

2013 BOND UNIVERSITY

POSTGRADUATE GUIDE

Everyone has expectations for their future ...

And success means different things to different people.

Some are happy to live from day to day.
Others - like yourself - want much more.
You think bigger. You want to move faster.
You want to go further.

You're determined to achieve something extraordinary.

At Bond University, we recognise your passion and
fast-track your progress.

**BOND UNIVERSITY.
WE SHARE YOUR AMBITION.
WE BRING IT TO LIFE.**

VICE-CHANCELLOR'S MESSAGE

Your passport to an extraordinary career

Choosing the right university is the most important decision you will make at this stage of your life. It's your investment in the future - not just financially, but in terms of the time and effort you will put into your studies over the next few years.

So, like any investment, your choice must be based on the potential returns: Which university will give you more than a degree? Which university will open the door to a truly extraordinary career?

At Bond University, we believe that the knowledge and skills you learn in the classroom are simply the starting point.

Just imagine what you will achieve working with internationally renowned teachers in small personalised classes. Just imagine how quickly you could climb the corporate ladder if you graduated a full year ahead of your competitors and had specific training in leadership skills. And with a global network of contacts, you'd be able to work anywhere in the world.

We know you have the potential to make a real difference - because we've seen so many of our students over the years do just that. Living and working in every corner of the globe, they are now heading up major corporations, helping disadvantaged communities in developing countries, researching medical breakthroughs, engineering cutting-edge technologies.

As a graduate of Bond University, you will be joining their elite ranks.

If your goal is to be the best that you can be, to have your choice of the top jobs and to forge a successful and satisfying career at the highest level, Bond University can give you all the tools you need to bring your ambition to life.

I very much look forward to sharing your journey.

Professor Tim Brailsford

Vice-Chancellor and President

Bond University was given its University status in 1987, having been established under an Act of the Queensland Parliament. Bond is part of the Australian system of higher education, and is recognised as an accredited Australian university by the Australian Ministerial Council on Education, Employment, Training and Youth Affairs (MCEETYA), which is responsible for establishing national protocols for education in Australia. It is also a full member of Universities Australia (UA) and the Association of Commonwealth Universities.

WELCOME TO BOND

Bond University has a distinguished reputation as Australia's first private, not-for-profit university. Created in the scholarly traditions of pre-eminent private universities of world standing, Bond challenges students to be leaders and thinkers.

A Bond degree takes you beyond the accepted definition of a university education to develop initiative, enterprise, ambition and a lifelong commitment to making a meaningful contribution in your chosen field. A wide range of innovative and challenging postgraduate courses are offered:

- Faculty of Business
 - School of Business
 - School of Information Technology
 - School of Hotel, Resort and Tourism Management
- Faculty of Health Sciences & Medicine
 - School of Health Sciences
 - School of Medicine
- Faculty of Humanities & Social Sciences
 - School of Communication and Media
 - School of Humanities
 - School of Social Sciences
- Faculty of Law
- Institute of Sustainable Development & Architecture
 - Mirvac School of Sustainable Development
 - Soheil Abedian School of Architecture

Whatever degree you choose, you'll find that Bond's dedication to the highest academic standards, coupled with open access to world-class teaching professionals, industry leaders and blue chip employers will help you to reach your very highest potential.

one year earlier career launch

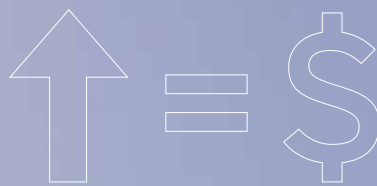

= YOU¹⁰

From a student perspective, Bond University stands alone. There is no university in Australia that rates higher for overall graduate satisfaction. The reason why? Well, actually there are 10 of them, which all add up to a far better university experience and outcome for you, regardless of which field of study you choose. We call it the 'Bond Factor', which basically translates to the 'What's in it for Me Factor' - something you should always take into account, whichever university you are considering.

1

Outcome = income

Invest in your future

Bond University is not-for-profit. What this means is that the only outcome we're driven by is your success. One hundred per cent of your investment goes into providing the best personalised education for you, ensuring you are better prepared for career ascension and future income maximisation.

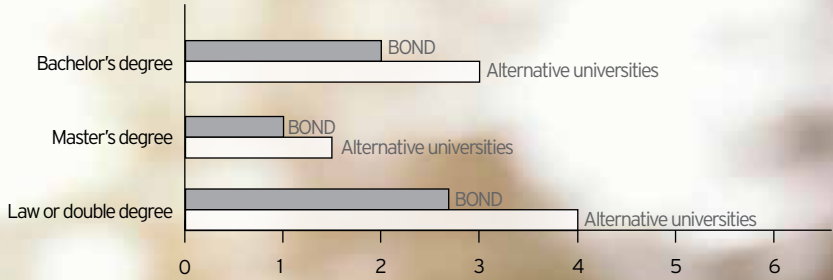

2

What if you had a one year head-start?

Fast-tracked degrees

Bond offers fast-tracked degrees so that you can graduate up to 12 months earlier than at other universities.

Bond's three-semester-per-year structure makes this possible, and the truth of the matter is that there's still plenty of time to have a social life and enjoy yourself at Bond.

Professor Chris Del Mar, Professor of Primary Care Research

World-renowned Evidence-Based Medicine specialist.

Visiting Professor of General Practice - Oxford University.

Cambridge-educated, internationally esteemed researcher and academic.

Lecturer, Bond University Medicine Program.

3 Personalised attention

Australia's lowest student to teacher ratio

Bond's personalised teaching philosophy manifests itself in a 10 : 1* student to teacher ratio. This results in smaller classes and unprecedented one-on-one access to your professors. Even beyond class, our academics have an open door policy which means not only will they know you by name, they'll actively mentor your progress.

*2008 Student to Teacher Ratio, Universities Australia.

4 **Five star teaching quality***
Star quality that transfers directly to you

Bond University's teaching faculty includes pre-eminent academics of national and international standing. Their high level qualifications are matched with practical knowledge and industry relevance gained from consulting to major multinational corporations all over the world. All of which puts you and your career aspirations in good stead.

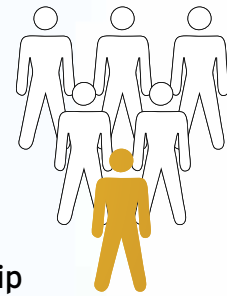

*2012 Good Universities Guide.

5 Who's with me?

Preparing you for leadership

Part of Bond University's unique approach is to help you develop a strong foundation of key leadership attributes that will help prepare you for career success, regardless of which field of study you choose. As such, our teaching philosophy prepares you with the following intellectual qualities:

- **Communication Skills**
- **Knowledge and Critical Thinking**
- **Leadership, Initiative and Teamwork**
- **Responsibility and Ethics**

The importance Bond places on imbuing these attributes in our students has resulted in our graduates being first choice for many blue chip employers, as well as being prepared for rapid career progression. Bond sets you up to succeed.

6

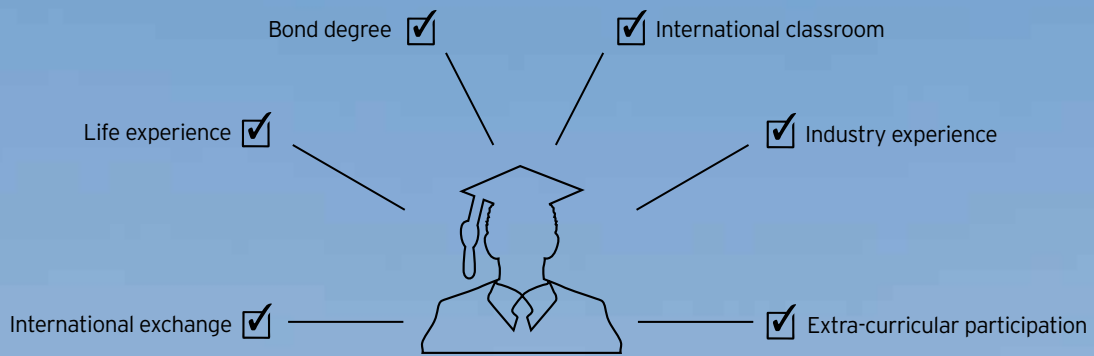

World-class facilities

And you actually get to use them

At Bond, not only do we offer you the very best state-of-the-art facilities, we offer you unprecedented access to them. Our smaller student to staff ratios extend to student to facilities ratios as well. This means you get to apply your profession as you learn it, in environments far more akin to the real thing. The result of this is confidence that you're as well prepared to enter your profession as you can be.

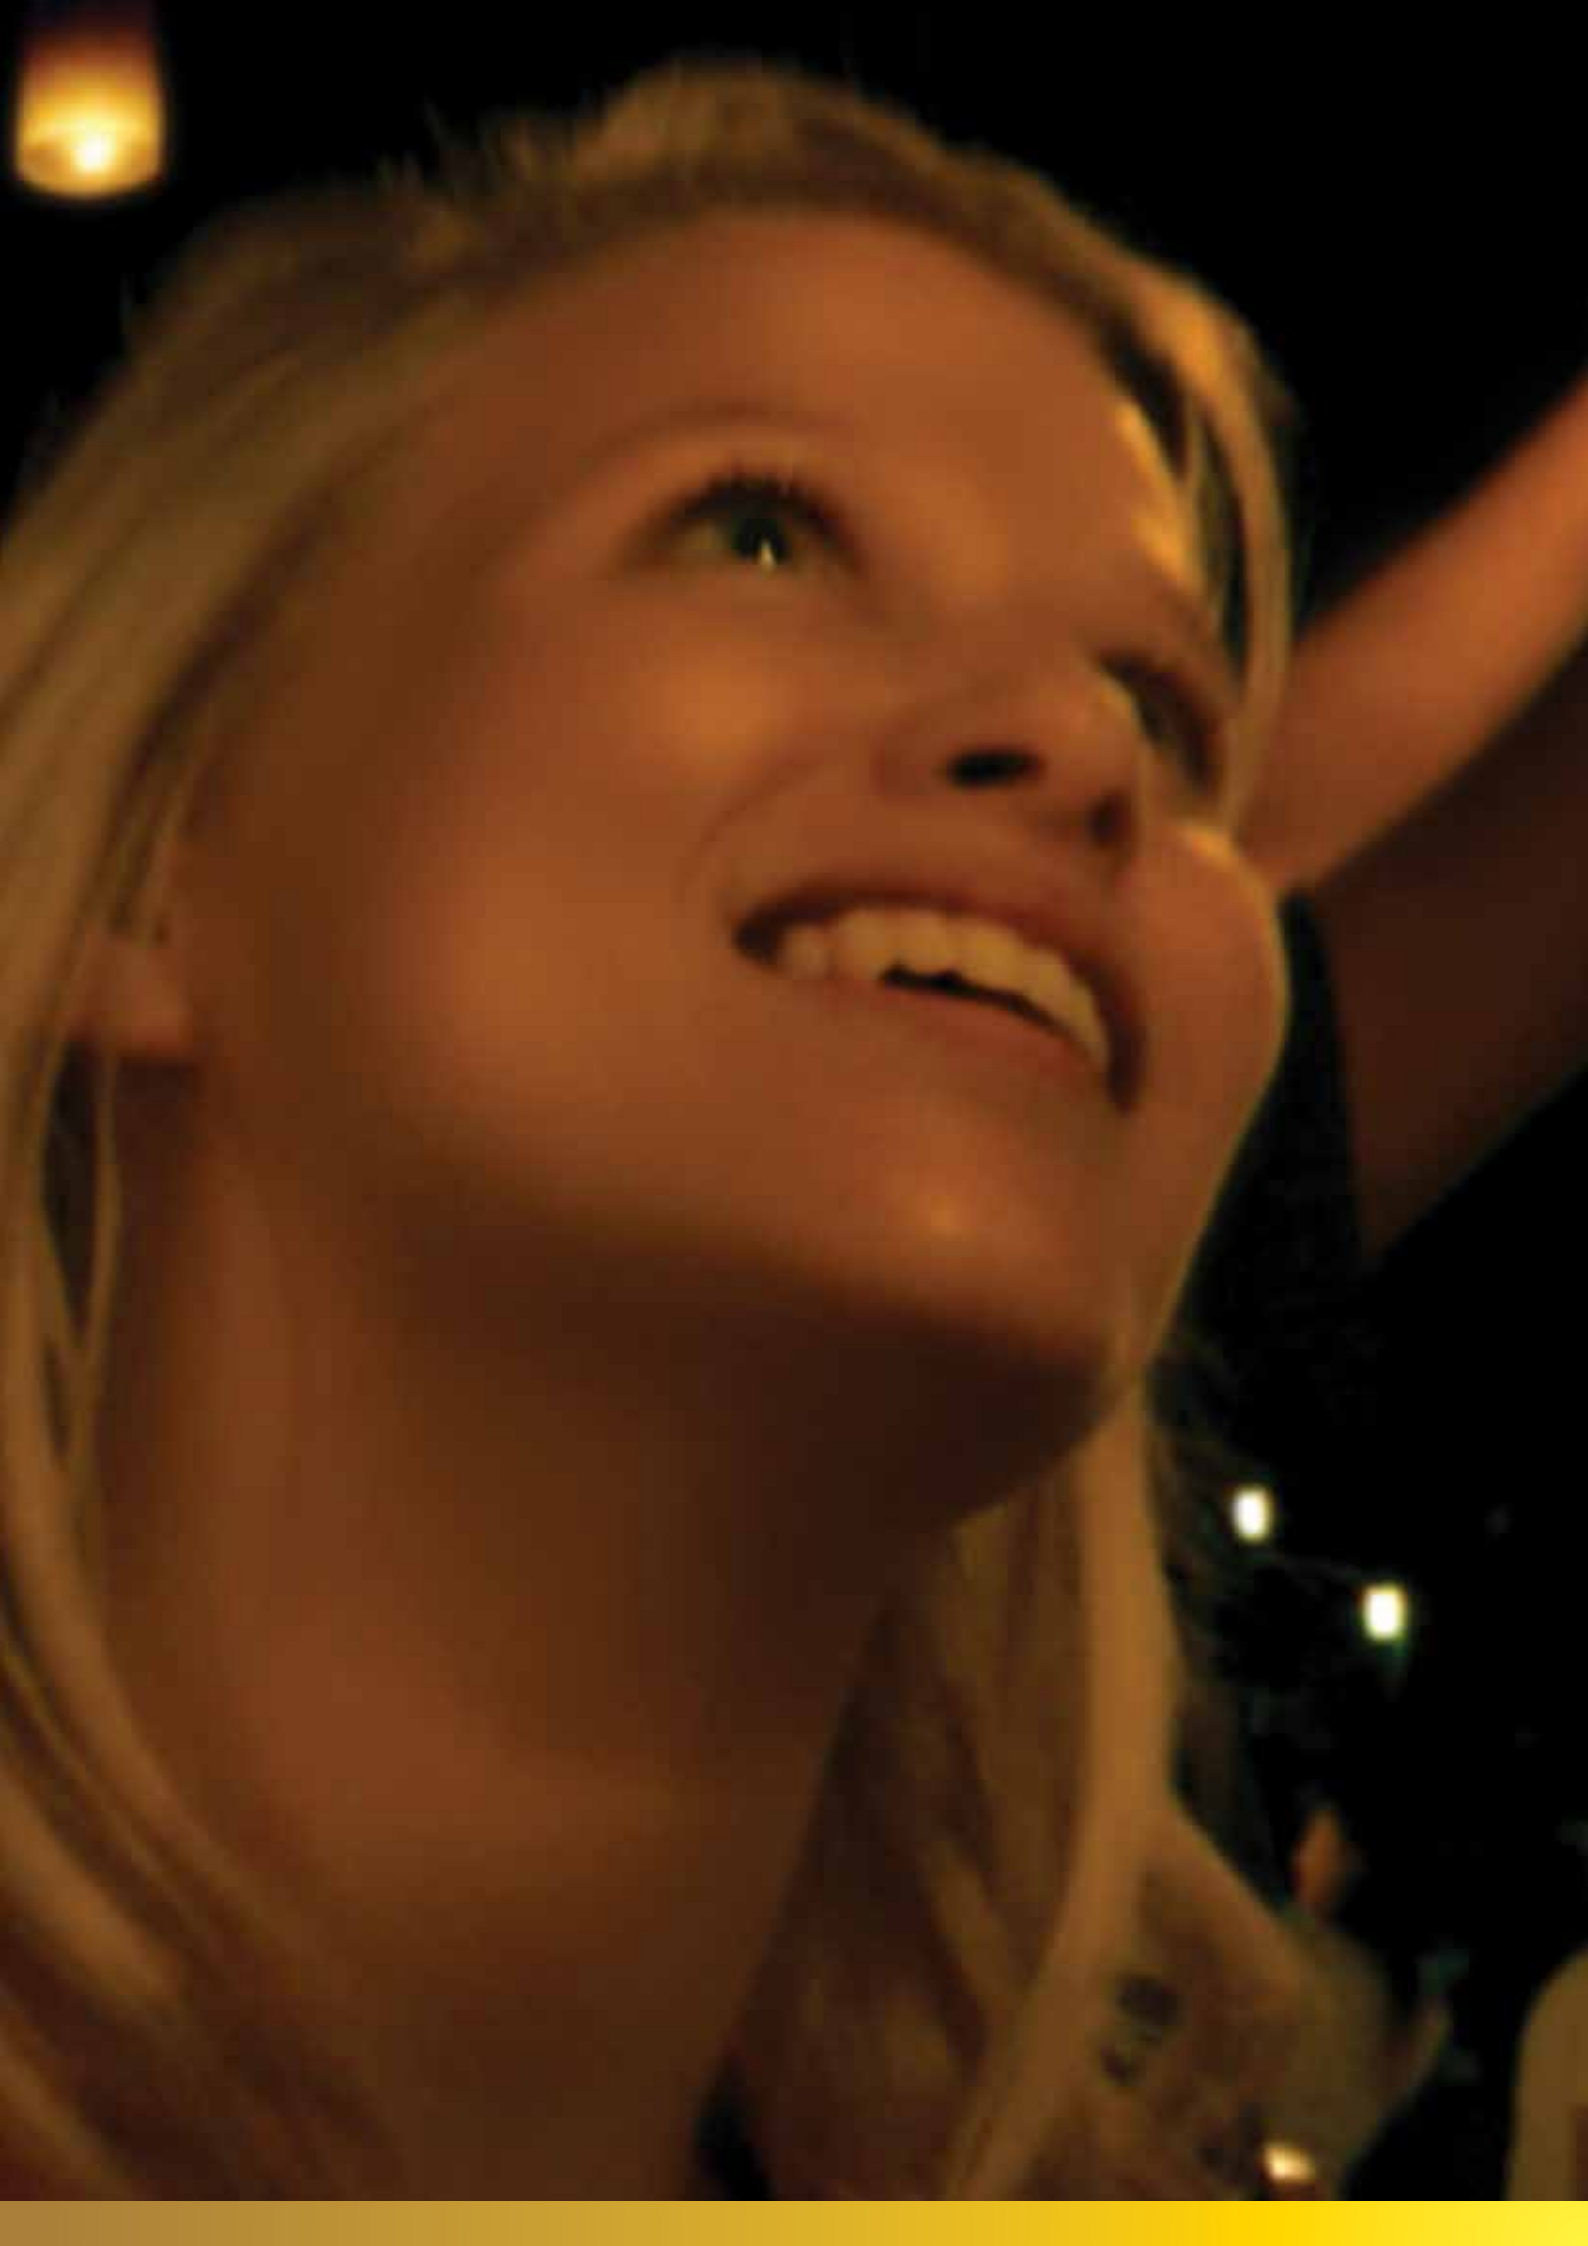

7 Graduate better prepared

Gain practical experience through Bond's connections

Bond University is committed to ensuring its graduates are ready to "hit the ground running" through practical case studies and internships with Bond's network of blue chip industry partners and affiliates. These include Macquarie Group Limited, Clayton Utz, KPMG, JBWere and Marriott International to name a few.

Add to this our personalised service and professional support from our Career Development Centre and you have a leading edge in the employment stakes.

This translates to positive graduate outcomes and the highest starting salaries, as recognised by the 2012 Good Universities Guide.

8

Work wherever you wish

Globally focused course content

Australian in character yet international in perspective, Bond University not only delivers globally-focused course content, but a world of cultural enrichment as well. Combine this with Bond's international industry partnerships, academic exchange partners and extensive global alumni network, and you'll be professionally and culturally set up to work anywhere in the world.

9

The university experience of your life

Enjoy a great social life on campus with over 70 sporting and social clubs

With so many students residing on campus, Bond has a real community feel and a vibrant student social life. From sporting, social and special interest clubs, the many cafés and a full calendar of events and gatherings, there's so much to enjoy. Add the Gold Coast lifestyle and Bond equals a truly fantastic student experience.

10

There's no such thing as a 'foreign' country

Join the global Bondy alumni network

Bond University has a distinctly global perspective, aspiring to a 50 : 50 ratio of Australian to international students. Our international students come from over 80 countries, evenly weighted so that no nationality dominates, to ensure a balanced classroom. The Bond global alumni network is active in over 120 countries around the world, so you'll be connected practically anywhere your ambition may take you.

STUDYING AT BOND

Bond University offers three semesters a year, allowing you to complete your studies much earlier than at other universities. For instance, a standard master's degree that takes two years with the normal two-semester-per-year timetable, can be completed in one year and four months at Bond.

This accelerated study mode, combined with the flexibility of our cross-faculty subject offerings, gives you the opportunity to tailor your degree studies to suit your specific career goals or enhance your employability by gaining extra qualifications.

POSTGRADUATE STUDY

Bond University offers a range of higher degrees by coursework or research.

Admission to postgraduate coursework degrees generally requires an undergraduate qualification from a recognised institution. In some cases, however, extensive career experience in a relevant discipline may meet the entry criteria.

Doctoral studies are completed predominantly through research, guided and supervised by specialist advisors. Each faculty and the Institute at Bond incorporates world-renowned research centres, headed by international authorities in their respective fields.

BACHELOR'S DEGREE (GRADUATE ENTRY)

Students can enter some bachelor programs via graduate entry, such as our Bachelor of Medicine Bachelor of Surgery.

HONOURS DEGREE

An honours degree is usually two or three semesters of additional coursework, seminars and supervised research taken after a bachelor's degree. It advances your knowledge and experience and helps prepare you for future research work and higher degree programs. A high level of achievement in an undergraduate course is a prerequisite of entry into an honours degree program. Honours degrees are available in the faculties of Business, Health Sciences & Medicine, Humanities & Social Sciences (Psychology only) and Law.

GRADUATE CERTIFICATE

These one-semester professional development programs generally comprise four subjects and serve as an ideal introduction to postgraduate study. This is particularly ideal for working professionals who cannot commit the time for a full master's degree. Subjects completed can be credited towards a postgraduate diploma.

POSTGRADUATE DIPLOMA (GRADUATE DIPLOMA)

Completed in just eight months (two semesters), the Postgraduate Diploma normally comprises eight subjects. This is an excellent option for those wishing to update their skills and qualifications in a specialist area and can be credited towards a full master's degree*.

MASTER'S DEGREE

Master's degrees are available in a wide range of disciplines in all faculties and the Institute of Sustainable Development & Architecture. They generally comprise 12 subjects which can be undertaken by coursework only, a combination of coursework and research, or by research only.

