

IS STUDY YOUR PATH TO A MORE REWARDING LIFE?

SWINBURNE HAS BEEN RATED AMONG THE BEST UNIVERSITIES IN MELBOURNE FOR TEACHING QUALITY AND GRADUATE SATISFACTION.*

Should a university share your dreams?

We believe people who genuinely want to succeed should be given the opportunity to. We believe education is the pathway to a more rewarding life. It's why we offer such a broad range of options for people wanting to gain postgraduate qualifications. Options that allow you to live the life you have, while reaching for the life you want.

The benefits of reaching for a goal

We are driven by achievement. This focus on results is part of the fabric of Swinburne – it's seen in what we do and in the attitude of our students. We've set ourselves the goal to be one of the world's leading research institutions by 2015.

We will get there by focusing our strengths and continuing to invest in them. We try to excel in specific areas, not be average in all. As a result, we punch above our weight on almost every performance measure for education. We will encourage you to adopt a similar focus on your goals. So you're more able to turn potential into ability.

Lectures with real-world relevance

Swinburne is home to some of Australia's most dynamic and innovative academics. People who can give you the knowledge and skills you need to succeed.

They are academics with a passion for their industry. Your lecturers either work, or have worked, in the industry. They combine practical experience with insight. They understand what skills you'll need – and they know the best ways to teach those skills.

Swinburne postgraduate programs often have guest lecturers who come from industry, giving you first-hand advice. And, while there are many theoretical aspects to study at Swinburne, we also balance program content with industry relevance. We consult with industry – to help determine what skills will be needed. We use this knowledge to constantly evolve our postgraduate coursework programs.

We question everything

We believe a culture of creativity and innovation gives you more chances to succeed. Our programs will challenge you. But you will find the support you need to meet those challenges.

* The Good Universities Guide to Postgraduate and Career Upgrade Courses 2011

Why choose postgraduate study now?

Postgraduate qualifications can open up all sorts of career opportunities. They may help you get a better job, make a total career change or attract a higher salary. Postgraduate students are recognised for their demonstrated professionalism, commitment and resourcefulness.

What is the difference between postgraduate coursework and research programs?

Coursework qualifications require the successful completion of a set number of core units and electives. These programs usually involve attendance at lectures, classes, seminars or labs and the completion of assignments and exams. Depending on the level of qualification, some also require a minor thesis.

Research qualifications are awarded following the completion of a major thesis, involving original research, under the supervision of a senior academic. Learning is undertaken independently with no lectures or classes.

Postgraduate by coursework

GRADUATE CERTIFICATE

This entry-level postgraduate qualification is often suitable if you have several year's work experience but no formal academic qualifications. A graduate certificate generally takes six months full-time or one year part-time to complete. A graduate certificate may allow you to progress to a graduate diploma.

GRADUATE DIPLOMA

A graduate diploma is generally one year full-time or two-years part-time (incorporating the graduate certificate units). To apply you generally need an undergraduate degree, but not necessarily in the proposed area of study. If you don't have a degree but have substantial related industry experience you may also be eligible.

MASTER

A master degree by coursework usually takes one to two years of full-time study – or equivalent part-time (incorporating the graduate certificate and graduate diploma units). To apply you'll normally need an undergraduate degree, or have substantial industry experience within the field of study.

Programs by research

Swinburne is recognised as one of Australia's top research institutions. The university's major research centres offer programs that target industry-specific problems and address the needs and demands of society.

This connection – with local and international industries, research institutions, government and community services – can be invaluable for your career.

Our postgraduate research programs give you access to excellent facilities, ample resources, ongoing support and committed academic supervision.

For more information visit
www.swinburne.edu.au/research

Professional recognition

Many of Swinburne's postgraduate programs are recognised by professional organisations. So, the qualification you receive will be highly regarded in industry and will enhance your career opportunities.

For more information visit
www.swinburne.edu.au/courses

Pathways

Many people choose to study in the same discipline area as their undergraduate studies. If you are one of these people, you may be eligible for course exemptions.

For more information visit
www.swinburne.edu.au/postgrad/courses/pathways/

What happens if I start... but can't finish?

