architects, product and graphic designers, gallery administrators, professors, teachers and self-employed professional artists.

Program of study

Over the course of two years, you will develop the skills needed to navigate through a complex and visually demanding world. At MacEwan, we dedicate extensive studio time to developing your skills in drawing; as well, we will introduce you to current media and many art forms.

In your first year, you'll gain expertise in working with visual elements such as line, shape, mass and colour. You'll gain an understanding of visual principles and how they function. You'll have the opportunity to try varied mediums such as charcoal, paint, plaster, wood and much more. You will also have the opportunity to study and create sculpture and photography.

You will learn how to critique, discuss, and analyze art in classes where you talk about ideas and artists. Also, you will visit community art institutions and attend visiting artist presentations at our campus.

Your second year is project-based, and we will encourage you to explore your ideas in painting, video,

photography, drawing, installation, digital prints and more! Your imagination will grow and develop as you find new ways to express your thinking.

By studying historical and contemporary artists and their work, you will also be better able to make your own mark in the art world.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Highly respected by art organizations and educational institutions, MacEwan Fine Art graduates are welcomed into their third year of degree programs at art colleges and universities across Canada. MacEwan has established transfer arrangements with the University of Alberta, University of Lethbridge, Athabasca University, Alberta College of Art and Design, Emily Carr University of Art and Design, and Nova Scotia College of Art and Design University. Our graduates have also been accepted and given advanced standing in programs at York University in Toronto, Concordia University in Montreal, Brooks College in California, and New York University. Others have also held scholarships in visual arts at the Banff Centre. Please contact the program for details.

Holistic Health Practitioner

www.MacEwan.ca/holistic
Faculty of Health and Community Studies

No Fall 2012 Intake

Holistic health practitioners understand that the body, mind and spirit are connected in complex ways. Grounded in a variety of theoretical perspectives, holistic health practitioners share a broad view of health and wellness that addresses the many dimensions of human beings. By exploring the physical, mental, spiritual, bio-energetic and sociocultural aspects of individuals, the holistic health practitioner can support clients in moving toward optimum health and wellness. Specialty areas such as reflexology, reiki, acupressure, holistic nutrition, flower essences, touch for health, herbology and neuro-linguistic programming provide a specialized focus to a course of study that empowers the student to serve as a guide, an explorer, a teacher and a counsellor to clients seeking to find balance and well-being. From self-healing practices to entrepreneurship, the holistic health practitioner program provides a comprehensive education in the science and art of complementary health care.

Career potential

Many graduates enjoy being self-employed and find creative ways to combine professional practice with continuing education. In private practice, most holistic health practitioners charge between \$50 to \$75 per hour.

As a holistic health practitioner, you will work collaboratively with clients, conventional practitioners, and other holistic professionals to offer a complete range of options for supporting and improving client's

health and well-being. Your skills will be portable, allowing you to travel and experience different cultures, whether you are working independently or as a partner in a clinic setting.

Program of study

Courses covering therapeutic relationships, teaching and counselling skills, and self-healing practices are complemented by a clinical focus in specialty areas. Students choose from acupressure, flower essences, herbology, reflexology, reiki, touch for

health, neuro-linguistic programming, and holistic nutrition. Participating in student clinics and a unique clinical internship field placement program gives you the skills to move into professional practice. For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Although there are no formal transfer agreements in place, diploma

graduates have a wide range of continuing education options, ranging from advanced specialization in holistic modalities to undergraduate and graduate study at institutes and universities across North America.

Holistic Health Practitioner diploma program

Email: international@macewan.ca

ADMISSION

Regular Admission

Applicants must have an Alberta high school diploma (or equivalent) and a minimum grade of 50 per cent in the following high school courses:

1. Biology 30
2. Chemistry 30 or Science 30

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term. Applicants must have a minimum grade of 50 per cent in the following high school courses:

Human Resources Management

www.MacEwan.ca/HRManagement
School of Business

Human resources professionals are instrumental in charting the course for their organizations. Equipped with a unique set of skills and knowledge, they help to pilot business through a sea of challenges: strategic planning, labour negotiations and risk assessment, to name a few. Learn the latest in organizational effectiveness, employee and labour relations, training, compensation, and change management. You will study under the keen eye of senior practitioners who keep material current and relevant.

This specialized diploma transfers into the third year of MacEwan's Bachelor of Commerce degree. So you can graduate with a diploma and a degree!

Career potential

Work in small or large businesses, government and not-for-profit organizations in a range of capacities.

Typical entry-level positions include benefits coordinators, human resources advisors, corporate trainers, employee relations coordinators and staffing specialists.

Program of study

Revised in 2010, HR-specific courses include staffing, compensation, benefits, training and development, workplace health and safety, change management, strategic human resources, and employee/labour relations. Traditional business courses include financial accounting, financial math, communications and business computing.

The full-time two-year diploma program is delivered evenings and weekends only. This enables our instructors who are HR professionals and specialists in their fields to be available to teach.

The first-year of this program is also available in an online format for our part-time students.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Graduates of the Human Resources diploma program have the option to block transfer up to 60 credits towards

a MacEwan Bachelor of Commerce degree with a management major. Also, this program has established transfer arrangements with the University of Lethbridge (Edmonton, Calgary, Lethbridge), Athabasca University and Concordia University College. Please contact the program for details.

Career potential

The insurance industry is a vital part of the financial/business community across Canada. It offers a variety of career choices such as claims adjusters, commercial and personal lines underwriters, account executives, brokers, agents, customer service representatives, finance/investment related services, risk management professionals, marketing representatives, support and administrative positions, managerial positions.

Program of study

Insurance and Risk Management takes management to a new level. Focus on the basics: business communication, accounting and marketing. Add to that insurance-

based courses and sales and you are ready to meet the job market with a solid skill set.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Graduates of the Insurance and Risk Management diploma program have the option to block transfer up to 60 credits towards a MacEwan Bachelor of Commerce degree with a management major. Also, this program has an established transfer arrangement with the University of Lethbridge (Edmonton, Calgary, Lethbridge), Bachelor of Management degree. Students may also work toward the General Insurance

Industry's professional designation through the Insurance Institute of Canada. Please contact the program for details.

Insurance and Risk Management diploma program

Email: international@macewan.ca

Claim a great career in Insurance and Risk Management, a growing profession with an excellent graduation placement rate.

This diploma is offered at an accelerated pace, so you can complete the program in 13 months. In addition to earning a diploma, MacEwan's Insurance and Risk Management program prepares the student to write the Insurance Institute of Canada national exams toward the Chartered Insurance Professional (CIP) designation.

ADMISSION

Applicants must meet the admission requirements listed under the Management Studies program, page 54.

NOTE: The above contains only partial admission requirement information. For full details, visit www.MacEwan.ca/programs.

Legal Assistant

www.MacEwan.ca/legal
School of Business

There's something really exciting about working in a legal setting. Life happens here. From buying their first homes to making life-altering decisions, people realize some of the most dramatic experiences of their lives through the law.

That's where you fit in. You're caring, a great listener, painstakingly well-organized, passionate about the law and excited to learn. In the program, you will learn the technical details to make you proficient in your career as a legal assistant, but it's these other qualities that will make you shine.

Career potential

While the main goal is to prepare you for work in a law office, you may be employed by government or legal departments of large corporations. The program also prepares graduates to work in other fields such as trust companies and real estate companies. This program is highly

respected by the legal community for its ability to adapt and meet the changing needs of the profession. For this reason, there are excellent career opportunities in Alberta.

Program of study

From legal terminology to legal procedures, from communications to computer work, you'll learn everything you need to know to start a successful career as a legal assistant. Though the program emphasizes hands-on learning throughout, the practicum at the end of second year puts your education into a new context.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Legal Assistant has established transfer arrangements with Athabasca University and University of Great Falls (Montana). Please contact the program for details.

Library and Information Technology

(formerly Information Management and Library Technology)

www.MacEwan.ca/LIT
School of Business

Libraries and information agencies have undergone some dramatic changes over the past few years, particularly with the ever-increasing use of technology to organize, store and retrieve information. This program will give you the skills necessary to meet the challenges facing contemporary organizations in fulfilling their information needs. You will develop skills in organizing, retrieving and managing information in a variety of formats, using traditional and current technology and strategies to make readily available and accessible the information that answers a variety of diverse users' needs.

