

Guide to Postgraduate Courses 2012

Cover image:

Monash graduate **Kate Edwards** found the flexibility of the Master of Laws (Juris Doctor) allowed her to continue working in commercial property development while she gained the academic qualifications to apply to practise law. Kate says, "Expert lecturers gave me constant support and advice, and the small class-style environment was great for networking."

Monash on YouTube

www.youtube.com/monashunivideo

Monash University has more students, more staff and more campuses around the world than any other Australian university. This means more choice and more opportunities. We have global ambitions for the future, yet we've retained a reputation for being friendly and approachable.

CRICOS provider: Monash University 00008C

CRICOS provider: Monash College Pty Ltd 01857J

All students should visit the Monash website for updates. Monash supports the intent of Education Services for Overseas Students legislation and is a registered provider of education services.

Produced by Monash Marketing and Communications, Building H, Caulfield campus.

**Global reach,
global reputation**

Monash is positioned in the top 1% of world universities

(Times Higher Education World University Rankings 2010)

Monash is one of Australia's most prestigious universities. With an international reputation for the high quality of its research and its teaching, the University consistently ranks among the top universities in Australia.

Monash has built its reputation on career-focused degrees and the highest standards of learning, teaching and research.

The Group of Eight is a coalition of prestigious Australian universities, renowned for the high standard of education they provide.

The universities that make up the Group of Eight collectively produce more than 70% of all basic research conducted at Australia's universities.

They are:

- Australian National University
- Monash University
- The University of Adelaide
- The University of Melbourne
- The University of New South Wales
- The University of Queensland
- The University of Sydney
- The University of Western Australia

Monash – a leader

- The equal best university in Australia for positive graduate outcomes (Good Universities Guide to Postgraduate Courses 2011).
- Among the top 50 universities in the world for arts and humanities, life sciences and social sciences (QS World University Rankings).
- A global alumni network of over 235,000 graduates
- With students from over 100 countries, speaking as many as 90 languages, our campuses boast a rich mix of cultures, ideas and perspectives.

Rankings – study area and discipline

The QS World University Rankings rated us:

- 43rd for Arts and Humanities
- 58th for Engineering and Technology
- 49th for Life Sciences and Medicine
- 69th for Natural Sciences
- 34th for Social Sciences and Management

The Academic Ranking of World Universities rated us:

- In the top 75 universities for Chemistry

The Times Higher Education World University Rankings rated us:

- 31st for Clinical, Pre-clinical and Health
- 42nd for Life Sciences

The difference you need

A postgraduate degree from Monash can provide a faster route to where you want to be. If you're looking to fast-track your career, or want to change careers, a postgraduate degree from Monash can give you a distinct advantage. Especially in career markets demanding higher levels of skills and qualifications.

If you're pursuing a personal interest, the range of full-time and part-time courses offered will help you arrange your study around your life.

With the Federal Government aiming to have 40% of 25 to 34-year-olds holding undergraduate degrees by 2025*, a postgraduate degree offers graduates a guaranteed mark of excellence.

* Transforming Australia's Higher Education System, Commonwealth of Australia, 2009

Why choose Monash?

Prestige. You get a qualification from a Group of Eight university.

Expertise. Undertake your course under the leadership and supervision of world-class scholars.

Choice. Monash offers one of Australia's most comprehensive range of postgraduate courses.

Balance. Organise your study commitments to suit your life.

Relevance. As a research-intensive university, our courses are designed using the latest research and industry developments.

Arrange your study around your life

Postgraduate study is a big enough challenge without making you jump through scheduling hoops. Monash offers a range of options to help you fit your degree into an already full life.

This includes on-campus, off-campus, part-time or full-time study. Some subjects are offered in intensive block mode – which lets you organise a short break from work to complete a unit.

And you don't have to commit to one specific mode. You can, for example, take one off-campus unit and one on-campus.

It's what works best for you.

Off-campus courses

Off-campus learning is based on a combination of independent learning materials and learning support systems. Class attendance is generally not required or kept to a minimum

More opportunities in more places

More campuses. More places.

Monash has six Australian campuses, plus campuses in Malaysia and South Africa. The University also has a centre in Prato, Italy and a joint postgraduate research academy in India.

Monash University, Victorian campuses

A free Monash Shuttle Bus service runs in both directions from Clayton to Berwick, Clayton to Caulfield and Clayton to Peninsula campuses, as well as between Frankston station and Peninsula campus, during the academic year.

Parking is available at or near all Australian campuses.

ACCOMMODATION

Accommodation is available (either on campus or near-to-campus) at all campuses except Parkville and Sunway.

www.mrs.monash.edu/on-campus/berwick
www.mrs.monash.edu/on-campus/clayton
www.mrs.monash.edu/on-campus/caulfield
www.mrs.monash.edu/on-campus/gippsland
www.mrs.monash.edu/on-campus/peninsula
www.mrs.monash.edu/on-campus/south-africa

On-campus

Living on-campus is a great way to concentrate on your studies and you're part of a community of people also committed to their courses.

The closing date for lodging applications for the following year is 30 November.

For more information on accommodation, visit www.mrs.monash.edu or telephone +61 3 9905 6200.

Off-campus

Off-campus accommodation options include student hostels, full-board/homestay, part-board, private apartments and private houses.

The Housing Advisory Service, part of Monash Residential Services, assists students with information and advice about off-campus accommodation.

For off-campus inquiries, telephone

+61 3 9903 4646 or email

offcampus.mrs@monash.edu.

www.monash.edu/study/services/housing

Berwick

Berwick is a small, friendly campus with about 2000 students about 40 minutes south east of Melbourne. It is a five minute walk from the heart of Berwick's specialty shops, cafes and business services.

A reading room and computer laboratory are available for postgraduates at Berwick campus.

www.berwick.monash.edu

Clayton

Clayton is the largest of the University's eight campuses. It combines a vibrant research, technology and manufacturing precinct with first-rate sporting facilities, shops, a student centre, libraries, a post office, banks, medical services and religious centres.

The Monash Research Graduate Centre, centrally located on Clayton campus, is equipped with a range of services for postgraduate students, including: 24-hour access, computer laboratory, full-time support staff and a large multi-purpose seminar and lounge area.

The campus can be reached by train and an extensive bus network.

www.monash.edu/campuses/clayton

Caulfield

Caulfield is the second largest Monash campus, with about 13,000 students. It is the main centre for the faculties of Business and Economics, Art & Design, and Information Technology.

The campus is nine km from the Melbourne city centre and adjacent to Caulfield train station, a major junction for city-bound services from Frankston, Dandenong and Pakenham.

Caulfield campus has two main postgraduate lounges with kitchen facilities. Two study areas, several computer laboratories and 11 meeting rooms provide a range of options for students.

www.monash.edu/campuses/caulfield

Parkville

Located three km north of Melbourne's city centre, the Parkville campus houses the Faculty of Pharmacy and Pharmaceutical Sciences. The campus has first-class teaching facilities, innovative learning spaces and research laboratories.

The campus is home to the Centre for Medication Use and Safety and the Monash Institute of Pharmaceutical Sciences, which comprises the largest and most experienced group of pharmaceutical scientists in Australia.

A postgraduate common room has facilities including a refrigerator, tea and coffee-making facilities, a TV, couches and a computer.

www.pharm.monash.edu

Gippsland

Monash Gippsland is the University's only regional campus – situated about a two hour drive from Melbourne. Eight of the 10 Monash faculties are represented on campus, providing a broad array of undergraduate and postgraduate academic programs and research activities.

The campus is valued as a place to study and live, away from the pressures of city life. It is easily accessible by a bus connection from Morwell train station or by car.

The picturesque Gippsland campus has a postgraduate lounge beside the campus library and the Student Union Lounge. Facilities include a meeting room, kitchen and games area.

www.gippsland.monash.edu

Peninsula

The Peninsula campus is about an hour's drive south of Melbourne, between the bay and the beach. It is a centre for nursing and paramedic training and early childhood and primary education, and is also being developed as a centre for health science research.

The Struan Postgraduate Centre provides a wide range of services to all postgraduate students. Research students from any campus can use the facilities, which include wireless computer and printing facilities, seminar/meeting rooms and a student lounge and kitchen facilities.

www.monash.edu/campuses/peninsula

Sunway, Malaysia

This was the University's first international campus. The campus offers state-of-the-art teaching and learning infrastructure to almost 4000 students. A postgraduate centre on the Malaysian campus has 41 well-equipped work stations, seminar and discussion rooms.

www.monash.edu.my/future

South Africa

The South Africa campus is dedicated to educating the future leaders of Africa. The campus is located on a 100-hectare site in Ruimsig, a growing suburb 23 km from the Johannesburg city centre. Students at the campus benefit from small classes, advanced facilities and state-of-the-art technology. There is a strong volunteering ethic on the campus. Many students give up their free time to help disadvantaged children with their school work.

www.monash.ac.za

Prato Centre, Italy

The Prato Centre, near Florence, hosts short and semester-length courses and seeks to develop and expand Australia's connections with universities, governments, cultural organisations and industry in Europe. It has also been established to develop and expand the opportunities for Monash and other Australian students to study overseas. It is an ideal venue for workshops, seminars and conferences.

www.ita.monash.edu

IITB-Monash Research Academy

The IITB-Monash Research Academy, based in Mumbai, India is an exciting partnership between the Indian Institute of Technology Bombay (IITB) and Monash University – two of the world's leading educational and research institutions. Together IITB and Monash have taken a collaborative approach to multidisciplinary research that delivers high impact, integrated solutions to complex research problems for industry, government and the broader research community.

www.iitbmonash.org

Coursework or research?

By searching
for answers
and developing
solutions, you can
make a personal
contribution to
major issues

There are three ways to study for a postgraduate degree.

- By coursework.
- By research.
- By coursework with a research component.

Coursework options

Postgraduate coursework degrees at Monash are offered in all disciplines, and at every level, including Masters, Graduate Diplomas and Graduate Certificates.

You can study full-time or part-time, off-campus, on campus or online.

And, if you need to adjust your goals, you can.

For example, you might start a Masters course but choose to exit early with a Graduate Diploma. Or start a Graduate Diploma and decide to continue onto a Masters program.

Research options

Monash offers research-based postgraduate degrees in all disciplines.

And, while the challenge takes commitment, drive, motivation and talent, the benefits are enormous.

It will enable you to pursue a passion, working in a supportive environment with like-minded people. And it can open up incredible career opportunities.

Coursework and research

Combined degrees offer you the flexibility to complete part of your course by following a unit-based program, and part of it by completing a research thesis. It will allow you to grow through experiencing two very different methods of higher education.

Making a difference

Research that makes an impact

The University's reputation has been built, in part, on our unique approach – combining education and research. We believe research is not a separate academic pursuit, but should be used to provide tangible improvements to our communities. This ideal of turning thoughts into action means the University is at the forefront of developing new ideas and cutting-edge technologies. It's why a Monash education is respected around the world.

There are Monash graduates on every continent, leaders in the fields of engineering, business, technology, law, medicine, science and the arts.

From the laboratory to the community

The University's ambitious research activities bring about real and positive change to people all over the world. Monash researchers have been at the forefront of:

- pioneering in-vitro fertilisation (IVF) technology
- developing drugs to combat viruses such as malaria and influenza
- reducing road fatalities through ground-breaking accident research
- using stem cell research to revolutionise medical treatments

Extra support
when you need it

A postgraduate degree takes commitment and drive.

To help you maintain the momentum you build, we help put you in touch with like-minded people. To share information. To build networks. To get the support to keep you going.

Monash Postgraduate Association seminars

To help you make the transition from successful study to a successful career, these seminars address helpful topics like publishing, time management, career management and writing skills. For details, visit www.monash.edu/students/mpa.

e-Research Services

The Monash e-Research Centre provides all Monash researchers with access to outstanding advice and assistance – to help you manage your research projects and data effectively and efficiently. The centre can give you the advice, information and assistance you need to help you identify, specify, develop and configure IT tools and data management systems and practices to meet your specific needs. For details, visit www.monash.edu/eresearch/internal.html.

More than 25% of Monash students are studying postgraduate courses

Monash Postgraduate Association (MPA)

All Monash postgraduates are eligible to join the Monash Postgraduate Association. In addition to its seminar program, the association provides services for postgraduate students, including:

- social functions such as lunches, coffee clubs and question-and-answer sessions
- newsletters and publications including Compass, MPA guide to postgraduate programs and a weekly MPA email news bulletin
- advice, advocacy and mediation on issues that postgraduate students may encounter during their study
- representation on Monash University and faculty committees.

For details, visit www.monash.edu/students/mpa.

exPERT seminars

The annual exPERT seminar series (Postgraduate Employment and Research Training), comprising over 160 seminars and workshops, is specifically designed for postgraduate research students. Most sessions are free of charge and provide postgraduate students with valuable training in areas relating to candidature and skills for future employment.

Student support

Monash has services in place to help you adapt to and enjoy your university life as well as fulfill your academic potential. Student Service Centres are located on each of the Australian campuses. Staff can deal with your questions on admissions, enrolment, fees, examinations, graduations and scholarships.

www.adm.monash.edu/service-centre

The right balance

Expert health and wellbeing counsellors, medical practitioners, multi-faith chaplains and student advisers are available to support students in all facets of university life - from accommodation and financial aid, to work/study and life balance issues.

www.monash.edu.au/health-wellbeing

Scholarships

www.monash.edu/scholarships

Monash offers scholarships, bursaries and grants for both research-based and coursework-based studies.

Research scholarships

Postgraduate Research Scholarships are available to postgraduate students undertaking full-time research at Monash University's Australian campuses.

A range of awards are offered for research masters (for up to two years) and for a PhD or professional doctorate degree (for up to three years) with a possible six-month extension.

You may also be eligible for living allowances, travel grants, publication grants and statistical support.

Scholarships are offered at the main central selection round (applications close on 31 October) and at mid-year (applications close on 31 May).

Most faculties also offer scholarships to a number of applicants who miss out on a central scholarship offer.

For more information on specific grants and conditions, go to www.mrgs.monash.edu/scholarships/summary.html

Major research scholarships for Australian citizens and permanent residents

Name	Scholarship type	Eligibility	More information
Australian Postgraduate Award (APA)	Stipend/living allowance	Australian citizens, Australian permanent residents, New Zealand citizens and international students awarded an International Postgraduate Research Scholarship	other allowances eg relocation and thesis preparation
Australian Postgraduate Award – Industry (APA) (Industry)	Stipend/ living allowance	Australian citizens and Australian permanent residents only	For graduates interested in industrial research and qualified professionals seeking to upgrade their research skills
Monash Graduate Scholarship (MGS), including the Monash Silver Jubilee Scholarship	Stipend/living allowance	Australian citizens, Australian permanent residents and International students	other allowances eg relocation and thesis preparation
Sir James McNeill Postgraduate Research Scholarship	Stipend/living allowance	Australian citizens, Australian permanent residents and International students	Only for doctoral degree in Medicine, Engineering, Science and Music Generous allowances
Monash Departmental Scholarships (MDS) and Monash Research Scholarships (MRS)	Stipend/living allowance and/or tuition fee	Australian citizens, Australian permanent residents and International students	Other allowances may be payable

Coursework scholarships

A range of scholarships and bursaries are available for prospective and continuing coursework postgraduate students. The number of scholarship and bursary offers made in any one year is dependent on available funding. For full details on scholarships and bursaries available for coursework postgraduate students, visit www.monash.edu/scholarships.

Monash University Museum of Art

In October 2010, Monash University Museum of Art opened new museum premises on the University's Caulfield campus.

Located at the heart of the University's Art & Design precinct, the new museum encompasses a suite of dynamic gallery spaces; an expansive landscaped sculpture court; a major sculptural commission by artist Callum Morton; and a series of distinctive threshold spaces, including the canopy, spine, light-well, and Helen Macpherson Smith Education Space.

Designed by Kerstin Thompson Architects, the flexible form of MUMA's new architectural design provides increased gallery space and the capacity for MUMA to present an expanded program of exhibitions, special projects, education and public programs; alongside exhibitions from the Monash University Collection.

Monash University Museum of Art (MUMA) offers a unique perspective on the recent history of contemporary art and culture, and is adventurous and forward looking in the production, research and support of new art and ideas.

Through our exhibitions, collection and public programs, MUMA makes an energetic contribution to, and interaction with, the intellectual and cultural life of the University and broader communities.

Exhibitions range from newly commissioned projects to surveys of significant contemporary artists, and innovative exhibitions exploring the recent history of contemporary art from Australia and internationally. The Monash University Collection represents a leading overview of Australian art since the 1960s.

www.monash.edu/muma

ART & DESIGN IN PRATO, ITALY

Students in the Faculty of Art & Design have the option to undertake some study at the Monash Centre in Prato, near Florence, and gain full credit toward their degree while living and working in the centre of a medieval commune amid the landscapes of Tuscany.

Higher degree by research students in design, architecture or fine art are able to undertake some study at the Palazzo Vaj, which provides an ideal research base for masters and PhD candidates, while coursework students are able to take units in drawing, theory of art and design and interdisciplinary design. Completing your research in Prato gives students access to some of the world's greatest collections of art and design. As well as being close to Tuscany's renowned art collections such as the Uffizi and the Accademia, Prato houses the Pecci Foundation, the most important contemporary art museum in central Italy, and every second year one of the world's premier art events, the Venice Biennale is held close by. Also integral to all faculty studies is the cultural experience of being part of a medieval city, complete with walls, churches, palaces and winding cobbled streets; a living museum which brings history alive and makes it a part of daily life.

RESEARCH AT ART & DESIGN

The Faculty of Art & Design is recognised and respected for providing excellence in education, practice and research that is characterised by a spirit of enquiry and collaboration.

The faculty's energy is driven by a community of staff who are active art and design practitioners, architects and theorists that focus on critically informed creative activity at the highest level.

As professional artists, designers, architects and theorists, staff members bring expertise and dedication to their research that reflects the diverse approaches found in contemporary visual culture and the built environment.

Art & Design at a glance

- **Research intensive:** Monash Art & Design has the largest studio-based research degree program in Australia.
- **Experience:** our staff are leading practitioners, creative professionals and renowned researchers.
- **Influential graduates:** Our graduates are shaping the future of art and design around the world. As award-winning practitioners, they push artistic and social boundaries and challenge established ideas.
- **World-class facilities:** purpose-built art, design and architecture studios, laser-cutting lab, 3D printing and automotive transport clay modelling studio.