Many of our coursework programs have 'nested' qualification structures. This means if you have to withdraw from the course early, to accommodate life's unexpected events, you can still exit with a formal qualification that recognises the work done to date. You might like to start modestly and build upon each qualification as you go – from graduate certificate, to graduate diploma, to masters.

Single unit of study

If a particular unit of study grabs your interest, you can enrol in just this unit. If you decide later on that you would like to do additional units or undertake the complete program, you may receive credit for any single units completed.

Please note, single units are subject to availability and convenor approval.

WILLIAM LYE

Master of Entrepreneurship and Innovation

"The MEI program is definitely a very unique course as it stretches the boundaries of teaching entrepreneurship and innovation to a group of highly successful people.

When one thinks of undertaking a business degree, the traditional universities often come to mind. This was certainly the case for me when I thought about an MBA degree.

Swinburne, however, has had a long tradition of applied learning. This has given birth to many innovations. The MEI is one such innovation.

Swinburne is a unique university as it has a very strong applied learning environment. The teaching staff are very 'hands on' and many have deep industry experience.

At Swinburne, students will be challenged with their projects to bring the best out in them both intellectually and experientially. Taking a back seat is definitely not an option at Swinburne!"

It's been a long time since I studied

We're here to assist

Returning to student life can be challenging. Swinburne's Academic Success Program eases the transition into study. The program provides a range of support services – including counselling, workshops and online resources – to give you the skills you need to succeed. You'll discover:

- the benefits of meeting and sharing expectations with staff
- hints to effectively manage the transition into a postgraduate learning community
- how we do things around here
- the potential of diversity in our community

Orientation and transition

If you've been out of study for a number of years – and are feeling a little apprehensive – our postgraduate orientation programs can help you prepare.

They provide information on:

- administration systems
- timetabling
- library information
- student services
- academic success
- program overviews
- networking

The programs are generally held in the week preceding class commencement.

Recognition of previous studies or experience

Recognition of Prior Learning (RPL) can help shorten your studies by giving you credit for skills and knowledge gained through formal training, work and life experience.

With RPL, you can get the qualification you're after, faster.

For more information visit
www.swinburne.edu.au/postgrad/rpl

Advice on career planning

Swinburne has an extensive array of careers and employment support services including:

- help and advice with career planning
- access to seminars, resume checking and an online job service
- a range of specially developed online resources, including research and reports
- tips on how to self-market, both in person and in writing
- information on pursuing an academic career

For more information visit
www.swinburne.edu.au/career-planning

Free counselling support for postgraduate students

Our highly-trained student counsellors understand the extra pressure that postgraduate study can add to our already hectic lives. It can be a balancing act, so our counsellors are here to help.

For more information visit
www.swinburne.edu.au/counselling

International exchange

Returning to study also opens up opportunities for international exchange. We have a range of options for postgraduates wanting to combine an overseas experience with their study.

For more information visit
www.swinburne.edu.au/abroad

Meredith Bushell
Master of Commerce
(International Business)
Leadership stream

"I am a co-founder and co-owner of my own business that has recently experienced an international growth phase. The International Business program ties in perfectly to my own business objectives, and the Leadership stream was of particular interest to me given my background as an entrepreneur.

The calibre of professors is unparalleled. Their education backgrounds are outstanding as most are Ivy League-educated, I have found their teaching style to be hands-on, collaborative and engaging."

How do you fit an education into an already full life?

By the time you get around to postgraduate study – you may already have a full life. That's why we offer a number of study options created to help you study at your pace – and around your individual needs.

ON CAMPUS

Why should your life stop when you enrol?

Most of our postgraduate coursework programs can be taken on a full-time or part-time basis. Classes may be offered in the day, in the evening or on weekends.

OFF CAMPUS

You don't have to go to university to get postgraduate qualifications

Our distance education option means little or no time on-campus. You receive a range of comprehensive learning materials. These may include study guides, readings, set exercises, references and online learning.

ONLINE LEARNING

Can a virtual education get you a real qualification?

