a university for the **real** world[®]

Welcome

Whether your aim is to reposition your career or to begin a journey of research, choosing the right university for your study is crucial.

QUT's 'real world' focus means our programs and high impact research incorporate both theory and practical experience.

QUT has one of the fastest growing research profiles in Australia and, with our supporters, we have invested more than half a billion dollars in infrastructure in the past six years. Our latest development is an AUD\$230 million Science and Engineering Centre on the Gardens Point campus that will integrate the fields of Science, Technology, Engineering and Mathematics (STEM) in a world-leading model. This facility will feature stimulating learning, research and recreational spaces and enable on-site collaboration with cooperative research centres (CRCs), industry and corporates, and the global research community.

Emerging scholarship opportunities are also available for postgraduate and research students to study at QUT. In addition to QUT's own scholarship program, the Australian Government's Australian Development Scholarships, Australian Leadership Awards, and Endeavour Scholarships provide such opportunities and I encourage you to find out more about how these could work for you.

At QUT we are also committed to providing you with academic, career and personal support from arrival through to graduation.

With two major campuses in the heart of Brisbane city, QUT offers the ideal environment for your study.

We look forward to welcoming you soon to QUT and Brisbane.

A handwritten signature in black ink, appearing to read 'Peter Coaldrake'.

PROFESSOR PETER COALDRAKE AO
Vice-Chancellor, QUT

Awarded the top rating of five stars by *QS Stars Rated for Excellence*

Largest university career mentor scheme in Australia, including partnerships with hundreds of companies worldwide

Fastest growing research university in Australia

What QUT offers you

Two inner-city Brisbane campuses with free shuttle bus transport between the campuses

Real-world projects with real companies complement your academic studies

As part of your degree, study on exchange to one of our 150 partners in 35 countries

Quick reference guide

English language programs

- 21 Cambridge English
- 20 English for Academic Purposes (EAP)
- 20 English for tertiary preparation
- 20 General English
- 20 IELTS preparation

Pathway courses

- 21 Postgraduate pathways (Business or Information Technology)

Building and planning

- 34 Architecture
- 58 Built environment research
- 59 Infrastructure management
- 59 Urban development
- 34 Urban design

Business

- 25 Accounting
- 25 Applied finance
- 29 Economics
- 26 Marketing
- 26 Human resource management
- 26 Integrated Marketing Communication (IMC)
- 26 International business
- 25 Leadership
- 25 Management
- 25 MBA
- 27 Philanthropy and nonprofit studies
- 26 Public relations
- 25 Professional accounting
- 29 Research
- 26 Strategic advertising

Creative, design and performance

- 33 Animation
- 33 Creative production and arts management
- 33 Creative writing
- 32 Creative advertising
- 35 Creative Industries research
- 34 Dance
- 33 Interdisciplinary
- 33 Interactive and visual design
- 33 Journalism
- 33 Music and sound
- 33 Professional communication
- 35 Research

Education

- 38 Graduate Diploma in Education
- 38 Early years
- 38 Primary P-7
- 38 Senior Years
- 39 Research

Engineering

- 58 Electrical engineering
- 58 Engineering management
- 58 Mechanical engineering
- 59 Project management
- 59 Transport engineering
- 59 Sustainable energy
- 60 Engineering research

Health and community

- 45 Biotechnology
- 44 Health management
- 44 Health science
- 45 Medical physics
- 46 Nursing
- 46 Psychology
- 47 Public health

Career and employment service

QUT provides employment assistance and free advice on career planning, and is the only university in Australia with an International Career Counsellor who works exclusively with international students and employers.

- Career counselling
- Résumé and job application assistance
- Access to CareerHub containing job listings, presentations, workshops and job-seeking help
- International Work Placement Scheme (vacation internships in home countries)
- Access to Going Global www.goingglobal.com – with more than 35 000 country-specific career and employment resources

Ellen Gibson International Career Counsellor

As a career advisor I help international students in their career development and the job-seeking process in Australia and students' home countries. Staff in our team travel to many countries to set up employment networks with major companies so that students have exciting opportunities and are supported when they return home.

Real experience and mentoring

QUT can help build your expertise through work experience, internships and our Career Mentor Scheme, the largest of all Australian universities.

Linking with a mentor can prepare you for your career, increase your employment opportunities and help you develop a professional network.

Students who return home during the vacation period can also take advantage of the International Work Placement Scheme (IWPS) which runs throughout the university summer vacation, from mid November to mid February each year. Gain work experience with major international companies to get a head start in your career.

For more information visit www.careers.qut.edu.au

Hasitha Samaratunga

Bachelor of Business/Bachelor of Information Technology

QUT's Career Mentor Scheme gave me insight into the IT industry, a better understanding of what my employment options are, and how to approach them with confidence. I met with the QUT career counsellor to talk about my professional interests and was matched with Mr Nev Scheffe, a Program Director in the Queensland Government. We met once a week over a semester and talked about all the different specialisations within the industry and how I can identify my strengths in a particular area. One of the most important things I gained was a clear picture of what employers are looking for. I am now even more motivated in my academic work because I know what to focus on to give myself the edge in my career.

Whether you are beginning your research studies or continuing at a higher level, QUT offers a supportive research community and world-class facilities in which to undertake your research.

Strong links with a number of international organisations and research institutions are helping QUT to achieve significant public, commercial and practical benefit for the community and its partners.

Excellence in Research for Australia ratings

QUT performed exceptionally well in the Federal Government's Excellence in Research for Australia assessment framework with more than 70 per cent of our assessable research ranked world standard or above.

Top-performing research areas include:

- Communication and Media
- Physical Chemistry
- Nursing
- Information Systems
- Education
- Mathematics
- Public and Allied Health
- Applied Economics

Our strengths

- Applied Maths
- Autonomous and Intelligent Systems
- Cancer
- Chronic Disease, Supportive and Palliative Care
- Computation
- Creative Industries Theory, Policy and Analytics
- Crime and Justice
- Curriculum and Pedagogy
- Digital Media and Society
- Early Childhood Education
- Economics Research
- Entertainment and Cultural Studies
- Entrepreneurship and Innovation
- Environmental Health
- Environmental Monitoring
- Equity and Health
- Exercise, Nutrition and Metabolism
- Governance, Accountability and Regulation
- Groundwater
- Health Law
- Health Services
- Inclusive and Global Education
- Infectious Disease
- Information Security
- Information Systems
- Infrastructure Engineering and Planning
- Injury Prevention
- Innovation in the Performing and Digital Arts
- Intellectual Property: Knowledge Culture and the Environment
- Justice
- Mental Health and Wellbeing
- Musculoskeletal Disease
- Non-profit and Social Enterprise
- Organisation and Work
- Physical Chemistry
- Plant Sciences and Plant Biosecurity
- Post Compulsory Education
- Property, Environment and Commercial Law
- Sustainability and Innovation in Design
- Vision Improvement
- Wound and Tissue Restoration

Science and Engineering Centre

QUT is developing a new \$230 million Science and Engineering Centre on its Gardens Point campus which is due for completion in late 2012. The Centre will transform QUT's contribution to the needs of Australia's emerging green workforce and lead research into climate change and global sustainability.

Features of the Centre include:

- stimulating work spaces for high-impact research
- a multi-screen visualisation and simulation facility to interact with researchers, assist teaching and connect with the wider community
- exciting food and retail spaces
- a 50-metre swimming pool and 1000 square metre gymnasium.

Visit www.qut.edu.au/sci-eng-centre

Research partnerships

- QUT is a partner in the Australian Research Centre for Aerospace Automation (ARCAA) at Brisbane Airport, housing more than 35 aviation research scientists and support staff who are developing breakthrough technologies in collision avoidance, emergency landing and separation management.
- QUT's Medical Engineering Research Facility (MERF) at Brisbane's Prince Charles Hospital is used by researchers and surgeons to trial and hone critical surgical techniques
- QUT is partnering with three of Australia's largest research facilities to create the country's largest biopharmaceutical research institute, the \$354 million Translational Research Institute (TRI). It will allow biopharmaceuticals and treatments to be discovered, produced and clinically tested and manufactured in one location.
- Investment from the Queensland Government's Smart Futures scheme supports collaborative work in biofuels, prostate cancer, infectious diseases, and renewable energy.

Institutes and Centres

- Institute for Health and Biomedical Innovation
- Institute for Creative Industries and Innovation
- Institute for research in areas of science, technology, engineering and maths
- Australian Centre for Philanthropy and Nonprofit Studies
- National Centre for Econometric Research
- Microsoft eResearch Centre
- Centre for Accident Research and Road Safety—Queensland (CARRS-Q)
- Australian Centre for Entrepreneurship Research
- Centre for Subtropical Design
- Centre for Learning Innovation
- International Laboratory for Air Quality and Health
- Children and Youth Research Centre

Research support and facilities

QUT's Research Students Centre assists postgraduate researchers in all research matters.

Services include:

- help with research degree enrolment, candidature and thesis examination
- scholarship and grant advice and support to assist with tuition fees, living costs, conference and travel expenses, and publication write-up
- skill development programs including online and face to face activities such as: Teaching @ University; Maximising Your Career; Project Management
- online award courses – the Graduate Certificate in Research Commercialisation and Master of Research Management and Commercialisation
- access to group studio spaces and open offices for individual learning

For more information about research visit www.qut.edu.au/research

Gardens Point campus

QUT Gardens Point campus is located next to the Brisbane River and the Botanic Gardens in Brisbane's central business district.

Public transport, accommodation, shopping and dining options are all within walking distance.

The Gardens Point campus is also the site of a new \$230 million Science and Engineering Centre, creating a world-leading model for teaching and research in science, technology, engineering and mathematics. The development also includes food and retail spaces and a swimming pool and gym.

Old Government House, recognised as one of Queensland's most important heritage sites, is located at Gardens Point campus, along with a theatre and art museum. Pedestrian and cycle bridges link the campus to South Bank Parklands, Queensland Museum, the Performing Arts Complex, State Library of Queensland and the Gallery of Modern Art.

Facilities and services at Gardens Point include:

- library
- computer labs
- wireless internet zones
- a cafeteria and cafés
- the Student Guild bar
- student counselling
- health services

Study areas offered at Gardens Point are:

- business
- built environment and engineering
- information technology
- languages
- law and justice
- science and technology

A free shuttle bus for QUT students and staff connects Gardens Point and Kelvin Grove campuses.

Kelvin Grove campus

The Kelvin Grove campus is an award-winning urban development, located only two kilometres north of the Brisbane city centre.

The campus is part of the Kelvin Grove Urban Village, which includes student apartment complexes, a supermarket, shops and restaurants.

Kelvin Grove also features the innovative Creative Industries Precinct, the Institute of Health and Biomedical Innovation (IHBI) and the QUT International College.

Facilities and services include:

- library
- computer labs
- wireless internet zones
- a cafeteria, shopping and dining
- student counselling
- health services
- fitness and aquatic centre
- child care
- optometry, podiatry, and wound healing clinics.
- dance, drama, music and visual arts studios and theatres

Study areas offered at Kelvin Grove are:

- education
- English language
- health
- creative industries

Discover Brisbane and Australia

QUT is located in Brisbane, the capital of Queensland. Brisbane is renowned for its relaxed, outdoor lifestyle and offers a wide range of activities including sports, arts and entertainment, shopping, dining and great nightlife.

A gateway to Queensland

From Brisbane you can explore stunning national parks and the world-famous beaches of the Gold Coast and Sunshine Coast, which are only an hour away.

In Queensland you will find many famous Australian attractions – the Great Barrier Reef, Fraser Island, the beaches, Indigenous culture, amusement parks, dense tropical rainforests and the vast outback. Sydney and Melbourne are one hour and two hours away respectively by air.

Working while studying in Australia

The current student visa entitles students to limited working hours a week during semester and full-time during vacations.

You should not rely on part-time work to cover your expenses while studying. International Student Services can assist you with information and advice on finding part-time work. Visit www.student.qut.edu.au/international

Accommodation

Brisbane offers a wide range of accommodation options, including

- homestay with an Australian family
- shared living
- independent living
- limited on-campus accommodation.

Our campuses are close to major transport networks as well as business and leisure activities, and opportunities for potential part-time work. Find out more about living in Brisbane at www.student.qut.edu.au/international/accommodation-and-homestay

Cost of living

Brisbane is an affordable city but you still need to plan and budget carefully to make sure you have enough money for your living expenses.

You will typically need approximately \$18000 a year (not including your tuition fees) to pay for accommodation, food, study materials, transport, entertainment and personal expenses.

Establishment costs for your first week		Ongoing weekly expenses	
Temporary accommodation	\$1700 to \$2000	Rent	\$350 to \$400
Bond and rent for permanent accommodation		Food	
Connection to telephone, electricity and gas, internet plan		Transport	
Basic furniture and homewares		Electricity, internet and telephone bills	
Food and transport		Photocopying and stationery	
		Entertainment	

All prices are to be used as a guide only and are accurate as at March 2012

For more information on living costs, visit www.student.qut.edu.au/studying/student-life/life-in-brisbane/cost-of-living

For information regarding school fees for dependant children, visit www.eqi.com.au/programs/dependant-student.html

Student support

At QUT we provide services that will support you in every aspect of your life as a university student.

Pre-departure briefings

QUT holds pre-departure briefings in many cities. These are a great opportunity for you and your parents to meet a current QUT student from your home country and learn more about living in Brisbane and studying at QUT. Details of pre-departure briefings are available before each semester starts. Visit www.student.qut.edu.au/international/getting-started

Free airport reception service

We offer a free airport reception service for new students, making it easy to get from the airport to your accommodation. Book this online at www.student.qut.edu.au/services-and-facilities/all-services/airport-reception

Accommodation service

QUT's accommodation service helps you to arrange temporary accommodation before you arrive, and permanent accommodation that suits your needs. Our staff can:

- help choose the best type of accommodation and location for you
- assist with renting information and forms
- put you in touch with other students looking for similar accommodation

Visit www.qut.edu.au/accommodation

Orientation

Orientation is the formal start of the academic year at QUT and it is compulsory to attend. Orientation will help you find your way around campus, organise your study and meet fellow students. You can also take part in the fun stuff like barbecues, concerts and competitions. Find out more and plan your program online at www.qut.edu.au/orientation

Language and learning

QUT language and learning advisors can help you to improve your English and develop your study skills, including:

- assignment help
- study tips
- learning skills
- language development workshops
- writing advice.

You can set up an individual appointment with an advisor, or attend one of the regular, free workshops on topics including academic writing, communication skills and time management. Visit www.student.qut.edu.au/studying/learning-support

Student clubs

Meet students by joining one of QUT's student clubs.

There are more than 50 to choose from, including:

- sporting – soccer, rock-climbing, sailing
- international
- political
- debating
- cultural and religious

The East West program also offers fun activities, including:

- weekend trips
- cultural celebrations
- weekly café lunches
- soccer matches
- language exchange program
- buddy schemes for academic and social support.

There is a club for everyone, or you can always start your own. See www.guildonline.net

Counselling

A free, professional counselling service is available to help you deal with personal issues such as stress, relationships and financial matters. They also provide advice and information about courses, careers and university procedures. You can talk to us in person, on the phone, or by email.

Sometimes they may offer group sessions if there are issues that many students are struggling with. All sessions with us are private and confidential.

Religious facilities and support

QUT provides many avenues for contact with religious groups, on and off campus.

A multi-faith centre is located at Gardens Point campus and all religious groups are welcome to use the 'Drop in room' or Chaplaincy meeting room. Muslim prayer rooms are located at both campuses and Jummaa, or community prayers, are held each Friday at Kelvin Grove.

Contacts for Bahai, Buddhist, Christian, Catholic, Jewish, Latter Day Saints and Muslim groups on campus are also available from the Chaplaincy centre.

Family support

QUT provides help to students with families here in Brisbane, including:

- the preparation for bringing your spouse and children to Australia
- advice on and referral to schools and government departments, including details of dependant children school fees
- assisting you to find suitable child care
- putting you in touch with other parents through the International Women's Group.

Security

QUT has 24-hour security on both campuses, ensuring a safe and secure study environment. This includes night security escort services to car parks and nearby public transport.

For more information about any student support services, visit www.student.qut.edu.au/international

Facilities

Facilities vary on each campus and include:

- Cafés
- Childcare centre (Kelvin Grove)
- Student centres
- Counselling and health services
- 24-hour computing laboratories
- Libraries
- Cafeterias
- Bookshops
- Automatic teller machines (ATM)
- Campus shop
- Licensed Student Guild bars
- Fitness centres and sporting facilities
- Prayer rooms/chapel

Library

QUT has a library on each campus, plus a specialist law library at Gardens Point. During semester the libraries are open seven days a week.

Each library has space designated for individual or group study. Copying and printing services are also available. All libraries have wireless laptop access.

Library staff can help you to find useful resources by phone, email, online chat and in person, through our Ask-a-librarian service. Visit www.library.qut.edu.au/help

Study areas

Whether you are looking for a quiet area to focus or a dynamic space for group work, QUT has many different study spaces on both campuses.

- student lounges with big-screen computers
- meeting rooms with couches
- outdoor areas with tables

Most areas are freely available or can be reserved in advance.

Student centres

Student centres are located on both campuses and can help with:

- timetables
- ID cards
- fee payments
- enrolment assistance, and
- other administrative services

The centres have computing facilities to check timetables and personal details, and a range of University publications and guides.

Health services

Health and medical services are available on the Kelvin Grove and Gardens Point campuses. A number of University clinics are also open to the public and QUT community:

- Family Therapy and Counselling Clinic
- Optometry Clinic
- Podiatry Clinic
- Psychology Clinic.

There are also human movement and exercise clinics, as well as nutrition, dietetics and wound healing clinics. Visit www.qut.edu.au/about/services-and-facilities

Sporting and recreational facilities

As a student at QUT you can benefit from sporting facilities including:

- tennis
- fitness centres
- an indoor stadium
- athletics ovals
- indoor swimming pool (Kelvin Grove campus)

The new Science and Engineering Centre at the Gardens Point campus, opening late 2012, will also feature a 50m swimming pool, 1000 square metre gymnasium and diverse food and retail spaces.

IELTS Test Centre

The QUT IELTS Test Centre is located at the QUT International College (QUTIC) at the Kelvin Grove campus. The Centre offers both General Training and Academic modules and is open to internal QUT students, as well as candidates external to the University. Visit www.qut.edu.au/qutic

Technology

Online teaching and learning

As a QUT student you will have access to:

- Free email and Internet
- Extensive wireless access
- 24-hour computer labs
- Real-time library assistance
- Free iPhone app

All student online services are available through QUT Virtual, including enrolment, class selection, exam information and fee payment services. As well as face-to-face teaching, QUT provides electronic access to unit outlines, the library database, interactive quizzes, lecture recordings and podcasts.

QUTube

QUT has its own YouTube Channel, QUTube. It features more than 400 videos, including virtual campus tours, student testimonials, QUT News television reports and research stories. Visit www.youtube.com/TheQUTube

Scan with a QR reader on your mobile phone.

Study Abroad and Exchange

Set yourself apart with global experience and make new friends from around the world as a Study Abroad or Exchange student at QUT.

Students at QUT's partner institutions may be eligible to come to Brisbane to study for one or two semesters on an Exchange program. Students from other universities are welcome to study at QUT in a Study Abroad program.

We have a dedicated Study Abroad and Exchange team who can help design a program to suit your interests and meet the requirements of your home university. The team will help you with your application and welcome you on campus.

You can select units from a wide range of QUT study areas including business, information technology, engineering, psychology, and performing arts. There may also be an opportunity to include research in your Study Abroad program.

QUT Study Abroad and Exchange students will receive an official QUT award on successful completion of their Study Abroad or Exchange program – a Study Abroad Certificate (four subjects in one semester) or Study Abroad Diploma (eight subjects in two semesters).

For more information visit: www.qut.edu.au/international/study-abroad-and-exchange

Exchange as part of your QUT degree

Students taking degree programs at QUT can also undertake an exchange as part of their study program. We have more than 150 partners in 35 countries across Asia, Europe, the Americas and Africa. A number of travel bursaries and scholarships are also available to assist you.

For more information visit: www.student.qut.edu.au/studying/student-exchange

Magnus Larsen Norway Study Abroad student from NTNU

The island dreaming orientation camp was the best possible way to start my time with QUT. I made lots of good friends and the atmosphere at the beach was so relaxing and enjoyable. We had so much fun trying out all the activities – I especially enjoyed the kayak surfing!

Scholarships

A range of scholarships are available from QUT and other organisations to make your study more affordable.

Alumni scholarship

We value our QUT alumni, so if you choose to enrol in another tertiary degree course at QUT, you may be eligible for a 20 per cent reduction in your first semester's tuition fees. To apply, simply indicate on your application form that you wish to be considered. This scholarship is not available to alumni who apply via an agent.

Faculty scholarships

QUT's faculties and centres offer a range of different scholarships to complete postgraduate study, including the International Postgraduate Research Award (IPRA), as well as other living allowance scholarships and tuition fee waivers which are awarded annually in a major scholarship round.

Australian Government scholarships

The Australian Government provides postgraduate and coursework research scholarships to students from nominated countries under the Australia Awards program:

- Australian Development Scholarships (ADS)
- Australian Leadership Awards (ALA)
- Endeavour Scholarships
- Prime Ministers Pacific Asia Awards (PMPA).

The Awards are comprised of two streams: an achievement stream that targets the best and brightest students, researchers and professionals to come to Australia and for Australians to do the same offshore; and a development stream that builds capacity in developing countries.

For more information visit www.australiaawards.gov.au

China Scholarship Council Award

QUT and the China Scholarship Council (CSC) jointly award postgraduate scholarships to high-achieving Chinese students who intend to undertake a postgraduate research degree at QUT. See www.qut.edu.au/research

John Fox

Bachelor of Medical Engineering

Recipient of the Prime Minister's Australia Asia Award

During my study I have been based at the Prince Charles Hospital in Brisbane where I've worked in the area of artificial heart development.

I believe this is one of today's most significant areas of medical engineering research and development.

This scholarship allows me to spend a semester at Hong Kong Polytechnic before working at a range of medical engineering companies where I see first-hand involvement with cutting-edge industry innovations.

It will be enormously beneficial to study internationally and form relationships with various Asian research groups. I'll have the opportunity to learn new strategies and techniques and look forward to bringing that knowledge back to Queensland.

QUT International College

MAJED ALASLANI Saudi Arabia

General English and EAP Plus graduate

Master of Mathematical Science

One of the reasons I chose to study at QUT was because of the University's central location. The excellent services and facilities of the International College including the 24-hour computer labs, the dedicated welfare and the language and learning advisors helped me achieve great results in my Master of Mathematical Science.

The staff and lecturers at QUT provided a supportive study environment and the University's Muslim prayer facilities helped me to adjust to life in Brisbane.

Why choose QUT International College?

QUT International College (QUTIC) is an integral part of the University and offers English language and academic pathway programs.

The College provides a supportive introduction to life on campus, helping you settle in to university and meet new people. It is located on the QUT Kelvin Grove campus, two kilometres from the Brisbane city centre.

