CURTIN: AN INTERNATIONAL UNIVERSITY

Vision: to be an international leader shaping the future through our graduates and research, and positioned among the top 20 universities in Asia by 2020.

Curtin University's main campus is located in Bentley, six kilometres south of the centre of Perth: Western Australia's capital city. The Bentley Campus welcomes students from more than 100 countries across Europe, Asia, Africa and the Americas, and is the largest university in Western Australia.

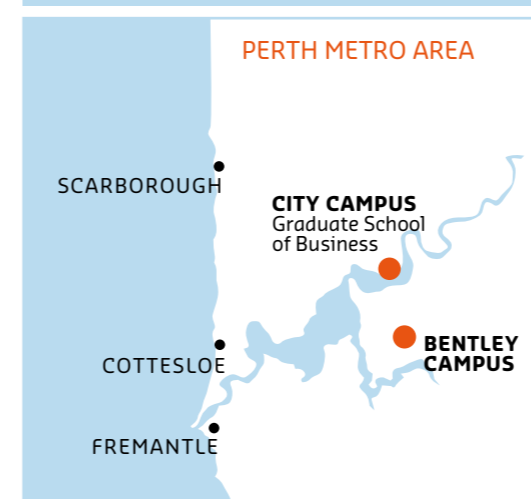

Curtin's international presence is highlighted throughout the Asia-Pacific region, with offshore campuses in Singapore, Sarawak and Sydney, as well as partnership agreements to offer courses at educational institutions in Hong Kong, China, Malaysia, Mauritius, Sri Lanka, Vietnam and Indonesia. The University has developed strong, long-term partnerships with more than 400 institutions in 40 countries, which can lead to opportunities in career development, travel and further study.

All of Curtin's courses are offered through specialist faculties (see page 33) while industry connections ensure they are aligned with the latest industry trends. With identical course structures across locations, when the same course is available, students can also transfer between campuses with no interruption to their studies. This unique opportunity adds a rich and valuable dimension to students' studies.

Curtin is committed to producing graduates who are job-ready; with most courses involving vocational or work experience components. Close links with corporate business, industry, government and the community take students beyond the classroom and into the real world. With access to leading business and employer networks, students are encouraged to make the most of their time at university and are supported through their studies.

CURTIN SINGAPORE

Tel: +65 6593 8000
 Fax: +65 6593 8001
 Email: info@curtin.edu.sg
 Web: curtin.edu.sg

Curtin Singapore has been providing students with an excellent education in one of the world's most cosmopolitan cities since 2008. Students at Curtin Singapore enjoy first-rate facilities, high-calibre staff, innovative teaching methods and links with industry practitioners. The campus is located just outside the central business district, nestled in beautiful gardens that provide a peaceful study environment. The courses offered by Curtin Singapore are taught using the same structure and content as courses offered at Curtin's Bentley Campus in Western Australia.

Courses offered by Curtin Singapore include:

PATHWAY PROGRAMS

Certificate IV Tertiary Preparation*
 Diploma of Commerce*

* awarded by Curtin College.

POSTGRADUATE COURSES

Graduate Certificate in Occupational Health and Safety
 Graduate Diploma in International Business
 Graduate Diploma in Occupational Health and Safety
 Master of Accounting
 Master of International Business
 Master of Logistics and Supply Chain Management

 Email: enquiries@curtin.edu.my
 Web: curtin.edu.my

Curtin Sarawak is the first offshore campus of Curtin University, and the first foreign university to be established in East Malaysia in partnership with the Sarawak State Government. Its campus in Senadin, approximately 20 kilometres from the Miri city centre, features architecturally designed buildings, contemporary equipment and facilities, on-campus housing and sophisticated IT that links students to resources from Curtin's main Bentley Campus in Perth.

Curtin Sarawak has close to 3500 students from more than 40 countries studying in a truly international and cross-cultural environment. As the courses offered at Curtin Sarawak are identical to those at the Bentley Campus, students can transfer between campuses without disruption to their studies.

Curtin Sarawak is a member of the Malaysian Association of Private Colleges and Universities (MAPCU). In 1999, Curtin Sarawak was awarded Multimedia Super Corridor Status by the Malaysian Government, which was renewed in 2006. In 2010, Curtin Sarawak was granted self-accreditation status by the Malaysian Qualifications Agency (MQA) as well as a Tier Five or Excellent Rating in the MQA's SETARA rating system, placing Curtin Sarawak among the top 18 universities in Malaysia.

BENEFIT FROM 110 YEARS OF MINING EDUCATION EXPERIENCE

KALGOORLIE

Western Australian School of Mines
Curtin University
Locked Bag 30
Kalgoorlie 6433
Western Australia
Tel: +61 8 9088 6179
Fax: +61 8 9088 6100
Email: WASMadmin@curtin.edu.au
Web: wasm.curtin.edu.au

The Western Australian School of Mines (WASM) is located both at Curtin University's Bentley Campus and a regional campus 600 kilometres east of Perth in Kalgoorlie-Boulder: a thriving inland city of more than 30,000 people in the heart of Western Australia's Goldfields region. As a result of WASM's dual-campus structure, students are exposed to different learning environments throughout their studies.

A degree from WASM will give you the opportunity to work within one of the most important sectors to the state, national and global economy: the minerals and resources industry. For more than 110 years, WASM has been offering a range of internationally recognised, undergraduate and postgraduate studies in mining engineering; metallurgical engineering; surveying; geographic information science; applied geology; and exploration geophysics. There are also short-term, industry focused training courses offered throughout the year.

Student housing is located only a short walk from the campus at Agricola Residential College. The college has a recreational room; squash court; music room; weights and training room; as well as free-to-use barbecues in the outdoor leisure area.

WASM boasts a cohort of enthusiastic students from nationalities across the world. The world-champion 'WASM Wombats' train in various forms of traditional mining techniques and compete overseas at mining games. This highly social and rewarding activity has given WASM students an international reputation for success.

SERVICES AND SUPPORT

The campus has a library and resource centre with an extensive range of text and multimedia resources. Computing facilities include a 24-hour computer laboratory and CurtinLink: a campus-wide information management system connected to the internet and Curtin library. In addition to teaching facilities, the Kalgoorlie Campus also has a full suite of support services that are endorsed by the comprehensive services offered at the Bentley Campus.

A free, confidential counsellor is also based in Kalgoorlie to assist enrolled students and staff with academic, personal and career issues for up to 10 sessions per year.

LEARN SKILLS THAT FAVOUR YOUR INDUSTRY

MARGARET RIVER

Margaret River Education Campus
PMB 1, Margaret River 6285
Western Australia
Tel: +61 8 9780 5829
Fax: +61 8 9757 9395
Email: m.gibberd@curtin.edu.au
v.westwood@curtin.edu.au (administrative enquiries)
Web: agrienvi.curtin.edu.au

The Margaret River Education Campus is located in Margaret River: an internationally renowned wine, art and tourism region situated 283 kilometres south-west of Perth. The Campus, home to the Centre for Wine Excellence, has strong links with the Australian wine industry and offers a range of undergraduate and postgraduate courses in the areas of viticulture, oenology (wine science and wine making), and postgraduate research programs (at master and PhD levels).

SERVICES AND SUPPORT

The Campus has a teaching winery with chemistry, sensory evaluation and research laboratories, a resource centre, computer facilities and classrooms. In addition to undergraduate teaching, Curtin also provides an important resource for local industry by providing pure and applied viticultural and oenological research. The campus also boasts a purpose-built art centre and 24-hour computer access.

Private accommodation is available in the Margaret River area, including rental properties, share housing and full board.

FOR MORE INFORMATION

A client services officer is available to students on general study, enrolments and campus resources.

PERTH CBD

Curtin Graduate School of Business

78 Murray Street
Perth 6000

Western Australia

Tel: +61 8 9266 3460

Fax: +61 8 9266 3368

Email: enquiries@gsb.curtin.edu.au

Web: gsb.curtin.edu.au

The Curtin Graduate School of Business (CGSB) is located in the heart of Perth's business district, and facilitates strong, collaborative links with the business community. The CGSB caters to more than 1300 post-experience students who come from a broad range of sectors, including energy and resources, health and government. The CGSB offers a range of graduate business courses, including the internationally accredited Master of Business Administration (MBA) with specialisations available in oil and gas or strategic procurement. Curtin's MBA is accredited by the highly respected, UK-based Association of MBAs (AMBA) and internationally ranked in the top 100 in the world by The Economist (2011).

The CGSB is also home to the prestigious Master of Business Leadership, aimed at senior executives wanting to explore and develop their leadership potential. It also targets the Department of Mineral and Energy Economics with its double-degree: the Master of Science (Mineral and Energy Economics) / Master of Business Administration; the only one of its kind in the world. The CGSB also offers PhD and Doctor of Business Administration programs.

STUDY AMONG
PROFESSIONALS
AND INCREASE
YOUR EMPLOYMENT
PROSPECTS

OVERSEAS STUDY

Student exchange provides the opportunity for students to enhance their degree and increase career prospects. Curtin has offshore programs with partner institutions throughout America, Canada, Europe, the UK and Asia.

OFFSHORE PROGRAMS

Curtin's offshore programs make it possible for you to study a Curtin degree closer to home. Courses are available at Curtin's offshore campuses in Singapore, Malaysia and Sydney, as well as at a large range of partner institutions across the globe, including Hong Kong, China, Vietnam, Sri Lanka and Mauritius. Both undergraduate and postgraduate degree programs are available and studies can be completed on a full-time or part-time basis. Regardless of where you study, you will receive the high standard of education and international recognition associated with a Curtin degree. For more information on courses available offshore, visit international.curtin.edu.au/offshoreprograms.cfm

EXCHANGE TO CURTIN

If you are studying at one of Curtin's partner institutions, you're eligible to go on exchange to Curtin for one or two semesters. The student exchange program is a non-award program you can study at Curtin to gain academic credit towards your home university degree. You will continue to pay fees to your home university and will not pay any fees to Curtin. For more information, visit studyabroad.curtin.edu.au

EXCHANGE FOR CURTIN STUDENTS

If you are already a Curtin student, you can give your degree an edge by going on exchange to one of our partner institutions in 20 countries throughout Europe, Asia, Canada, America and the UK.

You will experience a different culture and broaden your perspective, and the units you study will be credited towards your Curtin degree. You will continue to pay your tuition fees to Curtin, and will not pay any fees to the host institution. For more information, visit studyabroad.curtin.edu.au

STUDY ABROAD

Study Abroad is similar to our exchange program except you pay your tuition fees to Curtin. Additionally, Study Abroad applicants are not required to be currently attending one of Curtin's partner universities; you can be attending any recognised educational institution overseas.

Note: Due to visa restrictions, some international students may not be granted a student visa to study abroad.

SERVICE ABROAD

The Service Abroad program is similar to Study Abroad in that you take regular classes at Curtin and pay tuition, but there is a community service component added to your study program. For more information, visit studyabroad.curtin.edu.au

DISTANCE EDUCATION

Studying externally gives you the flexibility to fit your degree around your lifestyle.

THE BENTLEY CAMPUS

Curtin's Bentley Campus is the largest and most multicultural university in Western Australia, and is the largest of Curtin's seven campuses. Located just six kilometres from the centre of Perth, the Bentley Campus is close to public transport and has on-campus accommodation for 1175 students. A wide range of services and support is also available, including a medical centre, childcare and banking facilities, international food outlets and an award-winning recreation stadium.

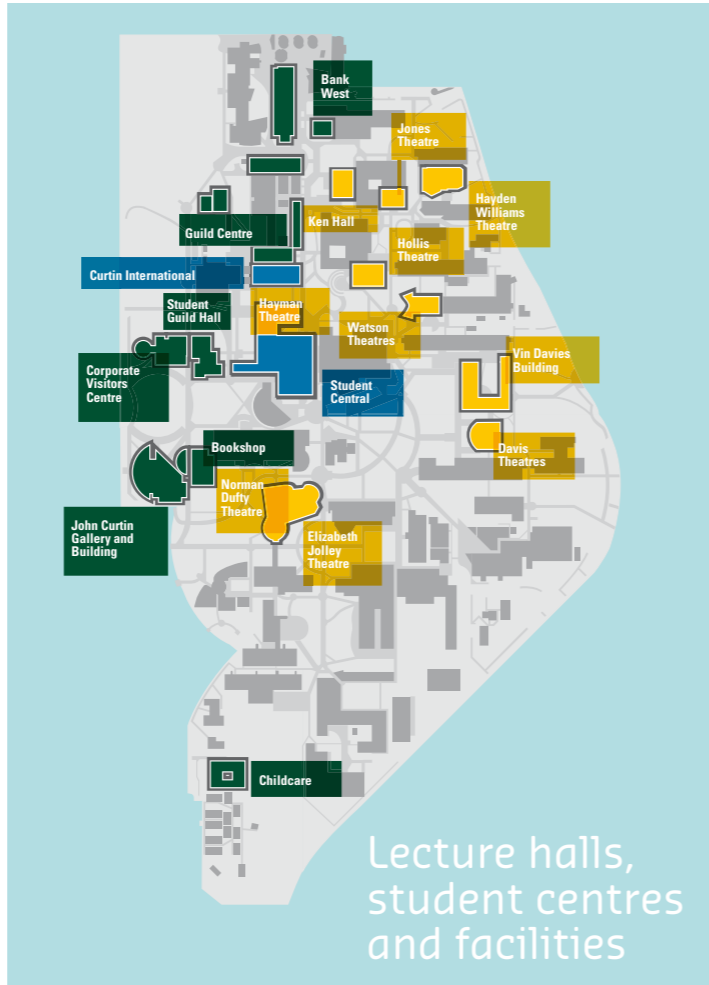

"THERE IS A VERY RICH MULTICULTURAL ATMOSPHERE AT CURTIN, WHICH IS THE LARGEST UNIVERSITY IN WESTERN AUSTRALIA"

Lipi Dhar, India

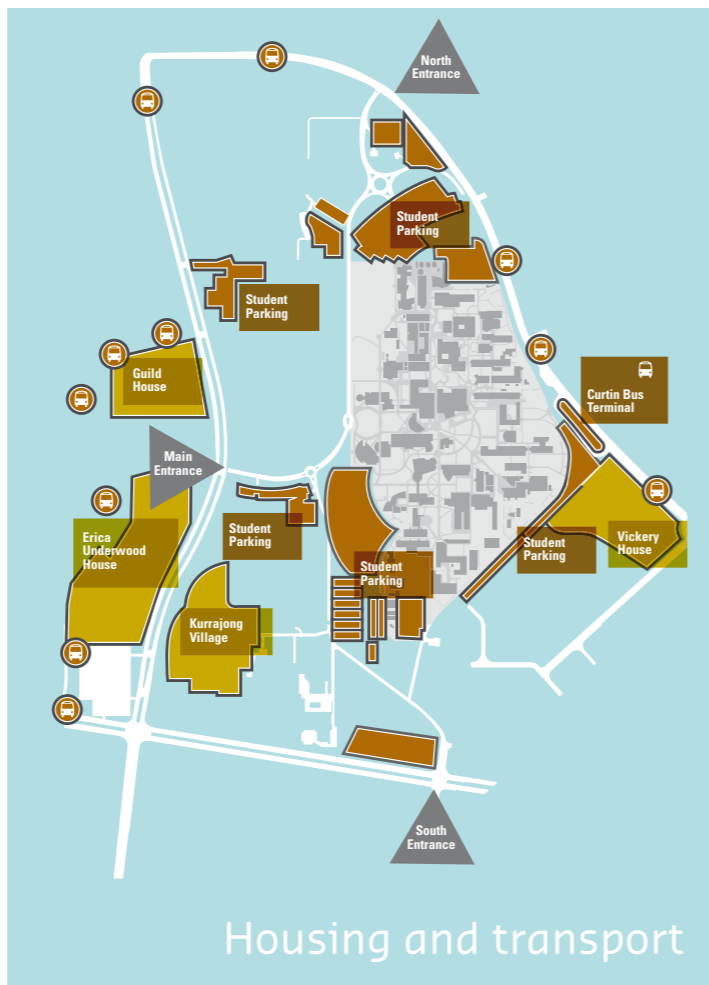

BENTLEY CAMPUS MAPS

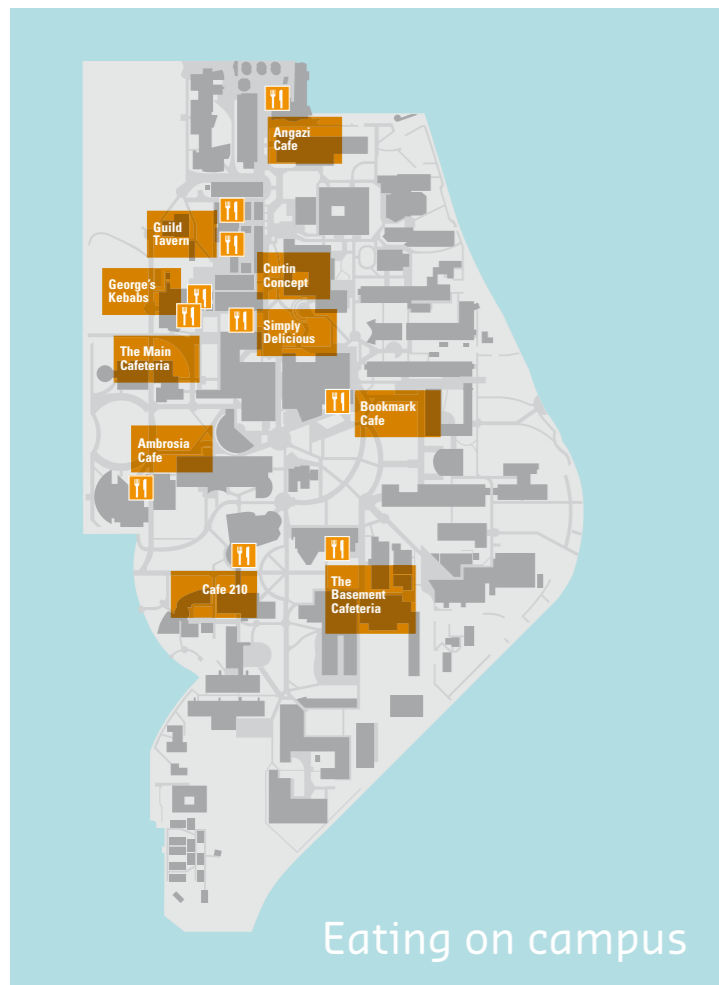

Curtin's Bentley Campus lies adjacent to Technology Park, a TAFE college and Collier Park Golf Course. Also located nearby are schools, shops and housing.

