welcome

Cardiff University has been producing successful graduates since the first students entered in 1883. The University has changed dramatically in the last 125 years but the commitment to quality education and a rewarding university experience remains.

10 KEY FACTS ABOUT CARDIFF UNIVERSITY:

- 1 Ranked 15 in the UK and top 1.5% in the world.
- 2 Cardiff University is a member of the elite Russell Group top 20 UK research-led universities.
- 3 The University teaches more than 28,000 students from more than 110 countries.
- 4 Employment rates for Cardiff University's international graduates are 10% higher than the UK average.
- 5 Accommodation in University residences is guaranteed for most international students and is within walking distance of the University.
- 6 The University has 18 libraries, 28 IT suites, a Wi-Fi enabled campus and more than 1.5 million books.
- 7 The University is on two campuses at the very centre of Cardiff, the capital city of Wales. Cardiff is only 2 hours from London by train.
- 8 Teaching at the University was given the highest possible award in the last UK Government review. The University's degree programmes are also recognised by more than 40 professional bodies.
- 9 The University generates more than £100 million annually from research grants and contracts.
- 10 The University President Professor Sir Martin Evans FRS, is a Nobel Prize winner for Medicine.

Rankings and league tables

In 2010 Cardiff University was ranked 122 out of approximately 10,000 universities worldwide, putting Cardiff in the top 1.5% globally (QS). This shows that Cardiff University is an established and recognised university with a global profile. The ranking table below is based on the Research Assessment Exercise (RAE), which is the only independent Government assessment of universities in the UK.

While rankings are a guideline, you should also pay close attention to the course you wish to study and what the university and individual school can offer you.

Top 25 UK UNIVERSITIES RANKED BY RESEARCH POWER

(RAE 2008)

Subject rankings

You can view the scores for subject areas in the Schools directory (pages 16-34). The following Top 5 and Top 10 lists show subject areas at Cardiff University ranked by independent newspaper rankings and the RAE results.

Cardiff University is

Top 5 in:

- Architecture
- Anatomy & Physiology
- Business
- Celtic Studies
- Civil Engineering
- Communications & Media Studies
- Dentistry
- East and South-East Asia Studies
- European Studies
- General Engineering
- Optometry
- Pharmacy
- Psychiatry, Neuroscience & Clinical Psychology
- Psychology
- Sociology
- Town & Country Planning

Top 10 in:

- Earth Sciences
- English Language & Literature
- Infection and Immunology
- Law
- Mathematics
- Mechanical Engineering
- Primary Care and other
- Community-based Clinical Subjects

If you choose Cardiff University you will join a global academic community of staff and students. Like other famous universities, Cardiff University's mission is to accomplish world-leading research and pass this knowledge to students.

studying at Cardiff University

Why is research important?

Universities that are considered to be the best in the world are 'research-led'. Being a taught or research student in a research-led institution like Cardiff University has several advantages:

1 recognition

Your degree will be recognised worldwide. The most famous and respected universities are research-led. Cardiff is part of the elite Russell Group of top research-based universities in the UK.

2 innovative courses

The curriculum of your course will include the latest information and be relevant to your career (see right).

3 teaching by globally respected staff

You will work with, and be taught by, staff that are pioneers in their subjects and contribute to the advancement of knowledge. It is important to Cardiff University's culture that all our academic staff teach students. In a recent survey more than 95% of Cardiff's international students were satisfied with the expertise of their lecturers.

4 enhanced careers prospects

Your career prospects will be enhanced. Employers usually favour research-led universities because they know graduates will be very well informed. Employment rates for Cardiff University's international graduates are 10% higher than the UK average.

5 excellent teaching facilities

You will find excellent teaching facilities because research-led institutions attract more funding. Cardiff University generates more than a £100 million annually from research grants and contracts.

6 joining a worldwide network

Your fellow students will also be of a high standard. This means you will get more out of your seminars and study groups. After graduation you will join a close network of alumni that hold top positions in governments, companies and universities.

What is a Russell Group university?

Cardiff University is a member of the Russell Group.

- The Russell Group are the 20 leading research-led UK universities.
- They are committed to maintaining the very best research.
- They are committed to an outstanding teaching and learning experience.
- They have unrivalled links with business and the public sector.

Independently verified and reviewed
You can be confident of the quality and standard of a Cardiff degree. The University is recognised by more than 40 professional bodies which ensure that the University maintains the highest possible standards in teaching. In 2008 the University's teaching was also given the highest endorsement by the UK Government in a quality review.

Teaching methods

You will be taught in formal lectures, in small groups (called 'seminars') and one-to-one with tutors. Depending on your subject you may use laboratories, meet members of the public, operate specialist equipment and go on field trips.

You will also have access to Cardiff's online virtual system "Blackboard" to enhance and support your learning. It allows you to download handbooks, find your timetable and submit assignments from any internet connection.

Because Cardiff is a top-ranked research institution you can be assured that facilities at Cardiff are some of the best available. The University has 18 libraries, 28 computer rooms, fully-equipped laboratories and specialist resources for every subject.

Assessment methods

Assessment methods are different for each course. Most courses include some form of written examination and essays but you may also be assessed on presentations, class tests, laboratory results and group work.

Free assistance in English and maths

If you want some additional help with English language, or you find mathematics difficult, you can get free support from the University. The 'In-sessional' English courses can help you with presentations, reading strategies, pronunciation and academic writing. Even if you are confident in your language abilities you will probably improve your assignments and increase your job prospects.

How will studying at Cardiff be different?

Studying at Cardiff University may be different from the style of teaching in your country. You will be expected to use the libraries and internet to research topics. You will be asked to contribute your opinion, collate information and present evidence. Your own ideas will be encouraged.

Cardiff University is an innovator in 'problem-based' learning. This means your lecturers will set you a 'problem' and you will have to work out the answer. This is a much more effective method of learning than just from a book.

Many students come to the UK to improve their job prospects. Even if you have not chosen a career, you will want to know that you are being prepared for work and that after your degree you will have opportunities and options. A degree is an investment for life and you will want to invest wisely.

career prospects

What is the value of a Cardiff University education?

‘Employability’ is not just about getting a degree from a UK university. In an increasingly competitive global market, employers are looking for more than information and technical skills. At Cardiff, cutting-edge research is used to develop an exciting and up-to-date curriculum, which gives you:

- knowledge, but also trains you to think independently
- the ability to analyse problems
- the ability to consider innovative solutions
- the ability to work effectively in a team

These are valuable skills in the workplace that you will need to demonstrate to potential employers.