DOCTOR OF PHILOSOPHY (PhD)

Higher Degrees by Research are completed predominantly through research, with candidates guided and supervised by specialist advisors. The PhD degree may be awarded for thesis only, or thesis and coursework, or publication.

DOCTORATE

Doctoral degrees are offered by Bond in the areas of legal science, laws, health sciences and physiotherapy.

*Excludes Psychology. Please refer to pages 85 and 87 for Psychology specific outcomes.

PROFESSIONAL DEGREES

Professional degrees (92 weeks duration) are open to all students eligible to undertake master’s level postgraduate studies. These degrees are offered within the following areas.

Faculty of Business

Professional degrees are offered through the Faculty of Business in the areas of accounting, business, business systems, service management, information technology and hotel, resort and tourism management. All professional degrees are available each semester and have a duration of four semesters plus 20 weeks (92 weeks).

These degrees follow the same course structure as that of the existing degrees, but include a 20 week Work Integrated Learning component designed to promote and support student learning, personal development and professional practice.

Faculty of Humanities & Social Sciences

Professional degrees in Humanities & Social Sciences are offered in the areas of communications, international relations and criminology. All professional degrees are available each semester and have a duration of four semesters plus 20 weeks (92 weeks).

These degrees follow the same course structure as that of the existing degrees, but include a 20 week professional segment - an additional study and experience component undertaken toward the completion of the degree.

Institute of Sustainable Development & Architecture

Professional degrees are offered in the areas of sustainable development and property valuation. These are available each semester and have a duration of four semesters plus 20 weeks (92 weeks).

CREDIT TRANSFER

Subject credits may be available for previous tertiary studies in a relevant or related field. You can apply for subject credits on the Bond University application form by including certified copies of transcripts from your previous studies, detailed course outlines and subject descriptions.

STUDY SCHEDULE

Bond’s teaching methodology involves a combination of lectures, tutorials, seminars, examinations, projects, presentations, assignments, computer labs and industry projects.

SEMESTER DURATION

6 semesters	(108 weeks)
5 semesters	(90 weeks)
4 semesters	(72 weeks)
3 semesters	(54 weeks)
2 semesters	(36 weeks)
1 semester	(18 weeks)

PROFESSIONAL DEGREES

4 semesters + 20 weeks.....	(92 weeks)
-----------------------------	------------

PATHWAYS INTO BOND UNIVERSITY

If you do not meet the stated academic requirements for direct entry into a postgraduate degree program, Bond College offers an alternative pathway.

MASTER'S QUALIFYING PROGRAM

Duration: 14 weeks (1 semester)

Starting: January, May, September

The Master's Qualifying Program is a 14 week (one semester) course of study developed in close collaboration with the University faculties, and designed to prepare international students for a selected range of Bond University postgraduate degree studies.

Currently open to Australian and international students, the Master's Qualifying Program offers access to the following postgraduate programs, provided faculty and degree specific entry requirements are satisfied.

FACULTY OF BUSINESS

- Master of Accounting
- Master of Business
- Master of Business Administration
- Master of Finance
- Master of International Hotel and Resort Management

FACULTY OF HUMANITIES & SOCIAL SCIENCES

- Master of Criminology
- Master of Arts (Coursework)
- Master of Communication
- Master of International Relations

Entry into other faculties will be assessed on an individual basis. The programs commence in each semester - January, May and September.

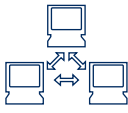

WHERE WILL YOUR DEGREE TAKE YOU?

There's a lot to consider when deciding what you will study and knowing where your degree will take you after you graduate is very important. Use this index to explore your study options based on your career interests. Look up an area that interests you and discover which degrees can help you get there.

FACULTY OF BUSINESS

Bond University's Faculty of Business is dedicated to building tomorrow's business leaders, one by one.

The Faculty has earned a reputation as one of Australia's leading educational and research centres. All courses have a strong practical focus, and are taught by world-class academics with extensive industry experience. With flexible degree programs in a variety of fields, you will be primed to take on the corporate world one business deal at a time.

Schools within the Faculty of Business include:

- School of Business - www.bond.edu.au/bus
- School of Hotel, Resort and Tourism Management - www.bond.edu.au/hrtm
- School of Information Technology - www.bond.edu.au/it

INDUSTRY PARTNERS

The Faculty has developed industry partnerships with leading organisations including:

- Gold Coast Convention and Exhibition Centre
- IBM
- KPMG
- Macquarie Group
- Marriott International
- Microsoft
- Queensland Affordable Housing Consortium
- Radisson Hotel
- RBS Morgan
- Wyndham Vacations

FACULTY FACILITIES

Created in collaboration with the Macquarie Group, the Macquarie Trading Room is a state-of-the-art facility which gives you access to market information through internal and external tickers, and dual screen technology displaying streamed data. It allows lecturers to set up simulated trading environments and adjust the market conditions to demonstrate different market situations and theories. You will gain practical experience in executing deals and managing portfolios, with trading conditions almost identical to those encountered by seasoned financial traders around the world.

SCHOOL OF BUSINESS

MASTER OF ACCOUNTING

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Admission is based on an assessment of prior academic record and motivation. Applicants must have completed an undergraduate or postgraduate degree in any discipline other than accounting.

PROGRAM DESCRIPTION

The Master of Accounting provides an opportunity for students with undergraduate training in other fields to gain a professional accounting qualification. The course offers both a firm academic grounding and a hands-on understanding of the industry.

PROGRAM STRUCTURE

The Master of Accounting is made up of 12 subjects.

You must complete the following core subjects:

- Accounting Principles
- Accounting Theory and Application
- Auditing
- Business Law
- Economics for Business
- Financial Accounting
- Information Analysis and Systems
- Law of Commercial Entities
- Management Accounting and Strategy
- Managerial Finance
- Principles of Taxation Law
- Security Appraisal and Valuation

PROFESSIONAL OUTCOMES

You will be eligible for employment in professional accounting practices (public accounting or chartered accountants), corporations, the public sector and not-for-profit organisations. The degree is also useful for managers in contact with accounting on a day-to-day basis.

PROFESSIONAL RECOGNITION

- CPA Australia
- Institute of Chartered Accountants in Australia
- Institute of Public Accountants

COMBINED DEGREES

The following Master of Accounting combined degree is available:

- Master of Accounting / Master of Business
- Master of Accounting / Master of Business Administration

MASTER OF BUSINESS

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Admission is based on an assessment of prior academic record and motivation. Specifically we require a quality undergraduate degree from a recognised institution.

PROGRAM DESCRIPTION

The Master of Business program is a valuable step for business people who are looking to change their professional focus, while also providing a strong grounding for career advancement in business. The program provides you with a foundation in a variety of business practices plus the ability to gain a new specialisation. There are four separate streams - Finance, International Business, Marketing or a customised program incorporating all three.

PROGRAM STRUCTURE

The Master of Business is made up of 12 subjects.

Students in all streams must complete the following seven subjects:

- Accounting Principles
- Analysis and Application
- Behaviour in Organisations
- Economics for Business
- Managerial Finance
- Marketing Fundamentals
- Strategy or Entrepreneurship

Plus five elective subjects chosen from the finance, international business or marketing stream. You may also build a customised program by choosing your electives from all three areas:

> Finance

- Bank Financial Management
- Capital Markets
- Corporate Finance
- Derivative Products
- International Financial Management
- Investments
- Personal Investment

> International Business

- Global Business
- International Financial Management
- International Human Resource Management
- International Study Tour or Regional Study
- International Trade

> Marketing

- Communication Strategies
- Customer Analysis
- Customer Relationship Management
- Internet Marketing
- Market Research
- Marketing Practicum

INTERMEDIATE AWARDS

This program allows you to exit after four subjects with a graduate certificate or after eight subjects with a postgraduate diploma.

Graduate Certificate in Business (4)

You must complete the following subjects:

- Accounting Principles
- Analysis and Application
- Managerial Finance
- Marketing Fundamentals

Postgraduate Diploma of Business (8)

You must complete the following:

- Accounting Principles
- Analysis and Application
- Behaviour in Organisations
- Economics for Business
- Managerial Finance
- Marketing Fundamentals

Plus two electives

PROFESSIONAL OUTCOMES

You will have highly developed planning, analytical and interpersonal skills that will enable you to professionally advance your career prospects in business. This program also provides global networking opportunities.

PROFESSIONAL RECOGNITION

Australian Securities and Investment Commission RG 146 compliance* (training of financial product advisers).

*Family Enterprise specialisation is delivered in executive mode.

MASTER OF BUSINESS ADMINISTRATION

Duration: 1 year full-time (3 semesters)

Starting: January, September (full-time)
January, May, September (part-time)

ENTRY REQUIREMENTS

Bond's Master of Business Administration (MBA) program focuses on creating a cohort of students drawn from diverse backgrounds and cultures. You will need to demonstrate strong academic achievement as well as the potential and motivation to assume global leadership roles.

The entry requirements are deliberately flexible and you will need to demonstrate strength across the criteria. Your application is assessed on an individual basis. The entry criteria includes:

- A quality undergraduate degree from a recognised institution with a strong grade point average (GPA)
- Minimum three years work experience

An interview and a Graduate Management Admission Test may be required if you do not strictly meet these requirements.

Additionally you will need to provide:

- Detailed curriculum vitae documenting work experience.
- Cover letter detailing your career goals, how the MBA fits your ambition and what you will bring to the MBA cohort.
- Two references, one of which must be work related.

John Wood

CEO - Honeycombes Group

- 1983 Graduated Royal Military Academy Sandhurst and served as a British Army Officer.
- 1996 Appointed Executive Director of a leading UK listed media company.
- 1999 Crewed on the Millennium Round the World Yacht Race.
- 2000 Joined ASX/NZX 200 listed, APN News and Media Ltd in New Zealand. Promoted through various divisional general management roles becoming CEO, APN Digital Media.
- 2006 Managing Director of Caledonian Management Consultants Ltd in Auckland. Consulted to Auckland International Airport, Orion Health, Palo Alto Private Equity, amongst many others.
- 2010 Attracted to Bond's MBA due to the international diversity in the classroom, and the personalised interaction with globally focused academic staff. Received two first in class awards for Managing People, and International Business - Special Topic subjects.
- 2011 - 2012 Joined Honeycombes Group as CEO. Honeycombes Group is based in Townsville with an annual turnover of \$65 million dollars.

PROGRAM DESCRIPTION

Bond's MBA is based on three pillars - leadership, global business and corporate entrepreneurship. Designed by internationally awarded educators acknowledged for their global experience, this accelerated program blends the most current industry-relevant research with application to business challenges. The Bond MBA will give you a comprehensive understanding of the theory and practice of management in a fast globalising world.

PROGRAM STRUCTURE

The Master of Business Administration is made up of 12 subjects.

You must complete:

- Accounting Principles
- Business Strategy
- Entrepreneurship and Innovation
- International Business
- Management Accounting and Strategy
- Managerial Economics
- Managerial Finance
- Managing People
- Marketing Management
- Statistical Methods for Business

Plus two electives

MBA SPECIALISATIONS

You have the option of undertaking an MBA specialisation in a discipline-based area. The standard MBA is 12 subjects, an MBA with a specialisation is 15 subjects. A specialisation enables you to focus on an area of interest and better prepares you for specialised management positions.

The following MBA specialisations are available:

- MBA (Family Enterprise)*
- MBA (Finance)
- MBA (Information Technology)
- MBA (Marketing)

MBA COMBINED DEGREES

Bond's intensive study program allows you to combine your MBA with another master's degree. You can graduate with two master's level degrees in the same time it takes to complete a standard MBA at many universities. The MBA combination degree normally requires an additional two or three semesters of study.

The following MBA combined degrees are available:

- MBA / Master of Accounting
- MBA / Master of Finance
- MBA / Master of International Hotel and Tourism Management

Your MBA Program Coordinator will individually tailor the program so you are able to complete your specialisation or double degree in the minimum time.

PROFESSIONAL OUTCOMES

You will have highly developed planning, analytical and interpersonal skills that will enable you to professionally manage a business unit or your own business. Many nationalities are represented in the current MBA cohort so this program also provides you with valuable worldwide networking opportunities. The program integrates the coursework through a final business plan with a focus on developing leaders.

PROFESSIONAL RECOGNITION

Australian Securities and Investment Commission RG 146 compliance** (training of financial product advisers).

*Family Enterprise specialisation is delivered in executive mode.

**Students must complete Managerial Finance and Personal Investments if they wish to meet the RG 146 compliance.

EXECUTIVE MASTER OF BUSINESS ADMINISTRATION

Duration: 13 months full-time or 26 months part-time (intensive delivery)

Starting: April, August

ENTRY REQUIREMENTS

Admission to the Executive Master of Business Administration (EMBA) requires:

- Detailed curriculum vitae documenting a minimum eight years work experience with a minimum of three years in management.
- A strong undergraduate degree from a recognised institution or evidence of other significant post-secondary learning (including professional learning).
- Cover letter detailing your career goals, how the EMBA fits with your ambition and what you bring to the EMBA cohort.
- Two references, one of which must be work related.
- A letter of employer support.
- A Graduate Management Admission Test score is optional but may be required for students without an undergraduate degree, at the EMBA Director's discretion.

Shortlisted candidates will be required to attend an interview with Bond's EMBA Director or nominee to gauge leadership potential and suitability of the program for your needs.

PROGRAM DESCRIPTION

In an increasingly competitive global business environment, the EMBA provides upper echelon corporate managers and business owners the opportunity to develop a complex matrix of managerial, organisational and analytical skills essential for business survival and growth.

With a clear emphasis on leadership qualities, state-of-the-art analysis tools and strategic planning, the EMBA tackles management training at the highest level. You will graduate with an in-depth understanding of decision making processes, organisational behaviour, customer management, economic analysis, financial impacts, marketing and much more.

The Executive Master of Business Administration is made up of 16 subjects. Candidates can choose to specialise in the Corporate Stream or the Family Business Stream.

PROGRAM STRUCTURE

Corporate Stream

> Module 1: Business Fundamentals

- Financial Accounting and Analysis
- Managing Resources
- Market Oriented Decision Making
- Markets and Organisations
- Self-Insights, Teamwork and Strategic Thinking
- Valuation

> Module 2: Execution, Integration and Strategic Mindset

- Creating and Growing a Business
- Strategic People Management and Organisational Change
- Strategic Tools and Leadership

> Module 3: Key Management Issues

- Cross-Cultural Management
- Global Business (including study tour)
- Project Management

Plus choose four electives from the following:

- Corporate Governance*
- Executive Negotiation Strategies*
- Management Consulting*
- Mergers and Takeovers*
- Risk Management*
- Strategic Customer Relationship Management*

> Program Spanning Activities

- Executive Skills and Leadership*
- Major Application Project*

Mitch Peden

General Manager, Marketing, Communications and Operational Services - Volvo Group Australia

- 2009 | Enrolled in Bond's Executive MBA program to progress career to the next level. The EMBA's intensive mode delivery allowed Mitch to complete postgraduate qualifications in just 12 months while still working full-time in a sales and marketing role with Volvo Group Australia.
- Established social and business networks during the on-campus study component which added significant value to the postgraduate experience.
- Completion of the EMBA Major Application Project provided significant insight into potential process changes within the Volvo Group to enhance both organisational performance and customer satisfaction.
- 2010 | Appointed National Marketing and Communications Manager for the Volvo Group Australia.
- 2011 - 2012 | Promoted to General Manager of Marketing, Communications and Operational Services for the Volvo Group Australia.

Family Business Stream

> Module 1: Business Fundamentals

- Financial Accounting and Analysis
- Managing Resources
- Market Oriented Decision Making
- Markets and Organisations
- Self-Insights, Teamwork and Strategic Thinking
- Valuation

> Module 2: Execution, Integration and Strategic Mindset

- Creating and Growing a Business
- Strategic People Management and Organisational Change
- Strategic Tools and Leadership

> Module 3: Key Management Issues

- Family Business in a Global Context (including study tour)
- Family Business Insights and Leadership
- Professionalising Family Business Governance
- Professionalising Family Business Management

Plus choose four electives from the following:

- Corporate Governance*
- Executive Negotiation Strategies*
- Management Consulting*
- Mergers and Takeovers*
- Risk Management*
- Strategic Customer Relationship Management*

> Program Spanning Activities

- Executive Skills and Leadership*
- Major Application Project*

PROFESSIONAL OUTCOMES

The EMBA equips managers with the strategic and leadership focus to step up to senior management / director roles.

The Corporate EMBA focuses on career outcomes in companies and business entities across a wide spectrum of industries. You will develop the ability to lead and think strategically while focusing on the global stage on which businesses must engage.

The Family Business EMBA focuses on the issues of leadership, management, succession and governance that are specific to family run businesses (large and small). You will be equipped with the skills to step up to senior management / board level within family-run firms.

*Half unit subjects.

GRADUATE CERTIFICATE IN FAMILY BUSINESS

Duration: 4 - 6 months part-time, intensive delivery

Starting: January

ENTRY REQUIREMENTS

The successful completion of any undergraduate degree plus two years work experience in the applicant's given field or extensive relevant professional experience deemed equivalent by the Co-Director Australian Centre for Family Business.

PROGRAM DESCRIPTION

The Graduate Certificate in Family Business provides a comprehensive overview of running and governing a family business. Family businesses dominate the commercial landscape of all free enterprise economies. In Australia, family businesses account for over 70 per cent of all businesses. This is a valuable program for those who work in a family business (either as a family or non-family member) or for those who work for a business that provides services to this sector.

PROGRAM STRUCTURE

The program consists of four subjects taken from the EMBA offering. These include:

- Family Business in a Global Context (including study tour)
- Family Business Insights and Leadership
- Professionalising Family Business Governance
- Professionalising Family Business Management

PROFESSIONAL OUTCOMES

The Family Business Certificate will equip you with an understanding of the latest ideas in managing and governing family businesses. These programs are specifically designed for family and non-family managers and executives, helping to develop tailored strategies that will professionalise operations across the board and guide the company's continued growth. The Certificate articulates with and is a pathway into the EMBA Family Business specialisation.

MASTER OF FINANCE

Duration: 1 year full-time (3 semesters); flexible part-time available

Starting: January, May, September

ENTRY REQUIREMENTS

Admission to the Master of Finance will require an undergraduate degree from a recognised institution, and completion of a subject within the last seven years, deemed equivalent to either Fundamentals of Finance or Managerial Finance. A personal interview may also be required.

PROGRAM DESCRIPTION

The Master of Finance is designed for those with a business background whose career progression demands greater knowledge of the finance industry. Bond University's practical teaching style prepares you for work in commercial lending, company valuation, complex securities (futures, options and swaps), corporate structuring, financial planning, foreign exchange trading, investment banking, portfolio management, property management, risk management, stockbroking, strategic planning mergers and takeovers and treasury management.

PROGRAM STRUCTURE

The Master of Finance is made up of 12 subjects.

You must complete the following subjects:

- Bank Financial Management
- Capital Markets
- Corporate Finance
- Derivative Products
- Finance Applications and Analysis
- International Financial Management
- Investments

Plus three of the following subjects depending on availability:

- Advanced Fund Management
- Behavioural Finance
- Finance Theory
- Mergers and Acquisitions

Plus two electives from the Faculty of Business.

Those without a business background or the required prerequisite subjects must complete the following foundation business subjects prior to commencing the program:

- Accounting Principles
- Analysis and Application
- Economics for Business
- Managerial Finance

PROFESSIONAL OUTCOMES

Potential employers for finance graduates include commercial banks, insurance companies, merchant and investment banks, portfolio managers, security analysis stockbrokers, superannuation funds and treasury and corporate finance divisions of major corporations.

PROFESSIONAL RECOGNITION

Australian Securities and Investment Commission RG 146 compliance* (training of financial product advisers).

COMBINED DEGREES

The following Master of Finance combined degree is available:

- Master of Finance / Master of Business Administration

*Students must complete Managerial Finance and Personal Investments if they wish to meet the RG 146 compliance.

DOCTOR OF PHILOSOPHY

Duration: Minimum 3 years and a maximum 4 years full-time

Starting: Anytime throughout the academic year

ENTRY REQUIREMENTS

Applicants are normally required to have a minimum first or upper second-class undergraduate honours degree (equal to at least a grade point average of 80 per cent), master's (honours) degree (minimum first or upper second-class), master's by research or corresponding demonstration of research capacity.

A master's by coursework degree, including MBA degrees, do not satisfy academic requirements for direct entry into the doctoral program.

Doctoral students shall be admitted as full-time only and are expected to study on campus throughout their candidature.

PROGRAM DESCRIPTION

The School of Business offers a doctoral program by research in accounting, economics, finance, management, marketing, entrepreneurship and family business. The program develops independent research skills and the ability to relate a specific research topic to a broad framework of knowledge, with a major emphasis on independent inquiry (initiative), a thorough understanding of domain specific knowledge, competence in research methodologies and the ability to communicate research results.

PROGRAM STRUCTURE

Doctoral candidates may be required to successfully complete at least three research methodology subjects, including qualitative and quantitative analysis, in the first year of candidature. A confirmation of candidature process occurs at the end of the first year of enrolment to evaluate progress and suitability to continue in the degree.

SUPERVISION

You will be supervised by two appropriately qualified academic staff. The Faculty is responsible for approving your dissertation proposal prior to the examination process. The dissertation should be a major, substantially original, theoretical or empirical study of an issue pertaining to your major field of study. The School expects you to work closely with staff and be exposed to the research activities of the staff and other students. It would not be uncommon to co-author with your supervisor in publications resulting from your dissertation.

PROFESSIONAL OUTCOMES

The Doctor of Philosophy will provide you with the research skills for academic careers in the university sector or for the role of researcher in business research intensive organisations.

SCHOOL OF HOTEL, RESORT AND TOURISM MANAGEMENT

MASTER OF INTERNATIONAL HOTEL AND TOURISM MANAGEMENT

Duration: 1 year full-time (3 semesters) or part-time option available

Starting: January, May, September

ENTRY REQUIREMENTS

Admission to the Master of International Hotel and Tourism Management program requires successful completion of a recognised bachelor's degree or a commensurate qualification and two years relevant professional experience.

PROGRAM DESCRIPTION

The Master of International Hotel and Tourism Management program is designed for those requiring advanced knowledge about the hotel and tourism industry. You will complete a program of core business and advanced hotel and tourism management subjects designed to enhance your financial, analytical and management skills. Emphasis is placed on revenue and asset management within a hotel or tourism context. This program prepares you for senior professional and managerial roles.

PROGRAM STRUCTURE

The Master of International Hotel and Tourism Management is made up of 11 subjects.

Students in all streams must complete the following:

- Accounting Principles
- Hospitality and Tourism Human Resources Management
- Hospitality and Tourism Operations Management
- Hospitality and Tourism Strategic Management
- Marketing Fundamentals
- Research Methods in Hospitality and Tourism
- Sustainable Tourism Planning and Development
- Tourism Economics
- Capstone Project (20 credit point subject)

Plus two general electives from any faculty or the Institute of Sustainable Development & Architecture.

INTERMEDIATE AWARDS

This program allows you to exit after four subjects with a graduate certificate or after eight subjects with a postgraduate diploma.