<p>Doctor of Philosophy</p> <p>The PhD program at Monash offers rigorous research training in an academic environment where research and research training are a major priority of the University. Monash is Australia's largest and most internationalised university with a multi-faceted academic profile supporting a wide range of research activities across its Australian and international campuses.</p> <p>The Monash Faculty of Art & Design has introduced doctoral studies to support the specific needs of fine art, design, multimedia, architecture and cross disciplinary research. This has included the development of a unique studio-based PhD, whereby practicing artists, designers and architects are able to incorporate their studio/workshop activity within a research framework, where candidates are supported by academic supervision, plus a suite of seminars, discussion groups and coursework units. The Faculty now has the largest studio-based research degree program in Australia, and is based in one of the top research universities in the country.</p>	1322	Caulfield, Gippsland, off-campus	4/8	Throughout the year	<p>The PhD is a university award administered by the Monash Research Graduate School Committee. For either mode, the minimum qualifications for admission to PhD candidature are: a bachelors degree (at least four years of full-time study), which normally includes a research component in the fourth year, leading to an honours degree class 1 or 2A level; or a course leading to a masters preliminary qualification at a level rated by the faculty as equivalent to an honours class 1 or 2A; or a masters degree that entailed work, normally including a significant research component, at least equivalent to an honours degree.</p> <p>Under exceptional circumstances, the Research Graduate School Committee may accept candidates with a degree of a lower grade than honours 2A if they have demonstrated an ability to undertake research at the PhD level. For example by producing evidence of quality work that can be reported on by a referee, or by producing proof of relevant professional experience at a high level.</p> <p>Application for the studio research PhD must be accompanied by 12–20 images of recent original work, clearly numbered with a corresponding list of details attached.</p>	RTS	
<p>Master of Fine Art</p> <p>This popular research program attracts artists who are passionate and committed to their practice, capable of independent analytical thought, and who are informed about the context and role that the visual arts play in the formation of contemporary culture.</p> <p>Through studio-based research, candidates will contribute to the advancement of visual culture by developing a curiosity beyond the conventional, testing and initiating new ideas and methods for art production, and by experimenting and exploring concept and form.</p>	2953	Caulfield, Gippsland, off-campus	2/4	1	<p>Applicants should hold an Australian bachelors degree with honours (1or 2A) or equivalent from a recognised tertiary institution. In special circumstances, the faculty may admit an applicant who does not meet these academic criteria. In such cases, the faculty will consider your qualifications, publications (including exhibitions) and experience in the proposed field of study. Such applications will be considered on a case-by-case basis.</p> <p>All applications must be accompanied by 10 - 15 images of recent original work, clearly numbered with a corresponding list of details attached and a research proposal of 200-300 words.</p>	RTS	
<p>Master of Design (by Research)</p> <p>Monash's research program in design encourages candidates to explore ideas and concepts within a studio environment. The program includes two coursework subjects to assist with the research methodology and to help develop and focus the research. The core aim of the program is the development of a new body of work, informed by the social need and imaginative potential of design within the selected field of inquiry.</p>	3111	Caulfield	2/4	1	<p>Applicants should hold an Australian bachelors degree with honours (1 or 2A) or equivalent from a recognised tertiary institution in an area appropriate to their research discipline. In special circumstances, the faculty may admit an applicant who lacks any of the qualifications listed above, but whose publications, professional practice (five years minimum), creation of design registrations (or patents in other countries), major commissions and other experience is considered by the faculty to be equivalent research training in the proposed field of study. Such applications will be considered on a case-by-case basis.</p> <p>All applications must be accompanied by 10-15 images of recent original work, clearly numbered with a corresponding list of details attached and a research proposal of 200-300 words.</p>	RTS	
<p>Master of Arts</p> <p>This 100% research course is offered in the principal research area of the theory of art and design. The program requires students to develop a comprehensive written proposal that outlines their proposed project, places the research within the context of the scholarly literature and outlines the proposed methodology.</p>	0498	Caulfield, Gippsland	2/4	1	<p>Students should hold an Australian bachelors degree with honours (1 or 2A) or equivalent from a recognised tertiary institution in an area appropriate to their research discipline. In special circumstances, the Faculty may admit an applicant who lacks any of the qualifications listed above, but whose publications and other experience is considered by the Faculty to be equivalent research training in the proposed field of study. Such applications will be considered on a case-by-case basis. All applications must be accompanied by a research proposal of 200–300 words.</p>	RTS	
Coursework degrees							
<p>Master of Architecture</p> <p>The Master of Architecture offers a coursework postgraduate education in the discipline of architecture. Designed for students who have completed recognised undergraduate studies in architectural design, this course enables graduates to meet the academic requirements for professional registration.</p>	3120	Caulfield	2 years full-time	1	<p>Applicants should hold an Australian bachelors degree in architecture, from a recognised tertiary institution. This qualifying undergraduate program must have been completed within 5 years of the proposed commencement of the Masters program. Students who have successfully completed the Bachelor of Architectural Design at Monash University will automatically progress to the Master of Architecture.</p> <p>Non-Monash applicants should send a folio and curriculum vitae along with their application. Shortlisted applicants must attend an interview. International students will be interviewed by telephone or by video conference. Visit artdes.monash.edu/architecture/courses/master-selection.html</p>	24,900	
<p>Master of Design</p> <p>The Master of Design by coursework combines design practice with the necessary skills in marketing and business to sharpen your professional practice and analytical skills to an advanced level. Graduates from this program will demonstrate highly developed capabilities that will place them at the forefront of contemporary design practice.</p>	3113	Caulfield	1.5/3	1, 2	<p>Applicants should hold an Australian bachelors degree or equivalent from a recognised tertiary institution in an art or design field. Applications should be accompanied by 10-15 images of recent, original work, clearly numbered with a corresponding list of details attached and a current academic and professional curriculum vitae. For more details visit artdes.monash.edu.au/study/apply/postgraduate.html</p>	22,900	
<p>Master of Multimedia</p> <p>This three-semester program is designed for people with no art or design background, but who recognise the value of adding multimedia capabilities to their existing professional skills. Students will learn all aspects of design, media and technology, supported by theory units relevant to the multimedia industry. They also have access to purpose-built media studios with facilities for digital imaging, web design, interactive media, animation, virtual spaces and digital video.</p>	3102	Caulfield	1.5/3	1, 2	<p>Applicants should hold an Australian bachelors degree or equivalent from a recognised tertiary institution.</p>	22,900	
<p>Master of Multimedia Design</p> <p>This specialist coursework masters degree recognises the particular practical skills and mindset that are required to work as a multimedia designer. It acknowledges the specialist skills in design strategy, development and communication necessary to work effectively in this area. Students can customise their own program by choosing from a range of Design, Information Technology and Digital Media subjects.</p>	3105	Caulfield	2/4	1, 2	<p>Applicants should hold an Australian bachelors degree or equivalent from a recognised tertiary institution.</p>	22,900	
<p>Master of Visual Arts</p> <p>This flexible degree attracts artists wishing to extend their practice within the context of contemporary visual arts discourse. This course is designed for students with an undergraduate degree in art or design who wish to hone their technical skills within the studio, while also exploring the conceptual aspirations of their work. Students are exposed to a critical review of their work within a supportive and encouraging environment.</p> <p>CSP available at Gippsland campus.</p>	3108	Caulfield, Gippsland, off-campus	1.5/3	1	<p>Applicants should hold an Australian bachelors degree or equivalent from a recognised tertiary institution in an art or design field. Applications should be accompanied by 10–15 images of recent original work, clearly numbered with a corresponding list of details attached. Students must be able to demonstrate a high level of capability in their chosen studio discipline. They should provide a personal statement of no more than 200 words summarising the direction of their current practice, including materials, techniques and content.</p>	22,900

Quality Supervision

The Faculty of Arts attracts one of the largest enrolments in higher degrees by research in Australia. Monash Arts scholars are recognised as leading commentators, theorists and critics in a wide range of research areas, both in Australia and internationally. The Faculty Supervisor Accreditation Scheme is one of the ways we assure quality supervision. New staff are mentored and provided with a structured program before taking on supervision roles, and only research-active staff with strong records in bringing candidates to completion are allowed to act as main supervisors of PhD and Masters research candidates.

RESEARCH EXCELLENCE

- **Broad supervision:** As one of the largest arts faculties in Australia, we have the capacity to supervise almost any topic. We can also offer supervisory teams across disciplines and in collaboration with universities throughout the world.
- **Excellent resources:** The Arts libraries have one of the world's largest collections of online databases, one of the largest Asian Studies collections in Australia, including an impressive Indonesian collection holding some 25,000 books, as well as over 1500 journal and newspaper titles.
- **Research support programs unique to Arts:** We provide a range of highly-successful programs to help our research students achieve standards of excellence. This includes initiatives such as the Tricks of the Trade seminar series and Graduate Researchers in Print program.

DOUBLE MASTER IN TRANSLATION STUDIES

The Double Master in Translation Studies is a collaboration between the Monash Translation Studies program and the English Studies department at Jean Moulin University (Lyon, France).

This two-year degree is aimed at French and Australian students who wish to become translators. Courses are based on theory and practice and are taught collaboratively by academics and professional translators.

For two years, students are completely immersed in the two languages and cultures, taking one full year of courses in Australia and another in France.

A special feature of the degree is the opportunity to work in industry for several months with professional translators. This work experience should provide them with key contacts and excellent opportunities for their future career.

Graduates qualify with two masters degrees.

The Monash Translation Studies program is approved by NAATI (National Accreditation Authority for Translators and Interpreters).

Arts at a glance

- **International focus:** study options on four Australian campuses and three international locations in Malaysia, South Africa and Prato, Italy. The faculty has exchange agreements with 120 universities throughout the world.
- **Excellent resources:** one of the world's largest collections of online databases with 243,838 e-books, 33,991 e-serials and 798 electronic databases.
- **Exceptional choice:** more than 55 areas of study, from first-year to postgraduate level (largest out of the Group of Eight), 26 undergraduate courses and 114 postgraduate.
- **Flexibility:** off-campus study available, both part-time and full-time. Study across disciplines with another faculty or make it a double degree.
- **Reputation:** ranked in the top 50 in the world for arts and humanities and for social sciences and management in the QS World University rankings.

Research degrees						
<p>Doctor of Philosophy</p> <p>The PhD program offered by the Faculty of Arts enables students to complete extensive, independent research under the supervision of an expert academic. When completed, this research must make a valuable contribution to the current body of knowledge on their chosen topic.</p>	0020	Caulfield, Clayton, Gippsland, off-campus Sunway,	4/8	Throughout the year	<p>The minimum qualifications for admission to PhD candidature are:</p> <ul style="list-style-type: none"> ■ a four year Australian or New Zealand bachelors degree with an overall result of H2A or above (normally with a research component in the fourth year) or ■ an Australian or New Zealand masters preliminary qualification with a significant research component and with an overall result of H2A or above or ■ an Australian or New Zealand coursework masters degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or ■ an Australian or New Zealand research masters degree with an overall result of H2A or above or ■ a qualification considered equivalent to one of the above. 	RTS
<p>Doctor of Philosophy (Monash Asia institute)</p> <p>The PhD program offered by Monash Asia Institute provides a unique opportunity to undertake doctoral research in cross-disciplinary areas.</p> <p>The Monash Asia Institute is able to do this due to its close relationship to the 10 faculties of the University across all its campuses in Australia and overseas. Joint supervision across the disciplines allows students to maximise their access to the academic specialists.</p>	3757	Caulfield, Clayton, Gippsland, off-campus	4/8	Throughout the year	<p>The minimum qualifications for admission to PhD candidature are:</p> <ul style="list-style-type: none"> ■ a four year Australian bachelors degree with an overall result of H2A or above (normally with a research component in the fourth year) or ■ an Australian masters preliminary qualification with a significant research component and with an overall result of H2A or above or ■ an Australian coursework masters degree with a significant research component graded at Distinction or above, and an overall result of H2A or above or ■ an Australian research masters degree with an overall result of H2A or above or ■ a qualification considered equivalent to one of the above. 	RTS
<p>Doctor of Philosophy (Creative Writing)</p> <p>This course is designed to enable candidates to engage intellectually with their creative process and to acquire professional qualifications in the area of creative writing.</p>	3940	Clayton, off-campus	4/8	Throughout the year	<p>The minimum qualification for admission to doctoral candidature are:</p> <ul style="list-style-type: none"> ■ a four year Australian or New Zealand bachelors degree with an overall result of H2A or above (normally with a research component in the fourth year) or ■ an Australian or New Zealand masters preliminary qualification with a significant research component and with an overall result of H2A or above or ■ an Australian or New Zealand coursework masters degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or ■ an Australian or New Zealand research masters degree with an overall result of H2A or above or ■ a qualification considered equivalent to one of the above. 	RTS
<p>Doctor of Philosophy (Music Composition)</p> <p>This course is designed for composers to develop a research-based composition folio that makes an independent and original contribution to knowledge.</p>	4067	Clayton, off-campus	4/8	Throughout the year	<p>The minimum qualifications for admission to 100% research masters candidature are:</p> <ul style="list-style-type: none"> ■ a four year Australian and New Zealand bachelors degree with an overall result of H2A or above (normally with a research component in the fourth year) or ■ an Australian and New Zealand masters preliminary qualification with a significant research component and with an overall result of H2A or above or ■ an Australian and New Zealand coursework masters degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or ■ an Australian and New Zealand research masters degree with an overall result of H2A or above or ■ a qualification considered equivalent to one of the above (a minimum of a Bachelors degree with substantial professional experience in the field in the form of publications, performances and collaborations that may be evaluated by a group of peers who are experts in their respective fields). <p>Note: If applicants have obtained the above minimum qualifications without having undertaken composition units at either honours or masters qualifying levels, students need to demonstrate their ability to compose through the submission of at least two original musical works to the satisfaction of the school's coordinator of composition.</p>	RTS
<p>Doctor of Philosophy (Music Performance)</p> <p>Candidates will develop and present a live performance in a public venue, and later to submit a written exegesis. The candidate performance will embody the results of the research investigation, which will be into the contexts, aesthetic elements and theoretical influences of the project.</p> <p>The exegesis will address performance context and methodology and demonstrate how the performance research contributes towards the body of scholarly knowledge.</p>	4088	Clayton	4/8	Throughout the year	<p>Admission to the PhD (Music Performance) will require one of the following qualifications in music performance or a related field as well as substantial documented professional experience in the field:</p> <ul style="list-style-type: none"> ■ a four-year Australian or New Zealand bachelors degree with an overall result of H2A or above (normally with a research component in the fourth year) or ■ an Australian or New Zealand masters preliminary qualification with a significant research component and with an overall result of H2A or above or ■ an Australian or New Zealand coursework masters degree with a significant research component graded at Distinction or above, and an overall result of H2A or above or ■ an Australian or New Zealand research masters degree with an overall result of H2A or above or ■ a qualification considered equivalent to one of the above (a minimum of a bachelors degree with substantial professional experience in the field in the form of publications, performances and collaborations that may be evaluated by a group of peers who are experts in their respective fields). <p>Note: Auditions are compulsory. In the case of overseas or interstate students, a video recording of a performance will be accepted for consideration of entry in lieu of an audition.</p>	RTS

ARTS							
Course	Code	Campus	Duration full-time/part-time	Intake	Entry requirements	2011 fee A\$	
<p>Doctor of Philosophy (Theatre Performance)</p> <p>The course aims to equip students with a sophisticated understanding of the real world application of their research. It appeals to a broad range of candidates including theatre professionals, practitioners, educators, honours students and those who want to advance their knowledge and skills in areas such as:</p> <ul style="list-style-type: none"> ■ creating performance work for professional production ■ understanding the mechanics of performance making and theatrical production and ■ exploring methodologies of practice as research in performance (an area recognised as cutting edge in international theatre and performance studies). 	4066	Caulfield, Clayton	4/8	Throughout the year	<p>Admission to the PhD (Theatre Performance) will require one of the following qualifications in Theatre, Performing Arts or a related discipline as well as substantial documented professional experience in the field:</p> <ul style="list-style-type: none"> ■ a four year Australian or New Zealand bachelors degree with an overall result of H2A or above (normally with a research component in the fourth year) or ■ an Australian or New Zealand masters preliminary qualification with a significant research component and with an overall result of H2A or above or ■ an Australian or New Zealand coursework masters degree with a significant research component graded at Distinction or above, and an overall result of H2A or above or ■ an Australian or New Zealand research masters degree with an overall result of H2A or above or ■ a qualification considered equivalent to one of the above (a minimum of a Bachelors degree with substantial professional experience in the field). 	RTS	
<p>Master of Arts</p> <p>A Master of Arts by 100 per cent research enables students to undertake substantial independent research on a chosen topic while under the supervision of an academic.</p>	2695	Caulfield, Clayton, Gippsland, off-campus, Sunway	2/4	Throughout the year	<p>The minimum qualifications for admission to 100% research masters candidature are:</p> <ul style="list-style-type: none"> ■ a four year Australian or New Zealand bachelors degree with an overall result of H2A or above (normally with a research component in the fourth year) or ■ an Australian or New Zealand masters preliminary qualification with a significant research component and with an overall result of H2A or above or ■ an Australian or New Zealand coursework masters degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or ■ an Australian or New Zealand research masters degree with an overall result of H2A or above or ■ a qualification considered equivalent to one of the above. 	RTS	
<p>Master of Arts (Creative Writing)</p> <p>Candidates submit a component of creative writing - a novel or a novella or a group of short stories or a play or a group of plays or a sequence of poems or a portfolio of creative works of various genres.</p> <p>The creative writing component is submitted for examination as part of the thesis and must be undertaken during the enrolment in the course, under supervision.</p> <p>An accompanying critical commentary of the creative writing component will constitute a scholarly, self-reflective critique, based on research into the theory and practice of the creative process focused on the student's creative writing component, the writing of which will itself be considered as an act of research into the nature of literary creativity. The critical commentary will involve thoroughly researching the various aspects of the creative writing project: the creative process, the characteristics of the attempted genre, the mechanics of handling language and narrative, the influence of other relevant writers, context, and the shaping elements in a work of art.</p>	3773	Clayton	2/4	Throughout the year	<p>The minimum qualifications for admission to 100% research masters candidature are:</p> <ul style="list-style-type: none"> ■ a four year Australian or New Zealand bachelors degree with an overall result of H2A or above (normally with a research component in the fourth year) or ■ an Australian or New Zealand masters preliminary qualification with a significant research component and with an overall result of H2A or above or ■ an Australian or New Zealand coursework masters degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or ■ an Australian or New Zealand research masters degree with an overall result of H2A or above or ■ a qualification considered equivalent to one of the above. 	RTS	
<p>Master of Arts (Music Composition)</p> <p>The degree is designed to enable composers to develop a distinctive compositional voice and to research and acquire a range of compositional techniques. Students create a folio of original compositions that demonstrates their ability to work in various media, including traditional, electro-acoustic, and contemporary solo and chamber combinations. They also write a critical commentary that demonstrates their capacity for research into compositional approaches and musical aesthetics in the context of contemporary music. Through regular work in the studios, students acquire a knowledge of music technology and an understanding of music technology as a compositional tool.</p>	3063	Clayton	2/4	Throughout the year	<p>The minimum qualifications for admission to 100% research masters candidature are:</p> <ul style="list-style-type: none"> ■ a four year Australian or New Zealand bachelors degree with an overall result of H2A or above (normally with a research component in the fourth year) or ■ an Australian or New Zealand masters preliminary qualification with a significant research component and with an overall result of H2A or above or ■ an Australian or New Zealand coursework masters degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or ■ an Australian or New Zealand research masters degree with an overall result of H2A or above or ■ a qualification considered equivalent to one of the above (a minimum of a Bachelors degree with substantial professional experience in the field in the form of publications, performances and collaborations that may be evaluated by a group of peers who are experts in their respective fields). 	RTS	
<p>Master of Arts (Theatre Performance)</p> <p>The Master of Arts (Theatre Performance) by 100 per cent research offers the opportunity to combine creative output with practice-based research.</p> <p>A major requirement is to produce a live performance normally in one of the fields of directing, theatre making, musicals, dramatic writing or theatre design. The performance will embody the results of research into the contexts, theoretical influences, aesthetic elements and performance making processes of the project.</p>	3939	Clayton	2/4	Throughout the year	<p>The minimum qualifications for admission to 100% research masters candidature are:</p> <ul style="list-style-type: none"> ■ a four year Australian or New Zealand bachelors degree with an overall result of H2A or above (normally with a research component in the fourth year) or ■ an Australian or New Zealand masters preliminary qualification with a significant research component and with an overall result of H2A or above or ■ an Australian or New Zealand coursework masters degree with a significant research component graded at Distinction or above, and an overall result of Distinction or above or ■ an Australian or New Zealand research masters degree with an overall result of H2A or above or ■ a qualification considered equivalent to one of the above. <p>An applicant's degree must be in Theatre or Performing Arts or related discipline, or the equivalent, which would normally be an undergraduate degree in a relevant discipline and substantial documented professional experience.</p>	RTS

Master of Asian Studies Students gain knowledge about the cultures and societies of one or more of the many nations that form the Asian region. With a broad range of electives to choose from, students can design the course most relevant to their professional and educational aspirations, be it in areas such as business and law or the humanities. Throughout the course students are encouraged to engage critically with the notions of 'Asia' and 'Asian values' and to make an informed assessment of past and current issues in the Asian region or in international relations within or with the region.	3084	Caulfield, Clayton	1.5/3	1, 2	A bachelors degree with a credit average or a graduate diploma with a credit average.	15,850	
Master of Australian Indigenous Studies The course not only explores some continuing problems in Indigenous studies but also focuses on change and development. It critically assesses changing contours of cultural knowledge amid the rampant processes of globalisation and rapid technological advances. The course addresses issues of local and international importance within the framework for maintenance and control. Various regional, bilateral and international structures for reclamation of cultural heritage are discussed.	3756	Clayton	1.5/3	1, 2	A bachelors degree with a credit average or a graduate diploma with a credit average.	14,230

Master of Australian Studies This course is an advanced level coursework program focusing on the study of contemporary Australia. It aims to develop students' understanding of the diversity and extent of Indigenous and non-Indigenous Australian experience, and of Australian cultural and social forms in a global context. As a flexible and interdisciplinary program, the Master of Australian Studies will appeal to students with backgrounds in humanities subjects, such as literary and cultural studies, or in social science subjects, such as journalism, politics and international studies.	3800	Clayton	1.5/3	1, 2	A bachelors degree with a credit average or a graduate diploma with a credit average.	14,230	
Master of Bioethics This course provides an interdisciplinary education that is concerned with the ethical issues raised by medicine and the biomedical sciences. It is suited to health care professionals, scientists who face complex ethical issues in their working lives, those involved in developing public policy and law and those who are interested in exploring issues of public concern in greater depth. Studies cover questions of life and death, ethical issues in patient care, legal issues in bioethics and ethical issues in professional life. Students who have completed at least one semester of the course are eligible to apply for an annual fellowship to work during the Australian summer as an intern in the human genetics program at the World Health Organisation in Geneva.	0122	Clayton, off-campus	1/2	1, 2	A bachelors degree with honours and with a credit average in the final year in: medicine or any other health science; law; the biological or social sciences; or in a branch of the humanities such as philosophy; or a bachelors degree or equivalent with at least a credit average in the final year in any of the fields referred to above, plus three-years documented relevant practical experience; or a related graduate diploma with a credit average.	15,850	OC
Graduate Diploma in Bioethics See above	1158	Clayton off-campus	1/2	1, 2	A bachelors degree or equivalent in: medicine or any other health science; law; the biological or social sciences; or in a branch of the humanities such as philosophy OR a related graduate certificate with a credit average.	14,230	OC

Master of Counter-Terrorism Studies This degree offers a rigorous course of study that examines terrorism and political violence in international politics. It provides a critical understanding of what terrorism is and how it is constructed and reproduced. It also addresses the diverse and multifaceted factors involved in enacting and preventing terrorism and other security concerns. The course is suited to professionals working in law enforcement, public service, defence and diplomacy as well as those who are interested in pursuing postgraduate study. Studies cover terrorism (state, religious, revolutionary and right wing); the political, theological and intellectual bases of terrorism; political violence and political movements; and country and regional studies.	3758	Clayton	1.5/3	1, 2	A bachelors degree with a credit average or a graduate diploma with a credit average.	14,230	
Master of Criminal Justice and Criminology This course, designed after extensive consultation with criminal justice practitioners, examines contemporary issues in criminal justice, criminal justice practice and reform, managing criminal justice issues and researching criminal justice. It specifically focuses on working with diverse communities in historical and political contexts. The program provides an overview of local, national and international issues in criminal justice policy and practice. It also recognises that a whole-of-government, whole-of-criminal justice approach to many workplace issues is needed. In addition to completing coursework units, students may choose to pursue independent criminal justice research.	3772	Off-campus	1.5/3	1, 2	A bachelors degree with a credit average or a graduate diploma with a credit average.	15,850

<p>Master of International Crisis Management</p> <p>This course aims to develop the required knowledge, skills and competencies for professionals responding to complex emergencies and post-crisis management. It has been designed to meet the needs of professionals for academic training in the currently neglected field of complex crisis management, including the core issues of human security, conflict and natural disasters.</p> <p>A special feature of this course is its inter-disciplinary approach allowing students to select a course most relevant to their professional and educational aspirations, be they in areas such as medicine, business, engineering, law or the humanities.</p>	4051	Caulfield	1.5/3	1, 2	A bachelors degree with a credit average or a graduate diploma with a credit average.	18,000	
<p>Master of International Development and Environmental Analysis</p> <p>The program takes an innovative, interdisciplinary approach based on contemporary concerns with the processes, theories and practices of globalisation and environmental sustainability in the international context. Studies focus on areas such as global production systems, foreign direct investment and flexible specialisation, devolution of governance and centralisation of geopolitical power, global climate change, and changing concepts of property in natural resource exploitation and management. Students acquire specialised skills in development research and environmental analysis, develop comparative international perspectives for analysing the contexts of international development and global sustainability, and gain workplace experience in international development.</p>	3086	Clayton	1.5/3	1, 2	A bachelors degree with a credit average or a graduate diploma with a credit average.	18,000	
<p>Graduate Diploma in International Development and Environmental Analysis</p> <p>See above</p>	3754	Clayton	1/2	1, 2	A bachelors degree or a related graduate certificate with a credit average.	18,000	
<p>Master of International Relations</p> <p>Graduates in politics or cognate disciplines can explore the many issues raised by the rapidly changing nature of the contemporary international system. It is particularly suitable for those interested in pursuing careers in areas such as government, diplomacy, business, teaching and journalism. It pays particular attention to relationships among major powers and to developments in Australia's regions. Units covering areas including international security and regional politics provide a thorough grounding in the principal theoretical approaches in international relations and the ways in which these approaches may be used to analyse issues.</p>	3093	Clayton	1.5/3	1, 2	A bachelors degree with a credit average or a graduate diploma with a credit average.	14,230

Australian aid worker **Sharna Nolan** took up a position in Kabul with the Afghanistan Reconstruction and Evaluation Unit after completing masters studies in international development at Monash. She has since helped found "Stakeistan", a small school giving free skateboarding lessons to street children. Sharna says, "Skateboarding opened cultural doors in Afghanistan. It's a way we have found to break down barriers and help communities work together."