Career potential

Some common workplaces include school, public, academic and special libraries; bookstores; publishing houses; government and private industry; non-profit organizations; research organizations; consulting companies; and software producers. Graduates find jobs as library and

information technicians, reference assistants, records management technicians, bookstore service personnel, and consultants.

Program of study

Learn about the tools of the information trade and how to use them. From collection development to computer operating systems to organization of special materials, the program tempers its broad spectrum of industry-specific courses with courses in communications and customer service. By the end of two years, you'll be prepared to enter your career with confidence. For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Management Studies
School of Business

Combine your love for flying with a background in business and management to enhance your career opportunities in the field of aviation. You can earn your pilot's licence and ground school ratings with any Transport Canada approved flying club while also studying a range of business and management subjects. You may choose any of the various delivery options offered through the Management Studies program.

ADMISSION

Applicants must meet the admission requirements listed under the Management Studies program, page 54.

NOTE: The above contains only partial admission requirement information. For full details, visit www.MacEwan.ca/programs.

Career potential

Graduates of this specialized diploma gain employment in a variety of aviation-related careers – both as pilots and airport management personnel. Forecasts indicate a rapid growth trend for this industry. Domestic airlines are also expanding, creating opportunities well into the future.

Program of study

The Aviation Management major includes business courses from the

Management Studies program in addition to aviation and ground school training available through flying schools.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Aviation Management has established a transfer arrangement with the University of Lethbridge (Edmonton, Calgary, Lethbridge). Please contact the program for details.

Golf Management Majors

www.MacEwan.ca/golf
 Management Studies
 School of Business

No Fall 2012 Intake (Golf Operations Management Major only)

With new golf courses being built in record numbers, there is huge demand for skilled golf professionals with a combination of strong business skills and knowledge of the game.

MacEwan's Golf Management programs are on the leading edge of the golf industry with top-notch instructors and a program of study that can't be beat.

Choose the Golf Operations Management major as your entry into the field of golf club management or the Professional Golf Management major to prepare for a career as a CPGA Golf Professional. Together, the Professional Golf Management major and the Professional Golf Management post-diploma Certificate form a three-year package that relates directly to the Canadian Professional Golfers' Association (CPGA) education and accreditation process.

Career potential

Golf Operations Management

Graduates of this program typically work in golf facilities in areas such as general management, clubhouse operations, event/tournament management/organization, marketing and merchandise management, or pro shop operations. Over time, many progress to managing clubs or establishing their own facilities.

Professional Golf Management

As they complete the remaining requirements for Class "A"

membership status with the CPGA, these graduates typically work as assistant golf professionals or teaching professionals.

Program of study

Golf Management covers core business courses: from general management (marketing and accounting), to industry-specific courses (food and beverage and golf shop operations). For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Graduates of the Golf Management diploma program have the option to block transfer up to 60 credits towards a MacEwan Bachelor of Commerce degree with a management major. Also, this program has established transfer arrangements with the University of Lethbridge (Edmonton, Calgary, Lethbridge). Please contact the program for details.

Massage Therapy

www.MacEwan.ca/massage
Faculty of Health and Community Studies

MacEwan's Massage Therapy diploma offers comprehensive clinical education aimed at developing well-rounded massage therapists able to practice in a wide range of medical and therapeutic environments. While massage has enjoyed thousands of years of history as a healing art, advances in our understanding of human functioning combined with a growing responsibility for personal health has elevated massage therapy to an important health profession recognized for its ability to aid in the treatment of chronic diseases, acute injuries and a wide range of medical conditions.

With an international reputation for excellence, the Massage Therapy program features extensive clinical experience, opening up opportunities to work across Canada and around the world. Part-time study options let you move through the program at your own pace.

Graduates are eligible to become a Registered Massage Therapist (RMT) through a provincial association.

Program location/Campus:

South Campus

Alternative delivery: Part time

Career potential

As massage therapy continues to gain recognition in the general population and the health care community, the profession can be seen as having high job potential, particularly with the growing trend towards self-employment. Graduates can specialize in areas that suit their lifestyle, their needs, and the needs of their clients. Potential work sites for massage therapists include an office in their own home, in a clinic or centre with other massage professionals, or with other health care professionals (e.g., physicians, physiotherapists, chiropractors, nutritionists, psychologists), home visits, athletic and sports massage, in a spa area or athletic club, cruise ships, and corporate or on-site work opportunities.

Program of study

The Massage Therapy diploma offers a unique blend of scientific theory and clinical practice on a full-time or part-time basis. Designed to facilitate the student's growth as a health care professional, the program teaches a variety of soft tissue manipulation techniques applied to the assessment and treatment of stress, pain, and a variety of physical conditions. With challenging courses in anatomy, physiology, psychology, kinesiology, pathology, and communication, students gain a foundation of knowledge that carries them through dynamic field placement experiences and professional practice at MacEwan's public massage clinics.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

The Massage Therapy program has formal transfer agreements with Thompson Rivers University and Athabasca University. Please contact the program for further details.

For full course details, refer to MacEwan's full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar

ADMISSION

Regular Admission

Applicants must have an Alberta high school diploma (or equivalent) and have completed one of the following with a minimum grade of 50 per cent:

- Chemistry 30
- Biology 30
- Science 30

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term.

ADDITIONAL ADMISSION CRITERIA

Skills Appraisal

Applicants must complete the Skills Appraisal only if they **do not** present ELA 30-1 with a minimum grade of 65 per cent or ELA 30-2 with a minimum grade of 75 per cent.

Writing: Applicants must successfully complete the writing portion AND be eligible to enter ENGL 111 OR complete any developmental course work with a minimum grade of D.

Reading: Applicants must successfully complete the reading portion OR complete any developmental course work with a minimum grade of D.

Other Admission Criteria

Applicants who have taken MacEwan Massage Therapy courses must have achieved a minimum grade of C- on each course.

Applicants are required to complete a two to three page (typewritten) career investigation report.

Conditionally accepted applicants are required to submit the following:

- Current, clear Security Clearance before the start of the first term.
- Immunization Record form meeting provincial regulations for health care workers prior to Clinical Practice III.

NOTE: The above contains only partial admission requirement information. For full details, visit www.MacEwan.ca/programs.

Music

www.MacEwan.ca/music

Centre for the Arts and Communications

A career in music is one that is full of possibilities and a bit out of the ordinary. There is something about dedicating your life to music that can be extremely rewarding and very challenging. You know where you belong. You are a musician.

But before the gigs and record deals, every talented and passionate musician has to start somewhere. You need to learn more than just the basics, you need training that will support you the rest of your creative life.

MacEwan focuses on jazz, rock and pop, so you have the freedom to explore your own interests – making us one of the only post-secondary schools in Western Canada to offer such a diverse learning experience.

Because the level of skill, training and musical literacy required of musicians in contemporary and commercial music is constantly rising, our two-year diploma program is designed to provide you with the world-class academic and performance training you'll need to be successful. Additionally, we are now offering a four-year Bachelor of Music in Jazz and Contemporary Popular Music degree.

Career potential

For more than 30 years, we have been training some of Canada's most talented musicians to be flexible in terms of their playing and range of skills so they can enjoy a sustained career in the music industry. MacEwan Music graduates have gone on to pursue careers as songwriters, performers, accompanists, arrangers, composers, record producers and distributors, and sound technicians, to name just a few.

Program of study

At MacEwan, classroom work, group work, practice, rehearsals, and performances all serve to help you develop a level of comfort in your field, so you can pursue your dream with confidence and expertise.

In your first year, you'll cover the basics with individual instrumental or vocal lessons, improvisation, ear training, the history of jazz and popular music, and theory. Then, in your second year you'll get to focus one of the program's four areas of specialization – composition, performance, recording technology, or comprehensive music studies. Private

instruction is offered for a number of instruments including guitar, piano, drums, bass (electric and acoustic), winds, and voice.

With many different performance opportunities including major public performances, recitals, coffee houses, jam sessions and your own gigs, you will quickly turn that raw potential into real, practical skills.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

There are many roads a MacEwan Music diploma graduate can travel. You'll be ready to hit the ground running after two years, but you may also want the option to continue your studies. In addition to possible admission to the MacEwan Bachelor of Music degree, MacEwan Music has set up some of the best transfer agreements to a number of the most exclusive jazz and contemporary music schools in the world.