Graduate Certificate of International Hotel and Tourism Management* (4)

You must complete the following:

- Accounting Principles
- Hospitality and Tourism Operations Management
- Marketing Fundamentals
- Tourism Economics

Postgraduate Diploma in International Hotel and Tourism Management* (8)

You must complete the following:

- Accounting Principles
- Hospitality and Tourism Human Resource Management
- Hospitality and Tourism Operations Management
- Marketing Fundamentals
- Research Methods in Hospitality and Tourism
- Tourism Economics

Plus two general electives from any faculty or the Institute of Sustainable Development & Architecture.

PROFESSIONAL OUTCOMES

The Master of International Hotel and Tourism Management is a qualification accepted around the world by leading hotel and tourism employers. Potential career pathways in the hotel and tourism industry include:

- Hotel and tourism consulting
- Hotel and tourism human resource management
- Hotel and tourism marketing
- Hotel and tourism operations
- Hotel and tourism planning and development
- Hotel and tourism revenue management

COMBINED DEGREES

The following Master of International Hotel and Tourism Management combined degree is available:

- MBA / Master of International Hotel and Tourism Management

*Only available to start in January semester.

Laurina Yam

Doctor of Philosophy - Student

“After 12 years of practical experience in the hotel industry, I made the decision to return to study in 2009 and advance my career with a postgraduate degree in International Hotel and Resort Management. I was impressed with the calibre of teaching staff within the School of Hotel, Resort and Tourism Management, and their broad range of expertise across the industry.

Their valuable advice, inspiration and encouragement has spurred me on to undertake my PhD, where I hope to gain valuable knowledge in my field to utilise in future endeavours.”

DOCTOR OF PHILOSOPHY

Duration: Minimum 3 years and a maximum 4 years full-time

Starting: Anytime throughout the academic year

ENTRY REQUIREMENTS

Applicants are normally required to have a minimum first or upper second-class undergraduate honours degree (equal to at least a grade point average of 80 per cent), master's (honours) degree (minimum first or upper second-class), master's by research or corresponding demonstration of research capacity.

A master's by coursework degree, including MBA degrees, do not satisfy academic requirements for direct entry into the doctoral program.

Doctoral students shall be admitted as full-time only and are expected to study on campus throughout their candidature.

PROGRAM DESCRIPTION

The School of Hotel, Resort and Tourism Management offers a doctoral program by research in hospitality, hotel and tourism management. The program develops independent research skills and the ability to relate a specific research topic to a broad framework of knowledge, with a major emphasis on independent inquiry (initiative), a thorough understanding of domain specific knowledge, competence in research methodologies and the ability to communicate research results.

Alumnus

SCHOOL OF INFORMATION TECHNOLOGY

MASTER OF BUSINESS AND INFORMATION TECHNOLOGY

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

A completed bachelor's degree or equivalent in any discipline from a recognised institution.

PROGRAM DESCRIPTION

The Master of Business and Information Technology provides you both advanced business knowledge and skills, together with capabilities in the business applications of information technology (IT). The program is suitable for graduates seeking managerial or commercial roles in the information and communications technology sector or information rich organisations.

PROGRAM STRUCTURE*

The Master of Business and Information Technology is made up of 14 subjects.

> Capstone

- IT Capstone Project

> Business Foundation Subjects

You must complete:

- Strategy

And two subjects from the following:

- Accounting Principles
- Analysis and Application
- Economics for Business
- Managerial Finance
- Marketing Fundamentals

> Information Technology and Systems Subjects

You must complete:

- Business Processes / IT in Operations

And two subjects from the following:

- Analysing and Designing Information Systems
- Business Systems and Processes
- Database Management
- E-Business
- Web Applications

> Management of Technology Subjects

You must complete:

- ICT Governance

And one subject from the following:

- Business Intelligence and Data Warehousing
- Security and Assurance
- Strategic IS Management
- Systems Design

> People / Organisations Subjects

You must complete two subjects from the following:

- Behaviour in Organisations
- Entrepreneurship
- International Human Resource Management

Plus one elective chosen from those offered by the School of Business or the School of Information Technology.

INDUSTRY INTERNSHIP

You have the option of extending your postgraduate studies to include a 20 week industry based internship or workplace project. Completion of this subject will be reflected in both the transcript and the degree obtained.

PROFESSIONAL OUTCOMES

The Master of Business and Information Technology provides you with the business knowledge and IT management skills for a career in an IT department of a larger organisation including government and business enterprise.

*Subject names and structure may change - please refer to www.bond.edu.au for updated information on program structure.

MASTER OF BUSINESS SYSTEMS

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree program in business at an approved institution, subject to the decision of the Dean or designate. Those without a business background will be required to complete a Graduate Certificate in Business.

PROGRAM DESCRIPTION

The Master of Business Systems program provides the financial, business systems and technology management skills necessary for those aspiring for careers as senior managers and planners in information-rich and process-oriented organisations. The program is particularly suitable for those with a business background who need to enhance their business, management and IT knowledge.

PROGRAM STRUCTURE*

The Master of Business Systems is made up of 12 subjects.

You must complete five of the following business subjects**:

- Auditing
- Behaviour in Organisations
- Entrepreneurship
- Financial Accounting
- Global Business or International Trade
- Management Accounting and Strategy
- Managerial Finance
- Principles of Project Management
- Strategy

Plus the following IT subjects^:

- Analysing and Designing Information Systems
- Database Management
- ICT Governance
- IT Capstone Project
- Systems Design

Plus select two subjects from the following:

- Business Intelligence and Data Warehousing
- Business Processes / IT Operations
- Security and Assurance
- Strategic IS Management

INDUSTRY INTERNSHIP

You have the option of extending your postgraduate studies to include a 20 week industry based internship or workplace project. Completion of this subject will be reflected in both the transcript and the degree obtained.

PROFESSIONAL OUTCOMES

Graduates will have the knowledge and skills which will support a number of initial and middle career options including business analyst, systems and process resource management.

PROFESSIONAL RECOGNITION

The Master of Business Systems is accredited by the Australian Computer Society at the Professional level.

*Subject names and structure may change - please refer to www.bond.edu.au for updated information on program structure.

**Alternate subject choices may be made available for students whose recent undergraduate programs overlap with the above.

^Alternate subject choices may be made available for students whose recent undergraduate programs overlap with the above.

MASTER OF INFORMATION TECHNOLOGY

Duration: 1 year full-time (3 semesters)
Starting: January, May, September

ENTRY REQUIREMENTS

A completed bachelor's degree in any discipline from a recognised institution or equivalent.

If you do not meet the entry requirements but have a diploma and relevant work experience, you can apply to be admitted into the Master of Information Technology (Industry) program. A six week industry placement will give you exposure to information technology in an Australian industrial setting. Foundation subjects help bridge the gap between diploma and degree graduates and provide you with the background knowledge to confidently operate within an IT environment.

PROGRAM DESCRIPTION

The Master of Information Technology offers graduates of any discipline (including IT) the opportunity to acquire a professional qualification in information technology. The carefully structured foundation will give you the background knowledge to confidently operate within an IT environment and associated business setting. The advanced component will provide you with the specialist skills required for professional IT pathways.

PROGRAM STRUCTURE*

The Master of Information Technology is made up of 12 subjects.

You must complete the following foundation subjects (unless exemption is granted on the basis of prior studies):

- Analysing and Designing Systems Development
- ICT Governance
- Introduction to Programming

Plus IT Capstone Project

Plus you must choose an additional eight subjects selecting at least one of the following permissible awards:

- Computer Games Software
- Information Security and Assurance
- Information Systems
- Infrastructure
- IT Management
- Mobile Applications
- Service Frameworks
- Software Systems
- Web Engineering

Permissible awards are currently defined by the above areas of expertise and specialised subjects. Students who nominate an area of specialisation for a permissible award will be registered for the award to be defined on their academic testimonial.

Please contact your IT Program Advisor to discuss available permissible awards and associated study fields.

INDUSTRY INTERNSHIP

You have the option of extending your postgraduate studies to include a 20 week industry based internship or workplace project. Completion of this subject will be reflected in both the transcript and the degree obtained.

INTERMEDIATE AWARDS

This program allows you to exit after four subjects with a graduate certificate or after eight subjects with a postgraduate diploma.

Graduate Certificate in Information Technology (4)

The program consists of four approved subjects offered by the School of Information Technology.

Postgraduate Diploma in Information Technology (8)

You must complete the following:

- Analysing and Designing Information Systems
- Database Management
- Introduction to Programming
- Web Applications

Plus four approved electives

PROFESSIONAL OUTCOMES

The Master of Information Technology provides you with the technical skills for careers in the Information Technology industry or with IT intensive organisations including government and business enterprise.

PROFESSIONAL RECOGNITION

The Master of Information Technology is accredited by the Australian Computer Society at the Professional level.

*Subject names and structure may change - please refer to www.bond.edu.au for updated information on program structure.

MASTER OF INFORMATION TECHNOLOGY (HONOURS)

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Admission is restricted to outstanding graduates of a Bachelor or Master of Information Technology program or equivalent. Those enrolled in the Master of Information Technology program who have demonstrated the required academic ability may be invited to transfer to this program.

PROGRAM DESCRIPTION

The Master of Information Technology (Honours) program prepares graduates for a research career in the IT industry or the pursuit of higher research degree qualifications, including a Doctor of Philosophy (PhD). The program will provide you with the necessary skills to solve unstructured open research problems. You will learn the full research lifecycle, including problem identification, examining existing work and proposing and implementing and evaluating a solution. You will also be expected to identify and solve a small research problem and submit a mini-thesis for evaluation.

PROGRAM STRUCTURE

You must complete the following subjects:

- Directed Studies
- Dissertation (equivalent to 40 credit points)
- Literature Review
- Research Methods for Information Technology
- Research Proposal and Seminar

Plus four subjects chosen from the postgraduate coursework subjects offered by the School of Information Technology. Unless otherwise approved, all elective subjects must be at an advanced level.

PROFESSIONAL OUTCOMES

The Master of Information Technology (Honours) will provide you with the analytical skills for research careers in the information technology industry and consideration for PhD studies.

PROFESSIONAL RECOGNITION

The Master of Information Technology (Honours) is accredited by the Australian Computer Society at the Professional level.

DOCTOR OF PHILOSOPHY

Duration: Minimum 3 years full-time to a maximum of 4 years full-time

Starting: Anytime throughout the academic year

ENTRY REQUIREMENTS

Applicants are normally required to have a minimum first or upper second-class undergraduate honours degree (equal to at least a grade point average of 80 per cent), Master of Information Technology (Honours) degree, master's by research or corresponding demonstration of research capacity.

A master's by coursework degree, including MBA degrees, do not satisfy academic requirements for direct entry into the doctoral program.

Doctoral students shall be admitted as full-time only and are expected to study on campus throughout their candidature.

PROGRAM DESCRIPTION

The School of Information Technology offers a doctoral program by research in health informatics, business intelligence and systems, computational finance, ICT governance, mobile computing, security, optimisation, software engineering, computer science in education and spreadsheets in education. The program develops independent research skills and the ability to relate a specific research topic to a broad framework of knowledge, with a major emphasis on independent inquiry (initiative), a thorough understanding of domain specific knowledge, competence in research methodologies and the ability to communicate research results.

PROGRAM STRUCTURE

Doctoral candidates may be required to successfully complete at least three research methodology subjects, including qualitative and quantitative analysis, in the first year of candidature. A confirmation of candidature process occurs at the end of the first year of enrolment to evaluate progress and suitability to continue in the degree.

SUPERVISION

You will be supervised by two appropriately qualified academic staff. The Faculty is responsible for approving your dissertation proposal prior to the examination process. The dissertation should be a major, substantially original, theoretical or empirical study of an issue pertaining to your major field of study. The School expects you to work closely with staff and be exposed to the research activities of the staff and other students. It would not be uncommon to co-author with your supervisor in publications resulting from your dissertation.

PROFESSIONAL OUTCOMES

The Doctor of Philosophy will provide you with the research skills for academic careers in the university sector or for the role of researcher in IT research intensive organisations.

PROFESSIONAL RECOGNITION

The Doctor of Philosophy degree is accredited by the Australian Computer Society at Professional level.

Faculty of Health Sciences and

FACULTY OF HEALTH SCIENCES & MEDICINE

The Faculty of Health Sciences & Medicine is dedicated to shaping professionals who are distinguished by their superior scientific clinical skills, ethics, compassion and humanity.

The Faculty focuses on workplace learning with our professional courses offering opportunities in a wide range of settings to ensure that theory is informed by practice. We strive to also ensure that our students are aware of the needs of prospective employers.

Schools within the Faculty of Health Sciences & Medicine include:

- School of Health Sciences - www.bond.edu.au/health-sciences
- School of Medicine - www.bond.edu.au/medicine

INDUSTRY PARTNERS

The Faculty has developed industry partnerships with leading organisations including:

- Australian Institute of Sport
- Beach Volleyball Gold Coast
- BMD Northcliffe Surf Lifesaving Club
- Gold Coast Suns
- Gold Coast Titans
- Queensland Rugby Union and the St George Reds
- Southport Sharks

FACULTY FACILITIES

Bond University's Faculty of Health Sciences & Medicine encompasses several state-of-the-art laboratories, teaching facilities and research spaces incorporating the latest technology and industry-standard equipment. Some of these include:

- Anatomy Laboratory
- Bond University Clinical Education and Research Centre
- Clinical Skills Rooms
- Gregor Heiner Lecture Theatre
- Physiotherapy Laboratory
- Pathology Museum
- Science Laboratory
- Sports Science Laboratories

Rhys Christy

PhD - Student

2004	Graduated from Somerset College after completing the Senior School Certificate and the International Baccalaureate (IB) at the same time. Achieved a final score of 42 for his IB (equivalent to an OP 1).
2005	Enrolled in a Bachelor of Biomedical Sciences at Bond University, receiving several awards for academic excellence.
2006	Graduated from Bachelor of Biomedical Sciences, receiving an Honours scholarship in recognition of his strong academic results.
2007	Successfully completed Honours year, graduating with First Class Honours, researching changes in the shape of red blood cells related to ageing and possible link to cardiovascular disease.
2008	Awarded three-year Postgraduate Biomedical Research PhD Scholarship from the National Heart Foundation. Commenced PhD studies at Bond at just 20 years of age; working on NHMRC-funded project investigating exercise dose-response relationships in women aged 65 - 74 years. Presented pilot data at the Sports Medicine Australia Conference.
2009	Published his research in the Journal of Gerontology, a peer reviewed journal. Presented at the 15th Conference of the European Society for Clinical Hemorheology and Microcirculation (ESCHM) in St Moritz, Switzerland.
2010 - 2012	Completing a Biomedical Research PhD.

SCHOOL OF HEALTH SCIENCES

SCHOOL OF HEALTH SCIENCES HONOURS PROGRAM

Duration: 1 year full-time (3 semesters)

Starting: January

ENTRY REQUIREMENTS

Successful completion of a relevant undergraduate degree with admission based on satisfactory academic performance in undergraduate subjects related to the field of planned research.

PROGRAM DESCRIPTION

The Honours program is one year of independent research and study culminating in the production of a research thesis and presentation of a research seminar. You will undertake a program of coursework and research where you will conceptualise, plan, organise, undertake and report on an independent research project, while being supervised by a member of the academic staff.

DISCIPLINE AREAS

- Bachelor of Biomedical Science with Honours
- Bachelor of Exercise Science with Honours
- Bachelor of Forensic Science with Honours
- Bachelor of Health Sciences (Honours)
- Bachelor of Medical Laboratory Science with Honours
- Bachelor of Sports Management with Honours
- Bachelor of Sports Science with Honours

PROFESSIONAL OUTCOMES

The Honours program provides a pathway to postgraduate study, typically at the PhD level. Graduates will also be well placed to seek employment in their discipline areas (for example exercise science or biomedical science) as subject professionals in either the corporate sector or research community.

MASTER OF HIGH PERFORMANCE SCIENCE

Duration: 1 year full-time (3 semesters) or equivalent part-time

Starting: January*

ENTRY REQUIREMENTS

Relevant degree in Exercise Science, Sports Science or Human Movement Studies, with admission also based on academic performance in those relevant degrees. The preferred undergraduate degree for entry into Master of High Performance Science is the Bachelor of Sports Science offered by Bond University.

PROGRAM DESCRIPTION

The Master of High Performance Science produces high quality graduates who have an excellent understanding of high performance athletes, their coaches, the organisation and administration of elite sport. The program will provide you with well-grounded educational processes in the behavioural and cognitive sciences, high performance sciences and technology. The curriculum focuses on an evidence-based approach to inform practice.

PROGRAM STRUCTURE**

You must complete the following 12 subjects:

- Clinical Sports Science
- Communication, Leadership and Negotiation in Sport
- Doping and Detection in Sport
- Emerging Technologies in Sport
- Evidence Based Project in Sports Science
- Legal Aspects of Sport
- Molecular Biology of High Performance Sport
- Performance Analysis and Fatigue
- Project Management in High Performance Sport
- Psychology of High Performance Sport
- Strategic Management in High Performance Sport
- Training Adaptation and Talent Identification

PROFESSIONAL OUTCOMES

The Master of High Performance Science ideally positions graduates to seek employment in a range of settings that may include:

- Assistant coaches
- High performance coordinators
- Talent identification consultants
- Advisor performance services
- Elite program coordinators

*Students may apply for May or September entry, however completion of this program may take longer than three semesters.

**Subject names and structure may change - please refer to www.bond.edu.au for updated information on program structure.

MASTER OF SCIENCE (BY RESEARCH)

Duration: 1 - 2 years full-time or 2 - 4 years part-time

Starting: Anytime throughout the academic year

ENTRY REQUIREMENTS

Successful completion of a relevant undergraduate degree with honours in a relevant discipline, with evidence of the ability to conduct supervised research; or a qualification or combination of qualifications deemed to be equivalent by the Faculty Research Committee.

PROGRAM DESCRIPTION

The Master of Science (by Research) (Health Sciences) gives you the opportunity to undertake research studies in a selected and approved aspect of health sciences. This includes evidence-based practice, immunology, neuroscience, physiology / (clinical) pharmacology, forensic science, sports and exercise science, medical research and sports management. This program will provide you with access to Bond's state-of-the-art learning facilities and supervision by world-renowned academics.

PROGRAM STRUCTURE

Prior to formal application, you must seek contact with a potential supervisor. Applications will only be considered for enrolment where a supervisor is available. If you wish to undertake a research project outside of the approved projects then the proposed research must fit within the Faculty's strategic research plan. Once a potential supervisor has been sourced, the following information is required in order for applications to be assessed:

- A detailed thesis proposal (if not undertaking an approved project).
- University academic transcripts for all studies to date (undergraduate and postgraduate).
- A resume detailing previous work and study history.
- Two written references which should cover your abilities, key personal attributes and capabilities.
- International students previously instructed in a language other than English are required to provide certified translated and untranslated copies of both transcripts and Certificate of Completion. Please note that an IELTS total 7.0 is required for entry to postgraduate studies in the Faculty of Health Sciences & Medicine.
- A budget proposal for all research supplies (if not undertaking an approved project).

PROFESSIONAL OUTCOMES

The Master of Science (by Research) (Health Sciences) provides graduates with scientific research expertise as well as managerial and leadership skills. You will be well placed to seek employment in a range of fields that may include:

- Health industry
- Pharmaceutical industry

You may also wish to continue your studies with a Doctor of Philosophy (Health Sciences & Medicine) program.

MASTER OF SPORTS MANAGEMENT

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of a relevant undergraduate degree with admission based on satisfactory academic performance.

PROGRAM DESCRIPTION

The Master of Sports Management sets the benchmark for sports management in Australia by balancing the strong academic component of the program with strategic alliances within the sports industry. Taught by leading experts in sport, law, business and public relations, the program has been designed to achieve an excellent integrated knowledge base using an evidence-based, case study approach. You will have access to excellent internship / work experience opportunities with a wide range of organisations. Bond students have completed placements at AFL Queensland, Association of Surfing Professionals (ASP) International, Australian Sports Commission, Australian University Games, Billabong, Gold Coast Blaze, Gold Coast United, Gold Coast Turf Club and Yachting Queensland.

PROGRAM STRUCTURE*

You must complete the following 12 subjects:

- Behaviour in Organisations
- Communication, Leadership and Negotiation in Sport
- Evidence Based Project in Sport Management
- International Sport Business
- Public Relations in Sport
- Sport and Contemporary Issues
- Sport Business Innovation
- Sport Economics and Finance
- Sports Law
- Strategic Sport Management
- Strategic Sport Marketing
- Approved Elective

PROFESSIONAL OUTCOMES

The Master of Sports Management positions you to seek employment in a range of settings that may include:

- Event management
- Player management
- Recreational and leisure clubs
- Sport Marketing firms
- Amateur sport organisations
- Professional sport teams and leagues
- Sporting goods organisations

*Subject names and structure may change - please refer to www.bond.edu.au for updated information on program structure.

DOCTOR OF PHILOSOPHY

Duration: Minimum 3 years and maximum of 4 years full-time (6 years part-time)

Starting: Anytime throughout the academic year

ENTRY REQUIREMENTS

Successful completion of an undergraduate degree with honours (first class or 2A) or a research master's degree in a relevant discipline, with evidence of the ability to conduct supervised research, or a qualification or combination of qualifications deemed to be equivalent by the Postgraduate Research Committee.

PROGRAM DESCRIPTION

The Doctor of Philosophy program allows you to undertake supervised research studies in a selected and approved aspect of health sciences. This includes evidence-based practice, immunology, neuroscience, physiology / (clinical) pharmacology, forensic science, medical research, sports and exercise science, and sports management. You will have access to Bond's state-of-the-art learning facilities and be supervised by world renowned academics.

PROGRAM STRUCTURE

Prior to formal application, you must contact a potential supervisor. Applications will only be considered for enrolment where a supervisor is available. If you wish to undertake a research project outside of the approved projects then the proposed research must fit within the Faculty's strategic research plan. Once a potential supervisor has been sourced, the following information is required in order for applications to be assessed:

- A detailed thesis proposal (if not undertaking an approved project).
- University academic transcripts for all studies to date (undergraduate and postgraduate).
- A resume detailing previous work and study history.
- Two written references which should cover your abilities, key personal attributes and capabilities.
- International students previously instructed in a language other than English are required to provide certified translated and untranslated copies of both transcripts and Certificate of Completion. Please note that an IELTS total 7.0 is required for entry to postgraduate studies in the Faculty of Health Sciences & Medicine.
- A budget proposal for all research supplies (if not undertaking an approved project).

PROFESSIONAL OUTCOMES

The Doctor of Philosophy positions you to seek employment in a range of settings that may include:

- Academic careers in university or research sector
- Government
- Private organisations
- Research organisations

Lauren Earles

Physiotherapist, John Flynn Hospital

- 2005 | Commenced Bachelor of Health Sciences at Bond University, working and studying full-time.
- 2006 | Graduated with a Bachelor of Health Sciences at Bond in just two years of study.
- 2007 | Followed direct pathway to postgraduate Doctor of Physiotherapy program at Bond, the first degree of its kind in Australia.
- 2008 - 2009 | Achieved first in class honours and received the 2009 Doctor of Physiotherapy Award for Research. Completed 42 weeks of clinical placement, as well as conducting and completing a research project in the rehabilitation unit at John Flynn Private Hospital.
- Presented research paper at the national Australian Physiotherapy Conference (APA) in Sydney.
- Graduated as part of Bond's inaugural Doctor of Physiotherapy cohort, at the time being the youngest Doctor of Physiotherapy in Australia.
- 2010 - 2011 | Working full-time as a Physiotherapist at John Flynn Private Hospital.