Research excellence

The faculty has more than 350 students taking the Master of Philosophy and Doctor of Philosophy by research.

The Centre of Policy Studies (CoPS) is a world leader in economic modeling and policy analysis. CoPS develops large-scale economy-wide models to evaluate policy. These models have been used within Australia and internationally, including a dynamic model of the US economy developed together with the US International Trade Commission.

The Centre for Health Economics, along with one of the largest independent groups of health economists in Australia, has made a significant contribution to debate and policy development in the Australian and international health care sector.

PERSONAL AND PROFESSIONAL DEVELOPMENT

The Faculty of Business and Economics provides a range of personal and professional development activities for our graduate students, designed to:

- enhance and complement your study
- add value to your academic program
- transform your career path.

This approach offers a sophisticated educational experience where personal development forms the cornerstone of our graduate programs. Personal development units are available within your masters program as either elective or core units, enabling you to select from a suite of studies designed to develop your capacity to lead and manage in an international business environment.

There are also opportunities to develop a range of generic personal skills through regular workshops in teamwork, problem solving, communication, leadership, service excellence and planning and organisation. Professional development opportunities include counseling, mentoring and a career-readiness program. Advanced workshops in executive leadership and initiative and innovation give candidates an edge in the business world.

PROFESSIONAL RECOGNITION

Depending on their chosen field, Business and Economics graduates satisfy educational requirements for professional registration or membership of the following legal entities:

- Australian Institute of Management (AIM)
- Australian Marketing Institute (AMI)
- CPA Australia
- Finance and Treasury Association
- Financial Services Institute of Australasia (FINSIA)
- Institute of Chartered Accountants in Australia (ICAA)

Business and Economics at a glance

- **World-ranked:** Monash University is currently placed 42nd in the world for social sciences in the Times Higher Education university rankings.
- **International accreditation:** The faculty was the first in Victoria to receive accreditation by the European Quality Improvement System (EQUIS). EQUIS is the leading international system of quality assessment, improvement and accreditation of higher education institutions in management and business administration.
- **Global reputation:** The Monash MBA is consistently ranked in the top MBA programs worldwide. It is currently ranked 58th overall and eighth in the personal development and educational experience category in The Economist Intelligence Unit rankings. Our MBA program is just the third in Australia to be accredited by the Association of MBAs (AMBA), recognised internationally as the global standard for MBA programs across the globe.

BUSINESS AND ECONOMICS						
Course	Code	Campus	Duration full-time/part-time	Intake	Entry requirements	2011 fee AS
Research degrees						
Doctor of Philosophy The PhD program may be undertaken in the principal areas of research offered by the Faculty of Business and Economics, including accounting and finance, business law and taxation, econometrics and business statistics, economics, health economics, management, marketing and policy studies. The PhD program enables students to complete independent research under the supervision of an expert academic. The research will culminate in a written thesis of up to 100,000 words which offers a significant contribution to knowledge in the discipline concerned. Some PhD disciplines in the faculty have a compulsory coursework component designed to assist students during the early stages of their research.	0029	Berwick, Caulfield, Clayton, Gippsland, Peninsula, Sunway	4/8	1, 2	Applicants need to have completed a bachelors degree requiring at least four years of full-time study, and which normally includes a research component in the fourth year, leading to an honours degree class 1 or class 2A level, or a course leading to a masters preliminary qualification at a level rated as equivalent to an honours class 1 or 2A degree, or a masters degree that entails work, normally including a significant research component, at least equivalent to an honours degree (a 'significant research component' in a masters degree will vary from discipline to discipline). It is normally expected that a grade of H1A has been obtained for the research thesis or project. Where ungraded, examiners' reports will be taken into account, or qualifications which, in the opinion of the committee, are deemed equivalent.	RTS
Master of Philosophy The Master of Philosophy allows candidates to develop in-depth knowledge, expertise and skills through the application of research to business problems and issues. Students gain experience in the design and implementation of research and make a contribution to an existing body of knowledge by applying, clarifying or interpreting that knowledge, which will culminate in a written thesis of up to 50,000 words. The course may be undertaken entirely by research or by a combination of research and coursework.	3194	Berwick, Caulfield, Clayton, Gippsland, Peninsula, Sunway	2/4	1, 2	Applicants need to have completed a first class or upper second class bachelors degree requiring at least four years of full-time study, including a research component in the fourth year, or completed a course leading to a masters preliminary qualification at a level rated as equivalent to a first class or upper second class honours degree, or qualifications, which in the opinion of the committee, are equivalent or a satisfactory substitute.	RTS
Master of Business (Honours) This program is a pathway for high achieving accounting, banking and finance coursework masters students to articulate into the university's higher degrees by research program. The MBus(Hons) comprises four research units and a research dissertation, equivalent to a further four units. The coursework masters program and the MBus(Hons) are designed to be completed in two and a half years of full-time study.	4416	Caulfield	2.5 years full-time	1	Applicants must have completed an Australian masters degree in Accounting, or Finance, or equivalent, with at least a distinction average.	21,830 
Postgraduate Diploma in Business and Commerce The flexibility of Monash degrees offers students the chance to study courses in order to enhance their careers and gain expert business and commerce knowledge, while at the same time achieving access to higher research award programs.	3845	Sunway	1 year full-time	1, 2	Applicants must have completed a bachelors degree in business or commerce from an approved institution, with a minimum average of 65% in years 2 and 3 of a major business discipline.	RTS
Postgraduate Diploma in Economics and Commerce This course is designed for students who wish to undertake a higher degree by research but do not have the research background to meet the admission requirements. Students develop the skills needed to plan and undertake rigorous research, and the ability to effectively communicate research findings.	0171	Clayton	1/2	1, 2	Applicants must have completed an Australian bachelors degree or equivalent qualification. Prerequisite: (a) A major in the proposed discipline area of study, and (b) a Weighted Average Mark (WAM) of 70%, or equivalent Grade Point Average (GPA) as determined by the Faculty. Applicants with a WAM of no more than 5% (or equivalent GPA) below the published score may be considered if places become available. For further information regarding WAM refer to: www.buseco.monash.edu.au/postgrad/future/requirements/academic.html	21,830 
Graduate Certificate in Commercialising Research This four-unit course is designed for students currently undertaking research degrees who wish to develop skills and knowledge in commercialising their research.	3841	Caulfield	0.5/1	1, 2	Applicants must be undertaking a higher degree by research, normally a doctorate or masters course, where at least two-thirds of the student load is designated as research work. In addition to this, to be eligible for financial benefit under the CTS, applicants must: ■ be a domestic student as defined in the Act ■ not have previously completed CTS training or training consistent with that covered in this course.	10,915 Total course fee
Coursework degrees						
Master of Business Administration Managers in today's knowledge economy need to be adaptable and flexible, and must possess not only core managerial skills but also high-level capabilities in a range of specialist areas. The Monash MBA integrates leadership and personal development with conventional discipline-based subjects. The program emphasises the development of critical and innovative thinking capabilities, and an awareness of the moral and ethical responsibilities of management as a professional practice.	0028	Caulfield	2/4	1	Applicants must have completed an Australian bachelors degree or an equivalent qualification. A minimum of five years work experience with at least three years of professional/managerial experience is required. Applicants will be ranked according to consideration of the following: a) The entire academic record (Credit average preferred) b) Employment experience. Applicants with a WAM of no more than 5% (or equivalent GPA) below the published score may be considered if places become available.	28,630
Master of Applied Econometrics In the new information economy professionals are confronted by masses of data. Econometric methods facilitate analysis of this data and assist in making informed decisions. Students acquire the skills to take responsibility for designing and implementing applied econometric projects and the ability to communicate the results to wider audiences. They also have the option of studying another business discipline.	3822	Caulfield	1.5/3	1, 2	Applicants must have completed one of the following qualifications: ■ an Australian bachelors degree or an equivalent qualification, or ■ an executive certificate awarded by the Faculty of Business and Economics. Prerequisite: (a) A credit or equivalent in an introductory multiple regression subject/unit at tertiary level, and (b) A Weighted Average Mark (WAM) of 65%, or equivalent Grade Point Average (GPA) as determined by the Faculty. Applicants with a WAM of no more than 5% (or equivalent GPA) below the published score may be considered if places become available. For further information regarding WAM refer to: www.buseco.monash.edu.au/postgrad/future/requirements/academic.html Students without the required introductory multiple regression background may be directed to enrol initially in the Graduate Diploma in Applied Econometrics.	21,830 
Graduate Diploma in Applied Econometrics This course provides the quantitative skills and expertise required to carry out financial forecasting and market analysis. Students will develop the requisite skills for designing and implementing applied econometric projects and the ability to communicate the results to wider audiences.	3816	Caulfield	1/2	1, 2	Applicants must have completed one of the following qualifications: ■ an Australian bachelors degree or equivalent qualification; or ■ an executive certificate awarded by the Faculty of Business and Economics. Prerequisite: (a) Applicants would normally require a credit or equivalent in an introductory statistics subject / unit at tertiary level, and (b) A Weighted Average Mark (WAM) of 60%, or equivalent Grade Point Average (GPA) as determined by the Faculty. Applicants with a WAM of no more than 5% (or equivalent GPA) below the published score may be considered if places become available. For further information regarding WAM refer to: www.buseco.monash.edu.au/postgrad/future/requirements/academic.html	21,830

WAM

A Weighted Average Mark (WAM) is an average of the percentage marks received for each unit of a course, with different weightings for different unit (year) levels of an Australian bachelors degree. First year marks are weighted at half that of later years. For applicants whose highest degree is at postgraduate level, all postgraduate units will be allocated the weighting for later year units. For further enquiries please contact the Graduate Student Office telephone: +61 9903 1400, or visit www.buseco.monash.edu.au/postgrad/future/requirements/academic.html

BUSINESS AND ECONOMICS							
Course	Code	Campus	Duration full-time/part-time	Intake	Entry requirements	2011 fee AS	
<p>Master of Applied Finance</p> <p>Finance and banking are important and strategic functional elements of business, and professionals working in these key areas make a critical and active contribution to public and private organisations across the globe.</p> <p>This course is designed for graduates with an educational and/or professional background in business or commerce, wishing to gain a formal qualification in applied finance.</p>	3818	Caulfield	1/2	1, 2	<p>Applicants must have completed an Australian bachelors degree or an equivalent qualification.</p> <p>Prerequisite:</p> <p>(a) A major in finance, and</p> <p>(b) A Weighted Average Mark (WAM) of 65%, or equivalent Grade Point Average (GPA) as determined by the Faculty.</p> <p>Applicants with a WAM of no more than 5% (or equivalent GPA) below the published score may be considered if places become available. Research excellence

- The 2010 Excellence in Research for Australia (ERA) ranked the discipline of education at Monash University 'above world standard'. Education at Monash was ranked first in Victoria and equal first in Australia.
- The Faculty of Education represents an intellectually-diverse research community, offering a range of perspectives, methodologies and flexible approaches to research practice.
- Research is directed towards enhancing learning across a range of fields including counselling, education, leadership, and psychology.
- Academic language and research seminars are conducted to provide study assistance to postgraduate coursework and research students.
- Research activities are grouped into distinct areas that address the varied specialised fields of investigation.

MONASH EDUCATION RESEARCH COMMUNITY (MERC)

Established in 1992, MERC is an active network of research students and staff, open to all researchers in the faculty. MERC supports the idea that researchers develop best when their intellectual, academic and social needs are addressed through engagement in a supportive community.

MERC organises seminars, conferences and social events to:

- facilitate interaction between staff and among students
- foster attitudes and actions that contribute to an active and inclusive research culture
- share information relevant to research activities
- support the student experience with ongoing orientation and by ensuring that their needs are met by the faculty
- provide a forum for researchers for ongoing discussion about specific aspects of research processes
- encourage involvement in a supportive learning community.

PROFESSIONAL RECOGNITION

- Australian Counselling Association (ACA)
- Australian Psychology Accreditation Council
- Early Childhood Australia (ECA) – Victoria Branch
- Singapore Association for Counselling (SAC)
- Victorian Institute of Teaching (VIT)

SPECIALISED RESEARCH

Our specialised and highly active research groups include Child and Community Development, Learning with New Media, Movement, Environment and Community, Social Innovation and Education and Psychology of Teachers and Students. For more information please visit www.edu.monash.edu/research/groups

Education at a glance

- Education students can access teaching, technology and learning centres situated on each campus, which provide technical and academic resource support and advice.
- High-quality teaching and learning provided to more than 4500 students.
- A distinguished record of developing and preparing some of the best and brightest teachers and educators, with graduate employment rates among the highest in the Group of Eight universities.
- Students can choose from a range of postgraduate courses including School Leadership, TESOL, Mathematics and Science education, Gifted education, ICT education, Organisational Leadership, Counselling and Psychology.

Coursework degrees						
<p>Master of Education (By coursework)</p> <p>Education is a broad and evolving field which has a significant impact on all facets of society. This program provides students the opportunity to choose from 13 specialisation pathways, from Early Childhood to Mathematics and Science Education to Gifted Education. Students can also choose to study a combination of coursework units, a professional project or a minor thesis which can lead onto Doctoral studies. Students are encouraged to think about the relationship between research and practice, and to develop critical and analytical skills in discussing relevant and substantive research in a range of disciplines within Education.</p>	2500	Clayton, off-campus,	1.5/3	1, 2	An approved three year bachelors degree in a relevant field with a credit average in the final year; or an approved fourth year of study; or an approved four year bachelors degree; or have qualifications or experience that the faculty considers to be equivalent to, or a satisfactory substitute for the above.	16,700
<p>Postgraduate Diploma of Education</p> <p>This program is a pathway to the Master of Education and aims to stimulate students to focus on teaching and learning in ways that encourage the development of reflective practice and its relationship to ongoing professional learning and growth, and to think about the relationship between theory and practice in teaching.</p>	3210	Clayton, off-campus,	1/2	1, 2	An approved three year bachelors degree in a relevant field with a credit average in the final year; or an approved fourth year of study; or an approved four year bachelors degree; or have qualifications or experience that the faculty considers to be equivalent to, or a satisfactory substitute for the above.	16,700
<p>Master of Education (TESOL International)</p> <p>This program offers a range of units covering basic teaching principles through issues in curriculum and assessment to broader socio-cultural concerns regarding the place of English in learners' lives. Students will develop an understanding of the theory and practice of teaching English as a second, foreign or international language in a range of contexts (primary, secondary, tertiary and the workplace).</p>	3209	Clayton, off-campus,	1.5/3	1, 2	An approved three year bachelors degree in a relevant field with a credit average in the final year; or an approved fourth year of study; or an approved four year bachelors degree; or have qualifications or experience that the faculty considers to be equivalent to, or a satisfactory substitute for the above.	16,700
<p>Master in Adult Education (Global)</p> <p>Monash is a research intensive university with an international focus, collaborating with many prestigious academic and business partners across the globe. This unique program is offered as an innovative online coursework only master's degree in collaboration with the University of British Columbia (Canada), Linkoping University (Sweden), and the University of the Western Cape (South Africa). It focuses on the role adult learning plays in understanding and responding to global changes and their impacts on workplaces, communities, economies, and the environment. Students benefit from a truly international experience, engaging with lecturers and students from four continents in both Northern and Southern hemispheres. The online format of the program is designed so that those with full-time professional responsibilities can participate.</p>	3733	Off-campus	1.5 years part-time	August	An approved three year bachelors degree in a relevant field with a credit average in the final year; or an approved fourth year of study; or an approved four year bachelors degree; or have qualifications or experience that the faculty considers to be equivalent to, or a satisfactory substitute for the above.	15,750