Some Swinburne programs are available entirely online. Others have selected online units. Students can study via virtual lectures and eTutors, and stay in touch through email and group chat rooms. Some online units will be complemented with on-campus workshops.

BLOCK RELEASE

Compress your study

A limited number of programs offer 'block release' – an intensive block of classes that allow students to attend classes for several full-day sessions, rather than regular weekly classes. Regional or interstate students and people who need to travel to attend campus find these releases particularly beneficial.

WIRELESS NETWORKING

Swinburne is wireless. Wireless network coverage is available across the whole Hawthorn campus, and in most locations at Lilydale and Prahran. This gives you easy access to email, internet and library resources. For more information visit www.swinburne.edu.au/wireless

Why wait to get your career on track?

There are usually two key intakes per year (one in late February/early March and another in late July/early August). However a number of programs also have additional commencement dates throughout the year.

Please see page 7 for key dates.

Central locations

Swinburne has campuses at Croydon, Hawthorn, Lilydale, Prahran and Wantirna. All are well served by public transport. You can confirm the location of your course by referring to the course listing at the back of this guide.

WANT TO GET THERE FASTER?

If you want to speed up your studies, some programs offer extra units of study in our summer semester or winter term study periods. To check which units are available in this mode, visit www.swinburne.edu.au/timetable

How much will a postgraduate program at Swinburne cost me?

Tuition fees for all postgraduate programs can be found on pages 8 to 13 of this publication. Depending on the program, you may need to allow for the purchase of books or equipment.

What if I just want to study a single unit?

If you just want to study a single unit, then you can pay per unit. The fees for each unit are listed under individual course outlines at Swinburne's fees website.

For more information visit
www.swinburne.edu.au/postgrad/fees-faq

When are fees payable?

You have three options:

- pay the full tuition fee up-front
- pay some of the tuition fee up-front and request a FEE-HELP loan for the remainder of the tuition fee
- request a FEE-HELP loan for the full tuition fee

What is FEE-HELP and am I eligible?

FEE-HELP is essentially a loan to help cover the cost of your tuition. It is given to eligible fee-paying students to help pay part or all of their tuition fees. It allows you to defer all or part of the cost of the fee-paying course – and pay your debt after graduation, through the taxation system.

You are entitled to FEE-HELP assistance if:

- you are undertaking study at an approved higher education provider or Open Universities Australia
- you meet the citizenship or residency requirements
- you are enrolled in eligible unit(s) on or before the census date and remain registered at the end of the census date
- you are not Commonwealth-supported in relation to that unit(s)
- you meet the tax file number (TFN) requirements
- you have completed, signed and submitted a valid Request for FEE-HELP Assistance form on or before the census date
- you have not exceeded the FEE-HELP limit

How much can I borrow?

The Commonwealth Government has set a FEE-HELP limit of \$85,062 for most courses. This amount is indexed each year.

When do I start repaying my FEE-HELP loan?

Once you start earning a pre-determined amount, you start making payments via your taxed salary. Payments continue until the loan is repaid. For further information visit the Government's Going to Uni website, www.goingtouni.gov.au or call the enquiry line on 1800 020 108.

Employer sponsorship

At Swinburne, we encourage employers to sponsor their employees in further study. Your employer will benefit from your enhanced skills and up-to-date knowledge. During the course you will undertake project work in authentic conditions and, where appropriate, may work on projects with your own employer.

For more information visit
www.swinburne.edu.au/postgrad/employers

GEORGINA MURPHY Graduate Certificate in Sustainability

"I found the teachers of the course to be extremely passionate and experts in their field. The course provided me with the forum to meet like-minded people, who became a brilliant support network. We still keep in contact.

The breadth of resources and information supplied throughout the course was extremely rich. Having this type of information handpicked for us, was a real luxury. The course helped me to obtain a new position as Sustainability Education Officer with Hume City Council."

Carolyn Beasley Master of Arts (Writing)

"With a degree in journalism and international relations on the wall and lots of ideas for stories, I was attracted to the master's program because it let me finish off all those one-off stories but also let me work on my novel across a range of subjects. I got to write a novel during this time and received industry-quality feedback on it. In fact, my supervisor made the same suggestions that publishers and agents did about my work! And I was introduced to a new level of critical reading about my writing genre that really changed how I created practical aspects like character and plot."