DOCTOR OF PHYSIOTHERAPY

Duration: 2 years full-time (6 semesters)

Starting: May

ENTRY REQUIREMENTS

1. Successful completion of a Bachelor of Exercise Science or Bachelor of Sports Science degree from Bond University, or an equivalent degree from a recognised institution meeting the following minimum academic entry criteria:
 - Two semesters of Human Anatomy
 - Two semesters of Human Physiology
 - One semester of Research Design / Statistics
 - One semester of Biomechanics
 - One semester of Exercise Prescription
2. Successful performance at a selection interview.

PROGRAM DESCRIPTION

The Doctor of Physiotherapy program is an accredited graduate entry level physiotherapy program. The program teaches you to apply knowledge of mechanisms associated with pain, injury and pathological processes. Along with other related sciences it teaches you to understand and apply the evidence to practice, and to develop and apply knowledge and clinical practice skills required to examine, diagnose and treat physiotherapy clients.

Featuring small group problem-based learning and practical teaching sessions in our state-of-the-art Physiotherapy Laboratory and Clinical Skills rooms, the program enables holistic preparation of clinical cases and assists you to develop and apply your knowledge, skills and professional attributes for practice. The strong emphasis on clinical experiential learning - over 50 per cent of the program is located in varied clinical settings - enables an effective transition into the workplace. The program culminates with a clinical internship with an embedded research project in the final semester.

PROGRAM STRUCTURE*

The Doctor of Physiotherapy is a set program with the following sequence of subjects:

> Semester 1

- Principles of Physiotherapy
- Musculo-skeletal Physiotherapy I
- Cardio-respiratory Physiotherapy I

> Semester 2

- Cardio-respiratory Physiotherapy II
- Musculo-skeletal Physiotherapy II
- Cardio-respiratory Clinical Practice
- Musculo-skeletal I Clinical Practice

> Semester 3

- Musculo-skeletal Physiotherapy III
- Neurological Physiotherapy
- Musculo-skeletal II Clinical Practice
- Neurological Physiotherapy Clinical Practice

> Semester 4

- Physiotherapy for Chronic Disease and Disability
- Physiotherapy Leadership, Management and Advocacy
- Chronic Disease and Disability Clinical Practice

> Semester 5

- Diversity and / or Life Stage Clinical Practice
- Evidence-Based Practice Project I
- Maximising Human Potential

> Semester 6

- Clinical Internship
- Evidence-Based Practice Project II
- The Well-Rounded Physiotherapist

PROFESSIONAL OUTCOMES

The Doctor of Physiotherapy positions you to seek employment in a range of settings that may include:

- Major metropolitan and regional hospitals
- Disability services
- Education Queensland
- Private practice
- Community settings

PROFESSIONAL RECOGNITION

- Australian Physiotherapy Council

*Subject names and structure may change - please refer to www.bond.edu.au for updated information on program structure.

SCHOOL OF MEDICINE

BACHELOR OF MEDICINE BACHELOR OF SURGERY (MBBS)

Duration: 4 years 8 months full-time (14 semesters)

Starting: May

ENTRY REQUIREMENTS

The Bachelor of Medicine Bachelor of Surgery (MBBS) program is an undergraduate program, however it is also open to those who have completed a degree. Enrolments in the program are strictly limited to ensure small class sizes and sufficient clinical placements. As such, entry is extremely competitive.

Postgraduate applicants will be evaluated based on the following equally weighted criteria:

1. GPA from previous university degree (completed no more than nine years earlier) which also demonstrates qualifications at least equivalent to Queensland Year 12 Chemistry, Maths B and English. Applicants who do not meet these requirements must complete an approved bridging course before their application can be considered.
2. A structured interview ranking. Applicants are selected through a rigorous assessment process based on outstanding academic achievement, in combination with demonstrated ability to achieve graduate outcomes of knowledge and critical thinking, leadership, initiative and teamwork, communication skills and responsibility, ethical decision-making skills, motivation, critical thinking and non-verbal reasoning.

Short-listed applicants will be required to attend an interview in person at Bond University where their general suitability to medicine and preparedness to undertake a highly demanding course will be examined in a structured multi-mini interview (MMI), comprising eight individual interviewers from both medical and non-medical backgrounds who are trained in entry-style medicine interviews.

Bond University is committed to easing the shortage of medical practitioners in Australia and therefore applications to the MBBS program are only open to Australian citizens, Australian permanent residents and holders of an Australian humanitarian visa. Applications are also open to New Zealand citizens but not to New Zealand permanent residents. Bond University may accept applications for applicants on behalf of foreign governments to which it has entered into specific arrangements.

PROGRAM DESCRIPTION

The Bachelor of Medicine Bachelor of Surgery (MBBS) offers direct entry to both Year 12 school leavers and university graduates. Established by one of the world's leading authorities in ensuring best medicine practice based on evidence (Evidence-Based Medicine), the program is distinguished by its strong educational focus on problem-based learning. Rather than studying one specialist subject area at a time, the curriculum challenges you with clinical cases that combine a range of symptoms, possible diagnoses and disciplines. Essentially, it puts you in real-life clinical situations from day one.

The holistic learning strategy is complemented by extensive clinical practice and patient contact integrated with the theoretical study elements. With Bond's three-semester-per-year timetable and intensive clinical training periods, the Bachelor of Medicine Bachelor of Surgery degree is completed in just four years eight months, after which you will then be eligible to apply for hospital internships*.

Anchita Roy

Intern - Logan Hospital

- 2003 Enrolled in a Bachelor of Biomedical Science, attracted by small classes and fast-tracked programs on offer at Bond.
- 2004 Graduated with a Bachelor of Biomedical Science in just two years of study.
- 2005-2009 Enrolled in Bond University's new undergraduate Bachelor of Medicine Bachelor of Surgery program to fulfil her dream of becoming a doctor.
Undertook numerous clinical placements in a wide range of medical fields at Wesley Hospital, Tweed Heads Hospital, Gold Coast Hospital and Robina Hospital.
- 2009 Graduated as part of Bond's inaugural MBBS cohort, qualifying as a doctor in less than five years.
- 2010 - 2011 Commenced internship at Logan Hospital. Ambition to become emergency physician and practice in domestic and international rural communities.

BBioMedSc/MBBS
Alumnus

PROGRAM STRUCTURE**

The emphasis on the basic sciences in Year 1 changes towards the clinical applied sciences as the course progresses.

The first two years align with the Bond University semester format and extensively use problem-based learning (PBL). There is a weekly clinical case to which learning is integrated around. Each semester is 14 weeks and you will cover approximately 72 clinical cases in these first two years.

> Year 1: Semesters 1 - 3 (42 weeks)

Emphasis on basic sciences with the subject matter integrated into PBL cases rather than formal subjects.

Subject matter includes:

- Anatomy
- Biochemistry
- Imaging
- Immunology
- Microbiology
- Pathology
- Pharmacology
- Physiology
- 35 Problem-Based Learning cases
- Communication and history taking skills
- Procedural skills

> Years 2 - 3: Semesters 4 - 8

Problem-based learning with development of clinical reasoning.

- 47 Problem-Based Learning cases on the body systems, 2 - 4 cases in each system block:
 - Cardiovascular
 - Endocrine
 - Gastroenterology
 - Haematology
 - Musculoskeletal
 - Neurosciences
 - Renal
 - Respiratory
 - Sexual Health
 - Skin
- 14 week Integrated Clinical Semester (ICS)
- Further development of history taking and physical examination skills
- Further procedural skills

> Year 4

Consists of 43 academic weeks of 5 x 8 week clinical placements covering:

- Child Health
- Medicine
- Mental Health
- Surgery
- Women's Health
- 1 week mid-year and end-of-year assessments
- 2 weeks of revision
- Integrated clinical assessment throughout

> Year 5

Consists of 42 academic weeks of:

- Block 1 x 8 weeks elective placement
- 34 weeks clinical placements
- Block 2 and 3 (8 weeks each)
 - 4 x 4 week placements in:
 - Medical specialities (cardiology, respiratory); or
 - Surgical specialities (ENT, urology) per block; or
 - 1 x 8 week placement in research (for selected students) with 2 x 4 week placements in Medical specialities (cardiology, respiratory) or Surgical specialities (ENT, urology) per block
- Blocks 4, 5 and 6 (6 weeks each, 18 weeks total)
 - General Practice
 - Emergency
 - Critical Care - Anaesthetics / ICU / Orthopaedics
- 1 week mid-year and end-of-year assessments
- 2 weeks of revision
- Integrated clinical assessment throughout

PROFESSIONAL OUTCOMES

You will be qualified for registration as a medical practitioner in any state or territory in Australia. You will have the appropriate knowledge, attitudes and skills to function effectively as interns in Australian hospitals and will be ideally positioned to undergo further training in any of the Australasian specialty colleges. Internship places are assessed by the individual states and are separate to universities. To date, 100 per cent of our MBBS graduates have secured internships in hospitals across Australia.

PROFESSIONAL RECOGNITION

The Bond MBBS program is accredited by the Australian Medical Council, assuring that it meets or exceeds the agreed national guidelines for medical education.

*Internship places are assessed by the individual states and are separate to universities. International graduates are not guaranteed intern places by the University; this is the responsibility of the individual state Health Departments
 **Subject names and structure may change - please refer to www.bond.edu.au for updated information on program structure.

FACULTY OF HUMANITIES & SOCIAL SCIENCES

One of the most innovative of its kind, Bond University's Faculty of Humanities & Social Sciences applies the latest theory and research to its programs. With a focus on practical experience, you will be offered a range of Australian and international internships, ensuring you are workplace ready. The Faculty prides itself on offering a challenging intellectual climate which encourages you to widen your sense of what is humanly possible.

Schools within the Faculty of Humanities & Social Sciences include:

- School of Communication and Media - www.bond.edu.au/communication-media
- School of Humanities - www.bond.edu.au/humanities
- School of Social Sciences - www.bond.edu.au/social-sciences

INDUSTRY PARTNERS

The Faculty has developed industry partnerships with leading organisations including:

- Apple
- Austrade in Dubai, Paris, Singapore and Toronto
- Italian Chamber of Commerce and Industry
- iToys Hong Kong
- Maverick Marketing & Communications
- MTV Networks
- NBC - The Today Show, Washington DC Bureau, USA
- The Pacific Film and Television Commission
- Turkish Economic & Social Studies Foundation, Istanbul, Turkey

FACULTY FACILITIES

The Faculty of Humanities & Social Sciences has several state-of-the-art teaching and learning facilities including:

- Level Up Lab - A media facility specifically tailored for the development of 2D and 3D digital media.
- Film and TV Studios - Offering more equipment per student than any other educational facility in Australia.
- Psychology Clinic - A modern clinic with observation and consulting rooms, including a test library and student training area.

SCHOOL OF COMMUNICATION AND MEDIA

POSTGRADUATE DIPLOMA IN COMMUNICATION

Duration: 2 semesters

Starting: January, May, September

MASTER OF COMMUNICATION (ADVERTISING) (CORPORATE COMMUNICATION) (JOURNALISM) (MEDIA) (PUBLIC RELATIONS)

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree program at an approved institution with a record of performance at least at Credit (65 per cent) level.

PROGRAM DESCRIPTION

Our postgraduate communication options have been developed in consultation with industry groups to ensure they offer an appropriate mix of practise and theory, underpinned by essential problem solving abilities, interpersonal skills and a high level of written communication.

The Postgraduate Diploma allows you to build on previous studies by incorporating a specialist major in Corporate Communication, Journalism, Public Relations, Generalist Communication, Advertising and Media, or to add new strengths in any of these areas. It can be taken as a stand-alone qualification or as a pathway into the master's program. The Master of Communication can be generic or specific such as Master of Communication (Advertising), Master of Communication (Corporate Communication), Master of Communication (Journalism), Master of Communication (Media), and Master of Communication (Public Relations).

PROGRAM STRUCTURE

Postgraduate Diploma of Communication (8)

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

- Communication Research Seminar
- Sociology of Mass Communication
- Theoretical Constructs in Communication

> Specialist Major

Choose three subjects from one of the following areas:

- Advertising
- Corporate Communication
- Generalist Communication
- Journalism
- Media
- Public Relations

Master of Communication (12)

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

- Communication Research Seminar
- Sociology of Mass Communication
- Theoretical Constructs in Communication

> Specialist Major

Plus a specialist major from one of the following areas:

1. Advertising

Any three postgraduate level Advertising subjects or three from:

- Advanced Crisis Communication
- Communication and Leadership in Organisations
- Corporate Training and Consultancy
- Group Communication and Transformative Leadership
- Public Relations Theory and Techniques

2. Corporate Communication

Three subjects drawn from:

- Advanced Crisis Communication
- Communication and Leadership in Organisations
- Corporate Conflict Resolution
- Corporate Training and Consultancy
- Foundations of Intercultural Communication
- Gender Communication - Policies and Issues
- Group Communication and Transformative Leadership
- Interpersonal Communication Strategies
- Public Relations Theory and Techniques

3. Generalist Communication

Three subjects drawn from any of the Advertising, Communication, Journalism or Public Relations postgraduate level subjects.

4. Journalism

Any three postgraduate level Journalism subjects.

5. Media

Three subjects drawn from:

- Communication Technology - Policy and Planning
- Journalism Ethics and Law
- Mass Media Institutions
- Photojournalism Design, Editing and Publishing
- Video Games Theory and Policy

6. Public Relations

Any three postgraduate level Public Relations subjects.

> Elective Subjects

Any four subjects selected from the Humanities and Social Sciences list of postgraduate subjects, two of which must be drawn from Advertising, Communication, Public Relations or Journalism offerings.

Students with a minimum GPA of 2.5 or above may complete a four subject dissertation.

PROFESSIONAL OUTCOMES

Communication is playing a broader role in the functioning of modern government, business and industrial organisations. Being a more effective communicator can only enhance your career prospects. Bond University's unique practical teaching methodology and close links to business will equip you with all the tools for success in professional communication.

MASTER OF COMMUNICATION (PROFESSIONAL)

Duration: 4 semesters plus 20 weeks (92 weeks)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree program at an approved institution with a record of performance at least at Credit (65 per cent) level.

PROGRAM DESCRIPTION

The Master of Communication (Professional) is an innovative degree, designed to allow you to pursue advanced training in communication, while simultaneously developing workplace and business skills highly valued by employers.

The Master of Communication (Professional) consists of four semesters and 20 weeks. Candidates will undertake specialist training in the area of communication workplace and business studies, culminating with a professional segment comprising of a professional portfolio, field project and field project report. This program has been developed in collaboration with industry and is designed to dovetail into present and future professional career opportunities. At the end of the degree, candidates will have a professional portfolio detailing their research and practical expertise in their chosen vocational area.

PROGRAM STRUCTURE

The Master of Communication (Professional) comprises 15 subjects including a professional segment of 20 weeks.

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

- Communication Research Seminar
- Sociology of Mass Communication
- Theoretical Constructs in Communication

> Specialist Major

Choose three subjects from one of the following areas:

- Advertising
- Corporate Communication
- Journalism
- Media
- Public Relations

(See Master of Communication on page 72 for the structure of each major.)

> Elective Subjects

Any four subjects selected from the Faculty of Humanities & Social Sciences list of postgraduate subjects, at least two of which must be drawn from the Advertising, Communication, Journalism or Public Relations offerings.

Students with a minimum GPA of 2.5 or above may complete a four-subject dissertation.

> Professional Segment

You must also complete the following:

- Field Project
- Field Project Report
- Professional Portfolio

PROFESSIONAL OUTCOMES

The Master of Communication (Professional) is designed to equip you with knowledge and experience to enable you to step into an organisation and start assisting with the development and implementation of communication strategies and business imperatives. Knowledge of communication is beneficial to any career and plays a vital role in the functioning of any government, business or industrial organisation.

MASTER OF JOURNALISM

Duration: Minimum 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree program at an approved institution with record of performance at least at Credit (65 per cent) level.

PROGRAM DESCRIPTION

This program is offered to graduates of any discipline. It is a program clearly focussed on preparing graduates for work as journalists by offering a range of practical experiences grounded in a sound theoretical base. The focus is on creating journalism work to a professional standard and in adopting best practice industry techniques.

PROGRAM STRUCTURE

The Master of Journalism comprises 12 subjects.

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

- Advanced News Writing
- Journalism Ethics and Law

Plus any two of the following:

- Journalism Internship
- Mass Media Institutions
- Minor Journalism Research Project
- Photojournalism Design, Editing and Publishing

> Elective Subjects

Any six subjects selected from the Faculty of Humanities & Social Sciences list of postgraduate subjects which may include two of those listed above.

PROFESSIONAL OUTCOMES

This program is the ideal path for anyone pursuing a career as a specialist reporter, news director or editor. It is an innovative degree which offers a blend of theory and practise focused on a professional postgraduate training in journalism.

SCHOOL OF HUMANITIES

GRADUATE CERTIFICATE IN TESOL

Duration: 1 semester

Start: January (intensive mode)

POSTGRADUATE DIPLOMA IN TESOL / LOTE

Duration: 2 semesters

Starting: January, May, September

MASTER OF ARTS (TESOL / LOTE)

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree from an approved institution.

PROGRAM DESCRIPTION

The Graduate Certificate in TESOL is a full-time program designed to provide initial training for teachers of English as a Second Language. It provides the basis for language teaching methodology and its practical applications. The course participants are required to complete at least 100 hours of theoretical component and a minimum of 6 hours supervised classroom teaching.

Graduate programs in language teaching provide specialist training in English language teaching theory and practice for teachers or those planning to become teachers. These programs provide the theoretical basis and practical language teacher training required.

PROGRAM STRUCTURE

Master of Arts (TESOL / LOTE) (12)

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

Any eight subjects selected from the LING71 section of the Faculty of Humanities & Social Sciences list of postgraduate subjects.

> Elective Subjects

Any two electives, at least one of which must be chosen from the Faculty of Humanities & Social Sciences list of postgraduate subjects.

Postgraduate Diploma in TESOL or LOTE (8)

You may choose any eight subjects from the LING71 section of the Faculty of Humanities & Social Sciences list of postgraduate subjects.

Graduate Certificate in TESOL (2)

- Language Teaching Methodology: TESOL
- Teaching Practicum: TESOL

In cases where participants wish to continue in the Postgraduate Diploma or Master of Arts program, they will receive credit for two subjects (equivalent to 20 credit points).

PROFESSIONAL OUTCOMES

Successful completion of the Graduate Certificate or Postgraduate Diploma qualifies someone who holds either a recognised, pre-service teaching qualification or a recognised degree or diploma and 800 hours of teaching ESL experience, to teach in an Australian ELICOS institute or the school system.

Internationally, the graduates of this course teach in many countries across five continents. For more details about requirements of teacher qualifications in Australia visit the National ELT Accreditation Scheme website. While we provide advice concerning the current TESOL job opportunities throughout the course, we do not find jobs for course participants.

Graduates of the Postgraduate Diploma or Master's program could find opportunities in the areas of language teaching, as well as other related areas such as politics, economics, trade, drama and pedagogical pursuits, where language skills are of utmost importance.

POSTGRADUATE DIPLOMA OF ARTS

Duration: 2 semesters

Starting: January, May, September

MASTER OF ARTS

Duration: Minimum 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree program at an approved institution.

PROGRAM DESCRIPTION

These programs offer an opportunity for graduates to continue studies in a particular area or branch out into other areas.

PROGRAM STRUCTURE

Postgraduate Diploma of Arts (8)

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

Any six subjects selected from the Faculty of Humanities & Social Sciences list of postgraduate subjects. This combination must include one major*.

You can choose to major in the following areas:

- Advertising
- Behaviour Management
- Chinese Language (Mandarin)
- Chinese Studies
- Criminology**
- Communication
- Corporate Communication
- Counselling
- English as an International Language
- Film and Television**
- French Language
- French Studies
- Global Governance and Regional Politics
- International Diplomacy
- International Relations**
- Japanese Language
- Japanese Studies
- Journalism**
- Language Studies
- Language Teaching (TESOL / LOTE)
- Media
- Philosophy
- Public Relations
- Spanish Language
- Spanish Studies
- Television Journalism

Candidates whose first language is not English may be permitted to include up to two subjects from the English as an International Language section (ENIL71) of the Faculty of Humanities & Social Sciences schedule of postgraduate subjects.

Master of Arts (12)

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

Any eight subjects selected from the Faculty of Humanities & Social Sciences list of postgraduate subjects. This combination must include two majors* or one double major.

> Elective Subjects

Any two electives, at least one of which must be chosen from the Faculty of Humanities & Social Sciences list of postgraduate subjects. Candidates whose first language is not English may be permitted to include up to four subjects from the English as an International Language section (ENIL71) of the Faculty of Humanities & Social Sciences schedule of postgraduate subjects.

PROFESSIONAL OUTCOMES

Graduates of these programs will possess a strong and broad set of skills essential to all professions, no matter what their chosen career. More specifically, graduates will have specialised skills within the discipline they have chosen to major in.

*A major consists of three related subjects from one subject area and a double major consists of six related subjects from one study area.

**A double major can be undertaken in this area.

POSTGRADUATE DIPLOMA OF INTERNATIONAL RELATIONS

Duration: 2 semesters

Starting: January, May, September

MASTER OF INTERNATIONAL RELATIONS

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree program at an approved institution with a record of performance at Credit (65 per cent) level or better.

PROGRAM DESCRIPTION

Bond's International Relations programs are innovative, forward-looking and attuned to the dynamics of the globalising world and its multiple diplomatic channels. You will engage in simulations, think-tank and scenario exercises with practical experience of the subject gained through in-country experience, internships or institutional visits. You will find these qualifications are not just practical but also rigorous in providing a sound knowledge base for each area of study, and in providing grounding in contemporary, theoretical and cultural issues.

The Postgraduate Diploma in International Relations can be taken as a stand alone qualification or as a pathway into the Master's program.

PROGRAM STRUCTURE

Postgraduate Diploma of International Relations (8)

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

Any six foundation subjects (double major) selected from the postgraduate listing of International Relations (INTR71) coded subjects.

Master of International Relations (12)

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

Any six foundation subjects selected from the postgraduate listing of International Relations (INTR71) coded subjects.

> Elective Subjects

In the final semester of study, candidates must complete four subjects, two of which must be drawn from INTR71 coded subjects and two other subjects of which at least one must be drawn from the Faculty of Humanities & Social Sciences list of postgraduate subjects.

Students with a minimum GPA of 2.5 or above may complete a four subject dissertation.

> Majors

Within the previous structure you may seek to complete the following:

1. Diplomacy

Three subjects drawn from the following:

- Concepts of World Governance
- East-West Diplomatic Relations
- Global Statecraft
- Political Economy of International Development
- Regional Diplomacy
- Trends for the International Future

2. Global Governance and Regional Politics

Three subjects drawn from the following:

- Australia and Asia-Pacific Regionalism
- Advanced European Political Economy
- Advanced Global Politics
- China and East Asia
- Evaluating Strategic India
- Global Statecraft
- Latin America in Global Politics
- Themes in Eurasian International Relations

PROFESSIONAL OUTCOMES

The study of International Relations provides you with an understanding of international life - politically, economically and culturally. This is an invaluable asset for graduates in a wide range of professions, including diplomacy, foreign affairs, defence, government service, business, journalism, teaching, politics, international trade or public service.