<p>Master in Applied Linguistics for Language Teachers</p> <p>The increasing influence of globalisation has created strong demand for language skills among students who aspire to work in business, education, media and politics. This course seeks to further the understanding of applied linguistics for secondary and tertiary language teachers, especially as it relates to second and foreign language acquisition and language teaching.</p> <p>It is especially designed for graduates of universities in Japan, China, Indonesia and Korea who wish to teach their language to foreign students in an Asian country. It may also be of interest to teachers of English as a second language.</p>	3239	Clayton	1.5/3	1, 2	An approved three year bachelors degree in a relevant field with a credit average in the final year; or an approved fourth year of study; or an approved four year bachelors degree; or have qualifications or experience that the faculty considers to be equivalent to, or a satisfactory substitute for the above.	16,700
<p>Master in Counselling</p> <p>This innovative and practical skill based program is a recognised training program of the Australian Counselling Association (ACA). It has been designed to fulfil the demand for counselling knowledge and skills from professional people with an interest in counselling. The program provides a professional qualification and real-life counselling experience for people who may not be practising psychologists or social workers, but who nonetheless have a strong interest in counselling.</p> <p>Students complete core counselling units as well as a professional placement that includes both contact and non-contact hours as well as supervision hours. The professional placement program provides valuable professional experience to students as well as offering opportunities to make contacts in the field of counselling.</p>	3236	Clayton, off-campus	1.5/3	1, 2	An approved three year bachelors degree with a Credit average in the final year or have qualifications or experience that the faculty considers to be equivalent to, or a satisfactory substitute for, the above.	21,400
<p>Master in Organisational Leadership</p> <p>This program is designed to develop leaders with expertise in effective organisational communication, the mentoring of staff, knowledge management, and the application of robust performance management. It provides students with a systematic and integrated response to organisational processes and imperatives relating to new concepts of leadership and teamwork that contribute to the effective functioning of organisations, team-based approaches to work, mechanisms for assuring quality, flexible and lifelong learning and organisational designs for the future.</p>	3703	Clayton, off-campus	1.5/3	1, 2	An approved three year bachelors degree in a relevant field with a credit average in the final year; or an approved fourth year of study; or an approved four year bachelors degree; or have qualifications or experience that the faculty considers to be equivalent to, or a satisfactory substitute for the above.	16,700
<p>Postgraduate Diploma in Organisational Leadership</p> <p>The program provides students with a systematic and integrated response to organisational processes and imperatives relating to new concepts of leadership. Students also gain a grounding in the effective functioning of organisations, team based approaches to work, mechanisms for assuring quality, flexible and lifelong learning, and organisational designs for the future.</p>	3702	Clayton, off-campus	1/2	1, 2	An approved three year bachelors degree in a relevant field with a credit average in the final year; or an approved fourth year of study; or an approved four year bachelors degree; or have qualifications or experience that the faculty considers to be equivalent to, or a satisfactory substitute for the above.	16,700
<p>Master of Psychology (Counselling)</p> <p>This course prepares graduates to practise as counselling psychologists in many different settings. Counselling psychologists are specialists in the provision of psychological therapy. They work in collaboration with individuals, couples, families, groups and organisations, using a broad range of evidence-based psychotherapies and therapeutic skills and pay particular attention to the meanings, beliefs, contexts and processes that affect psychological health.</p> <p>Students complete four intensive advanced level units, three supervised placements of 125 days or 1000 recorded hours of practical experience and a research thesis of 9000-16,000 words.</p>	3231	Clayton, off-campus	2/4	1	Admission to the program requires four years of APAC-approved study in psychology. These qualifications must have been completed within the last 10 years. Applicants with international qualifications will need to have their qualifications assessed by the APS - Australian Psychological Society. For further information please visit www.psychology.org.au . Selection will be based on academic merit and personal suitability. Intending applicants should ensure they possess such qualifications. Confidential referee reports are required. The closing date for applications is usually end October and selection for short-listed applicants will include an interview, usually held in late November or early December.	21,400
<p>Master of Psychology (Educational and Developmental)</p> <p>Educational and developmental psychologists concern themselves with how people develop and learn throughout their lifetime. They work in many different settings with individuals, families, groups and organisations so may have varying titles, such as school psychologist, guidance officer, and child and adolescent counsellor. Educational and developmental psychologists also conduct psychological and educational assessments and instructional planning for exceptional children, adolescents and adults including learners with disabilities as well as those with strong academic and other abilities. Students complete four advanced level units, three supervised placements of 125 days or 1000 recorded hours of practical experience and a research thesis of 9000-16,000 words.</p>	3232	Clayton, off-campus,	2/4	1	Admission to the program requires four years of APAC approved study in psychology. These qualifications must have been completed within the last 10 years. Master in School Leadership Monash has the research and teaching expertise to inspire the educational leaders of tomorrow who will enhance the learning opportunities of all of Australia's children. This program has been designed as a pathway to high performing principalship and/or curriculum leadership in literacy and numeracy. Throughout the Master in School Leadership students will extend and complement their personal and professional growth; strengthen their scholarship; develop relationships with other leading practitioners and form communities of practice; learn management skills through application of theory into practice, establish an ethic of leadership that is grounded in respect, care and professional support for self and others; and develop alliances within school, local, regional and professional communities.	3721	Clayton	1/2	1	An approved four year bachelors degree; or an approved three year bachelors degree and have qualifications or experience that the faculty considers to be equivalent to, or a satisfactory substitute for the above. * The Victorian Government may offer subsidised places to current teachers. For more information please contact the Faculty of Education.	16,700*	
Master of Teaching (Early Childhood)* The Master of Teaching (Early Childhood) program is designed to develop students' theoretical and practical knowledge in the area of early childhood teaching. The program highlights the range of early childhood services and the social context of early childhood provision for children aged birth to five years, as well as the need for flexibility and responsiveness to the needs of families and young children. The program includes eight core units that provide students with the skills and knowledge to become confident early childhood educators, plus 60 days of professional placement in a range of early childhood settings.	4202	Peninsula	1.5 years full-time	1	Recognised degree or equivalent diploma. *This program is subject to final university approval processes. Details are correct at the time of print.	Contact faculty	
Master of Teaching (Secondary)* The Master of Teaching (Secondary) prepares graduates for teaching in secondary schools and provides them with the opportunity to build on strengths developed in their undergraduate degree. It combines academic studies about the foundations of education with units appropriate to the two teaching specialisms they will be qualified to teach. Teaching specialisms are the subjects they will ultimately be qualified to teach in secondary schools, and are based on their previous studies. Generally they must have previously studied that discipline at university level for at least two years, and then complete the education units related to each specialism. In addition to coursework units, students undertake 60 days of professional placement where they gain valuable classroom teaching experience. Following registration with the Victorian Institute of Teaching (VIT), graduates are eligible to teach in Victorian secondary schools	4201	Berwick	1.5 years full-time	1	Recognised degree or equivalent diploma from disciplines that qualify for two single teaching specialism subjects (teaching areas) or an approved double specialism. For information on specialism prerequisites please visit: www.education.monash.edu.au/units/secondary-specialisms.html . *This program is subject to final university approval processes. Details are correct at the time of print.	Contact faculty	
Graduate Diploma of Education (Primary) This program is designed for graduates from a range of disciplines, with a strong interest in working with primary school aged children. Students complete 8 units that cover the key learning areas of Primary teaching. Students also complete 50 days of professional placement in a range of Primary school settings where they gain valuable teaching experience. Following registration with the Victorian Institute of Teaching (VIT), graduates are eligible to teach in Victorian primary schools	0341	Gippsland, off-campus, Peninsula	1 year full-time	1	Recognised degree or equivalent diploma. <i>The number of units in this course would normally take 1.25 years, but this is an intensive course completed over the period of one year. Therefore you will be paying fees which will be calculated for the 1.25 years and payable in the one year period.</i>	19,688 Total course fee	 
Graduate Diploma of Education (Secondary) This program is designed for graduates who wish to become secondary school teachers. It combines academic studies about the foundations of education with curriculum teaching units appropriate to the student's bachelors degree and their two chosen areas of teaching specialism. Students complete 10 units that cover the key learning areas of Secondary teaching. Students also complete 50 days of professional placement in a range of Secondary school settings where they gain valuable teaching experience. Following registration with the Victorian Institute of Teaching (VIT), graduates are eligible to teach in Victorian secondary schools	1737	Clayton, Gippsland, off-campus	1/2	1	A recognised degree or equivalent diploma from disciplines that qualify for two single teaching specialism subjects (teaching areas) or an approved double specialism. For information on specialism prerequisites please visit: www.education.monash.edu.au/units/secondary-specialisms.html . <i>The number of units in this course would normally take 1.25 years, but this is an intensive course completed over the period of one year. Therefore you will be paying fees which will be calculated for the 1.25 years and payable in the one year period.</i>	19,688 Total course fee	 
Graduate Diploma of Education (Professional Development Studies) This program is designed for those interested in developing knowledge and skills of teaching. It aims to help participants focus on teaching and learning in ways that encourages the development of reflective practice and its relationship to ongoing professional learning and growth.	1736	Gippsland, off-campus	1/2	1, 2	Admission to this course will be open to applicants who possess a degree or diploma and who are qualified educators or who have suitably acceptable experience in a related field.	16,700	 
Graduate Certificate of Education (Professional Development Studies) See above	1762	Gippsland, off-campus	0.5/1	1, 2	Admission to this course will be open to applicants who possess a degree or diploma and who are qualified educators or who have qualifications or experience that the faculty considers to be equivalent to, or a satisfactory substitute for the above.	8350 Total course fee	 
Postgraduate Certificate in Mentoring and Coaching Mentoring and coaching are now integral components of the work of leaders and learning and development professionals across many community and organisational settings. This program responds to the widespread interest in mentoring and coaching across the community, and the demand for people with the skills and knowledge to design and facilitate successful mentoring programs.	3705	Clayton	1 year part-time	1	An approved three year bachelors degree in a relevant field with a credit average in the final year; or an approved fourth year of study; or an approved four year bachelors degree; or have qualifications or experience that the faculty considers to be equivalent to, or a satisfactory substitute for the above.	8350 Total course fee

Research strengths

The research strengths of the faculty include:

- Biomedical, bioprocess and biomaterials engineering
- Chemical engineering science and design
- Civil and structural engineering
- Clean energy technologies
- Electronic, magnetic and ionic materials and properties
- Fluid dynamics research
- Geo-technical engineering
- Intelligent robotics, mechatronics and automated manufacturing
- Micro-nano mechanical and optical engineering
- Nano-materials, engineering alloys and materials
- Polymer engineering
- Railway and sustainable transport engineering
- Structural integrity and safety
- Sustainable water engineering
- Telecommunications

RESEARCH EXCELLENCE

- The Monash Wind Tunnel is capable of creating winds in excess of 180km/h. It is used in the engineering of wind structures and turbines, unmanned air vehicles, ground transportation and optimising the aerodynamic efficiency of racing vehicles.
- A Monash research team is currently working on fossil fuel and renewable energy technologies. The team made a successful and direct conversion of waste plastics into diesel.
- Monash Engineering is involved in collaboration between government, industry and research bodies in China to develop a light, cheaper aluminium alloy to cater for a changing market.
- Monash University and the Indian Institute of Technology in Bombay (IITB) have opened a new chapter in Australian-Indian relations with the formal launch of a joint-venture research academy. Doctoral students undertake research projects and receive a dual, accredited PhD degree from both Monash University and IITB.

- Water engineers are developing new solutions to capture rain water off hard surfaces using a water harvesting system that requires no moving parts, no chemicals and no energy.
- The next generation of hybrid cars could be more reliable and cheaper to build, thanks to a Monash Engineering discovery that a specially coated form of Geotex can form the key component of a fuel cell.

PROFESSIONAL DEVELOPMENT

Postgraduate coursework programs allow engineers to upgrade their skills or seek higher qualifications for targeted career advancement. Monash works closely with industry partners to provide training in the latest technical advancements and to offer well-rounded professional development programs. Engineering PhD graduates are highly sought-after in research and development, strategic planning and senior management roles.

Engineering at a glance

- **Outstanding reputation:** Monash Engineering is a leading research faculty with an exceptional national and international reputation.
- **Research strengths:** The faculty boasts more than a dozen research institutes and centres and cross-institutional centres focused on key technologies.
- **Impressive facilities:** Engineering provides a range of facilities and support services for postgraduate students, including a dedicated science and technology library and spacious work environments with 24-hour access to computer laboratories.
- **New horizons:** Monash has received \$89.9 million from the Federal Government's Education Investment Fund toward future manufacturing research and teaching. The New Horizons initiative will partner staff from Monash and the CSIRO for global research collaboration through state-of-the-art ICT.

Research degrees						
Doctor of Philosophy The PhD program in the Faculty of Engineering may be undertaken in the principal areas of research offered by the faculty, including chemical engineering, civil engineering, electrical and computer systems engineering, materials engineering, mechanical engineering, aerospace engineering and biological engineering. The PhD is awarded by the University to candidates who write and submit a thesis that represents a significant contribution to knowledge or understanding and which demonstrates the capacity to carry out independent research. Researchers have access to outstanding laboratories and research infrastructure.	3291	Clayton, Gippsland, Sunway	4/8	Throughout the year	Master of Engineering by research or; Bachelor of Engineering with honours 1 or 2A from Monash University or another recognised tertiary institution judged to be of equivalent standard to an Australian university. Other qualifications can be assessed for equivalence.	RTS
Master of Engineering Science (Research) Monash Engineering research is at the front line in developing the technologies of the future, such as nano-structuring and nano-manufacturing, bioengineering technology, aerospace technology, fluid dynamics, engineering alloys, geotechnical engineering, sustainable transport, materials characterisation, polymer engineering, intelligent robotics, railway engineering, power electronics and sustainable water.	3292	Clayton, Gippsland, Sunway	2/4	Throughout the year	A Bachelor of Engineering degree with honours 1, 2A or 2B from Monash University or any other recognised tertiary institution.	RTS
Coursework degrees						
Master of Maintenance and Reliability Engineering With industry demanding that its physical production assets work longer and better, professional asset management has become a powerful need in improving profitability and even ensuring survival. Studied off-campus, the Master of Maintenance and Reliability Engineering is designed for engineers and other staff involved in the design, operation, maintenance and improvement of industrial, public sector or defence assets.	2319	Off-campus	2 years part-time	1, 2	Applicants should have a Bachelor of Engineering degree with honours, or have completed the Graduate Diploma in Engineering Maintenance Management with an average result of 65%. In certain circumstances, applicants with a Bachelor of Engineering pass degree or other appropriate degree together with honours-equivalent work experience may be admitted.	18,600
Graduate Diploma in Engineering Maintenance Management See above	1753	Off-campus	2 years part-time	1, 2	A recognised degree in Engineering or a related area, together with at least two years of work experience, or completion of the Graduate Certificate in Maintenance Management or the Graduate Certificate in Reliability Engineering with a 65% average.	18,600
Master of Traffic Monash has been offering transport education and research programs for over 40 years, during which time it has developed a national and international reputation in the field. This course offers students an opportunity to explore traffic operation issues such as traffic congestion, traffic management, road safety and intelligent transport systems. The program has been designed for those who work in traffic engineering, road safety, and civil and environmental engineering.	3271	Off-campus	2 years part-time	1, 2	A Bachelor of Engineering degree, a three-year science or applied science degree with an honours year, or a three-year degree with appropriate postgraduate studies. Students can also articulate from the Postgraduate Diploma in Transport and Traffic.	18,600
Master of Transport The Master of Transport was developed in response to the growing need for engineers with awareness of the characteristics and significance of transport, including its technological, economic, environmental and social impact. Monash offers expert studies in intelligent transport systems, transport network models, road safety engineering and case studies in transport.	3272	Off-campus	2 years part-time	1, 2	A Bachelor of Engineering degree, a three-year science or applied science degree with an honours year, or a three-year degree with appropriate postgraduate studies. Students can also articulate from the Postgraduate Diploma in Transport and Traffic.	18,600
Postgraduate Diploma in Transport and Traffic See above	2863	Off-campus	2 years part-time	1, 2	A Bachelor of Engineering degree, a three-year science or applied science degree with an honours year, or a three-year degree with appropriate postgraduate studies. Students may also articulate from the Graduate Certificate in Transport and Traffic.	18,600
Graduate Certificate in Transport and Traffic See above	2864	Off-campus	1 year part-time	1, 2	A three-year degree in engineering, science, applied science or appropriate degree program or at least three years of high-level experience and successful completion of two units from the program on a non award basis with a 65% average.	9300 Total course fee
Master of Infrastructure Engineering and Management Civil engineering presents a vital challenge for Australia in the 21st century. As the infrastructure grows older, the need for a strategic maintenance plan to prolong its use becomes greater. The planning, design, construction and maintenance of infrastructure are crucial to the economic viability of Australia. Skilled professionals are required to maintain ageing infrastructure, integrate new infrastructure into existing systems, and expand infrastructure. And it must be done in a way that is socially, environmentally and financially sustainable.	3262	Off-campus	1/2	1, 2	A four-year degree in an engineering discipline, a four-year (honours) science/applied science degree or a three-year degree and an appropriate postgraduate qualification. Students can also articulate from the Postgraduate Diploma in Infrastructure Engineering and Management.	18,600
Postgraduate Diploma in Infrastructure Engineering and Management See above	3263	Off-campus	2 years part-time	1, 2	Normal admission will be allowed for students completing the Graduate Certificate in Infrastructure Engineering and Management with a 65% average.	18,600
Graduate Certificate in Infrastructure Engineering and Management See above	3264	Off-campus	1 year part-time	1, 2	A three-year degree in an engineering discipline, a three-year science/applied science degree, or a three-year degree in an appropriate area. Admission will be allowed for students with three years of high-level experience who have completed two units, including one core unit from the program, with a 65% average.	9300 Total course fee
Graduate Diploma in Materials Engineering This course offers people employed in professional or management positions within materials technology an opportunity to acquire training in the fundamentals of this industry.	0033	Clayton	1/2	1, 2	Bachelor of Engineering degree or other appropriate degree.	27,000
Graduate Certificate in Maintenance Management This four-unit course is designed to allow engineers in full-time employment to update aspects of their academic training or to embark on a new area of training. Students who complete this course to a satisfactory standard may apply to continue their studies to graduate diploma and then masters level.	1764	Off-campus	1 year part-time	1, 2	A three-year degree in engineering, science, applied science or appropriate degree program or at least three years of high-level experience and successful completion of two units from the program on a not-for-degree basis with a 65% average.	9300 Total course fee
Graduate Certificate in Reliability Engineering This four-unit course is designed to allow engineers in full-time employment to update aspects of their academic training or to embark on a new area of training. Students who complete this course to a satisfactory standard may apply to continue their studies to graduate diploma and then masters level.	1765	Off-campus	1 year part-time	1	A three-year degree in engineering, science, applied science or appropriate degree program or at least three years of high-level experience and successful completion of two units from the program on a not-for-degree basis with a 65% average.	9300 Total course fee

Project management leaders

Our Master of Business Information Systems program now allows you to specialise in project management.

Staff with excellent project management skills are essential for the survival of an organisation. Companies need to adapt quickly as changes occur at a rapid rate, due to shorter product life cycles, accelerated development of sophisticated information systems, and an increasingly competitive market. Additionally, project management paves the way to future leadership roles in organisations.

We are committed to delivering courses that are innovative and relevant to the changing needs of both students and employers.

Project management units can also be selected as electives while completing either the Master of Applied Information Technology or Master of Information Technology.

RESEARCH CENTRES

Our research strengths span many fields in IT and gather collective knowledge, applied across disciplines. As the largest IT Faculty in Australia, we are one of the most well-respected leading collaborative IT institutions in the world.

- Centre for Decision Support and Enterprise Systems Research (CDSESR)
- Centre for Organisational and Social Informatics (COSI)
- Centre for Research in Intelligent Systems (CRIS)
- Centre for Distributed Systems and Software Engineering (DSSE)
- Centre for Multimedia Computing, Communications and Applications Research (MCCAR)
- CTI-Monash Centre for Optimisation (CTI-Monash)

RESEARCH STRENGTHS

We participate in a range of research areas, from engineering to social science. Our leading researchers' specific strengths are in:

- computing science
- software engineering
- information systems, and
- information and knowledge management

The Faculty of Information Technology specialises in e-research and leads in the development of infrastructure for this. We are renowned for our Nimrod software, a family of tools for e-research. Nimrod has been deployed in Australia and in leading research sites in the US, UK, South America and Europe. It also performs collaborative e-research with international leaders such as the Oxford e-Research Centre, the San Diego Supercomputing Centre, University of Amsterdam and the California Institute for Telecommunications and Information Technology.

We also collaborate on various Australian Government initiatives, such as infrastructure for the Australian Synchrotron, with the Monash e-Research Centre, the University's Information Technology Services Division and the Monash Library.

Information Technology at a glance

- **Quality instruction and varied choice:** At Monash, students learn with some of the world's leading academics and researchers. You can choose to study in any area of information technology.
- **All information technology under one banner:** Monash is the only research-intensive Group of Eight University member to have a dedicated Information Technology faculty.
- **Graduate employability:** Our graduates are highly valued by employers across all industries.
- **Global recognition:** An information technology degree from Monash is recognised around the world for its quality and depth. Students have access to research collaborations with more than 110 global institutions.
- **Diverse research areas:** Students can select from various principal areas, such as decision support and enterprise systems, distributed systems and software engineering, intelligent systems, multimedia computing and communications.