Internationally, graduates have successfully transferred to the prestigious Berklee College of Music

in Boston, and to The Liverpool Institute for Performing Arts (LIPA), which was founded with the help of Beatle legend, Sir Paul McCartney.

Of course you don't have to leave Canada to further your studies. Formal transfer has been arranged with McGill University in Montreal, Laval University in Quebec City, University of Toronto, University of Lethbridge and University of Alberta. Please contact the program for details.

Office Assistant

www.MacEwan.ca/OfficeAssist
School of Business

The Office Assistant program is 10 months in duration and has the following three majors:

- Administrative major, City Centre Campus
- Legal major, City Centre Campus
- Medical major, City Centre Campus and South Campus

The administrative major students cover a wide variety of topics from accounting to word processing to office procedures and customer service. Legal students cover legal transcription, office procedures and basic legal theory. Medical students learn medical terminology and transcription, patient charting, billing and more. Every Office Assistant student completes a work experience placement before graduating. The program curriculum is kept current by regularly meeting with business leaders to find out what they most value in graduates. Courses are adjusted accordingly so MacEwan students get the right skills for the current business environment.

Administrative major

The Administrative major will enable you to develop strong computer and business skills necessary to become an integral part of the changing business

world. Graduates develop hands-on skills and are able to perform many complex office functions. Technology is an important part of this program. Students are trained with current software programs as they learn how to process and manage information efficiently.

Legal major

The legal office assistant in today's competitive market must be adept with technology, understand procedures in a law office, have a basic knowledge of law and be able to work within time limits. Graduates of the Legal major are prepared to work in a very challenging, rewarding profession.

Medical major

The Medical major provides a solid foundation in medical terminology, transcription, medical office procedures, unit clerk procedures, pharmacology and patient chart management. An introduction is provided to billing procedures. Added to that are the computer and software skills required to become successful in today's business and medical environment. By graduation, students are prepared for a variety of positions in virtually any medical or health care environment.

Career potential

ADMINISTRATIVE MAJOR

Graduates work as office assistants, word processing operators, secretaries or clerks in private companies, government offices and non-profit organizations.

LEGAL MAJOR

Graduates work as legal office assistants, transcriptionists or word processing operators in law offices, legal departments of government or private industry, or in general business offices.

MEDICAL MAJOR

Graduates work as unit clerks, medical receptionists, secretaries and transcriptionists in medical offices, clinics, hospitals and government agencies.

Program of study

With courses in office technology, office procedures, formatting, presentations, terminology (depending on your major) and communications, it's no wonder employers ask for office assistants with a MacEwan education. For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Graduates from the administrative major can request advanced standing for specific courses in MacEwan's Management Studies diploma. The graduates of the legal major can apply to transfer to MacEwan's Legal Assistant diploma program into the second year. All graduates can apply to eCampusAlberta to the second year of the Office Assistant diploma

program. Graduates from all majors will receive advanced standing of 30 credits for entry into the Bachelor of Professional Arts, communications major at Athabasca University.

Police and Investigations

www.MacEwan.ca/investigations

www.MacEwan.ca/police

Faculty of Health and Community Studies

As criminal activity grows more sophisticated, there is strong demand for well-educated professionals who can step into law enforcement and corporate and government investigations and security roles. This unique program features two majors, investigative studies and police studies. Both majors are available through full- and part-time evening courses. Both majors transfer directly into Athabasca University's Bachelor of Professional Arts in Criminal Justice degree, available on-site at MacEwan.

Investigative studies

Security professionals need a keen eye and shrewd observation skills to succeed in the field. You know how to keep a low profile, you stay cool under pressure, and you've got that ability to focus in on problems and find solutions. You're a good communicator and your strong sense of justice puts you in leadership roles.

Career potential

Graduates find careers with government agencies and private industry as,

- animal control officers
- bylaw officers
- corporate security
- liquor and gaming inspectors
- loss prevention officers
- maintenance enforcement officers
- peace officers
- private investigators
- sheriffs
- SPCA investigators
- special constables
- student finance investigators
- transit officers

Program of study

Investigative studies provides a foundation of knowledge in risk management, loss prevention, investigative techniques, law, sociology, psychology, and emergency management. In the second year of the program, each student completes two field placements that gives you an insight into professional security and investigation environments.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Investigative studies has established transfer agreements with the University of Alberta, Athabasca University, and with MacEwan's own Bachelor of Applied Human Service Administration degree program. Please contact the program for details.

Police studies

Today's police officers need to provide a tolerant, calm voice of reason in stressful situations. Your level head, attention to detail, and sharp instincts keep you one step ahead of the

game. You have a natural ability to diffuse tension, solve problems, and handle situations to keep things cool. You pride yourself on your strength of mind and physical fitness, your dedication to a goal, and your analytical skills.

Career potential

Retirements and demand in municipal and federal police forces across Canada have created many career opportunities. Law enforcement agencies are recruiting aggressively and your education can give you a competitive edge. Graduates also find work in other law enforcement positions (eg. special constables), the armed forces and private policing. Timing couldn't be better to enter into this exciting and challenging career.

Program of study

The program provides a well-rounded, liberal arts education aimed at developing individuals who

are leaders, self-starters, effective decision-makers, and able to easily adapt to new environments. With courses in sociology, law, psychology, and specialized skill development in forensics, investigations, emergency planning, and two supervised field placements, graduates are ready to hit the ground running.

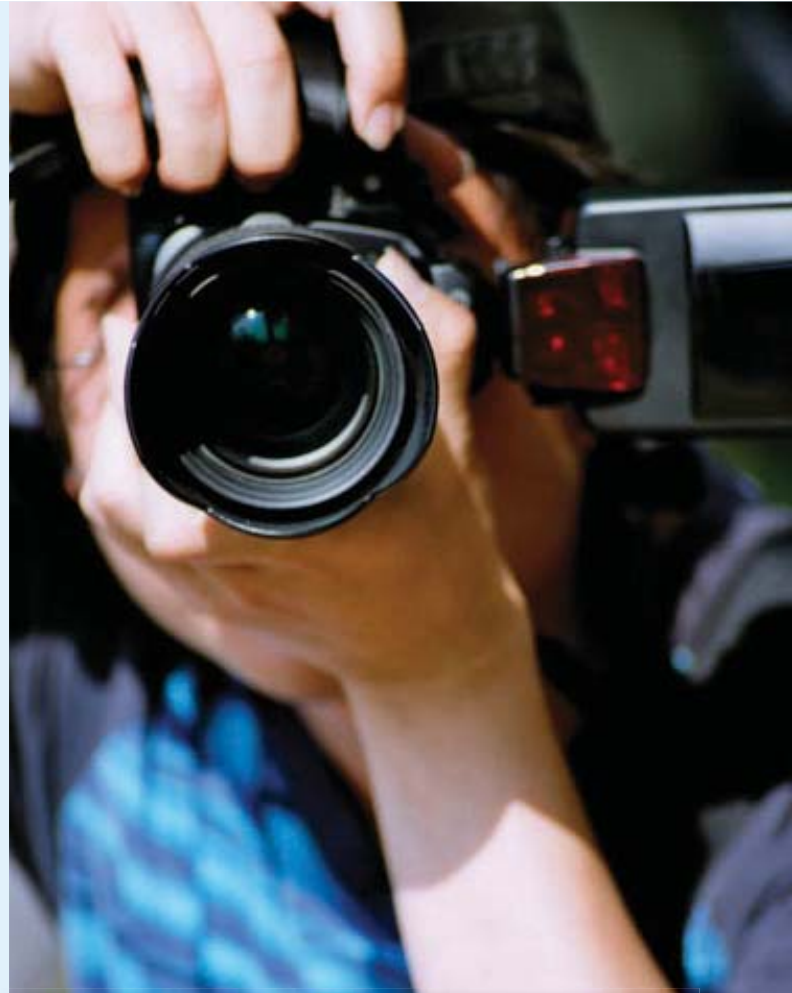

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

Police studies has established transfer agreements with the University of Alberta, Athabasca University, and with MacEwan's own Bachelor of Applied Human Service Administration degree program. Please contact the program for details.