International College students can access facilities across all QUT campuses including bookshops, libraries, computer rooms, sporting fields, gymnasiums, swimming pools and health and medical services. If you are preparing for degree study, you will have the opportunity to visit the relevant QUT faculty, and will also use the same online systems for study as in the degree program.

Class environment

The College offers small class sizes for greater interaction with our staff, in a friendly environment. Our teaching and administrative staff are highly qualified and have extensive experience in teaching and assisting international students.

Our excellent programs, facilities and support services contribute to the high rate of our students progressing to their preferred QUT degrees.

Language, learning and counselling support

Students in our university entry programs have access to Language and Learning Advisors through individual and group sessions, to help improve their language and academic skills. The College Welfare Advisors also provide counselling support to all students.

Facilities

- Six computer labs (two open 24 hours a day)
- Language laboratory
- Independent Learning Centre
- Multimedia enabled lecture theatres
- Dining room and common lounge

Orientation

We offer all International College students an orientation to both the College and the University. Staff can assist with everything from course enrolment to adjustment to life and study in Brisbane.

QUT IELTS Test Centre

The QUT IELTS Test Centre provides the opportunity for current QUT students as well as students external to the University, to sit an IELTS test on campus. Located at the College, the Test Centre offers both General Training and Academic modules.

Further information is available at www.qut.edu.au/qutic/ielts

www.qut.edu.au/qutic

Course information

General English (ELICOS) Courses (QC20)

CRICOS code: 060277K

Campus: Kelvin Grove

Fee: \$1,875 (per five weeks)

Dates of entry: Approximately every five weeks

Duration: Five weeks full-time, 25 hours per week

The course code for General English is determined by the number of weeks studied. Students must study a minimum of five weeks.

Course code	Number of weeks
QE05	5 weeks
QE10	10 weeks
QE15	15 weeks
QE20	20 weeks
QE25	25 weeks
QE30	30 weeks
QE35	35 weeks
QE40	40 weeks
QE45	45 weeks

Description:

This course will develop your core skills of reading, writing, speaking and listening and increase fluency and accuracy. It is suitable for all levels of English and will prepare you to take further QUTIC language programs including English for Academic Purposes (EAP) and EAP Plus.

This course does not have any specific academic or English language entry requirements.

Program structure:

- Integrated skills of speaking, listening, reading and writing
- Grammar in context
- Vocabulary development
- Independent Learning Centre program
- Computing skills development
- Regular tests and individual counselling
- Language laboratory
- Field trips
- Cultural studies
- Social and recreational activities

English for Academic Purposes (EAP) (QC10)

CRICOS code: 011424G

Campus: Kelvin Grove

Fee: \$4,500

Months of entry: February, June and October

Duration: 12 weeks full-time, 25 hours per week

Description:

EAP aims to improve your English language proficiency to meet the language entry requirements for QUT postgraduate programs. Successful completion of EAP with the required score as well as meeting all other entry requirements allows you to progress to your chosen QUT postgraduate program (that has an IELTS entry requirement of up to 6.5).

This course does not have any specific academic entry requirements.

English language entry requirements:

Successful completion of the EAP entry test with the required score; or an IELTS 5.5 with reading and writing sub-scores of at least 5.5 and no other sub-scores below 5.0, or approved equivalent (for students preparing for a degree program with an IELTS entry of up to 6.5).

Program structure:

- Academic reading and note-making
- Academic writing
- Listening and note-taking from lectures
- Speaking in academic settings
- Seminars and presentations
- Academic study skills
- Computer word processing
- Internet research skills
- Library research

For EAP entry test information see www.qut.edu.au/qutic

EAP Plus (QC24)

CRICOS code: 064814K

Campus: Kelvin Grove

Fee: \$9,000

Dates of entry: March, July, November

Duration: 24 weeks full-time, 25 hours per week

Description

This program will provide you with the opportunity to learn the skills to study in an Australian academic setting and develop your English language proficiency further.

During the first 12 weeks, students will have more in-depth academic English instruction. The second 12 weeks further develops students' independent study skills.

This course does not have any specific academic entry requirements.

English language entry requirements:

Successful completion of the EAP entry test with the required score; or an IELTS score of at least 5.0 (with reading

and writing sub-scores of at least 5.0); or approved equivalent (for students preparing for a degree program with an IELTS entry of up to 6.5).

Program structure:

- Academic reading and note-making
- Academic writing
- Listening and note-taking from lectures
- Speaking in academic settings
- Seminars and presentations
- Academic study skills
- Computer word processing
- Internet research skills
- Library research

For EAP entry test information see www.qut.edu.au/qutic

IELTS Advanced (QC15)

CRICOS code: 073922J

Campus: Kelvin Grove

Fee: \$5,625 (includes one IELTS test)

Semester of Entry: February, June, October

Duration: 15 weeks full-time, 25 hours per week

Description:

This program is designed to prepare candidates who have already achieved IELTS 6.5 (with no sub-scores less than 6.0) or approved equivalent, for the IELTS Test, Academic Module. It is offered to those seeking to achieve a score of IELTS 7.0 or higher. This is a test preparation program and students must take an official IELTS test and achieve the required score to enter their chosen program.

IELTS Advanced may be packaged with QUT degree programs that do not have quota restrictions.

Academic entry requirements:

No specific requirements

English language entry requirements

IELTS score of at least 6.5 (with no sub-scores less than 6.0) or successful completion of the QUT International College EAP Direct Entry program or EAP Plus program with a score of 65% or higher; or approved equivalent.

Program structure:

The IELTS Advanced program has formative assessment and includes:

- Reading, writing, listening and speaking skills
- Examination skills
- Seminars and presentations
- Academic study skills
- Computing and internet skills and library research

Cambridge First Certificate in English Preparation course (QC25)

CRICOS code: 053950D

Campus: Kelvin Grove

Fee: \$4,500

Months of entry: March and September

Duration: 12 weeks full-time, 25 hours per week

Description:

This course will prepare you to take the Cambridge First Certificate in English examination.

This course does not have any specific academic entry requirements.

English language entry requirements:

IELTS 5.0 or approved equivalent, or successful completion of Intermediate level in the QUT International College General English program. Students must also successfully complete the QUT International College placement test.

Program structure:

- Use of English
- Writing review and assignment
- Writing workshop
- Speaking and listening
- Literature study
- Examination skills and strategies

University Certificate in Tertiary Preparation (QC05)

CRICOS code: 065044F

Campus: Kelvin Grove

Fee: \$7,873 per semester

Semester of entry: February, July and October

Duration: One semester full-time

Description

The University Certificate in Tertiary Preparation provides a pathway into a range of QUT postgraduate programs that have an IELTS entry requirement of up to 6.5. You will study two Communication units, one Computing unit, and one (stream A) or two (stream B) faculty units. Successful completion of the faculty units will count as credit towards your chosen QUT degree program.

English language entry requirements:

Stream A: IELTS 6.0 with sub-scores of at least 5.0, or approved equivalent, or successful completion of the QUT International College English for Academic Purposes (EAP) or EAP Plus program with the required score. Stream B: IELTS 6.5 or approved equivalent, or successful completion of the QUT International College EAP or EAP Plus program with the required score.

Program structure:

Stream A semester 1

- Communication 1
- Communication 2
- Computing
- Faculty unit

Stream B semester 1

- Communication 1
- Communication 2
- Computing (optional)
- One or two faculty units

* Students commencing in summer semester (October entry), should note that the range of faculty units available are very limited. Not all disciplines offer summer units. Therefore students will be required to study academic units from the range of disciplines available in order to complete the degree in the minimum time.

* Students who wish to gain entry into QUT degree programs that require an IELTS 7.0 or higher will be required to provide an IELTS result (or equivalent) at this level.

Postgraduate Business Pathway

CRICOS code: As per chosen QUT postgraduate Business program

Campus: Kelvin Grove and Gardens Point

Fee: As per chosen QUT postgraduate Business program

Semester of entry: February and July

Duration: One semester full-time

Description

This is a pathway to a range of QUT Business postgraduate programs for students who do not meet the English language entry requirements. You will undertake units from the Masters program concurrently with Communication studies at QUTIC.

Students must successfully complete Communication 1 and 2 before progressing to the next stage of their Masters program. Successful completion of the two communication units will count as electives within the following Masters courses:

postgraduate Information Technology program

Campus: Kelvin Grove and Gardens Point

Fee: As per chosen QUT postgraduate Information Technology program

Semester of entry: February and July

Duration: One semester full-time

Some majors within the Master of IT programs commence in February only. Students should ensure that they are able to complete their chosen major within the minimum duration of the Masters program.

Description

This program provides a pathway to a range of QUT Information Technology (IT) postgraduate programs for students who do not meet the English language entry requirements. You will undertake units from the Masters program concurrently with Communication studies at QUTIC.

Students must successfully complete Communication 1 and 2 before progressing to the next stage of their Masters program. Successful completion of the two communication units will count as electives within the following Masters courses:

Master of Information Technology

Master of Information Technology (Advanced)

Master of Business Process Management

Academic entry requirements:

Students must meet the academic entry requirements of their chosen QUT postgraduate Information Technology program.

English language entry requirements:

IELTS 6.0 with sub-scores of at least 5.0, or approved equivalent, or successful completion of QUT International College English for Academic Purposes (EAP) or EAP Plus program with the required score.

Program structure:

Semester 1

- Communication 1
- Communication 2

PLUS

- two units from a relevant postgraduate Information Technology program.

Business

HANNE AASEN Norway

Master of Business Advanced graduate

Studying an Advanced Masters Degree allowed me to specialise solely in my key interest, marketing. The subjects were both creative and practical, and really opened my eyes to new ways of thinking. The skills I developed helped me land a job as a Brand Manager at the largest consumer goods company in Norway. Every day I use the knowledge I acquired at QUT to construct marketing strategies and plans for my brands. The help and follow up from my professors was beyond what I could have expected, and far better than other universities I have attended. Being innovative is a big part of marketing, and the real cases we studied helped me to develop analytical and creative skills that will keep me ahead in the competitive marketing industry.

Why choose Business at QUT?

Australia's first **business school** with triple international accreditation

- Our triple international accreditation, held by less than one per cent of business schools worldwide provides real evidence that our programs are comparable with the best in the world.
- Our global reputation is built on a commitment to internationalisation, and the practical opportunities available during and after your study mean your degree will be recognised worldwide.
- We partner with over 60 of the best universities around the world providing opportunities to undertake student exchange programs, participate in business case competitions or do an international double degree.
- You can gain professional recognition by choosing appropriate units within your coursework majors.

Research strengths

Join a community of internationally recognised business researchers who will help you develop your skills and set you on a path to your research career.

- QUT was awarded above world standard ratings in the areas of Business and Management, and Applied Economics in the 2010 Excellence in Research for Australia (ERA) initiatives.
- 88 per cent of QUT Business School publications are in international journals.

Find out more about our research at www.qut.edu.au/research

Study Areas

Accounting
 Applied finance
 Marketing
 Integrated Marketing Communication (IMC)
 Strategic Advertising
 Public Relations
 International Business
 Human Resource Management
 Philanthropy and Nonprofit Studies

Enhancing your student experience

- Student clubs and groups provide opportunities for you to socialise, network and participate in activities with fellow students.
- Language Learning Advisors and Student Learning Advisors provide advice and support to help you succeed in your study.
- Join the award-winning Business Advantage Program and enrich your studies by participating in a series of free professional development modules.
- Receive personalised assistance with admission, enrolment and administrative enquiries through our dedicated International Office.

Recognition of prior studies

If you have studied at a tertiary level, you may receive exemption for up to one semester of study in a coursework masters program, based on your undergraduate degree. You may also apply for advanced standing based on other postgraduate qualifications.

If eligible, advanced standing may shorten the length of your studies at QUT.

Master of Business Administration (GS75)

CRICOS code: 045502F

Indicative fee: \$18,700 per semester

Campus: Gardens Point

Semester of entry: March

Duration: 3 semesters full-time

Description:

This program will teach you to transform your thinking and challenge ideas to effectively manage situations in a complex business world.

- Critically analyse and develop solutions for real-world scenarios.
- Learn how to apply concepts and management techniques that will be useful in becoming an effective leader and manager.

MBA program structure:

The QUT MBA has an extensive foundation curriculum of 16 core units, supported by a choice of elective specialisations, so you will cover a wider variety of course content.

Subjects include:

- Leadership
- Entrepreneurship and Innovation
- Strategy

You will receive a customised study plan to suit your individual career and learning goals. Each MBA unit is delivered in seven-week modules (six weeks teaching with final assessment in week seven).

Master of Business (BS16)

CRICOS code: 059599K

Indicative fee: \$12,300 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 3 semesters full-time

Pathway: Available for the following majors: Applied Finance, Integrated Marketing Communication, International Business, Marketing, Public Relations, and Strategic Advertising.

Description:

This course will teach you specialist knowledge in the business discipline of your choice and extend your critical understanding which can boost your international business career. Build on knowledge from previous studies or change career direction into a range of business professions, even if you have not studied business before.

The Master of Business programs are available in 10 different disciplinary fields:

- Accounting
- Applied Finance
- Human Resource Management
- Integrated Marketing Communication
- International Business
- Marketing
- Philanthropy and Nonprofit Studies
- Professional Accounting
- Public Relations
- Strategic Advertising

Program structure:

Each discipline area consists of 12 units of study of both core and elective units. If you are new to the discipline, there are four units of introductory units which develop an appropriate level of foundation knowledge. Alternatively, if you have an appropriate undergraduate degree you may be entitled to receive exemptions from the introductory units. The remaining component (eight units) of the major enables the development of detailed discipline knowledge and can be completed in two semesters of study.

Master of Business (Advanced) (BS17)

CRICOS code: 059600M

Indicative fee: \$12,300 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 4 semesters full-time

Pathway: Available for the following majors: Applied Finance, Integrated Marketing Communication, International Business, Marketing, Public Relations, and Strategic Advertising.

Description:

The Master of Business (Advanced) gives you the opportunity to extend your studies, including options of:

- a research dissertation which may provide a pathway to doctoral-level studies
- further coursework studies in your chosen major, or
- study in another business discipline.

BUSINESS MAJORS:

Accounting

This course will extend your real-world accountancy knowledge and prepare you for a range of roles such as those in the emerging areas of wealth management and financial forensics, business intelligence and investigation, and business analysis.

- Study contemporary business issues, such as the impact of international differences in accounting policies and practices.
- This program is ideal if you have an accountancy degree and want to extend your knowledge and skills to advance your career.

Careers:

- Account executive business analyst
- Certified practising accountant/chartered accountant
- Chief financial officer
- Financial planner and wealth management consultant
- Forensic accountant

Professional recognition:

Certain units may assist with preparation for professional programs offered by CPA Australia, the Institute of Chartered Accountants in Australia (ICAA), Institute of Public Accountants (IPA) and the Chartered Financial Analysts program (CFA) as part of their respective membership requirements.

Professional accounting

A major in professional accounting provides you with a formal accounting qualification and is specifically designed for graduates from non accounting disciplines. This course will develop your core competency in accounting and business practices while refining your problem-solving skills, and analytical thinking.

Accountancy is a platform for a career that will provide the opportunity to work in a range of areas worldwide including banks, charitable organisations, media or your own business.

Careers:

- Certified practising accountant/chartered accountant
- Chief financial officer
- Financial advisor
- Investment manager

Professional recognition:

Upon graduating you will meet the core academic component of the admissions requirements for CPA Australia, the Institute of Chartered Accountants in Australia (ICAA), Institute of Public Accountants (IPA) and enrolment in their respective professional programs. Graduates are also eligible for exemptions in the qualifying program for membership of the Association of Chartered Certified Accountants (ACCA).

Applied Finance

This program provides a pathway into areas of finance if you wish to change career direction or to extend your existing knowledge. You will be introduced to areas including managerial finance, economics concepts, corporate finance, security analysis, portfolio management, and trading and risk management.

- Access a fully equipped Securities Dealing Room on campus, the first of its kind in Queensland
- Use the Bloomberg network to access financial data of the world's financial institutions, and apply the theory you learn to conduct real-world financial analysis.

Careers:

- Banking and finance professional
- Business analyst
- Investment manager
- Risk manager
- Stockbroker

Professional recognition

Graduates will meet the academic component of requirements for Senior Associate membership of the Financial Services Institute of Australasia, and are entitled to full ASIC RG146 Tier 1 accreditation to provide financial product advice in Australia. You may also meet the academic component of the requirements for the professional level membership of the Finance and Treasury Association Limited – Certified Finance and Treasury Professional, depending on prior study and electives chosen.

Marketing

This major focuses on the key marketing management knowledge and skills that you will need to move into more strategic marketing roles or commence your marketing career.

- Study relevant cases and contemporary issues in international marketing and branding important for strategic marketers in all types of organisations.
- Develop planning and research skills to implement and monitor marketing strategies, tactics and plans designed to achieve specific business goals.

Careers:

- Consumer behaviour analyst
- Marketing and brand manager
- Market research manager.

Professional recognition

You will meet the requirements for membership of the Australian Marketing Institute (AMI), the Market Research Society of Australia (MRSA), the Australian Institute of Management (AIM) and the American Marketing Association (AMA). This course is accredited with the Chartered Institute of Marketing (CIM) in the United Kingdom.

Integrated Marketing Communication (IMC)

The IMC program strategically integrates the functions of public relations, advertising, sales promotion, direct marketing and personal selling.

- Learn how to enhance brand equity through maximising the impact of marketing strategies and promotional communication with target audiences.
- Develop relevant skills and knowledge to plan, research and implement IMC programs for real business outcomes.

Careers:

- Account executive
- Advertising/communication manager
- Brand manager
- Events manager
- Market research manager

Professional recognition:

You will meet the requirements for membership of the Australian Marketing Institute (AMI), the Market Research Society of Australia (MRSA), the Australian Institute of Management (AIM) and the American Marketing Association (AMA).

Strategic Advertising

Explore all parts of the global advertising function from understanding consumer behaviour through to developing creative and media strategies for advertising campaigns and managing advertising for an organisation.

- Combine research and strategy to develop extraordinary concepts that attract your target audience.
- Develop new knowledge and skills to advance or commence your career in advertising.

Careers:

- Advertising manager
- Advertising strategist
- Copywriter
- Publishing professional
- Research assistant

Professional recognition:

You may meet the requirements for membership of the Account Planning Group Australia (APG Australia) and the Australasian Writers and Art Directors Association (AWARD).

Public Relations

This program covers the breadth of contemporary public relations practice, showing why and how it operates in specialised areas such as community engagement, employee relations, marketing public relations, investor relations and issues and crisis management.

- Explore problems and opportunities in engaging and communicating with multiple stakeholders and how mass media and social media influence practice.
- Learn how to plan, manage and evaluate public relations campaigns that deliver value for all types of organisations.

Careers:

- Communications advisor
- Community relations officer
- Corporate relations executive
- Media and communications officer
- Publicist
- Public relations consultant

Professional recognition:

This course is accredited by the industry's peak professional body, the Public Relations Institute of Australia (PRIA), which provides access to professional education and career opportunities. Graduates of accredited courses are eligible for entry to professional levels of membership of the Institute. QUT maintains strong links with this body and a number of our teaching staff hold executive positions.

International Business

With this course you will develop business knowledge and skills to help all types of companies compete successfully in the international marketplace.

- Learn planning, decision-making and strategic management skills to guide organisations through the complexity of the international business environment.
- Explore how regulations, government policy, economic conditions and the diversity of cultures and consumer needs and preferences impact how companies do business across borders.

Careers:

- Business analyst
- International business specialist
- International markets professional

Professional recognition:

You may be eligible for membership of the Australian Institute of Export (AIE), the Logistics Association of Australia and the Chartered Institute of Purchasing depending on the units chosen.

Human Resource Management

The Human Resource Management program provides participants with the personal and professional knowledge and capabilities they need to strategically and operationally manage contemporary workforces.

- Opportunity to investigate various contemporary workforce challenges including the influence of new technologies, changing economic conditions, increasing workforce diversity, employee engagement and work-life balance, challenges which are contributing to important shifts in the nature of work and management in contemporary organisations.
- Complete a capstone project that allows consolidation of learning through application to your own workplace or other organisations.

Careers:

- Corporate services manager
- Human resource development specialists
- Human resources manager
- Management and executive coaching
- Organisational change and development specialist

Professional recognition:

This course is accredited with the Australian Human Resources Institute (AHRI).

Philanthropy and Nonprofit Studies

This course covers marketing, fundraising, social innovation, management, governance, financial decision making and accounting, all from the point of view of the philanthropic and nonprofit sector.

- Develop critical skills, such as problem solving, creative thinking, negotiation, ethical practices, teamwork, leadership, networking and information management.

- Study ethics, fundraising development principles, legal issues and social innovation for the nonprofit sector.

Careers:

- Advancement manager
- Government officer
- Senior management of nonprofit organisation.

Master of Business/Master of Business Administration (BS24)

CRICOS code: 069779A

Indicative fee: \$15,500 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 4 semesters full-time

Description:

This double degree will provide you with a higher level of strategic thinking and leadership skills preparing you for continued career advancement.

- Acquire specific knowledge and applied skills in a specialist business discipline of your choice.
- Combine this with the general management knowledge and skills of an MBA to develop your abilities relating to the full breadth of a business organisation operating in a complex world.

Majors in the Master of Business/Master of Business program provide professional recognition and membership opportunities for many professional bodies. To find out more visit www.qut.edu.au/business/courses

INTERNATIONAL DOUBLE MASTERS

Graduate with two masters degrees from triple internationally accredited institutions in the same time it would normally take you to get one.

Using exchange study, you complete part of your degree at one of two leading institutions in Europe – EDHEC Business School in France and Maastricht University School of Business and Economics in the Netherlands.

Through cross-crediting of your course content, you are able to obtain the full degrees from both institutions.

Duration: 4 semesters*

Structure: 2 semesters at QUT
2 semesters* at EDHEC studying one of the following majors:

- Marketing Management
- Entrepreneurship
- Arts, NGOs and Philanthropy
- Strategy and Organization Consultancy
- Legal and Taxation.

Eligibility:

Available to Master of Business students studying in any business major.

Graduate with:

QUT Master of Business–Advanced and EDHEC Master of Science.

* Can be reduced by one semester if you undertake a Marketing major at QUT and Marketing Management at EDHEC. You will be awarded the QUT Master of Business.

Maastricht University

Duration: 3 semesters*

Structure: 2 semesters of study at QUT*
1 semester of study at Maastricht University

Eligibility:

Available to Master of Business students studying Marketing or Integrated Marketing Communication.

Graduate with:

QUT Master of Business (Marketing or IMC) and the Maastricht University Master of Science in International Business (Strategic Marketing)

* Can be reduced by one semester if your undergraduate degree is in Marketing.

Want more information?