Many of our graduates work for reputable, international companies in graduate level positions. Below is a sample of Cardiff University’s international graduate destinations:

Company	
ABN Amro	ICICI bank
Adecco Ltd	Indian Express
Amarchand & Mangaldas & Suresh A Shroff & Co	Intel (China) Ltd
AOC Archaeology Group	Jaguar Landrover
Aramco Petroleum	Knight Frank
Arup	Korean Broadcasting System
Bank of Uganda	KPMG
BBC	LG Manufacturers
Capita Symonds	Luthra & Luthra
China Bank Regulatory Commission	Maersk
China Daily	Magna Publishing Co.Ltd
Cisco systems	Microsoft
Citibank	Mott McDonald
Corus	NDTV
Deloitte	Oracle
Deutsche Bank	Pepsi-Cola
DTZ	PNRA Pakistan
Emirates airline	Pricewaterhouse Coopers LLP
Ernst & Young	Reuters
ESPN Star Sports	Shell
Freshfields Bruckhaus Deringer	Siemens
Halcrow Group Ltd	Sony
Hindustan Times	Tata group
HSBC	TV Today Network
	Unilever

How to improve your career prospects

Everybody wants to stand out from hundreds of other graduates. Below are some recommendations for getting that competitive edge, available to you at Cardiff University:

_1
Choose a top university with a worldwide reputation

Cardiff is a highly ranked university, recognised both in the UK and across the world.

_2
Make the most of your studies

It may seem obvious but applying yourself and making the most of opportunities within your School will give you the edge over other candidates. On many degree schemes you can also widen your experience by studying part of your degree at a University in another country. Cardiff University has partners in the USA, Australia, South America, Europe and across Asia.

_3
Join free training programmes

In a competitive work-place it is important that you can be creative and apply your knowledge effectively. Cardiff University’s Students’ Union runs free training programmes: the Student Enterprise and Student Development Programme. These free courses will give you the opportunity to develop personal and business specific skills:
www.cardiff.ac.uk/enterprise

_4
Get advice and meet employers

The University has a free Careers Service with specialist international support. They offer advice and guidance on choosing a career, interview techniques, job seeking and improving your résumé. They also run scheduled events so you can meet potential employers recruiting on campus.
www.cardiff.ac.uk/carsv

_5
Enhance your résumé

Employers don’t want robots; they want interesting people who are driven and able to work in teams. At Cardiff for example, you could get involved with running a club or society, or join the Student Volunteering Unit.

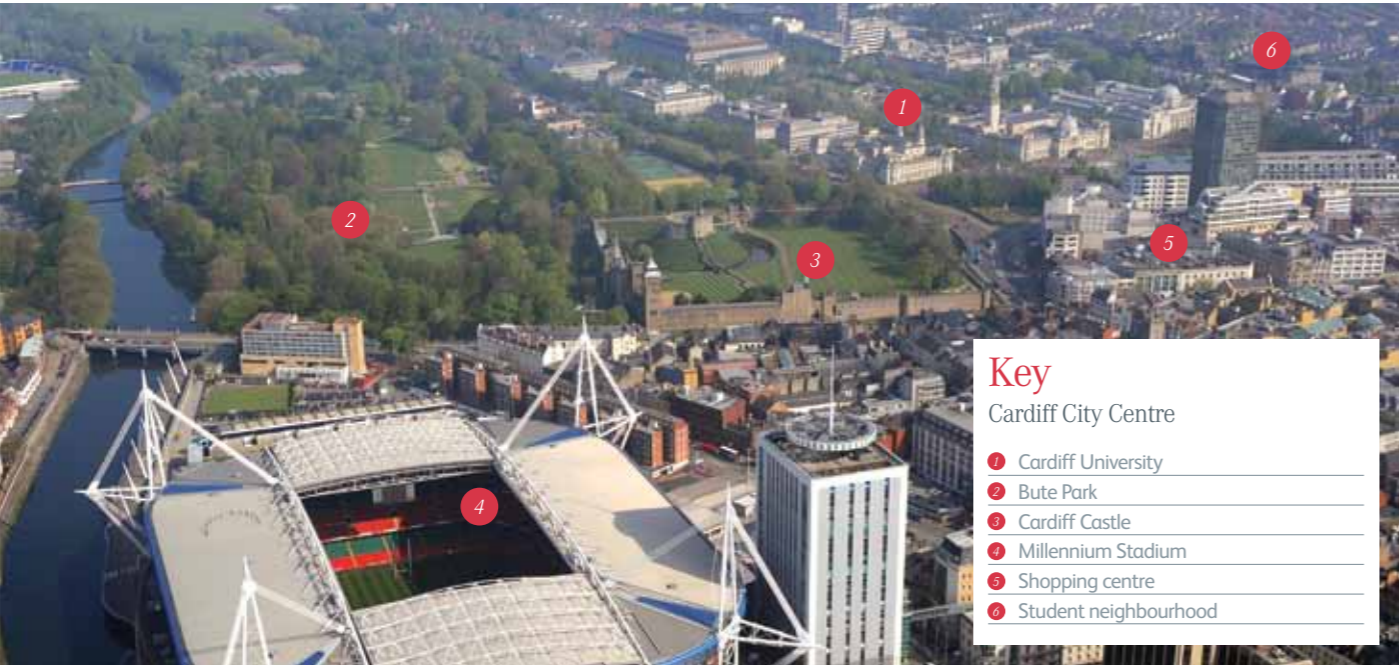

_6
Gain work experience

Work experience is a great way to show that you can apply your degree. You can get work experience through a part-time job (see page 40) or by opting for a Cardiff University degree that includes a year in industry. The Schools section (from page 16) lists courses which have year in industry options. The University’s Careers Service also runs highly competitive ‘taster’ placements with employers.

_7
Network and build lifelong friendships

Cardiff University has 28,000 students, more than 3,000 international students and more than 6,000 staff. Professors and other staff will offer advice and direction while other students, both from your country and other countries, can provide valuable insights.

Employment rates for Cardiff University international graduates are 10% higher than the UK average

Where is Cardiff?

Cardiff is located on the coast of South Wales, which has beautiful national parks and beaches only 30 minutes away. Cardiff is approximately 230km (145 miles) west of London and is easily accessed by train in about 2 hours. Cardiff has excellent transport links (ranked 1st in the UK for the most transport friendly city) with an international airport that has flights to many cities in Europe.

