The University has a long and distinguished tradition of providing a first-class education and rewarding life experiences to students from all over the world.

Why Hull is the right university for you

*Did you know ...
The University of
Hull first opened
its doors to
students in
October 1928.*

Your studies ...

The University has a track record of providing a high-quality education. The *Sunday Times's* Good University Guide 2011 noted that well over half of our full-time students achieve a first or upper second class degree.

Your experience ...

Hull has maintained its position among the leading mainstream English universities in each of the last six National Student Surveys, which measure student satisfaction – most recently, 89% of our students expressed overall satisfaction with their experience here. The Complete University Guide rated us among the top three universities in the country for student satisfaction.

Additionally, the *Times Higher Education* Student Experience Survey placed the University in the national top 10 across various categories, including our well-structured courses, the level of help and interest from staff and the quality of our students' union and on-campus shops, bars and amenities.

Your future ...

The success of Hull graduates is outstanding in terms of national benchmarks, and they continue to be highly sought after by employers. According to the latest Higher Education Statistics Agency figures, 91% of our full-time students progress to employment or further study within six months of graduation.

First-class teaching quality

With teaching quality rated in the north of England's top five by *The Guardian* and constant investment in our facilities and staff, we consider that we offer our students a learning experience second to none.

The University of Hull not only offers some of the best facilities in the country; it continues to expand and evolve to meet the needs of new students. We take pride in providing our students with a quality learning experience, and our success has been reflected in recent external assessments:

- the 2011 National Student Survey (NSS) reported that 92% of Hull students praised our lecturers' ability to explain things, and 91% commended staff's enthusiasm for their subjects
- the NSS also ranked eight of our academic areas in the top 10 of their kind nationally for student satisfaction with teaching
- the Push University Guide ranked us as one of the top two northern English universities in their most recent league table

Research of international significance

In the latest National Research Assessment Exercise, 80% of the University's research was judged to be of international standard in terms of originality, significance and rigour.

Exceptional student support

The University prides itself on its support of students. Whether you study for a higher degree by research or take a taught programme, you will be personally supervised by staff who are experts in their fields.

The top 20 English mainstream higher education institutions, as ranked in the 2011 National Student Survey

	Overall satisfaction %
1 University of Cambridge	94%

18 Lancaster University	88%
19 University of Kent	88%
20 University of Nottingham	87%

Hull, Scarborough and the Region

The city of Hull

A dynamic waterfront city, Hull combines a strong maritime past with a cosmopolitan present to offer students a vibrant urban experience. With a well-deserved reputation for friendliness and a cost of living among the lowest in the UK, it's the ideal place to spend your student years.

The city centre has something for everyone. The impressive £200 million 40-acre St Stephen's development in the heart of the city is a shoppers paradise with all the most popular high-street brands available. Savile Street has designer clothing stores, and the Hepworth's Arcade supply an eclectic mix of retro gear, skatewear and clubwear. Visit the Old Town for its laid-back cafes, traditional pubs and award-winning Museums Quarter.

The leafy student district is an excellent place both to study and to relax, whether sipping cappuccino at one of the stylish pavement cafe bars on Princes Avenue, browsing around the shops that line Newland Avenue or sunbathing in Pearson Park.

Together with new friends, students can visit a variety of clubs that cater for different music tastes, four multiplex cinemas, and go to the nationally renowned Hull Truck theatre.

The town of Scarborough

Scarborough has a spectacular setting on the North Yorkshire coast. The campus itself is located on a hill overlooking the South Bay, the castle and the harbour, with the North York Moors in the distance. The clean, sandy beaches and the busy Brunswick shopping centre are only minutes apart and are linked by the famous funicular cliff lifts.

Scarborough is the ideal place to learn longboarding, bodyboarding, surf canoeing or windsurfing; learn to dive, jet-ski and row. On land, there's hiking, camping, off-road biking and golf almost on the campus's doorstep.

There are also plenty of cultural and social activities that students can enjoy outside their studies. The town has plenty of bars, clubs, live music venues, three cinemas, and several galleries and museums. Scarborough hosts numerous festivals throughout the year—including music festivals, literature festivals and the National Student Drama Festival.

The region

Away from the bustle of the city, the area is peppered with picturesque villages, sumptuous stately homes and charming market towns—including historic Beverley, with its cobbled streets and magnificent Gothic minster. Along the coast are award winning seaside resorts like Bridlington, Hornsea and Withernsea, all sandy beaches and pleasant promenades.