Psychiatric Nursing

www.MacEwan.ca/PsychNursing
School of Nursing
Faculty of Health and Community Studies

Wanting a professional career in the mental health field, one that offers both challenges and opportunities within a complex, multidisciplinary environment? Are you passionate about helping people, promoting their mental health, and working with those who have mental health issues? Then a career as a Registered Psychiatric Nurse (RPN) may be an excellent choice for you! RPNs are the largest group of health care professionals in the field of mental health care. Graduates of MacEwan's 28-month diploma program in psychiatric nursing possess the professional competencies required to provide holistic, client-centred nursing care and work with those requiring mental and physical health services.

The Psychiatric Nursing program is offered at two locations: in Edmonton at MacEwan's City Centre Campus and in Ponoka at the Centennial Centre for Mental Health and Brain Injury.

Career potential

RPNs play a significant role in health care delivery as well-qualified professionals! They share the same salary scale as Registered Nurses (RNs) within the United Nurses of Alberta collective agreement and are employed in a broad range of settings, including:

- hospitals
- acute and long-stay psychiatric facilities
- community mental health
- rehabilitation settings
- residential and community-based treatment programs
- addictions/substance abuse programs
- brain injury programs
- palliative care

- research
- education
- private practice

RPNs work in such roles as staff psychiatric nurses, addictions counsellors, therapists, community mental health workers, case managers and educators.

Program of study

The curriculum provides extensive theory and clinical practice, building on concepts from the discipline and practice of nursing and psychiatric nursing, as well as from the physical, biological, health and social sciences. Clinical experiences are strategically positioned in each academic year. The program concludes with an extended clinical practice course that facilitates consolidation of learning and sets a solid foundation for a successful and fulfilling career in psychiatric nursing.

ADMISSION

Competitive

Admission to this program is considered COMPETITIVE either because of higher than minimum academic requirements, other admission criteria or a combination of both. See Competitive Programs p. 77 or contact the program for more information.

Regular Admission

Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. Biology 30
3. Chemistry 30 or Science 30
4. Mathematics 30-1 or Mathematics 31
5. One Group A, B or C course*

Note:

- Applicants must have completed the appropriate high school courses or present university transferable post-secondary substitutions.

Applicants with nine to 23 university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term. Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:

1. ELA 30-1
2. Biology 30
3. Chemistry 30 or Science 30
4. Mathematics 30-1 or Mathematics 31

Note:

- For Mature Admission only, another Group C course grade could be used to replace the Mathematics 30-1 or Mathematics 31 grade in the calculation of the competitive average.
- Applicants must have completed the appropriate high school courses or present university transferable post-secondary substitutions.

Applicants with nine to 23 university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Previous Post-Secondary Work**

Applicants must have successfully completed the following from a recognized institution:

- A minimum of 24 credits of university transferable coursework with a minimum Admission Grade Point Average (AGPA) of 2.0 on a 4.0 scale and must have completed the required core courses listed under the Regular or Mature Admission category.

ADDITIONAL ADMISSION CRITERIA

English Language Proficiency**

Applicants must meet university-level requirements for English language proficiency.

Other Admission Criteria

Applicants who have had one unsatisfactory academic record must meet the admission requirements under the Previous Post-Secondary Work admission category

Applicants who have two or more unsatisfactory academic records from any post-secondary program

or institution will not be considered for admission or re-admission to the program.

For the purpose of admission or re-admission, an unsatisfactory record is defined as a transcript with the notation "required to withdraw" or equivalent.

Conditionally accepted applicants are required to submit: a current, clear Security Clearance for working with vulnerable populations by the academic document deadline. Having a pardon in progress does not meet the admission requirement for a clear security clearance.

Conditionally accepted applicants who have had a break in the continuity of their nursing program or who completed a portion of a nursing program through another institution may have to meet additional course requirements to establish course currency and/or course equivalence.

ADMISSION

Regular Admission

Applicants must have a minimum of 30 post-secondary credits, including a post-secondary English course.

ADDITIONAL ADMISSION CRITERIA

Other Admission Criteria

Applicants must pass the program's English Entrance Exam, with a minimum grade of 70 per cent.

NOTE: The above contains only partial admission requirement information. For full details, visit www.MacEwan.ca/programs.

Public Relations is a vibrant, dynamic field in the business environment simply because organizations are being challenged by their publics — clients, shareholders, communities, employees — to do a better job of communicating. The role of the public relations practitioner is to help organizations send messages their publics want and need to receive.

The Public Relations diploma provides a unique opportunity for people with previous post-secondary education to launch an exciting career in less than a year. In fact, the diploma has earned a nation-wide reputation for providing a solid foundation for entry-level communications positions in all sectors and for specialized professional training for those already working in the profession.

Program of study

The diploma focuses on skill development in three areas: research, writing and communication technology. Other courses include public relations theory and planning, media relations, internal communications, issues and reputation management, and integrated marketing communications. Following classroom studies, students complete professional practicums in a variety of organizations to gain valuable workplace experience. For full course details, refer to the full-time calendar available at all MacEwan bookstores or online at www.MacEwan.ca/calendar.

Career potential

Graduates find employment in all levels of government, education and health-related organizations, professional associations, resource sectors, private companies, not-for-profit, media – just about any organization dedicated to strategic, timely and relevant communication with all its publics.

Transferability

Transfer agreements are in place with University of Alberta, Athabasca University and on a course-by-course basis with other colleges and universities. Graduates may also pursue one of two professional designations: APR (Accredited Public Relations) from the Canadian Public Relations Society or ABC (Accredited Business Communicator) from the International Association of Business Communicators.

Social Work

www.MacEwan.ca/SocialWork

Faculty of Health and Community Studies

MacEwan has earned a reputation for graduating compassionate, professional social workers for more than 40 years. Social workers are able to assess and respond to human problems at both an individual and a social, structural level. This requires a certain type of individual: one who is open-minded, empathetic, tolerant and committed to building strong communities.

The Social Work curriculum consists of a strong academic approach to social work theory and practice, complemented by a number of university transfer electives and field placements. With dedicated faculty, a student-centred approach to learning, and the flexibility to partially complete many courses online, the Social Work diploma prepares students to become Registered Social Workers (RSW) with the Alberta College of Social Workers.

Career potential

The program is recognized across Canada as a leader in social work education. It's no wonder that our graduates have a wide variety of career opportunities with government departments and community agencies working as family and community support workers, addiction counsellors, immigration counsellors/advocates, child protection workers, mental health workers, youth workers, etc. Many of MacEwan's Social Work alumni have distinguished themselves in the field and now hold senior positions. The program values diversity and incorporates a culturally relevant and sensitive approach to practice. Our focus on personal growth and leadership ensures that you will have every opportunity to enjoy a successful career as a social work professional.

Program of study

First-year courses include social work philosophy, counselling skills, social work with children and adolescents, family processes, and social work methods and practice skills. Second-year courses include group work, additional practice methods courses, social policy, mental health, addictions and trauma, and community practice. Social sciences courses such as psychology, sociology, anthropology, political science, and other elective courses provide a broad perspective. Supervised field placements each term provide a practical environment to apply new skills and gain valuable professional experience.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

After two years, you can graduate with a diploma, apply to become an RSW and move directly into the workplace.

Social Work has established transfer arrangements with the University of Calgary (offered in Edmonton),

University of Victoria (distance delivery), Thompson Rivers University (Kamloops), University of the Fraser Valley (Abbotsford) and with other programs at MacEwan, including the Bachelor of Applied Human Service Administration degree and Bachelor of Child and Youth Care. Other post-secondary institutions

throughout Western Canada may also consider credit transfers. Please contact university social work schools directly for information on transfer agreements.

NOTE: The above contains only partial admission requirement information. For full details, visit www.MacEwan.ca/programs.

ADMISSION

Competitive

Admission to this program is considered COMPETITIVE either because of higher than minimum academic requirements, other admission criteria or a combination of both. See Competitive Programs p. 77 or contact the program for more information.