These programs require a special application process in addition to the normal QUT application. For further information on entry requirements, course structures, and application process, contact the QUT Business School International Office at international_enq.bus@qut.edu.au

MORE POSTGRADUATE COURSEWORK OPTIONS

Graduate Diploma in Business (Professional Accounting) (BS79)

CRICOS code: 069962B

Indicative fee: \$12,300 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 2 semesters full-time

Description:

This program, designed for graduates from non accounting disciplines, will provide you with a foundation in accounting studies and ensure you meet the core

curriculum component of the academic requirements for membership of CPA Australia or the Institute of Chartered Accountants in Australia (ICAA).

- Accounting is central to every business activity and combining an accounting qualification with an existing degree in another discipline opens up a broad spectrum of career opportunities in Australia and internationally.
- Opportunity to progress to the Master of Business (Professional Accounting).

Program structure:

Students complete six core units (72 credit points), plus a further two elective units (24 credit points) from a prescribed list.

Careers:

Program structure will vary dependent on the specific discipline you choose to follow.

The Graduate Diploma program can be undertaken in many areas, including:

- Accountancy
- Advertising
- Economics
- Finance
- Human Resource Management
- International Business
- Management
- Marketing
- Philanthropy and Nonprofit Studies
- Public Relations

Applicants are required to have contact with a supervisor and find a topic prior to submitting a formal application.

Master of Business (Research) (BS92)

CRICOS code: 054092M

Indicative fee: \$13,100 per semester

Campus: Gardens Point

Semester of entry: At any time

Duration: 3 semesters full-time

Description:

The Master of Business (Research) will train you in research methodology techniques and critical evaluation appropriate to your field of study, under academic supervision.

- Conduct independent research and undertake advanced coursework that will integrate theoretical and practical Issues
- Pursue advanced studies that may provide an entry into a PhD program

Program structure:

The Master of Business (Research) typically involves one semester (six months) of coursework in research skill development followed by a 12-month research program which culminates in a thesis of approximately 50,000 words. Program structure will vary dependent on previous studies and selected specialisations.

Doctor of Philosophy (Business) (IF49)

CRICOS code: 006367J

Indicative fee: \$13,700 per semester

Campus: Gardens Point

Semester of entry: At any time

Duration: 3 years full-time

Description:

The Doctor of Philosophy (Business) will challenge you to demonstrate a broad academic learning in your chosen field. You will be expected to make an original and substantial contribution to knowledge in the field.

Program structure:

You will be assessed based on a program of supervised research and investigation that culminates in the production of your thesis. The PhD program normally includes assessed coursework that will support and assist you through your research in preparation of your thesis of approximately 100,000 words. To further advance you through this course, you will have regular meetings with your supervisory teams and participate in University scholarly activities such as research seminars, teaching, and publication.

Careers:

- Higher education worker
- Translator
- Business analyst
- International business specialist
- Policy officer

Creative Industries

EWA HAMERLINKSA Poland

Master of Creative Industries (Animation) graduate

The Master of Creative Industries gave me the flexibility to design my study around the specific areas of animation that were of most interest to me. I gained significant technical skills as well as how to apply entrepreneurial principles in the context of creative industries. I had the opportunity to work with professional artists, musicians, creative writers and designers, which was great professional networking for my future goal of becoming an animator or creative director in multimedia and film.

Why choose Creative Industries at QUT?

QUT's Creative Industries Faculty is pioneering international research initiatives in creative industries policy, applied creative industries research, digital media design, and the creative and performing arts.

QUT Creative Industries is recognised as a leader in practice-led research, which is research initiated in creative practice and then pursued through the production of creative work.

The 2010 Excellence in Research for Australia initiative results rated our research in language, communication and culture as Australia's best and well above world standard.

Industry connections

Research within the Faculty is enhanced through association with leading federally funded and industry-supported research centres:

- Australian Research Council Centre of Excellence for Creative Industries and Innovation (CCI)
- Institute for Creative Industries and Innovation (iCi)

Research themes

- Fundamental research and methodological advances in creative industries and innovation
- New modes of engagement and creative practices
- New tools, technologies and performance interfaces
- New models of creative enterprise and management

Study areas

Animation
 Architecture
 Creative Advertising
 Creative Production & Arts Management
 Creative Writing
 Dance
 Interactive and Visual Design
 Interdisciplinary (allowing a variety of study options)
 Journalism
 Music and Sound
 Professional Communication
 Urban Design

Facilities

The Faculty is located at the Gardens Point and Kelvin Grove campuses. The Kelvin Grove campus includes the Creative Industries Precinct – Australia's first site dedicated to creative experimentation and commercial development.

- Design fabrication labs for designing models and prototypes
- Tools and technologies including power tools, foam cutters and 3D solid model printers
- Interactive exhibition spaces for multimedia displays
- Wired black box performance space for live experimental work
- Specialist design studios for design, drawing, drafting, fashion and textile design
- Film and television studios and post-production facilities
- Professional music recording studios

www.qut.edu.au/creative-industries

Graduate Certificate in Advertising (IF94)

CRICOS code: 048325E

Indicative fee: \$11,900

Campus: Kelvin Grove and Gardens Point

Semester of entry: February and July

Duration: 1 semester full-time

Master of Advertising (Creative Advertising) (IX96)

CRICOS code: 048322G

Indicative fee: \$11,700 per semester

Campus: Kelvin Grove and Gardens Point

Semester of entry: February and July

Duration: 1.5 years (3 semesters) full-time

Description:

This creative advertising program provides the practical skills required to develop and execute your own innovative advertising ideas. You will learn to create original campaigns for real products in a wide range of media, building a complete and professional portfolio.

Careers:

- Advertising professionals
- Art project managers
- Media industry specialists

Entry requirements:

Academic

Any bachelor degree or equivalent with a minimum grade point average of 5 (on a 7-point scale). Applicants without the requisite entry requirements may be considered for special entry.

English

IELTS 6.5 (no subscore below 6.0). If you do not meet the minimum English requirements, you may be offered a pathway program through the QUT International College (QUTIC) to gain entry into this degree.

Advanced standing:

If your undergraduate degree is in a related study area to the masters program, you can apply for advanced standing as it may be possible to complete the masters in just one year full-time.

Program structure (graduate certificate):

- Advertising management
- Contemporary issues in advertising
- Advertising creative: introduction
- Visual communication OR advertising creative: copywriting and art direction

Program structure (masters):

- Advertising management
- Advertising creative: introduction
- Visual communication OR media writing
- List B unit option
- Contemporary issues in advertising
- Project design in the creative industries
- Advertising creative: copywriting and art direction
- Advertising creative: trends in new media
- Innovation in the creative industries: major project

Graduate Certificate in Creative Industries (KK86)

CRICOS code: 064899M

Indicative fee: \$12,100 per semester

Campus: Kelvin Grove

Semester of entry: February and July

Duration: 1 semester full-time

Master of Creative Industries (MCI) (KK88)

CRICOS code: 064900A

Indicative fee: \$11,800 per semester

Campus: Kelvin Grove

Semester of entry: February and July

Duration: 1.5 years (3 semesters) full-time

Description:

In the Master of Creative Industries you will learn new skills and techniques required for an entrepreneurial approach to the industry and better understand creativity in a contemporary society.

- Learn about the concepts that mark the shift from the traditional arts to the creative industries, the nature of innovation in the creative economy, the capacities of the digital platform, interdisciplinary, creative entrepreneurship and the commanding position of creativity in contemporary society and culture.
- Develop your creative leadership skills, through creative practices or as a strategic thinker.

The Graduate Certificate in Creative Industries requires completion of four discipline-specific units.

Careers:

- Creative industries manager
- Creative project manager
- Producer
- Adviser in government or cultural institution
- Artist
- Professional practitioner

Program structure (masters):

Required units

The MCI required units will help you build your skills in future vision, entrepreneurship and project design. The required units include:

- Entrepreneurship in the creative economy
- 20:20 vision: imagining the creative future
- Project design in the creative industries
- Advanced study unit

You can select one of the following study areas:

- Animation
- Creative production and arts management
- Creative writing
- Interactive and visual design
- Interdisciplinary
- Music and sound
- Professional communication

Information on the study areas is outlined on the following pages.

Major project:

Your MCI will finish with a major project, providing the opportunity to tailor your qualifications to your desired creative career. You will be expected to plan, implement and evaluate your project, which may consist of creative practice, an entrepreneurial business plan, research project, internship or management of project for a creative or community-based organisation.

Entry requirements:

Academic

Any bachelor degree with a minimum grade point average of 5 (on a 7-point scale). Applicants without the requisite entry requirements may be considered for special entry.

English

IELTS 6.5 (no subscore below 6.0). If you do not meet the minimum English requirements, you may be offered a pathway program through the QUT International College (QUTIC) to gain entry into this degree.

Advanced standing:

If your undergraduate degree is in a related study area to the masters program, you can apply for advanced standing for the study area units and it may be possible to complete the masters in just one year full-time.

MAJORS

Animation

This program will broaden your design skills or assist you to transfer your existing skills into digital forms.

- Study the fundamental principles of animation and its application in design contexts, and build a theoretical framework for your studio practice
- Choose specific areas of animation in motion graphics, programming, drawing, concept design and character development

Careers

- Animator
- Computer games developer
- Internet professional
- Multimedia designer
- Web designer

Creative production and arts management

You will develop leadership, management and administration skills needed to run productions, events and festivals.

- Opportunities for mentoring and internships with local and national leaders in festivals and events
- Choose to study the skills most relevant to your professional development, including arts, cultural and creative industries policy, arts management, festival and event production, entrepreneurship, marketing and professional communication
- Assessment projects are practical and can be customised to your own learning needs

Careers

- Art project manager
- Arts administrator
- Event manager/producer
- Director
- Government officer
- Information officer
- Marketing manager
- Theatre professionals

Creative writing

The creative writing program provides the expertise and knowledge to develop your skills as either a freelance or vocational writer. An understanding of the fundamental principles of creative writing and its applications will serve as a theoretical backdrop for your creative practice.

- Work with mentors on a significant writing project and receive feedback from experienced editors to help you develop, write and market a manuscript.
- Enter your work in competitions, perform at public readings and festivals, and establish your networks with publishing houses at literary events

Careers

- Art writer
- Creative writer
- Corporate writer
- Government officer
- Marketing and communications
- Publishing officer

Interactive and visual design

This course is designed for students who want to develop their creative skills or convert existing knowledge by learning new media theories and practices. You can choose units that appeal to your design interest and career progression.

- Design for electronic media, web technologies, games and physical computing
- Studio-based teaching provides opportunities to apply your knowledge with others to solve design problems

Careers

- Computer games developer
- Digital composer
- Graphic designer
- Internet professional
- Multimedia designer
- Web designer

Interdisciplinary

The interdisciplinary study area is a flexible program which gives you the opportunity to broaden your skills across a wide range of creative disciplines.

You can choose units from the full range of Creative Industries study areas.

Careers

- Administrator
- Art project manager
- Art writer
- Visual artist

Music and sound

The QUT music and sound program will develop your creative potential through units about music genre and context, the music industry, sound recording, musicianship, music technology and the relationship between sound and image.

- Develop skills in technology necessary to work in the rapidly changing music industry
- Learn up-to-date, industry-relevant skills and techniques

Careers

- Composer
- Conductor
- D.J.
- Musical director
- Music teacher
- Musician
- Recording engineer
- Song writer
- Sound designer

Professional Communication

The Professional Communication program will build on your workplace communication skills to develop expertise in communicating effectively at all levels of an organisation.

- Expand your career opportunities, or learn the skills to become a professional writer, technical writer or communications officer
- Study corporate writing and editing, persuasive writing, speaking and presentation skills, news writing and new media technologies

Careers

- Advertising professional
- Media industry specialist
- Organisational trainer
- Professional writer
- Publishing professional

Graduate Certificate in Journalism (KJ35)

Master of Journalism (KJ42)

CRICOS code: 040323E, 053491D

indicative fee: \$11,500 per semester

Campus: Kelvin Grove

Semester of entry: February and July

Duration: 1 semester full-time, 1.5 years (3 semesters) full-time

Description:

As a Journalism student you will gain skills in a new media environment and practical skills in writing and journalistic inquiry within a conceptual framework.

- Tailor your studies to include units in news production, broadcast journalism and specialist journalism, ethics and legal topics
- Plan, implement and evaluate a major project such as an entrepreneurial business plan, research project or internship

Program structure (masters):

- Theories of journalism
- Project design in the creative industries
- Newswriting
- Entrepreneurship in the creative economy OR 20:20 vision: imagining the creative future
- Feature writing
- Creative industries legal issues OR Journalism ethics and issues
- List A unit option
- List B unit option
- Innovation in the creative industries: major project

Careers

- Art writer
- Journalist
- Media industry specialist

Entry requirements:

Academic

Any bachelor degree with a minimum grade point average of 5 (on a 7-point scale).

Applicants without the requisite entry requirements may be considered for special entry.

English

IELTS 6.5 (no subscore below 6.0). If you do not meet the minimum English requirements, you may be offered a pathway program through the QUT International College (QUTIC) to gain entry into this degree.

Advanced standing:

If your undergraduate degree is in journalism, you can apply for advance standing. This will allow you to complete your Master of Journalism in just one year full-time.

Master of Fine Arts (Dance) (KK42)

CRICOS code: 016349F

Indicative fee: \$11,500 per semester

Campus: Kelvin Grove

Semester of entry: February and July

Duration: 1.5 years (3 semesters) full-time

Description

As an established dance professional you will gain advanced understanding and skills in dance development and practice through a project-based program supported by coursework. You can specialise in creative practice and/or performance, with opportunity for interdisciplinary technology-based projects.

Entry requirements:

Academic:

A bachelor degree in dance and/or relevant professional dance experience.

Additional entry:

Applicants are required to submit a video/DVD of their choreography/performance work and a one-page proposal outlining the focus of their study.

English

IELTS 6.5 (no subscore below 6.0). If you do not meet the minimum English requirements, you may be offered a pathway program through the QUT International College (QUTIC) to gain entry into this degree.

Master of Architecture (DE80)

CRICOS code: 056390G

Indicative fee: \$11,700 per semester (subject to annual review)

Campus: Gardens Point

Semester of entry: February

Duration: 1 year (2 semesters) full-time

Description

The Master of Architecture enables you to develop advanced understanding in architectural design and research, theoretical studies, building technology, and professional practice. The course is structured around a student initiated design project based on the development of an urban design proposition, and a detailed physical and conceptual project brief. The design project can be simultaneously explored in theoretical, research, and technology units.

Accreditation:

The course is accredited by the AACA and recognised by the RAIA. Graduates from the course, with an appropriate duration of practical employment experience, are eligible to take the Architectural Practice Examination (as required to become a registered architect in Australia).

Entry requirements:

Completion of the Bachelor of Design (Architectural Studies) or equivalent four years of full-time study in an accredited architecture program (including completion of a three-year or four-year Bachelor degree). Admission of applicants from equivalent accredited architecture courses will be based on evaluation of a full and authorised transcript of the applicant's academic record demonstrating completion of four years of architectural education equivalent to QUT's Bachelor of Design (Architectural Studies). International applicants will also be required to provide a portfolio of student design work, illustrating achievement of equivalent standards of design competence.

Career

- Architect

Course structure:

Year 1 – Semester 1

- Master studio A
- Architectural theory and research 1
- Contemporary architectural culture
- Advanced topics in architectural technology

Year 1 – Semester 2

- Master studio B
- Architectural theory and research 2
- Advanced studio in integrated technology
- Professional practice

Master of Design (Urban Design) (DE50)

CRICOS code: 060812M

Indicative fee: \$12,300 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 1 year (2 semesters) full-time

Description

This program will enhance your skills and understanding of the design disciplines through explorations in social, historic, economic, legal, and technological processes and systems that act upon our environments and products.

- Study visual and design literacy, communication and design processes through the integration of sustainability, project management, leadership and design project applications
- Learn to lead and manage the development and implementation of urban design procedures, policy and practice

Entry requirements:

A four-year full-time Bachelor degree in a relevant discipline area, or equivalent qualification determined by the Faculty, and a grade point average of 5.0 or more (on a 7-point scale) in that study. Applicants from a non-relevant background may gain entry through successful completion of BN85, the Graduate Certificate in Built Environment and Engineering

Careers:

- Urban designer
- Urban policy developer
- Urban policy implementer
- Private practice

Course structure:

Year 1 – Semester 1

- Project management principles
- Urban design and theory studio A
- Communication, negotiation and leadership
- Theory research project A

Year 1 – Semester 2

- Sustainable practice in built environment and engineering
- Urban design and theory studio B
- Integrated project
- Theory research project B

Early exit with a Graduate Diploma is available after completing two common units and two specialisation units.

Master of Arts (Research) (KK51)

CRICOS code: 046055E

Indicative fee: \$11,300 per semester

Campus: Kelvin Grove

Semester of entry: February and July

Duration: 3 semesters full-time (3-year qualified entry) OR 2 semesters full-time (4-year qualified entry)

Description:

The Master of Arts (Research) provides an opportunity to conduct research in relation to creative and professional practice.

- Complete a project drawn from commissioned research, industry placement and workplace-related research projects.
- The program is suited to practice-led research initiatives and is an important step into higher degree research

Careers:

- Academic
- Management and practitioner roles in the creative industry private and public sector
- Research

Academic entry requirements:

Three-year qualified entry requirement:

- A relevant three-year bachelor degree, normally with a minimum grade point average of 5.5 (on a 7-point scale).

Four-year qualified entry requirement:

- A relevant four-year bachelor degree with honours, or
- A relevant three-year bachelor degree plus a recent graduate diploma or equivalent.

Program structure:

If you have a three-year degree, the Master of Arts (Research) comprises 48 credit points of coursework and a 96 credit point research project. If you have a four-year degree, the program normally comprises a 96 credit point research project only.

Critical Studies in Creative Industries

Critical studies in creative industries within the Master of Arts (Research), is aimed at students looking to investigate the emergent creative industries policy field. You will benefit from QUT's extensive links with the leaders in creative industries theory and policy.

Students will be supported by studying as a cohort which will include guidance and assistance from academic staff. Two units on *Theory and Policy Studies in the Creative Industries* will provide the historical, conceptual and policy background to your thesis and introduce you to case studies in the field of creative industries theory and policy.

Doctor of Creative Industries (Research) (KK59)

CRICOS code: 069963A

Indicative fee: \$11,900 per semester

Campus: Kelvin Grove

Semester of entry: February

Duration: 3 years (6 semesters) full-time

Description:

The Doctor of Creative Industries (Research) is designed to use a critical and systematic reflection on professional and creative practices in any of the creative industries disciplines.

- Ideal for leading artists and professionals looking to explore opportunities presented in artistic, professional, creative enterprise or teaching practice
- Design, implement and evaluate professionally related research projects

Academic entry requirements:

- A relevant four-year bachelor degree with first- or second-class division A honours, OR
- An appropriate masters degree.

Plus two years of practice at an advanced level in a position of responsibility in the creative industries.

Alternative entry for outstanding leaders in creative industries:

- A minimum of five years of relevant professional or creative practice, and
- A portfolio that demonstrates capacity to work at a doctoral level.

Program structure:

The program is designed for candidates to progressively accumulate new knowledge and critical tools that will enhance their practice via two year-long research projects, combined with coursework to support and frame the development of the projects.

Doctor of Philosophy (Creative Industries) (IF49)

CRICOS Code: 006367J

Indicative fee: \$14,100 per semester

Campus: Kelvin Grove

Entry: applications are considered throughout the year

Duration: 3 years, 6 semesters full-time

Description:

This PhD program will offer you innovation and excellence in research training through focusing on diversity, new knowledge industries, scholarly and creative practice. Creative practitioners also enjoy a strong commitment to practice-led research and work with industry or government partners on a national and international level.

Academic entry requirements:

- A relevant four-year bachelor degree with first- or second-class division A honours, OR
- An appropriate research masters degree, OR
- A coursework masters with a significant research component.

Education

MINJEONG KIM

Master of Education (TESOL)

I was attracted to QUT because it offered a practical degree that would give me the right knowledge and skills for my ideal career as an English teacher in Korea. I have enjoyed every minute of the course so far. The teaching staff have been supportive and encouraging, and teach high-quality programs. The course has given me a deeper understanding and practical skills required to teach English as a foreign language.

Why choose Education at QUT?

QUT's Faculty of Education is the top-performing education faculty in Australia, offering practical training and strong industry connections that make our graduates highly sought after in the workplace.

Over the past 20 years more than 40,000 QUT students have become registered teachers, childcare specialists, educators in community and industry, and government trainers upon completing our programs.

International reputation

- We are one of only three universities in Australia to receive an 'above-world-standard' rating for our performance in education-related research in the 2011 Excellence in Research for Australia (ERA) report.
- We have internationally recognised teachers and researchers in Early Childhood Education, Educational Leadership and Management, Inclusive Education, Teaching English to Speakers of Other Languages (TESOL), Information & Communication Technology (ICT) for Education, and Indigenous Education.
- We have important partnerships with overseas universities and governments, including the Ministry of Education Malaysia, Jiangsu Provincial Education Department in China and Beijing Normal University, in the areas of teacher education, professional development and research capacity building.

Study areas

Teacher registration

- Early Years
- Primary: P-7
- Senior Years

Professional development for educators and administrators

- Early years
- Generic Master of Education
- Leadership and Management
- Teaching English to Speakers of Other Languages (TESOL)
- Teaching English as a Foreign Language (TEFL)

Research training facilities

- 24-hour computer laboratories
- Specialist curriculum rooms
- Centre for Learning Innovation which provides support to research students

Research strengths

Education Systems

- Early Childhood
- Post Compulsory Education

Curriculum and Pedagogy

- Language and Literacy
- Mathematics and Science Education

Specialist Studies in Education

- Indigenous Education
- Global and Multicultural Society
- Human Rights and Inclusive Education
- Professional Practices

www.qut.edu.au/education

Blue card

As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a blue card before commencing field experience/practicum in an organisation where they may work with children or young people (under 18 years). This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

If you wish to undertake education programs at QUT which include field experience components, you must submit your original Blue Card application form at the time of submission of your Acceptance of Offer form. It is recommended that your acceptance is submitted at least three months prior to the commencement of classes for this program.

www.qut.edu.au/bluecard

Graduate Diploma in Education (ED38)*

CRICOS code: 055903F

Indicative fee: \$11,700 per semester

Campus: Kelvin Grove

Semester of entry: February and July (No intake for Primary: P-7 and Early Years in July. Limited teaching areas in Senior Years available in July).

Duration: 1 year (2 semesters) full-time

*This course is under review.

Description:

This intensive program allows graduates to obtain their first teaching qualification if they have a degree in a field other than education. You will experience two formal full-time field placements in schools to prepare you to become a teacher.

- Early Years prepares graduates to teach Prep–Year 3 in Queensland.
- Primary: P–7 prepares graduates to teach Prep–Year 7 in Queensland.
- Senior Years prepares graduates to teach Years 8–12 in Queensland in their two nominated teaching areas focusing on years 10 to 12.

Academic entry requirements:

Completion of a non-education undergraduate degree that did not lead to teacher registration. You must have studied a minimum of three years in that course and achieved at the required grade point average. Application from a non-English speaking background will need an English language proficiency of an IELTS (academic) average band score of 7.5 across all four areas, with no score below 8 in Speaking and Listening and no score below 7 in Reading and Writing.