MASTER OF INTERNATIONAL RELATIONS (PROFESSIONAL)

Duration: 4 semesters plus 20 weeks (92 weeks)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree program at an approved institution with a record of performance at Credit (65 per cent) level or better.

PROGRAM DESCRIPTION

The Master of International Relations (Professional) is an innovative degree, designed to allow you to pursue advanced training in international relations, while simultaneously developing workplace and business skills highly valued by employers.

Candidates will undertake specialist training in the area of international relations, culminating with a professional segment comprising of a professional portfolio, field project and field project report. This program has been developed in collaboration with industry and is designed to dovetail into present and future professional career opportunities. At the end of the degree, candidates will have a professional portfolio detailing their research and practical expertise in their chosen vocational area.

PROGRAM STRUCTURE

The Master of International Relations (Professional) consists of 15 subjects including a professional segment of 20 weeks.

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

Drawn from the INTR71 section of the Humanities and Social Sciences list of postgraduate subjects.

> Majors

Within the above structure, you may choose to complete majors by selecting three subjects from one of the following areas:

1. Diplomacy

- Concepts of World Governance
- East-West Diplomatic Relations
- Global Statecraft
- Political Economy of International Development
- Trends for the International Future

2. Global Governance and Regional Politics

- Advanced European Political Economy
- Advanced Global Politics
- Australia and Asia-Pacific Regionalism
- China and East Asia
- Evaluating Strategic India
- Global Statecraft
- Latin America in Global Politics
- Themes in Eurasian International Relations

> Professional Segment

You must also complete the following:

- Field Project
- Field Project Report
- Professional Portfolio

> Elective Subjects

You must include two subjects drawn from the INTR71 coded subjects and two other elective subjects, at least one of which must come from the Faculty of Humanities & Social Sciences list of postgraduate subjects.

Students with a GPA of 2.5 or above may complete a four-subject dissertation.

PROFESSIONAL OUTCOMES

The study of International Relations provides you with an understanding of international life - politically, economically and culturally. This degree will allow you to develop workplace skills which are highly valued by employers. Completion of this degree could see graduates entering a wide range of professions, including diplomacy, foreign affairs, defence, government service, business, journalism, teaching, politics, international trade or public service.

MASTER OF INTERNATIONAL RELATIONS (LAWS)

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree program at an approved institution with a record of performance at Credit (65 per cent) level or better.

PROGRAM DESCRIPTION

The Master of International Relations (Laws) will provide a solid foundation in both International Relations and Law before candidates elect a specialisation area. The degree seeks to provide candidates with theoretical and professional training for careers in which a global political law framework is required.

PROGRAM STRUCTURE

The Master of International Relations (Laws) comprises 12 subjects.

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

- Advanced Global Politics
- Advanced Legal Research and Writing
- Global Statecraft
- Introduction to Common Law
- Political Economy of International Development
- Security, Terrorism and War

> Specialisation

Plus 50 credit points in one of the following areas of specialisation:

1. Asian Politics

- Australia and Asia-Pacific Regionalism
- China and East Asia
- Chinese Strategic Thought and Practice
- East-West Diplomatic Relations
- International Relations Internship
- Law and Society in China
- Themes in Eurasian International Relations

2. Conflict Resolution

- Concepts of World Governance
- East-West Diplomatic Relations
- Internship in International Relations
- Managing Organisational Change
- Settlement of International Disputes
- Theories and Principles of Dispute Resolution
- Trends for the International Future

3. Diplomacy

- Australia and Asia-Pacific Regionalism
- Concepts of World Governance
- East-West Diplomatic Relations
- International Law
- International Relations Internship
- Regional Diplomacy
- Theories and Principles of Dispute Resolution

4. Globalisation

- China and East Asia
- Concepts of World Governance
- Global Business
- International Criminal Law
- International Law
- International Relations Internship
- The Law of Globalisation
- Trends for the International Future
- World Trade Organisation: The Legal Framework

5. International Development

- Australia and Asia-Pacific Regionalism
- Concepts of World Governance
- Human Rights Law
- International Criminal Law
- International Law
- International Relations Internship
- Regional Diplomacy
- World Trade Organisation: The Legal Framework

6. International Law

- International Contracts
- International Criminal Law
- International Financial System: Law and Practice
- International Investment Transactions
- International Law
- International Trade and Business Law
- International Trade Transactions
- The Law of Globalisation

Students with a minimum GPA of 2.5 or above may complete a four subject dissertation plus an additional subjects from either the INTR71 or LAWS71 coded subjects.

PROFESSIONAL OUTCOMES

This program provides you with an advanced understanding of the theoretical and practical polity of International Relations, and the relationship of the politico-legal frameworks which govern international relationships. Such knowledge is invaluable for graduates who are seeking a profession in many of the government, inter-governmental and non-government organisations operating in the international arena.

SCHOOL OF SOCIAL SCIENCES

POSTGRADUATE DIPLOMA OF BEHAVIOUR MANAGEMENT

Duration: 1 year full-time (3 semesters)

Starting: January

POSTGRADUATE DIPLOMA OF COUNSELLING

Duration: 1 year full-time (3 semesters)

Starting: January, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree from an approved institution in a related discipline.

PROGRAM DESCRIPTION

The Postgraduate Diploma of Behaviour Management is focused on providing you with professional training and practical competencies for working with children, adolescents and adults experiencing moderate to severe behavioural disorders.

The Postgraduate Diploma of Counselling is focused on providing you with professional training and practical competencies in working with both child and adult clients. You will be trained to apply counselling as a hands-on system for assessing and treating client difficulties.

Practicums are an integral part of both programs and you will work within a selected educational, disability support setting or counselling setting for a total of 200 hours.

PROGRAM STRUCTURE

Postgraduate Diploma of Behaviour Management (9)

- Assessment and Diagnosis
- Clinical Speciality Seminar in Behaviour Management
- Counselling Interactions
- Developing Effective Treatment Environments
- Policy, Case Management and Independent Living

- Practicum in Behaviour Management
- Theory and Practice of Changing Human Behaviour
- Understanding and Managing Difficult Behaviour 1
- Understanding and Managing Difficult Behaviour 2

Postgraduate Diploma of Counselling (9)

- Applications of Counselling
- Assessment and Diagnosis in Counselling
- Clinical Speciality Seminar in Counselling
- Counselling Skills and Theories
- Functional Analytic Therapy in Counselling
- Interventions in Counselling
- Professional Practice in Counselling
- Supervised Practice in Counselling
- Theory and Practice of Changing Human Behaviour

You will be required to undertake set subjects each semester and should refer to the Faculty Handbook for more information.

PROFESSIONAL OUTCOMES

The Postgraduate Diploma of Behaviour Management is a stand-alone qualification as well as a valuable adjunct to other careers, specifically in the fields of education and disability, and will be particularly beneficial for classroom and learning support teachers.

The counselling program is designed to train you for work as general or specialist counsellors. The program will assist teachers who are interested in developing expertise in the area of counselling. Graduates of this program are also suitable for careers as mental health professionals.

PROFESSIONAL RECOGNITION

The Postgraduate Diploma of Counselling is accredited with the Psychotherapy and Counselling Federation of Australia (PACFA).

In accordance with PACFA Training Standards, those seeking membership of a PACFA member association, will be required to complete a combination of study and additional supervised practice hours, to meet the minimum duration of two years.

POSTGRADUATE DIPLOMA OF CRIMINOLOGY

Duration: 2 semesters

Starting: January, May, September

MASTER OF CRIMINOLOGY

Duration: 1 year full-time (3 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree from an approved institution.

PROGRAM DESCRIPTION

These programs will provide advanced training and skill development as well as scholarly appreciation of crime, justice and forensic issues. You will be provided with both knowledge and research skills and techniques required for analysis of criminological issues and an understanding of how to critically evaluate published research.

PROGRAM STRUCTURE

Postgraduate Diploma of Criminology (8)

> Foundation Subjects

Drawn from the CRIM71 section of the Faculty of Humanities & Social Sciences list of postgraduate subjects.

> Elective Subjects

Any other two subjects, at least one of which must be drawn from the Faculty of Humanities & Social Sciences list of postgraduate subjects.

Master of Criminology (12)

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

Drawn from the CRIM71 section of the Faculty of Humanities & Social Sciences list of postgraduate subjects.

> Elective Subjects

In the final semester of study, candidates must complete four subjects, two drawn from the CRIM71 coded subjects and two other elective subjects, at least one of which must come from the Faculty of Humanities & Social Sciences list of postgraduate subjects.

Students with a GPA of 2.5 or above may complete a four-subject dissertation.

PROFESSIONAL OUTCOMES

Graduates of these programs could find opportunities in the areas of research, teaching, intelligence analysis, policy analysis, program development, service delivery and consulting. Graduates could expect to be employed in areas such as state and federal agencies, law enforcement, crime research, specially convened tribunals, police, community and welfare. New fields in crime science have opened up further opportunities for those doing postgraduate studies in criminology. Those with a background in areas such as journalism, psychology, public relations and international relations could also benefit from completing studies in this area.

MASTER OF CRIMINOLOGY (PROFESSIONAL)

Duration: 4 semesters plus 20 weeks
(92 weeks)

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an undergraduate degree program from an approved institution.

PROGRAM DESCRIPTION

The Master of Criminology (Professional) is an innovative degree, designed to allow you to pursue advanced training in criminology, while simultaneously developing workplace and business skills highly valued by employers.

You will undertake specialist training in the area of criminology, culminating with a professional segment comprising of a professional portfolio, field project and field project report. This program has been developed in collaboration with industry and is designed to dovetail into present and future professional career opportunities. At the end of the degree, you will have a professional portfolio detailing their research and practical expertise in your chosen vocational area.

PROGRAM STRUCTURE

The Master of Criminology (Professional) comprises a total 15 subjects including a professional segment of 20 weeks.

> Core Subjects

To be completed in the first two semesters of enrolment:

- Epistemology and Theory of Knowledge
- Research Methods in Humanities and Social Sciences

> Foundation Subjects

Drawn from the CRIM71 section of the Faculty of Humanities & Social Sciences list of postgraduate subjects.

> Professional Segment

You must also complete the following:

- Field Project
- Field Project Report
- Professional Portfolio

> Elective Subjects

Must include two subjects drawn from the CRIM71 coded subjects and two other electives, at least one of which must come from the Faculty of Humanities & Social Sciences list of postgraduate subjects.

Students with a GPA of 2.5 or above may complete a four subject dissertation.

PROFESSIONAL OUTCOMES

Upon graduating from this program, you could find opportunities in the areas of research, teaching, intelligence analysis, policy analysis, program development, service delivery and consulting. Graduates could expect to be employed in areas such as state and federal agencies, law enforcement, crime research, specially convened tribunals, police and community welfare organisations. The new 'crime science' field has opened up further opportunities for those doing postgraduate studies in criminology.

GRADUATE DIPLOMA OF PSYCHOLOGY (BRIDGING PROGRAM)

Duration: 2 semesters

Starting: May*

ENTRY REQUIREMENTS

Completion of an undergraduate degree in any discipline, or equivalent from an approved institution.

Those who have not completed an introductory psychology subject (such as Introduction to Psychology: Biology and Personality, or Introduction to Psychology: Learning and Social) together with an introductory statistics subject (such as Statistics and Data Analysis I), will need to complete these two prerequisites in addition to the degree requirements (see below). For these students, the program will take a minimum of three semesters to complete and admission will be January semester only.

Those who have completed the prerequisite subjects will be able to complete the program in two semesters, if commencing in the May semester only.

PROGRAM DESCRIPTION

This program is aimed at preparing graduates of any discipline for entry to fourth year psychology courses and acts as an accredited bridging program.

PROGRAM STRUCTURE

The Graduate Diploma of Psychology consists of eight subjects.

You must complete:

- Research Methods in Psychology
- Statistics and Data Analysis 2
- Statistics and Data Analysis 3

Plus five of the following:

- Biological Psychology**
- Cognitive Psychology
- Developmental Psychology
- Learning and Behaviour
- Motivation and Emotion
- Personality and Individual Differences
- Psychopathology
- Sensation and Perception**
- Social Psychology

PROFESSIONAL OUTCOMES

Eligible for entry into Postgraduate Diploma of Psychology.

PROFESSIONAL RECOGNITION

This program is fully accredited by the Australian Psychology Accreditation Council as an approved bridging program for entry into the Postgraduate Diploma of Psychology.

*Students wishing to commence study part-time may enrol in January, May or September.

**Either Biological Psychology or Sensation and Perception must be taken, but not both.

BACHELOR OF SOCIAL SCIENCE (PSYCHOLOGY) (WITH HONOURS)

Duration: 2 semesters

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an accredited three year sequence of study in Psychology in Australia or equivalent. Applicants must have a minimum GPA of 2.5 on the Bond University 4.0 scale for all second and third year Psychology subjects and are assessed on academic merit.

PROGRAM DESCRIPTION

The honours program in Psychology prepares you for entry into a career in psychology (that is provisional registration as a psychologist in addition to two years of supervised training). The program also prepares you for the fifth and sixth years of your professional training. This program is accredited as the equivalent of a fourth year of study in psychology.

PROGRAM STRUCTURE

This program comprises seven subjects.

You must complete:

- Honours Thesis 1: Research Seminar and Ethics
- Honours Thesis 2
- Human Experimental Psychology
- Multivariate Research Methods
- Principles of Psychological Assessment

Plus two of the following:

- Clinical Psychology
- Community and Health Psychology
- Forensic Psychology
- Industrial and Organisational Psychology
- Neuropsychology
- Social Cognition
- The Scientist Practitioner Model

PROFESSIONAL OUTCOMES

Under supervision, you will be able to pursue a career in the professional practice of psychology including clinical, forensic or organisational psychology, counselling, clinical neuropsychology, research and other specialist areas.

PROFESSIONAL RECOGNITION

The Bachelor of Social Science (Psychology) (with Honours) is fully accredited by the Australian Psychology Accreditation Council.

POSTGRADUATE DIPLOMA OF PSYCHOLOGY

Duration: 2 semesters

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of an accredited three year sequence of study in Psychology in Australia or the bridging Graduate Diploma of Psychology or equivalent. Applicants must have a minimum GPA of 2.0 on the Bond University 4.0 scale for all second and third year Psychology subjects and are assessed on academic merit.

PROGRAM DESCRIPTION

The Postgraduate Diploma of Psychology prepares you for entry into a career in psychology (that is provisional registration as a psychologist in addition to two years of supervised training). The program also prepares you for the fifth and sixth years of your professional training.

PROGRAM STRUCTURE

The Postgraduate Diploma of Psychology comprises seven subjects.

You must complete:

- Diploma Thesis 1: Research Seminar and Ethics
- Diploma Thesis 2
- Human Experimental Psychology
- Multivariate Research Methods
- Principles of Psychological Assessment

Plus two of the following:

- Clinical Psychology
- Community and Health Psychology
- Forensic Psychology
- Industrial and Organisational Psychology
- Neuropsychology
- Social Cognition
- The Scientist Practitioner Model

PROFESSIONAL OUTCOMES

Under supervision, you will be able to pursue a career in the professional practice of psychology including clinical, forensic or organisational psychology, counselling, clinical neuropsychology, research and other specialist areas.

PROFESSIONAL RECOGNITION

The Postgraduate Diploma of Psychology is fully accredited by the Australian Psychology Accreditation Council.

MASTER OF PSYCHOLOGY (CLINICAL)

Duration: 2 years full-time (6 semesters)

Starting: May

ENTRY REQUIREMENTS

Completion of an Australian Psychology Accreditation Council accredited four year sequence of study in Psychology (such as Bachelor of Social Science (Psychology) with Honours, Postgraduate Diploma of Psychology) or equivalent within the last 10 years, and have achieved a minimum upper second class honours (H2A) or equivalent.

Applicants must also be eligible for provisional registration as a psychologist. Applicants are assessed on academic performance, referee reports and personal suitability via interview. You must obtain provisional registration from the Psychology Board of Australia before commencing the program.

PROGRAM DESCRIPTION

This program is designed for individuals seeking registration as a clinical psychologist or for registered psychologists seeking to upgrade their existing qualifications. The program provides in-depth training in the diagnosis, assessment and treatment of psychological disorders across a wide range of client populations. There is an emphasis on the scientist-practitioner approach.

This program is also designed to provide education, knowledge, training and clinical skills in professional psychology, to meet the requirements for registration as a psychologist.

Placements are an integral part of this program. You will undertake practical placements as part of your clinical training.

PROGRAM STRUCTURE

The Master of Psychology (Clinical) comprises the equivalent of 16 subjects.

> Core Subjects

- Advanced Psychological Assessment
- Counselling Psychotherapies and Clinical Skills
- Health Psychology
- Psychopathology and Therapy: Adults 1
- Psychopathology and Therapy: Adults 2
- Psychopathology and Therapy: Families, Children and Adolescents
- Research Methods, Professional Practice and Ethics

> Elective Subjects

One of the following electives:

- Forensic Psychopathology
- Special Category Offenders
- Psychopharmacology and Pharmacotherapy

> Dissertation Subjects

You will undertake a research project that allows them to investigate and report on a specialised topic in the area of clinical psychology.

> Practical Placements

You will complete the first two semester internship at the Psychology Clinic on campus under staff supervision and two externships* in a clinical community setting under external supervision.

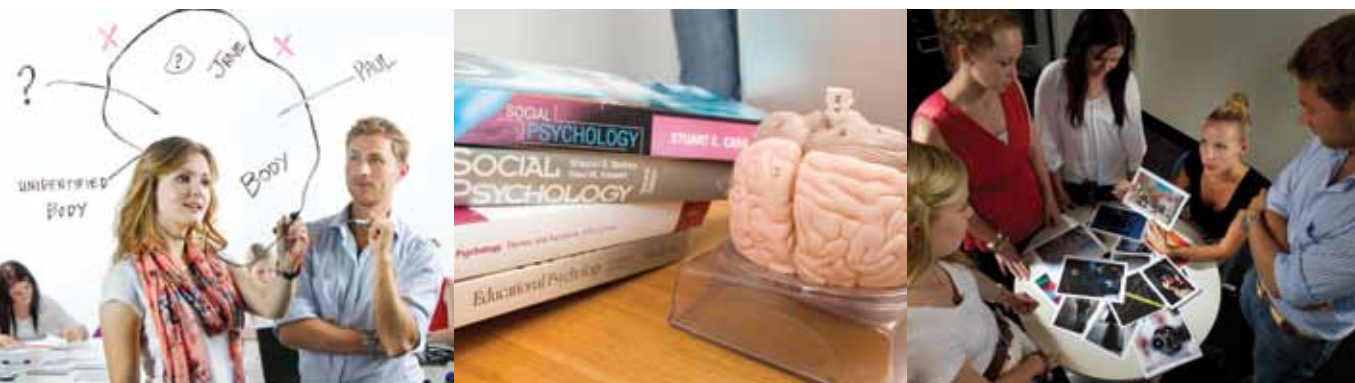

PROFESSIONAL OUTCOMES

The program meets the requirements set out by the Psychology Board of Australia. You will be eligible to apply for full registration after two years of provisional registration. You will be eligible to apply for membership to the Australian Psychological Society (APS) and associate membership to the APS College of Clinical Psychologists.

PROFESSIONAL RECOGNITION

The Master of Psychology (Clinical) is fully accredited by the Australian Psychology Accreditation Council and has full approval of the APS, for the purpose of associate membership to the APS College of Clinical Psychologists.

*Bond University cannot guarantee the availability of suitable externships on the Gold Coast. Students may be required to travel up to 100 kilometres from the University (eg. Brisbane and northern New South Wales) to complete this requirement. Students are responsible for arranging their own transportation to and from the externship site.

MASTER OF PSYCHOLOGY (FORENSIC)

Duration: 2 years full-time (6 semesters)

Starting: January

ENTRY REQUIREMENTS

Completion of an Australian Psychology Accreditation Council accredited four year sequence of study in Psychology (such as Bachelor of Social Science (Psychology) with Honours, Postgraduate Diploma of Psychology) or equivalent within the last 10 years, and have achieved a minimum upper second class honours (H2A) or equivalent.

Applicants must also be eligible for provisional registration as a psychologist. Applicants are assessed on academic performance, referee reports and personal suitability via interview. You must obtain provisional registration from the Psychology Board of Australia before commencing the program.

PROGRAM DESCRIPTION

This program provides an in-depth analysis of the interface between psychology and law in relation to the criminal courts, as well as family and civil matters. The course covers all stages of the criminal justice system from investigation and interview through to pre-trial psychological assessment, involvement at the pre-sentencing stage and the treatment of convicted offenders. There is an emphasis on the scientist-practitioner approach.

This program is also designed to provide education, knowledge, training and clinical skills in professional psychology to meet the requirements for registration as a psychologist.

Placements are an integral part of this program. You will undertake practical placements as part of your training.

PROGRAM STRUCTURE

The study load for the Master of Psychology (Forensic) is equivalent to 16 subjects.

> Core Subjects

- Advanced Psychological Assessment
- Counselling Psychotherapies and Clinical Skills
- Forensic Psychopathology
- Psychology and the Law 1
- Psychology and the Law 2
- Research Methods, Professional Practice and Ethics
- Special Category Offenders

> Dissertation Subjects

You will undertake a research project that allows them to investigate and report on a specialised topic in the area of forensic psychology.

> Elective Subjects

One of the following electives:

- Advanced Criminal Profiling
- Psychopharmacology and Pharmacotherapy

> Practical Placements

You will complete the first two-semester internship at the Psychology Clinic on campus under staff supervision and two externships in a clinical community setting under external supervision*.

PROFESSIONAL OUTCOMES

The program meets the requirements set out by the Psychology Board of Australia. You will be eligible to apply for full registration after two years of provisional registration. Graduates will be eligible to apply for membership to the Australian Psychological Society (APS) and for associate membership of the APS College of Forensic Psychologists.

PROFESSIONAL RECOGNITION

This Master of Psychology (Forensic) is fully accredited by the Australian Psychology Accreditation Council and has full approval of the APS for the purpose of associate membership to the APS College of Forensic Psychologists.

*Bond University cannot guarantee the availability of suitable externships on the Gold Coast. Students may be required to travel up to 100 kilometres from the University (for example, Brisbane and northern New South Wales) to complete this requirement. Students are responsible for arranging their own transportation to and from the externship site.

RESEARCH HIGHER DEGREES

MASTER OF ARTS (BY RESEARCH)

Duration: 2 years

Starting: Anytime throughout the academic year

ENTRY REQUIREMENTS

Minimum requirement for admission is:

- A four year (eight semesters) honours degree - First Class, 2A, 2B; or
- A qualification or combination of qualifications deemed to be equivalent to the above by the Higher Degrees by Research Committee.

MASTER OF PHILOSOPHY

Duration: 2 years

Starting: Anytime throughout the academic year

ENTRY REQUIREMENTS

Minimum requirement for admission is:

- A four year (eight semesters) honours degree - First class, 2A, 2B; or
- A qualification or combination of qualifications deemed to be equivalent to the above by the Higher Degrees by Research Committee.