How do you get into postgraduate study?

Entry requirements

In most instances you will need a tertiary qualification, usually an undergraduate degree. But there are a number of pathways to a postgraduate program. If you have enough work, or life experience, you may be granted admission to a postgraduate program. This can be either a graduate certificate or graduate diploma.

Once completed, you can then progress to a higher-level postgraduate qualification, like a master degree. In exceptional circumstances, relevant work experience can gain you entry to a master degree.

How to apply

To apply for a postgraduate program simply follow this step-by-step process:

Step 1

CHOOSE YOUR PROGRAM

Choose your postgraduate program (you can list up to three preferences)

Step 2

OBTAIN APPLICATION FORM

Download the appropriate form from www.swinburne.edu.au/postgrad/apply

Step 3

SUPPORTING DOCUMENTATION

Gather your supporting documentation. This includes:

- certified copy of your passport or birth certificate for proof of citizenship/residency
- certified copy of your academic award/s
- certified copy of academic transcripts or results
- current curriculum vitae

Note: you may also need to include a cover letter explaining what you hope to achieve from your studies.

Step 4

APPLY

Complete and submit the application form. Applications can be submitted in person, by email or post.

Some programs such as Psychology, Commercial Radio, Human Services, Family Therapy have early closing dates.

Please check our website for all current application closing dates

www.swinburne.edu.au/postgrad

Note: it's a good idea to submit your application at least two weeks before classes begin.

Step 5

CONFIRMATION

Once your application has been received you will receive email notification from us. Once your application has been assessed you will be notified of the outcome.

Step 6

ACCEPTING YOUR OFFER

If you have been offered a place you will need to notify us if you intend to accept your offer via email at enrol@swinburne.edu.au

Step 7

ENROLMENT

You will receive enrolment details from your faculty or school with instructions on what steps you need to take to enrol in your program.

What is an offer?

If your application is successful you will be made an offer of a place. To accept the offer, you will need to confirm your acceptance by following the process outlined in your offer letter. Just prior to the commencement of your study program you may be asked to formally enrol in your chosen subjects.

International students

We have a specific publication for international students. It contains an application form, admission advice and information on tuition fees. To obtain a copy please contact:

Swinburne International

Phone: +61 3 8676 7002 (outside Australia) or 1800 897 973 (within Australia)

Email: international@swinburne.edu.au

Visit: www.international.swinburne.edu.au

Important semester dates for 2011

These dates are subject to change but should provide an indication of your study commitments.
If you want to get an idea of class timetables in advance, visit www.swinburne.edu.au/timetable

Semester 1	Commencing	Ending
Enrolment	Refer to offer letter	
Orientation	Monday 21 February	Friday 25 February
Classes	Monday 28 February	Friday 27 May
Mid-semester break	Thursday 21 April	Wednesday 28 April
Examinations	Monday 30 May	Friday 17 June
Winter term	Monday 20 June	Friday 29 July

Semester 2	Commencing	Ending
Enrolment	Refer to offer letter	
Orientation	Monday 1 August	Friday 5 August
Classes	Monday 8 August	Friday 4 November
Mid-semester break	Monday 19 September	Friday 23 September
Examinations	Monday 7 November	Friday 25 November
Summer term	Tuesday 2 January 2012	Friday 10 January 2012

Additional intakes	Commencing	Ending
May intake*		
Classes	Monday 30 May	Friday 26 August
August intake*		
Classes	Monday 29 August	Friday 25 November
September intake **		
Classes	Monday 26 September	Friday 4 November

Postgraduate Events

Postgraduate events and information sessions are held regularly throughout the year. They are a great opportunity to meet and talk to staff about your postgraduate study options.

The sessions help you understand what your chosen postgraduate program entails – what you can learn and what your study options are and where your qualification may take you.

For session dates visit

www.swinburne.edu.au/postgrad

or call us on 1300 275 794