International students must complete a Teaching Area Nomination form available at www.qut.edu.au/study/international-courses/graduate-diploma-in-education (Senior Years only)

For more information on academic entry requirements for the Graduate Diploma in Education, visit www.qut.edu.au/study or email educationenq@qut.edu.au

Professional recognition:

Recognised by the Queensland College of Teachers (QCT) as meeting the requirements for registration as a teacher in Queensland. For graduates wishing to teach overseas please check with your local authority.

Applicants with QCT teacher registration are not eligible to apply for this course. Applicants to Senior Years must be 18 years of age to undertake field studies.

* This course is under review

Program structure: Early Years

Education studies:

- Early years: development, diversity and inclusions
- The professional practice of educators

Field studies:

- Early years field studies 1: engaging diverse learners
- Early years field studies 2: the professional practice of educators

Curriculum studies:

- Early years: literacies
- Early years: mathematical understandings
- Early years: arts and humanities
- Early years: science and technology education

Graduate Schools Program (optional program)

In addition to lectures, tutorials and field experience blocks, you will be required in schools for a two-week immersion early in semester 1. Following this, you will attend your schools one day each week for the rest of the course, and complete their formal block practicums in the same setting.

Program structure: Primary: P–7

Education studies:

- Primary Educational Perspectives

Field studies:

- Reflective practitioners 1 and 2

Curriculum studies:

- Primary English: P–7
- Primary mathematics: P–7
- Primary SOSE: P–7
- Primary arts/LOTE: P–7
- Primary science: P–7

Supporting professional program block

In addition to lectures, tutorials and field experience blocks, you will complete four compulsory supporting professional program blocks, during which full-time attendance on campus or in a school setting is required. Sessions run in Orientation Week and between semesters.

Program structure: Senior Years

Education studies:

- Engaging diverse learners
- The professional practice of educators

Field studies:

- Senior years field studies 1: engaging diverse learners
- Senior years field studies 2: the professional practice of educators

Curriculum studies:

- Curriculum studies 1
- Curriculum studies 2
- Curriculum studies 3
- Curriculum studies option unit or general option unit

Master of Education (ED79)

CRICOS code: 064908D

Indicative fee: \$11,700 per semester

Campus: Kelvin Grove

Semester of entry: February and July

Duration: 1 year (2 semesters) full-time

Description:

This program suits teachers, educators and administrators to enhance their career or provide opportunities for a career change. Master of Education is designed to extend educators' professional knowledge and meet their professional development needs.

Careers:

- Early years educator
- Education leader
- Education policy administrator
- English teacher
- School principal
- TESOL teacher

Academic entry requirements:

An appropriate four-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean, or an appropriate three-year Bachelor degree or equivalent at a standard acceptable to the Executive Dean plus at least one year's appropriate professional or industrial experience.

Program example:

Generic program

- Professional dialogues in education
- Professional applications of research
- Leadership concepts, theories and issues
- Cyberlearning
- Leading and managing people
- Facilitated study unit
- Option units

Early years

- Professional dialogues in education
- Professional applications of research
- Arts and sciences in early childhood
- Investigating curriculum and pedagogy in early childhood
- Child development in context
- Language, literacies and communication in early childhood
- Option units

Leadership and management

- Professional dialogues in education
- Professional applications of research
- Leadership concepts, theories and issues
- Leadership, policy and change in action
- Leading and managing people
- Strategic management
- Option units

TEFL

- Second language acquisition
- Principles of English as a Foreign Language (EFL) Methodology
- Professional practice in the EFL context
- Professional applications of research
- TESOL/TEFL optional units
- Option units

TESOL

- Second language acquisition
- Principles of second language methodology
- Professional applications of research
- TESOL/TEFL optional units
- Option units

Master of Education (Research) (ED12)

CRICOS code: 002501G

Indicative fee: \$11,600 per semester

Campus: Kelvin Grove

Semester of entry: At any time (subject to constraints of coursework units)

Duration: 1 year (2 semesters) full-time

Description:

This research degree includes two research methodology units which equip you with the skills to conduct a supervised independent research project on a topic

of your choice, resulting in the submission of a thesis. It is ideal preparation for the Doctor of Philosophy and Doctor of Education.

Careers:

- Academic
- Administrator
- Adult/workplace educator
- Government officer
- Higher education worker
- TAFE teacher

Academic entry requirements:

Applicants must possess a four-year education-related degree with a grade point average of at least 5 (on a 7-point scale) or equivalent, with demonstrated potential for further study and evidence of professional standing; OR a Graduate Diploma in an education-related field with a grade point average of at least 5 (on a 7-point scale) or equivalent, with a demonstrated potential for further study and evidence of professional standing; OR an Honours degree in an education-related field with a minimum second-class Honours division A or B. Applicants who do not have professional experience in an education-related field would normally be expected to demonstrate their potential for further study with a grade point average of 6 (on a 7-point scale) or better.

Doctor of Education (ED11)

CRICOS code: 015023C

Indicative fee: \$11,600 per semester

Campus: Kelvin Grove

Semester of entry: January

Duration: 6 semesters

Description:

The Doctor of Education (EdD) is a professional doctorate which focuses on applied investigation and problem solving rather than on a contribution to pure research or to theoretical knowledge. Comprising three study schools and a thesis, it is oriented towards enhancing professional practice and focuses on the professional development of practitioners involved in some aspect of education.

Careers:

- Academic
- Administrator
- Adult/workplace educator
- Government officer
- Higher education worker
- TAFE teacher

Academic entry requirements:

Applicants must possess a four-year education degree or its equivalent with first-class or second-class Honours division A or a Masters degree in education or in a field relevant to the professional doctorate in education, and two years practice in a position of professional responsibility in education or a closely related field.

Before submitting an application for enrolment, a potential candidate may consult the Course Coordinator of your eligibility and special interests.

Program structure:

This course has an initial coursework component followed by a thesis. In January of your first semester, you attend a one-week, on-campus study school to complete the Interdisciplinary Education Studies unit.

Subsequent study schools, during which you work on the methodology and design of your thesis, are held on campus in the second and third semesters of your enrolment (in June/July and the following January).

Doctor of Philosophy (Education) (IF49)

CRICOS code: 006367J

Indicative fee: \$14,000 per semester

Campus: Kelvin Grove and external

Semester of entry: At any time

Duration: 3 to 6 years (6 semesters full-time/12 semesters part-time)

Description:

The Doctor of Philosophy (PhD) is a research degree undertaken within the Faculty's Centre for Learning Innovation. The PhD degree is awarded in recognition of the candidate's expertise in a broad field of learning and for notable accomplishment in that field through an original and substantial contribution to knowledge.

Careers:

- Academic
- Administrator
- Adult/workplace educator
- Government officer
- Higher education worker
- TAFE teacher

Academic entry requirements:

Applicants must possess a relevant first-class or second-class division A Honours degree, OR an appropriate Masters degree.

Course structure:

Candidates undertake a supervised program of research which results in the submission of a thesis. Within one year full-time or two years part-time, the candidate is expected to develop a full course of study in consultation with their supervisor. This proposal is submitted to the Confirmation of Candidature Review Panel for approval. Upon completion of the thesis, candidates undertake an oral examination to present findings of the research. The thesis, once approved by the panel, is submitted to the appointed examiners for evaluation.

Health

The QUT Health Clinics are located at the Kelvin Grove campus and offer students state-of-the-art training facilities. The Clinics are fully equipped to deliver professional services in human movement and exercise, nutrition and dietetics, optometry, podiatry, psychology and counselling, and wound healing.

The Clinics have equipment used for advanced research and specialist testing, giving students a hands-on learning experience. The Podiatry Clinic, for example, is equipped with a comprehensive gait analysis system that uses 3D motion data to create a virtual skeleton of the patient and provide detailed information on their body movements.

Why choose Health at QUT?

QUT's Faculty of Health supports and delivers programs that focus on improving the health of individuals and communities, treat and prevent disease, and make a difference in the lives of others.

Our programs are integrated with hands-on professional placements to give you real-world experience and the opportunity to develop valuable industry contacts.

Global connections

- The School of Public Health and Social Work is working with institutions in Vietnam to improve the health and public health education systems.
- The School of Psychology and Counselling has strong research links with prominent institutions in the United States, UK, Africa, and South-East Asia.
- The School of Nursing designs and delivers professional development for nurses from Japan and other countries.
- The Faculty of Health has strong links with the National Ministry in China as well as the national and provincial Centres for Disease Control, provincial health bureau, the Emergency Branch of the Chinese Hospital Association and universities in areas such as emergency and disaster management and health services management.

Study areas

Behavioural science
Biomedical science
Biotechnology
Environmental health
Emergency and disaster management

Exercise science
Health promotion
Health management
Health science
Human services
Nursing
Nutrition science
Occupational health and safety
Optometry
Pharmacy
Podiatry
Psychology
Public health
Road safety
Social work

Research strengths

- Cancer
- Chronic Disease, Supportive and Palliative Care
- Environmental Health
- Equity and Health
- Exercise, Nutrition and Metabolism
- Health Services
- Infectious Disease
- Injury Prevention
- Mental Health and Wellbeing
- Musculoskeletal Disease
- Vision Improvement
- Wound and Tissue Restoration

Research is conducted through a number of collaborative research centres including:

Institute of Health and Biomedical Innovation (IHBI) – a progressive A\$70 million research facility which focuses on research in cells and tissue, vision improvement, medical devices, human health and wellbeing, and injury prevention and rehabilitation.

The Cooperative Research Centre for Wound Management Innovation – a A\$100 million initiative that brings together 22 partners to undertake fundamental genetic, biochemical, and modelling research and directly link it to clinical practice and wound care products development.

The Centre for Accident Research and Road Safety (CARRS-Q) – aims to strengthen research and intervention development in the areas of vulnerable road users, regulation and enforcement, school and community injury prevention, occupational road safety, and safety systems and technology.

The Centre for Research Excellence in Sun and Health (CRESH) – focussed on understanding the affects of ultraviolet radiation from the sun, to create guidelines for Australians to accommodate the need for exposure to Vitamin D without increasing cancer risk.

Facilities

- The QUT Health Clinics are located on campus and offer students state-of-the-art training facilities. The Clinics are fully equipped to deliver professional services in human movement and exercise, nutrition and dietetics, optometry, podiatry, psychology and counselling, and wound healing.
- 24-hour computing laboratories and campus-wide wireless access
- Library with individual and group study spaces.

Blue card

As required by the Commission for Children and Young People and Child Guardian Act (2000) students must undergo a criminal history check and be issued with a blue card before commencing field experience/practicum in an organisation where they may work with children or young people (under 18 years). This is a mandatory requirement that must be met prior to undertaking any field experience/practicum program throughout your course.

If you wish to undertake such programs at QUT, you must submit your original Blue Card application form at the time of submission of your Acceptance of Offer form. It is recommended that your acceptance is submitted at least three months prior to the commencement of classes for this program. Courses requiring a blue card are indicated in the their entry requirements.

www.qut.edu.au/bluecard

Bachelor of Applied Science (Honours) (HL52)

Bachelor of Biomedical Science (Honours) (HL53)

Bachelor of Health Science (Honours) (HL55)

Bachelor of Human Services (Honours) (HL51)

Bachelor of Nursing (Honours) (HL50)

CRICOS code: 009041G (Applied Science)

CRICOS code: 075798C (Biomedical Science)

CRICOS code: 027284E (Health Science)

CRICOS code: 058289K (Human Services)

CRICOS code: 016355G (Nursing)

Indicative fee: \$11,800; \$11,800; \$11,700; \$11,700 per semester

Campus: Kelvin Grove

Semester of entry: February

Duration: 1 year (2 semesters) full-time

Program objectives:

The Honours program enables graduates to develop knowledge, problem-solving, and conceptual skills at an advanced level. The program provides education in the techniques and skills for later postgraduate research and enhances professional career progressions.

Academic entry requirements:

An appropriate QUT undergraduate degree from the relevant area (Bachelor of Health Science, Bachelor of Human Services, Bachelor of Nursing, Bachelor of Applied Science, Bachelor of Biomedical Science) or the equivalent course at another institution, and have attained a grade point average (GPA) of at least 5.0 out of 7 overall.

Application would normally be made at the end of the final year of the pass degree or within 18 months of completing that degree. If applicants do not satisfy the normal entry requirements, but have demonstrated outstanding performance in only the final year of a degree, or their application is based on other factors including work experience or involvement in research, they may be admitted at the discretion of the Executive Dean.

Example units:

- Advanced discipline readings
- Research seminars
- Research strategies (HL53)
- Dissertation (HL50, 51, 52 and 55)
- Research Project (HL53 only)

Dissertation or Research Project:

Students in the Honours program will undertake a 48 credit point (4 unit) dissertation or research project representing 50% of the Honours course. Work on this unit will commence in the first semester of study under the guidance of an experienced researcher who will act as both supervisor and mentor, and will be finalised for presentation towards the end of the second semester of study.

Bachelor of Behavioural Science (Honours Psychology) (PY09)

CRICOS code: 061159E

Indicative fee: \$11,100 per semester

Campus: Kelvin Grove

Semester of entry: February

Duration: 1 year (2 semesters) full-time

Applications for this course close on 1 October each year. Entry into this course is competitive.

Description:

The Honours program builds on an undergraduate Australian Psychology Accreditation Council (APAC) accredited psychology degree and provides an opportunity for advanced study and research. An alternative to the Bachelor of Behavioural Science (Honours Psychology) is the Postgraduate Diploma in Psychology which is also offered by the Faculty.

Careers:

Successful completion of the Honours program meets the academic requirements for provisional registration as a psychologist with the Psychology Board of Australia.

Academic entry requirements:

Applicants must have:

- an undergraduate degree accredited by APAC as an entry point into an Honours program (for example QUT's PY45 Bachelor of Behavioural Science – Psychology), with an overall grade point average (GPA) of at least 5 out of 7;
- a GPA of at least 5 out of 7 across prescribed APAC-accredited second and third-year psychology units; and
- successful completion of an APAC-accredited third-year statistics unit (Advanced Statistical Analysis or equivalent). Applicants with Bachelor awards other than from QUT will also be required to provide certified copies of complete academic transcripts, evidence of their eligibility to undertake an Honours program at their home institution, and a letter from the Australian Psychological Society (APS) that their degree is equivalent to a three-year APAC-accredited degree.

Example units:

- Advanced research methods
- Thesis (48 credit points representing 50% of the course, commenced semester one for final submission at the end of semester two)
- Research and professional development seminar

Postgraduate Diploma in Psychology (PY20)

CRICOS code: 034714G

Indicative fee: \$11,200 per semester

Campus: Kelvin Grove

Semester of entry: February

Duration: 1 year (2 semesters) full-time

Applications for this course close on 1 October each year. Entry into this course is competitive.

Description:

The Postgraduate Diploma in Psychology builds on an undergraduate APAC-accredited psychology degree and provides an opportunity for advanced study and research. It provides an APAC-accredited fourth year of training in psychology, similar to Honours.

Careers:

Successful completion of the program meets the academic requirements for provisional registration as a psychologist with the Psychology Board of Australia.

Academic entry requirements:

Applicants must have:

- an undergraduate degree accredited by APAC as an entry point into an Honours Psychology program
- a minimum grade point average of 5 achieved in prescribed second and third-year APAC-accredited psychology units
- successful completion of an APAC-accredited advanced statistical analysis unit

Example units:

- Research thesis (36 credit points commenced in semester one, for final submission at the end of semester two)
- Advanced research methods
- Research and professional development seminar
- Advanced psychology electives

Graduate Diploma in Environmental Health (PU67)

CRICOS code: 0061302C

Indicative fee: \$11,700 per semester

Campus: Kelvin Grove

Semester of entry: February

Duration: 1 year (2 semesters) full-time

Description:

This course provides the knowledge and skills to work as environmental health practitioners and, in particular, eligibility to practice as environmental health officers. This award provides an entry pathway into environmental health professional practice for students with undergraduate degrees in public health, nutrition, nursing and science.

Course articulation:

This course articulates into the Master of Health Science.

Academic entry requirements:

An undergraduate degree in a relevant area such as science, environmental science, nursing, health science or public health. Normally applicants must have completed a minimum of 48 credit points of basic science in units such as chemistry, physics, microbiology, anatomy and physiology, or life science.

Example units:

- Population health
- Environmental health law
- Environmental protection
- Communicable diseases
- Environmental health management

Graduate Diploma in Occupational Health and Safety (PU65)

CRICOS: 061160A

Indicative fee: \$11,700 per semester

Campus: Kelvin Grove

entry: February and July

Duration: 2 semesters full-time

Description:

This course focuses on developing occupational health and safety professionals who are able to apply current knowledge and analytical methods to the management and improvement of occupational health and safety in an organisation. The design of this course is multidisciplinary and covers occupational health and safety topics that include ergonomics, occupational health, hygiene, law and safety technology.

Course articulation:

This course articulates into the Master of Health Science

Academic entry requirements:

A degree or equivalent in an appropriate discipline from a recognised tertiary institution. Students may be considered for special entry if they have experience and responsibility in occupational health and safety.

Example units:

- Risk assessment
- Occupational health and safety law and management
- Safety management
- Ergonomics

Graduate Diploma in Road Safety (PY41)

CRICOS code: 040335A

Indicative fee: \$11,700 per semester

Campus: Kelvin Grove

Semester of entry: February and July for applicants who have completed a Graduate Certificate in Road Safety

Duration: 1 year (2 semesters) full-time external study, or 2 years (4 semesters) part-time external study.*

*Note: Two of the units in this course may require on-campus block attendance in Brisbane for a period of one week (two weeks in total).

Description:

The Graduate Diploma in Road Safety fosters specialist skills and knowledge in road safety, accident prevention, and traffic and transport improvements. The program is relevant to those employed by government or industry, as either managers, practitioners or researchers and to those seeking to enter these fields.

- Learn from guest lecturers from government and industry
- Undertake field study and workplace-based projects

Academic entry requirements:

A degree from a university (such as a Bachelor of Civil Engineering, Psychology, Public Health) or a three-year diploma relevant to road safety or a Graduate Certificate in Road Safety.

Example units:

- Introduction to road safety
- Traffic psychology and behaviour
- Road safety evaluation models
- Road safety audit

Master of Health Science (HL88)

Graduate Diploma in Health Science (HL68)

CRICOS code: 009030K (HL88) and 020308C (HL86)

Indicative fee: \$11,200 per semester

Campus: Kelvin Grove

Semester of entry: February and July

Duration: 3 semesters (HL88) and 2 semesters (HL86) full-time

Description:

Postgraduate study in health science is ideal for clinicians who want the flexibility to select a combination of units and specialisations across health disciplines, that will meet professional development needs

The flexible design of these courses allows you a large choice of elective units to provide specialisation or a broad understanding of several health-related disciplines.

Academic entry requirements:

Hold an appropriate three-year Bachelor degree or equivalent and have at least one year of appropriate work experience; or hold an appropriate three-year Bachelor degree with an additional one-year Honours degree; or hold an appropriate four-year Bachelor degree or equivalent; or hold an appropriate Graduate Diploma; or hold other qualifications acceptable to the Executive Dean, which may include substantial work experience or involvement in relevant research activities. It is normally expected that candidates have attained a minimum GPA of 5 out of 7 in their Bachelor qualification. Candidates not meeting this requirement must provide additional information to support special admission.

Program structure:

Students will undertake units from the study areas listed below. To meet the requirements of a specified study area, students must complete at least four units from that study area.

- Aged care
- Emergency and disaster management
- Environmental health
- Health promotion
- Health services management
- Occupational health and safety
- Risk management
- Women's health

Alternatively, students may undertake a cross-specialisation where no major is awarded. Applicants should check availability of majors and units as not all units may be available each year.

Master of Health Management (PU83)

Graduate Diploma in Health Management (PU63)

CRICOS code: 065613M (PU83) and 065614K (PU63)

Indicative fee: \$11,300 per semester

Campus: Kelvin Grove

Semester of entry: February and July

Duration: 3 semesters (PU83) and 2 semesters (PU63) full-time

Description:

This course develops extensive knowledge and understanding of the underlying principles of health management. Graduates may be expected to undertake managerial roles and to provide leadership within their chosen health field.

Academic entry requirements:

A Bachelor degree in health, behavioural, social or biological science, or other qualifications/work experience acceptable to the Executive Dean. Applicants with a four-year degree or three-year degree with additional one-year Honours may be able to obtain advanced standing to a maximum of 48 credit points, subject to recency.

Study areas:

- Emergency and disaster management*
- Health services management
- Quality and patient safety
- Risk management
- A cross-specialisation where no major is undertaken but students study across a variety of fields.

* Available only at Masters level to students commencing in February.

Example units:

- Health care delivery and reform
- Population health
- Quality and patient safety
- Risk management

Master of Applied Science (Medical Physics) (PH80)

Graduate Diploma of Applied Science (Medical Physics) (PH71)

CRICOS code: 043548G (PH80) and 020315D (PH71)

Indicative fee: \$12,000 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: PH80 1.5 years (3 semesters) full-time, PH71 1 year (2 semesters) full-time

Description:

This program deals with areas of medical and health physics and includes the following topics: clinical measurement, computing, health physics, instrumentation, medical electronics, medical imaging, physiological monitoring, physics of radiotherapy, radiobiology, and radiological imaging sciences.

The coursework also contains an introduction to the clinical sciences from which prospective medical physicists will learn to appreciate the clinical nature of medical situations and how to communicate better with other clinical staff.

Professional recognition:

This course is accredited by the Australian College of Physical Sciences and Engineers in Medicine (ACPSEM).

Career outcomes:

- Bio-engineer
- Health physicist
- Medical physicist

Academic entry requirements:

An acceptable tertiary course with a major in physics. Applicants with other qualifications (e.g. engineering) may enrol with the approval of the Faculty. In some instances, a modified program may be necessary.

Example units:

- Human anatomy and physiology
- Radiation physics
- Microprocessors and instrumentation
- Physics of medical imaging
- Medical imaging science
- Radiotherapy
- Health and occupational physics
- Research methodology and professional studies
- Project

Master of Biotechnology Advanced (LS96)

Master of Biotechnology (LS86)

Graduate Diploma in Biotechnology (LS76)

CRICOS code: 054279M (LS96), 018479B (LS86) and 016975B (LS76)

Indicative fee: \$12,400 per semester

Campus: Gardens Point

Semester of entry: July (February entry available only for students with advanced standing for Module 1)

Duration: LS96 2 years (4 semesters) full-time; LS86 1.5 years (3 semesters) full-time; LS76 1 year (2 semesters) full-time

Description:

QUT's biotechnology programs provide training and advanced specialisation in general, medical, and/or plant biotechnology. It is relevant to working scientists, support staff, or students involved in commercial aspects of biotechnology, who wish to update their theoretical and practical biotechnology skills for a current or future position.

- Select science-based biotechnology units emphasising laboratory skills and hands-on laboratory experimentation
- Pursue studies related to the business of biotechnology, marketing, commercialisation, as well as the legal and ethical aspects of biotechnological applications.