DOCTOR OF PHILOSOPHY

Duration: Minimum 3 years and a maximum 4 years full-time

Starting: Anytime throughout the academic year

ENTRY REQUIREMENTS

Minimum requirement for admission is:

- A four year (eight semesters) honours degree - First Class or 2A; or
- A research master's degree; or
- A qualification or combination of qualifications deemed to be equivalent to the above by the Higher Degrees by Research Committee.

Candidates who have completed more than nine months of a master's by research or the Master of Philosophy and who meet the requirements for admission to PhD candidature may apply to be admitted to confirmed PhD candidature. In successful cases, the PhD candidature will be considered to have begun at the time of commencement of the research master's degree.

FACULTY OF LAW

Bond Law has earned an international reputation for its personalised teaching environment, integrated legal skills training and the international focus of its degree offerings.

Bond's law program has been consistently ranked the best in Australia for the past six years in graduate surveys conducted by Graduate Careers Australia and has retained the number one position for graduate satisfaction* for the past five years.

INDUSTRY PARTNERS

The Faculty has developed industry partnerships with leading organisations including:

- Administrative Appeals Tribunal
- Allens Arthur Robinson
- Baker & McKenzie
- Blake Dawson Waldron
- Clayton Utz
- Dibbs Barker
- Freehills
- Norton Rose
- Queensland Office of the Director of Public Prosecutions

FACULTY FACILITIES

Bond Law's Legal Skills Centre is the first of its kind to integrate the full complement of legal-based training facilities, with moot courtrooms and purpose-built suites designed for mediation, dispute resolution and Professional Legal Training. Modelled on input provided by judges, legal practitioners and the Faculty, this 21st century facility is designed to give you a simulated real world experience in practising your legal skills, ensuring that, as graduates, you will be workplace ready.

*Compared to Australia's Group of Eight Leading universities, Graduate Careers Australia's 2009 Australian Graduate Survey based on 2008 graduates.

JURIS DOCTOR

Duration: 2 years full-time (6 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

A prior degree in any discipline. Applicants would normally be required to have at least a 70 per cent grade average. Consideration is also given to relevant work experience and referees' reports on the suitability of the applicant for studying law.

PROGRAM DESCRIPTION

The Juris Doctor is a professional legal qualification which prepares you for a career in the legal profession, business, industry or government, in Australia and overseas.

Bond's Juris Doctor provides an engaging learning experience that both challenges students academically and prepares them practically for a legal career. The legal skills program (comprising 20 components) equips graduates with the following skills needed to practise law in today's world:

- Client interviewing and communication
- Legal research and analysis
- Legal writing and drafting
- Negotiation and dispute resolution
- Oral communication and presentation

PROGRAM STRUCTURE

You must complete the following compulsory subjects which include all the 'Priestley Eleven' areas required to practise law in Australia:

- Administrative Law
- Australian Legal System
- Bookkeeping and Trust Accounts*
- Business Associations
- Civil Procedure
- Civil Remedies
- Constitutional Law
- Corporations Law

- Criminal Law and Procedure A
- Criminal Law and Procedure B
- Equity
- Evidence
- Land Law
- Law of Obligations
- Legal Ethics and Professional Conduct*
- Legal Skills
- Personal Property Transactions
- Principles of Tortious Liability
- Principles of Contractual Liability
- Property Law

Plus five master's level law electives. Specialty streams are offered in the following areas:

- Alternate Dispute Resolution
- Corporate and Commercial Law
- Intellectual Property, Information Technology and E-Commerce
- International Trade Law

Outstanding Juris Doctor graduates may qualify to receive their degree with Honours. Candidates for the Honours degree must fulfil the requirements for the pass degree and achieve such standard of proficiency as the Faculty of Law may from time to time determine.

INDUSTRY EXPERIENCE

Clinical legal subjects are available as electives with students placed in legal settings, working under the supervision of a practising lawyer. The Faculty also encourages you to complete clerkships or internships with law firms during your holidays but these do not form part of course requirements. Our Graduate Development Office is available to assist you in your search for a suitable placement.

PROFESSIONAL OUTCOMES

Some students will plan to seek admission as a lawyer on the completion of their Juris Doctor, while others will be well established in their careers and will be undertaking the Juris Doctor in order to enhance their career options.

The Bond Law Juris Doctor is specifically designed to develop well rounded legal practitioners equipped with the practical legal skills to take leading positions in both the public and private sectors. Bond has one of the highest graduate employment rates of all Australian universities. Our graduates are employed in top tier law firms throughout Australia and across 38 countries (including the USA, United Kingdom, Canada, Scandinavia, Hong Kong, Malaysia and Singapore) as solicitors in private practice, associates to supreme and high court judges, barristers, government lawyers, in-house counsel and academics. You are encouraged to focus on the specific areas of study that you feel best serves your future career path.

PROFESSIONAL RECOGNITION

In conjunction with further study (Postgraduate Diploma in Legal Practice) and meeting the requirements of the Legal Practitioners Boards of the various Australian states and territories, the Juris Doctor is an approved degree for purposes of admission as a legal practitioner. This degree can also be used to gain admission in other countries; however, you are advised to confirm admission requirements in the particular jurisdiction in which you wish to practise.

*Half unit subject.

POSTGRADUATE DIPLOMA IN LAW

Duration: 4 months full-time (1 semester)

Starting: January, May, September

ENTRY REQUIREMENTS

An undergraduate degree in any discipline.

PROGRAM DESCRIPTION

Those looking to broaden their skill and knowledge gained in an undergraduate program (including law) or to specialise in a professional area should consider the Postgraduate Diploma in Law. This program is an ideal entry point for a Master of Laws degree. Some students may complete a generalist diploma while others choose an area of specialisation (electives outlined below).

PROGRAM STRUCTURE

You must complete the following subjects:

- Advanced Legal Research and Writing
- Introduction to Common Law

Plus two master's level electives chosen in accordance with the relevant area of specialisation:

- Alternative Dispute Resolution
- Corporate and Commercial Law
- Intellectual Property, Information Technology and E-Commerce Law
- International Trade Law

PROFESSIONAL OUTCOMES

The Postgraduate Diploma in Law provides a specialist postgraduate qualification to augment a graduate's existing area of expertise. For those who have completed a Bachelor of Laws or Juris Doctor degree, this program also meets the entry requirements for a Master of Laws, Master of Business Law and Master of Jurisprudence, with subjects qualifying for credit.

PROFESSIONAL RECOGNITION

The Postgraduate Diploma in Law is not a professional degree and does not qualify graduates to practise law in Australia.

POSTGRADUATE DIPLOMA OF LEGAL PRACTICE

On-campus duration: 1 semester (full-time) practical training plus 75 days of practical experience and 75 hours of continuing practical training.

Online duration: 1 semester (full-time) or 2 semesters (part-time) plus 75 days of practical experience and 75 hours of continuing practical training.

Starting: January, May, September

ENTRY REQUIREMENTS

Bachelor of Laws or Juris Doctor qualification from an Australian Institution.

PROGRAM DESCRIPTION

The Postgraduate Diploma of Legal Practice (PLT) is the link between your degree and becoming a practising lawyer. The PLT program is an alternative to undertaking a legal traineeship for admission in Queensland. Our PLT Program is a coursework degree that provides structured and supervised legal training, based on the Competency Standards for entry level lawyers developed by the admitting authorities and the Australian Professional Legal Education Council.

In addition to applying for admission, upon completion of the PLT program, you have the option of continuing your studies to obtain a Master of Laws (Legal Practice), specialising in Alternative Dispute Resolution (refer to course details on page 99).

PROGRAM STRUCTURE

You will complete a practical training component in addition to a 75 day placement in a law office. The work experience can be undertaken in more than one office, and the Faculty's Graduate Development Office can assist you in seeking your placement. This practical experience will be augmented by 75 hours of continuing practical training completed concurrently. This is undertaken by distance education mode during the placement period. The program concentrates on the development of 'lawyering' skills such as legal research, analysis and problem solving, legal writing and drafting, interviewing and oral communication, advising, advocacy, dispute resolution, professional ethics and conduct and accounting. These skills are taught in a practical context in a simulated office environment.

PROFESSIONAL OUTCOMES

Successful completion of the Postgraduate Diploma of Legal Practice enables graduates to apply for admission to legal practice. You should contact the relevant admitting authority to ascertain the requirements for admission in your state or territory. Mutual recognition legislation also facilitates the process of practitioners admitted in one state seeking admission in other Australian jurisdictions.

MASTER OF BUSINESS LAW

Duration: 8 months full-time (2 semesters)

Starting: January, May, September

MASTER OF JURISPRUDENCE

Duration: 8 months full-time (2 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

The Master of Business Law and Master of Jurisprudence may be undertaken by those who have a non-law undergraduate degree. Applicants would normally be required to possess at least a 70 per cent grade average and / or extensive professional experience.

PROGRAM DESCRIPTION

The Master of Business Law and Master of Jurisprudence provide opportunities for those from non-law or quasi-legal backgrounds to gain a postgraduate law qualification that focuses on areas of law that are directly relevant to their professional ambitions, such as corporate and commercial law, international trade law, IP law and dispute resolution.

PROGRAM STRUCTURE

You must complete the following introductory subjects:

- Advanced Legal Research and Writing
- Introduction to Common Law

Plus six master's level law electives.

If appropriate supervision is available, you may elect to replace two elective subjects with a minor dissertation upon approval by the Dean or delegate.

You may complete a generalist degree or qualify for one of the following specialisations by completing at least four of your electives in an area of study:

- Alternative Dispute Resolution
- Corporate and Commercial Law
- Intellectual Property, Information Technology and E-Commerce Law
- International Trade Law

PROFESSIONAL OUTCOMES

The Master of Business Law and Master of Jurisprudence provide a specialist postgraduate qualification in fields such as corporate and commercial law, international trade law, IP law and dispute resolution. While these degrees do not qualify our graduates to practise law, they do provide an excellent introduction to the concepts and applications of law in today's global society.

PROFESSIONAL RECOGNITION

These awards are not professional degrees and do not qualify you to practise law in Australia. Those wishing to practise law should consider a Bachelor of Laws or Juris Doctor.

MASTER OF LAWS

Duration: 8 months full-time (2 semesters)

Starting: January, May, September

ENTRY REQUIREMENTS

The Master of Laws program is offered to those with a professional law qualification (Bachelor of Laws, Juris Doctor or equivalent). Applicants would normally be required to have at least a 70 per cent grade average and / or extensive professional experience.

PROGRAM DESCRIPTION

The Master of Laws is a postgraduate law qualification that provides maximum flexibility and choice with a wide range of specialist areas, meaning you can design your master's degree to suit your area of interest and professional needs. Those looking to expand their knowledge in a particular area will benefit from the investigations into contemporary legal issues from both international and local perspectives while developing legal research and writing skills.

You may complete a generalist degree or qualify for one of the following specialisations by completing at least four electives in that area of study:

- Alternative Dispute Resolution
- Corporate and Commercial Law
- Intellectual Property, Information Technology and E-Commerce Law
- International Trade Law

PROGRAM STRUCTURE

You must complete the following introductory subjects:

- Advanced Legal Research and Writing
- Introduction to Common Law

Plus six electives chosen from the postgraduate list of law electives in accordance with the relevant area of specialisation. If appropriate supervision is available, you may elect to replace two elective subjects with a minor dissertation upon approval by the Dean or delegate.

PROFESSIONAL OUTCOMES

The Master of Laws provides a postgraduate qualification that broadens a graduate's or practitioner's knowledge in a chosen area of specialisation.

MASTER OF LAWS (INTERNATIONAL LEGAL PRACTICE)

Duration: 16 months full-time (4 semesters)*

Starting: July

ENTRY REQUIREMENTS

A professional legal qualification (Bachelor of Laws, Juris Doctor or equivalent) and commitment to undertake the practicum in a country other than country of residence.

PROGRAM DESCRIPTION

The Master of Laws (International Legal Practice) is an innovative internationally-focused degree which combines a coursework master's degree with a practical legal placement in a professional legal setting.

PROGRAM STRUCTURE

You must complete the following introductory subjects:

- Introduction to Common Law
- Advanced Legal Research and Writing

Plus four (or five) master's level law electives along with an internship (two or three subjects equivalent). If you undertake four elective subjects your full-time internship will take a duration of six months. However, if five elective subjects are chosen, the internship is reduced to three months.

PROFESSIONAL OUTCOMES

The Master of Laws (International Legal Practice) provides you with an international perspective on your master's studies, as well as the experience of working in a law firm in another country. Graduates are now working as attorneys and barristers for the finest law firms across 18 countries, including Wragg and Co in London and Reed Smith in New York.

*Students must complete a full-time placement for three or six months (two or three subjects equivalent). The placement may be in Australia or overseas, and must be in a country other than the student's country of residence. In an era of global practice this provides an opportunity for students to experience legal practice outside their home jurisdiction.

MASTER OF LAWS (LEGAL PRACTICE)

Duration: 2 semesters full-time in addition to the PLT program. Flexible part-time options available.

Starting: January, May, September

ENTRY REQUIREMENTS

Completion of a Bachelor of Laws or Juris Doctor program (or equivalent) at an approved institution, subject to the decision of the Dean or delegate. Successful completion of Bond University's PLT. Applicants would normally be required to have at least a 70 per cent grade average and / or extensive professional experience.

PROGRAM DESCRIPTION

The Master of Laws (Legal Practice) is an innovative professional degree that combines practical legal training with specialist postgraduate subjects in areas related to legal practice. The specialist areas for this master's are Dispute Resolution and Advocacy.

PROGRAM STRUCTURE

The Master of Laws (Legal Practice) is a 100 credit point program incorporating the Postgraduate Diploma in Legal Practice (PLT). You will receive 35 credit points for successful completion of PLT. The remaining 65 credit points are made up of three components.

You must complete the following five subjects:

- Advanced Legal Research and Writing.
- One individual directed research project (equivalent to one postgraduate subject) within an area covered by PLT.
- Three postgraduate law electives, including two from the areas of Advocacy or Alternative Dispute Resolution.

PROFESSIONAL OUTCOMES

The PLT program that forms part of the Master of Laws (Legal Practice) entitles law graduates to apply for admission as a legal practitioner in Queensland.

DOCTOR OF LEGAL SCIENCE (RESEARCH)

Duration: 8 - 18 semesters full-time
Starting: Anytime throughout the academic year

ENTRY REQUIREMENTS

Applicants must have a Bachelor of Laws or Juris Doctor with Honours or a Master of Laws degree.

Candidates for the Doctor of Legal Science (Research) degree must satisfy the Dean that they have the academic, research and writing abilities to produce a major dissertation in English of not more than 50,000 words which represents a substantial contribution to the exposition, knowledge or understanding of the field of study concerned.

Admission is on the basis of an approved research proposal and availability of appropriate supervision. Applicants are required to complete six electives chosen from the list of postgraduate subjects before undertaking the thesis component.

Alternatively, admission may be awarded through transferring from the Master of Laws coursework to the thesis component of the research. Applicants will have achieved an average of at least 75 per cent in the Master of Laws coursework. The research proposal must be approved by the Faculty and appropriate supervision must be available.

PROGRAM STRUCTURE

You must complete:

- Six electives chosen from the subjects listed under Master of Laws.
- A major dissertation of approximately 50,000 words, which represents a substantial contribution to the exposition, knowledge and understanding of the field of study and which demonstrates a capacity for independent research. The topic must be approved by the Faculty and appropriate supervision must be available.

PROFESSIONAL RECOGNITION

This program is a doctoral-level degree.

DOCTOR OF PHILOSOPHY

Duration: Minimum 3 years and a maximum 4 years full-time
Starting: Anytime throughout the academic year

ENTRY REQUIREMENTS

Applicants must have:

- Completed a master's degree from a recognised university; or
- Completed a Bachelor of Laws degree from Bond or another recognised university with an average of at least 75 per cent or an equivalent grade elsewhere; or
- Other qualifications which, in the opinion of the Academic Senate, acting on the advice of the Dean, are equivalent to or are a satisfactory substitute for either of the qualifications prescribed above.

In addition to the above requirements, candidates for the PhD degree must satisfy the Dean that they have the academic, research and writing abilities to produce a major thesis that represents a substantial contribution to the exposition, knowledge or understanding of the field of study concerned.

PROGRAM STRUCTURE

The Doctor of Philosophy program is a research higher degree awarded for a substantial thesis or for published papers, which is a significant contribution to the knowledge or understanding of an aspect of law. The PhD will display the capacity of the student to carry out independent research at the appropriate level. PhD candidates are required to submit for external examination a written research thesis of between 70,000 to 100,000 words. The topic must be approved by the Faculty of Law and appropriate supervision must be available.

INSTITUTE OF SUSTAINABLE DEVELOPMENT & ARCHITECTURE

The Bond University Institute of Sustainable Development & Architecture classes are delivered by expert teaching staff who are dedicated to educating sustainability professionals of the future. The Institute is dedicated to the concept and practice of sustainability by integrating design, planning, property, construction, urban development, architecture and sustainable science education. It is one of Australia's leading integrated academic institutions with a holistic adoption of sustainable development and architecture.

Schools within the Institute of Sustainable Development & Architecture include:

- Mirvac School of Sustainable Development - www.bond.edu.au/sdev
- Soheil Abedian School of Architecture - www.bond.edu.au/architecture

INDUSTRY PARTNERS

The Institute has developed industry partnerships with leading organisations including:

- Australian Institute of Building Surveyors
- Australian Institute of Project Management
- Australian Institute of Quantity Surveyors
- Australian Property Institute
- Royal Institute of Chartered Surveyors

INSTITUTE FACILITIES

The Institute of Sustainable Development & Architecture has a 6 Star Green Star Certified Rating with the Green Building Council of Australia making it one of the most environmentally friendly buildings in the country. It makes maximum use of natural light and uses mixed mode ventilation, with the overall design incorporating extensive use of recycled and environmentally friendly materials right down to the carpet and low-emission paint. A grey water recycling system and water tanks means it relies less on the local water supply and with all features combined, the building achieves more than an 80 per cent reduction in carbon emissions.

MIRVAC SCHOOL OF SUSTAINABLE DEVELOPMENT

GRADUATE CERTIFICATE IN CARBON MANAGEMENT

Duration: 3 semesters part-time, intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of any undergraduate degree in a related area and / or extensive professional experience deemed equivalent by the Institute Director. This program is currently available to domestic students only. International students should enquire with the Institute of Sustainable Development & Architecture.

PROGRAM DESCRIPTION

The Graduate Certificate in Carbon Management focuses on the economic, environmental, legal and asset / buildings performance aspects of the new carbon emissions environment. Graduates will be equipped with knowledge and skills pertaining to:

- The regulatory and legal framework that guides and influences new developments.
- The evolving requirements of carbon reporting and verification for business.
- The asset and performance requirements of the new carbon emissions environment.
- The implications of climate change for the operations of business and other organisations in the Australian economy.
- ISO 14064/5 Greenhouse Gas Accounting Standards.

PROGRAM STRUCTURE**

- Environmental Management and Climate Change
- Economics of Sustainable Development
- Asset and Facilities Management
- Environmental Legal Issues

Successful completion of this program allows graduates to enter the Master of Environmental Management (Sustainable Development) or the Postgraduate Diploma in Environmental Management (Sustainable Development).

PROFESSIONAL OUTCOMES

Climate change involves long-term strategic policy that will ultimately impact on all areas of business operations. As such, the services of carbon managers as well as skilled professionals in carbon reporting and verification are essential to ongoing global competitiveness across the broad spectrum of industry, generating excellent opportunities for graduates qualified in this emerging speciality.

*Intensive mode delivery is a compact and time-efficient way for you to complete your postgraduate qualification with minimal impact on your work / home life. You will attend two three-day sessions per subject, scheduled Thursday to Saturday (approximately six to eight contact hours per day). There will be a break of five weeks between session one and session two. You will receive 40 hours of combined lectures, discussion groups, case studies and workshops during these contact hours.

**Subject names and structure may change - please refer to www.bond.edu.au/isda for updated information on program structure.

MASTER OF ASSET AND FACILITIES MANAGEMENT

Duration: 1 year full-time (3 semesters); intensive mode delivery* and flexible part-time available

Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of any undergraduate degree; or qualifications and / or relevant professional experience deemed equivalent by the Institute Director.

PROGRAM DESCRIPTION

The Master of Asset and Facilities Management program provides an in-depth look into the asset and facilities management profession. The program covers a number of key areas associated with strategic property management, refurbishment, operational management, financial planning and dispute resolution related to facilities portfolios, and also enables participation in the cross-disciplinary related project.

There is an emphasis on the impact of the built and natural environment, and the role of the facilities manager on the pursuit of sustainable development.

PROGRAM STRUCTURE**

This program allows you to exit after four subjects with a graduate certificate, after eight subjects with a graduate diploma, or complete all 12 subjects for a master's degree.

Graduate Certificate in Asset and Facilities Management (4)

- Advanced Asset Management
- Asset and Facilities Management OR Sustainable Design
- Corporate Real Estate^ OR Sustainable Building Services
- Strategic Facilities Management

Postgraduate Diploma in Asset and Facilities Management (8)

In addition to the subjects listed for the Graduate Certificate, you must complete the following:

- Expert Witness and Dispute Resolution
- Building Pathology and Forensic Engineering
- Sustainable Refurbishment and Retrofit
- Integrated Project

Master of Asset and Facilities Management (12)

In addition to the subjects listed for the Graduate Certificate and Postgraduate Diploma, you must complete four elective subjects. You may complete any four postgraduate subjects offered by the Institute of Sustainable Development & Architecture.

PROFESSIONAL OUTCOMES

A Master of Asset and Facilities Management provides you with the necessary knowledge and understanding to seek employment as a professional asset / facilities manager. You will be qualified to work in sectors such as property maintenance, infrastructure development, facilities planning, corporate real estate, local council works or tourism and hospitality. You are introduced to industry standard software and contemporary research findings. There are strong employment prospects for qualified asset / facilities managers both in Australia and overseas.

PROFESSIONAL RECOGNITION

This program is accredited with the Royal Institution of Chartered Surveyors, enabling graduates to become a chartered facilities manager, subject to a two-year assessment of professional competence.

*Intensive mode delivery is a compact and time-efficient way for you to complete your postgraduate qualification with minimal impact on their work / home life. You will attend two three-day sessions per subject, scheduled Thursday to Saturday (approximately six to eight contact hours per day). There will be a break of five weeks between session one and session two. You will receive 40 hours of combined lectures, discussion groups, case studies and workshops during these contact hours.

**Subject names and structure may change - please refer to www.bond.edu.au/isda for updated information on program structure.

^Subject to Institute approval.

MASTER OF BUILDING SURVEYING

Duration: 1 year full-time (3 semesters); flexible part-time and intensive mode delivery* available

Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of any undergraduate degree, or qualifications and / or relevant professional experience deemed equivalent by the Institute Director.

PROGRAM DESCRIPTION

The Master of Building Surveying at Bond University offers you the chance to increase your knowledge in the field of building surveying, while studying with world-class academics and experienced practitioners in one of Australia's most environmentally friendly buildings. The program comprises four specialist subjects plus four shared core subjects. Completion of a further four postgraduate elective subjects, selected from the suite offered by the Institute of Sustainable Development & Architecture, allows you to graduate with a Master of Building Surveying.

PROGRAM STRUCTURE**

This program allows you to exit after four subjects with a graduate certificate, after eight subjects with a postgraduate diploma, or complete all 12 subjects for a master's degree.