The region—East Riding of Yorkshire, has some of Britain's most striking scenery. A region of open plains, rugged coastline and rolling hills, it is an unspoilt and timeless landscape.

Top to bottom: The Deep; St Stephen's shopping centre; The Yorkshire Wolds; Beverley Minster; Scarborough Castle and seafront.

Language provision

The Department of Modern Languages houses one of the largest and best-equipped language learning centres in Britain. It provides the focus for language learning for everyone in the University. You may choose to begin a new language, or to develop existing skills for a specific academic or professional purpose. Then again, you may wish to maintain your proficiency – or start a new language – purely for pleasure or personal development.

Libraries

There are two main libraries: the Brynmor Jones Library on the Hull Campus, where there is also a well-stocked Map Library, and the Keith Donaldson Library on the Scarborough Campus. Students are automatically entitled to use all these facilities. Together the University's libraries contain over a million items, subscribe to more than 1,700 print and 17,000 e-journals and provide access to over 300 databases and datasets and more than 3,000 e-books. Our web pages provide access to the electronic catalogue, databases, e-journals and e-books—together with an online information skills tutorial to help you get the most from these electronic resources.

Computing facilities and services

The Brynmor Jones Library contains more than 300 computers; there are almost 1,000 more located across the Hull Campus, all supplying access to the internet. Some of these are provided by departments exclusively for their students, but most are in open-access clusters available for any student to use. More than 120 of these computers are provided in two clusters on the Hull Campus, which are available around the clock, 365 days a year. Students can access live information on which open-access PCs are available which are compatible with mobile browsers.

Computing services at Scarborough provides more than 100 workstations for student use, all supplying access to the internet and a wide range of applications including the latest Microsoft Office suite. A wireless networking infrastructure covers the whole of the Scarborough Campus, including all lecture rooms, labs, studios, and social and recreational spaces. This service is free, allowing you to use laptops and other mobile devices to access the network and be flexible in the way you study.

Study Advice Service

Once you have been at university for a little while, you will be expected to start producing academic work – perhaps an essay, a presentation or a scientific report. Until you settle down and understand what is expected of you, this can be rather daunting. Some students need a little extra help, in terms of academic skills, with the transition from school to university, or from another country to new ways of studying in the UK, or perhaps from work back into study after a break.

Our tutors can give lots of practical advice and guidance that will not only save you time and help you to work more efficiently but also reassure you and boost your confidence. For example, you may feel that you need some advice on how to:

- structure an essay or report
- plan your dissertation
- take information and put it together into a reasoned written argument
- compile a bibliography and write references
- avoid plagiarism
- read effectively
- take proper notes in a lecture
- manage time when you have deadlines
- revise for examinations
- remember things on a day when you are stressed
- polish your grammar and punctuation

or you may need help with mathematics, such as algebra, differential equations, calculus, diagnostic assessments or just basic arithmetic. Our friendly and approachable tutors will work with you, in confidence, in any of these areas.

Careers Service

The University's Careers Service provides impartial, well-informed, specialist support, advice and guidance. We have extensive information and resources covering a wide range of job roles and further-study options, both in the UK and overseas, as well as helpful guides to drafting an effective CV and preparing for interviews. Our advice is based on up-to-date information about the labour market, drawn from our links with employers both large and small. We recognise that each student is an individual with their own set of interests, motivations and values, and we recognise the benefits of maintaining a personal service – making all of our careers advisers available to speak to on a one-to-one basis, for example.

We work within the University's academic departments to provide specific careers information and advice. We run employability workshops to assist you in improving your CVs and applications, gaining interview skills practice and familiarising yourself with psychometric (ability) tests. Careers talks and careers fairs (which give you the chance to talk directly to employers and graduates) regularly take place on campus.

Student welfare

This university has always given a high priority to looking after its students. Academic, social and personal support is embedded within the structures and facilities of the departments, the residences and the students' union. If you ever have a problem, help is always available. You can find the answer to virtually every kind of question within our support services, whether it relates to a disability, a need for counselling, immigration issues, and life in the UK in general.

Safety on and off our campuses is excellent, with the students' union crime prevention group providing advice, support and guidance should you need it, assisted by the local police force's Liaison Officer and 24 hour campus security.

Religious groups

The University Chaplains engage with the religious and spiritual needs of the University community. They serve a range of denominational groups. There are services in the University Chapel at different times during the week, which international students are welcome to attend. In addition there are various autonomous student-led groups, such as the Catholic Society, the Christian Union, the Fusion Christian Network and the Islamic Society. Prayer facilities for Muslim students are also available on campus.