Course	Code	Campus	Duration full-time/part-time	Intake	Entry requirements	2011 fee AS
Research degrees						
<p>Doctor of Philosophy</p> <p>Information Technology research at Monash has a multi-disciplinary, multi-campus and multi-national approach, providing research students with a unique capacity to reach out further and deeper than at any other institution in Australia.</p> <p>The faculty has six research centres which provide the focus for internationally recognised research strengths in intelligent systems, distributed systems and software engineering, organisational and social informatics, business intelligence and multimedia computing.</p> <p>Areas for research cover the whole IT spectrum from engineering to social science.</p> <p>The award of the PhD degree is generally accepted as showing that the candidate is capable of carrying out independent research.</p>	0190	Berwick, Clayton, Caulfield, Gippsland, off-campus, Sunway	4/8	Throughout the year	The minimum qualifications for admission to PhD candidature are: (a) a bachelors degree requiring at least four years of full-time study and normally including a research component in the fourth year, leading to an honours degree at first or upper second class level (H1 or H2A); or (b) a course leading to a masters preliminary qualification at a level rated by the relevant school and faculty as equivalent to a first or upper second class honours degree; or (c) a masters degree that comprises a significant research component, at least equivalent to (a) above. The course is designed to be taken over a period of three years with a maximum of four years full-time study.	RTS
<p>Master of Philosophy</p> <p>This is a University-wide master by research degree administered by the Monash Research Graduate School (MRGS). The MRGS is dedicated to enhancing research opportunities at Monash, and providing support to postgraduate researchers.</p> <p>Master of Philosophy students in IT are expected to make a contribution to an existing body of information technology knowledge by applying, clarifying, critiquing or interpreting that knowledge.</p>	3337	Sunway	2/4	Throughout the year	The minimum requirements for admission to MPhil candidature are: (i) a degree of bachelors with honours 1, or honours 2 division A; or (ii) qualifications which in the opinion of the Monash Research Graduate School (MRGS) are equivalent or a satisfactory substitute. Prospective research candidates are expected to have identified a certain research area of interest prior to applying. They are required to discuss the proposed research project, as well as availability of supervision and facility to conduct research, with the School in which they are seeking candidature. Applications may be submitted throughout the year.	Consult faculty
<p>Master of Information Technology (Research)</p> <p>Information technology is found in every aspect of today's world. The diversity of real-world IT applications is reflected in the range of research options available to Monash research students.</p> <p>The Master of Information Technology (Research) can be undertaken in more than 30 specialised areas.</p>	1895	Caulfield, Clayton, Berwick, Gippsland	1/2	Throughout the year	Completion of: (a) at least a four-year honours degree in computing or in a related discipline with at least a distinction average in the final year, or (b) at least the equivalent to a distinction average in a four-year bachelors degree in IT or a cognate discipline, or (c) at least a distinction average in a three-year bachelors degree in IT or cognate discipline, and industry experience in research and/or development projects. Students enrolled in an IT faculty masters coursework degree may apply to transfer to the MIT (Research) after completing 24 points of coursework units with at least a distinction average.	RTS
Coursework degrees						
<p>Master of Applied Information Technology</p> <p>The Master of Applied Information Technology program provides an effective means of opening up new career possibilities in IT fields ranging from applications programming through to systems analysis. The program provides in-depth coverage of the fundamentals of computer and information systems, programming and a wide range of IT application domains.</p> <p>Students can enrol in the program at graduate certificate, graduate diploma or masters level, depending on their background and desired career outlook. Students may also elect to exit the course with a graduate certificate or graduate diploma after enrolling in the course at masters level.</p>	3309	Caulfield	2/4	1, 2	The normal entry requirement is successful completion of a degree that is the equivalent of an Australian bachelors degree, not necessarily in an IT-related discipline, with at least a pass (50%) average. Candidates without formal tertiary qualifications can apply to enter via a pathway from the Professional Certificate in Information Technology or the Executive Certificate in Information Technology, which are intended to lead to a graduate or postgraduate diploma. Upon successful completion of a subsequent relevant graduate diploma (with course leader advice), students may be eligible to articulate into their chosen Masters program.	22,600
<p>Graduate Diploma in Information Technology</p> <p>See above</p>	0366	Caulfield	1/2	1, 2	The normal entry requirement is successful completion of a degree that is the equivalent of an Australian bachelors degree, not necessarily in an IT-related discipline, with at least a pass (50%) average. Candidates without formal tertiary qualifications can apply to enter via a pathway from the Professional Certificate in Information Technology or the Executive Certificate in Information Technology, which are intended to lead to either a graduate or to a postgraduate diploma.	22,600
<p>Graduate Certificate in Information Technology</p> <p>See above</p>	0539	Caulfield	0.5/1	1, 2	The normal entry requirement is successful completion of a degree that is the equivalent of an Australian bachelors degree, not necessarily in an IT-related discipline with at least a pass (50%) average.	11,300 Total course fee
<p>Master of Information Technology</p> <p>Monash aims to provide students with knowledge, understanding and experiences that transcend technologies and are robust over time so that students are well placed to deal with the ongoing and rapid changes in the information technology field.</p> <p>The Master of Information Technology programs provide the framework within which students can appreciate and integrate new software and hardware technologies and extend their theoretical knowledge in specific areas of interest in the industry. They provide broad, flexible studies in information technology, enabling students to select specific areas for in-depth study, or to construct a curriculum from a range of suitably advanced units.</p> <p>Students can enrol in the program at postgraduate certificate, postgraduate diploma, masters, or masters professional level, depending on their academic background and desired career outlook. The honours program prepares students for doctoral level studies through research methods training and research leading to a minor thesis in information technology.</p> <p>Students are also able to complement their detailed studies of significant areas of information technology with elective study from a wide range of disciplines.</p>	2402	Caulfield	1.5/3	1, 2	The normal entry requirement is successful completion of a degree that is the equivalent of an Australian bachelors degree in IT such as computing, computer science or a technical information technology field with at least a pass (50%) average. Candidates without formal tertiary qualifications can apply to enter via a pathway from the Executive Certificate in Information Technology, which is intended to lead to a postgraduate diploma. As IT Service Delivery Lead, **Nicholas Lloyd-Shrimpton** is responsible for managing IT Infrastructure services for VicSuper which manages the superannuation contributions of over 250,000 Victorians, with offices in Melbourne, Blackburn, Traralgon, Bendigo and Geelong.

“I realised that I needed an edge over my peers to progress my career. As I had not finished an undergraduate degree, completing a masters degree is a way of demonstrating commitment and ability while also gaining a qualification that is well regarded among employers. Monash has a reputation that is highly regarded across industries.”

Human rights leaders

The faculty's Castan Centre for Human Rights Law has developed an international reputation for cultivating the next generation of human rights leaders.

The human rights specialisation allows graduates from all disciplines to choose from an extensive range of units, covering topics of domestic and international relevance. Some of these include indigenous and children's rights to issues relating to terrorism, migration and encroachments on privacy. This enables students to focus on human rights issues confronting governments, international bodies, individuals and corporations, and to critically engage in and debate these issues. These are taught by some of the most highly respected human rights academics in the country.

Students also gain first-hand experience of human rights issues. Each year the Castan Centre facilitates student internships to a variety of organisations dedicated to the protection and advancement of human rights.

RESEARCH EXCELLENCE

Our academic staff and research students undertake diverse and innovative research that is doctrinal, theoretical and empirical. Their research attracts funds from a variety of sources and is published in scholarly books, journals and submissions to government and law reform agencies. We publish the Monash University Law Review, a high-quality, scholarly legal journal, and have three active research centres based in the Law School: the Castan Centre for Human Rights Law, the Monash Centre for Regulatory Studies and the Centre for the Advancement of Mental Health Law.

PROFESSIONAL RECOGNITION

Research degrees						
Doctor of Philosophy The Doctor of Philosophy (PhD) program in the Faculty of Law may be undertaken in the principal areas of research offered by the faculty, including commercial law, comparative law, criminal law, administrative law, eLaw, family law, forensic studies, health and medical law, human rights law, environmental law, equity and property law, intellectual property law, international trade law, transport law, public law and torts. It is particularly relevant to those contemplating an academic career in law. Candidates for the PhD are required to complete a thesis of up to 100,000 words which must be of a standard comparable to legal writings found in scholarly law journals. The thesis must demonstrate an ability to carry out independent research and to analyse and synthesise legal concepts.	0069	Clayton, off-campus	4/8	1, 2	A Bachelors degree with honours with a grade of H1 or H2A, or an equivalent qualification considered appropriate by the Monash Research Graduate School.	RTS
Doctor of Juridical Science The Doctor of Juridical Science (SJD) is a professional doctorate program offered by the Faculty of Law that enables students to complete a significant research thesis together with a selection of coursework units in a specific area of interest. The program is suited to those who wish to pursue an academic career or a major academic study project such as an area of law reform, or develop policy or theoretical perspectives in an area where they have recognised expertise. The coursework units allow students to develop some expertise in the area in which they intend to pursue their research before commencing work on their thesis of 50,000 words.	3380	Clayton, off-campus	4/8	1, 2	A Bachelor of Laws with a minimum of honours two division A; or a minimum average level of distinction in four Master of Laws degree units; or other qualifications which the Research Graduate School Committee is satisfied are equivalent or a satisfactory substitute; and to the satisfaction of the Research Graduate School Committee, have the high level of research and writing competence required for the degree.	RTS
Master of Philosophy The Master of Philosophy in the Faculty of Law requires the completion of a major thesis of about 50,000 words in length, which may be undertaken in any area of research within the faculty. It is particularly suited to students seeking to undertake an inter-disciplinary research project. It is expected that the thesis will meet a standard comparable to legal writings found in learned journals, and demonstrate the student's ability to carry out independent research and to analyse and synthesise legal concepts.	3379	Clayton, off-campus	2/4	1, 2	An undergraduate degree with honours H1 or H2A in any discipline, a masters degree by coursework or an equivalent qualification considered appropriate by the Monash Research Graduate School.	RTS
Master of Laws (Research) The Master of Laws (Research) requires the completion of a major thesis of around 50,000 words, which may be undertaken in any area of research offered by the faculty. The thesis must embody the results of research in a field of study approved by the faculty and be carried out by the candidate under supervision of a nominated supervisor appointed by the faculty. It must be the original work of the candidate and display a thorough understanding of subject matter and contribute to knowledge and understanding within the field of study concerned.	1651	Clayton, off-campus	2/4	1, 2	A Bachelor of Laws with honours or an equivalent legal qualification at a level considered appropriate by the Faculty of Law.	RTS
Coursework degrees						
Master of Laws (Juris Doctor) The Monash Juris Doctor (JD) is an intensive, graduate entry law degree. The Monash JD recognises the specific needs of non-law graduates returning to study law and teaches the knowledge and skills only a law degree from one of Australia's leading universities can provide. Small class sizes and innovative teaching attracts passionate and dedicated individuals, and classes are taught at the city-based Monash Law Chambers, located in the heart of Melbourne's legal precinct.	3387	City	3/4	January, May, August	An undergraduate degree or equivalent qualification. Selection is a competitive process made primarily on academic merit. In addition, consideration may be given to: <ul style="list-style-type: none"> ■ Personal and professional achievements ■ Communication skills ■ Commitment, motivation and reasons for undertaking the course ■ Masters degree of at least 1.5 years equivalent. As a guide, a minimum GPA of 5.0 is required to be considered for a full fee place. The minimum requirement to be considered for a CSP place is a GPA of 6.0. The actual GPA required depends on the number and standard of applications received during that selection period.	30,000
Master of Laws The Master of Laws (LLM) offers maximum flexibility and choice, with a broad range of units available, enabling you to individually tailor your masters degree to suit your interests and professional needs. The Monash LLM is ideal for law graduates who want to develop in-depth knowledge of a particular legal area or those wanting to advance their professional expertise in a current area of practice. You will investigate contemporary legal issues from both international and local perspectives and develop your legal research and writing skills. Principal areas of study include: banking and finance law; commercial law; competition law; copyright and trademark law; dispute resolution; eLaw; ethics; government law; human rights law; intellectual property law; international and comparative law; privacy law; regulation law; tribunal procedures; and workplace and employment law. This course may be completed by undertaking eight coursework units or a combination of coursework and a minor research thesis.	0068	City	1/2	Throughout the year	A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or A Bachelor of Laws or equivalent legal qualification and at least two years of relevant work experience.	24,400
Graduate Diploma in Law The Graduate Diploma in Law offers students the flexibility to choose from a broad range of units, enabling you to individually tailor your course to suit your interests and professional needs. This program offers students a great deal of choice as students can choose from the full range of Monash Law's postgraduate program, investigating contemporary legal issues from both international and local perspectives. This degree will enable you to acquire further legal expertise, adding value in the workplace as well as providing the opportunity to hone your legal knowledge and skills and build on your existing experience. While this course normally comprises eight coursework units, applicants holding an undergraduate degree may be given credit for up to four units for recognised work experience or prior learning.	2103	City	1/2	1, 2	A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or A Bachelor of Laws or equivalent legal qualification and at least one year of relevant work experience; or An undergraduate degree or equivalent qualification in any discipline and at least one year of relevant work experience in the area of specialisation. Applicants who do not hold an undergraduate degree may be admitted if they have relevant qualifications and work experience considered an equivalent or satisfactory substitute and that constitutes suitable preparation for the proposed course of study.	24,400
Master of Laws (Commercial Law) The Master of Laws (Commercial Law) allows law graduates to choose from an extensive range of units covering topics across the domestic and international commercial law arena. Our range of commercial law units is certain to cater to your career aspirations and interests, providing you with a springboard from which to launch your career in this complex and ever-evolving legal area. This course may be completed by undertaking eight coursework units (at least five in the area of commercial law) or a combination of coursework and a minor research thesis.	2107	City	1/2	Throughout the year	A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or A Bachelor of Laws or equivalent legal qualification and at least two years of relevant work experience	24,400
Master of Commercial Law The Master of Commercial Law allows graduates from non-law disciplines the opportunity to choose from an extensive range of commercial law units covering topics across the domestic and international arenas. Our range of commercial law units is certain to cater to your career aspirations and interests, providing you with a springboard from which to launch your career in this complex and ever-evolving professional area. This course may be completed by undertaking eight coursework units (at least five in the area of commercial law) or a combination of coursework and a minor research thesis.	3373	City	1/2	1, 2	An undergraduate degree or equivalent qualification in any discipline and at least two years of relevant work experience in the area of specialisation.	24,400

<p>Master of Regulatory Studies</p> <p>The Master of Regulatory Studies is offered by Faculty of Law in conjunction with the faculties of Arts, Business and Economics, Medicine, Nursing and Health Sciences and the Pharmacy and Pharmaceutical Sciences at Monash University. It was specifically designed to address the nature, extent and implications of the regulatory environment in a broad, cross-disciplinary approach. The study of regulation is a relatively new discipline which links and transcends the boundaries between economics, law, politics, criminology, sociology, psychology, organisational theory and public administration. This unique degree will provide practitioners and scholars with a core set of ideas, theories and skills to apply to their regulatory activities and manage regulatory challenges. Students must complete eight coursework units made up of three core regulatory studies units plus any five units from the approved range of regulatory studies elective units.</p>	3393	City	1/2	Throughout the year	<p>A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or</p> <p>A Bachelor of Laws or equivalent legal qualification and at least two years of relevant work experience; or</p> <p>An undergraduate degree or equivalent qualification in any discipline and at least two years of relevant work experience in the area of specialisation.</p>	24,400
<p>Graduate Diploma in Regulatory Studies</p> <p>While the regulatory sector at a national and international level is extensive and complex, the study of regulation is a relatively new discipline. The Graduate Diploma in Regulatory Studies is an interdisciplinary program established to address the nature, extent and implications of the regulatory environment in a broad, cross-disciplinary approach. This program will provide practitioners with a core set of ideas, theories and skills to apply to regulatory activities, as well as the opportunity to study specific fields of regulatory activity. This degree will enable you to acquire further legal expertise, adding value in the workplace as well as providing the opportunity to hone your skills in this specialised field of law and build on your existing experience. While this course normally comprises eight coursework units, applicants holding an undergraduate degree may be given credit for up to four units for recognised work experience or prior learning.</p>	3394	City	1/2	1, 2	<p>A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or</p> <p>A Bachelor of Laws or equivalent legal qualification and at least one year of relevant work experience; or</p> <p>An undergraduate degree or equivalent qualification in any discipline and at least one year of relevant work experience in the area of specialisation.</p> <p>Applicants who do not hold an undergraduate degree may be admitted if they have relevant qualifications and work experience considered an equivalent or satisfactory substitute and that constitutes suitable preparation for the proposed course of study.</p>	24,400
<p>Master of Laws (Workplace and Employment Law)</p> <p>Effective, equitable and safe workplace practices are a growing concern in the global workforce. The Master of Laws (Workplace and Employment Law) was designed to provide law graduates with a thorough grounding in labour law and is relevant for those working or who aim to work in the area of workplace and employment law. It includes a diverse range of units covering topics such as collective bargaining agreements, individual contracts, occupational health and safety, electronic workplace law, international human rights and economic torts. This course may be completed by undertaking eight coursework units (at least five in the area of workplace and employment law) or a combination of coursework and a minor research thesis.</p>	3381	City	1/2	Throughout the year	<p>A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or</p> <p>A Bachelor of Laws or equivalent legal qualification and at least two years of relevant work experience.</p>	24,400
<p>Master of Workplace and Employment Law</p> <p>Effective, equitable and safe workplace practices are a growing concern in the global workforce. The Master of Workplace and Employment Law is designed to provide graduates from non-law disciplines with a thorough grounding in labour law and is relevant for those working or who aim to work in the area of workplace and employment law or a related area. It includes a diverse range of units, covering topics such as collective bargaining agreements, individual contracts, occupational health and safety, electronic workplace law, international human rights and economic torts. This course may be completed by undertaking eight coursework units (at least five in the area of workplace and employment law) or a combination of coursework and a minor research thesis.</p>	3382	City	1, 2	1, 2	<p>An undergraduate degree or equivalent qualification in any discipline and at least two years of relevant work experience in the area of specialisation.</p>	24,400
<p>Graduate Diploma in Law (Workplace and Employment Law)</p> <p>The Graduate Diploma in Law (Workplace and Employment Law) provides students with a thorough grounding in labour law and is relevant for those working, or who aim to work, in workplace and employment law or a related field. The program includes a diverse range of units, covering topics such as collective bargaining agreements, individual contracts, occupational health and safety and electronic workplace law. This degree will enable you to acquire further legal expertise, adding value in the workplace as well as providing the opportunity to hone your skills in this specialised field of law and build on your existing experience.</p>	3384	City	1/2	1, 2	<p>A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or</p> <p>A Bachelor of Laws or equivalent legal qualification and at least one year of relevant work experience; or</p> <p>An undergraduate degree or equivalent qualification in any discipline and at least one year of relevant work experience in the area of specialisation.</p> <p>Applicants who do not hold an undergraduate degree may be admitted if they have relevant qualifications and work experience considered an equivalent or satisfactory substitute and that constitutes suitable preparation for the proposed course of study.</p>	24,400
<p>Graduate Diploma in Local Government Law</p> <p>The Graduate Diploma in Local Government Law was designed in consultation with industry partners and provides a thorough grounding in this area. It focuses on current issues in local government law relevant to the needs of senior and middle managers employed by local government authorities, as well as catering to the needs of graduates without a legal background in the local government sector. This degree will enable you to acquire further legal expertise, adding value in the workplace as well as providing the opportunity to hone your skills in this specialised field of law and build on your existing experience. While this course normally comprises eight coursework units, applicants holding an undergraduate degree may be given credit for up to four units for recognised work experience or prior learning.</p>	3399	City	1/2	1, 2	<p>A Bachelor of Laws or equivalent legal qualification, with a minimum credit average; or</p> <p>A Bachelor of Laws or equivalent legal qualification and at least one year of relevant work experience; or</p> <p>An undergraduate degree or equivalent qualification in any discipline and at least one year of relevant work experience in the area of specialisation.</p> <p>Applicants who do not hold an undergraduate degree may be admitted if they have relevant qualifications and work experience considered an equivalent or satisfactory substitute and that constitutes suitable preparation for the proposed course of study.</p>	24,400
<p>Graduate Certificate in Forensic Studies (Accounting)</p> <p>The Graduate Certificate in Forensic Studies (Accounting) has been designed for accounting practitioners who may be involved in litigation. Developed by Monash Law School's International Institute of Forensic Studies in conjunction with the Australian Advocacy Institute and the Institute of Chartered Accountants (ICAA), this course is a well-established qualification in this growing professional area. This course is particularly relevant for accounting professionals who interact with the legal profession and those required to give expert evidence in court. It is also ideal for those who wish to move into the forensic accounting field or update their skills in this area.</p>	3378	City	1 year part-time	1	<p>An undergraduate degree in accounting (or equivalent qualification), or be a CPA or a Chartered Accountant, or have extensive professional work experience in accounting</p>	12,200 Total course fee

Research excellence

Our researchers are continually recognised in competitive grant rounds of organisations such as the National Health and Medical Research Council (NHMRC), the Australian Research Council (ARC), the Cancer Council and the National Heart Foundation.

We win a significant proportion of awards for research, reflecting our strengths in areas such as neuroscience, foetal development, malaria and communication impairment. Our people, programs, platforms and a new precinct for biomedical sciences research at Clayton, plus a prominent presence at The Alfred (Alfred Medical Research and Education Precinct), Monash Medical Centre (Monash Health Research Precinct), a network of clinical schools at hospitals across Victoria, and at our own campuses at Peninsula, Gippsland, Caulfield and Malaysia means that we are able to translate a high volume of research into clinical outcomes.

WORLD-LEADING RESEARCH

A team of Monash University researchers has made a major breakthrough in the international fight against malaria. They have provided a new approach to treating and controlling the disease that is contracted by half a billion people and causes around one million deaths a year, claiming the life of a child across the world every 30 seconds.

The Monash University ARC Centre of Excellence in Structural and Functional Microbial Genomics has been able to deactivate the final stage of the malaria parasite's digestive machinery, effectively starving the parasite of nutrients and disabling its survival mechanism, resulting in the death of the parasite. The team's successes have laid the scientific groundwork for the development of a specific class of drugs to treat the disease. Researchers used the Australian Synchrotron, located adjacent to Monash University's Clayton campus, in the process of their work. The results of the team's research have been published in the prestigious US journal Proceedings of the National Academy of Sciences.

FAST-TRACK YOUR CAREER

The Master of Nursing Practice is designed to provide accelerated entry into the nursing profession for graduates in other disciplines. This high-intensity degree program enables motivated students possessing an undergraduate degree to achieve a professional qualification from Australia's leading centre of nursing, midwifery and emergency health care in only 18 months, and to gain entry into a rewarding career with excellent employment prospects and international portability. Students who successfully complete the course are eligible to apply for registration as a Division 1 Nurse with the Nursing and Midwifery Board of Australia.

At a glance

- The largest faculty of its kind in Australia, at the largest university in Australia.
- The faculty's commitment to the pursuit of excellence and innovation in both research and in teaching and learning is clear. It consistently receives the highest amount of funding from the Australian Government in recognition of teaching and learning performance of any health-related faculty at any university.
- There is a strong emphasis on translating knowledge and expertise from the academic to the clinical. Graduates can pursue their professional ambitions within our faculty from day one through a focused degree.

