- LLB credit transfer from UK University external programmes

“

“I guess that the most important thing that I took away from studying at London Met was the fact that I made friends with people from different corners of the world, and also learned how different cultures can work in the same business context. I consider that knowledge extremely valuable to this day as it has helped me to become a good communicator in my current professional situation.”

HEY SAY

“London Met is one of the best things that has happened to me... A place of inspiration and empowerment. This explains the reason I spent all my Higher Education from my Foundation to Masters at the University. The standard of education and the people you get to meet during your studies is worth more than the tuition. Most importantly, the University encouraged and supported my dream... like they do for so many others”

“By seeing London, they say, you see as much of life as the world can show. I topped it up with an education at London Metropolitan University, and the world has become my oyster. Having received tertiary education in 6 different countries across 3 different continents, I can safely vouch; I have had the best experience at London Met. That unparalleled faculty support, those evening sessions with lecturers, these lifetime friendships, that freedom to be innovative, and everything in between. If I were to start all over again, I would come back to London Met.”

FACULTIES

There are seven academic faculties at London Met, each drawing on a wealth of experience and knowledge.

- _ Faculty of Architecture and Spatial Design
- _ Faculty of Computing
- _ Faculty of Social Sciences and Humanities
- _ Faculty of Law, Governance and International Relations
- _ Faculty of Life Sciences
- _ London Metropolitan Business School
- _ Sir John Cass Faculty of Art, Media and Design

FACULTIES

Faculties draw on a wealth of experience and knowledge.

Faculty of Architecture and Spatial Design

The Faculty of Architecture and Spatial Design is one of the top schools of Architecture in the UK. We are a vibrant community, committed to high quality teaching and research. All of our courses give students the practical skills and confidence needed to practice as an architect or design professional.

Our internationally renowned Faculty aims to give students the skills and confidence needed to become respected professionals.

Teaching staff come from some of London's most exciting architectural practices, and combine experimentation and research with extensive practical experience.

Graduates go on to work as architects, architectural assistants, interior designers or in related fields of research, journalism and procurement.

– The Faculty enjoys close links with the people and organisations that shape London. Our Live Projects happen locally and around the world in places such as Cuba, India, China and Iran

– The Faculty has a strong academic agenda with emphasis on design in contemporary culture and areas subject to social deprivation and political change. This year our projects helped a community in India to improve sanitation and access to clean water

– 2011 saw the Faculty take a clean sweep at the Royal Society of Arts 'Resourceful Architecture' awards

Teaching staff come from some of London's most exciting architectural practices.

Faculty of Computing

The Faculty of Computing offers cutting edge academic and professional qualifications with access to the forefront of research and practice in the computing industry.

Our Student Enterprise workshops give students access to world-leaders in the computing industry with speakers from Microsoft, Cisco, Apple, Intel and more.

Our in-house multimedia design agency 'The World of Work' (WOW) offers commercial work to our top students and graduates, providing them with invaluable experience to build their careers while they study.

Academic staff are actively involved in research and consultancy, so teaching is informed by the latest innovations within the industry.

– The Faculty regularly holds events and enterprise workshops where students can network with some of the industry's top technologists, developers and business leaders

– We are a Microsoft IT Academy, a member of the Apple Developer University Programme and the Sun Academic Initiative (SAI)

Access to world-leaders in the computing industry with speakers from Microsoft, Cisco, Apple, Intel and more.

Faculty of Social Sciences and Humanities

At the Faculty of Humanities and Social Sciences, we aim to provide a supportive working environment. You can choose from a range of exciting courses taught by world experts in their field.

Our courses involve a careful balance of theory and practice, enabling our students to explore a range of dynamic working opportunities whilst studying here.

The Faculty houses several significant research centres and institutes which form the foundation of one of London's largest and most diverse intellectual communities.

Leading academics, thinkers and professionals regularly come to speak to students as part of a lively schedule of events at the University.

— *80% of research in the Social Work, Social Policy and Media and Communications area was judged to be 'world leading', 'internationally excellent' or 'internationally recognised' in the latest Government Research Assessment Exercise*

— *Our courses are recognised by professional bodies for education, health and social care, social work, youth work and community development*

The Faculty houses several significant research centres and institutes.

Faculty of Law, Governance and International Relations

The Faculty of Law, Governance and International Relations is one of the largest academic bodies of its discipline in the UK, with around 70 specialist academic staff and a range of excellent courses. We continue to make the most of our London location by building strong links with leading legal and political professionals.

This is part of our commitment to enhance our students' employment prospects. The Law Society and the Bar Council officially recognise our LLB programmes as Qualifying Law Degrees. This means students can go on to train for Professional Practice in Law.

Our clinical legal opportunities programme brings students together with city practices and non-governmental organisations.

Graduates have gone on to a variety of careers in Parliament, the United Nations and in business.

— The Faculty has a dedicated member of staff who offers specialist advice to law students supporting their progression from student to professional, improving their employability

— Students benefit from our international links with other universities and our thriving student community, from our model UN to our student led law journal 'Dictum'

Graduates have gone on to a variety of careers in Parliament, the United Nations and in business.

Faculty of Life Sciences

The Faculty of Life Sciences has a £30 million Science Centre, which offers unparalleled facilities for teaching and research, including one of the largest open plan laboratories in Europe.