Lecture halls, student centres and facilities

Housing and transport

Eating on campus

INTERACT WITH PEOPLE FROM ALL AREAS OF LIFE

ACCOMMODATION

With 1175 places available on campus and an extensive database of private accommodation options, Curtin's Housing Services Office will help you find a place to live. Meet students from around the world living in on-campus accommodation or choose from a range of off-campus options located nearby.

ON CAMPUS

On-campus accommodation is always in high demand, so we recommend that you apply immediately after receiving your Letter of Offer. The accommodation generally consists of single study bedrooms with shared facilities, such as kitchens and bathrooms. A typical unit will accommodate six to eight students, and you will be responsible for your own cooking and cleaning. For more information about on-campus accommodation, visit housing.curtin.edu.au

OFF CAMPUS

A range of accommodation options are available in the suburbs surrounding the Bentley Campus. Rental prices will vary depending on the type and location of the accommodation you choose.

Curtin's Housing Services Office keeps a register of people in established households who are looking to share with others. Off-campus accommodation allows greater independence and privacy, making it ideal for mature-aged students and those with families.

REMOTE

For information on remote campus accommodation, see campuses information starting on page 4.

For more information about student housing, including photographs and an online application form, please visit housing.curtin.edu.au

Tel: +61 8 9266 4430
 Fax: +61 8 9266 7455
 Email: housing@vc.curtin.edu.au
 Web: housing.curtin.edu.au

Note: We recommend you arrive in Perth at least two weeks before the start of semester if you are looking for off-campus accommodation. This will give you time to settle into your housing and be ready for orientation.

UNI LIFE, SERVICES AND SUPPORT

To make your time at Curtin as enjoyable and productive as possible, we have a range of services and support programs to enhance your career prospects, lifestyle, learning and wellbeing.

In 2011 a change to Higher Education Legislation was passed by the Australian Government, which allows universities to introduce a compulsory student services and amenities fee. At the time of printing, Curtin University anticipates the fee to be capped at A\$263 per annum for a full-time enrolled student in 2012 and indexed annually thereafter. This fee will be used to support and further improve some of the services described below. Further information will be available on University websites and will be included in the Offer Letter to students applying to study at Curtin's Bentley Campus.

CAREER

Alumni: join a network of Curtin's staff and graduates and build valuable professional and personal connections. alumni.curtin.edu.au

Curtin Careers Centre: promotes, supports and encourages students and graduates to develop the necessary skills to effectively identify and implement their career goals. careers.curtin.edu.au

COMMUNITY

Chaplaincy and prayer facilities: the diversity of religious beliefs and convictions represented among students and staff at Curtin are supported through the Multi-faith Services: a qualified team of visiting chaplains who are recognised leaders in their faith community. multifaith.curtin.edu.au

Curtin University Postgraduate Students' Association: the representative body of all postgraduate students studying at Curtin. guild.curtin.edu.au/go/representation/departments/cupsa

International Students' Committee: the main representative body for international students at Curtin. guild.curtin.edu.au/go/representation/departments/isc

Student Guild: a dedicated body of democratically elected students who protect the rights of all Curtin students. Services on campus include food outlets; a tavern and bistro; second-hand bookshop; and copy and design centre. guild.curtin.edu.au

LIFESTYLE

Food outlets: choices include a variety of cafés and canteens, or a tavern that regularly stages live music. Halal food is available on the Bentley Campus.

John Curtin Gallery: one of the largest and best-equipped university galleries in the country, which exhibits local and international artists, as well as graduating students. johncurtingallery.curtin.edu.au

Shops: outlets on campus include a travel agency; bookshops; banking facilities; computer store; hairdresser; newsagency; and pharmacy.

LEARNING

Computer facilities: access to computer laboratories are available during and after University hours.

Curtin International: staff will help you with applications to Curtin and can answer any questions about courses and fees. international.curtin.edu.au

WELLBEING

Curtin Counselling Service
Curtin provides a free and confidential support service to help students and staff get the most from their time at the University. Professional staff can assist you with educational issues; personal matters; University policy and procedures; and crisis support. counselling.curtin.edu.au

LIFESTYLE

Curtin Stadium
Curtin's award-winning recreation centre offers a gymnasium; ladies studio; group fitness facilities; sports courts and outdoor beach volleyball courts. You can also register for fun and affordable social sports competitions or join one of the many registered and affiliated sports clubs. recreation.curtin.edu.au

GET INVOLVED IN CURTIN'S VIBRANT LIFESTYLE

Student Central: issues ID cards, provides copies of academic transcripts and handles enquiries on matters related to studying at Curtin, such as questions about scholarships, visas, admission and fees.

students.curtin.edu.au

The Learning Centre: provides a wide range of academic support programs to help undergraduate and postgraduate students develop their study, language or writing skills.

learningcentre.curtin.edu.au

WELLBEING

Curtin Access Bus Service: a free bus service, with two circular routes every 30 minutes through the Bentley and Waterford suburbs.

Disability Services: provides advice on the University's policies and procedures for students with medical conditions and disabilities. This free and confidential service is available for prospective and enrolled students, including students at our regional campuses.

disability.curtin.edu.au

Security: the University places great importance on the security of staff and students, and provides free shuttle buses at night during semester and 24-hour security patrols.

security.curtin.edu.au

Smoke free campus: all of Curtin's West Australian campuses are completely smoke-free, providing a safe and healthy environment to students and staff.

smokefree.curtin.edu.au

Student advisers: assists new students to make the best possible start at Curtin. Student advisers offer help with anything related to adjusting to university life, from struggles with studies to personal difficulties.

connect.curtin.edu.au

Student Wellbeing Hotline: a confidential hotline to assist with any issue, incident or activity that might threaten your health, safety or happiness.

studentwellbeing.curtin.edu.au

Grievances and appeals: you can talk to the mediation and resolution officer (located in Building 100 on the Bentley Campus) about any complaint you might have. Step-by-step details of the complaint and grievance procedures are available from complaints.curtin.edu.au and in the Student Conduct, Rights and Responsibilities booklet (provided to all new Curtin students).

There are also official procedures to assist students to resolve concerns about academic and other matters, which are set out in the Curtin Courses Handbook, available online. handbook.curtin.edu.au.

The Department of Education Services of Western Australia has appointed a conciliator for international students studying in Western Australia. The conciliator has an independent grievance handling and dispute resolution role.

LIVE IN A
DYNAMIC, SAFE
ENVIRONMENT
AND TAKE ADVANTAGE
OF WA'S ECONOMIC
GROWTH

PERTH: A VIBRANT CITY

Perth is the capital city of Western Australia and is recognised internationally for offering an amazing standard of living to both its visitors and residents.

With more than 200 nationalities, international visitors are welcomed to Perth and enjoy many of its attractions during their stay: sunny blue skies; a comfortable climate; popular bars and restaurants; all types of shops and services; cinemas, theatres and music venues; international food courts; lively markets; sports facilities; excellent public transport; plus many more.

The largest Australian state, Western Australia maintains strong relationships with neighbouring countries and is a gateway to Asian cities. Located in the same time zone as Hong Kong, Singapore, Beijing and Kuala Lumpur, international students can easily stay in touch with friends and family while they study in Perth.

EXPERIENCE PERTH

Perth's Central Business District is the commercial centre of the city. Fast-paced and multicultural, the district provides opportunities for sightseeing and shopping, and includes attractions such as the Barrack Street Bell Tower—one of the largest musical instruments in the world—and the majestic Kings Park Botanical Gardens.

Perth's coastline comprises a long stretch of clear beaches: one of the city's major attractions. Collectively known as the Sunset Coast, Perth's beaches are also popular swimming, surfing and snorkeling destinations, with a variety of cafés, restaurants and pubs located nearby. With more hours of sunshine than any other Australian capital city, Perth's beaches are enjoyed for most of the year.

WEEKEND EXPLORING

The south-west region of Western Australia is internationally recognised for its wineries, old growth forests and coastal beauty. Just a few hours drive from Perth, areas such as Busselton, Dunsborough, Margaret River and Denmark are well worth visiting, attracting visitors the year-round.

Just a 20 minute drive from the city centre, Fremantle is a popular port city known for its high-quality seafood restaurants and weekend markets. Fremantle is also home to the 'cappuccino strip', which boasts an array of unique shops, street performances, alfresco dining and restaurants. The Fremantle Prison, which reopened as a public museum after it closed as a prison in 1991, hosts exciting daily and nightly tours around the grounds.

INTERNATIONAL PRESENCE

In recent years, Western Australia has strengthened its economy despite global challenges that have threatened other countries. The state's mining and resource industry continues to thrive, with major projects underway between Australia and China. In 2010, the value of WA's mining and petroleum industry reached A\$70.9 billion, with this growth set to continue.

PERTH WEATHER

SEASON	MONTHS	AVERAGE °C
Summer	Dec-Feb	17-30
Autumn	Mar-May	14-26
Winter	Jun-Aug	8-19
Spring	Sep-Nov	12-23

MANAGING YOUR FINANCES

Living in Perth will be an exciting and rewarding experience. Everything you need is within your reach, and planning a budget for the costs you need to cover will help you make the most of your time in Australia.

To get the best start, we recommend you bring at least A\$800 and have access to another A\$2500 during your first week in Australia. You will need this to pay bond money (property security) and rent in advance. Costs associated with electricity, gas and telephone services are usually paid later. Your living costs will depend on your taste, interests and financial position. You should plan a budget to suit your needs, but make sure it is flexible enough to allow for changes. If you want to buy a car, make sure you consider additional expenses such as petrol, insurance and licensing costs.

BUDGET

You will need to purchase items such as textbooks and stationery so you should plan ahead to cover these costs. You should budget an extra A\$350 per year for items such as photocopying and course-related incidental costs, such as protective clothing. Textbooks and reference books will cost an additional A\$150-400 each semester. The cost of books can vary considerably depending on the course and units you choose. For cheaper, second-hand books, try the Curtin Second-hand Bookshop.

SUGGESTED WEEKLY BUDGET (A\$)

SERVICE/COMMODITY	SINGLE	FAMILY OF FOUR
Rent—furnished residence (average)	180	390
Services—gas, water and electricity	20	30
Food	120	200
Public transport	25	40
Clothing, toiletries and entertainment	120	145
Health insurance	8	16
Total	473	821

This table is intended as a guide only.

SCHOOL-AGE DEPENDANTS

In Western Australia, dependants of international students may be enrolled in either government (public) or non-government (private) schools registered by the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS). A visa for the dependant/s must be obtained through the Department of Immigration and Citizenship (DIAC) or a representative. If a Confirmation of Placement (CoP) letter is required by DIAC, please go to the Curtin Dependant Schooling Information Sheet, available from international.curtin.edu.au/dependants, for more information.

Both public and private schools require the payment of full international tuition fees where applicable. Government (public) school fees vary for dependants of undergraduate students, postgraduate students and some scholarship students. It is important to understand these costs BEFORE your dependant/s arrive in Australia.

Note: *Dependants of postgraduate international students (master by coursework or research and PhD only) on sub-class visas 573 and 574 can be enrolled in selected public schools in Western Australia at local student rates, provided that the school has been registered and has the capacity to accept them.*

For more information and for contacts regarding visa processing, school fees, enrolments and a list of schools, visit international.curtin.edu.au/dependants and download the Dependant Schooling Information Sheet. You can also contact the International Sponsored Students Unit at issu@curtin.edu.au or on +61 8 9266 3348.

Note: *If dependants enrolled in a public school require English tuition support in a mainstream classroom or placement at an Intensive English Centre, fees will range from A\$1500-3000 per year, depending on the child's requirements. This will be an additional charge to the relevant school fees and will be determined by the enrolling school. These associated costs are paid by the student, not by Curtin or the Department of Education of Western Australia. It is recommended that dependants commence English language training before arriving in Perth.*

WORK

You can work part-time to gain important industry experience, meet new people and get involved in life in Australia while you study. Your student visa gives you permission to work in Australia once you have started your course. You are allowed to work a maximum of 20 hours per week during semester and unlimited hours during semester breaks; however, work should not distract you from your studies and you shouldn't rely on your earnings to pay your tuition fees or other living expenses.

VISAS

To meet your course requirements, you must be enrolled as a full-time, internal student and maintain satisfactory course progress for each study period. Not all units are available in every semester so you may have to apply for another visa to complete your course if you fail a unit. If the units you need to graduate are not offered, you may have to return home and re-apply for admission. This may incur additional costs for your visa application, tuition fees and living expenses.

HEALTH

You must purchase Overseas Student Health Cover (OSHC) from a registered health provider, approved by the Australia Government Department of Health and Ageing. All international students need to purchase OSHC before their student visa will be granted. Your OSHC must cover the full length of your student visa.

CENTRE FOR ABORIGINAL STUDIES

Curtin's Centre for Aboriginal Studies (CAS) is one of Australia's premier providers of tertiary education to Indigenous students. For more than 25 years, the CAS has actively engaged in educating Indigenous and non-Indigenous people about the diverse and rich cultural history of Indigenous Australians, and about the social and political issues that affect and concern all Australians. Courses from the Centre for Aboriginal Studies enable you to follow your own interests and create your own unique course from a variety of disciplines.

BUSINESS: MAKING YOU COMPETITIVE IN THE GLOBAL MARKET

If you want a business degree that gives you a competitive edge and puts you ahead of the pack, we've got what you're looking for. Curtin Business School (CBS) offers the most comprehensive range of business courses in Western Australia and our industry connections ensure these are aligned with the latest industry trends.

**CREATE
NETWORKS WITH
INDUSTRY AND
ADVANCE YOUR
CAREER**

GET SET FOR THE REAL WORLD

CBS maintains strong links with industry to ensure we are effectively serving the needs of both our students and the workforce. Our CBS Advisory Boards—groups of industry experts from organisations such as Chevron, KPMG and the Chamber of Commerce and Industry (WA)—review our study programs regularly to make sure what our students are learning is up-to-date and industry relevant.

You will also learn from experienced teaching staff, and be exposed to some of the industry's top employers through opportunities such as fieldtrips, internships, real-life scenarios and practical assignments, guest lectures from industry professionals and networking events.

CBS works in close partnership with industry to create professional business environments on campus. Several new facilities available at the Bentley Campus from 2012 include a stock market trading room: the only facility of its kind at any Western Australian university; a future technologies learning space; and the Curtin Business Club student precinct.

GAIN A GLOBAL PERSPECTIVE

As businesses increasingly cross national borders and networks develop between global companies, it's becoming even more important to expand your horizons, understand diverse environments and be adaptable to different business situations. As a Curtin University business student, you become part of well-recognised and international alumni of almost 72,000 people from more than 70 different countries, giving you the opportunity to start establishing your international network from day one. Many of our lecturers have worked overseas and can provide an international perspective to your business education that is increasingly important in today's global marketplace.

GIVE YOURSELF A COMPETITIVE ADVANTAGE

If you're a successful graduate or professional looking to upgrade your skills to advance your career or even pursue an entirely new direction, CBS offers a broad range of postgraduate and MBA programs to suit your needs and ambitions. Our programs are distinguished by their variety and flexible structure, as well as having an applied and professional emphasis that gives you the edge in the real world.

Curtin's MBA program, offered through the Curtin Graduate School of Business, is ranked third in Australia and fourth in the Asia-Pacific region in *The Economist* magazine's 2011 'Which MBA?' rankings.

ENHANCE YOUR CAREER PROSPECTS

CBS graduates have gained employment in diverse professional roles and business areas across the globe. From negotiating industrial relations to analysing the stock market, devising marketing strategies or designing business information systems, your degree can lead to varied and rewarding career paths anywhere in the world.

Employers of CBS graduates include:

- Chevron
- Deloitte
- Ernst & Young
- KPMG
- PricewaterhouseCoopers
- Google
- M&C Saatchi
- Merrill Lynch
- BHP Billiton
- Air Energi
- International Data Corporation
- Schlumberger
- IBM
- Synovate.

HEALTH SCIENCES: GLOBAL HEALTH SOLUTIONS

Curtin's Faculty of Health Sciences educates more health professionals than any other university in Western Australia.

**BENEFIT FROM
THE OPPORTUNITIES FOR
TOMORROW'S
HEALTHCARE
PRACTITIONERS**

The Faculty of Health Sciences offers a diverse range of postgraduate coursework and research programs that touch upon the fields of biomedical sciences; clinical pharmacy; food science and technology; nursing; psychology; and public health.

The faculty also offers a number of graduate entry master degrees (GEM), which provide a pathway for students who already hold a bachelor degree to gain an entry-level qualification in a profession. Many of the GEM programs are condensed into two years, and are available to degrees in health information management; nursing practice; occupational therapy; pharmacy; physiotherapy; and speech pathology.