Research degrees						
Doctor of Medicine (supervised) The Doctor of Medicine (MD) is a research degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty's principle research areas and strengths. Candidates in the MD (supervised) mode undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.	3852	Burnet, Southbank, Clayton, MMC, Alfred, MHRI, PHI, Baker, Notting Hill, WEHI, Peter Mac, SVI, Box Hill, Murdoch, Florey, off-campus	4/8	1, 2	Applicants must hold a Bachelor of Medicine and Bachelor of Surgery (MBBS) from Monash University, and research training that the Research Graduate School Committee is satisfied is equivalent to honours 1 or honours 2A, or other qualifications which, in the opinion of the committee, are equivalent or a satisfactory substitute	RTS 
Doctor of Medicine (unsupervised) The Doctor of Medicine (MD) is a research degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty's principal research areas and strengths. Candidates in the MD (unsupervised) mode have no attendance or supervision requirements. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.	3853	Burnet, Southbank, Clayton, MMC, Alfred, MHRI, PHI, Baker, Notting Hill, WEHI, Peter Mac, SVI, Box Hill, Murdoch, Florey, off-campus	Contact faculty	1, 2	Applicants must have qualified not less than five years previously for the degrees of Bachelor of Medicine and Bachelor of Surgery (MBBS) from Monash University, or another university recognised for the purpose by the faculty board and, in this case, must be a member of the academic staff of the faculty unless the faculty board in any particular case otherwise determines. Applicants must also satisfy the faculty board that they have since qualifying for the degrees have been substantially engaged in the practice and study of medicine or an allied field, or scientific or other scholarly work relevant to the practice of medicine or an allied field.	Contact faculty 
Doctor of Philosophy The Doctor of Philosophy (PhD) is a research degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty's principal research areas and strengths. Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.	0047	Burnet, Gippsland, Peninsula, Southbank, Caulfield, Clayton, MMC, Alfred, MHRI, PHI, Baker, Notting Hill, WEHI, Moe, Peter Mac, SVI, Box Hill, Murdoch, Bendigo, Florey, Sunway, off-campus	4/8	1, 2	Applicants must hold a masters degree by research or a bachelors degree with honours 1 or honours 2A from Monash University or have qualifications which in the opinion of the Research Graduate School Committee are equivalent or a satisfactory substitute.	RTS 
Doctor of Psychology in Clinical Neuropsychology Candidates undertake a research project under the direct supervision of a member of the academic staff, as well as coursework units and practical placements. This course prepares psychologists for research in applied areas of neuropsychology and to work as clinical neuropsychologists in the assessment and treatment of cognitive, behavioural and emotional issues of adults and children with conditions affecting the brain. A feature of the Doctor of Psychology (DPsych) in Clinical Neuropsychology course is that training in clinical neuropsychology is extended through specialisation in a choice of areas, including rehabilitation, child and adolescent neuropsychology, geriatric neuropsychology, psychiatric neuropsychology and forensic psychology.	2932	Clayton	4/8	1, 2	Applicants must have a bachelors degree with Honours I or IIA, or equivalent fourth year in psychology, or have qualifications which in the opinion of the Research Graduate School Committee are equivalent for a satisfactory substitute. The bachelors degree must be accredited by the Australian Psychology Accreditation Council. In addition to their academic record, applicants will be selected on the basis of their personal suitability for clinical psychology, with factors such as referees reports and presentation at a selection interview considered.	RTS
Doctor of Psychology in Clinical Psychology Candidates undertake a research project under the direct supervision of a member of the academic staff, as well as coursework units and practical placements. This course prepares psychologists for research in applied areas of psychology and to work as clinical psychologists in the assessment and treatment of adults and children with relatively severe emotional and/or behavioural disorders. A feature of the program is that training in clinical psychology is extended through specialist training in a choice of areas, including clinical child, adolescent and family psychology; clinical forensic psychology; and advanced clinical psychology.	2116	Clayton	4/8	1, 2	Applicants must have a bachelors degree with Honours I or IIA, or equivalent fourth year in psychology, or have qualifications which in the opinion of the Research Graduate School Committee are equivalent or a satisfactory substitute. The bachelors degree must be accredited by the Australian Psychology Accreditation Council. In addition to their academic record, applicants will be selected on the basis of their personal suitability for clinical psychology, with factors such as referees reports and presentation at a selection interview considered.	RTS
Doctor of Public Health Candidates undertake a research project under the direct supervision of a member of the academic staff. The course provides training in both the theory and practice of public health, equipping students to enter careers in Australian or international public health systems. The course covers epidemiology, public health practice and research.	3403	Burnet, Caulfield, Clayton, Alfred	4/8	1, 2	Applicants must have a Master of Public Health with an overall average distinction result or a bachelors degree with honours 1 or honours 2A in a health discipline from Monash University, or have qualifications which in the opinion of the Research Graduate School Committee are equivalent or a satisfactory substitute. Applicants must also have a minimum two years work experience in the field of public health, and must, to the satisfaction of the Research Graduate School Committee be suitable for the role of a professional working in public health.	RTS
Master of Biomedical Science The Master of Biomedical Science (MBiomedSci) is a research degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty's principle biomedical research areas and strengths. Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.	2977	Burnet, Peninsula, Southbank, Caulfield, Clayton, MMC, Alfred, MHRI, PHI, Baker, Notting Hill, WEHI, Peter Mac, SVI, Box Hill, Murdoch, Florey	2/4	1, 2	Applicants must have a relevant bachelors degree with honours 1 or honours 2A, or have satisfactorily completed the Master of Biomedical Science (Part 1) with honours 1 or honours 2A, or have other qualifications or experience deemed equivalent or a satisfactory substitute by the faculty board.	RTS
Master of Biomedical Science (Part 1) The Master of Biomedical Science (Part 1) is a qualifying degree that may be undertaken in the Faculty of Medicine, Nursing and Health Sciences in any of the faculty's research areas and strengths. Candidates undertake a major research project under the direct supervision of a member of the academic staff.	2970	Burnet, Southbank, Caulfield, Clayton, MMC, Alfred, MHRI, PHI, Baker, Notting Hill, WEHI, Moe, Peter Mac, SVI, Box Hill, Murdoch, Bendigo, Florey	1/2	1, 2	Applicants must have qualified for a pass degree in a relevant field at a standard deemed appropriate by the faculty board and not have failed an honours attempt in the degree, or training and experience deemed a satisfactory substitute by the faculty board. Admission to the course requires at least a credit grade average (60 per cent plus) in 24 points (or half the year) of relevant third-year units.	25,200 
Master of Nursing (Research) Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.	1396	Gippsland, Peninsula	2/4	1, 2	Applicants must have a Bachelor of Nursing with honours 1 or honours 2A or hold qualifications deemed equivalent by the faculty board. <p>Master of Reproductive Sciences</p> <p>Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research. The Master of Reproductive Science provides medical and health professionals with advanced theoretical understanding and research training in the applications of reproductive biology, including emerging biotechnologies, to clinical human and veterinary medicine. Research may be undertaken in areas of human reproduction, animal reproduction, women's health, fetal and neonatal physiology, embryology, molecular and cellular endocrinology and reproductive toxicology.</p>	0100	Clayton, MMC, Phi	2/4	1, 2	Applicants must have a relevant bachelors degree in science with honours 1 or honours 2A; or the Graduate Diploma in Reproductive Sciences with a minimum average grade of 70 per cent; or have other qualifications or experience which the faculty board deems equivalent or a satisfactory substitute.	RTS
<p>Master of Social Work (Research)</p> <p>Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research. Specialist areas of research include casework, child abuse and protection, community health and services, corrections, ethnic welfare, family and children's courts, family intervention, family violence, policy development, poverty, residential care, women and social work, the welfare lobby, drug law reform, child abuse and the media, and aged care. The profession of social work aims to assist people to develop their full potential. Social workers help people with personal and social problems to access community resources and develop community support networks.</p>	2698	Caulfield, Clayton, Notting Hill, off-campus	2/4	1, 2	Applicants must have either a bachelors degree with honours 1 or honours 2A in a relevant field; or a masters degree in a relevant field with an approved research component; or have other qualification or experience deemed equivalent or a satisfactory substitute by the faculty board.	RTS
<p>Master of Surgery</p> <p>Candidates undertake a research project under the direct supervision of a member of the academic staff. The work undertaken as part of this research degree must constitute a significant contribution to the knowledge and understanding of a field of study of direct concern to the faculty, and must demonstrate the capacity of the candidate to carry out independent research.</p>	3443	Clayton, MMC, Alfred, Box Hill, off-campus	1.5/3	1, 2	An applicant must have qualified not less than two years previously for the degrees of Bachelor of Medicine and Bachelor of Surgery (MBBS) or equivalent at Monash University or another university approved by the faculty board. An applicant must also intend to pursue a career in surgery or have applied for or been accepted into the Surgical Education and Training program of the Royal Australasian College of Surgeons or an equivalent surgical training program approved by the faculty board; or hold a Fellowship of the Royal Australasian College of Surgeons or equivalent higher surgical qualification as approved by the faculty board. In addition, an applicant must have been substantially engaged, since qualifying for the degree of Bachelor of Surgery or its equivalent, in the practice and study of surgery or scientific work relevant to the practice of surgery to the satisfaction of the faculty board.	RTS
Coursework degrees						
<p>Master of Biostatistics</p> <p>This course provides a sound understanding of the theory and application of biostatistics relevant to professional practice. Students acquire skills and experience in complex statistical analyses, identifying and implementing appropriate statistical methodology, communicating biostatistical results and understanding biostatistical literature. The three year course provides exit points after two years and one year that allows the award of a Graduate Diploma (3421) or Graduate Certificate (3420) in Biostatistics. Students who successfully complete the research stream and achieve an overall average of HD may progress to a PhD or other Higher Degree by Research.</p>	3422	Alfred	3 years part-time	1, 2	Applicants must have a bachelors degree in science, psychology, medicine, pharmacy, nursing or another appropriate discipline. Applicants must also have at least one year's work experience in a health-related field or an honours degree in mathematics for statistics and an aptitude for advanced mathematical study. MPH1041 (Introductory biostatistics) or equivalent is a prerequisite. Direct entry into the Masters degree is usually restricted to students who have an undergraduate mathematics or statistics degree. Students without this background are encouraged to enrol in the Graduate Diploma in Biostatistics and may apply for acceptance into the Masters Degree upon successful completion of the Graduate Diploma with an average grade of a Distinction or greater.	19,500
<p>Graduate Diploma in Biostatistics</p> <p>See above</p>	3421	Alfred	2 years part-time	1, 2	Applicants must have a bachelors degree in science, psychology, medicine, pharmacy, nursing or another appropriate discipline. Applicants must also have at least one year's work experience in a health-related field or an honours degree in mathematics or statistics and an aptitude for advanced mathematical study. MPH1041 (Introductory biostatistics) or equivalent is a prerequisite.	19,500
<p>Graduate Certificate in Biostatistics</p> <p>See above</p>	3420	Alfred	1 year part-time	1, 2	Applicants must have a bachelors degree in science, psychology, medicine, pharmacy, nursing or another appropriate discipline. Applicants must also have at least one year's work experience in a health-related field or an honours degree in mathematics for statistics and an aptitude for advanced mathematical study. MPH1041 (Introductory biostatistics) or equivalent is a prerequisite.	9750 Total course fee
<p>Master of Child Psychoanalytic Psychotherapy</p> <p>The aim of this course is to provide the professional skills required to undertake the assessment and psychotherapy of children, adolescents and parents who present with emotional and behavioural difficulties. The course is relevant to professionals working in the field and is primarily for clinicians who wish to work as Child Psychotherapists. Studies are also undertaken for candidates to understand the issues of research methodology in the field and to contribute to the body of knowledge. The course comprises six coursework units, which include seminars, case conferences, normal observations and clinical supervision. A thesis is also required.</p>	0203	Clayton	4 years part-time	1, 2	Applicants for this course must have a primary undergraduate degree in a relevant area; a medical degree, a degree in the health sciences, a degree with a psychology major or an education degree. Applicants also need a minimum of two years practice in their graduated field and should be continuing to work in a situation that offers the opportunity to evaluate and treat children, adolescents and parents.	13,800

MEDICINE, NURSING AND HEALTH SCIENCES						
Course	Code	Campus	Duration full-time/part-time	Intake	Entry requirements	2011 fee AS
<p>Master of Clinical Embryology</p> <p>This 12-month, intensive course provides students with the essential postgraduate knowledge and practical skills necessary to contribute competently to human infertility clinical services. Theoretical and practical skills are presented in the broad context of the regulations and the ethical considerations that apply to human IVF, both nationally and internationally, along with the quality control procedures required to ensure maximum success for IVF patients. The guidelines, protocols and regulations that steer and control human infertility services are also presented. In addition to attending lectures and self-directed study, students are required to undertake continual practical skills training and also students will undertake a minor research project. Students will not only be equipped with practical skills required for work in an IVF laboratory but also gain a greater understanding of research applications within the field of reproductive or developmental biology. Research-related tasks contribute to the overall assessment for specific coursework units.</p>	2309	Clayton, off-campus	1/2	1, 2	<p>Students should have a medical degree, veterinary science degree, Bachelor of Science degree (with honours - first class or upper second class) or the equivalent professional experience in embryology or reproductive biology gained following a pass degree.</p> <p><i>The number of units in this course would normally take 1.5 years, but this is an intensive course completed over the period of one year. Therefore you will be paying fees which will be calculated for the 1.5 years and payable in the one year period.</i></p>	31,500 Total course fee
<p>Master of Clinical Midwifery</p> <p>The Master of Clinical Midwifery offers students the ability to customise elements of their learning to meet their individual personal, professional and midwifery community needs. The course is designed to provide higher degree studies to registered midwives.</p>	3565	Peninsula	1.5/3	1, 2	<p>Applicants should normally hold a Bachelor and/or Graduate Diploma of Midwifery. Applicants who hold a Certificate of Midwifery and who satisfy minimum standards for university entry will be required to undertake the following graduate diploma units (MID5006 and MID5007) prior to progressing to the masters course. Applicants must be employed part-time or full-time in a clinical setting that provides midwifery care to women.</p>	16,500
<p>Graduate Diploma of Midwifery</p> <p>This course is designed to prepare students with the theoretical and practical knowledge and skills necessary to practise midwifery in a multidisciplinary context. Students are exposed to a wide variety of perspectives and environments in order to help them develop the ability to think critically about the role of the midwife in the maternity care setting.</p>	1240	Clayton, Gippsland	2 years part-time	1, 2	<p>Students must have a bachelors degree, a current registered nurse practising certificate and at least one year of professional clinical experience. Affiliated hospitals provide employment and clinical support. Students are required to apply directly to the hospital to secure their position in the course.</p>	16,500
<p>Master of Clinical Research Methods</p> <p>Clinical epidemiology attempts to answer questions relevant to the daily practice of medicine and other health sciences and to improve patient care. This course assists health professionals to make rational evidence-based decisions in clinical practice and undertake small clinical research projects. It focuses on individuals or groups of patients in clinical settings. Above all, graduates should be able to critically evaluate their own efforts and the efforts of others towards the achievement of better health outcomes. Students may exit from the course with the Graduate Diploma in Clinical Research Methods (0702) or the Graduate Certificate in Clinical Research Methods (3416). Students who successfully complete the research stream and achieve an overall average of HD may progress to a PhD or other Higher Degree by Research.</p>	2311	Alfred, off-campus	1.5/3	1, 2	<p>Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. The department will individually assess applications from students without a degree who have extensive professional experience.</p>	18,100
<p>Graduate Diploma in Clinical Research Methods</p> <p>See above</p>	0702	Alfred	1/2	1, 2	<p>Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. Master of Family Medicine This course provides general practitioners with research and teaching skills to equip them for potential careers in academic general practice. It also broadens their knowledge and skills in areas relevant to general practice. Students may be eligible to exit from the masters with the Graduate Diploma in Family Medicine (1759).	0099	Clayton	2/4	1, 2	Applicants must have a minimum of two years postgraduate experience and be currently registered by the medical board in their respective state, or have a qualification which is eligible to be registered in a state of the Commonwealth. Preference will be given to applicants currently employed and who have been active in general practice for a minimum of two years.	18,100
Graduate Diploma in Family Medicine See above	1759	Off-campus	2 years part-time	1, 2	Applicants must have a minimum of two years postgraduate experience and be currently registered by the medical board in their respective state, or have a qualification which is eligible to be registered in a state of the Commonwealth. Preference will be given to applicants currently employed and who have been active in general practice for a minimum of two years.	18,100 
Master of Family Medicine (Clinical) This is one of a suite of courses aimed at general practitioners wishing to expand their current knowledge and skills. The course provides general practitioners with the opportunity to master their clinical and teaching skills within a general practice setting. Students may exit the masters with the Graduate Diploma in Family Medicine (1759) if the requirements of the diploma have been met.	2677	Clayton, off-campus	1.5/3	1, 2	Applicants must have a minimum of two years postgraduate experience and be currently registered by the medical board in their respective state, or have a qualification which is eligible to be registered in a state of the Commonwealth. Preference will be given to applicants currently employed and who have been active in general practice for a minimum of two years.	18,100 
Master of Forensic Medicine Clinical forensic medicine is at the interface of medical practice and the law. It is emerging as an increasingly specialised area within the wider field of forensic medical practice. The need for more formal training in clinical forensic medicine has been recognised by justice organisations for some years. Students may be eligible to exit from the Masters with a Graduate Diploma in Forensic Medicine or a Graduate Certificate in Forensic Medicine.	3412	Off-campus	3 years part-time	1, 2	Applicants must: <ul style="list-style-type: none"> ■ Be a graduate with the degree of Bachelor of Medicine/Surgery or Bachelor of Dentistry in an Australian University; or ■ Have qualifications which, in the opinion of the Faculty Board, are equivalent to or are a satisfactory substitute for the qualifications described above; and ■ Have at least 3 years experience in clinical or dental practice. 	18,100 
Master of Health Professional Education This program is designed for health professional educators wishing to study contemporary evidence-based educational practices and to undertake high quality educational coursework and/or research. The course can be undertaken in one of three ways, each of which commences with the Graduate Certificate in Health Professional Education (or an approved equivalent) plus: a further 48 credit points of coursework units; a further 24 credit-points of coursework units and a 24 credit point thesis; a further 12 credit points of coursework units and a 36 credit point thesis. Students who successfully complete the research stream and achieve an overall average of HD may progress to a PhD or other Higher Degree by Research	3860	Notting Hill, off-campus	1.5/3	1, 2	Applicants must be graduates from any health related or education profession who are currently engaged in teaching or educational development in or of the health related disciplines. Applicants must complete the Graduate Certificate in Health Professional Education (or an approved equivalent) before proceeding to the masters program.	18,100 
Graduate Certificate in Health Professional Education See above	3413	Off-campus	1 year part-time	1, 2	Applicants should be actively engaged in health professional education, with a 3 year bachelors degree or diploma in their relevant discipline (eg. in medicine, nursing, dietetics, radiography, psychology, social work, pharmacy, paramedical studies etc.). Applicants without the relevant qualifications should be able to demonstrate equivalent substantial professional experience.	9050 Total course fee 
Master of Health Services Management Management of health services is engaging clinicians and health professionals, as responsibility for the delivery of effective and efficient health care has become more important. This course provides management training tailored to the specific needs of health care professionals with, or aspiring to, clinical management roles as well as for managers with non-clinical backgrounds. Students may be eligible to exit from the Masters with the Graduate Diploma in Health Services Management (2314) or the Graduate Certificate in Health Services Management (2870).	2872	Alfred	1.5/3	1, 2	Students must have an undergraduate degree in an appropriate discipline and relevant professional experience. The department will individually assess applications from students without a degree who have extensive professional experience.	18,100
Graduate Diploma in Health Services Management See above	2314	Alfred	1/2	1, 2	Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. The department will individually assess applications from students without a degree who have extensive professional experience.	18,100
Graduate Certificate in Health Services Management See above	2870	Off-campus	1 year part-time	1, 2	Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. The department will individually assess applications from students without a degree who have extensive professional experience.	9050 Total course fee 
Master of International Health This course provides participants with the skills necessary to design, implement and evaluate major public health programs in developing countries. Australian expertise in health program design, management and evaluation is sought after and course content is informed by actual field experiences gained by the MacFarlane Burnet Institute for Medical Research and Public Health in their wide range of health development projects in more than 20 countries in Asia, the Pacific and Africa. Students learn about human rights, ethics, law and development. Public health issues are presented in the broader context of economic and social development, stressing cultural, political, gender and environmental influences, and the impact of armed conflict and population migration. Students may be eligible to exit from the Masters with the Graduate Diploma in International Health (1884).	3874	Alfred	1.5/3	1, 2	Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. The department will individually consider applications from students without a degree who have extensive professional experience.	18,100 
Graduate Diploma in International Health See above	1884	Alfred, off-campus	1/2	1, 2	Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. <p>Master of International Research Bioethics</p> <p>Particular emphasis is given to ethical issues associated with research in developing countries in the Asia-Pacific Region. Students gain a strong theoretical framework, significant experience with ethics committees and considerable involvement with local organisations concerned with the development of bioethical policy and its implementation. This interdisciplinary program covers comparative moral theory, research bioethics in an international setting, quantitative and qualitative research methodology, critical appraisal techniques and relevant law. Students may be eligible to exit from the Masters with a Graduate Certificate in International Research Bioethics (3873).</p>	3440	Alfred	1/2	1, 2	<p>Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. The department will individually assess applications from students without a degree who have extensive professional experience. International applicants wanting to be considered for a fully funded place must be working in low or middle income countries in the Asia-Pacific region and be in a position to contribute to the strengthening of health research ethics policy and processes in their country after the course. These applicants MUST supply with their application: a curriculum vitae; professional references; a personal statement outlining reasons for wanting to do the course, including the relevance of research bioethics to the applicants' future career path; a letter of support from institution or employer expressing commitment to leave employment open for the duration of the course, and to ensure that on the students return their role in the organization will involve research bioethics.</p> <p><i>The number of units in this course would normally take 1.5 years, but this is an intensive course completed over the period of one year. Therefore you will be paying fees which will be calculated for the 1.5 years and payable in the one year period.</i></p>	27,150 Total course fee
<p>Graduate Certificate in International Research Bioethics</p> <p>See above</p>	3873	Alfred	1 year part-time	1, 2	<p>Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. The department will individually assess applications from students without a degree who have extensive professional experience.</p>	9050 Total course fee
<p>Master of Medical Radiations</p> <p>This is a graduate entry-to-practice course in Medical Radiations that offers stream specific study in the disciplines of Medical Ultrasound and Radiation Therapy. The professional Masters degree provides graduates interested in Medical Radiations, with the academic, clinical and professional framework that will enable them to be employed in their chosen discipline as competent and qualified Medical Sonographers or Radiation Therapists in both the public and private health sector. This is the only graduate entry course offered in Australia by distance learning, and it may be available for study to interstate students in their home state. As an intensive course it will accelerate entry into the Medical Radiations professions. The course is designed to be completed in two years.</p>	3889	Off-campus	2 years part-time	1, 2	<p>Applicants will:</p> <ul style="list-style-type: none"> ■ Have obtained at least a credit average in a demonstrated course sequence in either biomedical or physical sciences; ■ Be able to provide evidence of a capacity to successfully engage in radiation physics and mathematics; ■ Have successfully passed two sequential units of University level human anatomy and physiology, or an equivalent bridging course; and ■ Either have passed year 12 physics at a satisfactory level or have successfully passed two sequential units of University level physics, or equivalent bridging course: <p>Details of equivalent bridging courses in physics and anatomy and physiology can be obtained from radiation.sciences@med.monash.edu.au.</p> <p>Applicants holding degrees in other science/health disciplines will be assessed on a case by case basis by the Department of Medical Imaging and Radiation Sciences.</p> <p>Suitably qualified international students wishing to undertake the Master of Medical Radiations in their country of residence must satisfy the Department of Medical Imaging and Radiation Sciences in respect to the appropriateness of their clinical supervision.</p>	18,100
<p>Master of Medical Ultrasound</p> <p>This course is aimed at health care professionals who are working in clinical ultrasound for a minimum of three days per week and who wish to develop proficiency in the provision of medical ultrasound and further training in the area of medical ultrasound research.</p> <p>The course is structured to enable exit at:</p> <p>Graduate Certificate in Medical Ultrasound Graduate Diploma in Medical Ultrasound Master of Medical Ultrasound</p> <p>The Graduate Certificate introduces the student to the introductory concepts of ultrasound and then enables a focus in a particular branch of clinical ultrasound. A Graduate Diploma is required to obtain accreditation with the Australasian Sonographer Accreditation Registry (ASAR). The Masters extension of the program enables development of advanced practice and research skills. The course resources are mainly provided on-line.</p>	3433	Off-campus	3 years part-time	1, 2	<p>Applicants will generally be graduates of a degree program in radiography and medical imaging or equivalent. Applicants holding degrees in other related areas (such as medicine, nursing, biomedical sciences, radiation therapy, nuclear medicine or other health sciences) will be assessed on a case-by-case basis by the Department of Medical Imaging and Radiation Sciences. Prior to admission to the clinical ultrasound units (from Second Semester onwards), applicants must provide evidence verifying that they are actively engaged in supervised clinical ultrasound for the equivalent of at least three days a week. The university does not accept any responsibility for finding clinical placements.</p>	16,500
<p>Master of Nursing</p> <p>This course prepares advanced practice nurses with leadership skills to plan, implement, coordinate and evaluate health care, as well as formulate policy for a diverse and multicultural society. Graduates will be well equipped to contribute to the health of individuals, families, communities and the development of the profession. The program is designed using flexible teaching delivery options and provides for a range of individual career pathways, including nursing or management positions within industry, government or independent professional practice. Early exit options at Graduate Certificate and Graduate Diploma are available.</p>	1250	Berwick, Clayton, Gippsland, Peninsula	1.5/3	1, 2	<p>Students should have a Bachelor of Nursing or equivalent with a high level of achievement, and relevant registration (eg Registered Nursing with Nursing and Midwifery Board of Australia) or equivalent. Applicants who wish to undertake some clinical streams of study will be required to have full registration with the Nursing and Midwifery Board of Australia and appropriate clinical employment in an approved clinical agency. Applicants must meet the University English Language Requirements.</p>	16,500
<p>Master of Nursing Practice</p> <p>The Master of Nursing Practice will provide a professional nursing qualification for individuals who have previously successfully completed an undergraduate degree. This program builds on prior knowledge and skills and facilitates the development of professional nursing practice through engagement with expert clinical nurses, contemporary nursing theory and evidence.</p>	3966	Clayton	1.8 years full-time	1, 2	<p>To be eligible for admission into the Master of Nursing Practice (graduate entry) an individual will have an undergraduate degree (for example a BSc or BA) from a recognised university. In addition, applicants will need to demonstrate evidence of previous tertiary level study of a minimum of one 6cp unit of study in human biology* or a related area.</p> <ul style="list-style-type: none"> ■ One 6cp unit of human biology from any recognised tertiary institution or the Monash Human Biology short course which has been assessed as equivalent to this requirement. Special application requirements <p>Students who have studied in a language other than English will need to meet an IELTS level of 7.0 in each of the 4 bands.</p> <p>Students are required to take units over summer semester to complete this course in one and a half years.</p>	18,100