Regular Admission

1. a) Applicants must have an Alberta high school diploma (or equivalent), be 19 years of age or older by December 31 of the year they enter the program, and have completed ELA 30-1 with a minimum grade of 50 per cent.
- OR
- b) Applicants must be 19 years of age or older by December 31 of the year they enter the program, and must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:
 1. ELA 30-1
 2. Language (other than English) at the 30-level or Mathematics 30-2 or Mathematics 30-1 or One Group A, B or C course*

3. One Group A or B course*
4. One Group C course*
5. One Group A or C course (or Group B if it was not used in #3 above)*

Applicants with nine or more university-level credits must also present a minimum Admission Grade Point Average (AGPA)** of 2.0 on a 4.0 scale.

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term. Applicants must have completed ELA 30-1 with a minimum grade of 50 per cent.

Applicants with nine or more university-level credits must also present a minimum Admission Grade Point Average (AGPA) of 2.0 on a 4.0 scale.

Previous Post-Secondary Work**

Applicants must have successfully completed the following from a recognized institution:

- A post-secondary Certificate, Diploma, Applied Degree or Degree.

ADDITIONAL ADMISSION CRITERIA

Skills Appraisal**

Applicants must complete the Skills Appraisal only if they **do not** present ELA 30-1 with a minimum grade of 65 per cent or ENGL 111 with a minimum grade of C-.

Writing: Applicants must successfully complete the writing portion AND be eligible to enter ENGL 102 and 103 OR complete any developmental course work with a minimum grade of C- and ENGL 111 with a minimum grade of C-.

Reading: Applicants must successfully complete the reading portion OR complete any developmental course work with a minimum grade of C-.

Other Admission Criteria

Applicants are required to complete the following:

- A minimum of 70 hours of relevant volunteer/work experience within the last two years.
- Submission of personal/professional profile and resume.
- Submission of three reference letters, two general and one from volunteer or work experience.

By providing classroom support under the direction of the teacher, special needs educational assistants help students develop their academic and personal skills to reach their individual potential. They work with students of differing ages and abilities; they support young people to develop their social, emotional, cognitive and physical skills, and help them build their self-esteem. Offered full-time, part-time and by distance education, the certificate program's flexible design meets the needs of adult learners. Our knowledgeable, experienced faculty and focused field placement will give you a chance to apply your new skills.

Career potential

Educational assistants are employed in positions available in preschool early intervention programs to high school, and even into post-secondary settings. With an increasing number of school boards requiring certified assistants to work in the classroom, the graduate employment rate is more than 90 per cent. As the education system continues to change, opportunities for assistants to work with students with a wide range of physical, emotional, and learning disabilities continue to expand.

Program of study

Theoretical and applied course work includes child/adolescent development, curriculum, adaptive technology, behaviour management, professional classroom practices and specific special educational intervention techniques and strategies focused on supporting students with special needs. The field placement course provides you with the experiences required for this career. For full program details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

The Special Needs Educational Assistant program has established transfer arrangements with MacEwan's own General Studies program, Child and Youth Care program, Disability Studies: Leadership and Community and Speech Language Pathologist Assistant major. Please contact Special Needs Educational Assistant program for details.

Competitive program

Credential available: Diploma

Program location/Campus: Centre for the Arts and Communications

Alternative delivery: N/A

You are an actor. You have passion, a purpose. You know where you belong. You are ready for a career that's a bit out of the ordinary and full of possibilities.

You want to choose a program that will train you to be a versatile, self-sufficient artist. Over the last 30 years, our Theatre Arts program has earned a reputation for its quality and depth — producing triple threats: passionate actors who sing and dance. Our goal is to help you explore the boundaries of your own creative potential and to prepare you for any professional opportunity. You will leave our program with an honest view of yourself as an actor, as well as marketable skills for a difficult and demanding industry.

Career potential

It's impossible to predict how successful you will be as a performer, but after two years, MacEwan Theatre Arts graduates leave with an honest view of themselves as actors, as well as marketable skills for a demanding industry. One of the most exciting aspects of the program is where students go after graduating. With nearly endless possibilities, our graduates continue to be well placed in the professional world and continue to work in live theatre productions and festivals, dinner theatres, television, film and cruise ship entertainment.

Program of study

At MacEwan, you will learn the tools of the trade in a motivating conservatory atmosphere where you will become a flexible and versatile actor. You will learn by doing. In fact, the hours of studio training in our program nearly double that of other institutions.

At MacEwan, movement, dance, singing, voice, text and scene study are all viewed as necessary components of the whole.

You will study play analysis, theatre aesthetics, music theory, ear training, stage combat, period and style work, and audition technique.

The studio courses continue in your second year, but you will also audition for parts in public performances, including full-scale musicals in MacEwan's 363 seat John L. Haar Theatre, as well as contemporary and classical plays in our more intimate Theatre Lab.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

For two years you will have spent an equal amount of time crafting your acting, singing and dancing skills, so you will be more marketable

than most other graduates. You'll be ready to hit the ground running in a new career, but if you want to continue your education, MacEwan has established a formal transfer agreement with the University of Alberta and the University of Lethbridge. Other MacEwan graduates have also gone on to acting, directing and playwriting programs at notable schools such as the National Theatre School in Montreal, York University, the University of Toronto, or to schools in the United States and abroad. Please contact the program for details.

A booming arts and entertainment industry in Canada is creating enormous opportunities for skilled technicians. If you are creative and passionate about sets, costumes, props, and the latest sound and lighting equipment, then MacEwan is the perfect place to start your challenging and rewarding backstage career.

You are someone who is invisible to audiences, but without you the magic of theatre, television and film would not exist. A career in theatre production requires creativity, accuracy and determination. Following two intense years of study in MacEwan's Theatre Production program, you'll have the skill set and experience you need to market yourself in a thriving industry.

Career potential

There is a growing demand in the theatre industry for passionate, competent, responsible technicians who aren't afraid of hard work. Over the past 30 years, our program has produced hundreds of lighting and sound technicians, set and costume technicians and builders, stage managers, production managers, technical directors, and other theatre professionals. Alumni work on cruise lines, in stage, film, television, festivals, concerts, special events, and other venues in Canada, the United States and abroad. Our graduates have played key roles locally at the Citadel Theatre and Winspear Centre and nationally with the renowned Stratford Festival in Ontario.

Program of study

At MacEwan, we believe a well-rounded technician is an employable technician. The better you understand the entire industry, the more marketable you will be. Your first year is spent touching on every aspect of technical production – from set construction and prop making to set changes and stage management. In your second year, more than two-thirds of your courses can be dedicated to a specialization. So whether you are fascinated with lighting and sound, or prefer to learn

the basics of wardrobe, MacEwan gives you exposure to all areas.

At MacEwan, the goal is to learn by doing. As a student in the Theatre Production program, you will work on productions staged by students in MacEwan's Theatre Arts and Music programs, and sometimes outside groups who rent our 363-seat John L. Haar Theatre. Each year you will also have several opportunities to become actively involved in community productions, especially during Edmonton's busy summer festival season.

The Theatre Production program utilizes laptop integrated delivery. All students will be required to have a laptop for daily classroom use. Hardware and software requirements are available from the program office at 780-497-4393.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

After finishing this exciting program, you will certainly have the training to gain access to the industry at an entry level, but you may also want to continue your studies. That's why MacEwan has established a transfer agreement with the University

of Alberta and the University of Lethbridge. Many other students have also successfully transferred to various other universities in Canada and the United States. Please contact the program for details.

Therapist Assistant

www.MacEwan.ca/therapist
Faculty of Health and Community Studies

MacEwan offers two majors within the Therapist Assistant program: the Physical Therapist Assistant/ Occupational Therapist Assistant (PTA/OTA) major and the Speech-Language Pathologist Assistant (SLP Assistant) major. Both are two-year diploma programs.

Physical Therapist Assistant/Occupational Therapist Assistant major

The Physical Therapist Assistant/Occupational Therapist Assistant major provides the theoretical knowledge, skill development and practical experience required to work as a Physical Therapist Assistant (PTA), an Occupational Therapist Assistant (OTA) or in a combined role. Growing emphasis on “quality of life” has expanded the need for rehabilitation interventions related to movement and function. Increasing sophistication of therapeutic equipment and treatment techniques have resulted in a demand for trained therapist assistants.

Career potential

PTAs and OTAs work in:

- hospitals
- long-term care facilities
- sub-acute units
- rehabilitation hospitals
- mental health facilities
- physical therapy clinics
- schools
- home care

The graduate employment rate is 100 per cent.