REPUTABLE STAFF

Health Sciences' staff are actively involved in clinical practice, while leading professionals from the healthcare sector contribute to the delivery of courses. A strong academic orientation ensures that we remain at the forefront of evidence-based practice. In 2011, the dedicated team of health sciences staff received five awards from the Australian Learning and Teaching Council.

ACCREDITATIONS AND INDUSTRY LINKS

Many of our courses are accredited nationally, as well as being internationally recognised. This provides the opportunity for students to work in other countries around the world.

The faculty also maintains strong industry links in order to produce graduates who are job-ready and who are highly regarded and sought after by healthcare institutions. In the 2010 Curtin Graduate Survey, 87 per cent of Health Sciences' respondents were employed within four months of graduation.

MODERN FACILITIES

Curtin is committed to providing students with a transformative learning experience, having recently invested more than A\$47 million towards modern facilities for health sciences students. This includes the occupational therapy and social work learning and research laboratories; the Curtin Health Innovation Research Institute (CHIRI) Biomedical Sciences Precinct; and the Health Sciences Graduate Research Hub. These developments support the University's vision to be a leading teaching and research institution, and enable students to practice client-care scenarios in realistic settings.

The Curtin Health Sciences Innovation Research Institute Biomedical Sciences Precinct will officially be opened in 2012. This A\$25 million refurbishment project will centralise biomedical research at Curtin's Bentley Campus, promoting a vibrant, multidisciplinary research culture. It will also provide a new pharmacy simulation laboratory, offices and teaching and student common areas.

RESEARCH

The faculty is internationally recognised for its leadership in health research, policy and practice. Students and staff are involved in various projects, including the development of practical solutions to global health challenges; working with partners and communities to advance health and wellbeing around the world; and training towards leadership roles in the healthcare sector. The establishment of the multimillion-dollar Curtin Health Innovation Research Institute (CHIRI) brings together Curtin's excellent health researchers to work with industry partners, government and the wider community.

CHIRI's programs of research include:

- Data Linkage—Health Information and Genomics
- Human Movement and Rehabilitation
- Metabolic Health
- Lifespan—Development and Ageing
- Health Populations, Environment and Behaviours
- Vulnerable Populations
- Biomolecular Interactions and Drug Discovery in Chronic Conditions
- Pathogenesis and Management of Disease
- Neurosciences and Mental Health
- Teaching and Learning Towards Better Health

GAIN THE
CONFIDENCE
 TO ENTER YOUR
INDUSTRY
 AND FEEL PREPARED
 FOR YOUR FUTURE

HUMANITIES: EXPLORE YOUR CREATIVITY

Creativity is more than artistic flair; it's the ability to use your imagination to develop original solutions. Our humanities degrees train students in creative and critical thinking to prepare them for a dynamic career.

Humanities students can create their own unique degree from a variety of disciplines in line with their chosen career pathway. Taught within excellent facilities and based on real-world applications, Curtin's humanities courses allow students to create a professional portfolio of work that can be showcased to future employers.

AN INTERNATIONAL OUTLOOK

The Faculty of Humanities has both a local and global focus, offering degrees that are applied, creative and relevant to contemporary society. Beyond arts and languages, the humanities include fields such as architecture; education; project management; design; international relations; and sustainability studies.

Most of the faculty's courses are backed by professional accreditation, with some programs being taught in Singapore, Malaysia, Hong Kong, Mauritius and Vietnam. These partnerships, along with others in Europe and America, provide students with opportunities to study abroad whilst enrolled at Curtin.

GET THE BEST START

Humanities' students have access to some of the best facilities in the country, including one of Western Australia's largest and best-equipped galleries. Located on the Bentley Campus, the John Curtin Gallery exhibits local and international artists, as well as graduating students.

Up-and-coming writers and media professionals have access to Curtin's on-campus media outlets: The Western Independent newspaper, Grok magazine, Curtin FM and InkWire. An industry-standard film and television studio is

equipped with high-definition broadcast quality equipment, while Hayman Theatre showcases students studying performance and playwriting. The Curtin Hayman Theatre Company is the longest established tertiary theatre in Western Australia.

The Centre for Culture and Technology (CCAT) is the newest research centre in the Faculty of Humanities and focuses on the critical theory elements of cultural studies; modern media and communication; as well as the new media themselves. It will become fully articulated with a new study program in Connective Media.

CCAT will eventually develop a 360-degree cinema facility equipped for production-related activities in 3-D, Virtual Reality and other emerging, immersive technologies. This facility will allow film and television, journalism and other media students to create new types of narratives and genres for the media industry of the future.

LEARN IN CONTEMPORARY FACILITIES AND REAL-LIFE, WORKPLACE SCENARIOS

SCIENCE AND ENGINEERING: TECHNOLOGICAL AND SCIENTIFIC INNOVATION

From the establishment of the Western Australian School of Mines in 1902 to the multi-million dollar Resources and Chemistry Precinct completed in 2009, and the University's leading role in the world's largest radio astronomy project: the Square Kilometre Array, the Faculty of Science and Engineering is at the forefront of the most important and influential industries.

INDUSTRY PARTNERSHIPS

Curtin is committed to developing industry partnerships with organisations around the globe, giving students access to the latest in research and industry knowledge.

Curtin's Faculty of Science and Engineering's most recent history has been highlighted by significant investment in teaching and research facilities. In 2009, the faculty opened its A\$116 million Curtin Resources and Chemistry Precinct: a unique collaboration between the University, government and industry that provides research facilities to the largest group of scientists and engineers in the southern hemisphere. The Precinct continues to be a hub for research excellence and industry collaboration for the minerals, energy and chemistry sectors.

In 2011, the faculty also celebrated the opening of the Curtin Engineering Pavilion Complex: a A\$32 million investment between Curtin, government and industry. Opened by Australian Prime Minister, Julia Gillard, it promotes collaborative learning and enhances students' learning experiences, keeping Curtin at the forefront of engineering education in Australia.

GROUNDBREAKING RESEARCH

Curtin is committed to providing contemporary research to the world market and is now in the top bracket of universities for industry-funded research. Curtin staff and students are involved in more than 70 research centres and institutes in areas ranging from environmental biology to astronomy. The Science and Engineering Faculty supports the University's four key areas of research focus: energy, health, sustainable development and ICT and emerging technologies; each relying on the skills of science and engineering and the solutions they provide for today's most pressing challenges.

ALTERNATIVE ENTRY TO CURTIN

If you don't meet the University's minimum entry requirements, Curtin offers several alternative pathways into its courses. These pathways enable students to study at a number of different levels and progress to an undergraduate or postgraduate qualification.

CURTIN ENGLISH LANGUAGE PATHWAYS

There are several alternative English language pathways through Curtin English Language Centre, which will help you improve your English language levels to the required standard, while Curtin College can help you meet academic entry requirements through its diploma programs.

Note 1: IELTS entry scores are approximate and should be used as a guide only.

Note 2: Please note that CELC also accepts CUTE, TOEFL and GCE equivalent to the IELTS score specified above, as entry into CELC programs.

CURTIN ENGLISH LANGUAGE CENTRE

Teaching English to international students for more than 40 years.

The programs offered by CELC provide students with English language proficiency for entry into Curtin University, Curtin College and other Australian educational institutions. These programs include General English; English for International Business Communication (EIBC); English for Teaching Young Learners (ETYL); English for Academic Purposes (EAP); and the English Language Bridging Courses (ELB). Both ELB Semester (17 weeks) and ELB Intensive (10 weeks) courses are direct entry pathways to Curtin University.

Our experienced staff have worked in various multicultural settings and are sensitive to the needs of students at all levels of English proficiency. CELC's English language courses develop students' language skills and enable them to undertake formal English tests to demonstrate English competence for university entrance.

ENGLISH LANGUAGE COURSES

CRICOS Code 051784G

CELC is accredited by the National English Language Teaching Accreditation Scheme (NEAS) and has been conducting courses on Curtin's Bentley Campus since 1972.

All English language students have access to the University's facilities while studying in a friendly and supportive environment, and are required to buy a course book—available on campus from the Curtin Bookshop—for every 10-week course they study.

GENERAL ENGLISH

Offered to students from an elementary to upper intermediate level, the course focuses on the four key components of learning: speaking, listening, reading and writing skills. Students will also learn important skills to assist with finding employment and to increase their knowledge of Australian history, culture and lifestyle.

ENGLISH FOR INTERNATIONAL BUSINESS COMMUNICATION (EIBC)

This course has been designed to effectively train participants to become confident business communicators in a variety of international business contexts. CELC uses a range of delivery methods to ensure students are engaging in, and interacting with, the course content. This includes workshops; case studies; role-playing; teamwork; interactive media; and interactive talks from guest speakers.

ENGLISH FOR TEACHING YOUNG LEARNERS (ETYL)

The five- or 10-week ETYL program combines English language development and English language teaching methodology. ETYL is for students who are interested in teaching English in their home country, as well as students who are interested in developing their communication skills through a unique context. This is a practical and interactive course.

ENGLISH FOR ACADEMIC PURPOSES (EAP)

This course is available to students from an intermediate level and above, who are preparing for formal study at Curtin College, Curtin University or another Australian educational institution. The course focuses on developing the students' English skills to a high level while also teaching important study skills such as essay writing, note taking, presentation skills and research skills. The course uses a wide range of materials, including textbooks, videos, newspapers, magazines, worksheets and computer software to assist students in their preparation for further tertiary study.

Homestay—per week (self catered)	150	1 160

ENGLISH PATHWAYS CONTINUED

ENGLISH LANGUAGE BRIDGING COURSE (ELB)

CRICOS Code 003896G

The English Language Bridging course (ELB) is an upper intermediate academic English program that prepares students from non-English speaking backgrounds for undergraduate and postgraduate study at Curtin University. Students who meet the exit requirements (as stated in their Letter of Offer) are guaranteed entry into a Curtin degree program on successful completion of the course.

Note: Australian Health Practitioner Regulation Agency (AHPRA) guidelines exist for physiotherapy and psychology courses. These guidelines require students undertaking postgraduate clinical placements to achieve an IELTS score of 7.0 across all bands, or an overall pass in the OET with grades A or B in each of the four components prior to embarking on clinical placements. At time of publication students wishing to enter the above courses at a postgraduate level will also need to submit an IELTS or OET after completing ELB.

ELB progresses students beyond general and academic English and emphasises the language and study skills needed for university studies. Students choose this course if they:

- want to develop their use of academic English to enable them to work more effectively during their undergraduate or postgraduate degree studies
- have a conditional offer from Curtin University that requires them to attend the English Language Bridging course to obtain a satisfactory English language result.

Course outcomes

The ELB program helps students succeed at university by helping them to:

- improve their general and academic English to the required level
- use appropriate spoken and written academic language
- use complex grammatical constructions with greater accuracy
- develop their academic reading and listening strategies
- organise academic essays effectively
- listen to authentic lectures and take useful notes
- communicate effectively in discussions, seminars and presentations
- undertake research projects and use library technologies to access research
- learn about academic procedures, rules and conventions
- become accustomed to Australian university life and culture before their degree starts.

Course content

The ELB program has two entry points. Students who are 1.0 IELTS band (or equivalent) below university entry enrol in the Semester course (17 weeks), whereas the Intensive course (10 weeks) is recommended for students who are 0.5 IELTS band (or equivalent) below university entry. Students will join the longer or shorter course dependent on their current English level and the level of English required for their degree program. CELC will indicate which course is appropriate on your Letter of Offer.

ELB Semester

The Semester course is divided into two blocks over 17 weeks. The first block (seven weeks) focuses on grammar and vocabulary, in addition to development of intensive reading and writing skills. Students study from a set of course books and produce weekly writing tasks related to the texts they are reading. There is also a focus on improving speaking skills to assist students to participate in seminars. The second block (10 weeks) incorporates the ELB Intensive course.

ELB Intensive

The ELB Intensive program forms the second block of the Semester program and focuses on producing two academic research papers over the course of 10 weeks, with an emphasis on referencing conventions and academic style. Students are taught to use library technologies to access research and to learn skills to incorporate others' ideas into their own academic writing. Students are also taught the skills necessary to participate in seminar discussions, present research papers and listen to lectures.

Classes and timetable

Teaching is intensive with 20 teaching hours per week, and a minimum of 12 hours per week of self-study. Students will have classes Monday to Friday, with two teachers and a maximum of 18 students per class. Students will also be given self-study work every day and access to computer-based academic English self-study resources.

Assessments

There are five pieces of assessment: two research essays; a seminar discussion; presentation of a research paper; and a test on listening and note taking.

For more information on either of the ELB courses, please visit celc.curtin.edu.au

ELB SEMESTER ENTRY REQUIREMENTS 2012/2013

ENGLISH LANGUAGE TEST	UNIVERSITY ENTRY REQUIREMENT OF IELTS 6.0	UNIVERSITY ENTRY REQUIREMENT OF IELTS 6.5	UNIVERSITY ENTRY REQUIREMENT OF IELTS 7.0
IELTS	5.0 (min 5.0 in each band)	5.5 (min 5.0 in each band with min 5.5 in writing)	6.0 (min 6.0 in each band)
TOEFL	520 paper based 68 internet based	525 paper based 69-70 internet based	550 paper based 79-80 internet based
CUTE	Grade D (3.5 or higher in each skill) with a min 4.0 in writing	Grade D (4.0 or higher in each skill) with a min 4.5 in writing	Grade C (4.5 or higher in each skill) with a min 5.0 in writing
EAP (10 weeks)	EAP 1 60% or above (60% in each skill)	EAP 2 60% or above (60% in each skill)	EAP 3 60% or above (60% in each skill)

Summer semester Intensive (10 weeks)	21 November	26 November-15 February (2013)	20 November	25 November-14 February (2014)

Note: Attendance at orientation is compulsory. Students cannot be admitted into any course after the first week of teaching.

ELB FEES (A\$)

	2012	2013
ELB Semester total*	8 000	8 100
ELB Intensive total*	4 900	4 950

* Includes GST. These fees are indicative and subject to change.

POSTGRADUATE DEGREES

**FOCUS ON
THE AREAS
YOU WANT TO
STUDY**

POSTGRADUATE STUDIES BY COURSEWORK

At Curtin, you can choose from a range of postgraduate levels of study. To find a program that suits you, contact Curtin International.

GRADUATE CERTIFICATE

Graduate certificate courses are designed to develop skills in a specialised area that may or may not be directly related to that of your undergraduate degree. Some graduate certificates are specifically designed for non-graduates and allow you to progress towards further postgraduate study. All of the programs are career oriented, and usually take one semester.

GRADUATE DIPLOMA

The graduate diploma is a specialised, vocationally oriented award which is usually completed in two semesters. Entry is normally based on completion of a bachelor degree or diploma, although this can be in an unrelated field if you have work experience in the field of study. Graduate diplomas introduce graduates from disciplines outside of their chosen higher degree to postgraduate studies. Less academically qualified applicants may still apply.

POSTGRADUATE DIPLOMA

Emphasis in a postgraduate diploma is on developing greater knowledge and skills through advanced studies of methods, theories and strategies to which you have already been exposed at undergraduate level. You will maintain a vocational emphasis through strong links with industry. Completion of either the postgraduate diploma or graduate diploma usually takes two semesters, and you may be offered Recognition of Prior Learning (RPL) should you proceed to a master degree.

GRADUATE ENTRY MASTER

Graduate entry master courses provide a fast-track learning experience for students who already hold a bachelor degree. They are available in health information management; nursing practice; occupational therapy; pharmacy; physiotherapy; and speech pathology.

MASTER DEGREE

A school may accept you into a master degree provided that you hold appropriate qualifications as decided by the head of school. Where appropriate, provision may be made for you to undertake a bridging course or other preliminary work as a requirement for entry to a master degree program. Mature-age students who do not have formal entry qualifications may still qualify for admission to the master program.

You may be given the opportunity to commence a preliminary program to the master program, provided any relevant work experience or previous academic achievement is recognised by the head of the school, as equivalent to attaining graduate status. If performance in this preliminary program meets the required standard, you may then qualify for admission to the master program.

A master degree is usually completed in three or four semesters, unless RPL is awarded as a result of other relevant studies. Some master degrees also have a work experience component.

POSTGRADUATE ENTRY REQUIREMENTS

For admission into Curtin, you must provide evidence of completion of a degree from a recognised university and provide evidence of English language proficiency. In addition, you may need to meet specific course pre-requisites (visit international.curtin.edu.au to search for specific pre-requisites).

Application deadlines can be found on the inside cover of this booklet. As all courses at Curtin are taught in English, you will need to meet Curtin's English language requirements. You may be deemed to meet Curtin's English language requirements based on completion of a bachelor degree course in which English was the language of instruction. This will be assessed on a case-by-case basis. Any one of the tests in the tables below can also be accepted as satisfying Curtin's English language requirements.

MINIMUM ENGLISH LANGUAGE ENTRY REQUIREMENTS

ENGLISH LANGUAGE TEST	SCORE
IELTS (International English Language Testing System)	
- Writing and Speaking	6.0
- Reading and Listening	6.0
- Overall Band Score	6.5†
TOEFL (Test of English as a Foreign Language)	570 paper based 92 internet based (23 in each section) (With a minimum Test of Written English (TWE) score of 5.0)
Pearson Test of English	76 (some courses may require higher score)
CUTE (Curtin University Test of English)	B
Cambridge Certificate in Advanced English (CAE)	Grade C

† All Master of Science (Actuarial & Financial Sciences; Industrial Engineering; Mathematical Sciences) coursework programs and the Postgraduate Diploma of Education require a minimum IELTS overall band score of 6.0 (min. bands of 6.0) or equivalent.