Cardiff,
the capital city of Wales

Cardiff has one of the lowest living costs of any major UK university city. See page 40.

“The perfect student city”

Cardiff is a small city with a population of about 320,000 people. Approximately 20% of the population are students, which makes it safe, friendly and affordable (see page 40). Cardiff, however, is also a capital city with all the culture, sports, shops, entertainment, work opportunities and atmosphere you would expect of a modern European metropolis. This means you get a small cheap city you can easily walk around, but also an exciting city where there is always something to do. To find out more about the city of Cardiff visit: www.whycardiff.com

A diverse, international city

Cardiff was one of the UK’s first multi-cultural cities and an estimated 94 languages are spoken here. This is a real benefit for international students because many of the food and ingredients you have in your country are also sold in Cardiff. You can also be assured that there are many religious and cultural facilities across the city, including mosques, synagogues, churches and temples.

12 FACTS ABOUT CARDIFF

- Cardiff University is in the city centre of Cardiff.
- Cardiff Airport has more than 30 flights a day to UK and European cities.
- Cardiff is only 2 hours from London by train.
- Cardiff has a new £675 million shopping centre in the city centre.
- Cardiff has a 70,000 seated stadium, an international sports village and a football league soccer club: Cardiff City FC.
- Cardiff was European City of Sport in 2009.
- Cardiff has more than 330 parks and gardens.
- Cardiff was one of National Geographic’s top 10 summer destinations 2011.
- The popular TV shows Doctor Who and Torchwood are filmed in Cardiff.
- Wales has the cheapest cost of living of any region in the UK.
- Wales has more than 500 castles.
- Home to Europe’s oldest living language, Welsh is spoken by 20% of the population, but don’t worry everybody speaks English!

Weather in Cardiff

The average temperature in Cardiff in Winter is 7C and in Summer temperatures can reach up to 30C. With four seasons, UK weather is generally unpredictable and can vary considerably, however, Cardiff experiences less rainfall than other areas of Wales and is consistent with the rest of the UK.

Top 10 European Cities

Cardiff was ranked the 7th best city in Europe in the fDi (Financial Times) 2008 Cities of the Future shortlist.

1	London
2	Paris
3	Berlin
4	Copenhagen
5	Amsterdam
6	Edinburgh
7	Cardiff
8	Frankfurt am Main
9	Brussels
10	Manchester

The University knows that where you live is very important to you. You will want to settle quickly and live in a secure, well-located, sociable and conducive study environment. This is why Cardiff University provides a guarantee of accommodation in one of our highly-ranked University residences.

University residences

The University has 14 residences, each with different facilities, in different locations and at different costs. Your choices include:

- single or mixed gender accommodation.
- private or shared bathrooms. About 70% of University residences have private bathrooms (called ‘ensuite’).
- self-catered, part-catered or fully catered (with vegetarian options).
- a variety of social and sporting facilities.

You will have your own study bedroom. Cardiff University does not have shared rooms or dormitories.

Close to campus

Cardiff’s residences are very well located, with most residences being less than 2km to either the Cathays Park campus or Heath Park campus. The majority of students are able to easily walk or cycle to their lectures everyday. The table below gives the approximate walking times from three residences to four popular locations in Cardiff.

Look at the map on page 41 to see where residences are located. You will also find that like the University, residences are within easy reach of shops, the city centre and parks.

Walking times	Allensbank House	Senghennydd Court	Talybont Court
Business School	25 minutes	15 minutes	5 minutes
Heath Park Campus	5 minutes	35 minutes	25 minutes
Main Building & Students’ Union	25 minutes	5 minutes	15 minutes
City centre	30 minutes	5 minutes	20 minutes

accommodation

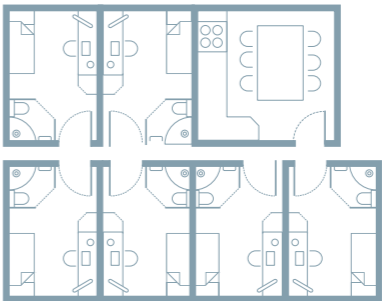

Safe and supportive

One of the advantages of University residences is the support you are offered. Each residence has a network of residences staff, student wardens and security staff that provide 24 hour assistance. Only students, guests of students and staff are allowed on University residences sites. This makes them safe and secure.

How much does it cost?

The cost of residences depends on several factors which include the residence you choose, length of stay, meal options and whether you want private bathroom facilities. University residences are very good value as the cost includes water, electricity, security, furniture and internet access (where supplied). As everything is included in one price, it helps you more easily budget. To help with budgeting there is more detail about living expenses on page 40.

For the 2010/11 year self-catering residences ranged from £68 – £95 a week. Part/fully catered residences ranged from £82 – £99 a week. Rooms with private bathrooms are generally more expensive than rooms with shared bathrooms.

An example of a typical flat in University residences

What do University residences provide?

The diagram above shows a layout of a typical apartment in University residences. In this example there are 6 study bedrooms, each with their own bathroom. The 6 occupants share a kitchen.

Every student has their own bedroom. Each room has a bed, desk, chair, wardrobe and storage. You won’t need to buy additional furniture. Also Halls of Residence bedrooms are connected to the University network and highspeed internet. In your flat you will have access to a shared kitchen/dining room. This area includes a cooker, refrigerator, sink, table and chairs. If you choose ‘ensuite’ you will have your own bathroom with shower.

How do I reserve residences?

After you apply, and if you accept an offer to study, you will be sent full information on how to apply for University residences.

Coming to Cardiff with your family

The University has a limited number of flats, houses and studios available for first-year international students with family members. These residences are very much in demand and you may have to seek private accommodation. If you do choose private accommodation ensure you start looking as soon as possible and ask for assistance from the University.

You might be wondering what life is like for the 28,000 students at Cardiff University? Outside of academia you will find a vast range of opportunities to try new things, meet new people and enjoy the exciting atmosphere on campus.

The Students' Union

- The University's social life revolves around an organisation called "The Students' Union".
- Every student enrolled at Cardiff University is automatically a member of Cardiff Students' Union.
- The Union is run by a committee of students and is dedicated to the social and welfare needs of all students on campus. All profits made go back into improving the services available to you.
- The Union building includes a bar, nightclub, concert venue, shopping mall, cafés and an advice centre.
- The Union runs its own student newspaper, magazine, radio station and television station.