Professional recognition:

Graduates are eligible to join the AusBiotech, the Australian Society for Biochemistry and Molecular Biology, and the Australian Society for Microbiology.

Careers:

- Researcher
- Academic positions in private or public biotechnology companies, universities, research institutes, government departments, pathology laboratories, and hospitals.

Academic entry requirements:

A Bachelor degree or equivalent, preferably but not necessarily, in science.

Example units:

Module 1

- Molecular biology techniques
- Molecular biosciences
- Cellular biosciences
- Postgraduate learning and research skills

General

- Business aspects of biotechnology
- Genetic research technology
- Plant genetic manipulation
- Biomedical research technologies
- Genetic research technology
- Plant genetic manipulation
- Medical cell biology
- Law, justice and new genetic technologies
- Innovation commercialisation strategies
- Medical biotechnology
- Plant microbe interactions
- Introduction to genomics and bioinformatics
- Biochemical research skills
- Protein biochemistry and bioengineering
- Plant microbe interactions
- Project

Master of Social Work (SW80)

CRICOS code: 075076D

Indicative fee: \$11,700 per semester

Campus: Kelvin Grove

Semester of entry: February

Duration: 2 years (4 semesters) full-time

Description:

The Master of Social Work provides its graduates with an internationally recognised qualification in social work. You will develop expertise in casework, assessment and intervention, practice frameworks, policy, and ethical and legal contexts of practice.

- Combine campus and online learning with intensive block teaching
- Gain experience in field placements supervised by a professional social worker

Academic entry requirements:

A completed Bachelor degree in any discipline. This course is not suitable for applicants who are already qualified social workers.

Professional recognition:

Graduates are eligible for membership of the Australian Association of Social Workers.

Careers:

- Aged services worker
- Corrective services officer
- Counsellor
- Director of health programs and services
- Disability services worker
- Human services practitioner
- School counsellor
- Social worker

Example units:

- Human development and behaviour
- Professional communication skills
- Social work assessment and intervention
- The ethical, legal and organisational context of practice
- Professional placement units (980 hours of supervised professional practice in public hospitals, youth agencies, child and youth mental health services, or child safety areas)

Master of Clinical Psychology (PY18)

CRICOS code: 052769J

Indicative fee: \$11,300 per semester

Campus: Kelvin Grove

Semester of entry: February

Duration: 2 years (4 semesters) full-time

Applications for this course close on 1 October each year. Entry into this course is competitive.

Description:

In this course you will learn to conceptualise and treat clinical presentations including relational psychodynamic, cognitive-behavioural, and systemic narrative therapeutic approaches.

You will have the opportunity for supervised practice in a variety of clinical settings, including the psychology clinic at QUT's Kelvin Grove campus and external community agencies.

Professional recognition:

The course is designed to meet the accreditation requirements of the Australian Psychology Accreditation Council (APAC), the Australian Psychological Society (APS), College of Clinical Psychologists, and provides a graduate with eligibility to apply for registration with the Psychology Board of Australia.

Careers:

- Case manager
- Health promotion and education
- Private practice
- Psychologist
- Psychotherapist

Academic entry requirements:

Applicants should hold:

- an APAC-approved four years training or its equivalent from QUT or another recognised institution.
- a minimum GPA of 5 out of 7 or above in fourth year.
- two referee reports
- conditional registration as a psychologist with the Psychology Board of Australia.

Referees will be required to comment on the academic and personal suitability of the candidate and their overall level of support for the candidate's application. International students will need certification by APAC that their degree is equivalent to an APAC-approved four years of training in psychology or its equivalent from QUT or another recognised institution. All applicants will be required to participate in an interview to assess their interpersonal skills in a clinical context. In the case of international applicants, this will be conducted via telephone.

International students require an IELTS score of 7.0 with minimum subscores of 7.0 for listening, reading, writing and speaking.

Note: A Blue Card is required before undertaking the practicum component.

Registration requirements:

Undertaking the supervised psychological practice component of the course requires conditional registration as a psychologist with the Psychology Board of Australia. The requirements of the Board (including English language requirements) are available at www.psychologyboard.gov.au

Unit examples:

- Clinical psychological interventions
- Clinical psychological assessment
- Clinical psychopathology
- Supervised practicum
- Research thesis
- Childhood psychopathology and treatment
- Clinical psychological interventions 3
- Health psychology and rehabilitation

Master of Nursing (NS85)

CRICOS code: 012644J

Indicative fee: \$11,500 per semester

Campus: Kelvin Grove

Semester of entry: February and July

Duration: 1.5 years (3 semesters) full-time

Description:

The Master of Nursing provides the opportunity for registered nurses to acquire an advanced level of knowledge and skills in nursing practice and prepare for leadership roles in specialist areas of health care. Study areas available are:

- Ageing and dementia studies
- Professional studies
- Women's health

Course articulation:

The Graduate Diploma in Nursing (NS64, CRICOS code: 015086K, 2 semesters full-time) articulates with the Master of Nursing.

Students who complete the Master of Nursing may also be eligible for up to 96 credit points (one year) of advanced standing into the Doctor of Health Science (HL90).

- Ageing and dementia studies
- Professional studies
- Women's health

Academic entry requirements:

- A qualification equivalent to that of a registered nurse in Australia.
- Registration or authorisation to practise in country of origin or residence.
- A degree in nursing (or equivalent) from a recognised institution.
- Normally at least one year of appropriate post-registration clinical experience.

Program structure:

Semester 1 and semester 2

Students are required to complete the two semesters coursework in their major area of study before continuing on to the third semester of the Master of Nursing.

Semester 3

Students may follow one of the following pathways:

- Professional
- Research

Master of Psychology (Educational and Developmental) (IX20)

CRICOS code: 053489J

Indicative fee: \$11,300 per semester

Campus: Kelvin Grove

Duration: 2 years (4 semesters) full-time

Semester of entry: February

Description:

This course prepares students to work as educational and developmental psychologists, with specialisation in assessment, diagnosis or intervention.

You will also gain practical experience in QUT's Psychology and Counselling Clinic and external placements in school, mental health, or community settings.

Professional recognition:

Australian Psychological Society and the associate membership of the College of Educational and Developmental Psychologists.

Academic entry requirements:

Applicants must have completed an Australian Psychology Accreditation Council (APAC) approved four years of training, or equivalent, from QUT or another recognised institution, with a minimum GPA of 5 out of 7 or above in the fourth year of study. Additional

requirements include two referee reports, course questionnaire, conditional registration as a psychologist with the Psychology Board of Australia, and overall IELTS score of 7.5, with minimum individual scores of 7.0 for reading, writing, listening and speaking.

Other requirements:

Students require provisional registration as probationary psychologists with the Psychology Board of Australia, to undertake the supervised practical component and be issued with a Blue Card as required by the Commission for Children and Young People and Child Guardian Act (2000).

Example units:

- Applied development psychology
- Counselling and consultation in educational and developmental psychology
- Development and educational assessment
- Learning difficulties: assessment and intervention
- Supervised practicum (3 placements will be undertaken)
- Research thesis (48 credit points of study throughout the program representing 25% of total course requirements)

Master of Public Health (PU85)

CRICOS code: 009029C

Indicative fee: \$11,700 per semester

Campus: Kelvin Grove

Semester of entry: February

Duration: 1.5 years (3 semesters) full-time

Description:

The course trains public health professionals to protect, promote and restore health and well-being in populations. Students gain skills in epidemiology and biostatistics, and knowledge about health care systems and contemporary health issues.

Course articulation:

A Graduate Certificate in Public Health (PU30, CRICOS code: 048295F, one semester full-time) and a Graduate

Diploma in Public Health (PU60, CRICOS code: 020306E, 2 semesters full-time) are also available and fully articulate with the Master of Public Health.

Academic entry requirements:

Students come from many health-related fields, but should have a recognised degree in health, behavioural, social, or biological science and not less than one year relevant full-time professional experience. Accepted degrees would include: a four-year degree with first or second class Honours; or a three-year degree plus relevant postgraduate diploma. Admission on the basis of professional experience and/or research work will be considered.

Majors:

- Health services management
- Occupational and environmental health science
- Emergency and disaster management
- Health promotion
- Epidemiology and research methods
- Public health nutrition

There is also the option of not completing a major and choosing units from more than one stream.

Example units:

- Fundamentals of epidemiology and research designs
- Health care delivery and reform
- Health statistics
- Population health
- Project

Master of Applied Science (Research) (HL84)

CRICOS code: 007897G

Indicative fee: \$11,300 per semester

Campus: Kelvin Grove

Semester of entry: at any time

Duration: 1.5 years full-time

It may be possible to complete the requirements of the course in a shorter timeframe if a student has completed a four-year undergraduate degree (including Honours or other relevant programs), which include studies in research methods, literature review foundations and other coursework requirements. Provides preparation for PhD research in the field.

Description:

In this program you will develop advanced research in your field of interest, working with a supervisor to complete a thesis. Opportunities include participation in research seminars, teaching and publication.

Course articulation:

This course fully articulates with the Doctor of Philosophy (PhD). After 12 months in the course, students may apply to articulate to the PhD.

Academic entry requirements:

Bachelor degree in health science, applied science, or other approved degree from QUT, or an equivalent qualification with a GPA of at least 5 (on a 7-point scale), or submission of such other evidence of qualifications as will satisfy the Academic Board that the applicant possesses the capacity to pursue the course of study.

Application for admission:

The Master of Applied Science (Research) program is administered by the Health Academic Board through its Faculty Research Committee. Applications for admission should set out fully the candidate's intended course of study.

This should include the area of study, the coursework to be undertaken, the proposed title of the thesis, the aim of the proposed program of research and investigation, its background, the significance and possible application of the research program, and the research plan.

Approval of applications is subject to the receipt of a statement of support from the Head of School or nominee in which the proposed research program is to be undertaken.

Program structure:

Students undertake a program of research and investigation on a topic approved by the Faculty Research Committee. Research expertise within the Faculty covers activities in:

- Cancer
- Chronic Disease, Supportive and Palliative Care
- Environmental Health
- Equity and Health
- Exercise, Nutrition and Metabolism
- Health Services
- Infectious Disease
- Injury Prevention
- Mental Health and Wellbeing
- Musculoskeletal Disease
- Wound and Tissue Restoration
- Vision improvement

Students may be required to undertake an appropriate course of study concurrently with the research program which could include a program of assessed coursework; participation in university scholarly activities such as research seminars, teaching and publication; regular face-to-face interaction with supervisors; and a program of supervised research and investigation.

Potential students are encouraged to contact the relevant school or research centre prior to submitting an application to discuss the proposed research project, supervision and facilities.

Doctor of Psychology (Clinical) (PY50)

CRICOS code: 059989G

Indicative fee: \$11,300 per semester

Campus: Kelvin Grove

Semester of entry: February

Duration: 3 years (full-time)

Entry: February

Applications for this course close on 1 October each year. Entry into this course is competitive.

Description:

This program offers a combination of research, coursework, and practical units to develop advanced professional knowledge and skills in clinical psychology.

Careers:

- Case manager
- Clinician
- Health services management
- Health promotion and education
- Psychotherapist

Professional recognition:

The course is designed to meet the accreditation requirements of the Australian Psychology Accreditation Council (APAC), the Australian Psychological Society (APS) College of Clinical Psychologists, and the Psychology Board of Australia, and provides a graduate with eligibility to apply to register as a psychologist in Australia.

Academic entry requirements:

Applicants must hold an Australian Psychology Accreditation Council (APAC)-approved four years of training or its equivalent with First Class Honours or

Honours Class IIA from QUT or another recognised institution. Alternatively, a grade point average of 5.5 or above out of 7 in the Postgraduate Diploma in Psychology or equivalent course is required. Applicants are required to provide two referee reports and attend an interview to assess their interpersonal and research skills in a clinical context. In addition applicants are required to register with the Psychology Board of Australia as a psychologist with probationary conditions.

International students require an IELTS score of 7.0 (with minimum subscores of 7.0 for listening, reading, writing and speaking) and need certification by APAC that their degree is equivalent to an APAC-approved four years of training in psychology or its equivalent from QUT or another recognised institution.

Example units:

- Advanced assessment across the lifespan
- Advanced integrative psychotherapy
- Childhood psychopathology and treatment
- Clinical psychological assessment
- Clinical psychological interventions
- Clinical psychopathology
- Health psychology and rehabilitation
- Professional practice in clinical psychology
- Research thesis (part 1)
- Research thesis (1–6)
- Supervised practicum x 6

Note: Advanced integrative psychology and Advanced assessment across the lifespan are offered in alternate years.

Doctor of Philosophy (IF49)

CRICOS code: 006367J

Indicative fee: \$13,700 per semester

Campus: Kelvin Grove

semester of entry: at any time

Duration: 3 years (6 semesters) full-time

Description:

This program provides in-depth research training in a particular area of health while broadening a candidate's knowledge in ageing, physical activity, health and wellbeing, human behaviour, vision, social work and human services or accident and injury research. These specialisations are a guide only and enquiries on research in other related areas are welcomed (or refer to pg 43).

Academic entry requirements:

Applicants must hold a relevant first-class or second-class Division A Honours degree or an appropriate masters degree.

Program structure:

Candidates undertake a supervised program of research and investigation that results in the submission of a thesis. The program of study may be supported by some coursework related to the conduct of research and preparation of the thesis. Candidates are required to have regular communication with supervisors and to participate in university scholarly activities such as research seminars, events, and training.

Doctor of Health Science (HL90)

CRICOS code: 037680K

Indicative fee: \$11,200 per semester

Campus: Kelvin Grove

Semester of entry: February and July

Duration: 3 years (6 semesters) full-time

Description:

This doctoral research program allows students to identify problems that are relevant to their health profession and develop real outcomes that contribute to their workplace and prepare them for executive leadership positions. This course is ideal for professionals interested in developing a critical understanding of contemporary health issues, reflective practice skills and competency in purpose-driven research methods.

Academic entry requirements:

Applicants should hold a four-year degree (or equivalent) with first-class Honours or second-class Honours division A (or equivalent), or a relevant Masters degree AND two years practice in a position of professional responsibility appropriate to the proposed course of study.

Program structure:

Students complete one year (FTE) of coursework units in a major study area and in research methods and theory. Students then undertake a research component which consists of a single or series of research workplace-based or industry-linked projects that may be presented as a thesis or portfolio.

Coursework Component:

Major study areas (up to 5 units to be completed)

- Health promotion
- Health services management and policy
- Nursing
- Occupational and environmental health
- Public health
- Nutrition and Dietetics
- Available only to candidates eligible for registration as a nurse in Australia

Research/Methods Care units (two to be completed)

- Qualitative research
- Advanced quantitative research methods
- Health statistics
- Evidence-based practice
- Fundamentals of epidemiology and research design

Theoretical framework units (one to be completed)

- Advanced epidemiology
- Fundamentals of epidemiology and research design
- Intervention design and theories of change
- Health services management, leadership and change

Law and Justice

SANGEETHA RAJAMANIKAM Malaysia

Master of Intellectual Property Law

QUT's Intellectual Property Law program got my attention as it was linked with the World Intellectual Property Organization (WIPO). There are not many universities in the world with this collaboration. Our lectures are given by world-renowned professors, and professionals share their experience on Intellectual Property in their workplace. I have worked in many legal firms and private educational institutions since first graduating with an Economics degree. This Masters has helped me gain more in-depth knowledge in Intellectual Property and I'm more confident about my career opportunities.

Why choose Law or Justice at QUT?

QUT's Faculty of Law is one of Australia's leading law faculties, recognised for its focus on advancing the law and justice professions, and specialised academic expertise and research.

- We maintain close links with the law and justice professions in Australia and students have the opportunity to learn from practising professionals, visiting professors and leading experts from around the world.
- The WIPO-QUT Master of Intellectual Property Law is unique to the Asia-Pacific region, offered jointly by the United Nations' World Intellectual Property Organization (WIPO) and QUT.
- QUT is the only Australian university to offer a practical hands-on course component (i.e. Analyst's Notebook software), used by various government and law enforcement agencies worldwide.

Facilities

- State-of-the-art Electronic Moot Court, one of Australia's most advanced electronic courtrooms
- 24-hour computer labs with free high-speed internet
- Clayton Utz Law Library.
- Online study facilities including podcasts, cyber-tutorials, online quizzes and chat rooms.

Research strengths

Credit, commercial and consumer law
 Criminal justice
 E-business and E-government
 Health law
 Human rights and governance
 Intellectual property: knowledge culture and economy
 Intelligence and security
 Property and environment
 Scholarship of higher education learning in law and justice

Postgraduate study areas

Alternative Dispute Resolution
 Children and Law
 Criminal Forensics
 Criminal Justice
 Criminology
 Cyber Law
 Environmental Law
 Ethics
 Health Law
 Intellectual Property Law
 Intelligence and Security
 International and Comparative Law
 Media and Communications Law
 Policing
 Property Law
 Public Law
 Technology Law
 Violence

www.qut.edu.au/law

PRACTICAL LEGAL TRAINING (PLT)

Graduate Diploma in Legal Practice (LP41)

CRICOS code: 009034F

Indicative fee: \$22,600 (based on 7 units)

Campus: Gardens Point

Semester of entry: January and June

Duration: 24 weeks full-time

Description:

The Graduate Diploma in Legal Practice offers you the practical legal training (PLT) skills you need to become a competent entry-level legal practitioner.

- Includes a four-week placement in a law office, which we find for you if you do not already work in one.
- Learn by working on simulated legal problems and tasks, building up a portfolio of material that will be a guide and resource when practising law.

Careers:

- Barrister
- Crown law officer
- In-house lawyer
- Solicitor

Professional recognition:

The course satisfies the practical legal training requirements for admission to the legal profession in Queensland (admission as Australian lawyer). It complies with the Law Admissions Consultative Council's Competency Standards for entry-level lawyers and is approved by the Queensland Legal Practitioners Admissions Board.

Academic entry requirements:

An approved degree in law that satisfies the academic requirements for admission to the legal profession in Australia. Most Australian law degrees satisfy those requirements.

Course structure:

The course consists of a six-week 'skills school' that includes an eight-day on-campus attendance school. The next part of the course is a 14-week 'office program' that requires attendance on-campus Mondays, Tuesdays, Thursdays and Fridays for 14 weeks. The final part of the course is a four-week placement in a law office, which we arrange.

Graduate Certificate in Criminology (JS22)

Indicative fee: \$11,500

Campus: External offshore

Semester of entry: February and July

Duration: 1 year part-time

Description:

A Graduate Certificate in Criminology is ideal for those seeking employment with corrections, policing, government and corporate organisations or for those currently working in the area who want to advance their qualification.

- Study specific aspects of global and local criminal behaviour
- Complete online in one year part-time.

Academic entry requirements:

- A relevant and approved three-year undergraduate degree from a recognised tertiary institution, or
- Extensive and appropriate professional employment that the course coordinator deems to be appropriate.

Course structure:

The course comprises four units (48 credit points) consisting of one core unit, two specialist units and one elective unit.

Articulation to the Master of Justice:

A student who has successfully completed this course with a grade point average of 4.0 or better (on a 7-point scale) may articulate to the Master of Justice (Criminology) and receive advanced standing of 48 credit points from the Graduate Certificate in Criminology.

Careers:

- Investigator
- Policy officer

Graduate Certificate in Intelligence (JS29)

Indicative fee: \$11,000

Campus: External offshore

Semester of entry: February and July

Duration: 1 year part-time offshore

Description:

This program will develop relevant competencies, skills and knowledge in the intelligence discipline areas through a range of teaching strategies. It's suitable for students with an undergraduate qualification or for those who currently work or are seeking employment in the intelligence or investigating fields. The program can be completed in one year part-time offshore.

Academic entry requirements:

- A relevant and approved three-year undergraduate degree from a recognised tertiary institution, or
- Extensive and appropriate professional employment that the course coordinator deems to be appropriate.

Course structure:

The course comprises four units (48 credit points) consisting of one core unit, two specialist units and one elective unit.

Articulation to the Master of Justice:

A student who has successfully completed this course with a grade point average of 4.0 or better (on a 7-point scale) may articulate to the Master of Justice (Intelligence) and receive advanced standing of 48 credit points from the Graduate Certificate in Intelligence.

Careers

- Corrective services officer
- Customs officer, family services officer
- Information security specialist
- Investigator
- Police officer (Australian Federal)
- Police officer (State)
- Policy officer
- Risk manager

Master of Justice (JS54)

Indicative fee: \$11,000 per semester

Campus: External offshore

Semester of entry: February and July

Duration: 2–3 years part-time offshore

Description:

The Master of Justice is available with a major in either Criminology or Justice.

Criminology provides advanced postgraduate education in criminology and a complete foundation for justice professionals with careers in corrections, policing, government and corporate organisations. You will study crime and risk assessment in local and global context.

Intelligence covers studies in intelligence and investigation and extends the scope offered in the graduate certificate program to provide a complete foundation for intelligence and investigation professionals with careers in defence, policing, government and corporate organisations.

Academic entry requirements:

- A relevant and approved three-year undergraduate degree from a recognised tertiary institution with a grade point average of at least 4 (on a 7-point scale). Applicants without a relevant three-year degree must first complete the Graduate Certificate in Criminology.

Course structure:

The course comprises 12 units consisting of two core units, six specialist criminology units and four elective units.

Careers:

- Criminologist
- Customs officer
- Investigator
- Police officer (Australian Federal)
- Police officer (State)

Master of Intellectual Property Law (LW53)

CRICOS code: 067376C

Indicative fee: \$11,700 per semester

Campus: Gardens Point

Semester of entry: February

Duration: 1 year full-time

Description:

QUT is the only university in the Asia-Pacific to offer this degree with the support of the World Intellectual Property Organization (WIPO) and IP Australia. You will learn intellectual property law, policy and practice in an international context with an emphasis on the Asia-Pacific Region.

- Lectures are delivered face-to-face in intensive mode by international experts, with guest lectures by industry experts from WIPO and IP Australia.
- Study international conventions and treaties including the role of WIPO in global challenges such as climate change, public health and food security.

Careers:

- Intellectual property lawyer
- Trademark lawyer
- Patent lawyer
- Intellectual property law specialist
- In-house lawyer
- Crown law officer
- Barrister

Academic entry requirements:

A four-year bachelor degree in any discipline from QUT or an equivalent Australian or overseas institution. Applicants with a three-year bachelor degree plus professional experience in the field of intellectual property or a related area may be considered for entry.

Program structure:

Year 1, semester 1

- General introduction to intellectual property law
- Patents and biotechnological inventions
- Copyright and related rights
- Trademarks, domain names and geographical indications

Year 1, semester 2

- Industrial designs and plant variety protection
- Traditional knowledge and other emerging issues; interface between antitrust and IP rights
- Intellectual property management
- Research project

Graduate Certificate in Law (LW60)

CRICOS code: 027286C

Indicative fee: \$11,700

Campus: Gardens Point

Semester of entry: February and July

Duration: 1 semester full-time

Description:

The Graduate Certificate in Law allows you to further your knowledge and skills in one of 11 majors including corporate law, international and comparative law, criminology, media and communications law, and environmental law. You can also customise your degree with internal, external or block modes of teaching.