Note 1: The following courses do not accept CUTE as meeting the minimum English language entry requirement:

- Graduate Diploma in Education (Secondary)
- All postgraduate courses in physiotherapy, pharmacy, psychology, nursing and occupational therapy.

Note 2: This list is correct at time of printing but may change. Please check individual course entry requirements and pre-requisites at courses.curtin.edu.au

COURSES WITH A HIGHER ENGLISH LANGUAGE REQUIREMENT

COURSES	ENGLISH LANGUAGE TEST				
	IELTS (INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM)			TOEFL (TEST OF ENGLISH AS A FOREIGN LANGUAGE)	
	Writing and speaking	Reading and listening	Overall band score	TOEFL Score	With minimum Test of Written English (TWE) score
Postgraduate Diploma Commerce (Accounting), Master of Commerce (Accounting)	7.0	7.0	7.0	647 paper, 113 internet (25 in each section)	5.5
Graduate Diploma in Education (Secondary)	7.0	7.0	7.5	647 paper, 113 internet (25 in each section)	5.5
All physiotherapy#, pharmacy#, occupational therapy, psychology#, nursing# and speech pathology courses	7.0	7.0	7.0	647 paper, 113 internet (25 in each section)	5.5
Master of Information Management	Writing 7.0 Speaking 6.0	Reading 7.0 Listening 6.5	6.5	647 paper, 113 internet (25 in each section)	5.5
Master of Business Administration; Master of Business Law	6.5	6.5	7.0	637 paper, 110 internet (25 in each section)	5.5

English Entry for physiotherapy, nursing, psychology and pharmacy courses can only be met by IELTS or OET (Occupational English Test). TOEFL is not acceptable.

Note 1: Australian Health Practitioner Regulation Agency (AHPRA) guidelines exist for physiotherapy and psychology courses. These guidelines require students undertaking postgraduate clinical placements to obtain limited or provisional registration, which requires applicants to achieve an IELTS score of 7.0 across all bands or an overall pass in the OET with grades A or B in each of the four components. Therefore, the University will require any student undertaking these courses to submit an IELTS or OET prior to being eligible for admission into the mainstream course. At time of publication no other tests of English will meet AHPRA requirements. Further information is available from www.ahpra.gov.au

Note 2: Applicants who complete a bachelor degree course in which English was the language of instruction will be considered on a case-by-case basis.

Note 3: Students applying from certain countries (such as China and India) will be required to undertake an IELTS test in order to be issued with a student visa by the Australian Government.

2013 POSTGRADUATE COURSES, FEES AND INTAKES

STANDARD MASTER DEGREE KEY

Master of Creative Arts	MCA
Master of Business Administration	MBA
Master of Arts	MA
Master of Commerce	MCom
Master of Engineering Science	MEngSc
Master of Engineering	MEng
Master of Applied Science	MAppSc
Master of Philosophy	MPhil
Master of Science	MSc

COURSE TABLE NOTES KEY

- * Course undertaken on a 75-credit point per semester basis
- ^ Entry offered on a case-by-case basis
- # Course requires supplementary information as part of the application process. Please visit international.curtin.edu.au/apply

FEE INFORMATION

The tuition fees (shown in Australian dollars) are based on a normal full-time workload of 100 credits per semester (200 credits per year) unless otherwise stated. Students studying more than 100 credits per semester will have a higher annual tuition fee. The tuition fee is calculated and charged on a semester or, where appropriate, trimester basis. A student should expect that the indicative semester/trimester course fee, as shown on the Letter of Offer, might vary from the actual tuition fee depending on the units (subjects) undertaken.

The actual tuition fee is not calculated until enrolment is completed. To calculate the actual course fee, you can refer to the unit (subject) fee that is listed at fees.curtin.edu.au/course_fees.cfm

The total indicative course fee is an estimate of the total fee for the entire duration of the course and includes estimated indexed yearly increases. Indicative essential incidental fees are for items such as extra lab materials or materials specific to that course. All fees listed are subject to annual increases. Information is correct as at January 2012 and is subject to change.

REFUND AGREEMENT

The categories under which the University Fees Centre will assess an application for refund are laid out in the University's International Student Refund Agreement.

The Agreement stipulates the circumstances that determine the levels of reimbursement that a student applying for refund is eligible to receive.

The Agreement is supplied to you with your Letter of Offer and can also be accessed online at fees.curtin.edu.au/refunds_forms.cfm

Please refer to fees.curtin.edu.au/refunds.cfm for the most up-to-date information as the policy is subject to change from time to time.

MASTER DEGREE COURSE INFORMATION

Master of Accounting

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 020879A

MAcc

Designed for graduates working or seeking to work in a field that requires specialised knowledge in accounting. This course enhances knowledge and skills in accounting and related aspects of financial management and business law, in order to equip students for a career in professional accounting and related fields in Australia and internationally.

Professional Recognition

The course is designed to meet the educational requirements for membership of the Institute of Chartered Accountants in Australia (ICAA) and CPA Australia.

Course Structure

YEAR 1, SEMESTER 1
Managerial Accounting 530
Financial Accounting 520
Quantitative Methods for Accounting 516
Fundamentals of Business and Corporations Law 565

YEAR 1, SEMESTER 2

Accounting Information Systems 531
OR Auditing 551
Corporate Accounting Issues 521
Finance Principles 515
Economic Principles 515
OR Taxation 531

YEAR 2, SEMESTER 1

There are optional units in Year 2, Semester 1 including:
Accounting and Electronic Commerce 524
Analysis of Financial Statements 525
International Accounting 514
Accounting Computer Packages 505
Economic Principles 515
International Business Law 533

Master of Commerce (Accounting)

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 042166G

MCom

This course is designed to suit the objectives of students who wish to advance towards a PhD in selected areas of the accounting discipline. It aims to develop research expertise in a field of accounting and financial decision-making through a combination of advanced studies and a thesis.

Course Structure

YEAR 1, SEMESTER 1

Advanced Research Methods (Qualitative) 603
Introduction to Research Methods 601
Accounting (Managerial) 565
Accounting (Financial Theory) 561

YEAR 1, SEMESTER 2

Accounting (Advanced Auditing) 576
Advanced Research Methods (Quantitative) 602
Accounting (Financial Issues) 562

YEAR 2, SEMESTER 1

Integrated Business Research Strategy 700

YEAR 2, SEMESTER 2

Accounting - Thesis
Optional units including:
Finance (International) 573
Accounting (Business and Society) 571
Human Resource Management (Overview) 560
Accounting (Public Sector) 567
Auditing (Issues) 570

Master of Science (Actuarial and Financial Science)

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 054627G

MSc

The course is designed to prepare graduates with a solid foundation of financial mathematics and actuarial science, for employment as financial advisors to a wide range of commercial organisations including insurance companies, investment and superannuation funds, banks and stockbrokers, as well as governments.

Professional Recognition

Graduates are eligible for membership of the Australian mathematical society.

Course Structure

Majors, Streams or Other Core Components

Finance (Corporate) 572
Finance (Derivative Securities) 574
Finance (Principles) 515
Life Contingencies 501
Risk Analysis and Credibility Theory 502
Survival Analysis 501
Theory of Interest 502
Master Project 503
Investment Science 501
Optional units including:
Finance (Analysis) 506
Actuarial Statistics 501
Life Contingencies 502
Investment Science 502
Advanced Optimisation Techniques 501

Master of Advanced Accounting

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 049884K

MAdvAcc

This course is designed for those wanting to develop advanced accounting skills to assist in providing high-level advice to management and governing bodies. It examines advanced accounting and auditing issues and assists in developing potential in real work situations. Participants are encouraged to apply and test these ideas in the workplace, and evaluate them in light of individual experience.

Course Structure

YEAR 1, SEMESTER 1

Accounting (Business and Society) 571
Accounting (Information Systems) 572
Accounting (Financial Issues) 563
OR Auditing (Issues) 570
OR Accounting (Managerial) 565

YEAR 1, SEMESTER 2

Accounting (Statement Analysis) 573
Accounting (Financial Issues) 562
OR Accounting (Advanced Auditing) 576
OR Accounting (Managerial) 566
Accounting (Governance and Ethics) 564

Optional units including:

International Banking 563
Finance (International) 573
Comparative Management 601
Accounting (Public Sector) 567

Master of Applied Design and Art

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 027224F

MAppDesArt

The Master of Applied Art and Design will enable students and professionals to reach a high level of expertise and qualification in contemporary design and art practice. The course aims to develop creative and professional skills through studies in cross and interdisciplinary design and art practice. It is suited to applicants with knowledge and expertise from other disciplines as well as those with formal qualifications in art and design. Students will learn through discussion, reflection and the production of original and innovative solutions to studio-based or industrial-related projects. The study program encourages independent research, originality, creative leadership and awareness of the needs of contemporary society.

Professional Recognition

Graduates are recognised by professional associations such as the National Association for the Visual Arts (NAVA) and the Design Institute of Australia. Graduates are also eligible for membership in the Australia Graphic Design Association, Perth Art Directors Club, The Design Management Institute, and Design Institute of Australia, Perth Institute of Contemporary Art (PICA), Arts Source: The Artists Foundation of Western Australia, and FORM (originally CraftWest).

Course Structure

YEAR 1, SEMESTER 1

Research Seminar 591
Academic Practice 501
Select two options

YEAR 1, SEMESTER 2

Academic Practice 502
Project Development 591

MASTER DEGREE COURSE INFORMATION

Master of Applied Economics

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 055646G
MAppEcon

This course provides a foundation in the core principles of economics as well as intermediate units in microeconomics, macroeconomics, econometrics and economic policy. Students will gain an understanding of economic relationships and the tools of analysis to understand today's economic problems. It will appeal to graduate students who are working in areas of applied economics and is particularly suitable for careers in private business, the public sector, teaching, banking and consulting.

Professional Recognition

Graduates are eligible for associate professional membership of the Economic Society of Australia (WA Branch).

Course Structure

YEAR 1, SEMESTER 1
Economic Principles 515
Introductory Econometrics 511
Finance Principles 515
Environmental Economics for Business 501

YEAR 1, SEMESTER 2
Macroeconomics 500
Microeconomics 500
Economic Theory 500
Introduction to Research Methods 601

YEAR 2, SEMESTER 1
Business Project Economics and Finance 695
There are optional units to select from with no year level specified.
International Trade 501
Econometrics 513
Economics Asian Development 507
International Economics 511
Economic Policy 506
Public Economics 512

Master of Architecture

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 058728C
MArch

This course follows on from the Bachelor of Applied Science (Architectural Science) and is designed to provide students with the educational qualification component that forms part of the requirements for registration as architects and for membership of the Royal Australian Institute of Architects.

Professional Recognition

This course is recognised by the Architects' boards in all states and territories of Australia as the academic component of requirements for establishing eligibility to be registered as an architect in the respective state or territory. In addition to the degree, completion of approved postgraduate practical experience and the passing of Architects Accreditation Council of Australia architectural practice examinations are required for registration. This course is also recognised by the Royal Australian Institute of Architects for membership, and the Commonwealth Association of Architects.

Course Structure

YEAR 1, SEMESTER 1
Architecture and Culture 541
Architectural Research Methods 541
Architectural Design 541
Architectural Law and Contracts 541

YEAR 1, SEMESTER 2
Architecture and Culture 542
Architecture Special Topic 542
Architectural Design 542
Architectural Practice and Specifications 542

YEAR 2, SEMESTER 1
Architectural Dissertation Preparation 651
Architecture Special Topic 651
Architectural Coordination 651
Architectural Design 651

YEAR 2, SEMESTER 2
Architectural Management 652
Architectural Dissertation 659

Master of Arts (Applied Linguistics)

Expected time to complete: 1.0 Year
Completion Credit Value: 200.00
CRICOS Code: 023985G
MA

This course is designed for professionals already in the field of language teaching. The course, which concentrates on teaching English to speakers of other languages (TESOL), considers issues connected with TESOL teaching in Australia and the region. The course is designed for teachers intending to work in Australia and overseas and is available to international students.

Course Structure – Coursework Stream

YEAR 1, SEMESTER 1
Language Analysis and Language Learning 681
Language Teaching and Learning Styles 683
Teaching English to Speakers of Other Languages 668
World Englishes 602

YEAR 1, SEMESTER 2
Language Analysis and Language in Society 682
Foundations of Educational Research 620
Language Teaching Course Design and Assessment 684
Language Studies 672

Course Structure – Research Stream

YEAR 1, SEMESTER 1
Language Analysis and Language Learning 681
Language Teaching and Learning Styles 683
Foundations of Educational Research 620
Dissertation Proposal 639

YEAR 1, SEMESTER 2
Language Analysis and Language in Society 682
Language Teaching Course Design and Assessment 684
Masters Dissertation 696

For important notes on all courses and fees turn to page 51.

Master of Arts - Art

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 061490E
MA(Art)

This course provides the opportunity to intensively develop talents, concepts and expertise in one of the four major study areas currently offered within the Department of Art. The Master of Arts course is designed to enable students to reach a high level of professionalism and qualification in contemporary art practice and related contextual studies. A Master of Art (Art) degree means that graduates have achieved something beyond the ability to produce work of technical proficiency. Whilst proficiency and professionalism are valued, strong emphasis is placed on the development of the sense of self and a realisation of a creative practice in the visual arts. To this end students are encouraged to examine rigorously their philosophical and cultural preconceptions so that they can explore both artistically and intellectually the possibilities of their practice within contemporary culture. The school encourages pluralism and supports a range of diversity of artistic attitudes and students are encouraged to develop any aesthetic or stylistic program they choose. Hence MA (Art) candidates need to reveal a promise of achievement. Students complete a core program of theory and research seminars as part of their Major study. Students completing the Master program will be able to graduate with one of the following awards: Master of Arts (Visual Arts); Master of Arts (Electronic Arts); Master of Arts (Jewellery Production); or the Master of Arts (Textiles).

Professional Recognition

Students are able to acquire professional skills and knowledge in art at a graduate level. The course allows for discipline specific or interdisciplinary in depth studies in contemporary art practice.

The quality of practical industry skills you may gain are recognised by professional associations such as the National Association for the Visual Arts (NAVA). Graduates are also eligible for membership in the Perth Institute of Contemporary Art (PICA), Arts Source: The Artists Foundation of Western Australia, and FORM (originally CraftWest).

Course Structure

Majors

Electronic Arts Major
OR Textiles Major
OR Jewellery Production Major
OR Visual Arts Major

Master of Biomedical Science

Expected time to complete: 2.0 Years
Completion Credit Value: 300.00
CRICOS Code: 058864F
MBS

Biomedical science is a rapidly growing field of science, with increasing application to everyday life all over the world. It affects everyone in many ways, from the development of new medicines and drugs to the creation and delivery of diagnostic technologies and progress towards revolutionary clinical therapies. This course is designed for those seeking to understand the application of the most recent laboratory, computer, and industrial technology developments in the biological sciences, within a medical context. It examines the latest knowledge and technologies in research, diagnosis, epidemiology, microbiology, biotechnology, and data analysis, and combines this with hands-on laboratory work. Within the Masters coursework program, students select from one of three major streams: Molecular Biotechnology, Infectious Diseases, or Biomedical Science. This course encourages professional and personal development through active learning. Among the different units, students apply and test the knowledge gained through information gathering, report writing, and professional level oral presentations. Practical experience is obtained through a molecular techniques workshop or project.

Professional Recognition

Students will be eligible for membership of Australian Biotechnology Association and equivalent industry organisations internationally.

Course Structure

Majors, Streams or Other Core Components

Molecular Biotechnology Major

YEAR 1, SEMESTER 1
Molecular Genetics 631

YEAR 1, SEMESTER 2
Drug Discovery and Development 631

YEAR 2, SEMESTER 1
Bioinformatics 631

MASTER DEGREE COURSE INFORMATION

Master of Business Administration

Expected time to complete: 1.5 Years

Completion Credit Value: 300.00

CRICOS Code: 074577B

MBA

The Master of Business Administration (MBA) is offered through the Curtin Graduate School of Business (CGSB), one of the largest executive graduates business schools in the Asia Pacific Region and located in the heart of the Perth CBD. The MBA, which is internationally accredited by the UK based Association of MBAs (AMBA) is also one of the few MBAs in Australia to be internationally ranked by the Economist. In November 2009 the course was awarded a prestigious Australian Learning and Teaching Council (ALTC) award for post-graduate courses that enhance learning. December 2010 the online component of the MBA was awarded Technology Enhanced Learning (CEL) accreditation by the European Foundation for Management Development (efmd). The MBA curriculum has a highly applied and practical focus and is delivered by business practitioners as well as award winning academic faculty and international visiting professors. It is designed to build business acumen amongst middle and senior managers by providing a broad-based business content tailored for experienced managers drawn from across a range of industry sectors. The course structure meets the needs of busy working professionals with many units offered in intensive (block), evening and online. The typical student in the MBA is around 34 years of age and brings a high level of experience to the course.

Course Structure

Oil and Gas Management (Robert Gordon University)
Energy Policy and the Environment (Robert Gordon University)

Master of Business Administration (Advanced)

Expected time to complete: 2.0 Years

Completion Credit Value: 400.00

CRICOS Code: 071713A

MBA(Adv)

The Master of Business Administration (MBA) offered through the Curtin Graduate School of Business (CGSB) is an award winning, internationally accredited and internationally ranked program. In November 2009 it won the prestigious Australian Learning and Teaching Council award for post-graduate programs that enhance learning. The MBA is internationally ranked by the Economist Intelligence Unit (only 4 Australian MBA programs are in the global top 100) and internationally accredited by the Association of MBAs (AMBA). The Master of Business Administration (Advanced) is a sixteen (16) unit (or 400 credit point) degree combining the business acumen of the 12 unit (300 credit point) MBA with advanced units in leadership and ethics for students in senior and executive roles dealing with complex organisational and leadership challenges. The CGSB is renowned for teaching excellence and as a school caters to an exclusive market of post-experienced managers and senior managers. It has particular strengths in strategy, leadership, energy and resources.