International café

The Students' Union also has a dedicated space where international students can make friends, eat, relax, play computer games, and meet as societies.

International societies

The best way to make friends is to join a "student society". These clubs are very important to student life and are run by other students. There are more than 120 societies, many of which represent areas of the world including: Arabia, China, Malaysia, India, Pakistan, Nigeria and many more.

For two weeks every year the international societies celebrate "Go Global" – a festival that showcases the University's diversity involving dance, music and food.

Sport & keeping fit

The University takes sport very seriously, and the Athletic Union runs 60 sports clubs and arranges fixtures against other universities. Almost every popular sport is played at the University and whatever your level you will find an opportunity to play and participate.

If you are interested in keeping fit, the University has two gyms and runs classes dedicated to mental and physical well-being. More information can be found online at www.cardiff.ac.uk/sport

university life

Supporting you

The University knows that while you are here you may need some help. You might have an academic question, or you might have a more personal issue.

Cardiff University offers support in many ways.

- Every student at the University is allocated a personal tutor. Your tutor can assist with any academic or personal problems you may have.
- The Student Support Centre has specialist international advisers who can help you with visas, housing, finances and anything which you would like to talk about: www.cardiff.ac.uk/studentsupport
- If you want to talk to someone outside the University, the Students' Union also has an advice centre.
- Cardiff University is one of only a few UK universities to provide postgraduate students with dedicated social, training and academic facilities at the University's Graduate Centre: www.cardiff.ac.uk/gradc
- If you are not sure where to turn or who to talk to, you can always visit the International Office for advice.

Orientation

Before you arrive at the University you may be worried about settling in, making friends and life in the UK. The International Office aims to make your transition as smooth as possible with an "induction programme" in September and January.

The September induction programme includes:

- 1 a free collection service from Cardiff and Heathrow airports. International Office staff will provide a warm welcome at the airport and take you and your luggage to your accommodation.*
- 2 practical information and fairs to help you settle quickly into living and studying in Cardiff.*
- 3 tours of the University and the city of Cardiff to help you find your way around.*

- 4 social events and parties, including traditional Welsh dancing. These are a great way to make friends.*
- 5 a bank letter service to help you open a bank account when you arrive in the UK.*
- 6 a coach tour of South Wales. Visit some of Wales' historic monuments with the International Office.*

If you choose Cardiff University you will be linked to the University for the remainder of your life. When you submit a résumé, or are asked to provide a biography, the name of your University will stand out. It is therefore important to choose a University that will continue to be recognised and world-leading.

With this aim, Cardiff University is ensuring it remains a leader in research and teaching. Alongside international partners, Cardiff University will play a crucial role in tackling some of the biggest global issues of today and the future.

International partnerships

Combating the issues of the 21st century will take more than one university and it is important that we share resources and knowledge. Cardiff University's international network includes Peking University, the University of Pennsylvania, the Asian College of Journalism, the University of Tokyo and many more.

Campus Horizons

World-leading teaching and research requires infrastructure to match ideas. Cardiff University has some of the best facilities available but progress requires the University to continually upgrade and expand.

The Campus Horizons project is one of the most ambitious building plans of all the UK universities. It includes a brand new campus adjacent to Cathays Park and high-tech laboratories, expanded libraries, increased postgraduate facilities and more welcoming spaces for the local community.

Your future, our future

Your relationship with Cardiff University does not end at graduation. As an alumnus you will also contribute to the University's future. You will take the skills and knowledge you learn at Cardiff into the wider world and showcase the University as an institution that develops the very best graduates. We will stay in contact with you and send you news about your University. We also have a dedicated website for alumni with information related to jobs, networking and reunion events: www.cardiff.ac.uk/alumni

www.cardiff.ac.uk/archi

The Welsh School of Architecture is one of the UK's most distinguished centres for the study of the built environment. Your learning experience will focus around the studio project, with a one-to-one approach to design teaching and support from the finest computer modelling, design tools and research facilities available. The School's worldwide reputation makes talented WSA graduates sought after by leading employers in the architectural and construction industries. Admission, however, is highly selective and most programmes will require you to show a strong design portfolio in addition to a good academic record.

Under the leadership of its current director, MRC Professor Ole Petersen CBE FRS, the School provides a dynamic and stimulating research and learning environment with impressive modern facilities and high-calibre staff. January 2011 saw the launch of three new University Research Institutes: Neuroscience and Mental Health, Sustainable Places and the European Cancer Stem Cell Institute. The Institutes, all of which involve School of Biosciences academics, were created to pursue new approaches to pressing concerns about cancer, mental health and sustainability. In the authoritative 2010 Annual World University Ranking (based on research strength and performance) compiled by Shanghai Jiao Tong University (<http://www.arwu.org>), Life Sciences at Cardiff University is in the top 100 worldwide and in the top 10 in the UK. At undergraduate level, the School gives flexibility, allowing you to switch courses after the first year and also offering a four year programme. The extra year is undertaken on a placement, enhancing the knowledge you gain in the School's laboratories with practical work experience and insight.

The School of City and Regional Planning has been independently acknowledged as the largest and best planning school for over 20 years. By studying in an internationally recognised School, you will benefit from being taught by acclaimed academics delivering courses that confront the challenges of 21st century planning. Cardiff's reputation, plus professional course recognition, ensures that our graduates have excellent career prospects and are highly desired by private and public organisations. The School's research has European and worldwide links, which is reflected in our PhD students' backgrounds and interests. This provides you with a vibrant research environment and access to an international network of researchers.

Cardiff School of Engineering is based in a modern, purpose-built building, housing some of the UK's most advanced facilities. The School's research activity has a worldwide reputation and a record of collaboration with industrial partners such as Corus, Laing O'Rourke, Halcrow, National Grid, Rolls Royce, NASA, Mott Macdonald, BP, RWE Npower, and Atkins. This means you will receive cutting-edge and career relevant teaching from global experts in their field. Engineering graduates are highly employable and Cardiff gives you the opportunity to further enhance your prospects by offering a year in industry on undergraduate programmes. All of the School's courses provide accreditation from the relevant professional bodies and competetive scholarships are available.

