## Meet some of our students

I originally studied a BA (Hons) in French and Spanish and during my year abroad, I worked as an Assistante at secondary schools in Montpellier before studying at Guadalajara University in Mexico. After graduating, I studied the MA in Translation with Language Technology. I undertook charity work for Study Guatemala, worked for the Welsh Assembly Government in the Knowledge Exploitation Fund, and also as a freelance translator. I have translated for several documentaries, such as Amazon with Bruce Parry and appeared on the BBC and the Discovery Channel. I have now returned to Swansea University to write a PhD. **Jessica Forse**

---

After studying a BA in Media Studies at Swansea University I chose to continue with postgraduate education. The MA in Comparative Journalism provided a good balance of theoretical knowledge and practical journalism skills, enabling me to approach news and feature writing in an effective way and develop a strong portfolio of work. The course's global approach to journalism helped me to develop an wider view of world media and appreciate the importance of new technologies in publishing - something that has come in very useful as I now work as a web editor for an international magazine based in Shanghai, China. **Claire Slobodian**