Course Structure

Master of Business Law

Expected time to complete: 1.5 Years

Completion Credit Value: 300.00

CRICOS Code: 074695G

MBusLaw

This course is designed to suit the various objectives of those intending to pursue postgraduate studies in business law. It develops a high level of expertise in a functional area of business through a combination of advanced studies in the Business Law field. It explores a particular aspect of a functional area of business through an in-depth study of business law.

Course Structure

YEAR 1, SEMESTER 1

Competition and Consumer Protection Law 505
Fundamentals of Business and Corporations Law 565

YEAR 2, SEMESTER 1

Business Law Research Project 593

Optional units including:

Banking Law 551
Law Torts 502
International Business Law 533
Taxation 531
Public Relations Law 511
Intellectual Property Law 570
Advocacy Law 580
Environmental Health Law 682

Master of Commerce (Business Law)

Expected time to complete: 2.0 Years

Completion Credit Value: 400.00

CRICOS Code: 042167G

MCom

This course is designed to suit the various objectives of those intending to pursue postgraduate studies in business law. It develops a high level of expertise in a functional area of business and management through a combination of advanced studies in the field. It explores a particular aspect of a functional area of business and management through an in-depth study of business law.

Fundamentals of Business and Corporations Law 565

YEAR 2, SEMESTER 1

Business Dissertation (Business Law) 691
Business Research Project (Business Law) 593
Law (Advanced Topics) 650

Optional units including:

Competition and Consumer Protection Law 505
Applied Contract Law 513
Law (Corporation) 564
Occupational Health and Safety and Human Resources Law 563
Advanced Industrial Law 573
Land Law 550
Employment Law 572

Master of Business Leadership

Expected time to complete: 1.5 Years

Completion Credit Value: 300.00

CRICOS Code: 074578A

MBL

The Master of Business Leadership (MBL) is a specialist degree dedicated to the pursuit of leadership excellence. It is offered through the Curtin Graduate School of Business (CGSB), one of the largest executive graduates business schools in the Asia Pacific Region and located in the heart of the Perth CBD. It is taught alongside the Master of Business Administration (MBA), which is internationally accredited by the UK based Association of MBAs (AMBA) and is one of the few MBAs in Australia to be internationally ranked by the Economist. The MBL is one of the longest running masters level leadership programs in Australia and is designed for students with senior and executive level experience. The curriculum builds on the business acumen acquired in an MBA and offers students a more detailed understanding and engagement with current and future leadership challenges. Students are constantly required to analyse and reframe leadership concepts alongside their own leadership styles. Graduates leave with a more strategic understanding and engagement with leadership. The typical student in the program is in their late 30s/early 40s and has often completed an MBA before commencing the MBL.

Course Structure

YEAR 1, TRIMESTER 1

Philosophy and Ethics 620

ChE 599 Design Project

YEAR 2, SEMESTER 1

Research Project 591
OR Research Project 592
OR Research Project 593
OR Research Project 59
OR Research Project 595

Optional units in Year 1 including:

Process Heat Transfer 511
Fluid Mechanics 512
Reaction Engineering 515
ChE 542 Advanced Separation Processes
Mineral Processing 552
Petroleum Processing 553
Process Plant Engineering 518
Mass and Energy Balances 521
ChE 523 Advanced Particle Processes
Fundamentals of Air Pollution Control 522
Wastewater Treatment 502
Fundamentals of Oilfield Processing 504
Thermodynamics 520
Corrosion and Corrosion Prevention in Liquids 500

MASTER DEGREE COURSE INFORMATION

Master of Pharmacy (Clinical Pharmacy)

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 004010K

MPharm

This course provides advanced knowledge and skills in hospital pharmacy, with a focus on enhanced clinical pharmacy and clinical research capability.

Professional Recognition

Registered pharmacists who successfully complete the course may apply for continuing professional development (CPD) credits. The award of this course does not qualify a graduate for registration as a pharmacist in Australia.

Course Structure

YEAR 1, SEMESTER 1

Health Research Methods 681

Drug Information 528

Pharmaceutical Formulation 527

Clinical Pharmacy 527

YEAR 1, SEMESTER 2

Pharmacoeconomics 528

Clinical Pharmacokinetics 528

Clinical Pharmacy 528

YEAR 2, SEMESTER 1

Clinical Pharmacy Project 697

There are optional units to select from in Year 2, Semester 1.

Oncology 628

Paediatric Pharmacy 628

Drug Monitoring 628

Master of Clinical Physiotherapy

Expected time to complete: 1.0 Year
Completion Credit Value: 200.00
CRICOS Code: 049888F

MClinPhysio

This course has been developed to provide graduates with the opportunity to continue their professional development as a lifelong learner. Students are provided with advanced theoretical knowledge, contemporary clinical practice and clinical research opportunities.

Professional Recognition

Contenance and Women's Health Major

Completion of a Postgraduate Diploma or Master of Clinical Physiotherapy (Contenance and Women's Health) is required for registration as a Contenance and Women's Health Physiotherapist with the Physiotherapists Registration Board of WA. The academic pathway to titled membership of the Contenance and Women's Health Group of the Australian Physiotherapy Association requires a postgraduate coursework Masters in the field of Contenance and Women's Health Physiotherapy. A coursework Masters in Contenance and Women's Health will facilitate specialist recognition in this field by the Australian College of Physiotherapy.

Manipulative Therapy Major

Graduates who are registered with the Physiotherapists Registration Board of

Western Australia can apply to have this qualification listed. The award of Master of Clinical Physiotherapy (Manipulative Therapy) qualifies graduates for level two membership of Musculoskeletal Physiotherapy Australia (MPA), which is a special interest group of the Australian Physiotherapy Association. The MPA is a member of the International Federation of Orthopaedic Manual Therapists. Titled membership of MPA provides the first stage towards Fellowship of the Australian College of Physiotherapy and recognition as a Specialist Physiotherapist.

Master of Engineering Science (Communications Networks)

Expected time to complete: 2.0 Years
Completion Credit Value: 300.00
CRICOS Code: 058863G

MEngSc

Over the last three decades, the growth in communications has been significantly higher than almost any other industrial field. Over this time, though, there has been a shift from traditional telecommunications to data communications and especially networks where hundreds and in many cases thousands of electronic systems are interconnected. While the Internet continues to attract much of the publicity, the greater significance has been the adoption of networks by numerous organisations to support their internal activities. This may be as simple as supporting their PC networks in administration functions to supporting their manufacturing, support, marketing and service activities. All of these are expected to grow strongly in the future. Naturally there are many companies providing components for such networks. However, there is also the need for engineering teams to select and configure such components into an effective network that supports an organisation's objectives. Equally, there is a need to manage, support and evolve existing networks so that can meet current and future requirements. This is the thrust of this degree.

Professional Recognition

Students entering this degree are assumed to have achieved professional recognition through their undergraduate degree or industrial activities.

Course Structure

YEAR 1, SEMESTER 1

Digital Communications Engineering 601

Stochastic Processes for Telecommunications Systems 601

Network Design 603

YEAR 1, SEMESTER 2

Master of Counselling

Expected time to complete: 2.0 Years
Completion Credit Value: 350.00
CRICOS Code: 062559C

MCouns

The Master of Counselling provides students with the theoretical principles of counselling, sociocultural contexts, advanced counselling practice, experiential skills development and supervised practicum experience in external agencies. This course is designed for health professionals, psychologists, pastors, educationists, social workers and other human service workers who wish to advance their career in the field of counselling. Two streams are offered: Counselling or Addictions. The course is suitable for practitioners who intend to work in a variety of private or public domains. A feature of the program is flexibility, enabling focus on specific areas of interest with didactic and experiential units. The experienced counsellors and psychologists in the program utilise teaching and learning practices designed to broaden analytical thinking and critical evaluation, synthesise and integrate information, develop professional competence, assess theoretical concepts, formulate hypotheses and propose appropriate models for working with clients. The program also builds upon a student's reflective practice to provide the potential for greater self-awareness and create the essentials for building a therapeutic alliance.

Professional Recognition

Graduates of the program are eligible for membership to the Psychotherapists and Counsellors Association of Western Australia (PACAWA) and the Psychotherapists and Counsellors Federation of Australia (PACFA).

Master of Creative Practice

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 074659M

MCreatPrac

This course is designed for those seeking to develop an understanding of creative practice in the current environment. Students develop critical and analytical understandings, as well as practical and professional skills orientated towards a career in one of three main disciplines, in a combination of those disciplines, or a related area such as performance art or education. Students also gain generic skills that are valuable in a range of situations, including leadership, problem-solving and working collaboratively in a team. Participants are encouraged to apply and test these skills and understandings through applied practice in the form of a professionally-orientated creative project.

MASTER DEGREE COURSE INFORMATION

Master of Education

Expected time to complete: 1.0 Year
Completion Credit Value: 200.00
CRICOS Code: 004005G
MEd

This one-year course is for educators who hold a four-year teacher education degree or equivalent. The course consists of a core research component involving research preparation and a dissertation together with a coursework component. Successful completion of the course may enable students to undertake doctoral level study. Subject to approval by the Head of School students may substitute two additional, optional coursework units for the core research component Masters Dissertation 696.

Course Structure

Select eight optional units.

Optional units including:

Curriculum and Program Evaluation 634
Foundations of Educational Research 620
Language Analysis and Language in Society 682
Interactive Learning Technologies 672
Educational Innovation and Change 631
Educational Leadership 641
Language Teaching and Learning Styles 683

Master of Engineering Science (Electrical Engineering)

Expected time to complete: 1.0 Year
Completion Credit Value: 200.00
CRICOS Code: 042175G
MEngSc

This course is designed to allow a graduate in engineering to proceed to further studies in a particular field by means of advanced coursework and a project. With the approval of the course coordinator, an appropriate unit from the Curtin Business School or Department of Computer Science may be included in the course.

Course Structure

Master of Engineering Management

Expected time to complete: 1.0 Year
Completion Credit Value: 300.00
CRICOS Code: 058865E
MEngMgmt

An engineering management role is the long term function of many practising engineers. The need for engineering oriented management skills increases with career development. Many graduate engineers have received only an introduction to management topics at first degree level, some may have had none at all. Undergraduate management training should only be regarded as a base for enhancement of management skills by further advanced study. The Master of Engineering Management program provides a balance between engineering and business skills and is jointly taught by staff from the Department of Civil Engineering and the Curtin Business School in a format that integrates the functions and skills needed by engineers in management.

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 032986K
MFinPlan

This program is designed to provide a sound understanding of the process of financial planning, together with the fundamental skills and knowledge required in professional practice. The course provides a good foundation for those wanting to gain employment in the finance industry, and also enables professionals currently employed in these areas to further develop their skills.

Professional Recognition

This course is accredited by the Financial Planning Association of Australia (FPA) as an approved postgraduate qualification providing advanced standing to the education program component of the CERTIFIED FINANCIAL PLANNER® certification for those who would be a CFP® practitioner. It provides exemptions for the technical education component of the program: CFP2, CFP3 and CFP4. The course is on the financial services training register as meeting the knowledge and skill requirements of the Australian Securities and Investments Commission (ASIC) Regulatory Guide (RG) 146.

Epidemiology and Biostatistics 481

YEAR 2, SEMESTER 2
Research Dissertation 601
Epidemiology and Biostatistics 482
There are optional units to select from in Year 2, Semester 1.

Current Marketing Issues 600
Foundations of Public Health 681
Post Harvest Horticulture and Quality Management 501
Environmental Issues in Business 501
Cleaner Production Tools 603
Environmental Health Management 683
Special Topics in Food Science and Technology 583
Seafood Technology 502
Food Science Professional Placement 381
Managerial Leadership 561
Organisational Behaviour 550
Buyer Behaviour and Analysis 561

MASTER DEGREE COURSE INFORMATION

Master of Science (Geology)

Expected time to complete: 1.0 Year
Completion Credit Value: 200.00
CRICOS Code: 003980A
MSc

This course provides advanced technical and professional training for those intending to upgrade their geology qualifications or re-train in a new branch of geoscience. Streams are available in Basin Analysis and Petroleum Geology, Mineral Exploration and Mining Geology, and Environmental Geoscience and Hydrogeology.

Course Structure

Majors, Streams or Other Core Components

Basin Analysis and Petroleum Geology Stream

YEAR 1, SEMESTER 1
Geology Project 601

YEAR 1, SEMESTER 2
Geology Project 604

There are optional units to select from in Year 1, Semester 1.

Petroleum Geophysics 344
Fundamentals of Reservoir Engineering 605
Formation Evaluation 604
Petroleum Economics and Project Management 602
Introduction to Seismic Exploration 603
Geoscience Professional Practice 501
Basin Analysis and Energy Resources 511
Field Mapping of Sedimentary Basins 591
There are optional units to select from in Year 1, Semester 2.
Tectonics and the Dynamic Earth 502
Geographic Information Systems 581
Geophysics 624 - Seismic Interpretation
Environmental Geoscience 532

Mineral Exploration and Mining Geology Stream

YEAR 1, SEMESTER 1
Geology Project 601

YEAR 1, SEMESTER 2
Geology Project 604

There are optional units to select from in Year 1, Semester 1.

Geographic Information Systems 581
Remote Sensing and Image Processing 581
Geoscience Professional Practice 501
Hydrogeology and Engineering Geology 531
Ore Deposits 521
Mining Geology and Resource Estimation 521
There are optional units to select from in Year 1, Semester 2.
Introduction to Geophysical Mineral Exploration Methods 243
Tectonics and the Dynamic Earth 502
Environmental Geoscience 532
Regolith Geology and Mineral Exploration 522
Geology Mapping Project 592

Environmental Geoscience and Hydrogeology Stream

YEAR 1, SEMESTER 1
Geology Project 601

YEAR 1, SEMESTER 2
Geology Project 604

There are optional units to select from in Year 1, Semester 1.

Remote Sensing and Image Processing 581
Environmental Impact Assessment 301
Geoscience Professional Practice 501
Hydrogeology and Engineering Geology 531
Field Mapping of Sedimentary Basins 591
There are optional units to select from in Year 1, Semester 2.

Geographic Information Systems 581
Environmental Geophysics 618
Geophysics 626 - Borehole Geophysics
Environmental Geoscience 532

Master of Science (Geophysics)

Expected time to complete: 1.0 Year
Completion Credit Value: 200.00
CRICOS Code: 012244C
MSc

The course format is directly comparable to the postgraduate diploma. It is only open to persons who already have an honours degree or equivalent. As such it is particularly suited to senior geophysicists who wish to become familiar with recent geophysical developments. The coursework elements must be new to the student and are selected in consultation with the course coordinator or Head of Department. A minor project with a formal report is required.

Professional Recognition

The Commonwealth Public Service Board accepts the Master of Science in Geophysics as satisfying its requirements for appointment as a professional geophysicist. A degree in geophysics satisfies the academic requirements for membership to The Australian Society of Exploration Geophysicists, The Australasian Institute of Mining and Metallurgy, The Society of Exploration Geophysicists (USA) and the European Association of Geoscientists and Engineers.

Course Structure

YEAR 1, SEMESTER 1
Geophysics Workshop 623 - Seismic Processing
Geophysics 632 - Advanced Electromagnetics and Potential Fields
Geophysics 621 - Theoretical Geophysics
Geophysics Project 625 Part A
OR Geophysics Project 634 Part A

YEAR 1, SEMESTER 2
Geophysics 624 - Seismic Interpretation
Geophysics 626 - Borehole Geophysics
Near Surface and Engineering Geophysics 631
Geophysics Project 625 Part B
OR Geophysics Project 634 Part B

There are optional units to select from in Year 1, Semester 1.

Geophysics 620 (Specialised Topic)
Geophysics 625 - Rock Physics
Geophysics 633 - Geophysics Applied to Mineral Exploration
Geophysics 665 (Specialised Topic)
Geographic Information Systems 581

There are optional units to select from in Year 1, Semester 2.

Geophysics 622 - Seismic Modelling and Amplitude Variation with Offset
Geophysics 630 (Specialised Topic)
Geophysics 634 - Inverse Theory and Applications
Geophysics 666 (Specialised Topic)
Geophysics Workshop 622 - 3D Seismic Processing

Master of Science (Geospatial Science)

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 056083G
MSc

This course provides an opportunity for students to develop their knowledge and skills in the geospatial sciences and undertake a significant investigation in the theory and application of geospatial technologies and systems. Units and project topics explore problems of continuing or emerging significance and often will relate strongly to relevant problems of industry and government. A student will not be permitted to progress in the Master program unless a mark of 65 per cent is achieved in the first 200 credits worth of units. Students who do not achieve this level of academic performance may apply for an intermediate award.

Professional Recognition

Graduates are eligible for membership in the Spatial Sciences Institute.

Course Structure

Majors, Streams or Other Core Components

Optional units including:
Applications of Global Positioning Systems 681
Business Principles for Spatial Professionals 581
Modelling Techniques for Spatial Data 681
Geographic Information Systems 581
Precise Engineering and Deformation Surveys 682
Applied Geodetic Surveying 682
Plane and Construction Surveying 581
Coordinate and Mapping Systems 582

Master of Health Administration

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 006110A
MHA

This course requires two years of full-time study. The first year of study is usually equivalent to the Postgraduate Diploma in Health Administration course, following which students may apply to enter the master degree program. Students accepted directly into the master degree complete appropriate additional units to those of the Postgraduate Diploma and select one of two study options, research and thesis, or coursework and project. Students who enrol in the thesis option will be required to conduct an applied research project. The second option, coursework and project, will allow the student to complete further study at the postgraduate level. The project component of the course involves an approved six-month project and the submission of a report.