Sport and leisure

The University of Hull prides itself on having a very active student body. Run by students for students, Hull University Union (HUU) is one of the best students' unions in the country and provides representation, support and a sociable environment to all students of the University.

HUU is home to more than 80 student societies, publishes its own magazine, runs its own radio station and operates its own award-winning nightclub.

Sport, health and recreation at Hull are taken seriously at every level, from national sporting competition to supporting more than 45 well-established sports clubs, professionally organised intramural programmes (football, netball, hockey and rugby) and individual health and fitness. And whether you want primarily to enjoy the social side of sport or to compete alongside some of the country's best athletes, we always strive to provide the facilities and support that you need. Whether you are a novice or an international, we provide the best possible facilities at the lowest possible cost.

Accommodation

We recognise that your time at university is about more than just lectures and tutorials. At the University of Hull, we know that where you live can often be as important as the course that you study or any other aspect of student life.

The University of Hull accommodation guarantee

All unaccompanied new students who apply for accommodation at the University by 1 September are guaranteed an offer of a place in our owned, managed or directed accommodation. Accommodation is offered on a first-come, first-served basis.

Accommodation is available for postgraduates who apply after 1 September, but it is not guaranteed. However, every assistance in obtaining accommodation will be provided. The University does not provide family accommodation: this will need to be obtained through the private sector.

Name	Number of rooms	Type of accommodation	Location	Cost per week*
Thwaite Hall 31-week contract	192 rooms	Halls of residence; shared bathrooms; fully catered	1.2 miles from Hull Campus	£122–£142
Needler Hall 34-week contract	167 rooms	Halls of residence; shared bathrooms; semi-catered	2.5 miles from Hull Campus	£89–£106
The Lawns 34-week contract	970 rooms	Multiple halls of residence; shared bathrooms or en-suite; semi-catered and self-catered	3 miles from Hull Campus	£86–£121
Taylor Court 50-week contract	288 single rooms	Flats; en-suite; self-catered	On Hull Campus	£97
Student houses 42-week contract	186 two-storey houses	Single room in shared house; shared bathrooms; self-catered	Close to Hull Campus	£65–£78
Head-leased Typical residence contracts run from September to July	309 rooms	Single room in shared house; shared bathrooms; self-catered	Within a mile of Hull Campus. Also available at Scarborough Campus	Start at £56 (excluding utility bills); inclusive rents starting at £75
The Scheme Typical residence contracts run from September to August		Furnished single rooms in flats and houses and privately owned halls of residence; shared bathrooms; self-catered	Close to Hull Campus	£30–£90 (depending on location and facilities offered)
Cayley Hall 34- or 37-week contract	213 single rooms	Flats; en-suite and furnished bedrooms; fully catered	On Scarborough Campus	£137

* Prices based on rents for 2012/13 academic year.

Recent independent research has shown that Hull offers lower living costs than any other major city in England.

(Survey by MGM Advantage)

Entry requirements

Our typical undergraduate offers are often expressed in terms of A level grades or UCAS points, but we welcome many other qualifications. Admission tutors give guidance to applicants who do not meet the standard UK entry tariffs and may need a foundation year prior to their undergraduate degree.

At the University of Hull, we offer a foundation year leading to our sciences and engineering programmes, as well as a foundation year leading to all our undergraduate business degrees and other subject areas.

The foundation year will prepare you with additional academic subject knowledge, independent academic skills and the opportunity to successfully progress to the first year of the Bachelors degree of your choice.

Each application is considered on its own merit and admissions tutors will give careful consideration to other factors such as work experience and nature of previous studies. Certain programmes may require specific subject knowledge prior to entry, and therefore we advise all applicants to view our website for further information.