Program of study

This is a two-year, 60-credit diploma program.

Transferability

Graduates of the PTA/OTA major may transfer to the University of Calgary's Bachelor of Community Rehabilitation degree program.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Speech-Language Pathologist Assistant Major

The Speech Language Pathologist Assistant major provides the theoretical knowledge, skill development and practical experience required to work as a Speech Language Pathologist Assistant (SLP Assistant). Language is crucial to learning, working and socializing. About 38,000 Albertans receive assessment or treatment for speech or language difficulties each year. The role of the SLP Assistant includes carrying out treatment plans, observing and reporting patients' responses, scheduling activities and maintaining equipment, all under the supervision of a Speech-Language Pathologist.

Career potential

- SLP Assistants support the implementation of treatment for communication disorders
- They work primarily with children in early education settings and in schools
- The graduate employment rate is 100 per cent

Program of study

This is a two-year, 60-credit diploma program that is offered on-site at MacEwan, and by distance education via internet.

For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

The Speech-Language Pathologist Assistant major includes one university transfer course – Psychology 104. Graduates of the SLP Assistant may transfer to the University of Calgary's Bachelor of Community Rehabilitation degree program.

Travel

www.MacEwan.ca/travel
School of Business

Student study tour, 2008.

This program meets the highest Canadian standards for industry education. It is fast-paced and hands-on; you'll work in a computer lab with real reservation systems and software. Combine this with a one-month practicum at program's end, and you'll be highly employable immediately upon graduation. In just 13 months, you will develop the skills Canada's travel industry demands most: communications, sales techniques, customer service and automation. Take an in-depth look at the world's most important tourist destinations and learn what motivates travellers to visit them. Develop an understanding of the evolving travel market and the technology used to document and sell North American and international travel.

Career potential

Graduates work as travel consultants, passenger sales agents, sales account executives, reservations agents and travel marketing managers. Throughout Canada and around the globe, MacEwan grads can be found in a range of pursuits — from booking scuba diving tours, to arranging honeymoons in Hawaii, to marketing European coach tours for seniors.

Program of study

Work on a live reservation system. Learn geography. Hone your customer-service skills and aptitude in sales. Travel packs a two-year program of study into 13 months of travel-focused learning. For full course details, refer to the full-time calendar, available at any MacEwan Bookstore location or online at www.MacEwan.ca/calendar.

Transferability

A newly signed transfer agreement will allow graduates up to 48 credits towards the Bachelor of Tourism Management degree at Thompson Rivers University. The program also provides students the opportunity to earn credits toward their accreditation with Cruise Lines International Association (CLIA). The Travel Program has a 5 Star rating

from the Canadian Institute of Travel Counsellors (CITC) and completion of the program puts graduates well on their way to professional certification.

Travel diploma program

Email: international@macewan.ca

ADMISSION

Regular Admission

- a) Applicants must have an Alberta high school diploma (or equivalent).
- OR
- b) Applicants must have a minimum overall average of 65 per cent, with no course grade lower than 50 per cent, in the following high school courses:
 1. ELA 30-1 or ELA 30-2
 2. One Group A course*
 3. One Group B or C course*
 4. One Group C or D course*

Mature Admission

Applicants must be 20 years of age or older and have been out of full-time high school at least one year by the beginning of the intake term.

ADDITIONAL ADMISSION CRITERIA

Skills Appraisal

Applicants must complete the Skills Appraisal only if they **do not** present ELA 30-1 with a minimum grade of 65 per cent or ELA 30-2 with a minimum grade of 75 per cent.

Applicants must complete the math portion of the Skills Appraisal only if they do not present Mathematics 20-1 or Mathematics 30-1 with a minimum grade of 65 per cent or Mathematics 30-2 with a minimum grade of 75 per cent.

Writing: Applicants must successfully complete the writing portion AND be eligible to enter ENGL 111 OR complete any developmental course work with a minimum grade of D.

Reading: Applicants must successfully complete the reading portion OR complete any developmental course work with a minimum grade of D.

Math: Applicants must successfully complete the math portion (with a grade of 70 per cent) OR complete any developmental course work with a minimum grade of D.

*See *Classification of High School Courses*, foldout

NOTE: The above contains only partial admission requirement information. For full details, visit www.MacEwan.ca/programs.

Estimate includes tuition, fees, books and supplies. Based on a full course load.

| | Tuition | Fees, books and supplies |
|------------|----------|--------------------------|
| Four terms | \$22,419 | + \$2,817 |

Credential available: Diploma

Program location/Campus:

City Centre Campus

Alternative delivery: N/A

Admission Information

The admission information provided in this brochure contains only partial Admission Requirement information. Full details are published each February in MacEwan's full-time calendar. You can purchase a calendar from any MacEwan Bookstore, or view it online at www.MacEwan.ca/calendar.

For specific program information, applicants are encouraged to either contact the program directly or visit www.MacEwan.ca/programs.

Competitive programs

Admission to many MacEwan programs is competitive, and applicants are encouraged to apply and submit transcripts early.

Limited space is available and not all applicants who are eligible may be admitted. When admission becomes competitive, selection will be based on academic performance and the overall assessment of other specified criteria for admission.

Applicants should anticipate that admission is competitive and is subject to a quota.

For current information on competitive programs at MacEwan, please visit the Office of the Registrar website: www.MacEwan.ca/registrar.

Cost estimates

Cost Estimates provided are published for information purposes only to the general public, and are not to be considered final. Every effort is made to ensure accuracy at the time of printing. Fees are subject to change. Costs for student loan purposes may vary.

Other admission options

If you do not qualify under the Regular or Mature Admission categories, you may be admissible under another category (Probationary or Previous Post-secondary Admission). Please see the website or MacEwan's full-time calendar for more information.

Previous post-secondary work

Applicants who have taken previous post-secondary course work may also be admitted through other categories, visit www.MacEwan.ca/programs.

Admission in the previous post-secondary work category does not imply or guarantee the transfer of any coursework and/or credential unless a block transfer agreement (internal or external) is in effect and published in the calendar by the Office of the Registrar. In addition, transfer of coursework does not imply or guarantee that an applicant will be admitted.

Provisional admission

Provisional Admission may be assigned to an applicant who has been offered admission to the program in one of the stated admission categories. The offer of provisional admission is based on completion of specified conditions that must be satisfied within the first year of enrolment by the date specified in the offer. Access to courses, activities, and/or field placement or clinical studies may be limited until all provisional requirements are met.

Probationary admission

This admission category will be used only if the program is not filled by mature or previous post-secondary applicants. A limited number of probationary admissions may be granted to applicants who present a minimum cumulative post-secondary Admission Grade Point Average (AGPA) of less than 2.0 on a 4.0 scale.

Applicants admitted within this category will be placed on probation.

Admission Grade Point Average (AGPA)

The AGPA is calculated on the most recent 24 credits of post-secondary work. The coursework for an entire term will be used to calculate AGPA where the break point for 24 credits falls during that term. Six-credit courses that span both the fall and winter terms are considered winter courses, and six-credit courses that

span both the spring and summer terms are considered summer courses in these cases.

Less than nine post-secondary credits:

If an applicant presents fewer than nine credits of post-secondary work, it will not be calculated for admission purposes.

Nine to 24 post-secondary credits:

For applicants who have attempted between nine and 24 credits of post-secondary work, the AGPA is based on all post-secondary credits attempted.

Skills appraisal

Applicants may be required to complete the Skills Appraisal Exam. Unless otherwise specified, identified skills appraisal requirements must be completed by the beginning of the intake term. Check www.MacEwan.ca/programs for specific program information.

Applicants whose first language is not English will be exempt from the English portion of the skills appraisal if they achieve the English language proficiency score required for admission into their program using one of the following: CAEL, ENGL-0106, IELTS, TOEFL, or U of A's ESL 140 & 145.

English language proficiency

MacEwan expects all applicants to meet an acceptable level of English language proficiency. We will require official documents such as high school or post-secondary transcripts or proof of successful completion of standardized language evaluation. Full details are available in MacEwan's full-time calendar or online at www.MacEwan.ca/elp.

Spoken english proficiency

Applicants who speak English as a second language – regardless of citizenship – are required to submit official documents such as high school, post-secondary transcripts or proof of successful completion of standardized language evaluation. Full details are available in MacEwan's full-time calendar or online at www.MacEwan.ca/elp.