Course Structure

YEAR 1, SEMESTER 1
Health Policy 681
Health Services Management 584

YEAR 1, SEMESTER 2
Health Planning and Evaluation 582
Health Services Quality Development 583
Health Economics 584

YEAR 2
Research Project 650
OR Research Dissertation 600
Optional units including:
Health Research Methods 681
Ethics in Public Health Practice 683
Health Services Financial Management 585
Introduction to Health Informatics 681
Organisation of Health Care Systems 682
Leadership in Health Care 682

Master of Health Information Management

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 074563G
MHIM

This Graduate Entry Master (GEM) of health information management enables talented students to obtain a degree that combines the scientific, technical and administrative expertise expected of an entry level health information manager. Successful completion of this degree will ensure graduates obtain the skills to be competent professionals in the field of health information management. In addition, staff have strong links with local, national and international health and information professions, ensuring students have extensive hands-on experience throughout their studies. The health information manager is the bridge between the clinical, management and systems aspects of health and is a fulfilling profession responsible for the collection, storage, analysis and distribution of health care information. The unique competencies of health information managers ensure excellent career opportunities both within Australia and internationally.

Course Structure

YEAR 1, SEMESTER 1
Clinical Classification 282
Foundations of Health Information 681
Health Data and Information Analysis 681
Introduction to Health Informatics 683

YEAR 1, SEMESTER 2
Health Research Methods 681
Health Services Quality Development 583
Professional Practice of Public Health 683
Casemix and Data Quality 682

YEAR 2, SEMESTER 1
Clinical Classifications 381
Health Information Management 681
Indication of Clinical Conditions 681
Electronic Health Records 681

YEAR 2, SEMESTER 2
Research Project 650
Advanced Health Informatics 682
Health Information Management 682

MASTER DEGREE COURSE INFORMATION

Master of Health Promotion

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 027228B
MHithProm

This course has been developed to further knowledge and increase skills in the major principles pertaining to health promotion. Current issues in optimising health and prevention of disease are addressed, research skills are developed, and planning, implementation and evaluation of health promotion programs in various settings are undertaken.

Course Structure

YEAR 1, SEMESTER 1

Health Research Methods 681
Health Promotion Planning 681
Health Promotion Methods 682

YEAR 1, SEMESTER 2

Health Promotion, Media and Advocacy 680
Evaluation of Health Promotion 687
Epidemiology and Biostatistics 682

YEAR 2, SEMESTER 1

Research Project 650
OR Research Dissertation 600
Optional units in Year 1 including:
International Health 581
Public Health Nutrition 681
Mental Health Promotion 690
Physical Activity and Health 692
Behaviour Change Communication 685
Settings in Health Promotion 688
Sexology Challenges and Opportunities 682
Nutrition for Developing Countries 591

Master of Health Services Management

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 027229A
MHSM

This course further develops the ability to plan, manage, monitor and coordinate systems of healthcare delivery. It is designed to equip individuals with the knowledge and skills necessary to hold senior management, administrative and planning positions within health service institutions. It is aimed at both health professionals wishing to acquire management and administrative skills and non-health professionals intending to seek a career in health services management.

Course Structure

YEAR 1, SEMESTER 1

Health Policy 681
Health Services Management 584

YEAR 1, SEMESTER 2

Health Planning and Evaluation 582
Health Services Quality Development 583
Health Economics 584

YEAR 2, SEMESTER 1

Research Project 650

Business Ethics 567
Employment Law 572
Advanced Industrial Law 573
Employee Relations in Australia 560
Comparative Industrial Relations 562
Managerial Leadership 561

Master of Human Rights

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 061485B
MHumRights

The Human Rights course is designed to promote a critical understanding of the human rights discourse. The course covers modern human rights institutions and how these work for state and non-state actors. The course also explores the political, historical and philosophical development of ideas about human rights which underpin current systems. In recognition of the importance of a globalised understanding of human rights, the course explores ideas about human rights from multi-disciplinary, multicultural and multi-religious perspectives, as well as looks at the roles social movements, grass-roots campaigns and other actors have played in the development of human rights ideas and practices. The course takes a problematising approach to education, provoking students to engage with a range of ideas and perspectives and to develop their own positions. The course employs both theoretical and practical learning methods giving students the chance to put their learning into practice and to pursue individual areas of interest more deeply.

Course Structure

YEAR 1, SEMESTER 1

Human Rights Theory and Philosophy 501
Community Education and Consciousness Raising 503
Human Rights and Development 507
Select one option

YEAR 1, SEMESTER 2

Human Rights History across Cultures and Religions 502
Human Rights Instruments and Institutions 506

Master of Commerce (Information Systems)

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 004009C
MCom

This master degree is designed for information systems and information technology professionals who recognise the need to increase their knowledge or skills in the management and strategic application of information systems and information communication technology in competitive, intelligent and global business environments. The program combines theory, research and practice, and incorporates a range of new concepts, methodologies and technologies relating to information systems, information technology and Internet security. This course is accredited by the Australian Computer Society (ACS).

Professional Recognition

With a prior computing, information systems or information technology related degree, graduates may apply for membership with the Australian Computer Society.

Master of Internet Communications

Expected time to complete: 1.5 Years

Completion Credit Value: 300.00

CRICOS Code: 032988G

MInetComm

The Master of Internet Communications provides you with an opportunity to learn in detail about the human dimensions of the Internet: how people network, collaborate, and share information through Internet communications, media and design. You will develop advanced skills in creating, maintaining and managing online communications for personal and commercial interactions, as well as gaining knowledge of the social and cultural contexts within which those interactions occur. You will also gain advanced research skills through a substantial independent research project. The approach is interdisciplinary: you develop skills in websites, public communication, social network management, collaboration via virtual organisations, and web media production. At the same time you will understand the political, economic and social changes associated with the Internet. By taking this course, you will add to your existing qualification the knowledge and skills needed for you to become an astute, engaged professional communicator via the Internet.

Master of Leadership in Health Improvement

Expected time to complete: 1.5 Years

Completion Credit Value: 300.00

CRICOS Code: 068623G

MLHthImp

This inaugural course is designed for all postgraduate health science, nursing and medical graduates to enhance their knowledge and expertise in leadership and research and the application of patient safety, clinical governance and health improvement in contemporary medical, clinical and health care settings. It provides advanced knowledge and application about health and clinical practice improvement science and theory with specific emphasis on using appropriate research tools and methodologies and leadership qualities to support implementation of clinical practice improvement initiatives within health organisations and settings.

Professional Recognition

It may be possible for some students, including doctors, to use this course as requirements for clinical specialty, vocational training or other health professional association memberships.

Designed for those aspiring to middle, senior and executive level managerial careers. This course features guided independent study, team projects, and maximum use of information and communication technology.

Professional Recognition

Depending upon the major area of study chosen, graduates are eligible for membership to the Australian and New Zealand Academy of Management.

Course Structure

YEAR 2, SEMESTER 1
Introduction to Research Methods 601

YEAR 2, SEMESTER 2
Business Dissertation (Management) 695

Optional units including:

Employee Relations in Australia 560
Global Business 650
Dynamics of International Strategy 601
Managerial Leadership 561
Corporate Strategy 650
Law (Corporation) 564
Cross-Cultural Communication and Negotiation 580
International Management 675
Strategic Human Resource Management 662

Master of Management

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 068618D
MMgnt

This is a challenging and flexible program that develops the skills and competencies, knowledge and confidence to gain employment in the global business environment and to make effective decisions in an increasingly uncertain and volatile business environment. It is designed for those aspiring to middle, senior and executive level managerial careers. The program incorporates working in diverse teams, learning independently and doing a consulting project involving a business placement. Entry into 13310 Consulting/ Internship 600 is competitive and as such internship placements are not guaranteed. Alternative is two postgraduate elective units to the value of 50 credit points.

Professional Recognition

Depending upon the major area of study chosen, graduates are eligible for membership to the Australian and New Zealand Institute of Management.

Course Structure

YEAR 1, SEMESTER 1
Business Ethics 567

OR Managerial Accounting 530
Managerial Leadership 561
Management Overview 560

Cross-Cultural Communication and Negotiation 580

YEAR 1, SEMESTER 2
Current Marketing Issues 600
OR Public Policy Analysis and Design 500
Knowledge Worker Retention 600

YEAR 2, SEMESTER 1
Consultancy/Internship 600

There are optional units to select from with no year level specified.

International Dynamics 601
Creativity and Innovation 600
Dynamic Organisations 600
Contemporary Governance 600

Master of Commerce (Marketing)

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 042171M
MCom

This course develops expertise in a functional area of marketing through advanced studies in the field, emphasising research preparation to be used in exploring a particular aspect of marketing through in-depth research and projects.

Course Structure

YEAR 2, SEMESTER 1
Introduction to Research Methods 601

YEAR 2, SEMESTER 2
Business Dissertation (Marketing) 692

There are optional units to select from with no year level specified.

Business to Business Marketing 630
Global Marketing Communications 560
Advanced Marketing and Business Strategies 640
Marketing Negotiations 610
Marketing of Services 560

Master of Engineering Science (Mechanical Engineering)

Expected time to complete: 1.0 Year
Completion Credit Value: 200.00
CRICOS Code: 042176F
MEngSc

This master's course is essentially a higher degree program specifically designed for graduates with Bachelor of Mechanical Engineering Degrees from overseas allowing them to acquire an Australian postgraduate qualification in mechanical engineering. This program is not available for bachelor of mechanical engineering graduates from Australian universities. The course of study spans over one year or two teaching semesters involving 6 selected course units and supervised project work with a thesis. The study program is available only on Full-time basis and requires students to undertake units equivalent to 100 credit points per semester of study.

Course Structure

YEAR 1, SEMESTER 1
Engineering Project 631

YEAR 1, SEMESTER 2
Engineering Project 632

There are optional units to select from in Year 1, Semester 1.

Machinery Vibration Analysis 631
Industrial Heat Transfer 631
Materials for Severe Environments 631
Mechanical Measurements 631
Design Methodology 631
Sustainable Energy Systems and Technologies 631

There are optional units to select from in Year 1, Semester 2.

Engineering Noise Control 631
Finite Element Modelling 631
Contemporary Dynamic Modelling 631
Industrial Fluid Mechanics 632
Engineering Design for Manufacturing 632

Master of Engineering Science (Metallurgy)

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 054626G
MEngSc

This course provides graduates with detailed knowledge and understanding of core areas of mineral processing and extractive metallurgy, including specialised research project work and report writing. It is suitable to those who wish to gain specialist knowledge and skills in extractive metallurgy and for graduates currently working within the minerals industry who wish to significantly upgrade their metallurgical knowledge with a view to furthering their careers in this field. Accordingly, this course is offered as a part-time full fee paying course, as well as on a full-time basis. All 500 level units are available for external study.

Course Structure

Optional units including:

Mining Project 611
Minerals Project 612
Socio-Environmental Aspects of Mining 531
Process Mineralogy 562
Process Design 562
Engineering Metallurgy 561
Pyrometallurgy 561
Pyrometallurgy 562
Hydrometallurgy 562
Process Control 561

Master of Science (Mineral and Energy Economics)

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 072466C
MSc

This course is building on the foundation studies of business and mining disciplines, this program prepares candidates for more senior management roles in the mining and energy sectors. It focuses on economic, financial and management issues as they relate to both mining and energy. Faculty members are drawn from the Department of Mineral Economics, the Curtin Business School and other Australian and overseas universities, as well as from the resources sector. Furthermore, the course continues to foster a vibrant relationship with the Western Australian School of Mines (WASM). The course will provide students with a thorough foundation in resource sector management and general business theories. The curriculum has a highly applied practical focus and is delivered by leading academics and business practitioners. It seeks to equip graduates with a range of analytical and managerial skills that are suitable for senior management and decision-making roles in resources, mining and energy companies.

Course Structure

YEAR 1, TRIMESTER 1

Mineral Economics Major (MSc)
Non-Technical Background Stream for Mineral Economics Major
OR Technical Background Stream for Mineral Economics Major
OR Energy Economics Major (MSc)
Non-Technical Background Stream for Energy Economics Major
OR Technical Background Stream for Energy Economics Major

Master of Science (Mineral and Energy Economics), Master of Business Administration

Expected time to complete: 2.5 Years
Completion Credit Value: 450.00
CRICOS Code: 050596G
MScMBA

This course combines the financial and economic resource sector focus of the Master program in Mineral and Energy Economics with the Curtin Master of Business Administration (MBA), which is of world-class quality having been internationally accredited by the Association of MBAs (AMBAs). The Curtin MBA also ranks within the top 100 MBAs in the world (The Economist Which MBA? survey). The course will provide students with a thorough foundation in resource sector management and contemporary business theories. Emphasis is also placed on the creation and critical evaluation of innovative ideas and strategies within ambiguous and contemporary business environments. The curriculum has a highly applied practical focus and is delivered by leading academics and business practitioners. It seeks to equip graduates with a range of analytical and managerial skills that are suitable for senior management and decision-making roles in resources, mining and energy companies.

MASTER DEGREE COURSE INFORMATION

Master of Engineering Science (Mining)

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 056851E
MEngSc

This course provides graduates with detailed knowledge and understanding of core areas of mining engineering in addition to advanced knowledge in selected areas of study. It is suitable for those who wish to gain specialist knowledge in mining engineering and for graduates currently working within the mining industry who wish to significantly upgrade their knowledge with a view to furthering their careers in this field. This is achieved by attendance at lectures, seminars and group discussions or by equivalent external study, and the preparation and submission of a thesis-based research project. Accordingly, this course is offered as a part-time full fee paying course, as well as on a full-time basis.

Course Structure

Optional units in Year 1 including:

Minerals Special Unit 611
Mining Project 611
Minerals Project 612

Optional units in Year 2 including:

Minerals Special Unit 611
Mining Project 611
Minerals Project 612

Master of Nursing

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 055648E
MNurs

This course enhances professional career development, preparing nurses for advanced clinical practice with individuals, families, groups and communities. Nursing theory and research as well as professional role development are an integral part of the course, which is focused on the development of the multiple roles of the clinical expert through studies in specialist and advanced practice role development. Fundamental to this course is the development of leadership, critical thinking and clinical decision making capacity, preparing health professionals for a leadership role at an executive level. The Domiciliary Nursing stream prepares registered nurses for a leadership role in domiciliary nursing and focuses on professional accountability and the development of competency at an advanced level in assessment and clinical judgement skills.

Course Structure

Majors, Streams or Other Core Components

General Nursing Stream

YEAR 1, SEMESTER 1
Clinical Leadership 561
Health Research Methods 681

YEAR 1, SEMESTER 2
Clinical Research Methods 684
OR Qualitative Methods in Health Research 582
OR Research and Evaluation in International Health 600
Inquiry into Quality Health Care 532

YEAR 2, SEMESTER 1

Health Project 691
Health Project 692
Optional units including:
Advanced Nursing Practice - Primary Health Care 561
Developmental Health 561
Health Contract 590
Health Project Preparation 591
Managerial Effectiveness 571
Introduction to Dementia Care 511

Domiciliary Stream

YEAR 1, SEMESTER 1

Developmental Health 561

YEAR 2, SEMESTER 1

Health Project 691
Health Project 692

Optional units including:

Living with Diabetes 512
Nutrition Promotion 682
Groups Counselling 500
Refugee and Migrant Health 600
International Health and Primary Health Care 600
Maternal and Child Health in Developing Countries 600

Master of Nursing Practice

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 064467B
MNursPrac

The Master of Nursing Practice is a two-year coursework program leading to eligibility for registration as a nurse with the Nursing and Midwifery Board of Australia. The two-year course comprises of four semesters. The course provides a comprehensive program of study involving a diverse range of simulated practice and fieldwork, interprofessional learning, contemporary blended learning and advanced clinical skill development. The course emphasises the close integration of evidence based theory and clinical practice. Theory content is comprehensive and includes the physical, biological, psychological and social sciences.

Professional Recognition

This course has been designed to meet the regulations of the Nursing and Midwifery Board of Australia. Students who successfully complete the course requirements are eligible for recommendation by the Head of School to the Nursing and Midwifery Board of Australia for registration as Division 1 comprehensive registered nurses. Registration is subject to meeting all requirements of the Nursing and Midwifery Board of Australia. To meet the registration requirements of the Nursing and Midwifery Board of Australia students are expected to complete the course within 5 years. Failure to complete the course in the allocated time period may necessitate undertaking additional units to ensure currency of practice.

Course Structure

YEAR 1, SEMESTER 1

Indigenous Culture and Health 130
Nursing Practice 161
Inquiry for Nursing Practice 161
Applied Bioscience 263
Nursing Practice 566

YEAR 1, SEMESTER 2

Nursing Practice 562

Master of Occupational Therapy

Expected time to complete: 2.0 Years
Completion Credit Value: 425.00
CRICOS Code: 061679C
MOT

This Graduate Entry Master (GEM) course is a fast-track option to becoming an occupational therapist for those who already hold a bachelor degree, preferably in a health science discipline with at least a credit average pass. Occupational therapists work closely with people of all ages to achieve a high quality of life, irrespective of age, disability or illness. Helping people, both as individuals and in groups, to function in daily living activities and promoting well being at home, in school, at work and in leisure are of prime concern to the occupational therapist. Occupational therapists take a holistic approach and are involved in client evaluation and intervention as part of the healthcare team. They also play a role in wider health issues such as community development, health promotion and policy-making.

Professional Recognition

Graduates are eligible for membership of the Australian Association of Occupational Therapists and for registration with the Occupational Therapists Registration Board of Western Australia. The course is recognised by the World Federation of Occupational Therapists.