Academic entry requirements:

- A Bachelor of Laws from QUT or a comparable institution, or
- A professional qualification in law and at least three years of professional legal experience subsequent to first admission to practice.

Course structure:

International students are normally only able to enrol in a generic course, and may choose any coursework units to the value of 48 credit points. Not all units are offered in any one year. Generally, postgraduate units are offered on a two-year rotational basis, and are offered subject to staff availability and minimum enrolments being met. For the current schedule of units, visit www.qut.edu.au/law

A major will be awarded on graduation if the requisite units have been completed.

Articulation to the Master of Laws:

Students who complete this course may articulate to the Master of Laws if they meet normal entry requirements for the Master of Laws.

Careers

- Academic
- Barrister
- Solicitor

Master of Laws (LW51)

CRICOS code: 006380A

Indicative fee: \$11,700 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 1 year full-time

Description:

As a student in the Master of Laws you will expand your legal learning and develop critical evaluation of the law. You will also attain a high competence in legal research and writing.

- Choose to study one of seven majors: commercial law, criminology, environmental resources law, health law, intellectual property and technology law, international and comparative law, public law.
- Option to progress on to the Doctor of Juridical Science.

Careers

- Academic
- Barrister
- Crown law officer
- Government officer
- Solicitor

Academic entry requirements:

Bachelor of Laws from QUT or a comparable award and institution with a grade point average of at least 4 on a 7-point scale (or equivalent). The course is also open to prospective students who hold an approved professional qualification in law and have at least three years of approved professional legal experience.

Course structure:

The course comprises 96 credit points (eight units) of coursework units. Majors are offered in:

- Commercial Law
- Criminology
- Environmental Resources Law
- Health Law
- Intellectual Property and Technology Law
- International and Comparative Law
- Public Law

Students may nominate units to the value of at least 72 credit points from any particular major. The remaining 24 credit points can be chosen from any unit not included in the nominated major. Alternatively, students may complete a generic degree by choosing all 96 credit points from any of the majors.

The course allows students to undertake a limited number of approved units from other schools at QUT or from other universities (subject to meeting credit rules for the LLM).

Not all units are available in any one year. For the current schedule of units, visit www.qut.edu.au/law

*Note: International students must enrol in LWN162 The Australian Common Law System in their first semester of study and may only be able to undertake a 'generic' course (i.e. not a major) as a number of units are offered in alternate years only. A major will be awarded on graduation if the requisite units have been completed.

Bachelor of Justice (Honours) (JS40)

CRICOS code: 020313F
Indicative fee: \$11,800 per semester
Campus: Gardens Point
Semester of entry: February
Duration: 1 year full-time

Description:

As an honours student you will develop your research skills to an advanced level in the fields of critical criminology, investigations and policing, and justice policy. You will work with a supervisor to design, develop and implement a substantial research project in criminology, intelligence, policing or a broader topic related to the criminal justice system.

Careers:

- Community worker
- Corrective services officer
- Crime researcher
- Customs officer
- Investigator
- Justice administrator
- Project manager

Academic entry requirements:

A three-year Bachelor of Justice or equivalent, with a grade point average of at least 5 on a 7-point scale or other qualifications, including work experience or involvement in research that is deemed appropriate. Normally students would apply for admission to the Honours program at the end of the final year of the student's pass degree.

Master of Justice (Research) (JS52)

CRICOS code: 020310J
Indicative fee: \$11,600 per semester
Campus: Gardens Point
Semester of entry: At any time
Duration: 1 year full-time

Description:

The Master of Justice (Research) will advance your research and analytical skills in justice-related topics which will enhance your career possibilities. Your research topic will involve theoretical perspective and/or professional practice and application which will develop into your final thesis.

Careers:

- Academic
- Child protection officer
- Community corrections officer
- Criminologist
- Crown law officer
- Family services officer

Academic entry requirements:

- Bachelor of Justice (Honours) from QUT, OR a qualification that is deemed equivalent and possess appropriate research skills or approved substantial professional experience in the proposed field of research
- OR
- approved professional publications demonstrating advanced knowledge and research ability in the proposed field of research.

Master of Laws (Research) (LW52)

CRICOS code: 012654G
Indicative fee: \$11,600 per semester
Campus: Gardens Point
Semester of entry: At any time
Duration: 1 year full-time

Description:

This program will develop your research and analytical skills to advance your career possibilities and offer formal recognition for advanced original research.

Careers:

- Academic
- Barrister
- Crown law officer
- In-house lawyer
- Solicitor

Academic entry requirements:

Bachelor of Laws from QUT with at least Second Class Honours Division A, or an approved equivalent from another institution.

Doctor of Philosophy (IF49)

CRICOS code: 006367J
Indicative fee: \$14,000 per semester
Campus: Gardens Point
Semester of entry: At any time
Duration: 3 years full-time

Description:

Demonstrate your depth of knowledge in a broad field of learning to make an original and substantial contribution to knowledge in that field. Candidates are assessed on a program of supervised research and investigation that culminates in the production of a thesis. You must achieve set milestones and should have regular, face-to-face contact with supervisors and participate in University scholarly activities such as research seminars, teaching and publication.

Careers:

- Academic
- Administrator
- Social scientist
- Sociologist
- Solicitor
- Youth worker

Academic entry requirements:

Admission to the PhD program will depend on their academic aptitude, and the availability of supervision, infrastructure and resources needed for course of study. Candidates would normally hold a bachelor degree with at least 2A Honours (or equivalent) or a masters degree by research or a masters degree by coursework that included substantial research.

Course structure:

Candidates will be assessed on a program of supervised research and investigation that culminates in production of their thesis. Candidates should have regular, face-to-face contact with their supervisor and participate in university scholarly activities such as research seminars, teaching, and publication.

Doctor of Juridical Science (Coursework and Thesis) (LW50)

CRICOS code: 012652J

Indicative fee: \$11,600 per semester

Campus: Gardens Point

Semester of entry: any time

Duration: 2 years full-time

Description:

As an experienced legal professional, you will follow a program of applied research that relates directly to your professional and educational needs. You will make an original and significant contribution to knowledge in a broad field of learning.

Careers:

- Academic
- Barrister
- Solicitor

Academic entry requirements:

QUT Master of Laws or Master of Justice by Coursework with a grade point average of at least 5.5, or an approved equivalent from another institution; AND an applicant must also satisfy all of the following:

- minimum two years professional experience appropriate to the proposed course of study
- demonstrate a level of research experience and potential which is deemed acceptable to the Assistant Dean (Research) for example, by the publication of articles in refereed research journals
- demonstrate a sufficient command of the English language to complete the proposed course of study in that language.

Science and Engineering

ALEXANDER MALAVER Colombia

Doctor of Philosophy (PhD)

QUT School of Engineering Systems masters student Alexander Malavor is part of an international study on solar-powered environmental nano sensors.

'It is a truly international project, as the sensors are produced by QUT research partner, University of Brescia, and the solar cells are produced by the University of Roma Tor Vergata using the Australian company, Dyesol's patent, under the National and International Research Alliances Program Queensland. Our solar-powered sensor station is monitoring the concentration of gases relating to climate change and air pollution, all from a QUT Gardens Point roof. The sensors monitor the environmental concentration of pollutants, so people know in real time the concentration of these gases around roads and farms and can change their behaviour if necessary.'

Why choose Science and Engineering at QUT?

The Faculty of Science and Engineering is key to QUT's strategy to be a leader in the development of courses and research in the fields of science, technology, engineering and mathematics (STEM).

The Faculty delivers a range of postgraduate coursework and research programs across information communications technology, built environment and the sciences, designed to enable you to cross disciplinary boundaries and expand your career possibilities.

Global links

- QUT was the only Australian university appointed as a learning partner by Shell in a consortium (four universities) to support its global project academy
- We have entered into a collaborative research arrangement with CSIRO to undertake research that will enable civilian uses of Unmanned Airborne Vehicles (UAVs).
- We are the Area Academy Training Centre, Australia and New Zealand, for the Cisco Networking Academy Program (CNAP) and we maintain strong linkages with global companies such as Microsoft, SAP, Oracle and Infosys.

Facilities

Students have access to world-class facilities at our CBD campus and across distributed research precincts. Our labs and workshops house the latest high-tech equipment and computer software to provide students with the ultimate hands-on learning experience. QUT's new \$230 million Science and Engineering Centre will further integrate teaching and research in the STEM disciplines.

Other world-class facilities include:

- Aerospace flight simulator
- Architectural science and lighting laboratory
- Computer visualisation laboratory
- Human centred design and usability laboratory
- Mechatronics and Robotics Library
- Lighting and colour laboratory
- Mechanical workshop
- Research resources laboratory
- Student experiential learning centre
- Synthetic environment laboratory
- Timber, metals and plastics workshops

Research strengths

Chemistry, Physics and Mechanical Engineering

- Nanotechnology and Molecular Sciences
- Energy and Process Engineering
- Biomedical Engineering and Medical Physics
- Mechanical Sciences and Asset Management

Electrical Engineering and Computer Science

- Computational Intelligence and Signal Processing
- Computer Human Interaction
- Information Security
- Networks and Communications
- Power Engineering
- Robotics and Aerospace Systems

Information Systems

- Business Process Management
- Information Ecology
- Service Sciences

Civil Engineering and the Built Environment

- Construction and Project Management
- Planning and Property
- Civil Engineering

Mathematical Sciences

- Applied and Computational Mathematics
- Decision Science
- Statistical Science

Earth, Environmental and Biological Sciences

- Bioscience
- Earth Systems

www.qut.edu.au/science-engineering

Graduate Diploma in Applied Science (SC71)

CRICOS code: 020314E
Indicative fee: \$14,000 per semester
Campus: Gardens Point
Semester of entry: February
Duration: 1 year (2 semesters) full-time

Description:

This course gives you a one-year postgraduate qualification by coursework, with an optional minor research project. It will suit you if you are employed in industry and wish to undertake postgraduate study to upgrade your professional qualifications in one of the science disciplines.

Academic entry requirements:

A Bachelor degree in applied science or equivalent qualification, or other evidence of qualifications as approved by the Faculty.

Program structure:

Coursework program, or, in some disciplines, coursework and a minor research project, as approved by the Faculty. The assessed coursework may include advanced lecture courses, seminars, reading units, or independent study designed to focus on information retrieval skills. Coursework units are chosen from those in the Master of Applied Science course (SC80), and may contain units from other postgraduate courses, such as the Bachelor of Applied Science (Honours) program (SC60) or advanced undergraduate programs where the background of the student requires this. Students must complete a total of 96 credit points which may consist of between 60 and 96 credit points of coursework, and up to 36 credit points as the minor research project.

Graduate Certificate in Built Environment and Engineering (BN85)

CRICOS code: 060808G
Indicative fee: \$14,000 per semester
Campus: Gardens Point
Semester of entry: February and July
Duration: 1 semester full-time

Description:

This course is a pathway for a Masters program related to built environment and engineering.

Entry requirements:

A four-year full-time bachelor degree in a relevant discipline area; or a three-year full-time diploma and three or more years of relevant professional experience in

a relevant discipline; and a grade point average of 5.0 or more (on a 7-point scale) in that study, or an equivalent qualification determined by the Faculty.

Master of Engineering Management (BN87)

CRICOS code: 006368G
Indicative fee: \$12,500 per semester
Campus: Gardens Point
Semester of entry: February and July
Duration: 1 year (2 semesters) full-time

Description:

This course is ideal for practising engineers who want management qualifications with advanced engineering skills and knowledge

- Develop the analytical tools and methods to improve efficiency within manufacturing and service organisations.
- Study quality control, organisational infrastructure management, and development of decision support systems.

Entry requirements:

A four-year full-time Bachelor degree in a relevant engineering discipline area, with a grade point average of 5.0 or more (on a 7-point scale) or equivalent qualification determined by the Faculty. Applicants from a non-relevant background may gain entry through successful completion of BN85 Graduate Certificate in Built Environment and Engineering.

Careers:

- Engineering manager
- Logistics and supply chain manager
- Operations manager
- Quality control manager

Course structure:

Year 1 – Semester 1

- Project management principles
- Engineering knowledge management
- Communication, negotiation and leadership
- Total quality management

Year 1 – Semester 2

- Sustainable practice in built environment and engineering
- Asset and facility management
- Enterprise resource planning
- Integrated project

Early exit with a Graduate Diploma is available after completing two common units and two specialisation units.

Master of Engineering (EN50)

CRICOS code: 060811A
Indicative fee: \$12,600 per semester
Campus: Gardens Point
Semester of entry: February and July
Duration: 1 year (2 semesters) full-time

Description:

This course provides professional engineers with advanced knowledge, creativity, initiative, accountability and planning skills in selected engineering disciplines. Choose from majors in:

- Electrical
- Mechanical
- Transport
- Sustainable Energy

A 'No Major' option is also available.

Entry requirements:

A four-year full-time bachelor degree in a relevant engineering discipline area, with a grade point average of 5.0 or more (on a 7-point scale) or equivalent qualification determined by the Faculty. Applicants from a non-relevant background may gain entry through successful completion of BN85 Graduate Certificate in Built Environment and Engineering.

Careers:

- Civil engineer
- Electrical and computer engineer
- Electrical engineer
- Engineering technologist
- Mechanical engineer
- Medical engineer

Course structure:

Students will complete four core units + four optional units.

Core Units (48cp):

- ENN541 Research methods for engineers
- ENN542 Statistical and optimisation methods for engineers
- ENN590–1 project 1
- ENN590–2 project 2

Optional Units (48cp):

Electrical

- ENN580 Automated control systems
- Electrical specialisation unit 1
- Electrical specialisation unit 2
- Choose one unit from the optional units offered in EN50.

Mechanical

- ENN531 Advanced materials and engineering applications
- ENN532 Engineering modelling and optimisation
- ENN533 Advanced engineering design and maintenance
- Choose one unit from the optional units offered in EN50.

Transport

- ENN576 Transport planning and strategic modelling
- ENN579 Advanced traffic and transport operations
- ENN589 Intelligent transport systems
- Choose one unit from the optional units offered in EN50.

Sustainable Energy

- ENN550 Energy systems fundamentals
- ENN551 Renewable energy and energy storage systems
- ENN552 Concentrating solar power systems
- ENN553 Building energy systems

Elective Pool

- ENN560 System design
- BEN610 Project management principles
- BEN710 Sustainable practices
- AMN435 Communication, negotiation and leadership

This course structure is subject to change

Master of Infrastructure Management (BN88)

CRICOS code: 060807G

Indicative fee: \$12,500 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 1 year (2 semesters) full-time

Description:

This course aims to advance your skills and understanding of infrastructure asset planning and management.

- Develop knowledge of institutional assessments and the environmental, social, economical, and financial facets of infrastructure management.
- Learn methodologies in project management, asset management and planning.

Entry requirements:

A four-year full-time bachelor degree in a relevant engineering discipline area, with a grade point average of 5.0 or more (on a 7-point scale) or equivalent qualification determined by the Faculty. Applicants from a non-relevant background may gain entry through successful completion of BN85 Graduate Certificate in Built Environment and Engineering.

Careers:

- Asset manager
- Director of infrastructure planning and management
- Project manager

Course structure:

Year 1 – Semester 1

- Project management principles
- Infrastructure planning and management
- Communication, negotiation and leadership
- Water resource and waste management

Year 1 – Semester 2

- Asset and facility management
- Transport Infrastructure
- Sustainable Practice in built environment and engineering
- Integrated project

Early exit with a Graduate Diploma is available after completing two common units and two specialisation units.

Master of Project Management (BN89)

CRICOS code: 060815G

Indicative fee: \$12,300 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 1 year (2 semesters) full-time

Description:

This course will provide you with appropriate knowledge and experience in managing projects across a range of industries

- Learn to manage constraints in time, cost, quality; as well as social, political and environmental challenges.
- Be involved in real-world projects with practitioners from industry or major research centres.

Early exit with a Graduate Diploma is available upon completion of four units in the course.

Entry requirements:

A four-year full-time bachelor degree in a relevant engineering discipline area, with a grade point average of 5.0 or more (on a 7-point scale) or equivalent qualification determined by the Faculty. Applicants from a non-relevant background may gain entry through successful completion of BN85 Graduate Certificate in Built Environment and Engineering.

Careers:

- Project manager

Course structure:

Year 1 – Semester 1

- Communication, negotiation and leadership
- Project management principles
- Project scope and risk management
- Resources schedule and performance management

Year 1 – Semester 2

- Human resource and organisational culture
- Integrated project
- Procurement and delivery strategies
- Sustainable practice in built environment and engineering

Early exit with a Graduate Diploma is available after completing two common units and two specialisation units.

Master of Urban Development (UD50)

CRICOS code: 060809F

Indicative fee: \$12,300 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 1 year (2 semesters) full-time

Description:

The course is designed to offer graduates the full range of knowledge, skills and social understanding required to become a successful urban and regional planner.

Early exit with a Graduate Diploma is available upon completion of four units in the course.

Entry requirements:

A four-year full-time bachelor degree in a relevant engineering discipline area, with a grade point average of 5.0 or more (on a 7-point scale) or equivalent qualification determined by the Faculty. Applicants from a non-relevant background may gain entry through successful completion of BN85 Graduate Certificate in Built Environment and Engineering.

Careers:

- Urban and regional planner
- Consultant
- Regional planning manager
- Policy officer
- Corporate planning executive
- Community engagement consultant

Course structure:

Year 1 – Semester 1

- Project management principles
- Urban planning practice
- Master concepts and ethics seminar
- Communication, negotiation and leadership

Year 1 – Semester 2

- Regional planning practice
- Community planning
- Sustainable practice in built environment and engineering
- Integrated project

Early exit with a Graduate Diploma is available after completing two common units and two specialisation units.

Master of Applied Science (Research) (BN71)

CRICOS code: 007897G

Indicative fee: \$13,600 per semester

Campus: Gardens Point

Semester of entry: at any time

Duration: 2 years (4 semesters) full-time

Description:

From this research degree you will acquire advanced knowledge of applied science research methods, applied to the built environment.

Specialisations are available in all the design and built environment disciplines available in the Faculty.

Research studies normally include assessed coursework; participation in university scholarly activities such as research seminars, teaching and publication; regular meetings with supervisors; a program of supervised research and investigation; and preparation of a thesis.

Academic entry requirements:

Applicants must hold a four-year degree in an appropriate discipline with honours or equivalent qualification or a graduate diploma or masters by coursework degree in an appropriate discipline with a minimum grade point average of 5 out of 7 with relevant research or professional experience and/or other qualifications.

Master of Engineering (Research) (BN72)

CRICOS code: 003465J

Indicative fee: \$13,700 per semester

Campus: Gardens Point

Semester of entry: at any time

Duration: 2 years (4 semesters) full-time

Description:

This research program is designed for professional engineers and develops the skills to solve complex industrial problems.

- Specialise in Civil, Electrical, Mechanical, Medical, Environmental or Telecommunications Engineering,
- Research themes include Sustainability, Medical Engineering and Smart Systems.

Master of Research studies normally include assessed coursework; participation in university scholarly activities such as research seminars, teaching and publication; regular meetings with supervisors; a program of supervised research and investigation; and preparation of a thesis.

Academic entry requirements:

Applicants must hold a four-year degree in an appropriate discipline with honours or equivalent qualification or a graduate diploma or masters degree in an appropriate discipline with a minimum grade point average of 5 with relevant experience or professional experience and/or other qualifications.

Bachelor of Applied Science (Honours) (SC60)

CRICOS code: 009041G

Indicative fee: \$13,000 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 1 year (2 semesters) full-time

Description:

An honours degree builds on your undergraduate degree studies, through a combination of research and advanced coursework units within your science and technology specialisation.

- An ideal pathway for high-achieving graduates to enter the doctoral program (PhD)
- Access to specialist facilities, laboratories, hardware and software.

Professional recognition:

Relevant scientific professional bodies include Australasian Association of Clinical Biochemists, Australasian Institute of Mining and Metallurgy, AusBiotech Ltd, Australian Institute of Geoscientists, Australian Institute of Physics, Australian Mathematical Society, Australian Society for Biochemistry and Molecular Biology, Australian Society for Medical Research, Australian Society for Microbiology, Australian Society for Operations Research, Ecological Society of Australia, Geological Society of Australia, Royal Australian Chemical Institute, and Statistical Society of Australia. Eligibility for membership is based on the combination of units undertaken in the degree and the Bachelor of Applied Science course that underpins it.

Careers:

- Academic
- Analyst
- Direct pathway to postgraduate studies
- Researcher

Academic entry requirements:

QUT Bachelor of Applied Science, or equivalent, with a grade point average (GPA) of at least 5 (on a 7- point scale), including grades of at least 5 in all units directly relevant to the proposed Honours program. Application for admission should normally be made at the end of the pass degree, or within 18 months of completing that degree.

If you do not satisfy the above conditions but have demonstrated outstanding performance in only the final year of a degree, or your application is based on other factors including work experience or involvement in research, you may be admitted at the discretion of the Executive Dean of Faculty. Please note that for the Mathematics major, other degrees with major studies in Mathematics (including Statistics) may provide suitable entry to the program.

Bachelor of Information Technology (Honours) (IT28)

CRICOS code: 017323G

Indicative fee: \$11,700 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 1 year (2 semesters) full-time

Description:

An honours degree builds on your undergraduate degree studies, through a combination of research and advanced coursework units within your information technology specialisation.

- An ideal pathway for high-achieving graduates to enter the doctoral program (PhD)
- Access to specialist facilities, laboratories, hardware and software.

Careers:

- Academic
- Analyst
- Direct pathway to postgraduate studies
- Researcher

Academic entry requirements:

A bachelor degree from QUT or its equivalent, completed within 18 months prior to enrolment with a minimum grade point average of 5 (on a 7-point scale) or its equivalent. Alternatively students may be eligible if they have demonstrated outstanding performance in the final year of the degree; OR work experience or research considered appropriate by the Course Coordinator.

Program structure:

When students complete the program they will graduate with a Bachelor of Information Technology (Honours), having completed 96 credit points, consisting of one compulsory research unit, three Honours electives, and an Honours dissertation.

Except in special circumstances as approved by the Dean, the requirements for an Honours degree must be completed within two successive years following first enrolment.

Example electives:

- Enterprise systems applications
- Enterprise data mining
- Interaction design
- Multimedia systems
- E-commerce site development
- Information systems consulting
- Information technology project management
- Business process management
- Advanced java programming
- Advanced web applications development
- Enterprise software architecture
- Network planning and deployment
- Wireless and mobile networks
- Modelling and animation techniques
- Games production

Master of Business Process Management (IT53)

CRICOS code: 062622A

Indicative fee: \$11,700 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 1.5 years (3 semesters) full-time

Description:

The degree will provide you with the skills and knowledge to manage business processes and design information systems to effectively support these processes. You will learn to translate business strategies into solutions, to increase operational efficiencies. Undertake study in areas of:

- corporate systems and business process management
- professional services (including project management and IT consulting)
- enterprise systems and information and knowledge management

Careers:

- Business development manager
- Chief process advisor
- Process/IT consultant
- Process/Project manager
- Senior business analyst

Academic entry requirements:

A Bachelor degree with a grade point average of at least 4.5 (on a 7-point scale) and demonstrated competence in the basic skills and concepts of personal or office computer usage. Alternatively, applicants without a Bachelor degree may submit evidence of significant full-time IT work experience or other training equivalent to satisfy the Faculty.