MEDICINE, NURSING AND HEALTH SCIENCES						
Course	Code	Campus	Duration full-time/part-time	Intake	Entry requirements	2011 fee A\$
Master of Occupational and Environmental Health Industry, government and communities are becoming increasingly concerned about the high human and economic impact of workplace injury and disease and the potential for industrial activity to affect the health of the community. Trained occupational health professionals and OHS managers are required to provide expert advice and to develop preventative programs to reduce this toll. This course is particularly suitable for medical practitioners, nurses, allied health personnel, scientists and occupational health and safety managers. The degree is recognised by the Australasian Faculty of Occupational Medicine and the Australian College of Occupational Health Nurses. Students may be eligible to exit from the Master with the Graduate Certificate in Occupational Health (2868) or the Graduate Diploma in Occupational and Environmental Health (0160).	2312	Alfred, off-campus	1.5/3	1, 2	Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. The department will individually assess applications from students without a degree who have extensive professional experience.	19,500
Graduate Diploma in Occupational and Environmental Health See above	0160	Alfred, off-campus	1/2	1, 2	Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. The department will individually assess applications from those without a degree who have extensive relevant professional experience.	19,500
Graduate Certificate in Occupational Health See above.	2868	Off-campus	1 year part-time	1, 2	Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. The department will individually assess applications from students without a degree who have extensive relevant professional experience.	9750 Total course fee
Master of Psychological Medicine This is a three-year part time course open to medical practitioners with an identified interest in working with patients with mental illness. The course is designed to encourage the student to explore the theoretical concepts in psychiatry and their relationship to clinical practice. The seminar format of the course, led by a facilitator/lecturer, encourages student participation, self-directed learning, problem solving and the integration of theory with clinical practice.	0045	Clayton	3 years part-time	1, 2	Applicants must be registered medical practitioners currently engaged in psychiatric practice, clinical training in psychiatry or with an interest in psychiatry.	12,768
Master of Public Health This 12-unit course provides students with the full range of quantitative, analytical and communication skills necessary to work in the broad domain of public health. It especially focuses on developing skills in the quantitative methods of the population-based health sciences and their problem-solving application for primary care provision both in Australia and for developing countries. Health specialisation streams are offered in clinical epidemiology, clinical research, health economics, health services management, international health, occupational and environmental health and research.	0046	Alfred	1.5/3	1, 2	Applicants must have an undergraduate degree in an appropriate discipline and relevant professional experience. The department will individually consider applications from students without a degree who have extensive professional experience.	19,500
Master of Social Work The course provides an opportunity for human service and welfare professionals to enhance and develop their professional skills and knowledge and to make links between practice in the field and new academic knowledge and theory. It aims to provide for the needs of managers and policy developers as well as social workers or others involved directly with clients. Students can choose to specialise in management and policy development or in social work practice with clients.	0019	Caulfield	1/2	1, 2	For entry to the degree, students must have a Bachelor of Social Work, or other equivalent, relevant degree, with a credit average which enables them to be eligible for membership of the Australian Association of Social Workers or the equivalent professional organisation in the country where they completed this qualification. Relevant work experience will also be considered.	16,500
Master of Social Work (Forensic Studies) The MSW (Forensic Studies) degree provides an opportunity for social work and human service professionals who have already completed a four year undergraduate degree in the social services field to enhance and develop specific knowledge and skills in forensic studies to more effectively work in the areas of mental health, child protection, disability, corrections, drug and alcohol.	3972	Off-campus	1.5/3	1, 2	Admission to the MSW (Forensic Studies) requires a four year degree in the social sciences.	15,400
Master of Social Work (Qualifying) The MSW (Qualifying) curriculum meets the Australian Association of Social Workers (AASW) requirements and builds on Monash Social Work areas of strength, especially in gender studies, sustainability, child wellbeing and health. The degree includes considerable emphasis on community engagement and leadership, and provides opportunities to work with organisations to complete projects and research. The MSW (Qualifying) is a coursework degree with theoretical, skills development and supervised professional practice units. The course provides opportunities for group-based research and integration of theory and practice. Theoretical content builds on knowledge acquired by graduates in previous higher education, while social work skills components and professional practice units introduce students to contemporary social work practice.	3969	Caulfield, off-campus	2/4	1, 2	Applicants must have successfully completed an undergraduate degree at a recognised University. The AASW also requires applicants for social work courses to have completed undergraduate studies of the individual and society prior to their entry into a social work degree. The Monash Department of Social Work stipulates that prerequisite undergraduate studies must include the successful completion of two semesters in studies of the individual and two semesters in studies of society. Studies of the individual would include units in psychology, human development, genetics, personality, psychopathology, or studies of individual theorists in these areas. Studies of society include subjects like sociology, anthropology, philosophy, history, gender studies, politics, and multicultural studies. A test of relevance will be applied in the sense that these studies would need to be relevant to the practice of contemporary Social Work. If the number of applicants exceeds the number of places available, past academic standing will be a factor in selection.	16,500
Graduate Diploma in Child Psychotherapy Studies This two year, part-time off-campus course is tailored for health, welfare and education professionals working with children and adolescents with emotional and behavioural problems who wish to upgrade and develop their skills and understanding in the area. It aims to increase the participants' knowledge of psychoanalytic and developmental theory and the application of these to the treatment of children and adolescents with emotional and behavioural difficulties, and to consider how this knowledge may be applied in their own workplace. This course does not provide specialist clinical training.	2281	Off-campus	2 years part-time	1, 2	Applicants must have a medical degree, a degree in the health sciences, a degree with a psychology major or an education degree at a pass level from an approved tertiary institution, or qualifications and/or experience which is equivalent.	13,800
Graduate Diploma in Forensic Behavioural Science The Graduate Diploma in Forensic Behavioural Science has been developed to enhance the knowledge and skills of professionals working with people displaying offending and other antisocial behaviours, with a particular focus on mental health issues. The program content has been developed and is delivered by experts in the field from a range of disciplines, including forensic psychiatry, psychology, nursing, bioethics and law. Students may exit with the Graduate Certificate in Forensic Behavioural Science (3886) providing all requirements for that award have been completed.	3887	Off-campus	2 years part-time	1, 2	Applicants must have a minimum of a three year bachelors degree (or equivalent) and at least one year of postgraduate study or one year minimum of relevant work experience.	16,500
Graduate Certificate in Forensic Behavioural Science See above	3886	Off-campus	1 year part-time	1, 2	Applicants will require a minimum of a three year bachelors degree (or equivalent) and at least one year of postgraduate study or a minimum of one year of relevant work experience.	8250 Total course fee

MEDICINE, NURSING AND HEALTH SCIENCES							
Course	Code	Campus	Duration full-time/part-time	Intake	Entry requirements	2011 fee A\$	
Graduate Diploma in Mental Health for Teaching Professions This is a recommended professional development program for teachers. The course focuses on the central role of the teacher in the development of optimal mental health in the school population. The course aims to provide teaching and allied staff with both theoretical and practical information on mental health and emotional development together with practical instruction on the use of such understanding in the classroom and in school settings. The two-year structure provides a basic understanding of mental health issues on which specialised counselling and group dynamic skills can be based.	3561	Off-campus	2 years part-time	1, 2	Applicants must have an undergraduate Bachelor of Education, Psychology or equivalent degree.	13,100	OC
Graduate Diploma in Mental Health Sciences - Community Mental Health This course is directed towards health care professionals working within the mental health and psychiatric disability fields, or professionals whose work has significant direct contact with people with psychiatric disabilities, and who wish to upgrade and develop their skills and knowledge in contemporary community mental health practice. Applicants are preferred who have a degree or major studies in mental health, psychiatry, medicine, psychology, nursing, social work, physiotherapy, occupational therapy or other allied health-related disciplines.	1976	Off-campus	2 years part-time	1, 2	Applicants must hold a degree or major studies in psychiatry, medicine, psychology, nursing, social work, physiotherapy, occupational therapy or other allied health-related disciplines.	13,800	OC
Graduate Diploma in Reproductive Sciences The course provides a broad knowledge and practical training in the applications of reproductive biology to current human clinical and veterinary medicine, and explores social and ethical issues raised by the use of these techniques. The course also provides an opportunity for those interested in expanding or refreshing their understanding of reproduction and development to update their knowledge. On completion of the course, students will be able to demonstrate a thorough theoretical understanding of human and animal reproductive sciences and demonstrate practical techniques currently in use in human medical and veterinary reproductive sciences. Students who pass all units for this course and achieve an overall grade average of distinction (70 per cent) or above may qualify for admission into higher degrees by research (HDR).	0101	Clayton	1/2	1, 2	Students require a bachelors degree in nursing or biological, medical, paramedical, agricultural or veterinary sciences, or equivalent qualifications or experience in the reproductive sciences gained after completing a pass degree in another field. (BSc should include a major field of study in: anatomy, biology, biochemistry, genetics, pharmacology, physiology, microbiology, immunology or zoology).	16,500	
Graduate Certificate in Clinical Simulation This course is designed to meet the unique requirements of teachers working in health professions education using simulation as an educational modality. The course enables participants to develop their teaching, curriculum design and program evaluation skills in interprofessional settings and addresses the medical, psychosocial, technical and organisational elements unique to simulation education. Participants will also develop their working knowledge of educational theories as they apply to their simulation education roles.	3973	Off-campus	1 year part-time	1, 2	This course is available to graduates with a minimum three-year health science or education degree or equivalent.	9050 Total course fee	OC
Graduate Certificate in Medical Acupuncture This course is designed for general practitioners who wish to incorporate medical acupuncture into their general practice. They will gain an understanding of the history and philosophy of acupuncture and its interlocking role in modern medical care. They will acquire the skills to address the facets of illness that are important in an acupuncture diagnosis and be able to begin practicing medical acupuncture with confidence on their own patients in appropriate clinical conditions. Non-pharmacological pain management strategies are also covered. The program is supported by the Australian Medical Acupuncture College.	2678	Off-campus	1 year part-time	1, 2	Applicants must have a minimum of two years postgraduate experience and be currently registered by the medical board in their respective state, or have a qualification which is eligible to be registered in a state of the commonwealth. Preference will be given to applicants who are currently employed and have been in active general practice for a minimum period of two years.	9050 Total course fee	OC
Graduate Certificate of Nursing (Forensic) This course aims to assist those who have had experience in the area of forensic nursing and who wish to pursue professional development in the field. Areas covered are forensic knowledge and nursing responsibilities in forensic cases; clinical consultations with victims of crime and offenders; medicolegal report writing and provision of evidence in court; theoretical and cultural aspects of interpersonal violence.	3884	Off-campus	1 year part-time	1, 2	Applicants must have a Bachelor of Nursing degree or equivalent; Division 1 registration with the Nurses Board of Australia (or eligibility for registration); and at least one year of professional clinical experience or training in: emergency, midwifery, sexual health, venereology, family planning or women's health.	10,500 Total course fee	OC

Pharmacy and Pharmaceutical Sciences at a glance

- **Research success:** Monash researchers make important contributions that bring real change to people's lives across the globe, including drug development to combat influenza, malaria and cancer.
- **Links with industry:** The faculty is a major player in the Australian health care, pharmaceutical and biomedical community. Strong links exist with the pharmacy profession and other research groups.
- **World-class facilities:** Students have access to innovative learning technology, flexible delivery modes, modern laboratories, first-rate research equipment and an extensive specialist library.

RESEARCH EXCELLENCE

Research students completing a higher degree by research with the Faculty of Pharmacy and Pharmaceutical Sciences have the opportunity to work with world class researcher in the Monash Institute of Pharmaceutical Science (MIPS) or the Centre for Medicine Use and Safety (CMUS).

MIPS is the largest and most experienced group of pharmaceutical scientists in Australia. In the recent Excellence in Research for Australia assessment, Monash scored top marks for its research in the fields of pharmacology and pharmaceutical sciences, and nanotechnology. These results are impressive news for the faculty and MIPS whose strategic focus is concentrated in

these fields. Medicinal and biomolecular chemistry, another of the faculty's focuses, also scored highly at 4/5.

CMUS looks at new models and systems of healthcare practice. It aims to make the use of medicines as safe and effective as possible. CMUS has two major research nodes – one within the faculty and the other located in the Department of Pharmacy at The Alfred hospital. Researchers have excellent access to multidisciplinary research collaborators. They are in an ideal position to address issues around medicine use and safety across all sectors – the home, the broader community, hospitals, residential aged care facilities and the interfaces between these sectors

At the forefront of postgraduate pharmacy education and research in Australia, Monash University believes in lifelong learning. As a founding member of the National Alliance for Pharmacy education, Monash is dedicated to assisting pharmacy professionals to develop the knowledge and skills required for professional excellence and career advancement.