Cardiff School of European Studies is one of the largest and most dynamic schools of its kind in the UK. The School has its own cinema auditorium and IT suites, providing you with the latest in language learning technology. The School also maintains close links with universities across Europe providing a highly cosmopolitan and networked environment. Undergraduate language degrees additionally offer you the opportunity to study in Europe at a partner institution in France, Germany, Italy or Spain. The School also offers undergraduate programmes in Politics and International Relations and a joint degree with the University of Bordeaux. At postgraduate level the new MA Translation Studies programme attracts students that speak a variety of different languages.

Cardiff School of Journalism, Media and Cultural Studies is a world-leading centre for media teaching and research. You will be taught by highly qualified staff many of whom have international experience and are involved in collaborative ventures with leading universities and top journalism schools worldwide. Programmes offer scholarly excellence, renowned vocational training or a combination of both where you will be encouraged to reflect on the way the media operates nationally and internationally. Cardiff's international popularity means you should benefit from your fellow students' shared professional and cultural experiences, ensuring you leave with contacts in countries from around the world. The School also offers one £5000 scholarship on each MA programme.

The Welsh School of Pharmacy is among the leaders in clinical skills development in the UK. Accredited by the Royal Pharmaceutical Society of Great Britain, the Master of Pharmacy degree equips you with a sound knowledge of the pharmaceutical sciences and the necessary skills to proceed confidently into pre-registration training. It also offers you the experience of working closely with pharmacy practitioners and produces graduates highly-qualified for career opportunities in hospital, community, industrial and academic pharmacy. Towards the end of your degree, staff at the School will assist you in finding a pre-registration post. For more than a decade, ALL of our graduates have secured posts before graduation.

Study for
one or two
semesters
at Cardiff
University

the study abroad programme

Studying for a short time at Cardiff University is a great opportunity to gain some valuable international experience while being immersed in a unique Welsh cultural tradition.

You will gain an alternative perspective on your chosen subject, enhance your résumé and make worldwide friends.

Study Abroad students are fully integrated into the student body at Cardiff University. You will be taught and assessed alongside all other students and have access to the same social and academic facilities featured in this prospectus.

A unique Welsh cultural experience

Studying abroad at Cardiff University provides the exciting opportunity to explore Wales and the distinctive Welsh culture. Many study abroad students choose to undertake classes about Wales and learn some of the Welsh language while they are here. It is also very easy to reach the rest of the UK and Europe. Cardiff has excellent rail services and low-budget airlines operating out of Cardiff Airport.

Build your own Study Abroad Programme

Cardiff University's academic system is modular which means you will be able to choose classes from several different subjects. You will be able to build your own programme to suit your interests and match with the degree in your home country.

The full range of available modules is online: www.cardiff.ac.uk/studyabroad

Who can apply?

You can apply for The Study Abroad Programme if:

- you have studied for two years at another university which is recognised by Cardiff University.
 - you have achieved certain grades in the preceding years. Commonly this is a GPA of 3.0 or equivalent (on a 4.0 scale), although some Schools may require a higher average.
 - your home University will permit you to Study Abroad and recognise grades achieved at Cardiff University as contributing to your degree.
 - you are from outside the European Union.
- Note: for some modules you may be required to show you have certain pre-requisites/ background knowledge.

More information

For more information on your choices and to check your eligibility please visit the website www.cardiff.ac.uk/studyabroad or contact The Study Abroad Office: studyabroad@cardiff.ac.uk

The Cardiff IFP is the only foundation programme that offers direct routes to Cardiff University undergraduate programmes

International Foundation programme

International Foundation Programme
www.cardiff.ac.uk/ifp

The International Foundation Programme is a one-year academic programme taught at Cardiff University. It is designed to give you the academic and English language skills needed to enter an undergraduate degree scheme. The Cardiff University IFP is the only foundation programme that offers direct routes to Cardiff University.

The International Foundation Programme offers direct routes to in the following subject areas:

- Business
- Engineering
- Health & Life Sciences

Students can also apply for progression to a variety of other courses offered at Cardiff University.

Key facts about the Cardiff IFP

- Classes are taught on campus by Cardiff University staff.
- You will be a full member of Cardiff University and benefit from all academic, welfare, social and sporting facilities.
- The IFP offers high levels of pastoral care through the dedicated IFP office and system of personal tutors.
- University accommodation is guaranteed for the duration of the course.
- The IFP office has well-established and successful working relationships with many embassies and sponsorship organisations throughout the world.
- You will receive a comprehensive induction programme including free coach collection services, information events and social activities.