Tuition Fee Schedule for Fall and Winter Terms 2011/2012

| 18 | \$8,586 | \$135 | \$30 | \$13 | \$70 | \$9,071 |

For detailed tuition and fee information, contact MacEwan International at international@macewan.ca.

Applicants to Certificate, Diploma, and Applied Degree programs whose first language is not English must demonstrate English language proficiency required for admission to the Fall 2012, Winter 2013 and Spring 2013 intakes by presenting one of the following:

- 1** Successful completion of three years of full-time education in English:
 - a. In Canada including the grade 12 year. This can be a combination of secondary and post-secondary education. (See notes i. and ii.)
 - b. In another country where English is recognized as an official language of instruction. (See notes i. and ii.)
 - c. At a recognized school/institution which uses English as the primary language of instruction. (See notes i. and ii.)
- 2** Successful completion of the equivalent of three years of full-time instruction in a school/institution in Canada in which the major language of instruction is other than English, but where the level of English proficiency required for graduation is equivalent to that in English language schools/institutions in Canada.
- 3** Test of English as a Foreign Language (TOEFL) with a minimum total score of 76 iBT (Internet-based) and a minimum score of 18 on all 4 sections including reading/listening/speaking/writing OR 550 PBT (paper-based). Refer to website: www.toefl.org/infobull
- 4** Canadian Academic English Language (CAEL) Assessment with a minimum overall band score of 60 and a minimum score of 60 in each band. Refer to website: www.cael.ca

- 5** International English Language Testing System (IELTS) (Academic) with a minimum overall band score of 6.0 and a minimum score of 5.5 in each component. Refer to website: www.ielts.org
- 6** EIKEN with a minimum Grade Pre-1 score. Refer to website: www.eiken.or.jp (Japanese) www.stepeiken.org (English)
- 7** Completion of one of the following:
 - a. Alberta English Language Arts 30-1 (or English 30) final blended grade of 65 per cent.
 - b. International Baccalaureate (IB) Higher Level English A1, A2 or English B with a minimum grade of 5.0. IB programs of study are administered by selected high schools. Refer to website: www.ibo.org
 - c. Advanced Placement (AP) English College Board Exam with a minimum score of 3.0. AP subjects are offered by selected high schools. Refer to website: www.collegeboard.org/ap
 - d. Six credits of transferable university level English language and literature with minimum grades of C-. Refer to www.MacEwan.ca
 - e. An O-level, GCSE, or IGCSE English Language or Literature course with a minimum grade of C.

- 8** A two-year diploma from a recognized post-secondary institution at which English is the primary language of instruction and in a country where English is the principal language.
- 9** MacEwan's ENGL-086 (ENGL-0106) ELP for University and College with a minimum grade of C completed at Grant MacEwan University or Global Village, Calgary.
- 10** MacEwan's ESLG-085 (ESLG-0105) English for Academic Purposes with a minimum grade of C.
- 11** Successful completion of University of Alberta's ESL 140 and 145. Official transcripts must be provided.
- 12** Pearson Test of English (PET Academic) test with a minimum overall score of 51 and a minimum score of 49 in each band. Refer to website www.pearsonpte.com.

Notes:

- i. *Enrolment in English as a Second Language (ESL) courses or programs will not be included in the calculation of three years of full-time study. Enrolment must be in a regular high school or post-secondary credit program.*
- ii. *Failing grades/courses will not be counted when calculating full-time attendance. Only courses with passing grades will be considered.*

An applicant who is completely bilingual and fluent in English shall be entitled to submit a written petition to the Office of the Registrar providing evidence that the applicant's English language proficiency exceeds the specified minimum levels, and requesting exemption from the language proficiency requirement. If you are fully bilingual and fluent in English, your petition should detail this -- your background; your educational and personal experience with English; the language of instruction throughout your schooling and the language you use at home and on a daily basis; why you believe that an exception to the requirement is warranted in your situation. Attestations from former English instructors and reports of any standardized English language proficiency tests may be supportive of your petition.

The International department of the Office of the Registrar will review the petition for possible waiver. Successful petition will not guarantee admission to another institution.

Applicants to University Transfer and Baccalaureate Degree programs whose first language is not English must demonstrate English language proficiency required for admission to the Fall 2012, Winter 2013 and Spring 2013 intakes by presenting one of the following:

| | | | |
|---|---|---|--|

2012/2013 Spoken English Proficiency Requirements

Besides demonstrating English Language Proficiency, applicants to the Bachelor of Science in Nursing, Psychiatric Nursing and Therapist Assistant - Speech Language Pathologist Assistant programs whose first language is not English will also be required to meet Spoken English Proficiency Requirements for Fall 2012 and Winter 2013 intakes.

| | | | |
|---|---|---|--|
| <p>Applicants must present one of the following:</p> <ul style="list-style-type: none"> • Six full years of education in English in Canada or the equivalent in another country where English is the principal language. Such education must include Alberta Grade 12 (or equivalent level) and can combine secondary and post-secondary training. • Graduation from a degree program offered by a recognized university at which English is the primary language of instruction and in a country where English is the principal language. • A score of at least 50 on the TSE | <ul style="list-style-type: none"> • A score of at least 50 on the SPEAK • A score of at least 26 on the iBT TOEFL section for Speaking • A score of at least 70 on the CAEL sub-test for Speaking • A score of at least 7.0 on the IELTS band for Speaking (academic or general training test) • A score of at least 4 on the MELAB Oral Interview Component • A score of at least Band 5.0 on the CanTEST section for Speaking • A score of at least 71 on the Pearson Test band for Speaking (academic) | <p>TSE – Test of Spoken English (Available only where the paper-based TOEFL is offered.) www.ets.org/tse</p> <p>SPEAK – Speaking Proficiency English Assessment Kit (Administered through University of Alberta Extension.) www.extension.ualberta.ca/elp/speaktest.aspx</p> <p>iBT TOEFL – Internet-Based Test, Test of English as a Foreign Language www.toefl.org/infobull</p> <p>MELAB – Michigan English Language Assessment Battery www.lsa.umich.edu/eli/testing/melab</p> <p>CAEL – Canadian Academic English Language Assessment www.cael.ca</p> | <p>IELTS – International English Language Testing System www.ielts.org or the MacEwan IELTS Test Centre www.macewan.ca/web/Services/IELTS/home/index.cfm</p> <p>CanTEST – Canadian Test of English for Scholars and Trainees www.cantest.uottawa.ca</p> <p>PET – Pearson Test of English Academic (PTE Academic) www.pearsonpte.com</p> <p><i>Based on policy C5010 Admissions, no petitions or waivers will be considered for the Spoken English Proficiency requirement.</i></p> |
|---|---|---|--|

Step-by-Step Application Process to MacEwan

Start here (How to apply etc...)

Step 1: When to Apply

- **Fall Term** (September to December):
Application period opens October 1st of the previous year
- **Winter Term** (January to April):
Application period opens February 1st of the previous year
- **Spring/Summer Term** (May to June/July to August):
Application period opens May 1st of the previous year

It is to your advantage to apply and complete program admission requirements as early as possible since most programs can accommodate only a limited number of students. Entrance to the Winter, Spring, and Summer terms are limited to certain programs; however, some programs have multiple start dates.

Step 2: How to Apply

Before applying, be sure your program is still accepting applications go to www.MacEwan.ca/admissions > *Check Program Availability*. At the time of application you will be required to pay a non-refundable application fee.

Complete the application form in this brochure or apply online at www.MacEwan.ca/apply.

Note: If you later submit another application for admission for the same term, you will be considered ONLY for the program indicated on the most recent application form. Your first application will be withdrawn.

Step 3: What you will need to send

- All your educational school documents and any final examination certificates with courses and grades in both the original language and **certified English translations**, which must be complete, literal, word-for-word, and in the same format as the original document. These allow us to determine if you have met the academic requirements for your program of choice. For some programs, you may also need to do extra things such as provide reference letters, fill in a questionnaire, audition etc. Your acknowledgement package will describe these requirements in detail.
- Send us proof you have met MacEwan's English Language Proficiency requirement. Please note that for our Nursing programs you will need to meet both the English Language Proficiency requirements and the Spoken English Language Proficiency requirements. For the majority of programs, we will need this to be met before a letter of acceptance can be issued.
- If you have completed any post-secondary/higher education you wish considered for possible transfer credit toward your MacEwan program, please send detailed descriptive course

outlines and syllabi from your former college or university, for any course you want our faculty to consider. Please note we will not review for possible transfer credit unless you are accepted to the program.