Course Structure

YEAR 1, SEMESTER 1

Research Design 541
Foundations of Occupational Therapy 541
Occupational Therapy Principles and Practice 541
Pathophysiology 541

YEAR 1, SEMESTER 2

Neuropsychiatry 542
Neuroscience Neurodevelopment 542
Physical Rehabilitation 542
Ergonomics and Safety Science 542

YEAR 1, STUDY PERIOD 1

Musculoskeletal Structure and Function 540

YEAR 2, SEMESTER 1

Paediatrics 641
Neuroscience 643
Clinical Counselling and Group Work 641

YEAR 2, SEMESTER 2

Community Based Rehabilitation and Development 642
Clinical Education 642
Clinical Education 644
Clinical Education 646

There are optional units to select from in Year 2, Semester 1.
Orthoses and Rehabilitation Science 641
Neuropsychiatry 641

Master of Engineering Science (Petroleum Engineering)

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 064461G
MEngSc

This course is comprehensive in nature and provides multidisciplinary education and hands-on training in petroleum engineering. Candidates completing the course are expected to work as fully qualified petroleum engineers requiring minimum supervision in the upstream oil and gas industry. The teaching staff in the Department are professionals with many years of working experience in the oil and gas industry. The final semester (Petroleum Engineering Thesis 601) may be on campus or work-based.

Professional Recognition

Students completing this course may apply for Acting Membership of the Society of Petroleum Engineers (U.S.)

Course Structure

YEAR 1, SEMESTER 1

Fundamentals of Reservoir Engineering 605
Hydrocarbon Phase Behaviour 606
Formation Evaluation 604
Applied Geology and Geophysics 602

YEAR 1, SEMESTER 2

Production Technology 607
Drilling Engineering Fundamentals 603
Stimulation and Intervention Operations 600
Advanced Reservoir Engineering 601

YEAR 2, SEMESTER 1

Numerical Reservoir Simulation 612
Advanced Drilling Practices 604
Field Development Planning 604
Petroleum Economics and Project Management 602

YEAR 2, SEMESTER 2

Petroleum Engineering Thesis 601

Master of Petroleum Engineering

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 034333J
MPetEng

Master of Pharmacy

Expected time to complete: 2.0 Years
Completion Credit Value: 550.00
CRICOS Code: 068621J
MPharm

The Master of Pharmacy is a Graduate Entry Master course (GEM) which is designed to enable the student through diligent study and application to become a compounding and pharmacotherapeutic expert. Theory is comprehensive and includes chemical, biological, physiological, pharmaceutical and pharmacotherapeutics. The course is composed of twenty-four units, which include practical and research aspects. The introductory units are completed in an intensive six-week training program in trimester one, involving 30 hours weekly contact and continuous assessment. The remaining nine first year units are completed during trimesters two and three (which correspond to semesters one and two). Five units are completed in trimester two and four units in trimester three. A community pharmacy placement, where students are supervised by a practicing pharmacist, to develop skills in the clinical setting, must be completed prior to undertaking the remaining ten second year units (five in each trimester). Students will also complete a hospital placement and develop further research skills.

Professional Recognition

Graduates are eligible to apply for provisional registration as a pharmacist with the Pharmacy Board of Australia. A further period of supervised practice is required in order to be eligible for general registration as a pharmacist.

MASTER DEGREE COURSE INFORMATION

Course Structure

YEAR 1, SEMESTER 1

Master of Physiotherapy

Expected time to complete: 2.4 Years

Completion Credit Value: 600.00

CRICOS Code: 038783F

MPhysio

This Graduate Entry Master (GEM) of Physiotherapy provides a fast track learning experience for talented students with a degree to gain the knowledge, skills, attitudes and behaviours expected of an entry-level physiotherapist. The course has a hybrid structure using curriculum to efficiently learn foundation knowledge, together with case studies and clinical practice to integrate knowledge into clinical decision making. It emphasises evidence based practice and encourages students in critical thinking. Course quality is under constant review with students participating in this review.

Professional Recognition

The Physiotherapists Act of the State of Western Australia requires that all practising physiotherapists must be registered with the Physiotherapist Registration Board of Western Australia. This course has been accredited by the Australian Council of Physiotherapy Regulating Authorities. Graduates are eligible for physiotherapy registration in any state or territory of Australia. Registration in New Zealand is available under the terms of the Trans-Tasman agreement. Graduates applying for licensure in the USA, UK or Canada will be required to provide details of their program of studies to the relevant bodies and sit a licensing examination.

Master of Professional Communication

Expected time to complete: 1.5 Years

Completion Credit Value: 300.00

CRICOS Code: 074655D

MProfComm

This degree will equip students with the skills, understanding and discipline to work in the media, public affairs and communications industries. Students will become proficient in writing; news, media releases, speeches, briefing notes, publicity brochures and short reports. Units in professional ethics and the communication law will ensure that all work is contextualised and responsive to real industry situations. As future members of a communication team students will undertake study in the principles of public relations and the effective use of advertising as a strategic practice. Online and hard copy editing in a variety of mediums will provide opportunities for students to work in teams while maximising individual communication skills. The Corporate Media Production major will focus on the creative production of corporate films including short form documentaries and advertising. Students will develop camera, sound and editing skills alongside script development and script writing assignments.

Course Structure

Master of Science (Project Management)

Expected time to complete: 1.5 Years

Completion Credit Value: 300.00

CRICOS Code: 027245A

MSc

Project Management is a distinct professional discipline, having its own body of knowledge, skills, tools and techniques. It involves managing a project from inception to completion and the successful attainment of the project objectives. This course provides the opportunity to gain the understanding, knowledge and skills necessary for performing the role of project manager. It adopts a generic approach to project management and is applicable to any project in industries such as construction, engineering, education, health, commerce, information technology and research and development. The Federal Department of Education, Science and Training predicted Project Management to be the fastest growing occupation by 2010.

Health Project 590

Master of Engineering Science (Renewable Energy Electrical Power Systems)

Expected time to complete: 1.0 Year
Completion Credit Value: 200.00
CRICOS Code: 042178D

MEngSc

This course is designed to provide advanced training in renewable energy engineering for graduates in science and engineering. This program encompasses power conditioning aspects of major renewable energy technologies including wind, photovoltaic and small hydro. Other alternative energy sources such as fuel cells are also evaluated. This course covers the use and understanding of electrical equipment required for power transmission and conditioning, including storage. The aim is to provide students with knowledge of standards to be able to conduct design, analysis, simulation and implementation of Stand Alone and Grid Connected Renewable or Hybrid Energy Systems on small and large scales.

Course Structure

YEAR 1, SEMESTER 1

Electrical Engineering Project 695
Renewable Energy Principles 603

YEAR 1, SEMESTER 2

Electrical Engineering Project 696
Renewable Energy Systems 604

There are optional units to select from in Year 1, Semester 1.

Power System Analysis 603
Power Electronics 603
Electrical Utility Engineering 623
Eco-Efficiency 603
Cleaner Production Tools 603
Engineering Investment and Analysis 660

There are optional units to select from in Year 1, Semester 2.

Electrical Utility Engineering 634
Electric Power Transmission and Distribution 604
Power Electronics 604
Electrical Machines and Stability 604

Master of Science - Science

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 061489J
MSc

This course is designed for students with a Science undergraduate pass degree intending to broaden and extend their academic and research background in science and technology. The program is particularly useful for graduates in one scientific discipline wishing to study in another area of science, or for students seeking employment in a multidisciplinary science environment. Major areas of study are Physics, Computer Science, Mathematical Sciences, Industrial Engineering, Dryland Agricultural Systems, Environmental Biology and Management and Sustainable Aquaculture. The course recognises the multidisciplinary nature of many current areas of science and technology and its application in solving real world problems. Several major research project units within the course provide students with opportunities to develop high levels of communication and research skills whilst developing a deeper understanding in a specific area of interest.

Course Structure

Majors, Streams or Other Core Components

Computer Science Major

Science Research Methodologies 551
Computer Science Project 610
Computer Science Project 620
Computer Science Project 552

Optional units including:

Programming Languages 500
Computing Topics 591
Theoretical Foundations of Computer Science 552
Computer Communications 552

Physics Major

Science Research Methodologies 551
Physics Project 591
Physics Project 592
Physics Project 594

Optional units including:

Instrumental Physics 502
Relativistic Astrophysics and Cosmology 301
Applied Physics 502
Applied Optics 302
Exploring the Radio Universe 302

For the latest in course information visit courses.curtin.edu.au
For important notes on all courses and fees turn to page 51.

Mathematical Sciences Major

Science Research Methodologies 551
Mathematics Project 592
Master Project 503
Master Project 652

Optional units including:

Linear Algebra 202
Numerical Analysis 502
Advanced Optimisation Techniques 501
Advanced Calculus 201
Actuarial Statistics 501
Survival Analysis 501
Statistical Modelling 501

Industrial Engineering Major

Science Research Methodologies 551
Dynamic and Stochastic Modelling and Optimisation 302
Mathematical Statistics 503
Network Optimisation 202
Logistics Modelling and Optimisation 202
Industrial Modelling and Optimisation 601
Network Optimisation for Transport and Logistics 601
Master Project 652
Production Planning and Management 602
Logistics and Supply Chain Optimisation 602
Master Project 653

There are optional units to select from in Year 1, Semester 2.

Applied Statistics 401
Supply Chain Modelling and Optimisation 501
Numerical Methods 501
Operations Research 201

Sustainable Aquaculture Major

YEAR 1, SEMESTER 1
Finfish Aquaculture 501
Science Research Methodologies 551
Aquaculture Technology 500
Aquatic Environmental Management 501

YEAR 1, SEMESTER 2
Aquaculture Nutrition 501
Shellfish Aquaculture 502
Sustainable Fisheries and Aquaculture 502
Environment and Agriculture Research Project 500

YEAR 2, SEMESTER 1
Quantitative Biology 501
Aquatic Ecosystems 500
Environment and Agriculture Research Project 510
Molecular Biology 500

YEAR 2, SEMESTER 2
Seafood Technology 502
Climate Change and Adaptation 500
Environment and Agriculture Research Project 520

Dryland Agricultural Systems Major

YEAR 1, SEMESTER 1
Quantitative Biology 501
Soil Science 200
Animal Science 503
Science Research Methodologies 551

YEAR 1, SEMESTER 2

Broadacre Crop and Pasture Science 500
Integrated Pest Management 302
Gene to Phenotype 200
Climate Change and Adaptation 500

YEAR 2, SEMESTER 1

Systems Biology 300
Environment and Agriculture Research Project 510
Advanced Livestock Production Systems 300
Sustainable Agricultural Systems 301

YEAR 2, SEMESTER 2

Environment and Agriculture Research Project 500
Advanced Cropping Systems and Precision Agriculture 300
Environment and Agriculture Research Project 520

Environmental Biology and Management Major

YEAR 1, SEMESTER 1
Conservation Biology and Sustainability 201
Science Research Methodologies 551
Diversity of Animal Life 500
Cell Biology 101
YEAR 1, SEMESTER 2
Ecotoxicology 202
Biomonitoring 302
Environment and Agriculture Research Project 500
Community Restoration 301

YEAR 2, SEMESTER 1

Quantitative Biology 501
Environmental Impact Assessment 301
Environment and Agriculture Research Project 510
Plant Diversity 500

YEAR 2, SEMESTER 2

Ecology 302
Climate Change and Adaptation 500
Environment and Agriculture Research Project 520

Master of Science (Science and Mathematics Education)

Expected time to complete: 1.0 Year
Completion Credit Value: 200.00
CRICOS Code: 070837G

MSc

The Master of Science (Science and Mathematics Education) consists of coursework units in science and mathematics education plus a minor project in an area relevant to the student's own teaching situation.

Course Structure

YEAR 1, SEMESTER 1

Science and Mathematics Education Research Methods 627
Science and Mathematics Education Project 691

YEAR 1, SEMESTER 2

Science and Mathematics Education Project 692

There are optional units to select from in Year 1, Semester 1.

Science and Mathematics Education Classroom Climate 622
Science and Mathematics Education Teaching and Learning 611
Science and Mathematics Education Independent Study 694

There are optional units to select from in Year 1, Semester 2.

Science and Mathematics Education Evaluation Issues 624
Science and Mathematics Education Multimedia 625
Science and Mathematics Education Curricula 612

There are optional units to select from in Year 1.

Science and Mathematics Education Special Topics 693

MASTER DEGREE COURSE INFORMATION

Master of Sexology

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 074567D
MSexol

This course provides individuals with specialist knowledge and skills in the area of sexology. Graduates should have a comprehensive knowledge of recent research examining the biological, psychological and social aspects of human sexuality. It is anticipated that on completion of the program, graduates will be able to integrate this specialisation into their professional discipline, and be conversant with the key aspects of sexology as a public health issue. Complementary study in research methods is included.

Professional Recognition

Graduates may be eligible for membership of the Australian Society of Sexuality Educators Researchers and Therapists (ASSERT National Inc.), which is affiliated to the World Association for Sexual Health (WAS). Graduates may apply for professional membership to obtain a specialist title e.g. Sexuality Therapist, Sexuality Educator, and/or Sexuality Researcher, through ASSERT National if they meet the criteria and after completion of supervision requirements. Requirements for such titles in other countries differ.

Course Structure

YEAR 1, SEMESTER 1
Foundations of Public Health 681
Sexology Attitudes and Values 680
Sexological Practice 681
Criminology, Culture and the Law 680

YEAR 1, SEMESTER 2
Ethics in Public Health Practice 683
Health Research Methods 781
Sexology Challenges and Opportunities 682
Introduction to Forensic Sexology 683

YEAR 2, SEMESTER 1
Research Dissertation 600
Health Research Methods 681

YEAR 2, SEMESTER 2
Research Dissertation 601
Contemporary Issues in Forensic Sexology 681

Professional Practice of Public Health 683

Optional units in Year 2, Semester 1 including:

Health Promotion Planning 781
Principles and Practice of Public Health 781
International Health 581
Mental Health Promotion 690
Health, Stress and the Management Environment 682
Organisation of Health Care Systems 682
Leadership in Health Care 682

Master of Speech Pathology

Expected time to complete: 2.0 Years
Completion Credit Value: 400.00
CRICOS Code: 033868G
MSpeechPath

This graduate entry master (GEM) qualification for speech pathologists is an alternative to the Bachelor of Science (Speech Pathology) for those with a bachelor degree. The academic coursework and clinical practice integrate contemporary theory and research in human communication science, cognitive neuroscience, speech science, rehabilitation science, behavioural science and clinical practice. Throughout the course, students will participate in supervised clinical education in a variety of contexts. This Graduate Entry Master of Speech Pathology (GEM) develops an integrated understanding of the science of human communication as well as the professional competencies for providing speech pathology services to people with communication and swallowing disorders. Speech pathologists provide specialist services for people with communication and / or swallowing problems. Communication and / or swallowing may be impaired by neurological damage, hearing impairment, physical dysfunction, psychological disturbance and intellectual impairment. Some causes of disturbances in normal development may be unidentified.

Professional Recognition

The course is accredited by Speech Pathology Australia. Graduates are eligible for membership of the Speech Pathology Association of Australia.

Course Structure

YEAR 1, SEMESTER 1
Cognitive Neuroscience 571
Language Analysis and Communication Science 571
Research Design and Analysis in Speech Pathology 571
Clinical Science in Speech Pathology 571

YEAR 1, SEMESTER 2
Human Communication Science 572
Lifespan Communication Science 572
Speech Pathology Practice 572
Clinical Science in Speech Pathology - Dysphagia 572

YEAR 2, SEMESTER 1
Human Communication Science - Evidence Based Practice 671

Speech and Hearing Science 671
Speech Pathology Practice 673
Speech Pathology Practice 675

YEAR 2, SEMESTER 2
Speech and Hearing Science 672
Speech Pathology Practice 674
Speech Pathology Practice 676
Research in Speech Pathology Practice 674

Master of Science (Sustainability)

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 068954K
MSc

Sustainable development is about forms of progress that bring quality of life for all, without jeopardising the natural resource base on which all life on earth ultimately depends. Although sustainable development is now widely accepted as the inspirational goal for business, public sector and community development, both locally as well as globally, there is not yet a widespread understanding of its implications. This course deals with the challenges posed by the global quest for more sustainable development and the opportunities this presents to businesses, governments and communities alike, locally, nationally and globally. It also equips decision makers in the private and public sectors with the tools and skills to analyse sustainability issues, and plan, evaluate and manage organisational change to improve the organisation's economic, environmental and social performance.

Course Structure

YEAR 1, SEMESTER 1
Eco-Efficiency 603
Global Sustainability Studies 603

YEAR 1, SEMESTER 2
Environmental Studies 603
Industrial Ecology 603

YEAR 2

Sustainability Management Major

YEAR 1, SEMESTER 1
Sustainability Management 601 (Public Policy)
Sustainability Management 603 (Accountability and Reporting)

YEAR 1, SEMESTER 2
Sustainability Management 602 (Corporate Strategy)
Sustainability Management 604 (Corporate Citizenship)

YEAR 2, SEMESTER 1
Business Management Specialisation
OR Sustainable Technology Specialisation
OR Sustainable Communities Specialisation
OR Environmental Health Management Specialisation

OR Sustainability Management Dissertation 601

Cleaner Production Major

YEAR 1, SEMESTER 1
Cleaner Production Tools 603
Sustainable Technology 603 (Green Engineering)

YEAR 1, SEMESTER 2
Sustainable Technology 601 (Sustainable Energy)
Sustainable Technology 602 (Green Chemistry)

YEAR 2, SEMESTER 1
Cleaner Production Project 694 (Implementation)
Cleaner Production Applied Research Project 601

For the latest in course information visit courses.curtin.edu.au

For important notes on all courses and fees turn to page 51.