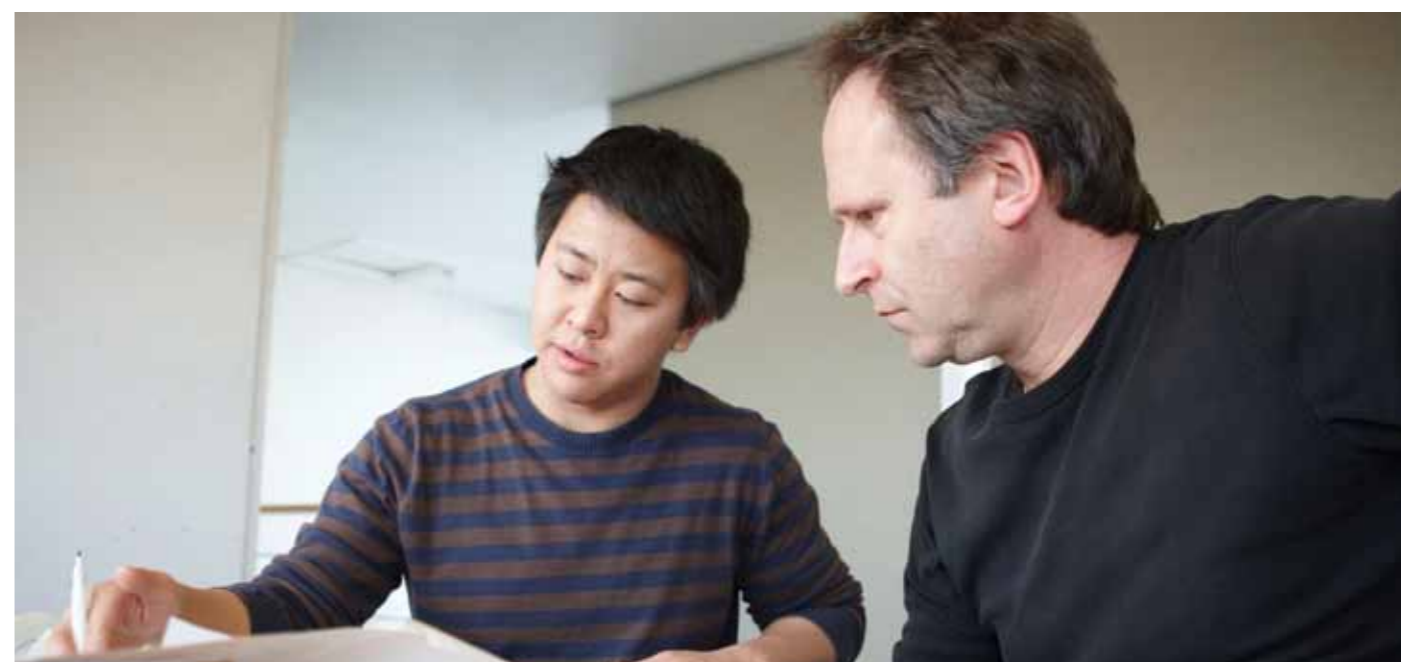

Who can apply?

The International Foundation Programme is for you if:

- you hold a secondary school-leaving qualification meaning that an extra year's study is necessary to reach the appropriate level for undergraduate study in the UK.
- you have appropriate academic qualifications but need to develop your English language and study skills in preparation for an undergraduate degree programme in the UK.
- you are from outside the European Union.

More information

To download an application form, or for more information please visit www.cardiff.ac.uk/ifp or e-mail foundation@cardiff.ac.uk

English language programmes

The Bridge Programme
www.cardiff.ac.uk/elt/bridge

The Bridge Programme is a full-time English language and study skills course in academic English.

It is specifically designed for European and international students. It is a good choice if you:

- plan to continue your higher education studies at foundation, undergraduate or postgraduate level.
- are looking for an intensive course with an academic focus to improve your general English.
- need to develop your professional English for business and industry.
- want to improve your IELTS score for university entrance or professional development.

The programme provides you with the skills and language needed for a smooth transition into academic study and professional life. The aim is to develop confident and successful students and professionals for the international marketplace.

The Bridge programme has three entry points in September, January and April.

Included in the course:

- 20 tuition hours per week (plus self study and assignments).
- a free IELTS exam at the end of the 9-month course.
- one-to-one tutorial guidance and support.
- free internet access on all University computers.
- use of all University academic and social facilities, including resource centres, computer workstations, sport and fitness centres, and the Students' Union.

Pre-sessional English language courses
www.cardiff.ac.uk/elt/presessional

The Pre-sessional programme provides an excellent opportunity for students holding offers from or applying to study at Cardiff University, at postgraduate or undergraduate level, to take short courses in English for Academic Purposes.

These courses are highly intensive and are designed specifically for students who need only a short period of study to reach the required English language entry standard for their academic course.

You can take a course for 11 or 8 weeks depending on your level of English and academic requirements.

Please note that successful completion of a Pre-sessional summer course may not replace your condition of entry. Most offers will require you to take a recognised English language examination, such as IELTS, at the end of the course to prove you have reached the level stipulated in your offer letter.

More information

For more information about English language programmes at Cardiff University please visit the website www.cardiff.ac.uk/elt or email elt@cardiff.ac.uk

How to apply

Applying for a place at University can seem complex – but at Cardiff the International Office is here to guide you every step of the way.

Entry Requirements

The University recognises qualifications from all over the world. To know if you would be considered for entry you can:

- look on the website. We have a dedicated section for many countries. This will give you an overview of qualifications we consider: www.cardiff.ac.uk/international/country
- contact the International Office.
- contact an educational adviser. The University has an international network of educational advisers (agents) who give free advice (see the website above for their contact details).

Some courses may require additional information or exams. For example: undergraduate architecture students must submit a portfolio. Check with the School, the International Office, online via the University’s course finder or with an adviser.

English Language Requirements

In addition to academic qualifications, the University also requires an English language qualification. The University accepts IELTS, TOEFL and IGCSE/GCSE however the University also considers other English language qualifications, including the Indian Year 12 and WAEC.

Different courses will require you to get different scores, however most courses require an average of 6.5 in IELTS or equivalent. You will also be required to achieve a certain grade in sub-scores. Some courses require a higher overall score, especially those that are language-based and require more complex English usage. You should check the website, contact the School or ask the International Office if you are unsure of the requirement.

If you do not have the required English language level you may want to study an English course at Cardiff University. More information is on page 37.

How to work out your English level

If you do not have an English language qualification it is recommended you take an IELTS or TOEFL exam. The British Council (www.britishcouncil.org) can provide information on test centres in your country. When you have worked out your level you will know which course is right for you. You may also find this table of equivalencies useful:

IELTS	TOEFL (paper)	TOEFL (iBT)
5.5	525	68
6.0	550	80
6.5	580 (TWE = 4.0)	90
7.0	600	100

Application procedure – Undergraduate / Bachelors
To apply for an undergraduate/ bachelors degree course you need to use an organisation called UCAS and apply online at www.ucas.com
UCAS allows you to apply to up to five (four for medicine/dentistry) courses at any combination of UK universities using the same application form. The institution code for Cardiff is C15. Course codes are listed on the University’s website.

If you want to apply for an undergraduate degree but only have 12 years of education, you may need to take a foundation programme/year zero. More information on applying to Cardiff University’s International Foundation Programme is available on page 36.

Application procedure – Postgraduate Taught / Masters
You apply directly to the University for a postgraduate taught course. You can apply online at www.cardiff.ac.uk/apply or you can download paper application materials from the website. It is recommended that you apply online because it is quicker and you can track your application.

Application procedure – Postgraduate Research / PhD / MPhil
The application procedure for postgraduate research is the same as postgraduate taught (above), however you will also need to include a research proposal. You should also make contact with a member of academic staff who could act as a potential supervisor to your studies. To do this:

- 1) look at the websites of University schools to see if there is a member of academic staff who matches your area of research. Website addresses for Schools are located in the Schools section of this prospectus.
- 2) send the member of staff a short e-mail outlining your area of interest.
- 3) mention on your application form which member(s) of staff you have contacted regarding your supervision.

If you are unsure whether the School is able to offer supervision for your research you can contact them directly. Email addresses for PhD enquiries are included in the Schools section of this prospectus where you will also find Cardiff University’s areas of research.