Step 4: When will I receive my letter of acceptance?

- Once we have received and evaluated all your educational school documents, courses and grades and determined you have met the admission requirements, providing there is space in your program of choice, we will send you a Letter of Acceptance. If your first language is not English, we will require evidence that you have met the minimum English Language Proficiency requirements for your program of choice before the Letter of Acceptance will be issued.
- If you are missing some of the requirements for admission to your program of choice, or if your program of choice is full, we may send you an email offering our bridging program for international students, MacEwan University Studies International (USI).

Step 5: Check your myMacEwan account regularly for application status updates.

Step 6: Pay your Deposit

If accepted, you will be required to pay a program deposit, which will be used towards your first term's tuition.

International applicants residing outside of Canada will be required to pay a \$10,000 deposit, and International applicants residing inside of Canada will be required to pay a \$1,000 deposit.

If your Study permit is denied and MacEwan receives a copy of the denial letter from the Canadian Embassy, which must have your full name on it, your deposit will be refunded in full.

For acceptable methods of payment go to: www.MacEwan.ca > *Admissions* > *Tuition & Fees* > *Make a Payment*

Step 7: Apply for your Study Permit

International Students planning to study in Canada for 6 months or more must obtain a "Study Permit" (formerly known as a "Student Authorization"). If you wish to study for less than 6 months, a Study Permit is optional. We recommend that you obtain a Study Permit because:

- Full-time students in good academic standing that are enrolled in an academic program are eligible to apply for an Off-Campus Work Permit. This applies to full-time Bachelor Degree, Applied Degree, Certificate, Diploma, and University Transfer Programs only.
- You will have flexibility if you want to study longer in Canada (Study Permit applications cannot be processed in Canada).

In general, the price and length of time for processing Study Permit applications depends on the country you live in. To obtain a Study Permit take your official Letter of Acceptance from MacEwan to the Canadian Embassy or Consulate nearest you. <http://www.cic.gc.ca/english/information/offices/missions.asp>

If you would like more information about Study Permits please contact an International Student Advisor

www.MacEwan.ca/advising > *International Advising*

Step 8: Accommodations

MacEwan students have several options when looking for accommodations for their study period at MacEwan. We strongly recommend securing housing before arriving in Edmonton.

Residence - The MacEwan Residence is located next to the City Centre Campus. Visit www.MacEwan.ca/residence for prices, application forms and more information.

Off campus - If you do not wish to live in the MacEwan Residence you may choose to live in homestay or private accommodations. More information can be found on our website www.MacEwan.ca/international.

Step 9: Arrival in Edmonton

Complete the Arrival Information Form found on www.MacEwan.ca/international when you have booked your travel to Edmonton.

ApplyAlberta

All Alberta public universities, colleges and technical institutes use the online **ApplyAlberta** application system, which facilitates the electronic transfer of transcripts. You will not be charged for transcripts requested using the **ApplyAlberta** system.

You may still use our paper application form. We will enter the information in to the **ApplyAlberta** system. If you use the paper form, make sure to enclose a non-refundable application fee when you mail in your application.

QUICK FACTS

Mission

MacEwan is a vibrant, innovative educational institution focused on student learning. MacEwan fosters student success and student contributions within local, national and international communities. Teaching and learning are central to the academic endeavour, which is informed and enriched by research and scholarly pursuits of highly engaged faculty and staff. MacEwan strives to exemplify the values of respect, integrity, citizenship and environmental stewardship through teaching, learning, scholarship, research and service.

Educational Philosophy Statement

At MacEwan, teaching and learning are our priorities. We value the legacy of Dr. Grant MacEwan and strive to emulate his example of service, stewardship, and life-long learning in our student-centred environment.

We believe that learning occurs through exploration and questioning, in an environment of mutual respect and collaboration. Learning is enriched by interactions among instructors and students whose diverse life experiences, cultures, ethnicities, religions, and abilities are acknowledged and respected.

We are committed to scholarship and the maintenance of high academic standards. We believe that learners benefit from their association with educators and staff who demonstrate integrity and purpose, leadership in their fields, and passion for their work.

We endeavour to enhance our students' capacity to live well-balanced, productive lives as citizens of our interconnected world. Our links with communities beyond the university – academic and professional, local and international – ensure the relevance of learning activities and enable students to move confidently into the workforce or on to further educational opportunities.

Approved by MacEwan Board of Governors on June 17, 2004

2012-2013 Classification of High School Courses

| <ol style="list-style-type: none"> Social Studies 30 or 30-1 30-level language other than English Additional 30-level language other than English Aboriginal Studies 30 (cannot be used for admission with Social Studies 30-1) <p>Note: Any one of the following courses will meet the 30-level language other than English requirement: French 21, 20S, 20N, 30S, 30N; French 31, 31A, 31B, 31C, 30-3Y, 30-9Y; French Language Arts 20, 30, 30-1, 30-2; Français 20, 30, 30-1, 30-2; Langue et Literature 20, 30.</p> <p>Note: Any one of the following courses will also meet the 30-level language other than English requirement: Blackfoot Language & Culture 30; Chinese Language Arts 30; Chinese Language & Culture 30; Cree Language & Culture 30; German Language Arts 30; German Language & Culture 30; Italian Language & Culture 30; Japanese Language & Culture 30; Latin 30; Spanish Language & Culture 30; Ukrainian Language Arts 30; Ukrainian Language & Culture 30. There are other 35-level locally developed courses which may also be used to meet the language other than English requirement.</p> | <ol style="list-style-type: none"> Art 30 Art 31 Communication Technology Advanced (5 credits) Dance 35 Drama 30 Music 30 (Choral, Instrumental or General) (5 credits) Musical Theatre 35 Music 35 Performing Arts 35 A, B, or C <p>Additional 35-level Fine Arts courses may be considered.</p> <p>Note: Equivalents of Music 30: Conservatory Canada, Grade 8 Practical and Grade IV Theory; Royal Conservatory of Music of Toronto, Grade 8 Practical and Grade II Theory; Mount Royal University, Grade 8 Practical and Grade II Theory. Documents must be presented to Alberta Education for evaluation.</p> | <ol style="list-style-type: none"> Biology 30 Chemistry 30 Pure Mathematics 30 or Mathematics 30-1 Mathematics 30-2 (cannot be used for admission with Pure Mathematics 30 or Mathematics 30-1) Mathematics 31 Physics 30 Science 30 Computing Science (CSE) Advanced Level Career and Technology Studies (CTS) (minimum 5 credits) | <ol style="list-style-type: none"> Applied Sociology 30 Cultural and Physical Anthropology 30 Experimental Psychology 30 International Politics 30 Macroeconomics 30 Microeconomics 30 Philosophies of Man 30 Religious Studies 35 (for approved Schools) Western World History 30 World Geography 30 World Religion 30 Advanced CTS strands as follows: <ul style="list-style-type: none"> - Community Health - Construction/Electro Technologies - Fabrication Studies - Fashion Studies - Financial Management - Foods - Information Processing - Legal Studies - Management & Marketing <p>Note: Students using a Group D subject for admission must present either one 5-credit subject or any combination of two 3-credit subjects.</p> |

Out-of Province Grade 12 Equivalencies

The high school courses that you attended in another province may be used for admission to MacEwan programs. The Alberta Council on Admissions and Transfer (ACAT) website lists other provinces' grade 12-level subject equivalencies that are acceptable for admission to Alberta post-secondary institutions. Visit http://www.acat.gov.ab.ca/other_transfer_information/other_transfer_information.htm for details.

If you are unsure of whether a course is acceptable, please contact the Office of the Registrar at 780-497-5140. Students are advised to submit their official transcripts or equivalent documents as early as possible for evaluation.

The Grade 12 courses listed are based on Alberta Education approved curriculum and nomenclature. Prospective applicants from other provinces and territories should request out-of-province equivalencies from the Office of the Registrar, or visit our website at www.MacEwan.ca.