Example units:

- Introduction to research
- Enterprise systems
- Database design
- Enterprise systems applications
- Technology management
- Information systems consulting
- Web development

- Applications programming
- Software development with oracle
- Information security fundamentals
- Cryptology and protocols
- Scientific programming
- Project unit

All selections are subject to approval of the Course Coordinator

Students may be eligible to exit with a Graduate Certificate in Business Process Management after completing 48 credit points (four units) consisting of the four specified units.

Or students may also be eligible to exit with a Graduate Certificate in Corporate Systems Management after completing 48 credit points (four units) consisting of the four specified units.

Master of Information Technology (IT43)

Master of Information Technology Advanced (IT44)

CRICOS code: 003776E (IT43); 053123F (IT44)

Indicative fee: \$11,800 per semester

Campus: Gardens Point

Semester of entry: February and July*

Duration: 1.5 years (3 semesters) full-time (IT43); 2 years (4 semesters) full-time (IT44)

Description:

The Master of Information Technology has a flexible program structure, giving you the opportunity to move readily into Information Technology related research streams within the Faculty or explore topics through participation in industry-related projects.

Professional recognition:

All majors within the course are accredited by the Australian Computer Society (ACS), except Games Design, and Games Production which have associate recognition. ACS accreditation is internationally recognised by the Seoul Accord. The Library and Information Science specialisation is professionally recognised by the Australian Library and Information Association (ALIA).

Academic entry requirements:

A bachelor degree (in any field), with a grade point average (GPA) of at least 4.5 (on a 7-point scale). It is assumed that applicants possess basic skills and competency in personal or office computer usage.

Alternatively, applicants without a bachelor degree may submit evidence of significant full-time IT work experience (at least five years) or other training equivalent as approved by Faculty.

Program structure:

The program is available in different major specialist areas, or you have the option to study across the breadth of information technology with no major. You may be able to graduate with a major if you are able to complete up to seven* specific unit requirements for a major within the specified course duration.

Majors and example units

Digital Environments

- Mobile devices
- Enterprise 2.0
- Web 2.0 applications
- User experience
- New media studies

Enterprise Systems

- Enterprise systems
- Enterprise systems applications
- Technology management
- Case studies in enterprise systems or minor project 1
- Enterprise data mining and data analysis
- Software development with oracle

Games Design

- Computer games studies
- Fundamentals of games design
- Interaction design
- Advanced games design
- Games production
- Multimedia systems
- Modelling and animation techniques
- Real time rendering techniques
- Artificial intelligence for games

**Games Design is only available for February entry.*

Games Production

- Computer games studies
- Games production
- Advanced readings 1
- Advanced readings 2

Information Management

- Prince 2
- Information resources
- Information management
- Management issues for information professionals
- Web content reliability
- User experience
- Project
- Information literacy education
- Enterprise data mining and analysis
- Cyberlearning: information and knowledge in the digital age

Network Management

- Internet protocols and services
- Network administration
- Network planning and deployment
- Advanced network management
- Introduction to research
- Wireless and mobile networks
- Security technologies

Security

- Security technologies
- Introduction to research
- Cryptology and protocols
- Advanced cryptology
- Computer forensics
- Cybercrime
- Applications of discrete mathematics

Software Architecture

- Algorithms and data structures
- Software engineering principles
- Enterprise software architecture
- Internationalisation of software

Library and Information Studies

* This major is only available for February entry (full-time mode).

To graduate with this major you must complete nine units.

Pathways to further study:

Both the Master of Information Technology and Master of Information Technology–Advanced provide pathways for entry to a PhD program as well as the Doctor of Information Technology. If you wish to use the Masters program as a pathway to a PhD program you should select four advanced research or project units as electives.

Master of Lighting (PH82)

CRICOS Code: 058287A

Indicative fee: \$12,100 per semester

Campus: Gardens Point

Semester of entry: February

Duration: 1.5 years (3 semesters) full-time

Description:

This course is designed for people working in all areas of the lighting industry, as well as architects and engineers whose work includes some area of lighting. It entails basic core material, lighting applications and design, and an opportunity to undertake work-related projects in the student's areas of interest.

Academic entry requirements:

An appropriate bachelor degree. Students with significant relevant work experience in some areas of the lighting industry may be considered for alternative entry into pathway programs.

See www.lighting.qut.edu.au for more details.

Course structure example:

Year 1, Semester 1

- Vision, colour and photometry
- Lamps and luminaires
- Applied lighting
- Reading Topic 1

Year 1, Semester 2

- Lighting design
- Sustainability and human factors
- Advanced lighting design
- Lighting applications

Year 2, Semester 1

- Best practices in lighting
- Lighting project (24 credit points)
- Reading topic 2

Early exit with a Graduate Certificate or Graduate Diploma is available after successfully completing respective course requirements.

Master of Mathematical Science (MA85)

Graduate Diploma in Mathematical Science (MA75)

Graduate Certificate in Mathematical Science (MA65)

CRICOS code: 046042K (MA85), 046041M (MA75) and 046044G (MA65)

Indicative fee: \$11,700 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: MA85 1.5 years (3 semesters) full-time; MA75 1 year (2 semesters) full-time, MA65 0.5 years (1 semester) full-time

Description

This course enables you to develop your knowledge and skills in one or more areas of the mathematical sciences. Strands available include mathematical modelling/applied mathematics, computational mathematics, statistics/statistical modelling, quantitative analysis/financial mathematics and operations research.

Careers:

- Quantitative analyst
- Statistician

Academic entry requirements:

A Bachelor degree in any discipline.

Students who do not have sufficient background in introductory calculus, linear algebra and statistics may be advised to enrol in the Graduate Certificate in Mathematical Science (MA65) as a pathway to Masters.

Strands and example units:

Mathematical modelling/applied mathematics

- Applied mathematics 3
- Advanced mathematical modelling
- Partial differential equations
- Analysis
- Mathematics of fluid flow
- Applied mathematical modelling

Computational mathematics

- Computational mathematics 3
- Computational mathematics 4
- Applied mathematics 3
- Calculus and differential equations
- Algebra and analytic geometry
- Introduction to scientific computation

Statistics/statistical modelling

- Statistical inference
- Statistical techniques
- Time series analysis
- Applied statistics
- Bayesian data analysis
- Applied time series analysis
- Statistical modelling of financial processes

Quantitative analysis/financial mathematics

- Statistical inference
- Statistical techniques
- Time series analysis
- Financial mathematics
- Applied statistics
- Bayesian data analysis
- Applied time series analysis
- Mathematics of finance
- Statistical modelling of financial processes

Operations research

- Operations research
- Advanced techniques in operations research
- Calculus and differential equations
- Algebra and analytic geometry
- Statistical modelling 1
- Operations research 2

There may be some limitation of strand choice depending on your educational background.

Master of Applied Science (Research) (SC80)

CRICOS code: 007897G

Indicative fee: \$12,400 per semester

Campus: Gardens Point

Semester of entry: At any time

Duration: 1.5 years (3 semesters) full-time

Description

This degree consists of coursework that can comprise up to one-third of the course, and research, which must be at least two-thirds of the course.

Academic entry requirements:

A Bachelor of Applied Science degree or equivalent qualification, or other evidence of qualifications that satisfy the Faculty.

A full-time candidate who does not hold an Honours degree appropriate to the course of study will normally be required to complete both course and research work, including submission of the thesis for examination during a period of registration of 24 months.

Research areas:

Please refer to the areas listed on page 63, column 3.

Further details on areas of research interest and contact details are available online at www.qut.edu.au/research

Master of Information Technology (Research) (IT60)

CRICOS code: 020309B

Indicative fee: \$11,300 per semester

Campus: Gardens Point

Semester of entry: At any time

Duration: 1.5 years (3 semesters) full-time

Description:

This program will provide you with specialist education in information technology through a program that involves either an original contribution to knowledge or an original application of existing knowledge. Your research can be done in the Faculty, your place of employment or a sponsoring institution.

Entry requirements:

An approved IT bachelor degree from a recognised tertiary institution or an equivalent qualification, with a grade point average of 5 (on a 7-point scale). Alternatively, an approved degree from a recognised tertiary institution PLUS evidence of professional experience and skills to satisfy the Academic Board that the applicant possesses the capacity to pursue the course of study. The evidence should include details of any project or research activities undertaken.

An essential step in gaining admission to the degree is the choice of a research topic and the formulation of a research plan which meets with the Faculty's approval. Students should discuss their research proposal with Faculty staff at an early stage.

Research areas:

Please refer to the areas listed in column 3.

Further details on areas of research interest and contact details are available online at www.qut.edu.au/research

Program guide:

This program involves supervised research and investigation, culminating in a thesis. The degree may include some coursework in support of the conduct of research and preparation of the thesis. You will be required to have regular face-to-face interaction with supervisors and to participate in University scholarly activities such as research seminars, teaching and publication.

Doctor of Information Technology (IT81)

CRICOS code: 063035A

Indicative fee: \$11,400 per semester

Campus: Gardens Point

Semester of entry: At any time

Duration: 3 years (6 semesters) full-time

Description:

This course is a professional doctorate oriented towards the enhancement of professional practice and designed to focus on applied investigation and problem solving.

Academic entry requirements:

Industry experience in a field relevant to the professional doctorate and one of the following:

- four-year bachelor degree or its equivalent with first-class or second-class honours division A
- Masters degree
- three-year bachelor degree and industry experience
- an equivalent combination of experience and/or education and training.

Students with exemplary professional practice who do not meet one of the above criteria may still be eligible to apply.

Research areas:

Please refer to the areas listed on page xx

Further details on areas of research interest and contact details are available online at www.qut.edu.au/research

Program structure:

The degree consists of 288 credit points of which up to 96 credit points are coursework. Coursework and elective units are normally completed within the first year. The coursework units are aimed at preparing you to apply research techniques to your selected industry problem. The balance is completed as a research project. The outcomes of the project may be a traditional thesis, publications and/or creative works. You will be required to have regular interactions with supervisors and to participate in University scholarly activities such as research seminars and publications. This program will help you develop a high level of research skill and analysis and make an original contribution to knowledge and professional practice.

Doctor of Philosophy (IF49)

CRICOS Code: 006367J

Indicative fee: \$13,700 per semester

Campus: Gardens Point

Semester of entry: February and July

Duration: 3 years (6 semesters) full-time

Description:

The Doctor of Philosophy (PhD) in Science and Engineering will suit graduates with an honours or masters degree who wish to seek highly paid employment prospects in industry, research organisations and universities.

Your research must reveal high critical ability and powers of imagination and synthesis and may be in the form of new knowledge or significant and original adaptation, application and interpretation of existing knowledge.

Academic entry requirements:

First class or second class division A honours degree, an appropriate masters degree (research or coursework), or a professional doctorate, from a recognised institution. Masters degree by coursework and professional doctorates must contain a significant research component, of no less than 33 per cent of the total degree, and must have a GPA of at least 5.5 on a 7-point scale.

Program structure:

When enrolling in the doctoral program, students can undertake an approved project in any field of interest supported by a research area within Science and Engineering. This includes discipline areas such as:

- Chemistry, physics and mechanical engineering
- Biomedical engineering and medical physics
- Nanotechnology and molecular science
- Mechanical systems and asset management
- Energy and process engineering
- Process engineering and sustainable energy
- Mathematical science
- Applied and computational mathematics
- Decision science
- Statistical science
- Information system
- Business process management
- Service sciences
- Information sciences and management
- Electrical engineering and computer sciences
- Computer-human interaction
- Computational intelligence, signal and image processing
- Networks and communications
- Information security
- Robotics and aerospace systems
- Power engineering
- Earth, environmental and biological sciences
- Bioscience
- Earth systems
- Civil engineering and the built environment
- Civil engineering
- Construction and project management
- Property and planning

For details on how to find a supervisor and research area, please visit www.qut.edu.au/research

Assessment is based on a program of supervised research and investigation, culminating in the production of a thesis.

Coursework programs for researchers and research administrators

Master of Research Management and Commercialisation (IX99)

Indicative fee: \$10,800 per semester
Campus: External
Duration: 3 semesters full-time* or 6 semesters part-time
Semester of entry: February, July and November

Graduate Certificate in Research Commercialisation (IX97)

Indicative fee: \$10,800 per semester
Campus: External
Duration: 1 semester full-time* or 2 semesters part-time
Semester of entry: February, July and November

Program objectives:

These courses are designed for research students, researchers and professional managers of research.

The Graduate Certificate in Research Commercialisation is designed to develop the skills and capacity to identify the commercial potential of your research. This includes the development and implementation of a strategy and business plan for commercialisation. You may also choose to develop skills in project managing your research, leadership, entrepreneurship or managing your research career. You can also build knowledge foundations in research and development (R&D) management and the relationship between research and public policy.

The Master of Research Management and Commercialisation is particularly suited to current or aspiring research leaders, administrators, research managers and professionals in corporations, universities

and the public sector. The Masters builds on the content of the Graduate Certificate and allows you to develop a deeper understanding of the context and strategic issues involved in R&D management in addition to key skills in commercialisation strategies for research. You can tailor the course to your needs by applying these ideas and concepts to issues of relevance to you, and where possible, undertake assessment through workplace-based projects.

Students enrolled in the Masters level course can choose to exit with an award of Graduate Diploma in Research and Development Management following the completion of eight approved units.

*Full-time enrolment is dependent on unit offerings

Why choose QUT for research coursework programs?

Online delivery of material makes these courses ideally suited to busy students or professionals and provides an opportunity to develop global career networks. This environment allows students to share experiences and best practice under the guidance of expert online moderators.

Access to the latest thinking and trends can help you face the challenge of operating in the context of a rapidly changing global research environment. You may also encounter opportunities to develop international research linkages and collaborations.

These courses are fully online and offered through the e-Grad School across the five Australian Technology Network universities.

Academic entry requirements:

Applicants for the Graduate Certificate or the Masters should normally possess a four-year undergraduate degree or a three-year undergraduate degree plus either an Honours year or postgraduate coursework year in any discipline.

Applicants who do not meet these academic requirements may be eligible to enter the course on the basis of professional activities completed in research management, research commercialisation or related fields.

Further information

For further information about these courses please contact the QUT Research Students Centre on phone +61 7 3138 4475 or +61 7 3138 5306, email research.enquiries@qut.edu.au, or visit www.egradschool.edu.au

Entry requirements and admissions information

Entry requirements

Minimum academic and English entry requirements must be met in order to gain admission to QUT courses. These requirements can be found at www.qut.edu.au/international/find-a-course

The eligibility of a student to attend QUT cannot be confirmed until an application has been received and assessed by Admissions.

Credit for prior learning

QUT has arrangements with a number of overseas tertiary institutions where your prior studies may count as credit towards your QUT course. To be considered for credit please indicate on your application form and include your course information with your application for individual assessment.

Application procedures

An international student is any student who is not a citizen of Australia or New Zealand, has not been granted permanent residency in Australia or does not hold an Australian permanent humanitarian visa at the commencement date of the course.

To apply please complete a QUT F Form and lodge it with QUT Admissions (see back cover for contact details). Certified copies of award certificates and academic transcripts, including English translations where necessary, must be provided. If you require English language study please complete and submit the form available at www.qut.edu.au/qutic. Some courses require additional entry requirements including work experience, folios, audition – please refer to the specific course entry requirements.

A non-refundable application fee of A\$55 (\$50 + 10% GST) must also be included. If you are successful and subsequently accept a place at QUT the A\$55 will be deducted from your first semester's tuition fees.

Research higher degrees

To apply for a research program at QUT you will need to:

- Choose a research area and find a supervisor – for details visit www.qut.edu.au/research
- Complete an FR form and research proposal – section 3 of the application form provides details of what is required in your proposal.

Once your completed application is received it will be forwarded to the appropriate research area within the faculty where a decision will be made on whether your proposal can be supported and a supervisor is available. We will inform you of the outcome.

Application forms can also be downloaded from www.qut.edu.au/international/apply

How to apply

Step 1

Find a course www.qut.edu.au/international/find-a-course. Check you meet the academic and English entry requirements, and also make sure to check any key entry dates, course costs, and whether you may be eligible for credit for prior learning.

Step 2

Submit your application, including the application fee and all certified supporting documents, to QUT or your agent.

Step 3

If your application is successful, we'll send you an offer letter and an acceptance of offer form. Ensure you meet all conditions (if any) and return your signed Acceptance of Offer form and first payment to Admissions or your QUT agent.

Step 4

We will issue you an electronic confirmation of enrolment (eCoE) once you've returned your Acceptance of Offer form and paid your fees. Use your eCoE to organise your student visa through an Australian embassy or consulate.

Step 4

You will then need to prepare to come to Brisbane – we recommend that you arrive two weeks before your course starts so that you have enough time to find accommodation and settle in. International Student Services provide information regarding pre-departure, organising accommodation and airport reception, at www.student.qut.edu.au/international When you arrive, you must attend international orientation, where you will find out more about enrolment and your classes.

International student fee and refund policy

1. Overview

- 1.1 This policy outlines QUT's principles and guidelines for the payment of international student fees and refunds. The policy complies with the requirements of the Education Services for Overseas Students (ESOS) Act 2000¹, the ESOS National Code of Practice, and observes the principles of the Universities Australia Code of Practice in the Provision of Education to International Students², and the National English Language Teaching Accreditation Scheme (NEAS)³.
- 1.2 All international students commencing and continuing their enrolment in any teaching period are required to pay tuition fees on a full fee paying basis, including those holding Australian bridging and temporary visas. An international student is defined as a student who does not hold citizenship of Australia or New Zealand, or an Australian permanent visa.

2. Application Fee

- 2.1 There is an application fee payable on all international applications (F/FR forms). Exceptions include study abroad (SE form) and exchange applications, and those applications received by QUT staff or their delegates at promotional events, exhibitions, seminars and current QUT students. Applications from visiting students (V form) which are submitted by the published due date are not liable for an application fee, however a fee is payable for late lodgement.
- 2.2 This section is currently under review. The application fee paid will be deducted from the first teaching period's tuition fee when accepting an offer of a place at QUT.
- 2.3 There is a non refundable registration fee for English Language Program applications.

3. Fee Calculation

- 3.1 International tuition fees are set in accordance with QUT Student Rule 24(4), reviewed annually, published in QUT international publications, and in Table C on the QUT student services website, www.student.qut.edu.au/fees-and-finances/study-costs/fee-schedule/table-c-international-student-tuition-fee
- 3.2 International tuition fees are determined at a unit level and normally increase each year. The total amount payable for each teaching period is the sum of fees for individual units. The exception is study abroad programs, which are charged on a flat rate semester basis. International course fees are published in Table C on the QUT student services website, www.student.qut.edu.au/fees-and-finances/study-costs/fee-schedule/table-c-international-student-tuition-fee
- 3.3 Transitional arrangements exist for certain students offered prior to 2008 and are charged on a pro rata basis according to the course fees for a standard course load in the applicable year.
- 3.4 International student tuition fees include course tuition fee, laboratory deposits (if applicable), airport reception upon arrival⁴, accommodation service (excluding homestay)⁴, and English language support⁴.
- 3.5 International student tuition fees do not include textbooks, Student Guild fees, Overseas Student Health Cover (OSHC), additional compulsory course costs⁵, computer costs, stationery, photocopying, food, accommodation, transportation, or leisure activities.
- 3.6 The finalisation of the number of credit points in which a student is enrolled takes place at Census date of each teaching period.
- 3.7 If students withdraw from subjects after the Census date of the teaching period in which they are enrolled, they will still be liable to pay the tuition fee for those subjects.
- 3.8 If students enrol in additional credit points they will be required to pay additional tuition fees at the equivalent rate per credit point or the published unit rate.
- 3.9 If students withdraw from units, they will be required to pay tuition fees for the remaining enrolled units at the equivalent rate per credit point or the aggregate of the published unit rates.
- 3.10 If students undertake subjects during a summer program they will be required to pay tuition fees for those subjects at the same credit point rate that would normally be charged or the published unit rate.
- 3.11 If students fail a subject and are required to repeat that subject, they will be charged the full equivalent rate per credit point or the published unit rate for that subject.
- 3.12 If a student withdraws from a double degree, or exits early (graduates) with one of the single degrees, and continues their enrolment in the remaining single degree, the fee payable will be as described in Section 3.2.
- 3.13 If students cancel/withdraw from their course for any period and re-enrol in a later session, they must pay the fees as described in Section 3.2.

1 The ESOS Act and National Code of Practice can be viewed online at: <https://aei.gov.au/Regulatory-Information/Education-Services-for-Overseas-Students-ESOS-Legislative-Framework/ESOS-Act/Pages/default.aspx>

2 The AVCC Code of Practice in the Provision of Education to International Students can be viewed online at: www.universitiesaustralia.edu.au/page/policy-advocacy/international/code-of-practice/

3 Information on NEAS accreditation can be viewed online at: www.neas.org.au/

4. Research Higher Degree Students (PhD, Professional Doctorate and Research Masters)

- 4.1 Most research students are able to commence their studies at any time in the year. Tuition fees are time based and will be pro-rated for the first teaching period based on the students commencement date.
- 4.2 Teaching periods for research students are January to June and July to December. There is no summer semester for research students.
- 4.3 External research students may enrol on a full-time or part-time basis. Fees are charged in accordance with the published international tuition fee rates. These tuition fees can also be charged on a pro-rata time basis.
- 4.4 Students who submit their thesis after the Census date for the teaching period will be required to be enrolled for that teaching period and to pay the pro-rata time based tuition fee.

5. International Students on US FFEI Financial Aid Program

- 5.1 Students who are participants in the US Federal Student Aid Program are required to observe QUT's Fee and Refund policy, and the policies and regulations of the US Government in relation to this Program, including Title IV refunds.

In the event of a Title IV refund, QUT will process the student's Title IV refund and then apply the QUT Fee and Refund policy. Once the Title IV refund is complete, students may then apply for a refund if there are additional fees in their account, or be liable for any outstanding fees in accordance with the QUT Fee and Refund policy. Information on US Federal Student Aid policies/regulations is available online at www.studentaid.ed.gov/PORTALSWebApp/students/english/index.jsp

6. Fee Payment

- 6.1 Fees must be paid in Australian dollars, either in the form of a cheque or bank draft made payable to QUT, and drawn on an Australian branch of a recognised international bank or by telegraphic transfer or credit card (MasterCard, Visa and American Express accepted). Continuing international students can use BPay to pay their fees.
- 6.2 Commencing tuition fees are payable in advance. Fees payable for continuing teaching periods are due by the date stated on the Tax Invoice accessed via eStudent. Email notification is forwarded to the student email account when the Tax Invoice is available on-line. A late fee applies to payments received after the due date.
- 6.3 QUT can only accept payment for tuition fees and other associated course costs. QUT cannot accept payment for living or personal expenses.