Common Questions

Is there an application fee?
For the vast majority of courses Cardiff University does not charge an application fee. If you are applying to an undergraduate course, UCAS will charge a small fee, currently £21.

When is the deadline for applications?
The official deadline for undergraduate courses is the 30th June each year. If you want to apply after this date you should contact the International Office. If you are applying for a medicine or dentistry course the application deadline will be October 15th prior to entry in September the following year.

Most postgraduate courses do not have a deadline. The University however encourages you to apply as early as possible to avoid disappointment. You will need to ensure you have enough time to complete the application process and, where applicable, get a visa. Some courses can also become full quite quickly. It is recommended you apply 9–12 months in advance of the course starting.

What if I don’t have all my qualifications/ transcripts?
You do not need all your qualifications before you apply. You can take exams and submit your results after your initial application.

My studies have been completed in English - do I still need an English qualification?
If you have previously studied in the medium of English this may be sufficient for the English requirement. This is at the discretion of the School. If you believe this could apply to you please state your reason in your application. You may still be required to provide a recognised qualification.

How long will it take to have a decision made on my application?
The University endeavours to make a decision on applications within six weeks, however during busy times it may take longer. If you have not had a response after six weeks please contact the International Office. Because PhD applications are more complicated, they can take longer to assess.

How to write your personal statement

All Cardiff University applications require you to write a personal statement. A good personal statement will help you get the edge over other applicants and is your opportunity to tell the University about yourself, say why you’re interested in the course and provide details of any relevant experience you have. Below are some tips for writing a good personal statement:

- be enthusiastic. Admission tutors want students that are passionate about the area they are studying. You should write why you are interested in the course, what research you have done into the subject area, and what you plan to do after you graduate.
- include any work experience. If you have any relevant work or voluntary experience this will help show your commitment. For example: if you are applying for a journalism course, include any experience you have working on student newspapers. This is very important for students considering applying to healthcare related courses. The admission tutors will want to be convinced that you understand the demands of working in these professions.
- show you can be part of a team. Admission tutors are looking for students that will integrate and work well with other students. If you have been a member of a team, or held a position of responsibility, you should show how these experiences will help you in your studies.
- include your interests. The University is also looking for students that will contribute to the wider student community. You should provide information on your social and cultural hobbies, for example: community volunteering or playing a musical instrument.
- demonstrate ability in English. It is a good idea to ask someone to proof-read your personal statement, and remember to run a spell-check. Even if English is your first language, you should detail how you have used English since your last English exam. For example: at work, or during your studies.

Fees and living expenses

This page will give you basic information about fees and finances and why Cardiff is a good location if you are on a budget. If you have any questions – please contact the International Office.

Tuition Fees
Tuition fees are different for each course. You should check the website or contact the International Office for further advice.

To make it easier to manage your finances you can pay your tuition fees in 3 instalments each year.

Funding and Scholarships
The University has a limited number of scholarship opportunities. Visit the online Funding and Scholarships database where you will find information about Cardiff University funding and any other scholarships the University is aware of:
www.cardiff.ac.uk/searchforfunding

Living Expenses
For the 2011/12 session the University estimated that a single student in Cardiff would need £720 a month. These estimates are based on the actual experiences of students living in Cardiff.
This means for the year that:
/ an undergraduate student (September – June) needed £6,480 a year.
/ a postgraduate student (September – June) needed £8,760 a year.

These estimates include accommodation, bills, food, books, clothes, travel, telephone and social expenses.

If you are intending to bring family members, such as a spouse or child, you will need to have at least an extra £400 a month for each family member.

Working Part-Time
Cardiff University is in the middle of one of Europe’s fastest growing cities and there are many opportunities for part-time employment both on campus, and in the city. The University’s “Jobshop” offers a free service to help you find part-time employment. Usual jobs for students include helping out in shops and at events, call-centre work and basic office assistance.

Most international students can work up to 20 hours during term-time and full time during the holidays. The University does not recommend you work the full 20 hours during the term because studying in the UK is intensive and you will need to make sure you have enough time to complete all your coursework and reading.