Graduate Certificate in Building Surveying (4)

- Building Controls and Regulation
- Development Assessment
- Fire Engineering
- Structures and Soil Mechanics OR Commercial Construction and Engineering

Postgraduate Diploma in Building Surveying (8)

In addition to the subjects listed for the Graduate Certificate, you must complete the following:

- Building Pathology and Forensic Engineering
- Expert Witness and Dispute Resolution
- Integrated Project
- Sustainable Refurbishment and Retrofit

Master of Building Surveying (12)

In addition to the subjects listed for the Graduate Certificate and Postgraduate Diploma, you must complete four elective subjects. You may complete any four postgraduate subjects from the suite offered by the Institute of Sustainable Development & Architecture.

PROFESSIONAL OUTCOMES

Graduates of the Master of Building Surveying are able to practise as accredited building surveyors and certifiers. The program has been designed in consultation with the Australian Institute of Building Surveyors to ensure that the material covered is appropriate for people engaged in this field. Through this consultation graduates are assured that their qualifications meet the requirements of the profession.

PROFESSIONAL RECOGNITION

This program has international accreditation with the Royal Institution of Chartered Surveyors. Building Surveying programs have been granted provisional accreditation by the Australian Institute of Building Surveyors (AIBS). The Graduate Certificate in Building Surveying meets requirements under the AIBS Framework for accreditation as Assistant Building Surveyor (to be renamed Building Surveyor Limited from 2011). Both Postgraduate Diploma and Master of Building Surveying programs meet requirements under the AIBS Framework for accreditation as Building Surveyor.

The Building Professionals Board of New South Wales recognises both the Graduate Certificate in Building Surveying, the Postgraduate Diploma and Master of Building Surveying programs.

*Intensive mode delivery is a compact and time-efficient way for you to complete your postgraduate qualification with minimal impact on their work / home life. You will attend two three-day sessions per subject, scheduled Thursday to Saturday (approximately six to eight contact hours per day). There will be a break of five weeks between session one and session two. You will receive 40 hours of combined lectures, discussion groups, case studies and workshops during these contact hours.

**Subject names and structure may change - please refer to www.bond.edu.au/isda for updated information on program structure.

MASTER OF CONSTRUCTION PRACTICE

Duration: 1 year full-time (3 semesters); flexible part-time and intensive mode delivery* available

Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of any undergraduate degree, or qualifications and / or relevant professional experience deemed equivalent by the Institute Director.

PROGRAM DESCRIPTION

The Master of Construction Practice focuses on the organisation and management of project resources (people, process, products, energy, finance and space) to deliver building projects on time, within cost, and of the defined scope and quality.

PROGRAM STRUCTURE**

This program allows you to exit after four subjects with a graduate certificate, after eight subjects with a postgraduate diploma, or complete all 12 subjects for a master's degree.

Graduate Certificate in Construction Practice (4)

You must complete:

- Understanding Buildings
- Measurement 1

Plus two subjects from the following:

- Principles of Project Management
- Project Contract Administration
- Structures and Soil Mechanics OR Business Law
- Sustainable Building Services
- Sustainable Design

Postgraduate Diploma in Construction Practice (8)

You must complete:

- Understanding Buildings
- Measurement 1

Plus six subjects from the following:

- Commercial Construction and Engineering
- Early Estimating and Cost Planning
- Integrated Measurement and Professional Practice
- Integrated Project

- Measurement 2
- Principles of Project Management
- Project Contract Administration
- Structures and Soil Mechanics OR Business Law
- Sustainable Building Services
- Sustainable Design

Master of Construction Practice (12)

To complete a Master of Construction Practice, you must complete all of the subjects below. Those who have completed the Postgraduate Diploma must also complete the remaining subjects from the following list:

- Commercial Construction and Engineering
- Early Estimating and Cost Planning
- Integrated Measurement and Professional Practice
- Integrated Project
- Measurement 1
- Measurement 2
- Principles of Project Management
- Project Contract Administration
- Structures and Soil Mechanics OR Business Law
- Sustainable Building Services
- Sustainable Design
- Understanding Buildings

PROFESSIONAL OUTCOMES

You will be equipped with a range of management skills including project management, people management, construction techniques, materials, plant and equipment knowledge, cost and time awareness, client relations, safety and law knowledge and most particularly, an all encompassing knowledge of sustainable development.

PROFESSIONAL RECOGNITION

This program is accredited with the Royal Institution of Chartered Surveyors.

*Intensive mode delivery is a compact and time-efficient way for you to complete your postgraduate qualification with minimal impact on their work / home life. You will attend two three-day sessions per subject, scheduled Thursday to Saturday (approximately six to eight contact hours per day). There will be a break of five weeks between session one and session two. You will receive 40 hours of combined lectures, discussion groups, case studies and workshops during these contact hours.

**Subject names and structure may change - please refer to www.bond.edu.au/isda for updated information on program structure.

MASTER OF ENVIRONMENTAL MANAGEMENT (SUSTAINABLE DEVELOPMENT)

Duration: 1 year full-time (3 semesters); flexible part-time and intensive mode delivery* available

Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of any undergraduate degree, or qualifications and / or relevant professional experience deemed equivalent by the Institute Director.

PROGRAM DESCRIPTION

The Master of Environmental Management (Sustainable Development) program establishes the economic, business, science and technology, policymaking, ecological, sustainability and environmental knowledge that is needed for graduates planning to work in the environmental management area. A practical integration of disciplines is carried out via field work. The degree provides electives to allow you to explore areas of interest and the content is globally focused, so that the qualification is relevant for international students. As part of this degree program, you will be able to apply for a postgraduate industry internship. In the final semester, the Master's program includes the option of a client-based environmental management capstone project or a research dissertation.

PROGRAM STRUCTURE**

This program allows you to exit after eight subjects with a postgraduate diploma or complete all 12 subjects for a master's degree.

Postgraduate Diploma of Environmental Management (Sustainable Development) (8)

Select six of the following subjects:

- Asset and Facilities Management
- Ecological Principles
- Economics of Sustainable Development
- Environment, Ethics and Sustainability Science
- Environmental Assessment
- Environmental Legal Issues
- Environmental Management and Climate Change
- Environmental Science Fieldwork

- Geographic Information Systems in Natural and Built Environments
- Research Methods in Sustainable Development

Plus two general electives from any faculty or the Institute of Sustainable Development & Architecture.

Master of Environmental Management (Sustainable Development) (12)

You must complete nine of the following subjects:

- Asset and Facilities Management
- Ecological Principles
- Economics of Sustainable Development
- Environment, Ethics and Sustainability Science
- Environmental Assessment
- Environmental Legal Issues
- Environmental Management and Climate Change
- Environmental Science Fieldwork
- Geographic Information Systems in Natural and Built Environments
- Graduate Internship in Sustainable Development
- Research Methods in Sustainable Development
- Capstone Project (20 credit points)

Plus three elective subjects chosen from any faculty or the Institute, or two electives if a research dissertation is undertaken.

> Research Dissertation Options

- Sustainable Development Research Dissertation (40 credit points)

PROFESSIONAL OUTCOMES

This degree equips you to be a sustainability professional in business, industry, government, non-government organisations and private consultancies. Potential fields of employment include corporate social responsibility, ethical supply chain management, sustainable technology development, green investment and carbon management.

*Intensive mode delivery is a compact and time-efficient way for you to complete your postgraduate qualification with minimal impact on their work / home life. You will attend two three-day sessions per subject, scheduled Thursday to Saturday (approximately six to eight contact hours per day). There will be a break of five weeks between session one and session two. You will receive 40 hours of combined lectures, discussion groups, case studies and workshops during these contact hours.

**Subject names and structure may change - please refer to www.bond.edu.au/isda for updated information on program structure.

MASTER OF INFRASTRUCTURE MANAGEMENT

Duration: 1 year full-time (3 semesters) or 24 months part-time and intensive mode delivery* available

Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of any undergraduate degree, or qualifications and / or relevant professional experience deemed equivalent by the Institute Director.

PROGRAM DESCRIPTION

The Master of Infrastructure Management takes a cross-disciplinary approach to infrastructure procurement and management. All courses are delivered by professionals experienced in government and industry. The program will make extensive use of relevant industry case studies and contemporary issues to ensure course content reflects current developments.

The Master of Infrastructure Management will be of interest to candidates with a professional interest in the fields of economic and social infrastructure, procurement, local government, public policy and regulation, project advisory services, engineering, project and risk management, finance, traffic studies, planning and public administration.

PROGRAM STRUCTURE**

The Institute of Sustainable Development & Architecture designs its coursework programs to meet the busy schedules of today's professionals. All subjects are delivered by intensive mode delivery*. Sessions may involve attendance on Thursday, Friday and a Saturday to minimise the impact on business and home life.

This program allows you to exit after four subjects with a graduate certificate, after eight subjects with a postgraduate diploma, or complete all 12 subjects for a master's degree.

Graduate Certificate of Infrastructure Management (4)

You must complete the following subject:

- Project Procurement

Plus three subjects from the following (subject to availability):

- Contemporary Issues in Infrastructure Management (equivalent to two subjects)
- Infrastructure Economics
- Infrastructure Industry Analysis
- Project Finance
- Public Policy
- Public Private Partnerships
- Risk Management

Postgraduate Diploma of Infrastructure Management (8)

You must complete the following subject:

- Project Procurement

Plus seven subjects from the following (subject to availability):

- Contemporary Issues in Infrastructure Management (equivalent to two subjects)
- Infrastructure Economics
- Infrastructure Industry Analysis
- Infrastructure Regulation
- Public Private Partnerships Project (equivalent to two subjects)
- Project Finance
- Public Policy
- Public Private Partnerships
- Risk Management

Master of Infrastructure Management (12)

You must complete all subjects listed below:

- Contemporary Issues in Infrastructure Management (equivalent to two subjects)
- Infrastructure Economics
- Infrastructure Industry Analysis
- Infrastructure Regulation
- Public Private Partnerships Project (equivalent to two subjects)
- Project Finance
- Project Procurement
- Public Policy
- Public Private Partnerships
- Risk Management

PROFESSIONAL OUTCOMES

The objective of the program is to develop a specialised knowledge and understanding of the critical elements of major project procurement and infrastructure management. Former students include executives at all levels of government and industry, engineers, project managers, financiers, construction companies, consultants, fund managers, investors, facility managers, transport operators, lawyers and economists engaged in the sector.

Graduates working in government will further their careers in the areas of policy, risk measurement and management, regulation, industry economics, local government, urban infrastructure, governance (audit services), project management and procurement.

Graduates working in the private sector may adopt specialisations in the fields of alliance contracting, public private partnerships, investment analysis, project finance, risk management and advisory services.

PROFESSIONAL RECOGNITION

This program has international accreditation with Royal Institution of Chartered Surveyors.

*Intensive mode delivery is a compact and time-efficient way for you to complete your postgraduate qualification with minimal impact on their work / home life. You will attend two three-day sessions per subject, scheduled Thursday to Saturday (approximately six to eight contact hours per day). There will be a break of five weeks between session one and session two. You will receive 40 hours of combined lectures, discussion groups, case studies and workshops during these contact hours.

**Subject names and structure may change - please refer to www.bond.edu.au/isda for updated information on program structure.

MASTER OF PROJECT MANAGEMENT

Duration: 2 years part-time, intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of any undergraduate degree, or qualifications and / or relevant professional experience deemed equivalent by the Institute Director.

PROGRAM DESCRIPTION

The Master of Project Management program provides a comprehensive business ready foundation that will equip graduates from any background with the knowledge and expertise to develop or further a career in project management in all areas of industry, government and the not-for-profit sector.

The Master of Project Management features five distinct study themes which are embedded into the highly practical curriculum: strategy, sustainability, managing organisational change, managing complexity, and teamwork, including both virtual teams and global working.

PROGRAM STRUCTURE**

This program allows you to exit after four subjects with a graduate certificate, after eight subjects with a postgraduate diploma, or complete all 12 subjects for a master's degree.

Graduate Certificate in Project Management (4)

- Principles of Project Management
- Project Finance and Procurement
- Project Planning
- Risk Management

Postgraduate Diploma in Project Management (8)

In addition to the subjects listed for the Graduate Certificate, you must complete the following:

- International Project Management
- Organisational Project Management Capability
- Project Portfolio and Program Management
- Systems Thinking and Management Modelling for Projects

Master of Project Management (12)

In addition to the subjects listed for the Graduate Certificate and Postgraduate Diploma, you must complete the following:

- Sustainable Development Research Dissertation (40 credit points)

PROFESSIONAL OUTCOMES

Today, project management skills and abilities are in high demand in both private and public sectors. The result is a global shortage of project managers at all levels in every field such as construction, information technology, finance, health care and related industries, property development and government. Bond's Master of Project Management provides graduates with the theoretical foundation necessary to take advantage of the exciting opportunities available in this fast growing profession, both in Australia and overseas.

PROFESSIONAL RECOGNITION

The Master of Project Management is accredited by the Australian Institute of Project Management and the Royal Institution of Chartered Surveyors. Bond University is a member of the Global Alliance for Project Performance Standards.

Through active local and global involvement with professional associations and industry the Bond University Master of Project Management ensures the currency and practical relevance of its subjects and teaching.

*Intensive mode delivery is a compact and time-efficient way for you to complete your postgraduate qualification with minimal impact on their work / home life. You will attend two three-day sessions per subject, scheduled Thursday to Saturday (approximately six to eight contact hours per day). There will be a break of five weeks between session one and session two. You will receive 40 hours of combined lectures, discussion groups, case studies and workshops during these contact hours.

**Subject names and structure may change - please refer to www.bond.edu.au/isda for updated information on program structure.

MASTER OF PROPERTY VALUATION

Duration: 1 year full-time (3 semesters)

Starting: January, May, September*

ENTRY REQUIREMENTS

Successful completion of any undergraduate degree, or qualifications and / or relevant professional experience deemed equivalent by the Institute Director.

PROGRAM DESCRIPTION

The Master of Property Valuation delivers the skills, attitudes and knowledge required by both public and private organisations to assess the value and potential of their real property assets from an occupational, investment and development perspective. The program has a strong professional focus, incorporating extensive industry liaison through scenario and problem-based learning, practical assignments and numerous field and office-centred learning activities. Graduates will be exposed to the essential personal skills of problem solving, ethical behaviour and practices, social responsibility and sustainability to equip them with all the necessary professional and technical competencies to operate as effective leaders in the industry.

PROGRAM STRUCTURE**

This program allows you to exit after four subjects with a graduate certificate, after eight subjects with a postgraduate diploma, or complete all 12 subjects for a master's degree.

Graduate Certificate of Property Valuation (4)*

- Accounting Principles
- Business Law
- Economics of Sustainable Development
- Principles of Property Valuation

Postgraduate Diploma in Property Valuation (8)

- Planning Process
- Principles of Property Law
- Principles of Property Valuation
- Property Investment Valuation
- Specialist Valuation
- Statutory Valuation
- Sustainable Property Management
- Understanding Buildings

Master of Property Valuation (12 subjects)

In addition to the eight subjects undertaken during the Postgraduate Diploma in Property Valuation, you must complete the following subjects:

- Accounting Principles
- Business Law
- Economics of Sustainable Development
- Urban Development OR Property Resource Analysis

PROFESSIONAL OUTCOMES

The Master of Property Valuation prepares graduates for a wide range of careers in the property and valuation professions including property valuer, property manager, corporate real estate advisor, property finance and investment appraiser and development manager.

PROFESSIONAL RECOGNITION

Graduates of this program will be professionally recognised by the Australian Property Institute and may apply for registration as Certified Practising Valuers upon graduation (conditional upon meeting professional practice requirements). International accreditation for this degree has also been achieved with the Royal Institution of Chartered Surveyors.

*The Graduate Certificate of Property Valuation only offers intakes in January and September.

**Subject names and structure may change - please refer to www.bond.edu.au/isda for updated information on program structure.

MASTER OF URBAN DEVELOPMENT AND SUSTAINABILITY

Duration: Minimum 1 year full-time (3 semesters), intensive mode delivery*

Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of any undergraduate degree, or qualifications and / or extensive relevant professional experience deemed equivalent by the Institute Director.

PROGRAM DESCRIPTION

This master's program allows graduates from any background to build on their existing knowledge base with specialist skills in areas such as urban development, urban sustainability, financial structures, property valuation, property financing, property development, property development management and strategic asset / facility and property management. Graduates will be qualified to undertake property and urban development projects from inception through to completion.

PROGRAM STRUCTURE**

This program allows you to exit after four subjects with a graduate certificate, after eight subjects with a postgraduate diploma, or complete all 12 subjects for a master's degree.

Graduate Certificate of Urban Development and Sustainability (4)

- Understanding Buildings

In addition, select three subjects listed under the Master of Urban Development and Sustainability.

Postgraduate Diploma in Urban Development and Sustainability (8)

In addition to the subjects listed for the graduate certificate, you must complete the following:

- Principles of Property Valuation
- Understanding Buildings
- Urban Development

Plus five subjects listed under the Master of Urban Development and Sustainability.

Master of Urban Development and Sustainability (12)

- Advanced Asset Management
- Economics of Sustainable Development
- Planning Process
- Principles of Project Management
- Principles of Property Valuation
- Property Investment and Development
- Understanding Buildings
- Urban Development

Plus four subjects from the below:

- Assets and Facilities Management
- Capstone Project
- Corporate Real Estate
- Development Assessment
- Environmental Management and Climate Change
- Introducing Urban Design
- Principles of Property Law
- Project Contract Administration
- Project Finance and Procurement
- Property Resource Analysis
- Sustainable Design

PROFESSIONAL OUTCOMES

The Graduate Certificate and Postgraduate Diploma of Urban Development and Sustainability qualifications open up employment opportunities in areas such as property development and commercial real estate. The Master of Urban Development and Sustainability will prepare you for challenging careers in the property and urban development industry and professions.

PROFESSIONAL RECOGNITION

This program has Associate Membership endorsement with the Australian Property Institute and international accreditation with the Royal Institution of Chartered Surveyors.

*Intensive mode delivery is a compact and time-efficient way for you to complete your postgraduate qualification with minimal impact on their work / home life. You will attend two three-day sessions per subject, scheduled Thursday to Saturday (approximately six to eight contact hours per day). There will be a break of five weeks between session one and session two. You will receive 40 hours of combined lectures, discussion groups, case studies and workshops during these contact hours.

**Subject names and structure may change - please refer to www.bond.edu.au/isda for updated information on program structure.

MASTER OF URBAN PLANNING

Duration: 1 year full-time (3 semesters), intensive mode delivery* available

Starting: January, May, September

ENTRY REQUIREMENTS

Successful completion of an undergraduate degree in a built environment related field, or qualifications and / or extensive relevant professional experience deemed equivalent by the Institute Director.

PROGRAM DESCRIPTION

The Master of Urban Planning provides a comprehensive foundation in the skills required to undertake the design, appraisal and management of urban and regional developments, using existing and emerging contemporary fields. With this qualification, professionals from a built environment background will be able to undertake urban planning and development at a professional level.

PROGRAM STRUCTURE**

This program allows you to exit after four subjects with a graduate certificate, after eight subjects with a postgraduate diploma, or complete all 12 subjects for a master's degree.

Graduate Certificate of Urban Planning (4)

There are no required subjects in the graduate certificate degree. You are free to choose at least two subjects from the first group of subjects listed under the Master of Urban Planning and a maximum of two subjects from the second group.

Postgraduate Diploma in Urban Planning (8)

You must complete the following subject:

- Planning Process

In addition, you are to choose at least five subjects from the first group of subjects listed under the Master of Urban Planning and a maximum of two subjects from the second group.

Master of Urban Planning (12)

- Development Assessment
- Environmental Management and Climate Change
- Infrastructure Planning and Governance
- Introducing Urban Design
- Planning Process
- Planning Theory and Ethics
- Regional Planning Policy and Practice
- Research Project
- Sustainable Communities
- Urban Design and Site Analysis Studio

Plus two subjects from the following:

- Economics of Sustainable Development
- Expert Witness and Dispute Resolution
- Principles of Project Management
- Principles of Property Law
- Principles of Property Valuation
- Property Investment and Development
- Understanding Buildings
- Urban Development

PROFESSIONAL OUTCOMES

Urban planners are in great demand in the public, private and community sectors in Australia and overseas. State and local government opportunities are strong in several areas including integrated transport planning, affordable housing strategy development, regional planning and various aspects of urban design. In the private sector, planning and urban design consultancies value professionals with strong analytical, place design and negotiation skills developed in the program. Extensive opportunities also exist in property development and community organisations.

PROFESSIONAL RECOGNITION

Graduates of this program are eligible for professional recognition by the Planning Institute of Australia. International accreditation for this degree has also been achieved with the Royal Institution of Chartered Surveyors.

*Intensive mode delivery is a compact and time-efficient way for you to complete your postgraduate qualification with minimal impact on their work / home life. You will attend two three-day sessions per subject, scheduled Thursday to Saturday (approximately six to eight contact hours per day). There will be a break of five weeks between session one and session two. You will receive 40 hours of combined lectures, discussion groups, case studies and workshops during these contact hours.

**Subject names and structure may change - please refer to www.bond.edu.au/isda for updated information on program structure.

MASTER OF PHILOSOPHY

Duration: Minimum 1 year and a maximum 2 years full-time, part-time equivalent available

Starting: January, May, September

ENTRY REQUIREMENTS

Applicants will normally have completed a relevant bachelor degree at honours level. However, consideration may be given to applicants who have achieved one of the following:

- A three year degree followed by a year of full time postgraduate study or postgraduate study with a research component.
- A three year degree with a minimum average of credit in the final year units undertaken.
- Experience in research as evidenced by research publications or written reports on the research quality and expertise demonstrated by the applicant during this time.
- A combination of qualifications and experience deemed to be equivalent by the Institute Director.

Master of Philosophy students may study on campus throughout their candidature, however part-time study and off-campus study are also supported.

PROGRAM DESCRIPTION

The Mirvac School of Sustainable Development offers a Master of Philosophy by research program in urban development and sustainability, urban design and planning, asset and facilities management, construction management and property valuation, property development, infrastructure and project management, environmental management and environmental science. The program develops independent research skills and the ability to relate a specific research topic to a broad framework of knowledge. The program places a major emphasis on independent inquiry (initiative), a thorough understanding of domain specific knowledge, competence in research methodologies and the ability to communicate research results.

PROGRAM STRUCTURE

You will be supervised by two appropriately qualified academic staff. The Institute is responsible for approving your dissertation proposal prior to the examination process. The dissertation should be a major, substantially original, theoretical or empirical study of an issue pertaining to your major field of study. The Institute expects you to work closely with staff and be exposed to the research activities of the staff and other students. It would not be uncommon to co-author with your supervisor in publications resulting from your dissertation.

A pathway exists for transfer to a doctoral program at the end of the first year for suitable candidates. Conditions apply*.

PROFESSIONAL OUTCOMES

The Master of Philosophy provides you with the research skills for academic careers in the university sector or for the role of researcher in business research-intensive organisations.

*Every candidate must successfully complete three research methods workshops, each equivalent to 36 hours, prior to their Confirmation of Candidature. The confirmation process occurs at the end of the first year in candidature.