The rigorous combination of research skills and teamwork make graduates of this Faculty highly employable. Many graduates go on to careers in research, education, health, social work or human resources.

This innovative Faculty combines the School of Psychology and the School of Human Sciences.

The School of Human Sciences

Has close links with local hospitals and with the pharmaceutical and food industries. Academic staff run research-based health clinics for the treatment of chronic illnesses such as obesity.

The School of Psychology

Has been teaching Psychology for more than 40 years. The school applies psychology to a wide range of areas including forensics, sport, addiction, counselling and mental health.

– Our Superlab has become a model for science labs around the world, appearing on the BBC several times as well as informing the design of other major research centres

– The School of Psychology has an extensive suite of networked psychological teaching laboratories, as well as further specialist laboratories for a range of teaching and research

Research skills and teamwork make graduates of this faculty highly employable.

London Metropolitan Business School

Real world business activity is integrated into every course at London Metropolitan Business School (LMBS). The school has links with universities and businesses throughout the globe.

LMBS staff are experts in global business and management trends, and are highly regarded within their respective fields.

Students are encouraged to take advantage of the work experience opportunities offered within hundreds of national and international organisations including: Air France, Arsenal Football Club, Barclays, BBC Worldwide, BP, HSBC and Virgin.

Research within the Business School is internationally recognised for its originality, significance and rigour.

– Nearly 800 students are members of our thriving London Metropolitan Entrepreneurs Society, which encourages and supports student entrepreneurship

– The school has links with leading entrepreneurs and business icons, who lecture and work directly with students on real work based projects, offering them employment advice and internships

Work experience opportunities are offered within hundreds of national and international organisations.

Sir John Cass Faculty of Art, Media and Design

The Cass is renowned internationally for its unique range of courses, state-of-the-art facilities and high quality teaching. Its mission is to prepare students to be reflective and skilled practitioners in the creative industries, whatever their chosen discipline.

The Cass has a wide range of specialist facilities and equipment. Students exhibit work throughout the year at a number of galleries across our campus. Many students have exhibited at major international festivals and won prestigious competitions.

At the end of their courses, students exhibit at the famous Cass Summer Show, one of the largest showcases of graduate talent in London.

– Located off Brick Lane, The Cass is situated in the heart of London's cutting edge arts scene, where world renowned art galleries sit next to independent exhibition spaces

– Staff and students are consistently recognised for their groundbreaking work; this year students received commendations in London Jewellery Week and the RSA Design awards

Many students have exhibited at major international festivals.

“You have such a mix of student in the class. This makes for interesting discussions and you learn a lot from other students’ experiences, working in teams and sharing diversity of work.”

EMPLOYMENT

HOW TO APPLY

For all bachelor degrees starting in September, most students apply through the UK's UCAS system, details of which are here www.ucas.com

For all other courses, students can apply online through our website, or by filling in one of our online Application Forms.

To apply online, go to the relevant course page on our website and click 'Apply Online'.

To download the application form please see here www.londonmet.ac.uk/howtoapply

It is generally quicker and more convenient if you apply online directly to us. We do not charge any kind of application fee or require any payment during the application process, except that UCAS charges for applying to undergraduate courses through www.ucas.com

We have our own offices around the world; in China, Nigeria, Pakistan and Bangladesh. These offices are not 'agents' or consultants, they are London Met staff based in these countries to help you, for free. By having regional offices such as these, we have very high visa success rates, and we provide a professional and convenient service for you if you want to study with us.

China	www.londonmet.cn
Pakistan	www.londonmet.ac.uk/pakistan
Bangladesh	www.londonmet.ac.uk/bangladesh
Nigeria	www.londonmet.ac.uk.nigeria
International Office	www.londonmet.ac.uk/international
Europe Office	www.londonmet.ac.uk/europe

We work with a number of representative companies and educational consultancies around the world and you can choose to apply through these companies if you wish. Check with us if you are in doubt or see our website www.londonmet.ac.uk/international

FEES AND SCHOLARSHIPS

There are two parts to the financing of your studies; the cost of tuition and the cost of living.

Our tuition fees are listed on our website here www.londonmet.ac.uk/tuitionfees

We estimate that the cost of living in London for one year is about £9,000.

EU undergraduate students often have access to UK student tuition fee loans and may be also eligible for other funding from their home Government.

EU postgraduate students may be eligible for funding from their home countries, or can work full-time in UK and study part-time if they wish.

If you are a student from outside the EU, you will usually need to pay a deposit before we issue your visa invitation to the UK (usually known as a 'CAS').

You will usually be given the choice of either paying 50% of your fees when you start your course and 50% three months later, or paying 100% of your fees when you start your course. Some discounts are available for full pre-payment of fees.

We offer partial scholarships to students from certain countries, as part of our global commitment to education.

We offer a range of alumni bursaries and scholarships for non-EU students who have studied with us before, or whose family are alumni or students of our University.

Full details are here www.londonmet.ac.uk/international

We offer a wide range of full scholarships for more information on this go to www.londonmet.ac.uk/scholarships

It is generally quicker and more convenient if you apply online.

“My time at LondonMet served as a perfect springboard to what would come thereafter. I went on to land my dream job at a top investment bank in London. A few years later, I founded my own investment advisory business in Uzbekistan.”