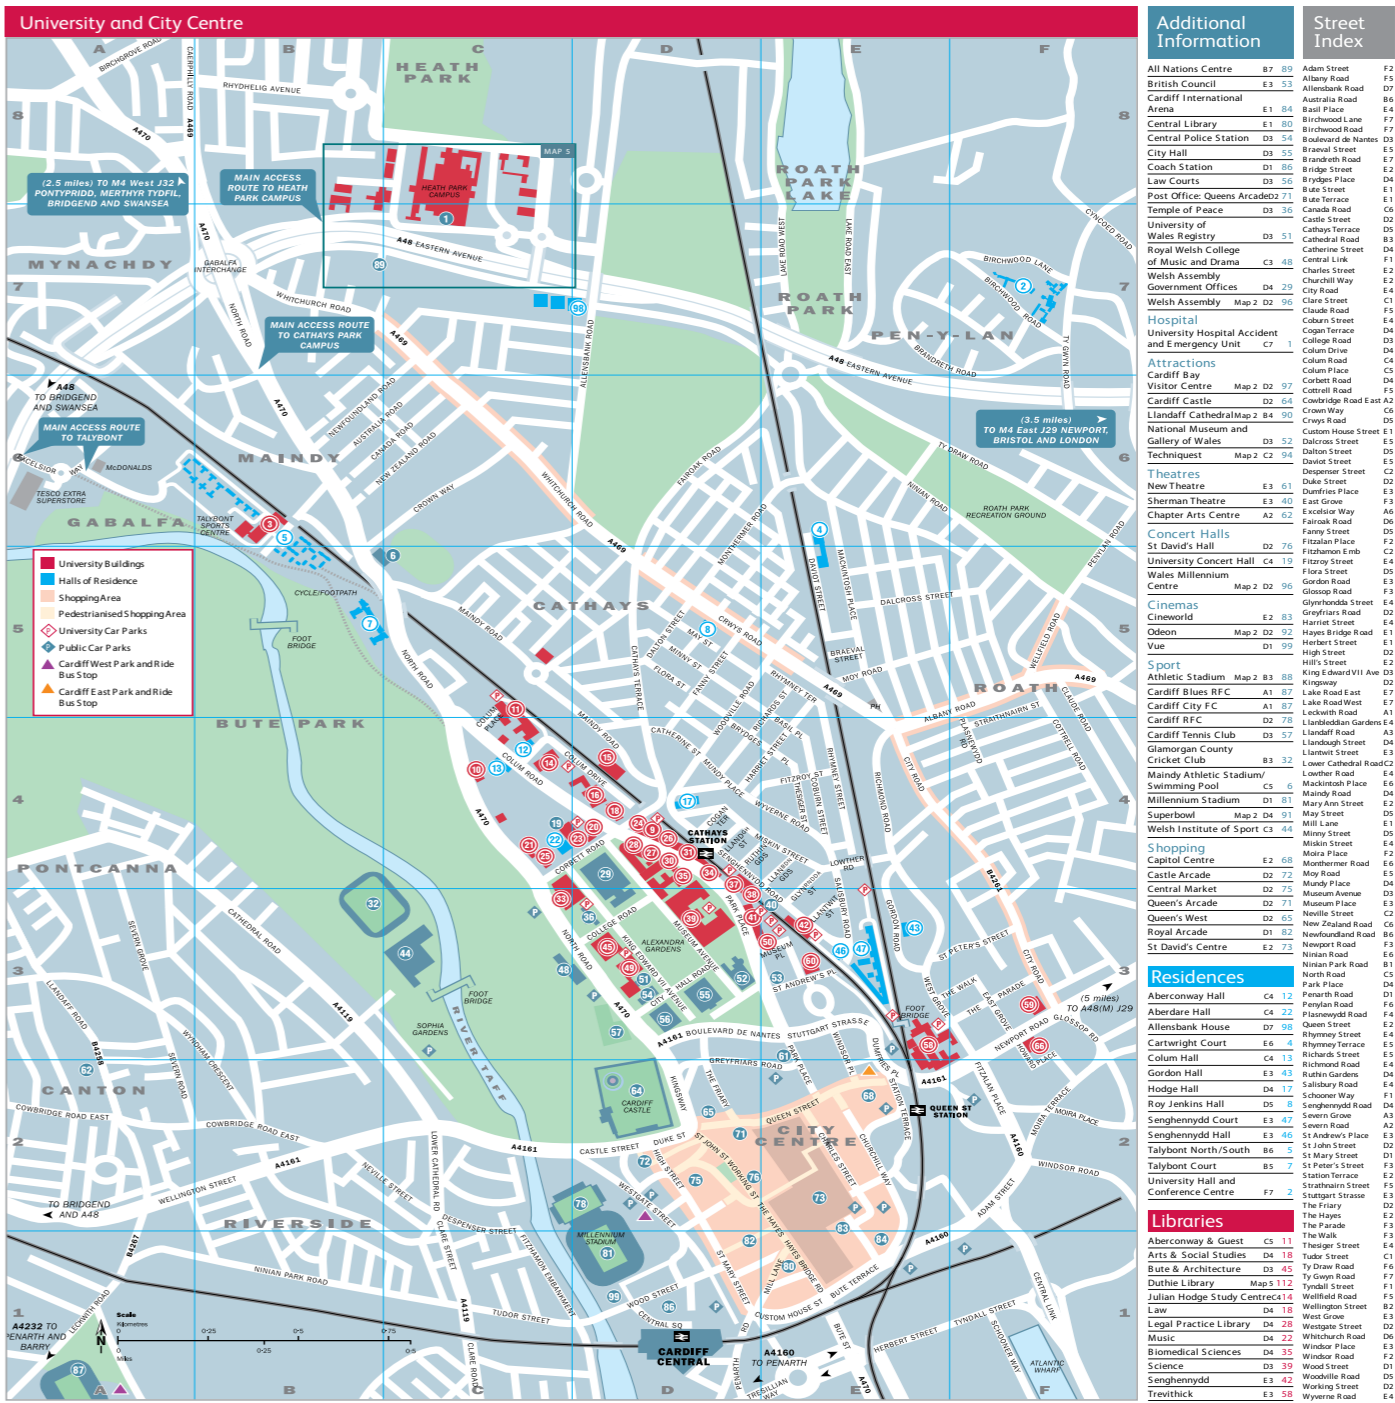

How does Cardiff compare with other places?
Cardiff has many advantages which make it a cheaper place to study than other university cities. These include:
/ Cardiff is a compact city and the University is in the middle – therefore you won’t have far to travel between the University, city centre shops and your accommodation.
/ Cardiff is also very flat making it easy to walk or cycle around. You won’t need to spend money on buses or taxis.
/ Cardiff council runs bicycle and car sharing schemes. This will make it even easier for you to get around without large extra costs.

Rent is £45 cheaper a week than London

Cardiff is also one of the most affordable of the traditional University cities. The table below compares the Russell Group of Universities, and the average cost of rent for students per week. Cardiff is almost £8 cheaper a week than the average UK student rent, and a massive £45 cheaper a week than rent in London. This does not include other items such as food and entertainment which are also significantly more expensive in other cities, especially London.

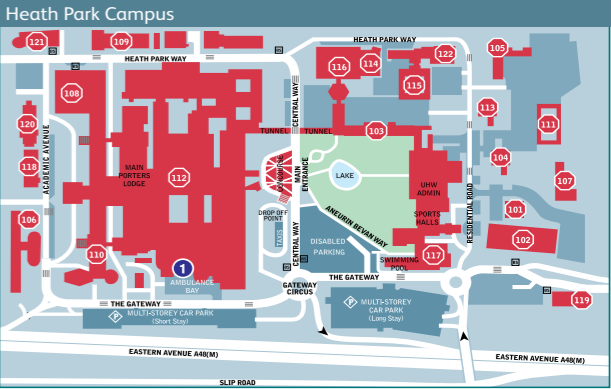

University	Average rent £ per week
Queen’s, Belfast	53.71
Liverpool	55.49
Birmingham	57.30

The University offers the information contained in this prospectus as a guide only. It does not constitute a contract and is not binding on prospective students, current students, or the University. While the University makes every effort to check the accuracy of factual content at the time of publication, some changes will inevitably occur in the interval between publication and the academic year to which this prospectus relates. For example: courses, entry requirements and admission procedures may have changed.

Applicants should not therefore rely solely on this prospectus and should visit the University website www.cardiff.ac.uk for up-to-date information concerning course content, accreditation, and entry requirements for the relevant academic year when considering applying to the University. You are advised to contact the International Office if you have any questions related to this publication.

Students admitted to Cardiff University study for a Cardiff University degree, unless otherwise stated in the entry for a specific programme.