	Undergraduate	Postgraduate	Research degrees
BANGLADESH	HSC – Pass with overall grade of 85%; A Levels – same as UK students	Upper second class Bachelors degree from a recognised university	Masters-level qualification and a research proposal
BRUNEI	A levels and IB – same as UK students	Upper second class Bachelors degree	Masters-level qualification from a recognised university and a research proposal
CHINA	Completed three-year senior secondary school with an average grade of 80% or higher	Bachelors degree with average grade of 70% or more from a recognised university	Masters-level qualification from a recognised university and a research proposal
CYPRUS	Apolytirion – Pass with overall grade 18.5, depending on subjects studied. Turkish Cypriot students gaining the High School Diploma (Devlet Lise Diplomasi or Lisis Bitirme Diplomasi) follow a foundation or four-year degree programme	Upper second class Bachelors degree	Masters-level qualification from a recognised university and a research proposal
GHANA	Ghana A levels – same as UK students. West African Senior Certificate/Senior School Certificate – outstanding results qualify you for entry to our four-year Bachelor programmes, where the first year is a foundation year.	Minimum second class Bachelors degree	Masters-level qualification from a recognised university and a research proposal
GREECE	Apolytirion – Pass with an average grade of 17.5 plus 17.5 in key subjects	Upper second class Bachelors degree	Masters-level qualification from a recognised university and a research proposal
GULF AND MIDDLE EAST	Pass Tawjihiya with an average grade of 80% or higher, preferably from science streams, to follow a foundation or four-year degree programme	Bachelors degree between 60–65%, which is a classification of ‘good’ or ‘very good’ from a recognised university	Masters-level qualification from a recognised university and a research proposal
HONG KONG	HKDSE – 5, 5, 4 minimum; specific requirements apply to certain subjects as per A levels. HKALE – this year is the last year of graduates: follow UCAS requirements. IB – generally a score of 28 or above	Upper second class Bachelors degree	Masters-level qualification from a recognised university and a research proposal

	Undergraduate	Postgraduate	Research degrees
INDIA	ICSE, CBSE, SSC (Standard XII) – Pass all subjects, achieving at least 75% from the best four subjects	Upper second class Bachelors degree from a recognised university	Masters-level qualification from a recognised university and a research proposal
MALAYSIA	A levels, IB, High School Certificate (STPM) with a minimum of three principal passes	Minimum second class Bachelors degree	Masters-level qualification from a recognised university and a research proposal
NIGERIA	West African Senior Certificate/ Senior School Certificate – outstanding results qualify you for entry to our four-year Bachelor programmes, where the first year is a foundation year.	Minimum second class Bachelors degree	Masters-level qualification from a recognised university and a research proposal
PAKISTAN	Higher Secondary School Certificate (HSSC) is not accepted; applicants must complete an additional qualification such as a ‘foundation programme	Upper second class Bachelors degree from a recognised university	Masters-level qualification from a recognised university and a research proposal
POLAND	Matura/Swiadectwo Dojrzalosci – Pass	Upper second class Bachelors degree	Masters-level qualification from a recognised university and a research proposal
SINGAPORE	A levels, IB, BTech (HND) – same as UK students	Upper second class Bachelors degree	Masters-level qualification from a recognised university and a research proposal
USA	<p>High School Graduation Diploma with a GPA of 3 or above, plus a combined SAT 1 score of at least 1200, and relevant SAT 2 subjects with a score of 500 or above in each subject</p> <p>OR</p> <p>Advanced Placement test subjects with at least 3 out of 5 in each subject. American College Test (alternative to Advanced Placement test/SATs) – 25. USA University or College Year 1 GPA – grade 2.8 minimum</p> <p>IB – minimum of 28 points with HL scores of 5/6</p>	Bachelors degree GPA 3 or more	Masters-level qualification and a research proposal

Please note: guidance on how to submit a research proposal for admission is available on our website.

English language requirements

Applicants who require a Tier 4 student visa and those who do not originate from a majority English-speaking country, as defined by the UKBA, will be required to provide acceptable evidence of their English language proficiency.

For applicants from the EU, who do not require a Tier 4 Visa, the University may consider alternative English language proficiency evidence.

- Our normal IELTS requirement is 6.0 overall, with 5.5 in each skill.
- TOEFL (internet test) 87 (Reading 22; Listening 21; Speaking 23; Writing 21).

However, some programmes have different requirements. More information can be found on the following page: www.hull.ac.uk/ielts

For a full list of English language requirements recognised by the University of Hull visit the following webpage: www.hull.ac.uk/englishlanguagequalifications

Pre-sessional English

The Department of Modern Languages offers a range of courses designed to support students whose first language is not English. Further information is available (dates, fees, application form) on their website: www.hull.ac.uk/efl

English language provision

If English is not your first language, you may want to take advantage of our courses in English as a Foreign Language (EFL).

The EFL section in the Department of Modern Languages is dedicated to providing the kind of language support that students from any background and culture need and want. If your aim in coming to university in the UK is to gain a quality degree along with proficiency in the English Language, then you need look no further than the University of Hull.