7. Non Payment of Fees

- 7.1 Fees must be paid by the due date in order for enrolment in the current teaching period to be confirmed.
- 7.2 Failure to pay the required fees on time will result in an encumbrance against the student's record and suspension of access to all University Services. A late penalty fee will be levied on the outstanding amount. The student may be provided additional time to pay any outstanding fees, after which time the enrolment in the current and any future semesters will be cancelled. International student visa holders whose enrolment is cancelled for non payment of fees will be reported to the Department of Education, Employment and Workplace Relations in accordance with the National Code. This may have implications on the student's visa.

- 7.3 If a student's enrolment is cancelled for non payment of fees, a fee liability will remain in accordance with section 9. Re-instatement of enrolment will only be possible after payment of all outstanding debts and approval from the Director, SBS. Readmission in a subsequent teaching period is subject to payment of all outstanding debts and meeting all admission requirements. If a student is readmitted, the tuition fees will be initially charged at the fee rate applicable for the year of their return to the course and thereafter as described in Section 3.

- 7.4 If students are experiencing difficulties in making fee payments, special payment arrangements can be made in exceptional circumstances.

8. Leave of Absence

- 8.1 Leave of absence will only be approved for international student visa holders under exceptional medical or compassionate (bereavement) grounds (The National Code Standard 13). Leave of absence is not normally available to commencing students. Tuition fees will not be charged if Leave of Absence is requested and approved prior to the start of the teaching period.
- 8.2 When returning from approved leave of absence international students will be charged as described in Section 3, unless they had accepted an offer to the course (for which leave of absence was granted) before 31 December 2007.

4 For all courses other than English language courses. Students undertaking English language courses pay a separate charge for airport reception and accommodation services. Service charges are non-refundable.

5 Information on the additional compulsory course costs is available at: www.student.qut.edu.au/fees-and-finances/study-costs/additional-compulsory-course-costs

9. Refunds

9.1 Course not commenced

Students commencing a new course who withdraw from that course before the commencement date of the teaching period:

9.1.1 English Language Courses:

- More than 28 days before the teaching period commences, will receive a full refund of all tuition fees paid for that course.
- 28 days or less before the teaching period commences, 20 per cent of the total unused tuition fees paid for that course will be retained.
- If students have accepted a package program of English language course(s) and non English language courses, 10 per cent of the non English course tuition fee is retained.

9.1.2 All other students

All fees refunded, except 10 per cent of the first teaching period's published tuition fee for that year.

9.2 Course not commenced (exceptional circumstances)

9.2.1 Exceptional circumstances may be accepted as grounds for a full or partial refund of fees for students who are unable to commence or cancel their course, subject to the provision of acceptable documentary evidence in support of the refund application. Exceptional circumstances may include: illness or disability, death of the student or a close family member (parent, sibling, spouse or child), or political, civil or natural event which prevents full payment of fees.

9.2.2 Students who are unable to obtain a visa for studying in Australia, or are unable to meet all of the conditions stated in the letter of offer, will receive a full refund of tuition fees on supply of appropriate documentation (eg. letter of visa rejection from Australian Diplomatic Mission).

9.3 Cancel Course / Leave of Absence after commencement (including continuing students)

Students who cancel their course, or successfully apply for Leave of Absence on or after commencement in the following teaching periods:

9.3.1 English Language Courses

- After commencement of the teaching period, will not receive a refund of tuition fees for that teaching period. Will receive the balance of any unused tuition fees, less 20 per cent paid for other teaching periods in that course.
- If students have accepted a package program of English language course(s) and non English language courses, 10 per cent of the non English course tuition fee for the first teaching period published for that year.

9.3.2 Teaching periods of 6 weeks duration or less (except English language courses)

- Within first 2 weeks of teaching period commencement date, will be charged 50 per cent of the tuition fee invoiced for that teaching period. Any remaining fees will be refunded.
- After first 2 weeks of the teaching period commencement date, will not receive a refund of fees for that teaching period.

9.3.3 Teaching periods of 12 weeks duration or more (except English language courses)

- Within first 4 weeks of teaching period commencement date, will be charged 50 per cent of the tuition fee invoiced for that teaching period. Any remaining fees will be refunded. Continuing research higher degree students (students undertaking a PhD (Doctor of Philosophy), Professional Doctorate or Research Master degree) will receive a full refund of fees.
- After first 4 weeks of the teaching period, will not receive a refund of fees for that teaching period.

9.4 Cancel Unit(s) after Commencement (excluding English language courses)

Students who withdraw from a unit on or after commencement in one of the following teaching periods:

9.4.1 Teaching periods of 6 weeks duration or less

- Within first two weeks of teaching period commencement date, will receive a full tuition fee refund for that unit.
- After two weeks of the teaching period commencement date, will not receive a tuition fee refund for that unit.

9.4.2 Teaching period of 12 weeks duration or more

- Within first four weeks of teaching period commencement date, will receive a full refund of tuition fees for that unit.
- After four weeks of the teaching period, will not receive a tuition fee refund for that unit.

9.4.3 Unit withdrawal leading to no unit enrolment

- If withdrawal from unit(s) results in no unit enrolment in a course, clause 9.3 applies.

9.5 Offer Withdrawn by QUT

9.5.1 If an offer of a place is withdrawn by QUT on the basis of incorrect or incomplete information being supplied by the applicant/student, QUT reserves the right to retain 10 per cent of the first teaching period's published tuition fee for that year.

9.6 Academic Exclusion

9.6.1 Students who are not eligible to continue their course of study due to academic exclusion at the end of a teaching period, will be eligible for a full refund of any tuition fees paid for any future teaching periods, subject to any outstanding debts being paid.

9.7 Australian Permanent Residency

- 9.7.1** If Australian Permanent Resident status is obtained before the start of teaching in the offered course, the offer of a place as an international student will be withdrawn. Students will be considered for admission as a domestic (local) student in either a Commonwealth Supported Place, or full-fee paying domestic place in the same course, subject to course quotas, meeting all admission requirements for an Australian applicant, and the requirements stated in clause 9.7.3.
- 9.7.2** If Australian Permanent Resident status is obtained after enrolment and prior to the Census date for the teaching period in which enrolled, students will be considered for a Commonwealth Supported Place (subject to availability) or full fee paying domestic place in the same course subject to course quotas and the requirements stated in clause 9.7.3.
- 9.7.3** Students must provide original/certified documentary evidence of their Australian Permanent Resident status (visa date stamp in passport) and pay fees up front by the census date for the teaching period. Any remaining fees held in their QUT account can be refunded upon application. Students who are offered a Commonwealth Supported Place must also complete a Request for Commonwealth Assistance form by the census date of their first teaching period.
- 9.7.4** If students fail to successfully complete all necessary requirements detailed in clause 9.7.3 by the Census date of the relevant teaching period, they will remain an international student liable for international student tuition fees, until the next teaching period.

9.8 Provider Default

- 9.8.1** Refunds in the circumstance where QUT defaults on providing the course are covered by the provisions of the ESOS Act 2000 and the ESOS Regulations 2001.

10 Payment of Refunds

- 10.1** Request for tuition fee refunds must be made on an International Refund (IR) Form, with appropriate supporting documentation and submitted to Student Business Services. The IR Form can be downloaded here www.student.qut.edu.au/forms#h2-6
- 10.2** A refund can only be paid if QUT has received the money and it has been entered into its accounts, and all debts to QUT have been paid.
- 10.3** Refunds are normally paid in Australian dollars, and can be refunded offshore by telegraphic transfer, or transferred to another Australian education institution. Students requesting funds to be transferred to another Australian institution, must include full bank details for that institution.
- 10.4** Refund payments will be made within 28 days of submitting the completed IR Form and all required supporting documentation. If QUT is unable to provide the accepted course of study, or withdraws the offer of a place, a refund will be made within two weeks of that notification.
- 10.5** All refunds will be made payable to the student, except formally approved sponsored students. All refunds for sponsored students will be paid to the sponsoring body and not individually to the student.
- 10.6** Students who have paid extra fees may keep the credit balance in their account to offset tuition fees payable for the next teaching period.

- 10.7** English language program students with package offers who meet the English language entry score for their principal course at QUT but who have paid for more ELP classes, can have that extra payment transferred to their principal course.

- 10.8** Requests for refunds of Overseas Student Health Cover (OSHC) must be made directly to the student's OSHC provider.

11 Appeal Process

- 11.1** If a student is dissatisfied with the outcome of a refund request, or Cancellation for Non Payment of Fees, a written appeal can be made to the Director, Student Business Services, or if an English Language student, to the Director of Studies, English Language Programs.
- 11.2** If you are not satisfied with any decision made by QUT, or if you have any complaints about the services provided by staff of QUT, the University has a grievance resolution policy. Details can be accessed through the web based QUT Manual of Policy and Procedures - Grievance resolution procedures for student related grievances, at www.mopp.qut.edu.au/E/E_09_02.jsp If you continue to be unhappy with these processes, you can use an external agency, such as the Queensland Ombudsman, to obtain an independent assessment.
- 11.3** In the event of a disputed refund amount, students have the right to pursue other legal remedies. QUT's student grievance procedure does not remove their right to take further action under Australia's consumer protection laws (ESOS Act 2000-Sections 27-32, National Code sections 43-441).

3. QUT International College courses

Course (Please specify Bachelor program and Major)

QC02 Foundation / QC04 Extended Foundation + Bachelor of Major

IT10 / BS40 / IF06 University Diploma + Bachelor of Major

4. Current passport and visa status

Do you have a current passport Yes → Include copy of passport. No / /

Date passport available (dd/mm/yyyy)

Are you currently in Australia? Yes → **What type of visa do you have?** Student Which institution are you studying at ?

(You must include a copy of your current Australian visa with your application) Other visa What visa type?

No I will apply for a student visa.

5. Educational qualifications

Please give details of all your secondary education and other post-secondary courses that you have attended or are currently studying. You must attach certified copies of your academic results, including English translations where necessary. QUT GMAT code is 1677. Original academic records or portfolios will not be returned.

Name of school or institution	Name of qualification or examination (eg SPM, STPM, GCE 'O' and 'A' level, BSc, etc)	Attendance dates month/year to month/year	Course completed? yes/no

Do you intend to apply for exemptions (credit) on the basis of previous tertiary study? Yes No

Have you ever been excluded from previous tertiary study? If yes, please attach details. Yes No

If you have previously completed a degree course at QUT do you wish to be considered for the QUT alumni scholarship for a subsequent QUT degree course? Yes

This scholarship offers a 20 per cent reduction in the first semester's tuition fees. To be eligible applicants must not use an agent at any stage during the application process, full details are at www.qut.edu.au/international-students/applying/step-4-check-costs-and-scholarships

6. English proficiency

Please tick appropriate boxes

I have taken an: IELTS (academic) test TRF Test Report Form number

TOEFL test (QUT TOEFL code is 9778). Registration number

I will take a test on:

/	/	/	/	/	/	/	/
day	month	year	/	/	/	/	/

You **MAY** be exempt from taking a formal test if your secondary or tertiary studies were conducted entirely in English and you have passed an English language or one or more Communication subjects. Please refer to English Language www.qut.edu.au/international-students/applying/step-3-check-you-meet-the-entry-requirements/ for further information about the minimum level of English proficiency requirements for admission to QUT courses.

7. Employment details

Some postgraduate courses, eg Master of Business Administration, require work experience for course admission. For QUT admission entry requirements refer to Studyfinder at www.qut.edu.au/study Provide certified/originals of dated work experience statements from employers or other appropriate evidence.

Years to	Full-time/ part-time	Description of occupation and experience	Employer

Applicants for ED26 and NS40 only: I certify that I have the necessary qualifications to be professionally registered in my home country as a teacher/nurse. If **yes**, provide certified evidence of registration.

Yes No

8. Supporting statement / extra information

You may wish to provide extra information to support your application. Also, if you have any disability that may affect your learning (eg vision, health, mobility) you should provide early advice so the University may assist you. Please attach additional information on a separate sheet.

9. Privacy statement

The information collected on admission forms is used to determine whether you may be offered admission to the University. If you enrol as a student of QUT, the information you have provided on this admission form will be used to administer your enrolment, to offer other services to you and to provide statistical information to the Commonwealth Government as required by law. For full details of QUT's practices regarding student information and privacy www.qut.edu.au/privacy

10. Declaration (all applicants must sign)

By submitting this application I agree to comply with the statutes and rules of Queensland University of Technology that apply to me and as documented on the QUT website available at www.mopp.qut.edu.au/Appendix/. I further agree that I am subject to and must comply with any policies or procedures of the University governing my conduct as a student, and academic matters affecting my studies, including but not limited to, the QUT Student Code of Conduct www.mopp.qut.edu.au/E/E_02_01.jsp and the procedures for management of student discipline www.mopp.qut.edu.au/E/E_08_01.jsp. I declare that to the best of my knowledge the information supplied by me is true, correct and complete in every respect. I acknowledge that the submission of false, incorrect, incomplete or misleading information may result in cancellation of my enrolment or delays in processing. I acknowledge that I am responsible for the payment of all student fees and charges applying to my admission and study at QUT. QUT shall not be liable for any failure to provide services (including lectures, tutorials or examination results) or any teaching or other materials to students where such failure is due to circumstances beyond QUT's control. Such circumstances include, but are not limited to, natural disasters, malicious damage, outbreak of pandemic disease, industrial action or strikes, acts of war or acts of God. I acknowledge that it is my responsibility to provide all necessary documentary evidence of qualifications or experience. I authorise QUT to verify such records through QualSearch or grant my consent for other educational institutions, admissions centres, government bodies or employers to disclose information about my qualifications and experience directly to QUT.

I have read and understood the University's admission procedures at www.qut.edu.au/international/applying, admission requirements at www.qut.edu.au/international-students/applying/step-3-check-you-meet-the-entry-requirements/, privacy statement, and the international tuition fee and refund policy and its conditions at www.student.qut.edu.au/fees-and-finances/study-costs/fee-schedule. I am aware of the likely costs of my stay in Australia and I understand that neither QUT nor the Australian Government is obliged to help me if I require financial assistance. I understand that if I have children between the ages of 6 to 15 who will accompany me in Australia, I will be required to pay compulsory school fees. I understand that any information I provide to QUT may be made available to Commonwealth and State Government agencies, and to the Fund Manager of the ESOS Assurance Fund, pursuant to obligations under the ESOS Act 2000 and the National Code.

<input type="text"/>	<input type="text"/>	<input type="text"/>	<input type="text"/>

Have you ever been excluded from previous tertiary study? If yes, please attach details. Yes No

7. English proficiency

Please tick appropriate boxes I have taken an: IELTS (academic) test TRF Test Report Form number
 TOEFL test (QUT TOEFL code is 9778). Registration number
I will take a test on: / /
day month year

You **MAY** be exempt from taking a formal test if your secondary or tertiary studies were conducted entirely in English and you have passed an English language or one or more Communication subjects. Please refer to English Language www.qut.edu.au/international-students/applying/step-3-check-you-meet-the-entry-requirements/ for further information about the minimum level of English proficiency requirements for admission to QUT courses.

8. Scholarship applicants

Have you applied for or been awarded a scholarship for the preferred course of study on this application? Yes No

If yes, please indicate the name of your sponsor organisation:

Please attach official provisional documentation from your funding organisation, including course of study, duration of scholarship, scholarship value and what is paid by the scholarship, eg. tuition fees, Overseas Student Health Cover (OSHC). QUT can only accept payment for tuition fees and other associated course costs. QUT cannot accept payment for living or personal expenses.

Endeavour International Postgraduate Research Scholarship applicants (IPRS)

Please refer to the IPRS applicant information available in the Scholarships section of our website at

www.qut.edu.au/study/fees-and-scholarships/scholarships-and-prizes/international-postgraduate-research-scholarship-iprs

This is an Australian Government scholarship, awarded on academic merit and research potential which covers tuition fees and overseas student health cover for up to two years for a Masters by Research and three years for a PhD degree.

Do you wish to be considered for a scholarship? Yes No

If yes, please nominate the scholarship(s) you wish to be considered for:

1. 2. 3.

Alumni Scholarship

If you have previously completed a degree course at QUT do you wish to be considered for the QUT Alumni scholarship for a subsequent QUT degree course? Yes

(This scholarship offers a 20 per cent reduction in the first semester's tuition fees. To be eligible applicants must not use an agent at any stage during the application process. Full details are at www.qut.edu.au/study/fees-and-scholarships/scholarships-and-prizes/alumni-scholarship)

9. Academic referees

If you wish to be considered for a scholarship, please provide the details of two academic referees who are familiar with your current research or research potential and request them to complete the academic referee reports available from www.qut.edu.au/?a=22338. The two academic referee reports must be received by the Research Students Centre, Queensland University of Technology, by the scholarship closing date.

10. Supporting statement / extra information

You may wish to provide extra information to support your application. Also, if you have any disability that may affect your learning (eg vision, health, mobility) you should provide early advice so the University may assist you. Please attach additional information on a separate sheet.

11. Privacy statement

The information collected on admission forms is used to determine whether you may be offered admission to the University. If you enrol as a student of QUT, the information you have provided on this admission form will be used to administer your enrolment, to offer other services to you and to provide statistical information to the Commonwealth Government as required by law. For full details of QUT's practices regarding student information and privacy www.qut.edu.au/privacy

12. Declaration (all applicants must sign)

By submitting this application I agree to comply with the statutes and rules of Queensland University of Technology that apply to me and as documented on the QUT website available at www.mopp.qut.edu.au/Appendix/. I further agree that I am subject to and must comply with any policies or procedures of the University governing my conduct as a student, and academic matters affecting my studies, including but not limited to, the QUT Student Code of Conduct www.mopp.qut.edu.au/E/E_02_01.jsp and the procedures for management of student discipline www.mopp.qut.edu.au/E/E_08_01.jsp. Do NOT send cash or personal cheques to QUT.

14. Checklist

Please tick each box to indicate that each item has been completed or enclosed where appropriate.

Have you:

- read and understood the University's admission procedures (www.qut.edu.au/international/applying), admission requirements (www.qut.edu.au/international/applying/step-3-check-you-meet-the-entry-requirements), privacy statement, and the international tuition fee and refund policy and its conditions (www.student.qut.edu.au/fees-and-finances/study-costs/fee-schedule/table-j-international-tuition-cancellation-charges)
- attached the A\$55 (A\$50 + 10% GST) non-refundable application fee
- completed all sections of this application form (where applicable)
- attached certified/notarised documentary evidence of English language qualifications (where applicable)
- attached certified/notarised documentary evidence of all academic studies undertaken (including studies not completed)
- attached proposed research proposal
- attached a curriculum vitae (CV)
- attached applicable copies of abstracts (publications)
- attached original documentation from sponsor organisation
- attached completed MOU and application addendum (external applicants only)
- made two copies of the referee reports and forwarded them on to the referees (IPRS applicants only)
- ensured the academic referees' reports are returned to the Research Student Centre by the scholarship closing date.

Guidelines for Completing the International Research Application

General guidelines

1. Please complete the FR Form only if you are applying for entry to one of the following courses at QUT. If you are not applying for one of the listed courses, you should use an F Form.

IF49 Doctor of Philosophy (PhD)

Professional Doctorate

ED11	Doctor of Education
HH50	Doctor of Social Science
HL90	Doctor of Health Science
IT81	Doctor of Information Technology
LW50	Doctor of Juridical Science
KK59	Doctor of Creative Industries

Masters by Research

BN71	Master of Applied Science (Research)	IT60	Master of Information Technology (Research)
BN72	Master of Engineering	LW52	Master of Laws (Research)
BS92	Master of Business (Research)	JS52	Master of Justice (Research)
KK51	Master of Arts (Research) (Creative Industries)	HH40	Master of Arts (Research)
ED12	Master of Education (Research)	SC80	Master of Applied Science (Research)
HL84	Master of Applied Science (Research)		

2. **Fees.** For information on fees, please refer to the enclosed courses booklet.

Instructions for completing the FR form

Section 2 - Preferred course of study

Higher Degree Research (HDR) students are permitted to commence their course of study at anytime of the year and are not restricted to Semester 1 and 2 entry points. Please indicate your proposed year of entry and proposed month of entry in Section 2 of the FR form.

External enrolment. If you would like to undertake the course either part-time (external) or full-time (external), please complete the External Applicant Addendum and the Memorandum of Understanding between the external associate supervisor of the PhD candidate and the Faculty supervisor at QUT. These forms are available from the following website:

www.qut.edu.au/study/applying/phd-and-research-degree-applications/step-5-agree-on-a-supervisor-with-your-faculty

Provisional PhD enrolment will become effective when the student pays the first semester's tuition and Guild fee and returns the completed enrolment form to QUT.

If students are travelling to Australia to study for less than three months at QUT, then it is possible to obtain a Visitor's Visa. If the on-shore period of study is intended to be greater than three months, students must arrive in Australia on a Student Visa. To obtain a Student Visa, a Confirmation of Enrolment form will be issued to candidates for the length of their proposed stay at QUT, as long as fee payments have been made and all course requirements have been met. If you travel in Australia on a Student Visa you are required to take out Overseas Student Health Cover (OSHC). Full details of OSHC are at the following website: www.qut.edu.au/international-students/predeparture/health-cover.

Where a student attends QUT in Brisbane for longer than 12 weeks per year, the student will be required to pay the appropriate semester full tuition fee before arrival at QUT. The cost of any communication or other expenses incurred offshore is the responsibility of the student.

Applicants applying for the PhD program should also refer to the Doctor of Philosophy Regulations available from the following website:

www.mopp.qut.edu.au/Appendix/appendix09.jsp

Section 4 - Research experience

Please prepare your curriculum vitae using the following headings:

Publications

Authorship:	Sole/first named/other joint author
Type of publication:	Book/book chapter/journal article or paper/conference abstract/oral paper at conference/art exhibition
Referred publication:	Yes/No
Title:	Full title of publication
Journal and page numbers:	(if relevant)
Publisher and ISBN No:	For books

For each publication, list the following information:

Employer details

Employer:	Name of employer
Industry:	Industry in which employer involved
Date started and finished:	Please indicate full-time/part-time
Position:	Title of the position held
Duties:	Brief outline of duties (up to 50 words)
Relevance to research:	Please comment on the relevance of this experience to your proposed research (up to 100 words)

Only include employment relating to your research career. List current and previous employment and give the following information for each position:

Section 8 - Scholarship applicants

If you have been awarded a scholarship for studies at QUT, please attach official documentation from your funding organisation. The documentation must state the course of study at QUT, the duration of the scholarship, the value of the scholarship and what is paid by the scholarship, eg tuition fees, student guild fees, Overseas Student Health Cover (OSHC). Please note that QUT can only accept payment for fees and associated course costs and cannot accept payment for living or personal expenses.

IPRS

Please refer to www.qut.edu.au/research/scholarships-and-funding for scholarship closing dates. Successful applicants will be notified in early December and study will commence in the following year. To be eligible for IPRS, applicants must not commence their program of study prior to the IPRS round being finalised.