Research degrees						
Doctor of Philosophy Monash's pharmacy and pharmaceutical sciences research is internationally renowned. The Faculty of Pharmacy and Pharmaceutical Sciences' research students have access to dedicated research buildings, modern laboratories, an extensive library and first-rate research equipment. The faculty offers research programs in the areas of <ul style="list-style-type: none"> ■ drug candidate optimisation ■ drug discovery biology ■ drug discovery, disposition and dynamics ■ medicinal chemistry and drug action ■ medicine use and safety. Research students are supervised by leading international experts in the field, and the research conducted by research graduates is highly regarded within Australia and internationally. The faculty has established a strong reputation with industry, both nationally and internationally, and acts as a resource for industry and research institutes involved in the pharmaceutical and biomedical sciences. The PhD program is offered to elite applicants with high academic standing, normally a Masters degree or an honours degree at H1 or H2A level in a relevant discipline.	2625	Off-campus (Parkville)	4/8	1, 2	Qualifications and experience equivalent to a bachelors degree in pharmacy, pharmaceutical science, science or other relevant field at a level of honours 1 or 2A from a recognised tertiary institution. or Or a masters degree in pharmacy or relevant field. Students will also need to provide details of publications in refereed journals, conference abstracts and reports or relevant research experience that demonstrates research proficiency.	RTS
Master of Pharmaceutical Science See Doctor of Philosophy	2627	Parkville	2/4	1, 2	Qualifications and experience equivalent to a bachelors degree in pharmacy, pharmaceutical sciences, science or other related field at a level of honours 1, 2A or 2B from a recognised tertiary institution.	RTS
Coursework degrees						
Master of Pharmacy Practice The Master of Pharmacy Practice is designed to enable registered pharmacists to develop a deep and more specialised range of attributes than those acquired in the undergraduate pharmacy course. The Master of Pharmacy Practice is 100 per cent coursework.	3467	Off-campus (Parkville)	4 years part-time (This course is normally completed in 2-3 years. However students have a maximum of 4 years to complete.)	1, 2	A degree or equivalent qualification in pharmacy. Applicants must be registered by the Pharmacy Board of Australia. International students residing overseas must be registered as pharmacist in their home country.	19,100
Graduate Certificate in Pharmacy Practice (Internship) The Graduate Certificate in Pharmacy Practice (Internship) assists pharmacy graduates in making the transition from student to independent, competent professional. This course is for graduates who have completed their Bachelor of Pharmacy and are undertaking their internship year. The course has a very practical focus that helps interns consolidate and build upon the knowledge and skills gained as an undergraduate and apply these to their practice as a pharmacist. The Graduate Certificate Pharmacy Practice (Internship) is an approved course of study for the purpose of registration by the Pharmacy Board of Australia.	3460	Multi-mode (Parkville)	2 years part-time (This course is normally completed in 2 years. However students have a maximum of 3 years to complete.)	1, 2	A degree or equivalent qualification in pharmacy from Australia or New Zealand. Overseas applicants must have completed APEC (Australian Pharmacy Examining Council) requirements. Applicants must have an internship position and preceptor approved by the Pharmacy Board of Australia. Registration as an Intern Pharmacist with the Pharmacy Board of Australia is required on enrolment in this program. Students who fail to gain Intern Pharmacist Registration, or who have their registration rescinded during the program, will be unable to continue in the program.	9550 Total course fee
Graduate Certificate in Pharmacy Practice The Graduate Certificate in Pharmacy Practice is designed for registered practicing pharmacists and allows students to develop further knowledge and skills in a range of pharmacy practice-related areas, providing an great opportunity for ongoing professional development at the same time as earning an additional qualification.	3468	Off-campus (Parkville)	2 years part-time (This course is normally completed in 1-1.5 years. However students have a maximum of 3 years to complete.)	1, 2	A degree or equivalent qualification in Pharmacy. Applicants must be registered by the Pharmacy Board of Australia. International students residing overseas must be registered as pharmacist in their home country.	9550 Total course fee
Master of Clinical Pharmacy The Master of Clinical Pharmacy provides pharmacists working in clinical settings with the opportunity to develop their skills in evidence-based practice, quality use of medicine, practice-based research and the provision of high-level clinical pharmacy services. Areas of study include biostatistics, epidemiology, theory and practice of evidence-based medicine, interpretation of clinical data and pharmacotherapy and clinical research.	3454	Multi-mode (Parkville)	2 years part-time (This course is normally completed in 2 years. However students have a maximum of 4 years to complete.)	1 The Master of Clinical Pharmacy has an intake every two years. The next intake for this course is in 2013 and then 2015. Applications are due in November 2012 and 2014. See www.pharm.monash.edu.au/courses for more information.	The course is open to pharmacists registered to practice in Australia, who are currently working in a clinical setting in an Australian Hospital. Applicants with a four-year undergraduate degree will be eligible at the end of their internship year. Those with a three-year undergraduate degree will be eligible following a period of clinical experience. In the event of a surplus of applicants, selection may be via an interview process.	19,100
Master of Wound Care Wound care can be critical to patient recovery, and the preventative aspects of wound care management are gaining increasing prominence in areas such as aged care. Monash's wound care programs assists health professionals to upgrade their qualifications in this speciality area. Students have the opportunity to undertake electives relevant to their area of practice. The course is designed to provide the knowledge and skills necessary to enable health professionals to effectively manage acute and chronic wounds.	2985	Off-campus (Parkville)	4 years part-time (This course is normally completed in 4 years. However students have a maximum of 5 years to complete.)	1, 2	A degree or equivalent qualification in pharmacy, podiatry, medicine, nursing or related discipline and at least two years relevant clinical experience. Division 1 Registered Nurses who do not have a degree but can demonstrate extensive relevant clinical experience will be considered for admission.	19,100
Graduate Diploma in Wound Care See Master of Wound Care	2984	Off-campus (Parkville)	2 years part-time (This course is normally completed in 2 years. However students have a maximum of 4 years to complete.)	1, 2	A degree or equivalent qualification in pharmacy, podiatry, medicine, nursing or related discipline and at least two years relevant clinical experience. Division 1 Registered Nurses who do not have a degree but can demonstrate extensive relevant clinical experience will be considered for admission.	19,100
Graduate Certificate in Wound Care See Master of Wound Care	2982	Off-campus (Parkville)	1.5 years part-time (This course is normally completed in 1-1.5 years. However students have a maximum of 3 years to complete.)	1, 2	A degree or equivalent qualification in pharmacy, podiatry, medicine, nursing or related discipline and at least two years relevant clinical experience. Division 1 Registered Nurses who do not have a degree but can demonstrate extensive relevant clinical experience will be considered for admission.	9550 Total course fee

A formidable combination

The Faculty of Science has more than 400 research academics, fellows and students. Our expertise, tradition and achievements are formidable in the higher education system and make a significant contribution to the advancement of science within Australia.

We have five schools (Biological Sciences, Chemistry, Geosciences, Mathematical Sciences and Physics) strategically located at the heart of the Clayton science and technology precinct and two externally-located schools in Gippsland and Sunway, Malaysia, with more regional interests.

We host five cross-disciplinary research centres that are affiliated with other research centres within Australia. Our research centres are supported by state-of-the-art equipment, including the Australian Synchrotron, and have strong research links with the CSIRO, local businesses and industry, and a range of government authorities.

GENEROUS AND GUARANTEED SCHOLARSHIP OPPORTUNITIES.

The Faculty of Science Dean's Postgraduate Research Scholarship Scheme provides funding support to all eligible, newly commencing students in a higher degree by research (Doctor of philosophy, Master of Philosophy, Master of Science).

There are two scholarship types available within this scheme:

- Faculty of Science Dean's Postgraduate Research Scholarship – provides a living allowance matching the Australian Postgraduate Award.
- Faculty of Science Dean's International Postgraduate Research Scholarship – covers the cost of international tuition fees and Overseas Student Health Cover.

For details of these opportunities, visit www.sci.monash.edu.au/postgrad/scholarship.html

We also offer a range of research funding and support schemes for early career researchers, postdoctoral academics and fellows, and women in research.

Science at a glance

- **Leader in science:** we have a clear focus and enviable reputation for research achievements in biology, chemistry, earth sciences, mathematics and physics.
- **Research hub:** Home to a number of world-class research centres with links to industry, the CSIRO, and other Australian and international research institutions.
- **World-class programs:** The faculty has outstanding postgraduate research programs that are competitive with the best national and international equivalents.
- **Conducive to learning:** With world-class facilities and support services in a broad range of research areas, Monash is committed to providing a stimulating and supportive professional environment for its postgraduate students.
- **International reputation:** The faculty is home to many internationally respected scientists including three Federation Fellows.

Applicants who do not meet the the eligibility requirements may apply for admission into Master of Science Preliminary, a course of study undertaken as preparation for admission to the full Master of Science program. Applicants must also satisfy Monash University's minimum English language proficiency requirements for admission to this research degree.	RTS

Research strengths

- Ecology and conservation biology
- Evolutionary and behavioural biology
- Developmental genetics
- Plant genetics and biotechnology
- Sustainable and green chemistry
- Environmental and analytical science
- Synthetic inorganic and organic chemistry
- Biological and medicinal chemistry
- Materials chemistry
- Geodynamics, volcanology and ore deposits
- Geospatial imaging and environmental geoscience
- Geophysical methods and analysis
- Palaeobiology through Earth history
- Algebra and discrete mathematics
- Analysis and geometry
- Astrophysics and general relativity
- Atmospheric science and geophysical fluid dynamics
- Statistics and stochastic processes
- Condensed matter physics
- Optics and diffraction physics
- Synchrotron science, x-ray physics and imaging
- Theoretical and computational physics

Admission and application

How to apply

www.adm.monash.edu/admissions

There are different steps and procedures for coursework and research as well as for domestic and international students. In broad terms, research degrees are administered by the Monash Research Graduate School while coursework studies are administered by the faculties.

Research application procedures

Applying for a research degree at Monash University has never been easier. Our research degree application website at, www.monash.edu/study/research will provide you with everything you need to know about, academic entry and English eligibility requirements, finding a supervisor, scholarships available for research degree candidates and the online application form which you will need to be submitted.

To begin the process of becoming a postgraduate researcher, prospective candidates need to think about possible research projects and topics that align with their interests, qualifications and experience.

You will be required to submit a research proposal as part of your application and should start developing this as soon as you have some idea of your research topic. The type of information that should be included in an initial proposal includes,

1. What is the topic area?
2. What has motivated your interest in this particular area?
3. What field or fields of knowledge does it engage?
4. What are the key questions to be explored?
5. What are the aims of the project?
6. What works or materials will be involved?
7. What methodologies are involved?
8. What are the proposed outcomes of the research?

Future research candidates are encouraged to seek further information about the research expertise of academic staff through the websites and brochures of research centres, faculties, schools and departments.

Applicants are admitted to a research degree once they have been assessed to meet the University's academic and English language entry requirements. Minimum academic requirements for entry into individual higher degrees by research are listed in the faculty section of this guide.

Some research courses (for example professional doctorates) have additional entry requirements, while some research masters courses have different entry pathways. Please check the faculty website for specific entry requirements to these courses

Evidence of research ability, the availability of facilities in their proposed field of research and the availability of staff to undertake supervision will also be considered in the assessment of your application.

Some faculties also offer preliminary research courses, such as postgraduate diplomas and masters qualifying programs that provide a pathway to research for applicants without a research background.

Applications for admission may be made at any time, however applications for research scholarships must be made by 31 May or 31 October each year.

If you are applying for a research degree with a coursework component your commencement date in the degree may be determined by the availability of the coursework you will need to complete.

Applications for all research degrees and scholarships are submitted via the online research degree and scholarship application form available at: www.monash.edu/study/research. Enquiries regarding the research degree application process should be directed to the Research Degrees Admissions Unit at the Monash Research Graduate School using the online enquiry facility available at www.monash.edu/research.

Coursework programs

Applications for postgraduate coursework programs are made online via www.monash.edu/postgraduate/apply-now.html, except for the Graduate Diplomas in Education (applicants apply through the Victorian Tertiary Admissions Centre at www.vtac.edu.au).

Postgraduate tuition fees

www.monash.edu/fees

Postgraduate courses attract fees for both domestic students. However, there are a range of schemes and services to help students with fees, including government loan programs. Research students are generally granted a government-funded research place that can fund up to four years of research-based study.

Commonwealth-supported places (CSP)

The Australian Government requires the majority of students in a Commonwealth-supported place to contribute to the cost of their education. This means that students pay a proportion of the cost of their course (see Student Contribution Amounts for commencing 2011 students below) and the government funds the balance. For further information on CSP and student contribution amounts, visit www.goingtouni.gov.au.

Research Training Scheme (RTS)

Australian citizens, New Zealand citizens or Australian permanent residents undertaking a research degree at Monash University are granted a government-funded Research Training Scheme (RTS) place. Under this scheme, research students receive two full-time equivalent years of funding for a research masters course and four years of full-time equivalent funding for doctoral studies. Under the RTS, it is a statutory requirement that all higher degree by research students provide details of previous enrolment/s in research programs to determine eligibility for RTS funding.

Higher Education Loan Program (HELP)

The FEE-HELP scheme provides an interest-free, income-contingent loan facility for students. Australian citizens and holders of a permanent humanitarian visa are eligible for the FEE-HELP scheme. Eligible students wishing to fund part or all of their tuition fees through FEE-HELP must complete the loan request form by the relevant census date and provide a tax file number. A student can elect to pay a portion of fees directly to the university and the remaining debt will be registered as a loan through the Australian Taxation Office (ATO). Students will commence repaying any HELP loan through the ATO once their income reaches the minimum threshold for compulsory repayment. A loan for up to the full tuition fee charged for the course can be accessed, but there is a lifetime limit. See the Monash University Fee-HELP website for details: www.monash.edu/enrolments/loans/domestic-full-fee.html.

For more information, contact the Student Services Centre on each campus or visit the Department of Education, Employment and Workplace Relations.

Band	Unit discipline group	Student contribution amounts for CSP (2011)	Student contribution amounts
3	Law, Dentistry, Medicine, Veterinary Science	A\$9080	For Commonwealth supported places (CSPs), units are grouped into four broad bands. The band in which the unit is located determines the student contribution amount for that unit. Usually, the units a student is required to enrol in to complete their course will each fall into the same band. The table outlines the annual student contribution amount for a full-time student who is enrolled in a standard full-time course where all units are in the same band. Students typically undertake eight units each year. Units are normally six credit points each. In a standard full-time year, students will study 48 credit points.
	Accounting, Commerce, Administration, Economics	A\$9080	
2	Computing, Built Environment, Health, Engineering Surveying, Agriculture	A\$7756	
	Humanities, Behavioural Science, Social Studies, Clinical Psychology, Foreign Languages, Visual and Performing Arts	A\$5442	
1	Education, Nursing	A\$5442	
	0 (National Priority Areas)	Mathematics, Statistics, Science	A\$4355

Full-fee places

Most postgraduate coursework programs are offered as full-fee places. Students in these courses pay the full tuition cost of the course and must make the payment upfront each semester.

Details of course fees for Australian citizens and permanent residents are included with course descriptions in this guide. Fees quoted are for courses commencing in 2011, are subject to change and are indicative only. Fees for courses commencing in 2012 will be different. Applicants should check the fee with faculties or go to Course Finder, www.monash.edu/study.

Monash University reserves the right to adjust annual tuition fees. However the University undertakes that any adjustment factor for those continuing students will not exceed 6 per cent per annum. Any adjustment will be applied on January 1 each year for that year.

Credit points and fees

The University uses a standard credit point range in relation to university taught unit offerings, normally involving six point units or multiples thereof (eg six, 12, 18, 24). A full-time student will normally complete 48 credit points in a year (24 in each semester).

Fees published in this guide quote an annual fee based on a standard 48 credit point course. Courses with fewer or more credit point values in a year will attract a proportionate fee. For example, a 24 credit point course fee will be half the annual amount of a 48 credit point course. A 72 credit point course would be one and a half times the published annual fee.

English language requirements

To ensure admissions processes are consistent across the University and that all applicants for degrees have the English skills to perform well in their studies, there are minimum English language entry requirements for courses at Monash University that applicants must meet in order to be considered for admission.

The full text of the University's policy on English language requirements can be found at www.monash.edu/english-requirements.

Each Monash University course has a required level of language proficiency, judged against international standards of English language testing.

These requirements are divided into five categories listed below.

The minimum English entry requirements of the University for applicants commencing study in postgraduate degrees are a guide only, as many courses and faculties have higher requirements. You must consult faculty websites for the specific requirements of the course that you are applying for.

English language testing

You must have undertaken an English language proficiency test within 24 months prior to your study commencement date and have achieved at least one of the following results:

Coursework degrees

Category A

- IELTS (International English Language Testing System – academic) minimum overall test score of 6.5 no individual band score less than 6.0. For more information, see the International English Language Testing System at www.ielts.org.
- TOEFL (American Test of English as a Foreign Language). Paper-based: minimum test score of 580 with a Test of Written English (TWE) score of at least 4.5; internet-based: 90 overall, with at least 22 in Writing and no section lower than 20. You must include the original TOEFL or TWE test report with your application. For more information, go to the American Test of English as a Foreign Language website www.ets.org.
- Successful completion of the relevant English Language Bridging Program at the Monash University English Language Centre. Faculty of Arts postgraduate research students must re-sit the TOEFL or IELTS following the English Language Bridging Program.

Applicants meet the requirement if they have undertaken the following studies at an institution where English is the language of instruction:

- Successful completion of an undergraduate degree within the five years prior to commencement of the course (please note this category is not applicable to any Postgraduate Law Programs); or
- The equivalent of one full-time year of postgraduate study within the two years prior to the commencement of the course; or
- The equivalent of three full-time semesters of a university degree within the two years prior to the commencement of the course.

Students may be required to provide a letter from the institution confirming English is the language of instruction.

Category B

Some coursework degrees in the Faculty of Medicine, Nursing and Health Sciences require a higher minimum English language level. These are the same as Category A with –

- IELTS (International English Language Testing System- academic) minimum overall IELTS band score of at least 6.5 with a minimum of 6.5 in Reading and Listening and a minimum of 6.0 in Writing and Speaking, OR
- a total TOEFL score of at least 580 with a TWE score of 4.5 or more (Computer-based TOEFL score of 237 and Essay score of 4.5 or IBT TOEFL score of 90 with a writing score of 22 in Writing and no section lower than 20).

Category C

Higher requirements for postgraduate coursework degrees

The Faculty of Law, the Faculty of Business and Economics, and the Faculty Medicine, Nursing and Health Sciences require a minimum IELTS score of 7.0 with no individual band score less than 6.5; or a TOEFL minimum test score of 600 with a TWE score of at least 5.0; or internet-based 100 overall, with at least 24 in Writing and no section lower than 20.

Note: The Juris Doctor requires an IELTS band score of at least 7.0 with a minimum of 7.0 in each individual band score or a total TOEFL score of at least 600 with a TWE score of at least 5.0 or more or internet-based score of 102 with a writing score of 24 and no other band lower than 20.

Note: Courses offered by the Faculty of Education that include a practicum component require IELTS (academic) of at least 7.0 with a score of at least 7.0 in Speaking and Writing and at least 6.5 in Reading and Listening or; internet-based TOEFL score of at least 100, with at least 25 in Writing and Speaking and 22 in Reading and Listening.

Note: Postgraduate courses offered by the Department of Epidemiology and Preventive Medicine and the Master of Health Professional Education offered by the Centre for Medical and Health Sciences Education require a minimum overall IELTS score of 7.0 with no individual band score less than 6.5, or a minimum TOEFL score of 600 with at least a TWE of 5.0.

Note: Higher requirement for Master of Nursing Practice – overall IELTS score of 7.0 with no individual band score less than 7.0.

Note: The Faculty of Arts requires a minimum IELTS score of 7.0 with a score of 7.0 in Writing, and 6.5 in Reading and Listening and 6.5 in Speaking for the Master of Interpreting and Translation Studies and Graduate Diploma in Translation Studies.

Applicants meet the requirement if they have undertaken the following studies at an institution where English is the language of instruction:

- Successful completion of an undergraduate degree within the five years prior to commencement of the course; or

- The equivalent of one full-time year of postgraduate study within the two years prior to the commencement of the course; or
- The equivalent of three full-time semesters of a university degree within the two years prior to the commencement of the course.

Students may be required to provide a letter from the institution confirming English is the language of instruction.

Research degrees

Category D

The Research Graduate School Committee sets the English proficiency requirements for all higher degrees by research. One of the following must be met:

- First language is English
- An overall band score of not less than 6.5 on the IELTS test. In addition, a score of at least 6.0 is required for each band score and applicants must undertake the academic module in regard to reading and writing. Tests that are taken more than two years prior to commencement will not be accepted. Details can be found at www.ielts.org.
- The following scores achieved in the American Test of English as a Foreign Language (TOEFL):
 - a minimum total score of 577 together with a score of 5 or more on the TOEFL Test of Written English (TWE) (paper based score);
 - a minimum total score of 91 (internet-based score) together with a minimum score of 25 in the written test and a minimum score of 22 in each of the reading, speaking and listening tests.

Tests that are taken more than two years prior to application will not be accepted.

Details can be found at www.toefl.org.

- Successful completion of a course of tertiary studies of at least two-years duration conducted entirely in English and involving formal assessment of written work, in a country where English is the official language. Evidence in the form of a letter or certificate issued by the University Registrar's office will need to be provided. Studies must be completed within the five-year period prior to application. In the faculties of Arts and Law, studies must be completed within the two-year period prior to application.
- Where studies have been conducted entirely in English and involve formal assessment of written work in a country where English is one of two or more official languages of that country, a case may be made to the Monash Research Graduate School Committee by the relevant department/faculty. The World Factbook located at www.cia.gov/cia/publications/factbook lists the official languages of all countries.
- Successful completion of a course of tertiary studies of at least two-years duration at Monash's Malaysia or South Africa campus, or an equivalent Malaysian tertiary education campus recognised by Monash University. Studies must be completed within the five-year period prior to application. In the Faculty of Arts and Faculty of Law, studies must be completed within the two-year period prior to application.
- An overall IELTS score of 6.0 (writing score of 6.0); or a paper-based TOEFL score of 550 with a TWE of 4.5 or internet-based TOEFL score of 79 with a minimum score of 22 in the written test and a minimum score of 19 in the listening, reading and speaking tests), together with successful completion of the 10-week Monash University English Language Bridging Program (ELBP).

Applicants will not be admitted to candidature until they have successfully completed the ELBP. Some faculties, for example the Faculty of Arts

and Faculty of Law, do not admit candidates under this criterion. Scholarship applicants must have evidence of successful completion of the 10-week ELBP by the closing date for scholarships to be eligible.

Category E

Higher requirements for postgraduate research degrees

In the Faculty of Arts and Faculty of Law, an overall score of 7.0 on the IELTS test (7.0 on writing module). In the Department of Epidemiology and Preventive Medicine and in the Faculty of Business and Economics, an overall IELTS score of 7.0 with individual band scores of 6.5.

In the faculties of Arts and Law and the Department of Epidemiology and Preventive Medicine, a minimum TOEFL total score of 600 and a score of 5.0 or more in the TWE (paper based) or a minimum total score of 100 with a minimum score of 25 in each of the written, reading, speaking and listening tests (internet-based test).

In the Faculty of Business and Economics a minimum TOEFL total score of 600 and a score of 5.0 or more in the TWE (paper-based); or a minimum total score of 100 with a minimum score of 24 in Writing and no section lower than 20 (internet-based).

In the Department of Pharmacy Practice (Faculty of Pharmacy and Pharmaceutical Sciences) an overall IELTS score of 7.0 with individual bands scores of 6.5. A minimum total TOEFL score of 5.0 or more in the TWE (paper based), or a minimum total score of 100 with minimum scores of 25 in each of the written, reading, speaking and listening tests (internet-based tests).

Full documentary evidence in support of English proficiency must be submitted with applications for candidature. Where an applicant's first language is not English or where degree qualifications were not undertaken in the English language, Monash reserves the right to seek further documentary evidence of English proficiency.

Don't meet the English language requirements?

If you have not yet satisfied any of the above English language requirements, the most effective pathway is to undertake an English course at the Monash University English Language Centre.