Our staff have considerable experience and expertise in teaching English at university level in a wide variety of countries. There are opportunities to study both full-time and part-time degree programmes, and international students are welcome to study tailored English programmes.

University of Hull English Language Programme (UHELP)

This is a full-time English language preparation for students who wish to improve their level of English to the standard required by many UK Higher Education courses of study. It distinguishes itself from what many other institutions offer by being taught on campus within the Department of Modern Languages by University staff. It focuses on English for Academic Purposes as well as general language skills development, providing you with the skills you will need to listen to lectures, participate in seminars, give presentations, write academic essays and communicate effectively.

UHELP consists of three semesters running from September to September, but there are three different entry points. Depending on what score you require and your current level of English, you can join at one of the following entry points.

- You can join in September and stay for one, two or three semesters.
- You can join in January and stay for one or two semesters.
- You can join in June and stay for one semester.

If you need to achieve the equivalent of IELTS 6.0 by September then the following options are possible:

Your level now	When to start	How long is the course?
----------------	---------------	-------------------------

IELTS 4.5	September	September to September
IELTS 5.0	January	January to September
IELTS 5.5	June	June to September

Summer study programme

These courses cater mainly for students who are almost ready to start their studies but just need a little more work on their English. The courses run for four to eight weeks between July and September.

Online English Language course

This course is available for students who wish to work on improving their level of English online in their own country. It runs from September to June, and students will have to take a formal English language test, recognised by the UKBA, if they wish to apply for further academic study.

Foundation English Language programme

This course provides a foundation in English language for students who have met the academic entry requirements of their course of study but need to improve their language skills. It forms the first year of a four-year programme of study in subjects such as law, drama, computer science, history, music, politics and media. The language entry requirement for these courses is IELTS 5.0/5.5 or equivalent, but students who need a Tier 4 student visa to study in the UK must have IELTS 5.5 in all four language skills before entry.

English language provision within your programme of study

The Department of Modern Languages runs a number of modules in English language designed for international students to help them develop their language skills within their programme of study. These modules carry the same number of credits as other modules within their subject area. For example, students can choose English for Academic Purposes, English for Business, English for Law, British Society and Culture, English for Maths, Science and Technology and British Society and Culture.

For more information about any of these courses, please visit www.hull.ac.uk/efl

To contact the department, please email: languages@hull.ac.uk

Scholarships and bursaries

The University of Hull has a number of scholarships and bursaries on offer for international students (both overseas and EU). Detailed information about these can be found on our website: www.hull.ac.uk/international

Undergraduate courses

You can either:

1. apply directly to the University using the University of Hull online application form www.hull.ac.uk/international/ugapplication

or

2. apply via the UK's centralised admission service (UCAS): www.ucas.ac.uk

Postgraduate taught courses

You can either:

1. download and print the postgraduate application form and the reference form available online: www.hull.ac.uk/international/pgapplication and www.hull.ac.uk/student/pdf/Admissions-pgreform.pdf

or

2. apply online through the Prospects website: www.prospects.ac.uk

Exceptions

- MA in Social Work – apply online via UCAS: www.ucas.ac.uk
- Hull York Medical School – further information available at: www.hyms.ac.uk/postgraduate
- postgraduate research courses – you will need to submit a research proposal with your application. To understand what is required in your proposal, please refer to the guidance on our website: www.hull.ac.uk/preparingresearchproposal

To make a successful application

Admission tutors will judge your suitability on the strength of your application. Make sure that you take the time to complete the application in full and support it with

- a copy of your passport
- a copy of your academic qualifications including transcripts of grades
- a short personal statement expressing why you wish to study this particular subject and why you think you are suitable for the course
- evidence of your work experience (if applicable)
- a portfolio of your work (if you are applying for digital media, music or performance courses)
- provide a copy of your research proposal if you are applying for a research degree
- a copy of your funding letter if you are a sponsored student
- evidence of your level of English

All international applicants are advised to give sufficient time for processing their application to ensure that the visa and travel arrangements can be made in good time. Visa applicants are strongly advised to apply by 1 September for September entry (or at least two months before their intended start date to allow minimum time to complete the University and UKBA Tier 4 visa processes: (the Tier 4 process takes at least three to four weeks in most cases).

You can receive help with your application with one of the University's in-country partner offices. See www.hull.ac.uk/international/region for a list of local contacts.

International Office
University of Hull
Cottingham Road
Hull, HU6 7RX

Tel: +44 (0)1482 466 904