Master of Sustainability and Climate Policy

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 074663D
MSustainClimPol

This program provides students with the tools and knowledge to think holistically and develop solution-focused approaches to climate change, resource depletion, Indigenous and other cultural concerns and disparities in wealth and power. The course has a strong emphasis on professional practice. Students apply their skills and knowledge to real-life issues through professional work and community engagement. Individual projects provide opportunities for students to research real-world issues.

Course Structure

YEAR 1, SEMESTER 1
Topics in Sustainability 521
Select three options

YEAR 1, SEMESTER 2
Pathways to Sustainability 522
Select three options

YEAR 2, SEMESTER 1
Advanced Individual Project 690
Advanced Individual Project 691

Optional units

Individual Project 590
Urban Design for Sustainability 541
Sustainability Studies Practicum 591
Sustainability through Deliberative Democracy 542
Leadership in Sustainability 544
Sustainable Cities 543
Sustainable Coastal Management in the Indian Ocean Region 545

Master of Taxation

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 027239K
MTax

This specialised advanced level course is aimed primarily at commerce graduates who are seeking further qualifications and/or continuing professional development and who are: practitioners in public or private practice; taxation officers in the Australian Taxation Office or related departments (e.g. Treasury); corporate accountants, financial planners and advisers requiring specialist taxation qualifications; or members of the legal profession who are seeking specialist taxation qualification. The Taxation course is designed to be modular and flexible, allowing students various exit points consistent with their study aspirations. Students can exit after completion of four units and receive the Graduate Certificate, after eight units to receive the Graduate Diploma or after twelve units for the Master of Taxation.

Course Structure

YEAR 1, SEMESTER 1
Taxation 531
Current Topics in Taxation 570
International Taxation 547
Fundamentals of Business and Corporations Law 565

YEAR 1, SEMESTER 2
Superannuation and Retirement Planning 621
Finance Principles 515
Advanced Taxation 569
GST and Indirect Taxation 532

YEAR 2, SEMESTER 1
Estate Planning 526
Advanced International Taxation 660
Taxation of Trusts 568
Taxation of Capital Gains 571

Master of Engineering Science (Telecommunications and Networking)

Expected time to complete: 1.0 Year
Completion Credit Value: 200.00
CRICOS Code: 042180K
MEngSc

Information and communication technologies are increasingly reshaping global business and many facets of human endeavour. With technological advances, specialist expertise in areas such as communication networks, mobile radio communications and digital signal processing is increasingly required in the telecommunications industry. This course provides a solid foundation for Telecommunications and Networking and develops specialist knowledge and expertise in areas of current and future importance.

Course Structure

YEAR 1, SEMESTER 1
Digital Communications Engineering 601
Research Design Project 601
Stochastic Processes for Telecommunications Systems 601
Broadband Networks 602

YEAR 1, SEMESTER 2
Research Design Project 602
Telecommunication and Network Management 602

There are optional units to select from in Year 1, Semester 2.

Mobile Radio Communications 602
Network Design 602
Digital Communications 603

Master of Urban and Regional Planning

Expected time to complete: 1.5 Years
Completion Credit Value: 300.00
CRICOS Code: 050344F
MURP

This course is designed for people with first degrees other than planning (but with a degree relevant to planning) to develop the requisite skills and knowledge to enter the planning profession. It examines the theoretical foundations of planning; it's legislative and bureaucratic frameworks and develops practical skills required by planning practitioners in government agencies and the private sector. It also teaches research skills and develops critical analytical capacities through the completion of a major piece of original planning research. The course will require participation in projects that involve real planning issues, field trips (including one to regional Western Australia) and engagement with planning professionals to prepare graduates for professional life.

Professional Recognition

This course is fully accredited with the Planning Institute of Australia.

Course Structure

YEAR 1, SEMESTER 1
Local Planning 511
Regional Planning 511
Introduction to Planning 501
Planning Theory 511

YEAR 1, SEMESTER 2
Development Processes 512
Integrated Plan Making 512
Planning Research Methods 512
Planning Law 512

YEAR 2, SEMESTER 1
Planning Dissertation 611

Optional units

Project Management 641
Planning for Economic Development 511
Urban Regeneration 511
Planning for Sustainability 511
Planning for Housing 711
International Perspectives of Planning 511
Professional Practice 501
Transport Planning 712
Site Planning 512
Landscape Planning and Heritage 712
Participatory Planning 512
Special Topics in Urban & Regional Planning 311

RESEARCH AT CURTIN

SUPPORT AUSTRALIA'S KEY INDUSTRIES TO MAKE TOMORROW BETTER

RESEARCH OPPORTUNITIES

Curtin University is recognised as a leading research institution within the international market. Ranked in the top third of Australian universities, Curtin generates a high number of PhD graduates, research income and quality research publications. Our staff and students are involved in more than 70 major research institutes and centres, as well as 13 industry focused, cooperative research centres.

Curtin focusses on four main areas of research: Minerals and Energy; ICT and Emerging Technologies; Health; and Sustainable Development.

MINERALS AND ENERGY

Research in the area of minerals and energy at Curtin University is aimed at maximising existing resources and developing innovative technological solutions to address our future needs. Research groups from across the university undertake both fundamental and applied research, working closely with industry partners and government to ensure the outcomes have maximum impact.

Opportunities for study exist in resource exploration, extraction and processing; development of new materials, energy sources and fuel technologies; and in mineral and energy economics and policy.

ICT AND EMERGING TECHNOLOGIES

Information Communication Technology (ICT) and Emerging Technologies is a broad area concerned with the use of technology to communicate and use information.

Researchers from the Curtin Institute of Radio Astronomy are involved in the international Square Kilometre Array (SKA): the world's largest radio astronomy project that promises to be one of the most illuminating scientific endeavours of this century.

Curtin also continues research initiatives across areas such as radio astronomy; spatial science; wireless telecommunications; digital humanities; e-business; e-health; and digital ontologies.

HEALTH

Curtin's strong relationships with community, governments and industry partners create opportunities for collaborative, interdisciplinary health research that not only pushes forward the boundaries of our understanding of health issues, but creates real-life solutions.

Curtin is the largest and most comprehensive provider of health sciences research in Western Australia. Health Sciences students have excellent opportunities to join programs within the Curtin Health Innovation Research Institute (CHIRI), which takes a unique approach to addressing the burden of chronic conditions and lifestyle diseases that impact on the social and economic sustainability of communities worldwide. Research conducted at CHIRI focuses on five primary themes: ageing; chronic disease; indigenous health; mental health; and population health.

SUSTAINABLE DEVELOPMENT

One of the core concerns of governments and communities worldwide is sustainable development. Through the Australian Sustainable Development Institute, Curtin offers research opportunities in sustainable development; built environment; climate change; environmental ecosystems; biodiversity; sustainable tourism; and sustainable resource processing.

The Australian Sustainable Development Institute also has a number of research affiliates, including the Australia-Asia-Pacific Institute. Researchers from this centre are working to achieve environmental, economic and social sustainability in the Asia-Pacific region.

HIGHER DEGREES BY RESEARCH

DOCTORAL DEGREE

A doctoral degree usually requires at least three years of study. Students with a master degree, or a bachelor degree with first or upper second-class honours, may be considered for admission.

In exceptional cases, applicants with a bachelor pass degree may also be considered if they can demonstrate superior academic achievement, significant work experience, and the capacity to undertake significant research.

Research doctorates may sometimes be undertaken in a mixed mode with one or two semesters completed in Perth and the remainder in your home country. This arrangement depends on your project and must be negotiated with your supervisor.

MASTER BY RESEARCH AND DOCTOR OF PHILOSOPHY DEGREES

At least two-thirds of the work towards a master by research degree must be pure research. The award indicates that you have contributed significantly to your field and are capable of carrying out independent research.

Applications for master by research or PhD degrees must include a written, two-page research proposal outlining the parameters and purpose of the research you wish to undertake. Visit research.curtin.edu.au/guides/forms/forms.cfm for more information and to download an application form.

Although students may need to complete some coursework units, the major part of the work will be in the form of a thesis written under the guidance of a supervisor.

HOW TO APPLY

You will need to consult the postgraduate coordinator, faculty graduate studies officer and other staff in the relevant teaching area to discuss the suitability of your proposed research topic, make sure you meet Curtin's entry requirements and ensure that there is a supervisor and facilities available to accommodate your research. A list of supervisors is available from curtin.edu.au/research/futurestudents/register/register.cfm

For more information, including contact details and application forms, visit curtin.edu.au/research/futurestudents/admission.cfm

WRITING A RESEARCH PROPOSAL

Your research proposal should be no more than two pages long. It should state your research topic, outline your research plan and the objectives you wish to meet, and show that you have sufficient experience and knowledge in your selected area. The proposal should be accompanied by at least 10 cited references.

Guidelines are available from research.curtin.edu.au/guides/hdrguidelines/admission.cfm

SCHOLARSHIPS

There are scholarships available for international students who wish to study a higher degree by research. See page 94 for more information.

RESEARCH DEGREE ENTRY REQUIREMENTS

A higher degree by research differs from other postgraduate degrees in that at least two-thirds of the study program must involve research. Although you need to complete some coursework units, the main part of the work will be a thesis written under the guidance of a supervisor.

You can check the specific requirements for master and doctoral research degrees at curtin.edu.au/research/futurestudents/admission.cfm

Applications for higher degrees by research can be made at any time of the year.

As all courses at Curtin are taught in English, you will need to meet Curtin's English language requirements. You may be deemed to meet Curtin's English language requirements based on completion of a bachelor degree course in which English was the language of instruction. This will be assessed on a case-by-case basis. Any one of the tests in the tables below can also be accepted as satisfying Curtin's English language requirements.

MINIMUM ENGLISH LANGUAGE ENTRY REQUIREMENTS

ENGLISH LANGUAGE TEST	SCORE
IELTS (International English Language Testing System)	
- Writing and Speaking	6.0
- Reading and Listening	6.0
- Overall Band Score	6.5
TOEFL (Test of English as a Foreign Language) (with a minimum Test of Written English (TWE) score of 5.0)	570 paper based 92 internet based (23 in each section)
Pearson Test of English	76 (some courses may require a higher score)
CUTE (Curtin University Test of English)	B
Cambridge Certificate in Advanced English (CAE)	Grade C

Note 1: The following courses do not accept CUTE as meeting the minimum English language entry requirement: all health sciences research courses
Note 2: This list is correct at time of printing but may change. Please check individual course entry requirements and pre-requisites at courses.curtin.edu.au

COURSES WITH A HIGHER ENGLISH LANGUAGE REQUIREMENT

COURSE	ENGLISH LANGUAGE TEST				
	IELTS (INTERNATIONAL ENGLISH LANGUAGE TESTING SYSTEM)			TOEFL (TEST OF ENGLISH AS A FOREIGN LANGUAGE)	
	Writing and speaking	Reading and listening	Overall band score	TOEFL Score	With minimum Test of Written English (TWE) score
CBS master by research and PhD courses	7.0	7.0	7.0	647 paper, 113 internet (25 in each section)	5.5
Graduate School of Business master by research & PhD courses MBA/MLM	6.5	6.5	7.0	637 paper, 110 internet (25 in each section)	5.5
Humanities master by research and PhD courses	Writing 7.0 Speaking 6.0	Reading 7.0 Listening 6.5	6.5	647 paper, 113 internet (25 in each section)	5.5
Health sciences masters by research & PhD courses	7.0	7.0	7.0	647 paper, 113 internet (25 in each section)	5.5

Note: Students applying from certain countries (such as China and India) will be required to undertake an IELTS test in order to be issued with a student visa by the Australian Government.

2013 RESEARCH DEGREES, FEES AND INTAKES

FEE INFORMATION

The tuition fees (shown in Australian dollars) are based on a normal full-time workload of 100 credits per semester (200 credits per year) unless otherwise stated. Students studying more than 100 credits per semester will have a higher annual tuition fee. The tuition fee is calculated and charged on a semester or, where appropriate, trimester basis. A student should expect that the indicative semester/trimester course fee, as shown on the Letter of Offer, might vary from the actual tuition fee depending on the units (subjects) undertaken.

The actual tuition fee is not calculated until enrolment is completed. To calculate the actual course fee, you can refer to the unit (subject) fee that is listed at fees.curtin.edu.au/course_fees.cfm

The total indicative course fee is an estimate of the total fee for the entire duration of the course and includes estimated indexed yearly increases. Indicative essential incidental fee may be for items such as extra lab materials or course materials specific to that course. All fees listed are subject to annual increases. Information is correct as at January 2012 but is subject to change.

REFUND AGREEMENT

The categories under which the University Fees Centre will assess an application for refund are laid out in the University's International Students Refund Agreement.

The Agreement stipulates the circumstances that determine the levels of reimbursement a student applying for refund is eligible to receive.

The Agreement is supplied to you with your Letter of Offer and can also be accessed online at fees.curtin.edu.au/refunds_forms.cfm

Please refer to fees.curtin.edu.au/refunds.cfm for the most up-to-date information as the policy is subject to change from time to time.

For the latest in course information visit courses.curtin.edu.au
For important notes on all courses and fees turn to page 86.

**APPLY
NOW**

**EXPERIENCE
WHAT CURTIN
HAS TO
OFFER**

APPLICATION PROCESS

For international students—undergraduate and postgraduate by coursework.

The following information is relevant to students applying directly to the University. Students who use the services of a Curtin registered agent should lodge their application via the agent and contact them for any queries throughout the admission process.

During 2012, Curtin will be implementing online applications, where relevant applicants will be re-directed to apply through that channel.

1 APPLY

OPTION 1: APPLY ONLINE

Visit international.curtin.edu.au/apply

Note: Students applying to study doctoral and masters degrees by research or doctoral degrees by coursework should refer to research.curtin.edu.au/guides/forms/forms.cfm

OPTION 2: POST OR SCAN AND EMAIL AN APPLICATION FORM (SEE PAGE 87)

- Acknowledgement email and your student number will be emailed within a week.
- Please quote your student number in all correspondence.

DOCUMENTS TO BE SUBMITTED WITH APPLICATION

- Certified copies of all your previous qualifications (i.e. academic transcripts, grading system descriptions and award certificates).
- English language entry requirements such as academic IELTS and TOEFL.
- Supplementary information documents (if applicable).
- Evidence of change of name (if applicable).

CERTIFIED DOCUMENTS

- Signatures on certified copies of transcript(s) and award certificate(s) must be accompanied by an ink imprint stamp/chop from the following accepted authorities:
 - an authorised Curtin representative
 - Curtin International staff member
 - a person of authority at the issuing institution (e.g. registrar)
 - Justice of the Peace
 - Commissioner for Oaths/Declarations
 - any notary public.

ENGLISH TRANSLATION

- Certified copies of your transcript(s) and award certificate(s) in the original language (if issued in a language other than English) must be provided with English language translated copies from the following accepted authorities:
 - an official and accredited translator
 - a person of authority at the issuing institution.

2 AWAIT YOUR OFFER

- Assessment of your application takes 2–4 weeks.
- If we require more documents to assess your application, they will be requested from you.
- Assessment of your application will be delayed until we receive these documents.

RECOGNITION OF PRIOR LEARNING (RPL)

- We will not be able to assess RPL for previous studies without an application and certified copies of all your academic transcripts/statement of marks and award certificates to date.
- RPL is granted at the discretion of the school/faculty.

4 ACCEPT YOUR OFFER

STEPS TO ACCEPT YOUR OFFER

STEP 1

Read your Letter of Offer carefully, ensuring your name, course title and semester are correct.

STEP 2

Meet all conditions on your Letter of Offer.

STEP 3

Submit your Acceptance of Offer Form, deposit of tuition fees, Overseas Student Health Cover fee and photocopy of your passport details page.

5 APPLY FOR YOUR VISA

- You will need to apply for your student visa after receiving your Electronic Confirmation of Enrolment (eCOE).
- Your eCOE will be sent to you via email.
- The duration for your student visa to be issued will vary depending on your course (contact the Australian Embassy to find out more about the visa application process).

3 RECEIVE YOUR OFFER

YOUR OFFER PACKAGE CONSISTS OF:

- Letter of Offer
- Acceptance of Offer Form
- Payment Options Form
- Terms of Offer
- International Student Refund Agreement Flyer
- Pre-Departure Guide
- Curtin Housing Services Brochure
- Overseas Student Health Cover Brochure

MUSLIM VISITORS GUIDE TO WA

www.westernaustralia.com/en/Destinations/Travel_Brochures

Perth Education City Inc. (PEC) represents and promotes Western Australia's internationally recognised education sector by conducting a wide range of profile-raising and marketing activities throughout the world. It is a unique consortium of 31 universities, colleges and schools in Perth which provide education services to the international community.

The Australian Technology Network is an influential alliance of five prominent Australian universities of technology located in each mainland State. They share a history of collaboration, a commitment to partnerships with industry and the community, a focus on educating graduates who are innovative, entrepreneurial and highly employable, a dedication to the advancement of knowledge and a desire to make a difference to the well-being of the nation through education, research and motivation.

Disclaimer and copyright information

Information in this publication is correct at the time of printing and valid for 2012/13, but may change from time to time. In particular, the University reserves the right to change the content and/or method of assessment, to change or alter tuition fees of any unit of study, to withdraw any unit of study or program that it offers, to impose limitations on enrolment in any unit or program, and/or to vary arrangements for any program.

Curtin will not be liable to you or any other person for any loss or damage (including direct, consequential or economic loss or damage) however caused and whether by negligence or otherwise that may result directly or indirectly from the use of this publication.