DOCTOR OF PHILOSOPHY (SUSTAINABLE DEVELOPMENT)

Duration: Minimum 2 years and a maximum 3 years full-time

Starting: January, May, September

ENTRY REQUIREMENTS

Applicants are normally required to have a minimum first or upper second-class undergraduate honours (equal to at least a grade point average of 80 per cent), master by research or corresponding demonstration of research capacity. MBA degrees do not satisfy academic requirements for direct entry into the doctoral program, unless the degree includes a thesis component.

Doctoral students shall be admitted as full-time only and are expected to study on campus throughout their candidature.

PROGRAM DESCRIPTION

The Mirvac School of Sustainable Development offers a Doctoral program by research in urban development and sustainability, urban design and planning, asset and facilities management, construction management and property valuation, property development, infrastructure and project management, environmental management and environmental science. The Doctor of Philosophy program develops independent research skills and the ability to relate a specific research topic to a broad framework of knowledge. The PhD program places a major emphasis on independent inquiry (initiative), a thorough understanding of domain specific knowledge, competence in research methodologies and the ability to communicate research results.

PROGRAM STRUCTURE

INSTITUTE
OF SUSTAINABLE
DEVELOPMENT &
ARCHITECTURE

HIGHER DEGREES BY RESEARCH

Bond University is strongly committed to fostering innovative and entrepreneurial research that contributes to new thinking on a regional, national and global scale. Through our partnerships with private enterprise, industry bodies and leading international universities, the research experience at Bond gives candidates the opportunity to learn from and work with internationally recognised authorities in a wide range of disciplines.

For Higher Degrees by Research candidates, the faculties and the Institute typically maintain a doctoral student-to-staff ratio of one-to-one, allowing students to work closely with our world-renowned researchers and learn from their advanced methodologies.

Each of Bond's faculties and the Institute of Sustainable Development & Architecture offer specialist expertise and independent research capability in a diverse range of disciplines.

FACULTY OF BUSINESS

- Accounting
- Banking and Finance
- Business Intelligence
- Business Management
- Economics
- E-Health Systems
- Entrepreneurship
- Family Business
- Hotel Management
- Marketing
- Networking
- Software Engineering
- Tourism Management

FACULTY OF HEALTH SCIENCES & MEDICINE

- Evidence-Based Practice
- Forensic Science
- Genetics
- Immunology
- Medical Research
- Neuroscience
- Pharmacology
- Physiology
- Sport and Exercise Science
- Sports Management

FACULTY OF HUMANITIES & SOCIAL SCIENCES

- Australian Studies
- Communication
- Counselling and Behaviour Management
- Criminology
- International Relations
- Languages
- Media, Public Relations and Advertising
- Philosophy
- Psychology

FACULTY OF LAW

- Constitutional Law
- Corporate and Commercial Law
- Criminal Law and Procedure
- Dispute Resolution
- Intellectual Property, Information Technology and E-Commerce
- International Trade Law

INSTITUTE OF SUSTAINABLE DEVELOPMENT & ARCHITECTURE

- Architectural Design
- Asset and Facilities Management
- Construction Management and Quantity Surveying
- Construction Practice
- Environmental Management
- Environmental Science
- Infrastructure Management and Project Management
- Property Valuation
- Real Estate and Property
- Urban Design and Planning
- Urban Development and Sustainability

The faculties and the Institute are supported by Bond University's Graduate School of Research which offers a wide range of assistance to research candidates including:

- Information on Higher Degrees by Research (HDR)
- Advice with Australian Postgraduate Awards and International Postgraduate Research Scholarships or grant selection, application and management.
- Selected financial support for research through the HDR Support Scheme.
- Liaison with HDR candidates throughout enrolment and progression in their degree.
- Research specific and professional development seminars and workshops.
- Assistance with Bond University Human Research Ethics applications.

Higher Degrees by Research are offered at the master's and doctoral level in all faculties and the Institute. For more information, contact the Bond University Graduate School of Research on 07 5595 4179 or via email bugsr@bond.edu.au.

EXCHANGE PARTNERS

Bond University has over 60 exchange partnerships with leading universities all over the world. Through our exchange program, you can enrol in our partner universities for a semester, studying courses relevant to your degree. Your results will be credited towards your studies at Bond so that you can still complete your degree in the minimum time.

FACULTY OF BUSINESS

- University of Waterloo, Ontario, Canada

STATE-OF-THE-ART FACILITIES

Studying at Bond University provides you with access to world-class facilities on campus. You will gain a clear advantage through easy access to unparalleled academic, technological and recreational facilities.

TECHNOLOGY

The Balnaves Foundation Multimedia Learning Centre is a technology-rich and architecturally exciting learning environment. It provides you with access to collaborative-friendly study spaces and the latest audio visual and computer technology in a spectacular location. You will have access to a laptop bar, study booths with LCD screens for interactive learning, a collaborative learning room with a Smartboard, HD projector and video conferencing facilities and flexible furniture arrangements to accommodate group work and discussion.

LIBRARIES

Bond University's John and Alison Kearney Library includes over 235,000 volumes and 1,800 journal titles in print, as well as hundreds of DVDs, laserdiscs, CD ROMs, and video and audio cassettes. Access is provided to over 22,000 full-text electronic journals and over 100 journal databases.

Bond University's John and Alison Kearney Law Library has an extensive collection of specialised law materials available for the Australian and selected international legal systems.

SPORTING

Bond University has an active sporting and recreation program on campus housing a fully equipped gymnasium including an Olympic size swimming pool, spa and sauna. Also located on campus are beach volleyball courts, a sports hall for basketball and netball, tennis courts and sports fields. Students compete in both the summer and winter competitions of the Australian University Games. Some students play competitive sport representing Queensland or Australia in national and international sporting codes or at the Olympics.

CAFÉS AND RESTAURANTS

Bond University offers a range of dining styles on campus. The Brasserie and Café Bond offer buffet, dine-in and takeaway options, Papyrus Café offers dine-in and takeaway and the University Club hosts dine-in lunch overlooking the lake. In addition there are coffee stations situated around campus as well as an independent café, Juicy Bits, offering dine-in by the lake and takeaway. Bond caters to most dietary requirements including gluten free, halal, vegetarian and vegan options.

OUTDOOR AMPHITHEATRE

The ADCO Amphitheatre is quite a feature at Bond University. With a seating capacity of more than 400 and facilities including change rooms, ancillary lighting and state-of-the-art audio and video equipment, the amphitheatre has become a cultural and artistic venue for all Bond students, staff, alumni, family members, friends and the broader Gold Coast community. It is also the venue for the weekly event, Wednesday by the Water, a free barbeque for all Bond students.

STUDENT SERVICES

You will benefit from the range of student services available on campus, relating to every aspect of study, medical, personal well-being and career development.

SUPPORT SERVICES

Bond values the cultural differences and diversity brought to the campus by its international students and makes every attempt to ensure they feel welcome. Individual academic counselling is also available to all students from a non-English speaking background. International students also have access to an International Student Support Officer, located in student administration, who can provide visa advice and support while you settle in.

COMPUTER SUPPORT

Information Services operates a Service Desk to help students needing computer support. The Service Desk supports all University-owned equipment, as well as providing instruction for connection of privately owned equipment to the network.

COMMERCIAL CENTRE

Your everyday needs are well catered for and easy to access at the on-campus Commercial Centre where you will find ATMs, the University bookshop stocking all required texts, a printing shop and a travel agent.

COUNSELLING SERVICES

Qualified student counsellors offer a totally confidential on campus counselling service to assist with anything from transitioning or returning to university, to study pressures and personal problems. During the course of each semester Counselling Services also run Life One, a weekly life skills program aimed at developing positive coping skills and self-awareness complementing academic endeavours to produce more competent, resilient and grounded graduates.

DISABILITY SUPPORT

If you have a disability, illness, injury, mental or health condition that you believe may affect your capacity to complete your studies, exams or assessment tasks, it is important you contact a Disability Officer to discuss strategies and / or academic adjustments that may be required. If you would like to be considered for support, you will need to complete an application form and submit it with recent and comprehensive specialist documentation to the Disability Office before Week 4.

MEDICAL SERVICES

The on-campus Student and Staff Medical Clinic provides general medical treatment, advice and testing, referrals, immunisation and vaccinations. The campus doctor and nurse are available for appointments from Monday to Friday.

PASTORAL CARE

Bond University is a non-denominational campus. However, our Pastoral Care services can provide information about local worship centres and different faiths.

SECURITY

The Bond University campus is patrolled 24 hours a day, seven days a week, by our on-staff security officers and monitored by security cameras. Security officers can be contacted at any hour by phone to assist in an emergency or even just to walk you to your car after dark.

STUDENT LEARNING SUPPORT

This centre is designed to help all students improve their academic skills. Students can seek assistance with understanding assignment questions, organisation, structure and referencing, grammar, presentations and maths. Workshops and individual appointments are available.

CAREER DEVELOPMENT SERVICES

The Career Development Centre is staffed by qualified and experienced Employment Services Specialists. They provide a broad range of personalised services including:

- **Careers advice and guidance** - Personal one-on-one appointments with our employment services specialists.
- **Career path planning** - Identifies your individual skills and interests to match them with relevant career pathways.
- **Graduate recruitment resources and assistance** - Puts you in touch with graduate recruitment representatives from leading corporations and agencies.
- **Graduate training program** - A formalised yearly program that will prepare you for the graduate application process and provide you with feedback and coaching to assist you in the process.
- **Careers clinics and seminars** - Held regularly to inspire and motivate you with exciting career suggestions.
- **Resume review** - Advice on how to improve your resume.
- **Dedicated Postgraduate Service** - the CDC has developed a partnership with external providers to provide a high quality service for postgraduate students including clinics, strategy advice and innovative partnerships.

The Career Development Centre also coordinates a number of events on campus:

- **Employer visits to campus** - Your chance to meet with prospective employers and learn what influences the selection process.
- **Careers Fair** - Hosted on campus in Semester 1 every year. The Career Development Centre team invites local, national and international employers to promote their employment and internship opportunities and meet with Bond students.

The Centre also provides a broad range of Career Development resources:

- **Online Careers and Employment Portal (CareerHub)** - CareerHub provides a diverse range of careers and employment resources and information, including job advertisements, company profiles, events, news, industry and degree-specific information.
- **Going Global** - An online resource that provides career information for 24 countries.
- **Vault** - An online subscription-based resource used by over 900 universities worldwide.
- **Job Search Guide** - Taking you step-by-step through the career planning and job application process.

In addition to the services provided by the Career Development Centre, Bond students develop vital employment contacts and business networks by liaising with their professors and through access to the high profile industry, government and political identities who regularly visit the campus as guest lecturers.

LIFE AT BOND

Bond has a distinctly global perspective aspiring to a 50 : 50 ratio of Australian to international students. So while studying you will have the opportunity to build a worldwide network that will last a lifetime.

ACCOMMODATION OPTIONS

With the variety of accommodation options, there's something to suit most students' preferences, whether you wish to live on or off campus.

ON-CAMPUS ACCOMMODATION

Bond offers a variety of accommodation options, all within easy walking distance of lecture theatres, Don's, restaurants, Bond's Sports Centre, sporting facilities and faculties.

Resident students will have access to one-on-one academic and personal support available from the live-in team of Senior Resident Fellows, Resident Student Fellows and Tutor Fellows. Resident students also enjoy a great social life as they mix with classmates at meal times and in study sessions.

All on-campus accommodation is air conditioned with the following options available:

Single Room - Private ensuite

Single rooms with private ensuite facilities.

Single Room - Share facilities

Single room with shared bathroom facilities.

Single Room - Flat

Single room in a flat comprising two or three bedrooms with shared bathroom and limited cooking facilities.

Twin Share Room - Standard

Twin room with two single beds and a shared ensuite.

Twin Share Room - Premium

Larger shared accommodation with two private rooms and a shared ensuite.

APPLYING FOR ON-CAMPUS ACCOMMODATION

Accommodation on campus is in high demand so it is best to complete your application for on-campus accommodation as soon as it becomes available.

To view rooms online and complete your application for on-campus accommodation, visit www.myroom.bond.edu.au.

While residing on campus, it is compulsory to have a dining plan at a cost of AUD\$1,760 per semester, which can be used at Café Bond, The Brasserie, Papyrus Café, Don's and the University Club. Flexible dining plans are available allowing students to purchase on-campus meal options. You can top up your dining plan starting at AUD\$110.

For more information about Bond University on-campus accommodation, please visit our website at www.bond.edu.au/accommodation or email student_residences@bond.edu.au.

OFF-CAMPUS ACCOMMODATION

There is a wide range of rental accommodation available near the University if you would like to live off campus. Options include houses or apartments on a single or shared basis, with weekly rent varying, depending on size and location. You will also need to budget for a security deposit (bond), food, electricity, internet, water, telephone and cleaning. Students who reside off campus can also purchase a dining plan starting from AUD\$110. For more information, please visit our website at www.bond.edu.au/accommodation.

GETTING AROUND

The University is within 20 minutes drive of the Gold Coast Airport and just over one hour from Brisbane International and Domestic Airport. We can arrange for you to be met at either airport and transported to your accommodation. A rail service operates between Robina and Brisbane. Regular bus services operate from the University to the main shopping, residential and tourist areas on the Gold Coast and Brisbane. In addition, there are a number of shops, cafés, restaurants and facilities within walking distance of the campus at Varsity Lakes.

STUDENT EXPERIENCE

Bond has a real community feel and a vibrant student social life. From sporting, social and special interest clubs, as well as a full calendar of events and gatherings, there's so much to enjoy. Once your Student Activities Membership is paid you will have access to a variety of facilities and events on campus as well as discounted prices on some services offered through the Sports Centre.

STUDENT ACTIVITIES MEMBERSHIP

The student activities fee is compulsory for all students and provides them with access to all of our sporting facilities and clubs.

It is used solely to support student services events and activities. The fees are paid each semester. In 2012, the fee for a full-time student was AUD\$263 for the calendar year. Part-time students were required to pay 75 per cent of the fee. The fee is CPI adjusted each year. Payment of this membership gives you access to:

Bond University Sports Centre

- Access to all group exercise classes
- Access to Sports Centre facilities and sports equipment hire
- Discounted prices on massage services
- Discounted prices on personal training packages

Bond University Students Association (BUSA)

- Discounted or waived sports coaching fees
- Discounted or waived ticket prices for BUSA events
- Discounts and special offers from local businesses
- Eligibility for membership of University sporting clubs
- Financial support for teams and individuals travelling to university sports championships and university games
- Membership of BUSA
- Representation on academic and administrative issues
- Support for the creation of new sporting clubs and events

Clubs, Societies and Faculty Student Associations

You can sign up to over 70 student clubs at Club Sign On Day, held the first Friday of each semester. Below are a few examples of clubs and activities that you can access:

- Badminton Club
- Basketball
- Bond Children's Holiday Camp
- Bond Christian Connection
- Canadian Law Students' Association
- Cheerleading
- Clocktower Magazine (Journalism Students' Association)
- Club 20 (Law Students' Association)
- Cricket
- Empire and Palaver (Business Students' Association)
- Free law tutoring (Business, Law and Humanities Students' Association)
- Golf Club
- Horse Riding Club
- International student events (Diwali and Chinese New Year celebrations)
- Make a Difference - Global Health Group
- Muslim Students' Association
- Rowing
- Rugby
- Soccer
- Surfing
- Sustainable Development Students' Association
- Swimming
- Taekwondo
- Tennis
- Theatrical productions (Drama Society)
- Track and field
- United Nations Club
- Waterpolo

Wednesday by the Water

Wednesday by the Water is a weekly student event. Funded by your student activities fee it is a great excuse to be outside enjoying the beautiful blue sky while having a free barbeque lunch with friends by the lake.

INVESTING IN YOUR FUTURE

Your university degree is one of the most important investments you will make in your lifetime. As with all investments, you must consider the rate of return of both the short term career opportunities and your long term lifetime earnings.

FINANCING YOUR DEGREE

Bond University is a not-for-profit, private independent university which means that fees are directly reinvested to provide an outstanding education and facilities for students.

Tuition is charged at the beginning of each semester as you enrol. The fees payable by international students are the same as those for Australian students.

Students will need to meet the cost of living expenses, textbooks and other equipment. At Bond University you will not need to budget for on-campus parking as it is made available free of charge to all students. The use of the sporting facilities is covered by the Student Activities Membership.

You are encouraged to speak to financial institutions about any services they can provide to help finance study. There are a number of options available to help you finance your educational investment with assistance available from Bond University, government loan programs, personal bank loans and scholarships.

FEE-HELP

If you are an Australian citizen or a holder of a permanent humanitarian visa and have a Tax File Number, you will be able to access the Australian Government's loan scheme called FEE-HELP. FEE-HELP is an interest free loan that helps eligible fee paying students pay their tuition fees. The accumulated debt is indexed annually according to the Consumer Price Index (CPI).

Eligible students who wish to pay for part or all of their tuition fees through FEE-HELP must complete a Request for FEE-HELP Assistance form by the end of the second week of the semester. You can then elect to pay a portion of fees directly to the University, and the remaining debt will be deferred as a loan through the Australian Taxation Office.

If you are using FEE-HELP to cover all tuition costs and you don't complete the form by the end of Week 4, you will be liable for payment of all tuition fees.

Eligible students may borrow up to the FEE-HELP limit to pay their tuition fees over their lifetime. The FEE-HELP limit is the total amount available to an eligible student under both the FEE-HELP scheme and the VET FEE-HELP scheme and includes study at a TAFE institution and fee paying undergraduate degree. In 2012 the maximum loan amount available is AUD\$89,706. The FEE-HELP limit is indexed each year. The loan is repaid to the Australian Taxation Office taking compulsory repayments through the taxation system when your repayment income exceeds AUD\$47,196 in a financial year. A five per cent bonus is granted for any voluntary repayments over AUD\$500 made directly to the Australian Taxation Office. Please visit www.studyassist.gov.au for current loan thresholds and to view the Government publications on FEE-HELP. Maximum limits are adjusted each year.

YOUTH ALLOWANCE / AUSTUDY

If you are an Australian citizen or permanent resident aged 16 years or over and studying full-time, you are eligible to apply for Austudy / Youth Allowance benefits from the Commonwealth Government. For more information, contact Centrelink directly.

STUDENT OPPORTUNITY FUND

You will have the opportunity to undertake a range of experiences and activities which will enhance your university and learning experience while studying at Bond. To assist you in accessing these opportunities the Student Opportunity Fund was created for students to apply for financial assistance up to AUD\$2,000.

For more information on eligibility and application closing dates, visit www.bond.edu.au/student-opportunity-fund.

LOYALTY DISCOUNTS

A 10 per cent rebate of tuition fees is available to students where an immediate family member is also studying at or has graduated from Bond (conditions apply). A 10 per cent discount is also available to Bond alumni (conditions apply). For further information, please visit www.bond.edu.au/loyalty-discounts.

LIVING COSTS

You should allow approximately AUD\$6,000 for living costs each semester that you live on the Gold Coast. This may vary depending on your budget for rent, food, transport, clothing, recreation, text books, telephone, electricity and other living expenses. Note this figure has been calculated using shared off-campus accommodation. For more information visit www.bond.edu.au/accommodation.

At Bond University you will not need to budget for on-campus parking as it is made available free of charge to all students.

BOOKS AND STUDY MATERIALS

The costs for books, stationery, software and other resources tend to be the same at most universities. Allow around AUD\$300 per semester to help offset this cost, you may choose to sell your old textbooks and buy secondhand at the Bond Book Sale held during Orientation Week before the start of each semester.

SCHOLARSHIPS

One of the key ways Bond University identifies future leaders is through our Scholarship Program. Available to Australian mature-age students, full and part tuition scholarships are awarded to applicants who have demonstrated outstanding academic ability, community involvement and well developed communication skills.

Australian Government Scholarships

The Australian Government offers a number of scholarships to increase access to and the quality of education and training for people in partner countries.

The scholarships offered include:

- Australian Leadership Awards Scholarships (managed by AusAid)
- Department of Education, Employment and Workplace Relations Endeavour Awards Scholarships (managed by DEEWR)
- Australian Partnership Scholarships (managed by AusAid)
- Australian Development Scholarships (managed by AusAid)

For further information on these external opportunities, please visit the respective organisations' websites, www.usaid.gov.au or www.deewr.gov.au.

The Australian Postgraduate Awards

These scholarships are funded by the Australian Government for Australian students seeking to undertake research-based postgraduate degrees. Information is available from www.innovation.gov.au.

Bond University also offers a range of alternative financial assistance options to high achieving students. For more information please contact your Regional Manager.

For more information on the above scholarships, please visit www.bond.edu.au/scholarships.

APPLICATION AND ENTRY

Bond University's entry criteria are based on more than just your academic history. There is also an emphasis on leadership qualities, extracurricular activities, life experience and potential.

ENTRY INTO BOND

This guide to postgraduate degrees and courses lists information for domestic students (Australian and New Zealand citizens, but not Permanent Residence Visa holders of New Zealand). For information relating to international students, please refer to Bond University's International Postgraduate Guide.

HOW TO APPLY

1. Complete the online application form at www.bond.edu.au/apply.
2. Bond University will assess your application.
3. If your application is successful, Bond University will send you a Letter of Offer, Response to Offer form and information regarding enrolment and accommodation.

Bond University accepts direct applications for all programs*.

CLOSING DATES

Bond University accepts applications up to semester commencement**:

2012	2013
January 16	January 14
May 14	May 13
September 10	September 9

Bond University Bachelor of Medicine Bachelor of Surgery Applications

Applications for the Bachelor of Medicine Bachelor of Surgery must be lodged through QTAC www.qtac.edu.au. For information on application closing dates, visit www.bond.edu.au/timeline.

To apply:

1. Lodge an application through QTAC www.qtac.edu.au. You will be required to provide all accompanying documentation, providing evidence of your subject results in Chemistry, English and Maths B (or equivalent).
2. Applications will then be assessed by the Faculty of Health Sciences & Medicine to determine your eligibility based on an assessment of academic performance.
3. Short-listed applicants will be asked to attend an on-campus interview.

*Except for Bachelor of Medicine Bachelor of Surgery.

**Except for Bachelor of Medicine Bachelor of Surgery, School of Health Sciences Honours Programs, Doctor of Physiotherapy, Master of Psychology (Clinical) and Master of Psychology (Forensic). Please refer to www.bond.edu.au/timeline for application closing dates

ENROLMENT PROCEDURES

Successful applicants will receive a formal Letter of Offer from Bond University, accompanied by a Response to Offer form and information on fee payments and accommodation.

To accept your place, return the Response to Offer form and your initial fee payment equivalent to the fee for one subject, or a completed Request for FEE-HELP assistance form* to the Office of Admissions at Bond University. For further information on accepting your offer, visit www.bond.edu.au/accept.

An Enrolment Guide and information about Orientation Week will be available on the Bond website approximately one month prior to semester commencement. Once you have accepted your offer, you can enrol in your subjects online via eStudent at any time prior to or during Orientation Week. The balance of your semester's fees need to be paid to Bond University prior to Orientation Week.

To apply for on-campus accommodation or for assistance finding somewhere to live off campus, visit www.myroom.bond.edu.au.

DEFERMENT

Once you have been offered a place, you may apply to postpone your first year of study by completing Bond University's Response to Offer form, selecting the deferment option and returning it to the Office of Admissions.

Deferment is not available to students offered a place in the Bachelor of Medicine Bachelor of Surgery, Master of Psychology (Clinical) and Master of Psychology (Forensic). Deferments of scholarships will only be granted in exceptional circumstances.
