inlingua!"

inlingua's method for success

The Basic 10 Principles

1. **Lessons are taught in the target language only** – trainers encourage learners to start thinking and speaking in the target language from the first lesson.
2. **Learn through speaking** – books are closed for most of the lesson and learners are given the opportunity to speak as much as possible.
3. **Exemplify rather than explain** – learners learn better if they induce rules for themselves from examples rather than try to memorize rules they are told.
4. **Get the learners doing the talking** – learners need practice.
5. **Get the atmosphere right** – different classes need different approaches; adopt a flexible approach.
6. **Handle learners' language mistakes with care** – trainers know exactly the form and timing of correction according to the stages of the lesson.
7. **Check before you teach new language** – trainers will find out if learners already know something before they teach it
8. **Give learners opportunities to experiment** – learners need to be creative with new language, to express their own ideas.
9. **Variety in teaching** – wide variety of techniques achieve effective and enjoyable classes.
10. **Three key techniques** – ask questions, have learners weave new language, and keep the student books closed during the lesson.

Choose inlingua Victoria

Experienced and Engaging Teachers

- We have exceptional trainers who are highly qualified native speakers and have been extensively trained in the inlingua method.
- Our trainers use inlingua materials that are constantly updated to stay abreast of developments in the teaching field worldwide.
